Worry of course wd be.

Don plans to take a seminar in Aug s'time after Paul's wedding & then help Marilyn S O'Hare actually live in Texas

God bless everybody

[illegible] but whites don't want to help black anything to do - [illegible] trying to [illegible] and [illegible] kids - usually [illegible] - hard to want to be [illegible] separate & unequal - white people ready to kill black people not so ready to retal[illegible] old people very tolerant

Got up at 7 00

Ate an orange & pita bread & tuna fish

Made yesterday's entry

Dave Harrison phoned at 9 30, picked me up about 10 00 — other passengers were Mrs. Harrison's brother, Lawrence & Anita Harrison, & we picked up Don Jackson, who is living in a commune on Bush St. — we left the city about 10 30

I stayed awake until we got on highway 5, then slept for a while

I had been a little worried because I knew Dave was exceeding the 55 mph limit & was not surprised when a CHP officer stopped him & gave him a ticket for driving 70 — he & Don argued w/ the officer, who

(over) C-1-A-1 (49)

threatened to arrest him for interfering w/an officer, but he let us go on — afterwards I told Dave & Don that even if Dave was not driving 70, he was going faster than 50, & we were lucky not to have had an accident — they should save their revolutionary fervor for a more worthy purpose

I got some more sleep — we stopped twice, once to go to the rest rm & the second time to get gas — I gave Dave $10 — the others bought sneaks & soft drinks — I ate my sandwich, orange & veg juice, & had a Pepsi Cola

I saw Dave give Anita a $5 bill when she asked for money — I wondered how Dave escaped being communal as I had said all in positions of leadership had to be communal — Anita, altho working in the Te better than she used to, was barely civil to me

I stayed awake when we went over

the I reverse, then dozed again until we reached L.A.

We drove into the Te grounds at 4 30

Luggage was being put in the Annex - I changed clothes & was in the Te at 5 00

Preparing for early dismissal, I had just let the Child file out - the Congreg. was going to the altar w/ donations - applicants were admitted to membership.

The serv was over about 6 00 - I then got see our Beulah

After a brief wait, we were taken home by X Harvey, whose car was packed - Beulah, in addition to the child. who usually stay w/them, was bringing Earline Watkins, [illegible] of supervising Billie, son of Betty Mae, Amanda Wright's brother, Emmett Wright - Jim Arthur Jones came w/ Beulah in

We got home about 9 00

We had dinner - I had a banana, rice, chicken giblets & gravy, & biscuits

I read an article on events in Rhodesia & Union of So. Africa in Newsweek, from

John D. Marks

Up at 8 00

I had a talk w/ Von Smith about his attit - he rarely gets to me, is lazy, slouches around, & won't carry his share of responsibility - Beulah had been complaining of him last night - I told him if his attit didn't improve he'd look for someone else to impose on, & that I wd report them to his commune - Beulah had him help w/ the dishes

— Harvey came for Earlene & me at 9 45 & drove us to the Tee - I put my luggage again in the Annex, was at the Audit by 10 30.

Serv started at 11 00

Attempt was made to get loans of cars for driving from LA to the Valley for the Fourth of July - resp not very good - rides had to be found for a few people who had no ways to get to SF

Rides were arrang'd

Congreg & choir sang

Johnny Brown started an opening - by it was finished I came out at 12 40

I asked for donations of cheap

watches, such as Timex, which will bring many times their cost in the p.l. – the Press was generous

J: have 2 child to take to the p.l.

He th another offering by sum

Awards made, mostly scholastic

Quiz period: he picked a pers. who inquired about a pers. profit aspect to the trip: this is a time for matters of truth, not pers. concerns – the truth shall set you free, those who live in a morass of pers. selfishness, you will never be free

Healings

I had people come up to the altar as he called out ailments

11 achievements of young people

The pers was dismissed

Those who were going on the trip had to stay + get their bus assignments

I find that the kitchen staff had put up lunches for all on the buses & also for those going back to SF

I changed my clothes & th my luggage out to Dave Harrison's car, expecting that we would get out early

13 June - Sa - 2

start but for that Dave had been assigned to take back a young woman with child - she had 2 child but someone else was going to take the other child - however, she had to get the child from their father & we waited for him for hour to get

In the meantime those going on the trip loaded the buses but they two were up a long time - 3 cars, incl. a van, were coming down from the Public Affairs S.F. & were late in arriving - some members, such as Carl Stahl, had to go back & intended to go back in those vehicles - it developed that Dave was have to take them if the Public Affairs cars did not come, & I might have lost my seat, since I'm on vacation mostly with

