C-3-A-20

1 Feb - W

Today guests, Sov. & Cub. Ambassadors to Guy & a Tass correspondent expected - up actors planned - few demonstr classes - display of articles invented & manufactrd by the people - everything cleaned up - clothing taken off lines - names such as Lenin & Jones Dr, Cuba Dr, Castro Way

I wrote Eth to J. Randolph requesting lbs & teaching meter be sent in travellers' luggage

Wrote yesterday's jrnl entry

Went to lunch

Announcement rcvd - visit of guests postponed because of weather

Classes were not held - students went to fields

Convers w/ Jack Barron about plants & crops unfamil. to me mentioned in last night's mtng - he showed some of them - offrd to take me to a nearby area where ser of them grow not far from the central area - play area for toddlers has been constructed there but child. were not using it then - Jack showed me num. plants, vines, bushes, trees & flowers - picked 2 pieces ripe fruit - showed me where they planned back up stream for pond for fish & ducks - one prob is that it receives waste water from the village

(over) C-3-A-2 (2)

Lynnette Jones, J's mother, has died & her grave is here - I had mentioned that she was buried among the children to emphasize life

I stopped at the office & asked Joyce Touchette for an order to Pop Jackson for some chairs for our cottage - she gave me a request for 2 - I visited w/ Mom & Pop Jackson in Trailer No. 1 for a few mins - Pop let me choose 2 chairs & a footstool he already had

Saw Tom in one of the sch. tents & we had a good convers. - he was more liberal than formerly about giving me responsibilities in the Eng. teachers prog - he proposed I assume supervision of the untrained Eng. teachers - I told him titles were irrelevant but I was glad to do all I cd - I was heartened

At home I had a nap - it was very flies, w/ rain falling

Took shower & went to dinner - I have not much appetite & have been cutting down on rice drastically but I enjoy the veg

Spent a few hrs reading Amer Radicalism

Was to meet at 11 at the pavilion w/ Jo & our h.s. Eng teachers but the film we saw in Georgetown, The Outfit, which was about here, was being shown for the last time - I missed the first part but sat through the

(cont) C-3-A-2 (3)

rest of it - the sound had been so bad when the film was shown in Georgetown that I had not understood it - because of J's explan. of the theme I understood better its relevance to our concerns

After the film I saw no sign of any of the Eng teachers - I went to watch & saw Dick W. & I decided to watch the film & meet w/ the teachers afterwds if they were there!! Trapp w/ Shirley Hicks in the dining area drinking coffee & whing - D. told me he had perm. to have coffee when he wkd late - he had not been told about the mtng - he did not agree w/ the idea of having such a mtng now he thot a mtng of all teachers sho be held as many of them were using extremely faulty methods - I proposed we have reg teacher training sessions & he seemed to agree, but I was not greatly encouraged by his attit.

Went to bed and 1.00 - didn't turn the light on

2 Feb – Th

After the morning routine, I wrote yesterday's entry

Visitors from the Amer. Emb. were expected today so yesterday's arrangements were changed appropriately – for instance, the red shirts worn by many of our youth to greet the communist visitors were changed & other songs were substituted – everything was very carefully regulated & arranged by J.

I went to the central area just by the guests' arrival in mid-morn. to help out with the demonstr. classes – they were short of people & asked me to join Harriet Tripp's class – she led us on the early British settlement in Guy.

The guests were an official from the Amer. Emb. to Guy & a lawyer from the US representing his client – when asked where John was, everyone was to say, "I don't know"

J. & staff met the visitors – they watched HS class briefly – I saw them conferring w/ staff in the pavilion where the exhibit was still displayed – a varied entertainm. prog. had been prepared, some of which the guests watched

I had lunch

The guests visited the medical facil. & then departed

It had been arranged for me to give my remarks on teaching which I was unable to do last night, at 1st in the Bath dormitory – present

(over)

C 3-4-2 (5)

were Don Jackson, Jan Gurvich, Debbie Jensen, + Barbara Walker (none of whom have had any formal training or exp. in teaching) + for ½ of the time Tom Griffs + Dick Tropp — I was able to make a few pts but did not get to my central thesis — resp. seemed to be favorable esp. that I freely discuss w/ Barbara who remarked that she felt teachers had to develop their own methods

From the lookyher all were called to the Radio Hut for a conversation w/ Catherine Dominique, who is a cousin of Bates — while the guests were touring the medical facil, she remarked that "they" made her take a top bunk from which she fell; neither st'ment was true + she prob. did it out of hostil. purposely to demand his attention — I said her statements were very harmful + could have blown down all the careful preparations he had made — most of the membership was very indignant — I proposed a system of isolation of potential troublemakers when we have guests — this conversation lasted about an hr — it was very hot — we have had no rain today

I got a big washing out of the way

Had an hr

Went to dinner

Took a refreshing nap for an hr or so

Spent the evening making back grad entries — the other students were in the college

(cont) C-3-A-2 (6)

conversing but I managed to rest all night

About 10 o'clock a confrontation w/ Don Fields who had been on the floor night was on the loudspkr sys - he had justified taking out his hostility on children by saying that I did so - I denied he ever felt out hostil on anyone - Fields is a white man from L.A. whom I did not know

Diane & my other roommates reminisced about some of the dangerous event the mission has been through since their arrival at one pt I asked on the radio whether there was any other city which wd take our people in & they were prepared to live w/ nothing esp what they had on their backs - Diane slept 3 nights w/ the children under a tent

I went to bed at 11 pm

3 Feb - F

Remembered at last time this morn. to go to the medical off & take my premarin - tend to forget it

Rtd to cottage & started on girl entries - Phyllis Chaiken - request for typing job - typ on Jonestown med. prog. to give to visitors & she sd she'd bring paper later

J on pub cour system commented on fact Chin Com giving aid to Pinochet's Chile & Somalia anti-Ethiopia regime - his opin Chin doing sd job for own pub but from Sov. Rus - reprehensible - wanted our stay to be clear on subj.

Went to lunch

Observed Jenn's class, then Trapp's - both interesting - Jenn needs more report w/class - Dick using teams to foster soc. coop

Have Jenn a critique on her class - she depressed - feels lack of org - she seems very tired - I gave her some suggestions but she put forth some objections

Talked to Carolyn Layton when she finished her class & by teachers' mtng - asked her about my girl mss - the typed ones in her custody & some later ones sent to her are in a "safe place" - she does not know about the notes & drafts taken from me at the mtng (turned over to Tom Adams) now

(over)

C-3-A-2 (8)

the ones I later turned over to the Te (first in April 1977) – she thinks these may have been destroyed as the Te was afraid they might fall into the wrong hands – in spite of what Terry Buford told me, she did not know of anyone using them for writing about the Te – she will make inquiries – she said there was no probl now about written mater

We formed the teachers' mtng which had started – this F mtng at 3 or is a mtng to ppt prog & problems of all the h.s. teachers – apparently there is a Th mtng to disc h.s. teaching methods & Marie Lawrence questioned whether this nec. – I felt the decision was to arrange it on Th and rotating basis

Tom brought up the quest of adult ed as a prospective prog for me – Barbara Walker seemed to not to show hostil. tow me in regard to her adult class in which I find she has only teaches vocal & hist as well as conducting calisthenics for adult women – she has only 8 in former class – Tom also proposed I take a soc. class of people who have title w/ the school – he will consult Rob Christian who is in chge of the soc classes

Bee Morton showed a sample of a full page weekly showing all actvs of more than 15 min. – the size of paper needed was remarked upon – perh. forms can be duplicated in the States

(over)

C-3-A-2 (9)

Or h.s. runs on a 10 wk sched. - in 4 wks we will be starting a new 10 - wk period - Tropp sd we shd start planning for lge blocks of time & plan courses actually integrated w/ wh done in the commun. - this was discussed

Studs who are probls were discussed & disciplinary measures proposed & adopted

I went back to my cottage & typed the paper wanted by Phyllis

1. Th c shower & went to eat

X Socialism classes met at 7³⁰ - all members of Jonestown are divided into grps for this disc - Introduction to Socialism by Dept - only the teachers have copies & the classes are so close tog w/ little barrier thru them that it is hard for the teachers to make themselves heard - I joined Don Jackson's class as he had indicated he wd like some help - I volunteered some remarks twice, the last time on thesis - antithesis - synthesis - something I sd or didn't say seemed to anty Barbara Walker who is in Don's class - Dick Tropp passing by gave me a humorous rebuke for not having recognized her

11½ I left my poncho somewhere & cdn't find it

a film was shown at the sve dining (over)

about 9 00 - I intended to attend but
cdnt find a seat

We went home in a depressed mood, as
so many things had gone wrong.

As the film was over, J. came on the
radio denouncing it & calling for disc
on its flaws - "Some of you have such
impressionable minds you'd be following
Hitler" - Diane came home w/ others
having seen the film & said it was not good

I walked up w/ Diane as far as the
shower & went on to the toilet - J. saw me
on the path & called "Hello, darling" which
made me feel better

I went to bed

Was awakened at 5 30 by some pers.
inquiring which cabin ours was &
didn't get back to sleep

4 Feb - 5

The Sov ambas to Guy & a Tass repr were to visit us today, so arrangements were made to greet them - They were expected to attend the intro tion & stay overnight

I talked w/Dick Tripp on my hand-written drafts of my jrnl, to find out whether he knew (anything about them - he did not - he suggests they were burnt, along w/other matter which was destroy'd (regrettably, he thinks) when the Td leaders were afraid the investigative agencies might force an entrance & examine our files - we talked a while about Dick's proj. of interviewing sums on their backgrnds - I told him that in the adult group I intended to use that type of material as much of the content of the course.

Std on yesto's jrnl entry

Phyllis made some changes in the paper for Jamestown med. serv. - the last page she wrote in 2 dif. versions, according to whether the guests are Chinese, or not - then she made further changes which adapted the ppt to presentation to the rally by Dr Lawrence Schacht as physician

(over) C-3-A-2 (12)

The visit of the Sov. reps was cancelled as a result of an airline strike - I indicated that he felt the strike was provoked by fascist elements who are trying to prevent us from having friends - as the Sov. visitors were not coming, I did not have to type the changed version of the medical rept yet

Later I came on the loudspeaker & said some high-ranking Guy might. reps may visit us tom & I wondered whether this was to show their solidarity w/us to our enemies

Had a nap for 2 hrs in the early aft - a grey & white kitten which I am told may be Chris Talley's came to see me today & slept cozily on Diane's bed - I have picked him up & petted him - I brot him some food from my lunch - I brot him up w/me to my upper bunk & he slept on me

Jan Gurvich came around to ask whether I wd come to the pavilion to talk w/her & Barbara Walker about their lesson plans for next wk - I consented - I suppose that either Tom or Jan herself had initiated this mtng, as I had rptd diffics. of communn. w/Barb. - the latter was not as hostile as formerly tho still quite rigid

(cont) C-3-A-2 (13)

in her thinking - I was able to be of cons. help in suggesting methods of conducting their planned lesson as regards of complete sentences. - Tom came in on the meting & added some useful ideas - Jean felt better because she got some sense of coherence in the wk's lessons which was one of her chief aims

I got my pumbo back - Ette Thompson had picked it up when I left it at the sec class

The people's rally was at 7.45 - we had spks first from areas from which further spks were to be heard - the first subj. on which cons. time was spent was insecticide control & spraying on which Marie Lawrence the a prom. spk.

