C1 Part 2

1 Sept 76 - W

Late getting up again & no Shpt again - however, we had the monthly staff mtng at 8:30 & I ate a couple of doughnuts.

The topic for today's mtng was uranium enrichment, specif. Uranium Enrichment Associates, of which the pres. is Jerome W. Komes, a Vice-Chairman & a Director - UEA is a partnership of Bechtel, Cap, Goodyear Tire & Rubber Co & Williams Co - spkrs were Komes & Ashton J. O'Donnell, Gen Mgr of UEA - UEA is proposing that the Govt award a contract for uranium enrichm. to them instd of production's remaining under govt control as at present in 3 existing plants - some of the highlights: the proposition is for a long-term risk - it will be 8 yrs by it begins to pay off - sev. billion dollars will be invested, of which $2 billion wd be raised abroad - overseas customers wd take 1/2 of the production - Cap, W. Eur., & Iran have already expressed an int - Iran, for inst., wants to 2 to 30% of the capacity.

The main pt at issue was, Komes sd,

to make it suitable for fuel - uranium which could be used for weapons will not be produced - to bring it to weapons level would cost several billion dollars more - all ctys have available uranium which is the 11th most prevalent element - the plant will produce the equivalent of 2 m. barrels of oil a day - the op will have a favorable effect on the U.S. bal. of trade

Romes did not have much admiration for most members of Cong nor people in govt, that they were mainly anti-business but his contempt for the "environmental freaks" was greater - he said he & his associates felt they were serving U.S. interests, as we are now dependent on others for 40% of our petroleum needs

For some reason, the computer center did not give us a print-out of the Lit Rpt I transmitted yest & we had to order an expr print-out aside from that, the only other job I was all day was to run off some notary forms for Maggie - Dor had put the form on Mag Cd yest when I was gone

I had seen Viola Godshalk when I left the bldg. in the morning - she had been waiting for a ride to the Te w/ Bob Houston, who didn't come - I told her I'd drop in & see her apt wh - she shares an apt w/ Rocki Breidenbach's - the apt was filled w/ knick-knacks, almost all of which are Rocki's & Viola says she keeps bringing in more, incl. plants - she had picts of her family displayed - I asked V. how she got money to buy so much, as communal members are not spsd to have priv. funds exc. an $8 a mo. - V. didn't know - in addition to the disorder in which she lives, Viola is handicapped by lack of transp. - the person who usually gives her a ride is on the Te trip - she has been going for treatm to Laguna Honda & she had no way to go to the Te to eat so was making hers some pancakes - Rocki had borrowed a Te car but

Dor gave me no wh to do today - she spent most of the day on the computer hers., working on 2 items which she considered too diffic. for Marc & me - one was another litigation rpt - Butler has decided on another format which had to be wh'd, but in addition, the copy was diffic. to wh from - the other item was a table of contents to the Veney metro contract, which Wallraith wanted in an unusual & time - consuming form - either of these items she cd have shown us how to do, but Dor has a tendency not to delegate wh

Marg did have an ATS job pt of the time

Dor told me Jim Cronin, in [illegible] who used to be resp for the litig rpt was unhappy because it has been taken over by the legal dept, who are having so much trble establishing a suitable format

Subj Radicalism in Amer

About an hr or so out of LA the buses came to a halt & we heard over the inter-com concerning an accident that had occurred - police were mentioned & Jo's voice came over, asking someone if he was hurt - we learned that someone had thrown a thing into the windshield of the lead (Jens') bus

The police had come; the buses went on their way after reporting the incident - some had been slightly injured by shattered glass but I feel hospitalization was not nec

I slept

When we had a short stop at Buttonwillow, everyone was allowed to look at the bus - the missile thrown had not made a hole & was apparently not a bullet but had hit the glass w/ terrific impact - I saw Mike Prokes, the driver & Karen Layton, who had been cut by glass, get it in their eyes & swallowed

(82) 2-A-1 (over) C-1-A-5 (57)

some, & had been cut & covered w/blood - all wounds had healed & only some effect on Mike's eyes was visible - Mike had been miraculously able to park the bus safely at the side of the rd (I told us later that his son Steve had also been struck by the glass but was also all right) - I had been standing in Mike but had moved a few mins bef

I had Viola Motor as a seat partner again - she told me all about a son who plays in the movies & whom she saw in L.A. - however, she stopped talking aft a while & I had a comfortable night

I ran at the last rest stop

I used the telephone available in Cavelina's unit (both John Foster & Bob O'Neill were out) to make the phone call to the World Bank – spking as if from the Macedonia Missionary Baptist Ch in SF of which Geo Bedford is pastor, I recommended that the Bank not give a loan to the pres. govt of Chile on acct of imprisoning polit. prisoners & torturing them – I was told the Bank had no directors in N.Y., was given a Wash. no which I called

I called on Bechtel's WATS, on which I prob incurred no chges & at any rate the call wd be chged to another no than the no in our off

At lunchtime I went to the mtng of the Becht Wom. for Affirm. Action – Steve Bechtel, Jr. spoke on "How Bechtel Is Organized & Managed" – the room was full – Mr. B. answered ques. aft his speech

There was rain today
I had little wk
I learned that yest after I left
Marc + Don had an intense argument - I think it started aft Don had been very disagreeable to Maggie Fleming + Barbara Vas. - Barbara is Galbraith's secty + Maggie wks in the same unit + Don had made changes in a Galbraith contract aft they had prepared it - Don was also unable to produce the wk fast enough to suit them - When she complained about the heavy load she had + refused to put their wk ahead, they went to Betty + said on the matter - Marc got involved by confiding in Maggie + Barbara that she had little wk to do + they repeated this to Betty - Don had also insulted Kate Walker + Cathy Costello told me she had to restrain hers not to get in an argument w/ Don, so Don seems to have made a no of enemies - many