I stood up or sat in Dave's car most of the afternoon - so F's nap & conversed w/ diff people - watched J & his staff who were conducting business in the yard

I talked at some length w/ Vern Storey, C.J. & Smith

I filled Vern about the incident involving

(32) 1-A-1-D (over) C-1-A-1 (55)

Von Smith this morn. — he sd Von was not living in their commune (Shaw - Houston) - he gave so much trble & was such a bad infl on the younger child, that he was transferred to the Te Commune last wk - he had gotten of serious offenses, incl. threatening an adult & damaging property & lastly had had a bad fight w/ Mich Cordell - (Von had scratches on his face but had lied about their cause) - I told Vern about the speeding incident involving Harrisons & he advised me to write it up - he sd the Harrisons made up deficits in food over the weekends from their pers. funds were touchy & "diplomacy" was needed to handle them

X Smith told me he was working on the apartments belonging to the Te - they are being renovated w/ the plan to sell them, ad members are being moved up to SF - Sladys is living in a commune in SF - their younger child, are w/ Pat Grimmet in the Valley - Kristas is in the Shaw commune - J. Vance (Kelley) had been w/ Mary Wotherspoon in the Valley, but this arrangement did not succeed & he is now in the Te

as is Von

C.J. asked me about my plans to go communal & I told him my intentions in this respect - he has got his job w/ the arbitration service & is working w/ Dave Garrison on construction jobs - he makes almost as much money & likes the atmosphere better - besides the skills he is learning will be more useful in the p.l.

Finally 2 cars arrived from SF w/ the Public. Peggy - Patti Chastain, was in one, told me they had made a wrong turning -

About the time the vans arrived so did the guy woman, Melissa Jackson, w/ the 2 child - the final arrangement was for Dave Jackson to help drive someone else's car, & Dave the Melissa & the children besides me & his brother in-law whom he went after - Anita went on the trip

The buses, which had been waiting for the Publications staff, prepared to leave we left by them, at about 7 30

Dave forgot to meditate & when he did he did not keep his speed down to 50, & Melissa even spoke to him once

(over) C-1-A-1 (57)

//3 Dave & I had eaten our lunches by starting//

I did not sleep well because I was nervous about Dave's speed. We stopped twice, 3 went to the bathroom & got gas.

The Highway Patrol stopped him once, so he was going than 65 & 70, but Dave was conciliatory & the officer did not ticket him

About a hundred miles from SF Dave let the brother-in-law drive

We got 3 more worth of gas, for which I paid on Divisadero

I was dropped off at 2:30

//3 Once when I was digging, I woke when Melissa spoke of Marilyn Watson & Debbie Hencke - they had lived in the same commune but she said they were gone now - she did not know where they had gone nor if one of wives had left the other - she said Marilyn's companion had not been able to hold jobs//

I unpacked

Lor told me Michael & Joyce were very square in their attitudes & racially prejudiced - Michael is 22, has been studying law

I had hoped to be able to type straight ahead all day on the Venezuela contract & to finish it but problems & interferences arose all day - Phil Beinell wanted a contract put on ATS today - I told him he'd have to find somebody else to do it, or ask Galbreath to give him priority - otherwise I'd have to go to Betty Vail for a resol. - he got Kate Walker to do it but didn't have it ready for her to start until mid-aft - some more changes had to be made in Krilis contract & the page nos. for the indef put in & Keiko's 5 paras didn't have time to do these - I 11 & an express print - out ordered 11 started just by snow & spent nearly an hr on the lot.

Hor's format so as to get what Maggie
wanted - she decided to have it
typed in by Brenda

The sys. was down for about half
an hr preventing me from finishing
Galbreath's doc - I had five or six
pgs to go - I ordered a print - out
of what I had done - I had encountered
several inconsistencies in capitalization &
format, as well as odd wordage, not all
of it a result of translation

3/X After leaving the off, I took the bus to the
SF Coop & I bought a shopping cart, as
it will be useful to bring produce
home from the Hayes St. coop but
mainly to take laundry back & forth

The p.l. - not the pains & disappointments there this we have here - no one gave me a moments concern - gay people there disprove the doct. of orig sin - nothing to celebrate on this day of pain - some have gone out to be traitors & others will seem to go out to be traitors.