It was revd that Sharon Willhyte had given birth to a baby boy

I was in communt w/a at wing radio prog being conducted in the States on the subj. of the Te - he came into the meting at 8.30

A long disc th place on dogs, began by arrangements for spaying dogs or performing ~~abortions~~ on those dogs already pregnant - various views on dogs were heard - Jedre Yates & Wanda Swinney were 2 of the most knowledgeable people on the subj & James Edwards has much to do w/them on the grounds

(over)

C-3-A-2 (24)

Rpts were heard from Jeh Baron on fish-making, on bananas from Danny Kutulas, animal feed by Harden (who had done much research on the subj), & sev others.

Jd material on agric was required in the sch & everybody wd be tested in sec class on their knowl, of items discd tho — we want to help Guyanese expt trade & it is good when this coincides w/ what is to our own benefit

There was disc of fishing "Indstyle" w/ poison & our Ind. members are going to bring in the vine which is used — our people are going to cut through the bush to the river Mon & may find the vine then

Patty Cartwell dscrbd her last prominent trip w/ Rhea & Tommy Johnson, giving much amusem to the aud

A complaint was made about the damage Leon Petry does to equipm (& passengers) when he drives a tractor — he was ordered to change his ways

Shel Patrice, the new baby, was brot in & placed in Js arms

A projected tractor trip to get cassava sticks was called off because the road is too dangerous

Info was rec'd (by radio too seemingly) that 250 members in the U.S. want to come to Guy — J felt it was wise to stop

(cont)

C-3-A-2 (15)

w/these people as the CIA was bound to infiltrate if we tk in outsiders - future building plans were discs'd in detail - residential blg will not be expanded beyond its present point

The place to get the coffee trees to be procured for nothing by Tommy Johnson was discsd - the main probl is that they need shade & we have none

Yng people & child. who were spted for unsuitable behavior were: ✓Stanley Wright, ✓Vincent Lopez, Bryan Davis, Mark Schroder, Ricardo Atterbury, Tyrone Cartwell, Danny Beck - the adult was in hysterics at Tyrone's demeanor (he is Patty Cartwell's adopted child) ✓ Toby Stone

The sitting was not over until about 2 or - J told us that tho it was a fine sacrifice we cd sleep an hr & a half late tom, until 7:30

5 Feb - Su

Wrote girl entries

Helen Love & I walked up to the Toddler's place called the nursery - I want to get out & see some nature every Su if I can, & this is about as far as she can walk - she sat inside the bldg while I walked along the stream - Helen's job is sorting rice & she like to have another job as this is monotonous. - Jerry Bailey is her supervisor & Jerry is officious

Helen told me Gene Chaikin gave trble by he left the States & that Mother had a diffic time w/him - she thot he had conspired w/our enemies - I agreed to keep him on in the nursery job, but everyone was to watch him

J's comments came over the loudspkr - he complained about some of those who helped QSBing, because they th'r real interest in what was happening in the States - I impressed upon them what empty lives people live there - they are so bored they want hrs to talk w/him - however when he tells about his integrated grp, he finds they don't like that idea

When we got back about 3^30, dinner was being served - this was the fried chicken dinner from our own chickens - I see they killed 2 or chickens at an expense of $200 - the next batch must be sold - each had

(over) C-3-A-2 (17)

a quarter chicken, eddoes (like mashed potatoes) w/ gravy + a salad of a green-leaved veg + a glass of some drink

Throughout the meal, I made announcements & rd reports - There was unhappy because some here quit their jobs early on this half-day instead of working harder to make up for sleeping late

Aft dinner I climbed up in my junk + rd Amer Radicalism + wkd on jnl entries

At 7pm I went down to the Radio Hut to get my cookie

There was entertainm. in the pavilion, but I went home + wkd on jnl entries until bedtime

I have been constipated since arriving in Hly because of not having enough raw veg - I th some stool softener given to me in SF by Helen Lore + resolved to go to the med'l off about my prob tom

Went to bed about 11pm

C-3-4-2 (18)

6 Feb - M

Slept late until 8 or - had a bowel movem because of the stool softener I had taken

Ap bkfst went to the med off to consult them about my constipation prob - I had a long wait - eventually Judy Jaimes, the nurse, saw me - she gave me a pill to clean me out & told me to come in for green papaya every day, to report back tom

Washed a big load of clothes

Went to lunch

Observed the second period class taught by Jann & Barbara - ap was critiqued w/ Jann

While we were talking I got a rpt of an intruder on the property (I think beh the Radio Hut), called Secur into action - I called for all the lute child. to be brot into the central section - he th chgs in the effort agst the intruder who apparently retreated into the bush

In the Eng mtng at 3 or we talked about fulfilling Jo's agnt requirements - I requested a determ of my teaching responsibils - I am to take a class of low-achievers from Jan & Shirley's basic grps & wh w/them first period, 12 to 12 45 - some high abil. students have been released from Eng classes to wh on research projects w/personal personnel & I am to supervise them - we will start an adult long arts proj by my writing an announcem

(over)

C-34-2 (19)

for I to read on the public speaking system — interested adults to meet me at a specified time so that I can survey their abils & needs — the plan is for the class to meet at 7 or to 8 or on 2 or 3 eves a wk

I rptd on successful surgery performed on the female dog by Dr. Schacht & helpers

Tile dinner

Diane Lundquist went to Steering Com which she as a supervisor had to attend — she is now in chge of the toddlers — Pat Drummond is teaching in elem sch a grp of

I wtd for some time and got entries in my bunk

Went to bed at 11 or

7 Feb - T

At Phyl's Talked to Bea Orr, who sec'ty of sch - she passed h. s. records to me, incl. recently endorsed ability ratings list from teachers - she was 88 yrs - Bea is also retired & we discsd dizzies of working along younger people who expect you to do as much as they

Got paperwork from Kitchen - mel. op did not have enough - drank quantities of water - in afternoon finally heard B.M.

X Started to retype Phyllis's paper on Jonestown med. services - much humm in air & bad table w/ paper - can't find my correction fluid - borrowed some from Penny working night down in Kevin Leyton's cottage.

11 Did not observe classes - visited

Went to lunch

Had drafted a st'ment on my proposed adult ed class, showed it to Tom + Dick

Rtd to cottage to work on Phyllis's paper - Diane chairing entire op toddlers' supervisors - Johnny Jones present - ~~rly~~ discsing problems w/child + confronted individ. workers w/ their faults - I worked on other side of rm - finished Phyllis's paper + typed up my adult ed st'ment w/ changes discsd w/ Dick + Tom

Dinner

Rd Amer Radicalism while waiting for rally to start at 7 45

Jim Bogue was chairman for the agric. rally

Pressure was put on Danny Kehules to complete work on the insecticide drum so that child. wd not be endangered

Successful surgery on the pregnant dog was rptd -

(over)

C-3-22 21

Dale Parks has given mouth-to-mouth resuscitation when she ceased to breathe & saved her life

I came in 8:30 - sd among the relatives giving us trouble is Dave Sly who is threatening Lyare - Mark Sly told him off

Considd disc on alternate food for stock: banana leaves, stalks & fruit, cassava; cutters beans, sugar cane - cassava has as human food

Tommy Keston & some of the sons fipped the chickens which will enable them to eat & thus fend on wd

Selling chickens in Port Kaituma was discd & plans made - Anthony & & Charlie Tonchette involved - those coming on will be sold - the next batch for eating here will be ready in 7½ wks - I went into the cost of providing pork for Jonestown food - "we're talking about $200 a deal" - it is being planned to bring 6000 lbs of fish in the boat & disposal & it was discsd + freezer space & power - freezers will be moved to the warehouse from the cassava mill - much disc the place & methods of freezing & the possibil. of smoking the fish - some experiments will be tried

I on the radio had apparently been discussing bringing all the 250 members still to come by means other than flying, at least part of the way - he sd they wanted to fly from Georgetown, which I sd was silly - the CIA wd blow up flights on which the passengers are all our people

Another of was being done on a female dog

(Cont) C-3A-2 (22)

7 Feb - T - 2

& I stated that it too was successful
11B Sister x Dawkins proposed an oil pick system 11

The tie-up on the Te creates' being released from customs involves the dealer's chg'd, which J is fighting, so as not to set a precedent - "all Bureaucrats are alike, & you don't want to get stuck" - he has got the chges down from $18,000 to $3,000 - many strange decisions had been made in SF about what to send & the method of crating - it is hard to get out specific items needed

Scuba gear has been sent on acct of offer of Jerry Check's son, David Dupont - J sd he had gone

11C3 the fish which cannot be preserved will be sold

Some walk-in coolers we have are urgently needed - it was proposed that we use the wood coming in on the boat to finish them & put off construction of the toddler's nursery - J sd for both reasons it is essential to get the children out of the dirt - Tom Wuttke advocated completing half the bldg & let the space for his research center wait

A film by Felix Greene on raising hogs in China, where they provide separate space for living, eating & eliminating, was put up - J wants this arrangement

(over) C-3-4-2 (23)

efferimented with

The planting of coffee trees was disc'd - the Types of coffee are Robusta, Arabica, & Laberica - the letter is valued the lowest - J directed that the market value of the dif. types be ascertained

A no of children on the Learning Crew are still behaving badly - "running" was carried out as a punishm. - J. directed that an isolation system be developed as a substitute

Rpts on behavior & evals of wh prepared by Penny Kerns & Karen Layton were presented J was dismayed by the volume

11th Mark Rhodes, Nora Blair, Ricardo Otterbury, Toby Stone 11

Martha Hicks was on the floor - she was accused of arrogance & elitism, num. instances given - J. ad Penny was afraid of her, gave both of them ared wh on the Learning Crew - Laura Johnston volunteered for the same punishm for not reporting what she had observed

A long rpt on the Medical Crew was submitted by Phyllis Chaikin - Mawhanda Walker was the first pers on the floor - she was cited for neglecting sanitary & writing nos. of the people involved in the cause - Yale Hughes has a serious kidney condition owing to falling while in his care - writing to

(cont) C-3-A-2 (24)

7 Feb - T - 3

outsiders costs 37¢ & shows you are attracted to life in the U.S.

Next was Joyce Rozynko who was cly'd w/being unpriddy, of complaining constantly being hard to get along with, of burning eggs - her 2 sons joined many others in expecting on her faults - I reminded her of the bad

11.5 more Lunar 11

nature of her husb from whom he had saved her & she was put on the Learning Crew

Phyllis Chakin sd she wanted to change her name - she thinks she has been too dependent on Gene - Gene agreed w/her

Vernette Christian who keeps records for the Med Dept was criticized for putting some time down for Med which she did not use for them - it was stated she doesn't take criticism well - I sd she is elitist - she admitted she liked to be by hers.

Annie Moore was called too defensive - Of his dghter, Agnes, I sd she is disorganized - we don't know where she is

Of the whole dept, he sd the supplies were allowed to run down too much - Lynnette cd have lived longer w/proper care -

The departm. was revealed as clquish - there is an alliance btwn Ginny Jackson, Judy & Anita James - Barbara Farrell (Perry) & Leon Petty are too immersed in each other - Sharon Cobb is too passive - Sylvie Grubbs is a hypochondriac

116 Joyce was set to have a nasty disposition

(over) C-3-2-2 (25)

Mark Wagner was on the floor for "goofing off" — he is 16 & is interested in a "gang document of 11"; I find nothing wrong w/ this but the relationship does not seem to have improved — I see his father was giving Tim & is him — "the most dangerous of all" — it was only a miracle by which I was able to get Mark to Jonestown (I had thought Joey came w/ Mark, but she is not here — she may be in L.A.)

After a final song, the mtg was dismissed about 3^30 — I get us until 9 or to sleep tom — only bkfst & dinner will be served

8 Feb - W

Slept until 9^{00} - then had bkfst.
Had a convers w/ Vernette Christian who told me about the trip of her grp on the boat
There were no h.s. classes today
Phyllis Chaikin told me that Larry Schacht made some changes in the Medical Services Report & it will have to be typed again
Karen Layton, who writes up wh evels, is in the sick cottage to ours - she borrowed my t.w. today, as hers needs a new ribbon, which Tish Perry is using now
Wkd on girl entries
Rd Under Radicalism

All the Teachers were asked to help on agric produce at 3^{30} - joined by some children & others, such as seniors, who had no other tasks, were taken to the peanut field by Jesse Barron - some planted peanuts - others, incl. me, supervised by Jim Pugh, spread fertilizer on the vines. These had been grow. treated w/ shell - It was not very effective, not having a strong enough build (not being fast enough) - I wkd only an hr.

Ate dinner
Diane Lundquist went to counseling about the toddlers dog - I had gone to bed at 11^{00} Counseling sessions were held in the pavilion, 7-
11^{00}, very tired, but was awakened by a convers. b/w Diane, when she retd, & Verna

C-3-A-2 (27)

I saw one of the Simon girls - she had big blisters on her arms & so did her sister was even worse affected - she thought it was caused by the sun - Camille is all right

I had a nap for about an hr

I was awakened by the loudspeaker - because of the unusual dryness the garden badly needs water & all who were available to help were called out - ones who were waiting for dinner were urged to help water first - I got up & went to the field - a bucket team had been organized to bring water up from the nearby stream - young people, children & ones participated - I worked for about an hr when we were all dismissed

11½ the crops in this area were beans & corn 11

11½ Jim was directing the op personally

I picked up the cottage laundry which I had left the other day - I put in my sheets & blanket - I have been doing my bitter laundry mys

In the eve, those who had not paid the tribute to Lynette went up to the grave site - W/ Helen Love I went to the spec. memorial prog for Lynette at 8 hr in the Pavilion

9 Feb - Th

Over the loudspkr on awakening at 6 or, all members of the community were asked to attend a memorial tribute to Lynnette, J's mother on the first mo. anniversary of her death - workers were asked to line up by going to wk & sins by eating; & secur. escorted this in jeeps to L's grave where a flame was burning - we stood in a min. that - the trib. Jeffrey's one thanks for her serv to the cause when she submitted to questioning by the FBI on J's actions for 7 hrs & refused the ans., taking the 5th Amendm. J got up shortly at 6 or & went to L's grave among the first jeeps

The Jap Hayanese bos visited the project today. There was a sp. prog - his classes did not meet

I started to do a big washing - I have been washing in the shower rm but the facils. were being repaired - Jim Gar- wick told me I cd borrow a pail from the generator bldg & wash outside - I did so but was stopped by J had thoroughly rinsed all clothes, as workers were entitled to the appearance of the goods.

I went to lunch

Rd Comm. Radiation

Aft the guests had left, about 3 or I finished my washing & hung it up

Evening

9 Feb - Th - 2

Different grps performed - Steve Jones rd from Lynnette's writings, prose & poetry - I was surprised to learn she had been a prolific writer - J when he came in, chs'd guests from the and about her, & his early life - J's father had been injured during the war & was an invalid all through their married life - she w'kd in extremely diffic situations to earn a living for J & d nephew his parents had adopted. She loved pets & older people - during the Joe Carthy era she withstood the third questioning by the FBI about J's mov-ment & by her protection saved it - dis-gusted w/ the betrayal of J by his followers. When he was in St. Anne's, she refused to come to chs for yrs, but she was fond of many of the members & did much for them.

Jo were out about 10^{00} - I was in bed about 11^{00}

10 Feb - F

Items

Aft. bkfst went to Med Off for medication & to Kitchen for papaya - so far nothing has had any effect on my constipation

Had a talk w/ Joyce Land who told me about changing her name from Rozynko - Land was a part of the name of her Scandinavian forefathers - Chris & Mike use it too

Have seen Lavenna Jones several times during the last few days - she had been ill after arriving here

Went back to the college where Jerry Bailey & her sister usually come around on their inspection tour, checking the living quarters for neatness - they usually object to small things, such as any clutter, or floors unswept, but have not kept to now written up a report on us

Aft lunch I observed Barb's & Dick's classes - Barb is still concentrating on grammatical elements (today it was synonyms), but I did not ask what was the purpose of the lesson - she had 2 spelling errors & I told her about one, but decided not to dwell on the matter - Dick's lesson was on agriculture in Guy & was well conducted altho I felt his method cd have been improved

Dick had a conf w/ me - Rita had given him my ltr to Lor (perh I had

(over)

C-3-A-2 (31).

even been consulted about it) — Dick had
num objections to it, mostly on the grnd that
even slightly negative statements cd be
exploited by an enemy — he sd he was
not implying any criticism of my grnd
but other meals had been tampered with &
anything cd be used against us by the cons-
piracy — I hasten to rebute the ltr

I wkd for a short time on grnd entries
The high sch teachers' mtng was at 3 —
all that concerned me was that Marie
Lawrence (now Rankin, as she is living
as a companion w/ Bob Rankin) wants help
for her sci studs w/ ltr writing — I shall
try to wk it in w/ the wk I am spsd to
do w/ the advanced studs who are excused
from their Eng classes — much time was spent
discussing studs who deserve "prizes" — I
mentioned a remark made by Bryan Davis
who told me he saw no value in ed, &
wanted to drop out of sch, — the teachers disagrd
his prof which is one of mental attit, as
he has good abil,

The day was dry & hot & the bucket brigade
was organized again in the late aft but I
did not go — I spent the nap instd
But Christian, who is in chge of the sec-
tion classes in the eve, & he assigned me
to work w/ Don Jackson — there are usually
2 teachers for each grp — the teachers of the

(Cont)

soc classes met at 6³⁰ to disc the plans for the class - we were bogged on the minutes of the mtg of last T; as I had requested that the disc on agric, shd be the chief topic dealt with

The soc. classes met at 7³⁰ - I asked Don to let me teach the first ½ of the class & he allowed me to - I asked the students to name topics which had been discd in the agric. rally & I got about 70% partic. - most of the class members had listened at the rally & were quite interested

After writing grp met at 9⁰⁰ - I had been specifically mentioned w/ those who shd attend - we were to write a ltr of thanks to Lt. Gov. Mervyn Dymally, who will be meeting us in a couple of mos - I got a draft approved & went home to bed

I came on the loud sphr system - he made a reg to his daughter (Suzanne) & to Mike Cartwell, who is cooperating w/ the conspiracy against us - I felt he shd be heard - broken if so many others had not already so disillusioned him that he was not capable of any surprise - he no longer considered Mike any relative of his & regretted the time & effort he had given to him which cd have been used for his other child, "and you!"

(over)

11/1 Tom told us I had given him a sp assignm which wd require a lge amt of his time & he wd have to cut out most of his other responsibils incl. his classes & aid to the other teachers - he didn't give us details of the project but in gen it had to do w/ behav. modifica-tion - from what I had hd I discussion the loud spkr, I supposed it had to do w/ the topic of isolation techniques for those on whom the Learning Crew had so far not had any effect

11 Feb - 5

Left bkfst I pedd to the cottage & wkd all morn. on ltrs, first typing the one to Dymally - then I drafted a ltr about the proj. emphasizing our agric aims & the beneficial effects on our young people of our system, purporting to come from a wkr in the field such as Russ Morton, our agronomist - then I rewrote the ltr to Lor, changing it a gr deal as well as adding some items & leaving out others

Turned in the teachers' activ rpts I had collected from the other teachers

Left lunch for Amer Psychiatrists

Met w/ Jenn at 3^00, as she had asked for help w/ lesson planning - I made suggestions but none of them seemed to impress her - she was as usual depressed, explaining it was diffic to come in from field wkr & turn her attention to teaching - Bart who usually wks w/ Jenn on lesson planning I saw wking at the Bark Depository, & Jenn felt we wd be considered elitist if we remained in the pavilion as the brother brigade was being again organized to water the west garden - we went to the Bark Depos - Bart had gone but

(over)

C-3 A-2 (35)

Jenn tried to disc her learn probs w/ Tom — however, he did not have the time — we had a gen disc w/ Lione Amos (formerly Harris) who teaches in the elem × sch — she is fascinated by her teaching offers & open to experimental, creative methods

A firm request was made for all able people to join the bucket brigade to water the field again — I went home & change shoes & got my hat & went to help — I was participating in the wk as well as directing it — I walked about carter & a half until all were dismissed — we had a lge & colorful grp & the sight was quite impressive agst the beautiful sunset

After dinner went home to clean up a little, then to the rally — was too late to get a good seat w/o back — sat btwn Bob Davis & Dorothy Brewer

Over the loudspkr I stated that Patty Cartmell didn't appreciate expressions of sympathy she had rec'd; Mike was not had out

Greg Watkins presided over the first pt of the prog, presented few musical nos.

Eloise Hall, w/ whom I had stayed in L.A., & who played the organ in SF at her church & she moved up, sang a "blues"

(cont) C-3-9-2 (36)

no - she was exceptionally good

The Knights, the choral grp, sang -

I arrived - he stated that self dogs had been sprayed by Larry & his crew - I asked for volunteers to take dogs to the fields & sev crews volunteered to do so

Dana Truso, a little girl who I think now is on Learning Crew, slugged someone & was put on the floor - she was recalcitrant - I called for her mother to confront her & the trouble was revealed - the mother obviously was not serious in her disapproval - I told Dana she had better straighten out or she wd be fired for Tom Grubbs' behav. modification

Among the items on the agenda from the Agricultural Com: much disc on raising chickens, incl. pipping, use of egg shells in diet, Newcastle disease, worms, gravel & sand - some of the points made by people in the aud. who had raised chickens were contradictory - I sd we need to call a mtng of all who know about chickens - from what he had heard it wd prob be an anarchists' mtng

Sugar broken into by the rats & the cassava mill was ppsd to be moved up the kitchen & used in cooking only - there had been a mtg - up for which Charles Williams was resp

There isn't any notes for construction to try the Chin. ppl. of having separate quarters for dig. furnitures in pig raising - Jetin is

(over) C-3-A-2 (ST)

to be brot up in 60 days

Coordinating the tractor - trailer schd was dscsd - & it was decided that all areas shd turn in their requests & the Analysts will coordinate

Getting production rpts. from seniors' projects was dscsd - I sd some guys have taken up others' gardens & replanted them

A rpt on herbs we are raising was presented - Schatzl is efperimenting w/extracts of alcohol or oil - I emphasized the imp. of arriving at some herbs we can use instd of purchasing medicines, which are very expensive

Rpts on cassava & citrus were given

I sd he had got customs duties reduced to zero - the medical crates will be dlvd

Dick Trigg interrupted Danny Kutules's rpt on beneficiary production, saying such rpts were meaningless unless one knew what we shd get