200? people sentenced to die by cap. punish decision in Th - Israel invaded Uganda today. US officials celebrated this in Congo. Ch. relig justifies all kinds of evil deeds - in Iran tried women do not even have a soul - in this city where relig doesn't reign, materialism does - some of you are very relig - I don't want title of God - relig has done nothing for Emer. - almost harder for a white person (or here) to enter soc than camel to go through the eye of a needle - white here are responsible here - do not teach anyone else's heart

Relations hip btw husb & wife won't last - spoke of women who left child - children know they don't stand alone - kept Jack Arnold's record clean - don't ask who has been a traitor, as he never lied to you

No one else can have taken last night - people build alliances but drop you like a hot potato - since expect "I'm not worthy" - that's doctr. of orig sin - in pl environment opport made the day.

When you hurt child, he never forgets it

Bob & I talked about how fascism might come to this city - I told him what circumstances in my opinion might cause it to be imposed & how a leader could come forward

Ray is living in East Horse - he spoke almost tearfully of what great power J has - J's statements: "before the Morning Star was, I was" & "I am Universal Mind" much impressed him

6 July – T

I expected Don to phone in today but none of us heard from her

I finished the Galbreath contract & sent off the portions I put on today – gave it to Lou to proofread

At lunchtime I went to see the film in the employees' series – it was called "Out to – " & showed a variety of artists, their wks & bits from their performances – emphasis was on the new & experimental – the only name w/ which I was familiar was Leonard Bernstein's, but the fellow artists were featured most extensively & were most enjoyable

Phil Bennel gave me the portion of the draft contract Kate had done for him – it concerned a nuclear power installation – he wanted a double-speed draft which presents probls in format but worse, the order of his sections was not consecutive & they had to be inserted in the proper places, & the material was very long – he wants an express print – out tom

& at the close of the day I did not see how I was going to get through it w/o help.

Typed all morn, on Bennel's contract, as much new material had to be inserted – then told Betty I said I might have to ask someone for help but by noon I felt I could handle it myself – later on I found that I was not another of one big section which also had to go in – fortunately no one else was working in the room in the morning

I ate lunch on the PG&E steps

Bennel wanted an express print-out – the deadline for ordering one is 2 or 3 o'clock – I had not been able to make minor corrections & w/diffi finished at 2'15 – I phoned the computer center to see whether they wd effectate my print-out – they were very cooperative but due to slow action by the messenger service I did not get it until at 3 o'clock

Tape from last night - credit - motion - trying to revoke the exemptions of churches should do anything but sing, friends, pray - if you do humor, wh, you violate the law - we had better be about our Savior's business - capitalism is evil - we are sitting in a powder - we send for a million blacks to wh for their freedom - they have sold out our birthright, not for food, but so the white man will smile at us - instead of eradicating the horrible sub conditions, they're going to kill us

Unto us is a Savior given - we shall be freed - sin knows now how to conquer death - he interspersed many references from scripture

Some have deserted, one fled - a thousand may fall at our left hand & a thousand at our right, but nothing shall come nigh our dwelling - well be there if you try to convey from God

Jan 3 '70 - talk of Bradley as repes candidate - he doesn't stand for anything - bl men can be used to catch Jesse's pols. - the same system will cont whether we have a

all mayor or v. pres - all the officials have sold out - if Brad were any good, he wd have reformed this vile pol. syst - I have not come to be destroyed but will destroy the works of the devil

He warned agst conspiracies agst the leader - people who grumble agst the workers, the first stage - you rebel agst organizing - stay w/the cops & you will not die - sowing seeds of discord - I can see a major probl coming - we can't even be on time, stay awake for services - the record follows the same routine for 40 yrs - that's why they'll win in Cmen - some of our child are too lazy to live - might as well pull chickens' teeth to get someone to donate their car - you can't hurt me - I was crucified long ago - spoke of reunion here - some of you are the chauvinists - blacks won't get any of the treatment - you are brothers just as much as those who have left, those who sow discord - you're not going to be as good a mayor as some of the people here - Jim not Tables w/ the reunion, Jim Tables will reunion today - I won't sit around & watch decay of a movement

We're not in real danger - you want a new cap, new councillors - what do you have

someone in mind? Where get you out of jail, who at all night? — all alliances shd be broken up — [illegible] traitors — marriages etc in name only do nothing to adv. the rev. — people buy you off by buying you a sandwich or taking you to a show — [illegible] the capt & the first mate but you [illegible] a lot of little children killed or starved

He spoke of those who have gone out & then others w/them — [illegible] never thrust them again — some wanted to come back — don't show you heard in time of battle — show that we can't be menaced with — I am always fair, no matter how many people have been harassing me — no one here who compares w/those who have gone out — never have anyone to go out & stay out who hasn't become a devil — don't wreck the only lifeboat on this trifled sea