Jack Barton, rpting on peanuts & sorrel, sd nematodes were a probl. in the Caribbean area - they are microscopic round worms - a quest of planting pumpkins or grenadilles in a certain area - grenadille was sd to make a fresh - like juice - was put by the grp - however the yield of pumpkins is much greater - the quest. will be turned over to the analysts

I questioned why the procurers in Georgetown has not looked the amt of meat

(Cont)

11 Feb - 5 - 3

he had ordered on the food - they will be questioned at the next mtg

Russ Moton, agronomist, rptd - he wants to get info. from China on their use of night soil in agric - I told him the Chin have a mission in Georgetown - Moton can get info on a compost privy - Agric has a method of using night soil, garbage & organic material - I sd human manure is the richest of all manure - we shd do s'thing on an experimental basis

There was disc on the diff woods available on our property & uses for them - I called for more effort in locating wood & so the sch pha take an interest

During the livestock rpt reg was made to the time the sows' teats were destroyd by rats - Wanda Swinney was blamed - I said he doesn't want an apol. in adv. when the person knows he or she is getting reamed - when 4 little pigs died she wrote a 2 page ltr of apol - she crushes the individuality of yng workers who often do better than she

Then in Georgetown Wanda pursued an indep course - once she spouted off her mouth & made us pay more than nec. - I sd he has many people he can't send to town, can't trust them - Wanda is arrogant, a know-it-all - in SF she was making $100 a mo., she spent

(over) C-3-A-2 (39)

a good pt of the money on hers. – she was removed as head of the piggery + Guy Mitchell was put in chge

Russ Molon has been goofing off – he is lethargic – he cd have finished his ed had he not been involved w/a white male outside the ch – he is too passive

Chris Lund the Electrician gave a fine pt on lightning protection – I wanted a required course in electricity to be taught to the h.s.

Nedra Yates refused to run while on the Learning Crew – she is 54 – I sd she is not humiliated – she put him through more mete – physical trble over her dog – I put her on l.c for a day, it was hard on 2 wks if it had not been for her age

Willie Malone went away on the l.c. – he was given a last chance

Laetitia Jackson has a bad attit, the fault of her mother, Rose Jackson – the mother shd be firm, not side w/the child

12 Feb – Su

At 6½ had long day to wk by myself – wha on my grad. rd Amer Radicalism

About 8½ Liz Leyton th my med. hist. in the dining pavilion

I made announcements throughout the day on the intern sit which is very threatening – the war btwn Somalia & Ethiopia is reaching a serious stage, w/tough stances being taken alike by the USSR on the one hand & the USSR & Cuba on the other

I went to dinner about 5 – we had chicken as the fish wd not have been unloaded in time

I went to the pavilion & was able to finish Amer. Radicalism by Sidney Lens

Jann got me & wanted to talk about her lesson plans again – she had decided what she wanted to do for the wkend – the boat was in w/the passengers expected momentarily & I warned her I wanted to greet them

W/ mostly efficiencies on sentence structure, which is contradictory to the advice I had been giving her all along //

The flock for the new arrivals was to take them to the pavilion where a crowd was gathering for Sat eve entertainm, but people insisted on greeting them at the trailer – tractor – among the new arrivals were Wanda King & Edie Hatches – Ron Taylor (now called Bem I learn) rd from Georgetown, as did Shwonda Oliver – I talked a few mins w/ Wanda

(over)

C-3-A-2 (41)

John Jones handed out cookies, as I so he had to take care of emergency situations involving our family in the States.

I listened a few mins to the entertainment thing provided in the pavilion, then went to the cottage & which our yest's girl entry.

A movie brot from Georgetown was being shown afterwds & the other occupants of our cottage attended.

We did not get any new residents in our cottage, exc that in the loft where Judy James has moved out, Laura Johnston will be w/ 2 girls - Harriet Trapp is the other person in the loft - downstairs my room mates, besides Diane, are Vera Connesero & Shirley Ann Edwards.

A yng girl, whose name I do not know, borrowed my iron yest & at bedtime had not rtd it, altho I had spent five mins telling her how to take care of it.

I went to bed at 11 but was disturbd by the conversation, which cont'd for a time of those who were returning from the movie - the guards come around to see that lights are off at 11 but apparently do not check back frequently.

13 Feb - M

Didn't even hear the 6^{00} call this mo. nor anyone get up nor bo - got up at 7^{00} - shortly by this an announcement about my class must have been rd as per people told hearing that it wd meet at 7^{00} on M, W & Th - I waited for my medication at the nurses' off - then went to the veg. shed to get papaya but fish was being cleaned so I cdn't be accommodated - strangely enough, this was the first day I had a normal bowel movement, tho sparse

Went to the Book Depository & the fr c bks to rd - find nothing exc Why Children Learn by John Holt which I have never rd - checked it out - got some materials for my class

Ate lunch at the 11^{00} o'clock period

Taught my first class, a gp of 7 or so drawn from Jann & Shirley's Basic Eng classes who need sp attention for one reason or another - among them are Loretta Buckley, now 20 & Jair Baker a bro of Charlie Baker who fancies himself as an intellectual Dem Tolt - the guy new in the class were talkative, the 2 girls passive - I started on a very simple level w/ disc & then made an observation assignment

Went from 1^{00} to 5^{00} in my college efc for going for a shower - I started the (over) C3-A-2 (42)

Took bk & wrote final entries - I prayed
There was a teachers' mtg at 3 on M's
No rain has yet fallen - the bucket
brigade was called out again & I joined
them at 5^30 & worked for an hr

Dressed for my eve class & went for
dinner - we had shark which was very
good

At 7 met my astro class, which was
slow in gathering - about 7 eventually came,
incl. Helen Lark & Shirley Hicks - I got an
idea of their lang. abils (all can read
rd & write a little) & told them what
we might be doing in the class - at the
end I put a short selection from Ogden
Nash on the board to show them what
cd be done w/lang.

A Charles Brush film, "Newman's Law,"
one of those brot from Georgetown was
shown at 8 & I stayed to watch it -
it was horrible & I wd not have sat
through it had not I come in to give his
commentary - he pointed out the racist
elements - the excessive violence was
also deplorable

Went to bed about 12

Mrs Benny borrowed my t.w. again in spite
of my deep-seated dislike of lending it -
I still don't have my iron back!!

14 Feb - T

~~At bkfst~~ I ate a whole papaya which I got from the vegetable stand - I had a small bowel movem. again -

I explained to Dick Trupp the difficulty I was having about the use of my t.w. He told me not to allow other people to use it

Went to the showers to do my laundry - they are cleaned from 9³⁰ to 11⁰⁰ & I cd not get in - all the buckets in the generator shed had been taken for use in the fields - the one tub I saw on the porch of one of the dorms the residents wd not let me use w/o the permission of their head, who was not there. I had an argument about this, in which Barbara Walker participated in opposition to me. Some people were sympathetic, & finally the person in charge was found & let me use the tub.

I finished by 11⁰⁰.

Went to the dining pavilion & ate. -

~~Had~~ my class at 12⁰⁰ - I wked on the observation lesson I gave them & used it for practice in spelling, in which they seem to be pretty bad.

(over) C-3-12-2(15)

My iron bed been returned to the cottage

I slept on bed & a half - it was very hot

I wrote on girl entries for two or three hrs

Rd Holt

Had dinner

Went to the pavilion to get a seat w/a back - there was the usual scramble btwn the seniors & the workers who were trying to arrange the area for the rally - I found a good place

The Knights did an amusing song inspired by J's comments on the no of people who tell him about their constipation; called "Sitting on the Toilet Stool"

Jack Barton presided as the agric. rpts were given - he first rptd on the relative merits of pumpkin & grenadilla - the vote of the members was to follow his recommendation: plant pumpkins in the fields, grenadilla in the windrows

Costs of produce are being done, incl. a cost assigned to labor

Bob Guy rptd on the chickery & the visit of the veterinarian, Dr. Linnard - the baby chicks which had been pipped were dying because their tongues were cut - the

(over)

vet said pipping was not nec; he called it a "curiosity" - gravel is not nec as it is already in the feed - our egg production is down because the hens are too old

Chris. Talley rptd that 2 more dogs have been spayed w/the help of the vet - we are awaiting a litter of rabbits

Wanda & Dr. Fernand stated the dry season was the time to get on top of the fly problem: swat flies, watch manure & wet spots for fly breeding

J. arrived at 8:45

Gene Chaikin spoke on expanding the planting of banana suckers - we may be able to market cayenne bananas - Danny Kutulas will estimate the no of banana suckers available - Gene that it not wise to go outside the area for banana suckers because of the risk of importing disease - Teresa King had requested a change of job back to the banana crew, but she had found she was personal in estimating her position as a children's worker & she had sent an amendment

J felt Dr. Fernand was a socialist & very friendly to & impressed by Jonestown - he felt the cows were the best we got

(over) C-3-4-2 (47)

in the world - he admired the simplicity of life of the leader & the partici. in actual wk of the supervisors - J. asked Stubbs what prog had been made in the isolation prog. - Tom said he waiting for wood for construc. - in 3 days or 1 wk those in the prog will show chge - c wk will guarantee it

Peter Rotherspoon submitted a proposal for an even best skilled cooking arrangement so that we can have fried eggs, pancakes & so on - possibls. of getting the correct metal for such a device were discussed - Peter also suggested using wind mills for power & watering during dry spells - this was referred to the Steering Com.

Jack Dawson thinks he is getting somewhere w/ bricks - Jeff Carey suggested mining clay & selling it if feasible, as there is an increasing market for it

I spoke further on the remarks of Dr. Fernando - Guyana is better than Cuba in the unpretentiousness of the leaders - I th to task those who had recommended fipping & the apathy of those who had let them prevail, also those who managed the laying hens - at much diffic. I ascertained that 8 people participated in the chicken

(cont) C-3-2-2 (48)

pressing - apparently only 2, not present too, had gipped the baby chicks - Fernand find no worms in our flock - he advised immunization agst Newcastle disease - social dess must have a test on the matter; discussed too

Charlie Touchette warned agst spreading disease from hogs to chickens - keeping them too is going to cost us in the end

A detailed disc th place on the proper time & order in which to clear & burn additional land - J is concerned that land which is not cleared is an eyesore for visitors - the first 10 acres planted in bananas are interplanted w/ bl eyes - Jim Bigue wants a good banana man to be find to advise us as the vet. advised us on animals - the same shd be secured in every area - J sd everybody shd have a notebk & write recommendations down

Fernand sd Lubo's motto was: "From each according to his abil., to each according to his work" instead of "needs."

Freeze-Dry (Kevin Smith) was on the floor for poor wk - the steering com wanted to relieve him from his respiration duties & put in Mark Wagner, whose attitude has

(over)

much improved since being confronted — J-D admitted he was lazy, left his crew do the physical wk & doesn't wk h'self.

J remarked that of the people who used to assist in QSOing in the radio rm, all have gone since the food stopped.