Don't grumble or grife & [illegible] write up anything you see wrong to me — no grumbling, no shirkers, no [illegible] she never wanted to wh. [illegible] I never trust you — she left little child — we're going to have to see some courageous actions — I won't keep people in gaol, in the chob placate them — you can't placate

I have not felt well all wk, have had much trouble w/ allergy which came on me Su, tho it was better today

X Dor was still whing on her ofts – she had acted somewhat distant all day but I thought her mood was prob caused by her dislike of doing the ofts – I had made sev mistakes of omission, since the Kilia & Walf. jobs were complicated but had corrected them all – another little point arose concerning the Kilia docs & I made a mild inquiry as to whether it had to be done today – it was about 4 15 – this set off a diatribe from Dor – she complained about my lack of diligence recently, implied that my efficiency let down at the beginning of the wk & the end – she did not have

Tho I had set the alarm for 6^30 I got up at 6^10 - I was able to start for wk earlier than usual, at 7^20, & got into the off by 8.^00 even after picking up the print outs at the computer center - Don was on the elevator w/me as she had got her son started earlier this morn

I filled out my time cd — Don showed Mary how to do hers

No wh came through for any of us this morn — Don could wk on invoices — told Mary & me to do whatever we wished — I completed gnral entries

I ate outside on the P&E steps — the day was pleasant but a little breezy — when I reld to the off Don by an offhand remark revealed that Betty Vasil in requiring Mary & me to keep my lunch hrs clear told Don she she go out for 45 mins — Don persists in eating at her desk

Had stacked the dishes & was about to wash them when Bob called - he had the car in running order.

We ~~got~~ into serv about 8^10 - attendance was ~~get~~ very sparse

A count was made of those who weren't going to L.A. - Wesley said about 100 people weren't going (a low count in my opin as many people were not in serv yet) - he urged all to come to Mothers serv which she makes an effort to hold in Jo's absence - he asked those who were present to call some other member

C-1-A-2 (90)

J came on the podium during testimonials about 9.00, then left

Norm took an offring

J referred to 3 rich young men who kidnapped 26 child. & busdriver - newsmen, neighbors say how good they were- they're misunderstood (ironically) - if it's poor black, poor white, they're hoodlums - rich child. are always very nice - they won't serve any time, because money buys anything in this cty.

Someone downstairs now who got in trble, came for help - he was not inclined to give it

The Cleaver trial today shows our power

J: I know that some don't want to go to the p.l. - we'll give you a church and you can come and have church & sing to yourselves - don't want to force anybody to go when they don't want to go - if you work for us while you're here, when the sit. gets bad, come to us and we'll take you in - if you haven't worked for us, keep running

J took offring by sum

Two films on "People's China" shown - had a white narrator - first was "People's Communes," the second "People's Army." One or both ~~Ih~~ have seen before - J. said they have anti-revolutionary commentary but to us they don't look bad. - Amer. breeds alienation & suffring - the child gone from here 3 weeks has been out shooting cocaine - we're programmed by TV - I will take my chances on soc. - I wd be glad to give up a few individ. indulgences to live where there is no crime-

(cont)

C-1-A-2 (91)

relationships in this country based ~~a~~ on sex are superficial - none last - the poor have no chance - you wdn't have anything if it weren't for this grp - as Mao sd, the people are God - Christianity has been arnd for2000 yrs and has done nothing for anyone

Quest. period - Indian woman tells of pol. sci. class at Laney where they had trble keeping their ethnic class - she asks if we'll have an oppor. to go to China & Cuba - J. says soc. ctys arrange scholarships for youth - but the imp. thing now is survival - we'll have time later for travel, now we must wk - we're facing genocide - now we must wk to save our child.

Quest. by Joicy Clark: will there be any more exposure of Watergate? - J: they're not going to expose corruption - they are investigating who's screwing who - while big business buys congressmen, nothing is done to reform the tax structure - the rich screwing the poor is what I care about - to a question on deferring the implementation of capital punishment, J sd: yes, until the elections are over - the people are going back to relig. - you can't get people away from relig. - relig. is the worst disease there is - the cty is full of mad dogs - I've got people in here who believe in capital punishment

There's no use going down the tubes for a bunch of stupid people - he referred to spoiled children - our child. will be destroyed: shooting coke, snatching purses, breaking car windows - getting a Baptist for pres., we should get out of here - only a robot can keep from getting mad - not one of those three yng men will go to the gas chamber

After elections, you'll be sorry you didn't sell yr house, extra clothes, junk jewelry & give us the money to help build up the p.l.