J sd J-D manipulates, thinks he is better than others — J is concerned why he doesn't wk, suspicious about his planning to leave — Larry Schacht sd J-D does a slipshod job on the herbal remedies

Larry remarked he had a mother who had been in labor 18 hrs, the baby was turned and — he was prepared to perform a Caesarian but J came by, sd it wd be all right — the woman went into labor, the baby turned and the woman delivered in 2 hrs

// J-D had used his attendance in the radio rm as an excuse for not wking in the days — QSOing is supposed to be in addition to one's reg wk //

Shirley Fields has been released as dietician

F-B is to go back to the learning crew from which he was on probation

Jerry Bailey & Amanda Fair were asked as having sd to Binny Rice that

14 Feb - T - 4

Rob Christian & Freeze - Dry had been removed from their jobs & white persons were going in - Steve Jones got up, & after a lifetime of living w/ the people announced passionately that "white shit". I reprimanded Jerry & Amanda & gave each of them extra assignments - he doesn't like to send seniors to learning crew

Then Rob Christian left the floor & started to talk about the changes made in the warehouse where he has been the head - he sd Helen Swinney who was sposed to help him take inventory, w/ Charlie Touchette & Joyce Touchette had interest in on him - he felt excluded - he resented removal from the warehouse job which had apparently been done by steering com last night, intending to write it up for J - Charlie Touchette sd he was not resp for removing Rob - Harriet Troff sd she initiated the action - Johnny Jones sd Rob shd have registered disagreem w/ steering com. at the time - Vernette Christian then came forward to state that Rob shd not be so passive; he shd have acted - she was the one who sd s'thing to Jerry & Amanda about it - J. sd "Ah, I felt that had to have come from somewhere

At that moment a huge efflorsin coming

(over) C-8A-2 (B1)

from the area in front of the pavilion was heard - I thought it was either a bomb planted by an enemy infiltrator who knew we would be in the meeting at this time or an explosion of some fuel on the grounds - see people ind. I left; the rest of us sat silently & waited

In a few moments some people were called for & it was evident that the tractor was going to be driven to Port Kaituma & a plane from Georgetown called for, indicating someone was injured

We should have waited an hr at least, possibly 2½ - then I rec'd - told us that an explosion in a piece of equipm had injured Tommy Barkman (formerly Kutulas); in fact he had been dead & was restored - he was blinded & lacerated but he was going to be all right

11½ my watch, which has been keeping time well, had been stopping off & on all evening no matter how many times I set & wound it - I did not know what time it was //

I said when there are divisions such as those represented by racism, accidents like this happen - he gave an acct of Helen Swinney's being asked to inventory the warehouse - items intended for dig. depts lost in the warehouse - the inventory was in a hell of a mess - I had asked for

(cont)

14 Feb - T - 5

reports he did not get some

I interjected remarks on the present polit. sit - the foreign min of Guy has been removed from off - we wanted to be sure this was not directed agst us - the Stoens are all over Washington "seeing" it - wing people - therefore mother likes to be all over Wash - Stoen won't have complete immunity tho - he can still be indicted for actions he performed, & he will be - they'll get him, as nobody likes a fink

Joyce Touchette criticized Helen Sweeney for her attit - she doesn't pay attention to people's feelings - what was done in the warehouse was to give Rob more opportu to perform engineering tasks for the fe - I reminded Rob of what Helen & he h'self had had to go through, having children who were traitors to the cause - she had to be willing to kill her own son - there were essential engineering jobs for Rob to do - I mentioned the contradictions raised by Rob's rushing in when a process had been put into action & an issue had to rest - "then you come in w/ charges of racial injustice" - I asked Rob if he wanted to do both jobs, the warehouse & engineering - the ans was no - I said the engineering job was more imp - it involved the

(over) C-3-4-2 (53)

cemetery plot & getting more land which depends on preparing plans that suit the gov't.

Lake Porkes had been named by the steering com as the head of the warehouse.

Talk up the question of 2000 lbs of fish which were not put on the boat - we always get shortchanged in Georgetown when we need protein to feed our people - the reply was that the dock area was short of ice - I replied this shd have been foreseen - you can't take anything for granted in a developing city.

Myra Bly said that he felt uneasy w/Tim when learning the boat controls - he sd he felt he was not trusted to do anything.

Resolutions made of problems: J-D is still hanging in the air - I sd he shouldn't have taken him off learning crew - he'll serve his full term.

Tim swearing to go on l.c. for 2 days - Bly has to be more assertive - Myra & Tim have to change their ways & Myra is to be a l.c. too - Rob Christian to go to l.c. also (all of these prob for just a night so that they can get back to wh tons) - Helen Swiney must serve nice - Beryl Livingstone 2 l.c. also - she was involved in the warehouse w/Christian - Vernette is already on, gets one more night.

C3-A-2 (54)

14 Feb - T - 6

Mabel Che Guevara (formerly Cordell) got a warning for standing around while others wk'd

I had stated that Tommy Beckman had handicapped him & made his own recovery diffic because he didn't have a good reaction to pain - I said you can destroy yrself by trauma & cultivate the abil to withstand pain

I had Don Giles come up because he had been outside the pavilion dancing w/ cold & had him submit to a testing by pain administered by Don Sly

Jair Beker was next - Jair had been rptd as saying he didn't like being here - I said he was lazy, a loudmouth & I said he can see through people who are elitist - he was tested by pain & withstood it well

Harold Cordell, now companion of Edith Bogue, was tested, then Mike Lund

I asked how many people wd volunteer for the pain test - some hands went up - he asked again & more raised their hands - he said that those who did not volunteer the first time shd write it up for him - "I don't trust you if you can't take pain - I have not raised my hand either time, tho I had felt I'd enjoy taking a mental pict of those who didn't

(over)

C-3-2 (55)

volunteer

Praises were given

Tommy Rice was called up for putting swastikas on Wm Klingman's bk — he was tested by pain

Tommy Bogue was on the floor for sleeping late — Toby Stone was on the floor because she doesn't wk, but to J's surprise, she withstood pain well

Odell Rhodes was up — was accused of thinking he's special — he got the pain test, showed less resistance to pain

Marie & Barbara Simon, suffering from eczema, which J said was a reaction to inner thots — Ethey complained of the heat off above their treatm — they said the child Camille, had become more babyfied which J doubted — they were given a warning —

Lois Pons, apparently in connection w/ the Simon episode, was called up for saying sthing negative by new people — she argued w/ J, was told by him that she was too defensive by Criterion

Santiago Rosa was called up for allowing his baby to fall from a top bunk — J protected the baby — he was assigned to K.K. — Russ Moton, who was in a lower bunk & was unconcerned, was also assigned to K.C.

Odell Rhodes's case was chted — he was resp. for a baby's rolling off a bunk — J said he was still — he many times asserted any responsibility — further bad dope by entire — he called J a liar & boasted about it — the entire was dismissed at 4

423A-2 (G)

15 Feb - W

I made announcements throughout the day on a worsening pelt; sit in Guy - The cabinet is in process of change 11½ We were allowed to sleep until 9 00 - half-holiday, which means that h.s. classes were cancelled & students work in the fields 11 spent a good deal of time in the cpt working on yesterday's journal entry, then rd in Holt

Expected that we might be called out to water the garden but a little rain fell & we didn't have to

Had my adults class at 8 00 & I made an announcement & I made another - he said that all adults who were free from work should come - he then came over to see whether they were there - some 20 attended - I spent a good deal of time on the "Offend" selection "The Turtle" - most seemed to enjoy it

The letter writing off which had which on assigned to each person was the prev pts not off - each person was on the then entitled - Tim & Three then came in March, picking support in a vote & drop the + of John - I fed on the + w. Rd 143 a little

Wind to fell about 1 00

C-8A-2 (57)

16 Feb - Th

The night had been disturbed by sounds of coming & going outside

We were awakened at 6 AM by an alert call, the loud speaker telling us to dress & go to the central pavilion as soon as possible - I used the free jar, threw on my clothes, put on my glasses, purposely did not take my watch, as the others were urging me to go

The entire membership w/few exceptions (the babies in the nursery & their care-takers & people liking at the animals) were gathered into the pavilion & seated on all benches & chairs which can be crowded in

I explained the pilot sit had worsened & was threatening - Jim Kim, Wells had been forced out of the Cabinet & the Minister of the Interior, Desmond Hoyt, seemed to have increased power - the former had been friendly to the Te & the latter is a rightist - the Army was on maneuvers close to us & there might be an attempt to harm us in one way or another - many of us blame the U.S. & the CIA specifically might have played an ing role in the events

J has been suffering w/an infected tooth for few days - the hot can & does bear the pain, the tooth's jagged edge cut his tongue, omething to alleviate for him to sph -

(over)

C3A-2 (58)

worst of all, he had had no sleep for a long period of time - Shawnda Olivery who has had training as a dental assistant, put temp fillings in his teeth throughout the day while he sat in his chair.

What to do about the sit was the subj. of the whole day's disc - J through the Pres. asked our reps to clarify the views of the govt & as time passed to make our demands known, as he followed his usual pol. of negotiating from a position of strength.

As we assumed, no immed. ans & certain developments indicated that the situation was getting more serious, we began to talk of trying to get to other friendly countries - long lines formed to make suggestions or express opinions, w/ comments coming from J & others of the leadership: Harriet Tripp, who is a form. polit. analyst, Mike Prokes, Gene Chaikin as an attorney, Lee Lyons, & those who have been here for some time & know the lie polit. sit, such as Charlie Torchetta.

This same kind of concern & argument had taken place at least once bef, as Diane had told me - at the time of the last crisis when our opponents had entered our grds & actually fired shots (in connection w/ the attempt to get John Stern away from us), the membership had stayed in the perimeter three days & nights - food was brot in & people assisted in gps to relieve their physical

(cont) C-3-A-2 (59)

needs - on this occasion for urinating we were instructed by secur. to go beh a small nearby bldg

Some people envisaged the possibil. of returning to the States but in gen the choice seemed to be btwn Cuba, the Sov Union, & various African countries, such as Ethiopia (I explained the serious dispute btwn Ethiopia & Somalia w/ the alternate positions of the U.S. & the Sov. Union as playing a role in our dilemma), Mozambique, Uganda & Zimbabwe - votes were taken now & again & some place in Africa wd get the most votes - the difficulties were recognized: the fact that we are overweighted w/ unproductive ones & little child, the question of funds for journeying anywhere & by what means, language problems, fear other ctys wd have that we might infiltrate enemy agents - I at one pt proposed that we go back to the U.S. & support our ones & children by selling & healing things, say, in N.Y. - this latter suggestion fell flat, more it wd seem because of dislike of the cold than because it wd prob be impos to keep our soc faith alive among our gng

We had some bkfst - coffee & water

(over)

C3-A2 (60)

was given to each, we were told we wd have only one other meal — biscuits & cheese — at we had this, & water was given out again. J told us the sit had not improved.

J had made several st'ments from the floor & at one time finding it diffic to spk when my comments seemed pertinent, J sent up a proposal — J that J asked for it to be aloud but it was not — J suggested that instd of revolutionary suicide (which had been suggested) we seek to send our yng people to some African cty where they cd be used in a revolutionary cause, that the adults support their sons & child. in whatever place was most feasible, so that the brains & talents of our little ones wd be saved for the future — a few other people made similar suggestions that our yng people fight in revolutionary situations.

At length J stated that the polit. sit. showed no signs of clearing up & that we had no alternative but revolutionary suicide — he had already given instructions to make the nec. arrangements — all wd be given a potion, gthice contained w/a potent poison — at taking it, one wd die peacefully in about 45 mins — those who were leaders & brave wd take it last — he wd be the last to die & wd make sure all were dead — lines were formed

(cont'd)

C-3-A-2 (61)

as a container w/ the potion in it was brought in by the med. staff - I saw only a small amt was nec. - the sons were allowed to be seated & be served first - at the beginning those who had reservations were allowed to express them but those who did were required to be first - as far as I cd see once the procession started, very, very few made any protest - a few questions were asked, such as an inquiry about those in the nursery - I sd they had already been taken care of.