Question on the Key Plan in Contra Costa Co. - J. didn't know what it was - someone expln'd it was a means by which Medical recipients were required to go to certain doctors or hospitals - pressure ~~was~~ put on people to join - benefits are going to be cut for those who don't join - J sd wd have to join if you lose yr benefits - here we go down the road to dictatorship

Quest. on Dennis Banks present sit - J: not very happy about Dennis Banks - he didn't keep his promise not to talk about certain subjs. - he didn't want to be associated with socialists

If you want to stay back, stay here and sell what we can't get rid of.

The L.A. church is up for sale - the police there are Gestapo - we cannot center there.

J. has had some contact with Jack Arnold - he wishes he hadn't left us - he said he has great respect for J's foresight - the financial straits of the ins. cos. is an ominous sign

14 Aug - S

Up at 9 or

Went up to the Haight - Ashbury to the second-hand stores to buy a few items I need for my trip - a pair of tennis shoes, a pair of walking shoes, 2 pr of pants & a light house coat

Prepared & ate a snack & did dishes

Listened to the Te broadcast - the panel disc was on the power of mind & was concerned w/so-called miraculous happenings, and exclusively healings

Cleaned the apt

At 4 or so slept for a couple of hrs

I sorted out the clothes I am going to the Te - I have 2 big bags

I was about to eat some melon when Bob called - he picked me up at 7 45 & we arrived at the Tea 8 or

As we were entering, [illegible] fourth Jo was come, [illegible] together - he was apparently reacting to the Tl. testimonials being given, and there was the usual disc of Bolt. & other matters [illegible] that he devoted to humor & [illegible]

By the time I came upstairs, there [illegible]

(over) C-1-A-3 (53)

feeling generated an atmosph of praise & re-joicing.

I came on podium & either Rich Cordell had just taken an offering, he said it had not been sufficient, & the another - he said too many were going to stores, buying new clothing, & buying things they don't need - if we enjoyed buying articles in stores, going to movies, liking at TV shows, & eating in restaurants, there was too much of Satan & Homosexual in us - you are not only in Sat & Hom, but Sat Communism is in you.

A film was shown, "Christ and the Speaker", w/ Sidney Poitier & Harry Belafonte, directed by Poitier - it concerned the ~~the~~ wagon trains which were organized by blacks in the South the Civil War & moved to the west & were harassed by Southern night riders who were intent on keeping their slave force - the film showed Christ there the Ch & Christ in helping the blacks get to freedom - the photo was stunning, & the sound in the theatre was bad - The film was more fop w/ the crowd than any I remember being shown in Th. T.

14 Aug - S - 2

Films of the P.C. were then shown - most of the scenes had been shown previously

I performed healings

The 7th an offering for the sick need of one of our members

The serv was dismissed about 12 30 - I said there was to be no fast meting - the aud. cdn't stay to work for arranging houses

As Beulah had not come, I volunteered to Judy Flowers to take someone else & Florie Styer was assigned to me - Christians did not have room for me so we waited for Glenn Henrington to take us along w/some others - ~~we arrived home at 1 30~~

I pd to Diane Lorie $20 for my ticket to the testimonial dinner in honor of Jim on 25 Sept

The plane left at 10^00 - I was served 2 glasses of champagne - I ate the S + Sw nsps - I tried to sleep but couldn't - the flight was only a little over 2 hrs

We landed at about 1^00 Denver time - I had to wait at the baggage claim for Eddie & Ann + they didn't come for an hr - Eddie had said they might go to a show - however, they had gone out to ✓

Their greeting was warm - we went to Eddie's home, talked awhile - Eddie showed us the house - she has finished putting up the second story - all the electrical equipment has been installed & the w' living upstairs, but the whole house is as cluttered as ever - she has, of course, a ✓ dinner w/ my ex-Struble w/ [illegible] visited a couple of days - [illegible] then the time my p.d. 16 Aug - M

I slept until 9 or - the rm I was in - was so dark I cdn't see anything - Dor & Eddie were already up

I had some cantelope & Sanka

We spent most of the morning talking - Dor told us of Paul's wedding - the bride was Polly Williams I Dor had some snapshots - it had been a simple wedding conducted by a Unitarian minister in the garden of the parents' house in N.J. - Polly's father is well to do - Paul has his own business designing buildings

Dor's chief topic was her affiliation w/ Madalyn Murray O'Hair's atheistic grp - she still dislikes the T's identity as a ch tho she is not bitter about the incident in Chic summer bef last - she fears being the object of J's "occult" abils.

Both Dor & Eddie warned me to avoid disc of J & the Ta w/ Mads - they are concerned about her mental condition - they think she is drinking too much, but she has too few interests -

(over) C-1-A-3 (6X)

They think she shd get rid of her house + do not understand her reason for keeping it - her finan sit is not good but not desperate - I promised to be careful in disc w/ Mrs

^ The three of us went for a short walk w/ Eddie's 3 dogs - the weather was ideal.

We had a light lunch

11 Eddie has rented the downstairs portion of her house, bedroom & kitchen to a new teacher at her sch, a young woman - the arrangem will give Edna more secur.

Eddie intends to retire in perh another yr - she will get a pension from her sch admins.

We drove to Denver, stopping at a shopping ctr on Wadsworth to make a few purchases - I got some zippers for my 2 dresses w/ Eddie's advice - Denver was very hot

Eddie drove through Barnum where we had lived as child & we looked at famil sites - she & Don remembered them better than I did

We had dinner at Stouffer's

airport - we had salmon - we that too much attention had been given to any embellishments; the food was not extraordinary - prices were high - we paid $8.50 for the entree alone - Don paid for the dinner

At 8.00 we picked up Kabs at the airport - we find him right away altho we had not been certain of the airline nor flight no

Kabs was in a good mood tho his complexion seems muddy + she has gained weight - she was happy be-cause Mirinda has just taken a job in Washington w/some experimental agric. proj. of the govt, starting in Oct - the climate in Montreal is hard on her - Tagore is fine - he suffers from allergies + has to have a restrictive diet - she says he has a hot temper - he looks like Matthew

X. We spent some time in getting out of town as Eddie took the wrong turn

11.00 Kabs is still smoking heavily

We went to bed at 11.00 - Kabs slept in the same room as J

17 Aug - T

I slept soundly during the first part of the night, woke at 4^00 & didn't get back to sleep - Mabs slept rather restlessly

I got up at 5^30, made some tanks, that I did make final entries - but Mabs joined me & we sat talking until Eddie & Don got up

~~We had~~ toast & eggs for bkfst

When we had dressed we went in the car w/ Eddie driving us to see sev of her friends in the locality, to her sch to meet her principal, whom she likes very much, to the vet w/ one of the dogs who was limping on one foot - we had a hamburger for lunch - Mabs & I shopped for food for tom while Don & Eddie went to the beauty salon & had their hair done

From what convers I have had w/ Mabs, she is not as opposed as Don to bel in some form of spiritual power, but she does not think highly of J J's extra sensory

perceptions – however, she is very concerned about soc. issues & agrees w/me about the harmfulness of the present sens. laws.

On our rd we visited another of Eddie's friends – I had 2 glasses of Scotch & was very tired

I slept for an hr & a half

Then a shower while Mabs told the others of some of her relationships

Eddie had borrowed a projector from the cabs & showed the films I had given him of her, Paul, Mabs & Edna, Friends, Mathew, Mother & the ranch

We had dinner which Edna prepared: T-bone steak, baked potato, mushrooms, toms. – I had paid for the food

Mabs told of the trial & sentencing of the man who attempted to rape & murder her – he "copped a plea" was sentenced to seven yrs, & while he served two – she does not think he was rehabilitated

Mabs told of some of her efforts

We packed & got ready for going to Dillon - we talked so much that we were very slow & didn't get away until 1:30

We had called my aunt Josie & told her we wd be coming - Ben & Florence came from Fort Collins & we phoned Laura in Pueblo - she drove up directly

We stopped in Idaho Springs - Mabs & I had a hamburger & a root beer

Just out of Idaho Springs rain began to fall heavily & we pulled to the side of the rd at Edna cd not see the rd very well

~~A Tunnel has been dug under Loveland Pass because of the numerous skiers who go across the Divide on weekends~~ - it save a good deal of time but one misses some of the scenery

We arrived in Dillon about 3:30 - they had expected us much sooner & were

worried – Ben had taken Laura sightseeing – w/ Josie driving we all followed them – we first went to see the site of "the ranch", which my grandfather & then my Uncle Earl owned & where we had spent some of our summers as child – now the land is flooded – the ranch house burned down several yrs ago – the old barn & tool house are still standing & are still in use – condo-miniums & other tourist housing have been built in other places – the whole area has had a tremen-dous growth in population – the lake created by the dam built by the Denver water district is used for recreational purposes & the water goes to Denver

We then went to Keystone to see more condominiums & a fancy hotel built to accommodate skiers & summer tourists – we had met Ben & Laura on the way

Ben is now 67 but seems to be enjoying life, tho he was a stroke 2 yrs ago – he is retired from the Forest Service – Florence has a gall

Bladder attack last yr - our cousin, Laura, is a home ec teacher, is married to Ralph Cheney, who they have six child

Josie spends the summers in Billings & the winters in Mesa, Ariz - she seems the same as ever, very mild - tempered & agreeable - Florence also is much the same, very critical, esp. of people's housekeeping.