I find it hard to tell that the threat w/ which we were faced justified such an extreme action - I wd have thot it more in keeping w/ what we had been taught to go down fighting, taking some of the enemy w/us - I felt that some form of civil disob. shd be tried first, as it cd have a profound effect on world opin - and I wondered why we shd let all our bldgs & orgs to be exploited by the enemy, as I had mentioned earlier constituting a scorched earth pol.

These considerations led me in one pt of my mind to doubt that I was actually giving us a poison - however, the whole procedure was otherwise so convincing & I knew that I was able to perform any action, no matter how desperate it might

(over)

sent to others, & that since he is convinced that life is all pain anyway, he wd be unlikely to be influenced by our desire to live

I shuddered - I regretted dying as I feel I have yrs of wk & effort ahead of me, not least the writing I want to do about this whole remarkable story - it seemed, bad luck that just when I had come to Jonestown & had a chance to use my talents as a teacher, I shd be cut short - nevertheless, I am 62 & I thot of those who were younger, especially the children, w/all their potential - I looked around me - many had glowing eyes - it was awesome - even the children were very quiet - I felt it the beautiful sky surrounding us

X I reflected on some in the past who had been executed, some such as Nathan Hale and Charles II whose principles I didnt even agree with, but they died bravely - I don't know why I didn't think of revolutionary heroes, except Rizal in the Philippines, of whose courage I had been told - men such as Victor Jara & Salvador Allende shd have come to mind - perhaps they did not, because they had been tortured as is the custom nowadays - the ones I thot of had had to accept death because of division

(cont)

to their polit beliefs – presumably they
cd have renounced their beliefs & lived
Poetry in general was what I most
regretted having beh – inevitably Hamlet
came to my mind & altho he was
a fictional person, I felt that he most
nearly typified the condition we faced –
all of us, a sacrifice for the community,
dying when he was young & capable of so
much achievement – but the sacrifice
of his life, as remarked by Ferguson,
accomplished s'thing for the society that
lived aft him & I felt that this amazing
event in which we were involved wd
undoubtedly be noted and the world &
people wd know that we must have
cared deeply – when it came my turn
I meant to request that be sent this
msg: "Do not protesting passion – this is"
I gave some thot to my sisters &
Lou – when they heard the news I
was afraid they wd think Jim Jones
"a better then dying by the nuclear bomb"
was a lunatic & I wasn't much better
then one" – this thot I dismissed – what
did it matter? – sooner or later when

(over)

the bomb fell they wd realize Jim Jones was right as I had always said — The thought of the people at Bethel whom I had known well never crossed my mind

At intervals as the line went down the pavilion & crossed the room & came down the middle I contemplated the imminence of death — another Shakespeare character, I bel. it was, said "We owe God a death" — I had to die some time — but I must say I didn't lk forward to it w/joy — at that partic. moment I neither wanted to cease to exist, to be absorbed into the Universal Essence, nor to be reincarnated & start all over again

However, it was a new sensation, & in a certain & peculiar way, I was enjoying it, just the effect — everything was very vivid — I was fonder of those around me than I had ever been — it was remarkable how disciplined & obedient they were, tho the look in their eyes showed they knew the importance of what they were doing — I especially noticed the children who were very quiet

(cont) C-3-A-2 (65)

16 Feb - Th - 5

11½ The most poignant thot of all was that the greatness that is Jim Jones was not come to fruition - was this movement he had nurtured to come to naught, to a pile of dead bodies & an abandoned agricultural experiment in the small city of Guy? He is the most remarkable man who has ever lived - is this what he will be remembered for?

I thot of the time that in tones of the utmost solemnity on a tape played to the SF Fri night mtng he had promised, "If you stay w/us your fondest hopes, all that you ever imagined you could be, will be fulfilled" - I didn't feel that I had achieved all I could do, and I knew that others had not. I remember his saying, in a flash of revelation, "Gary Matherson, I see you giving your life for this cause." I did not think he meant in this way. That was one reason I did not quite believe our lives were at stake.

And what would happen to those other members of our family in San Francisco - some of the brightest, the

(cont) C-3-A-2 (66)

most loyal? What would happen to them?

Diane told us the next day that many parents came up to their children to give them a last embrace.

Some people were beginning to collapse — I saw one woman being carried out — I didn't know the passage of time — it must be about 45 mins since we had started taking the potion — I was annoyed that I did not have my watch — then I was amused at myself — when one is about to die, what diff does it make what time it is? — I couldn't very well write in my jnl: "I died at 5.30 p.m. on 16 February 1978"

I had only a few mins left until I wd take the potion — I was going to be a credit to myself — I wd just like to sit down on the grass and in a few minutes I wd pass out — that wd be the end.

Then I heard a voice — quite quietly he was saying "You didn't take anything. You had only fruit w/s & thing I liked stronger in it!" He went ahead to explain the people who were passing out or feeling dizzy. "The mind is very powerful." He told us we shd have known that the revolutionary suicide might be sometime nec, he was heartbreaking

(cont)

16 Feb - Th - 6

× much more to say about it, had it been real

One little boy, Irwin Perkins, Jbel, said, when he learned of the potion, "Oh, boy, I'll get off learning crew!" In a way, a great many of the seniors said that they were grateful to die = they had suffered so much - I think many people regretted that they weren't going to die - in a way, I too, regretted that I was not going to be off learning crew. Back to the sound and fury of life.

// 3 I wd take the potion w/o hesitation //

We went into our business - the chief subj disc'd was the advisability of making some visits to churches in Georgetown w/ the object of gaining a following which wd stand back of us in a polit. crisis - I envisaged holding healing services w/ the Choir -

// 4 I also to raise money //

someone proposed that tapes & motion pics cd be used to prepare for future things - some opposition was expressed, prob. much of it based on going back to the services now that we had gotten away from the rally atmosph - J, however, emphasized the wisdom of using his gift, which was genuine - he told the choir to get ready

The rally was dismissed at 10 or - J told us to go home & have a good night's sleep

// 5 the latest pp revel on the radio offered

(over) C3-A-2 (68)

some assurance that the demands of the Te
wd be met by the cabinet, even if it were
reconstituted //

When I reached home, I didn't find my
watch — it appeared to me either that
someone got through the lines in order to
filfer or that the secret. guards th'selves
had taken it.

I went to bed at 10.30

17 Feb – Fri

Accomplished very little today – at breakfast went to veg stand to get a pepper – none were in sight – ate a cucumber instead

Had our girl entries for a short time

Had lunch about 11³⁰

Went to my class at 12⁰⁰ – I explained to them that in view of yesterday's happenings I was going to be firmer – wanted them to pay attention, stop talk on a time, work on their spelling – then I charged the assignment for today, asked them to think 5 mins on yesterday's events & then I wrote their observations on the board in prep for their writing on M – find that Jam & Tom had both given written assignments on the crisis day

Did a little more on girl entries by the h.s. teachers' entry

Dick Tripp explained his project for an apprenticeship prog to go into effect when this term ends in 2 or 3 wks – each stud wd be assigned to a wking crew of the commun under supervision & they wd attend class alternately on M, W & T, Th – sci teachers wd be associated w/ the wk crew – the classes wd be divided into beg texts w/ Rec Sci & Math – F wd be used for testing & rev – studs wd not have much less time in academic subjs but these subjs wd be tied in w/ the wk projects –

(over)

C-3-A-2 (70)

a great deal of record-keeping wd be involved, plus the time involved in setting it up — as Tom will be going into his irrigation project on M, he won't be available — there was some disc on the possibil. that the Gov. govt might req us to administer tests of their own on accep. abils — we wd like to get simple tests & prep. them — Caroline Layton sd it wd be better not to go directly to the govt but get the tests some other way

I had very little time aft the teachers' mtng by I called for the bucket brigade again — that a little rain has been falling & we had a light storm today, I sd it hasn't been enough — I started out at 5^or, intended to quit at 6^or to get ready for sweetheart Tchrs' mtng which wd prob precede the soc. clas — however, we were late getting started — I was w/a grp of sons & what I did by at 6^30 there was some resentment

Went to my cottage, changed shoes & got my notes for last T's mtng

Waited in line for a long time, then just by I was in front of the window, the servers ran out of food — we were told to come back at the soc. mtng

I hadn't been able to attend the briefing session — when I arrived at the mtng I learned we were expected to test people on the agric. portions of T's mtng — Don

Cont'd

77 Feb - Th - 2

I asked the bulk of the people in the room questions & them individually - in my opn most were older adults who did well in comparison w/ the younger ones

After waiting in line a while, I got my food - I hadn't eaten since 11.30

Dr home at 10.00 - rest for a few mins by going to bed at 11.00

C-3 A2(72)

Cordell
Neal

18 Feb - S

I spent a couple of hrs this morning retyping the Jonestown Med. Rpt which had been corrected by Larry Schacht

Shampooed & put a dark rinse on my hair - I forgot my towel at one time & another my bottle of rinse & had to go back for them - the sun was hot

Went to lunch at 12 00

Did my laundry in the shower room & hung it up on the line back of our cottage.

Dreme's gp of nursery sch. teachers were mtng in the cottage when I got back - they were evaluating the children for a rpt tm

I sat on my bunk & wtd on girl entries from about 2 00 to 4 00

Tk a nap for about an hr

I called for the water brigade early today - tho there had been a brief shower, it was not enough - I went down at 5 00 but the watering didn't cont. for long, prob because I may have wished to get dinner started so

(over) C-3-A-2 (78)

that the rally wd not be late in starting

I went home to change my shoes & get my dipper & water cans - it is nec for me to fill them on most of my trips to the central area so that I will have enough in the cottage

I got a good seat at the rally, next to a woman who kept her eyes closed most of the time - when aroused, as she was countless times by the guards, she protested that she had an eye infection & wasn't asleep

Pres. hist - when I found Shirley, she sd.
it was too late

I went home + went to bed at 1 30

2-3-A-2 (81)

19 Feb – Su

We were not awakened until an hr late today

I had bkfst at 8 oo

I had on my grid all morn, writing my reactions to the day of crisis, 16 Feb

Went to the Central Area around 12 oo – guests from the Govt were expected – I joined Harriet Tropp who had a demonstration class for adults, since it was Su, on Guyanese history

Two govt. officials were in the party, Fred Wills, the former Forn Min. who was spkd to have been deposed but who according to Dick Tropp later in the day, may still be Forn Min, & the Min of Ed, Vincent Teekah – Teekah stayed in Bon Kaduma until late in the day

Wills did not notice our class at all. the party w/d & his leadership (?) directly to the Pavilion where they conferred – we were released – Teekah asked if I had bkfst & if he wanted to inspect our cat – I was worried

that he might want to see our sch records, some of which I have & which are far from complete - I have done nothing on them - however Harriet told me later that Tekah was impressed w/our project & that all went well

I had asked Dick for list of the Govt ministers - the pres. is Arthur Chung, Chin - Forbes Burnham is Prime Minister, Ptolemy Reid the Dep'ty Prime Minis; Vincent Tekah, Min. of Ed., for Min. Fred Wills; & Desmond Hoyt, Min. of Developm

I retd to the cottage & rs Holt until dinner

Went to dinner at 5.00 - the line was not too bad - we had liver, sweet potatoes & greens

Did my cooking and 7.00 - the band & singers were furnishing entertainment on the pavilion until late but I stayed for just a few mins

I had until bedtime in the cottage - Diane, Verne & Vi's child were in the cottage, but Diane or w/my girl, etc

(cont)

that I helped sweep out the cottage when V. borrowed a broom.