For dinner we had steaks, an eggplant dish, green beans, & cake - We discussed politics & gave a report inf on all the child. & other relatives - Dor was quite voluble on her children 3 Ben is concerned about environmental issues but is conservative on the subj of economy in govt, preg. gov welfare recipients, racial relations - Flo was even more narrow-minded on the racial question -

Ben & Florence's daughter Roberta is married & they have one child - the [illegible] have housemaid

We dressed & went to the city for dinner - we walked and a rehabilitated area called Lawrence Sq & ate at The Lafitte Steak. - it was a high-class rest - we all had seafood & wine - Don got the bill

We then went a store which sold plants & she bought one for Joyce - Joyce, who is a close friend of both Mabs & Don, is the daughter & wife of rich men - the father owners the Republican Dry Goods & Mr Struble owns a hardware co - Joyce was in the store & is, according to Mabs & Don, quite liberal - she is deeply involved w/NOW = the Nat Org of Women - she has done many services for Mabs & Don & they always invite her when in town - I remember meeting her only once

11 Don met her yrs ago when she was working at the Historical Society in Lolin's Pipe Store

We then drove to the airport - but plane wasn't until about 4 pm - we had a drink & talked w/her until about 2 pm - both Edna & I had some items to show her - Edna's were items used in

~~Fred Radicalism in America~~

We had more disc - Mabs gave more detail on the assault she had undergone when a nrg black man had attempted to rape & murder her in about 1971 - when he tried to rape her she got him off, he then stabbed her 3 times & threw 2 objects at her face; living her for dead - she described the plastic surgery she had which was remarkably successful

I learned of the future set of each sister - Mabs is able to get along on her annuity, supplemented by her home

(over) C-1-A-3 (77)

teaching - I don't think the nursery is returning anything to her & her partner that they don't put back in the business but she says they have a firm foundation & an excell. reputation - the house is run down & needs much work but she refuses to sell it or cut of the garden

Edna plans to retire in another yr - she makes twice the salary I do & Alice leg her 17,000 - most of her surplus has gone into the house & "she will get retirem pay from the sch. distr until old enough to draw soc sec"

Eddie & I discussed the reunion we had had, agreeing that it had been very successful & we had not had any angry arguments - we are all concerned

(over) C-1-A-3 (79)

about each other & reassured that we are all well. - even Hab is in a better condition than we had expected, tho we wish she didn't smoke or drink so much - Edna said they were pleased that I was happy, had friends & are now convinced that my retirement is taken care of - she asked if I thought they were selfish - I told her the whole country was living at a level which was beyond its deserts

My own conclusions are that altho not racist & altho they back many progressive ideas & movements, they refuse to accept the seriousness of the situ - all have faith that reformist solutions can & prob will be found to our national probs. - they are bound by ties to loved ones & props they own - Edna is so adamantly anti - religious that she cannot accept any phenomena which she regards as supernatural - she also lacks sympathy w/ all living things & to a certain extent w/ people - I did make some headway w/ all of them in leading them to view extra-sensory occurrences as real

We arrived at the airport at 1^30 - Edna did not come in

At 6 or meditation I went to get my friend from Magnolia - Christians were not there & on my inquiry Mag told me they had moved - from her [illegible] I inference it seemed to me there may have been a misunderstanding - Mag also, was very hurt news of the [illegible], feels because she

Ate lunch quickly at my desk

Then the bus up Mission & paid my telephone bill & then paid my bill at PG&E

Maggie brought back the Sonotrach affidavit (for the third time) w/several changes in both Fr & Eng - Don had the basic doc on Mag Ca & I entered the changes, but doing the French version was quite a chore & I had to put in w/pen the accent marks - then Maggie brought the Fr. version back for another change - I barely finished by closing time

Got home about 5:30

The [illegible] with [illegible] that the power ice cap [illegible] There is drought in regions where [illegible] instability [illegible] - [illegible] & [illegible] are occurring - nuclear war threatens - a recent [illegible] of Carter gave an 85% certainty of [illegible] collapse - having made [illegible] predictions of disaster, I warned [illegible] by stating that CH is apathetic [illegible] we can save ourselves [illegible]

did not - she had phoned Bob's mother & startled him by saying he had been murdered. I gathered he had had sexual relations w/ a female minor child, had taught deviant sex practices to a young person on welfare (Prof Science) - she said she was living at her grandfather's & stood to inherit a good deal of money but she was obviously not happy.