Diane seemed very depressed all day which I think was a result of the adverse comment on her permissiveness in gestalt mtg - I tried to soothe her feelings but she did not respond, maybe because it might have been interpreted as gossiping or resentm. of author.

On Su evenings it takes a long time for the cottage aides to settle down & for child, to be taken back to their homes & residents to turn off their tape recorders altho the guards had annc'd "Lights Out" at 11^m as usual - Laura Johnston, who has moved into the lodge, had a seam assignm during the night & also intended to use Karen's tape in the next cottage when she rtd from her seam. assignment.

I had gone to bed at 11^m

11½ I saw Jim Bogue on set'g from my shower & questioned him on name changes in the Bogue & Cordell families - J. is now called Jim Morell - Edith Bogue is now the companion of Harold Cordell, who th has name, Bogue - Tina is the compan of Bruce Turner, & Marylee is the compan of Cordell Neal //

20 Feb - M

Went through my reg morning routine: dressed, had bkfst, 2 cups of tea, got Provision & sned off, got paper, in bathroom had small bowel movem - my system seems to be straightening out.

Made my plans for my class at noon

Did a little work on my grnl

Had lunch

In my Basic class, I put some of the topics we had discuss'd on the board to trigger their memories of F's disc - then asked them to write on the day of the crisis, their observations & their thots - no one wrote well, and even a few sentences - and made no sense - some just copied the topics - Jain who had already turned his composition in, had some good ideas, but his spelling & sentence structure were deficient & his writing was full of a lot of bombast

I did more work on my grnl

With a shower

At 3 we had our Eng tchrs' mtng - Tom, who has initiated use of the isolation facil, was not present - very little was sd - At the mtg close I gave the

ness of my pts in teaching Eng. — Dick Troy expressed some reservations about emphasis on oral methods, but his further remarks were supportive of the idea — Barbara Walker left away & gave the impression she wasn't listening, made no comment — he is in favor of centering all instruction on the actual work in Jonestown, a de-emphasis on writing etc for factual rpts

Becky Beckman & Christine Lucientes were taking grps of small children down to the isolation site so that they will be warned about what faces them if they misbehave — Becky invited me to go along — the place in which the first person, Dana Trust, age 8, was confined is a generator hut back of the dorms — Tom was sitting outside, making notes — Dana was screaming constantly that she was thirsty, wanted water — however, Becky told me she was given water & she was merely trying to get attention — there was no light but she had more space than the few called for — the other children just listened

I prepared for my adult class, did a little more work on my pmt

Then I went to dinner, I was con-

20 Feb - M - 2

fronted by Penny - who is angry about the t. w. episode - she sd I had shown a very exclusive attitude, had had tantrums about little things (incl. my concern about my iron) - when I explained what the t. w. meant to me, she sd I was defensive & she lk'd mys. - I tried not to retaliate but remained firm in my determination not to lend my t. w.

~~Penny made me late getting dinner & assuring to my class equipped & on time~~

I was late getting dinner & had difficulty arriving to my class equipped & on time

Some 30 people came to the class, sd good attention & participated well - I spent most of the period on the cultural items from Ó's rally, ended w/ some limericks & other amusing jingles - I asked those who didn't know how to read & write to give me their names & I'll try to make arrangements for such instruction - about 10 turned in their names

Willie Jensen, who is a judge of the circuit court, let me borrow a copy of Letters w/o Crosses by Mike Davidson, which I have started

(over)

(82) CONTD (over) (C-3-A-2(87))

to read in Georgetown — an order has been given and that all radical books are turned in to the soc. libr. & will be issued to those who have need of them for a limited time, and students — heretofore only teachers could borrow such books.

On my way home, I met Diane who told me that Grace Johnson had moved in our cottage & was occupying the bunk beneath me — Grace works w/ Diane as a teacher of the toddlers.

I found Grace in the cottage — she had moved all my material & had made a very attractive nook for hers. — she also scrubbed the floor of the entire cottage — I put away, hung up or otherwise disposed of my articles & I can still keep my suitcase under the bed & managed to put some more items on hooks so I won't be handicapped as much as I had that

I read Cities w/ Crime for an hour or so, went to bed at 11 pm

21 Feb - T - 1

Made consid prog on jnl entries today

Aft lunch met w/my Basic class - had planned to have the members discuss their byground in couples while I talked to Jair about his paper, then disc the paper w/each student - however Jair was absent for a second day & I decided to talk to the class as a grp - few had anything at all in their papers - some had merely copied the topics - I talked to them as to where we cd start in view of their deficiencies & tried to draw them out about their byrounds - I learned Kenny Dennis's mother left the family when he was 4; Kenny Dennis is not related to him by blood tho they were raised tog - Lorretta didn't go to sch at all until she was 12 - she was used as a baby sitter for the younger child - they had few memories of sch either good or bad - Marcus, Anderson & Yolanda J Brown had practically nothing

I worked again on my jnl

Tho a shower

Had a short mtg for a half hr at 4 30 - the call went out for the bucket brigade so I dressed & started out at 5 00

(over)

C-3442(89)

I was down at the field when I was called back by Trop - some thing about Jonestown ~~had to~~ go out by bus to 5 publications - Deck had written them - other people who were doing them were Karen Layton & Carolyn Lowman

I missed dinner - th one ltr & typed 3 cc in the cottage - I wkd for a while aft the entertainment started at the rally - the guards came around to the cottages & see that everyone was at the rally

(cont)

21 Feb - T - 2

8¹⁰ when I came in - entertainm prog was in progress
Agric. rpt - Danny Nicholas presiding
Chris Lund - shortage of electric power - urged
cutting down of lights - J. says make bulbs last
Hugh Mitchell - livestock - weaning of calves
fattening of hogs - high protein feed for sows w/ pigs -
care of bred sows - injection of beta cyl spread of
pigs allowed to suck - MMA syndrome -
Colostrum has valuable protective elements in it -
J inquiries about babies we have adopted - mothers
parent nursing them - Schacht will find out -
why is first 5 days milk of cow thrown away
Patty got an cycle - J hopes she won't for
it home - Dr. Fernandez warned to be
careful about products from trees as they may be
poisonous - propain in pipe is a worm -
star apple / sapodilla for diabetes -
Arecipe cattle men, came w/ Fernandez, one
respected Eugene Benjamin wanted overline -
James Smith cattle man - on deworming cattle -
on feeding young aft. birth - on feeding horses -
beta feed to milking cows
J sd pharmaceutical co. by QSO contact may
give us many drugs free & J. follow up on
chicken reflections - when QSO my radio ham
write down names of people we talk to - Dr. T.
sd spec course in dairy farming - will let us
know - will give us equipt for artificial
insemination course July 3
Four sections of cows between -
Lil Murphy released from hosp. - miracle
Dr. T. sd a few days, big up, as
hard to digest

(over) 0342 (91)

Dr. T. said we could get concentrate feed & add it to our own bulk - feed chicken offal (guts) to another type of animal - cassava good source of fat - treatment of bitter cassava - for 9, we don't raise pigs & chickens big - hard S. - spirilas - don't - discussing piglets & sows - suggested we contact Mr. of Agri about getting land race boar hog - shouldn't have our own boar hogs because of inbreeding - i.e. - place they 3 yrs - recommended protein analysis of cutless beans - we have had analysis - 25% protein - but not amino acids

Kitchen equipment: do we want it? - see list from S F - worth the cost of shipping? Talk to Mary if we want to do big scale entertaining of foreign visitors - some things could be used in mess unit - might sell it in Georgetown - talk of buying bakery in Georgetown

Spot on tractor tire that blew up - didn't know lbs of air - hadn't put the gauge on - I doesn't want it to happen again - Blakey thinks they built up too much pressure - mechanic didn't take proper care - has a record of taking chances - T. Brice - I calls in him to accept guilt & change - still called arrogant in this shop - I wants an apology & admit attitude changed - he doesn't take criticism well - I says if he doesn't take it well this time he should go on L.O. - detailed lack of safety precautions in shops - I suggests safety com be set up - make foreman finally responsible - safety glasses not worn -

(cont)

C-3A-2 (92)

21 Feb - T - 3

J asked that we order them that not available here - one pers attacks attd. of Mach Sly when he questioned in trol shed - - he has elitist attd - trols are checked out & not pet'd - J says inspection com shd investig this - pers not pet'd trols be put on l/c. - Cynthia has trbl w/Alton Touchette - Cynthia the nicest attd - Alton not here - all his days gone sleeps much as extra wk to make up for bad attds - J's to be moody is inexcusable - so that Maureen Rand ship well organized - now it's not

Those who going a the track - perhaps someone can replace Bobby Strand for a while - tells Debbie & May have to know fin cases every day

Alton T. came in - his apology & his attd - J says moody attd. result of thinking you're better than other people - think of him when someone threatens to come & get their child, he dies - Connie put in dye - Charlie T. says trols are not checked out - J: someone say they missed Mertle girl - she tried kill Madeline - mentioned Christ's death - Tim Shea & Mertle women back of this - J: one day I'll spring a them like I types J the Lord took because he had Cynthia close to her

U.S. Canal all along telling us I'll lose some of these child - and he says we won't - or feeling guilty - make you kind - makes you

(over)

C-342 (93)

feel happy to make others happy

I warns child who won't behave of isolation technique - "you won't get out"

J: all she wants how you take feelings out on others - none of you entitled to labor

J: All tools to be back in morn.

Cutting benzine flames - get tog on this & straighten it out

Alternate hrs for visits to be instituted so as to give everyone time off

Rob Hey: people who talk to hatchery vaccinate chicks day they are hatched for Marek's disease

J read list of people who have to go through inning - any objection - asked whether they can be spared - utmost secrecy to be maintained - stay in house esp when a immigration - warned that CIA agent among new people

Chas Williams - doesn't want to go - J says must go because of back to prison with papers straightened out - someone says he has tendency to talk too much - he warned

11½ J says we think we know who it is //

I was sitting at the back in the last row - one out was Carlyn Lorman who had done 2½ of her hrs - Dick Trapp came by, expecting that the inning she soon close - he was afraid that the boat wd be soon - hinted that we shd let the inning & finish the hrs we had - I noticed C. slipped away - so I went back to the college

I typed the other two ltrs - nobody had

(cont) C3A2(94)

21 Feb – Tues

Came up from the rally yest – I then my letter down to Dick at the Agric. Off.