Harry (I gathered he may have left the following Fri's (for example) had said the Baptist mission in Hong, is a concentration camp & that people do not escape - I said the end that any lad could go to the Amer consul & ask to be sent home, & repatriation was obligatory - Harry had made his treasonous remarks to Teresa Ho.

with our cars & buses - he was very severe about these malfeasances - he seemed very discouraged & contrasted the loose behavior of many of our members w/ his own twenty-four hr dedication to our welfare - he doesn't for the fleet for who can and etc to get in the bus to sort A.A - & we don't be engaged fleet w/ bus - we were wonderful! they just made demands on them - the same example [illegible] made a [illegible] to [illegible] Roller who sent them up to [illegible] Tribal, referring to a [illegible] article contributed concerning the Hollywood film makers who are now sending crews to Spain to take advantage of the cheap labor

He remarked on the fear of death evinced by many at sight of the electric chair — a good socialist will not fear death — it wd be the greatest reward he cd receive

Anthony Doswell had been rptd by Denny Beck for trying to tear up a post in the men's rm — his dad, Hugh Doswell, was, however, the focus of attention — he left his post in L.A. though he had given his wd to J that he wd pay attention to duty — he wrecked another car last wkend — J sd that he was continuing his pattern of wkng little & causing us trble — "you come & go as you want — Archie sd, don't send me this man again — you stand thru us & your child every time & encourage hostil. — for the sake of yr child we have given you an oppor to wk & produce" — when Laverne's wrongness was pointed out, you used it for yr own purposes — I've never seen any body have as humiliated as you & A was given some $40 for clothes, had spent some of it for food, two meals are provided

in the commune - I sd he was to turn over what is left, wh all night, get a job tom - "if you don't, (wh) you go, whoever stands w/ you will go too" 11

11 I was at his wits end to know what to do to teach him to be a cooperative member - he had fallen dead on the platform - he had been made extremely ill - countless times he had promised to improve 11

Nevada Harris was upset for telling in front of people who had just come up from L.A. about bad living conditions in the communes - The main point seemed to be that they were infested by fleas, a common effect in SF - the young woman who had turned Nevada in was not very clear on details & I [illegible] missed the case

I had to cut off questions on diverse matters

her for persuading Gary to lie when he seemed to be accepting well to the Te - Gary is w/ Liz, Bonnie, sd - it was unforgiveable that she just "dumped" Renée instead of placing her w/ someone else - Liz spent much time on her make-up - when I inquired what had led to Liz's being the Te now, Bonnie thought it was the prospect of getting money from her grandfather - I had always known what she was like - she was mentally unstable & he gave her every chance // V Pat works also at Juvenile Hall //

Bonnie told me Linda Dunn's daughter is now in Juv Hall - she used "cigarettes, drugs & alcohol & has been on the pill" since she was 11½ - she is 14 now

I mentioned my bks to Bonnie & she suggested I let her keep them - I is moving everything down from RV

I also suggested for the mgs a questionnaire on the Bible which wd give the contradictory answers which J uses to show its unreliability & I wd to her Doi's list of quotations on relig bel & atheism //

There was a rousing round of singing & shouting & I noted those who did not take part

People were headed

I dismissed the mtng at 3 or

I talked w/ Vernell Henderson about going command as she will have to get notice on the first of Sept - she said a great many people were leaving places in w (no doubt because of our influx from L.A.) & unless she wanted to share w/a roommate it was going to be difficult to find a room for me - She repeated what I had told her previously, that w/the pressure of my job I needed privacy at wh. I alone could disturb a roommate w/my typing - she said she wd confer w/others at the house & let me know then

I left the Fillmore bus & transferred to the McAlister bus, as I had had some bad luck w/the Hayes bus - I made good connections

Cured Chris Ferris of a big inj leg which did him to be on crutches. injury will show on x-rays when needed to collect damages - we got rid of three young men to break up for 30 days

6/ I'm tired of being Mod over everything -

in decis the other night Paul was to get a gift & he hasn't found one yet - & Roulette was to raise money, as was he - neither had any yet

As he started to take a final offering J. displayed gr discouragem - if people did not want to keep the rules, he cd take the few loyal ones & do something "like on the tracks" - but he added at the end, "I don't let my depression affect what I do for you, & don't you either"

He dismissed the mtng at 2 00