Dick had told me that he didn't think I'd get dinner late, but I asked at the kitchen & got a lge plate of greens & a large piece of pepper pie from Ollie

The rally was still not over – when I retd to the pavilion it seemed that a lge number of people had been on the floor & many had been put on the l.c. – ser girls & some h.s. boys had been forming grps & chasing each other & I had a brother out in a fury when one spoke of his "gang" – I called this a pecuiar term

The rally was ended at 2 w/ I saying that we shd sleep 2 hrs later in the morning

I went to bed about 2 3/4

22 Feb - W

I got up at 8.00, went for bkfst
Had a long wait for medication, as all the people who wd otherwise have come earlier to the Med. Off were crowded into the later hrs.
Did on my jnl for anhr
Went to bank
Washed my underwear, towels & so on - the women's showers were closed for sp cleaning & I used the men's side - when they were through w/wk on the women's side I changed over, finished my rinsing & th a shower - I missed my watch when I got to the college, may have left it in the showers, altho I may have left it s'where in the college
Did a couple of hrs on my jnl
The bucket brigade started early today & I went down about 4.30 - stayed 2 hrs until I was really tired. Did was superintending the operation, & one time th a Dute boy missed Dente in hand (Dente tells me is the son of Betty Carroll who is still in the States) - Dente didn't hurry yet ming the buckets.
(over) C-3A-2 (96)

felt sorry for h'self - I th a parade to him & his atit. gradually improved - I was in a line w/seniors - Mike Prokes th some movies of us - I bel some were taken yest - two women in me squabbled & exchang'd insults - I kept beg the pit was done, as I did not know the time & was worried about getting dinner & meeting my class

I found it was 6 40 - I ate a bite, went to my cottage for my supplies

My class started at 7 30 & had good attendance - Shirley Fields audited the class - she had spoken to me about the possibil. of helping me w/the class - she has had some exper w/teaching reding & I wanted her to find out if the class interst'd her

I had told Jim Beher that I wd go over his paper written about the day of the crisis (w/him) & he found me - I recognized he had some good insights but his spelling, punctuation & grammar are inadequate & I told him so - I doubt that I got far convincing him that he wd not get much attention for his writing until he wrote material that was technically correct

(cont) C-3-A-2 (97)

12 Feb - W - 2

When I got home, the other women were decorating the cottage - Ione had already filed to her bunk - they had fixed up my clothes hanging on the walls.

I read Cities w/o Crime until bedtime

23 Feb - Th

At bkfst Tom told me another child, may have been Mark Rhodes, was in isolation overnt only - may not have had much effect as he went to sleep & ~~it~~ away

~~Dt~~ a cucumber ~~a~~ very shed as they had no prepay as

My Basic class was partic. troublesome today - Billy Jones was back, off bring crew - inattentive & wanted to do s'thing else - bet he & Javi antagonistic. Jerome too talkative & critical of others' wk - Lareathe & Yolanda behaved well & had learned s'thing - much time wasted - I warned them wd turn names in tom if they didn't stop wasting time

Made good prog on pink entries as had whole afternoon free, tho the nursery sch teachers were in college for an hr - interesting disc on bad behav of April Klingman - bruises her dad, blames it on the dragon, takes her dirtiness out on kids, calling other chil. "nigger" - she partic hostile to Jaimie Guevara (Cordell) who has been praised so often for her singing & dancing talent - Julie Guevara (Cordell) who trained Jaimie, was told to give attention to April

(over) C-3A-2 (99)

Today is a Guy; national holiday, the day the city became a cooperative democ, I believe, in 1970 - the elem sch at Jonestown had a prog & parade in the city - they all paraded through the college area

I was feeling some effects from bruises I got from falls - also doubted whether the watering wd finish again in time for me to get dinner & meet my class on time

// Decided not to help water - //

I tried to nap but didn't succeed in going to sleep

Had to hurry at dinner so as to get to my class - we had a big helping of fish

I checked out a tape recorder from the Bath Depository & took it to my adult class - I figured out most of what was nec to operate it but hadn't completely mastered it when Hedra Yates came in - she understood how the recorder wks, & operated it for me, tho she had a few difficulties - the class was smaller than usual, but I think

(cont.)

23 Feb - Th - 2

the water brigade was late getting through - I had the class members tell in a few sentences a thing interesting that had happened to them by they had met I or come to the Te I someone interpreted the word "interesting" to mean "exciting" & people seemed to restrict themselves to that definition - not that the material was not on the whole good - less nervousness about the speaking & tape recording was shown than I had expected - Nedra Yates was the only one who got into the kind of memories I had hoped to extract = she told a story of social persecution in Waco Texas - we listened to some of the playback & will have the rest on M

Aft dismissing the class, I experimented w/ the machine so that I could run it on my own - I took it home as I thot the Lypos. was closed

The tutors of the Polit. Enlightenm (Socialism) class met while my class was going on - I had explained to Mr Jackson that I could not attend

Spent the eve reading Cities - some of the

(over) C-3-2-2 (101)

others residents of the cottage were home
w/ their friends
Went to bed at 11^{00}

C-3-A-2 (102)

24 Feb - F

Three studs were absent from my Basic class, 2 out on jobs & the third, Billy Jones, who I understand wks nights & oversleps - to the others I made a strong st'ment, told them they'd be on the floor if they didn't behave - the class went well after the warning & we were able to progress w/reading & spelling

It was very hot today - the day was so split up that I accomplished very little - the writing gets good entry & taking my shower, I had to go to h.s. tchrs mtg at 3:00

At the mtg we first discsd the students who were to receive commendations or praises for 5 nights' rally - one of Jenny's studs was called by the mtg to be questioned by various tchrs, // at which Trapp presided //

the first time I had seen this system used in the h.s., tho I knew the elem sch used it - Trapp had made a survey of 65 h.s. students to ascertain what areas of wk interested them in connection w/ the apprenticship prog - agronomy was

(over) C3-A-2 (103)

the first choice of none, in contrast to livestock in which a lot now showed int - some other areas such as Diesel motoring had much appeal, & others such as fumigation & water had little - we are going to have to steer studs into those needed by the community

The call went out for the water brigade shortly aft. 4 & I rode to the college for my shoes & hat & went down to the fields - J. was on the line passing water the whole time - he had his public addr sys. w/him & used it to talk to the Jonestown commun. & to conduct bus w/SF, as well as to send orders for more buckets & for the Caterpillar to dig a well out - we worked for 2 hrs

I had dinner, chng'd clothes & went to soc class - Dick taught the items gleaned from the T mtg on agric & commun. management & I taught the notes from Intro. to Soc on the Utopian socialists, adding beyond I had gained from Amer Radicalism & other sources - Dick made a note of those who responded to questions - this is to be followed as a means of testing

Rode to the College & rd Cities for about an hr

Went to bed @ 11:00

C-3-A-2 (104)

25 Feb - 5

At bkfst today I had my athlete's foot treated at the "sores table" in the pavilion - the attendant put on alcohol & cassava powder which she sd had been enormously successful

The P.N.C. is holding a convention at Port Kaituma coinciding w/ Republic Day & and 50 to 65 of our people attended, living at 10^00 a.m. - Laura Johnstone was one who attended - as well as speeches & music, there was a tree-planting ceremony

Spent some time in the morning trying to find out what happened to my J shirt & talked not only to the laundry workers but to Dale Parks (just met him on the path) but to Joyce Tourtelle & Ruby Carroll - Joyce is Coordinator & Ruby has responsibil. over housing - to Dale & Joyce I also mentioned my missing watch & they advised me to write it up so that Security could keep a lk-out

Because I had a practically free day once I got home, I accomplished much w/ my pnt - I not only have Feb entries up to date, but I finished Jan entries & later in the day was able to start w/ the missing two wks of Dec 1977 entries - some of these had been drafted so that actually only the last wk in Dec remains a problem & I shd be able soon to wk through that freeing myself either for typing entries or

(over)

C-3-A-2(105)

doing other kinds of writing

The children's workers came in the cottage about 2 or - Ira, who takes a rest period then, is still straightening up the cottage & w/o consultation w/me took out the nails on which I hang my towel & washcloth - this, I thot, was too high-handed & I said something about it being going to get my shower, & when I retired Jerd the others had intervened - at any rate she made some allowances for me - all were rather friendly to me

Dick Troff had been asked by Marie Lawrence to give her sci students some instruc in sci rpt writing & I was going to attend, asked Dick to page me on the l. sphr - for this reason I planned not to go watering - I tried to nap from 3 or to 4 or but didn't get to sleep

For a while a big wind came up & it looked as if a rain storm might develop - I did not call for the bucket brigade - later Dick told me he gave the sci report writing at 3 or but only Marie came, & he spent only half an hr - they had paged me but I didn't hear

I cont'd w/final entries until dinner time

While waiting for the rally to start, I had a conversation w/Lee Layton, told her about my early experiences & home life

(cont.)

25 Feb - S - 2

arising out of her enthus. for The Rebel Girl by Elizabeth Gurley Flynn

X3 (1) the seniors had had their usual scramble for seats, I decided that too many people were at Port Kaituma & that we would hold the rally tom - beg dismissing us, he gave us on the l. sptr a rundown of the news:

11 I had dinner - was weighed - I have lost only 5 lbs this past wk - cutting down my portions of rice & the two - for stints on the water brigade I bel are resp//

(1) Tim Stone now has got relig - he has told Herb Caen differing stories

(2) our atty is acting weak, old & tired - he may be in pay of CIA - didn't follow instructions but we went ahead & threatened the Egan - we know that they & New Wst were in collusion w - we forced them to print our side of the story for once

(3) The Soviet Union wanted to make a film about our project but the U.S. threatened to cut econ. aid grants to Guy if they allowed it.

(4) Coal mine strike continues - thermostats have been set back by law to a deg. level for older people

(5) The Cyprus - Egyptian war worsens

(over)

C-3-A-2 (107)

(6) Sev guys in U.S. went to come to Guy & settle

(7) Ethiopian sit, severe - Cuban troops keep coming

(8) Our settlement in Guy doesn't make Carter's humor its emphasis look good, else why did we do?

I also sd Mother has been appearing in churches & also on a talk show in George - singing in churches & also in a night club

The usual entertainment prog. for Sw night was permitted & we heard the dance music until late

Only a spattering of rain fell

At the cottage I climbed on my bunk & rd Cities for a while, then fell asleep over it

11 3/4 Had a convers. w/ Joyce Lund - we talked of Harry Williams & his family who either didn't come to Jonestown or went back; his wife Rosemary; his dghter Yolanda, & her bmt Ron Crawford, who th their baby - I mentioned Mary Black who had been seemingly devoted & a hard worker, tho seldom in serv - I had expected to find her in Jonestown when I arrvd - Joyce sd one had to learn as she did not to expect a pers. relationship w/ J, which she seemed to think was Mary's prob

(over) C-3-A-2 (108)

25 Feb - S-3

she said Mary had been J's sister in his former life

I got up, washed & went to the toilet - got to bed about 11 or

C3-A-2 (109)

26 Feb - Su

Had bkfst - we had rolls & syrup, scrambled eggs, & coffee

Talking to Tom Stubbs, I mentioned the abysmal abils of some of my Basic Eng studs & asked him for any suggestions - he said he had a gr variety of filmstrips which might be of use to me, covering all types of approaches to Eng such as phonics - I spent about 2 hrs w/him in the Book Depository - there are 2 machines he showed me how to operate

At home I got my sewing meter out of a footlocker & mended my dud. bag = the handle had come off & also mended my housecoat

Some of our people who had been to Port Hartland at the P.V.C. convention went again today - our entertainers = Kathe's name was mentioned = had made a big hit

I made yesterday's girl entry

I was planning to do some typing but in the a/ the other residents of the cottage brought some nursery rhy child in & used it for a playthm - I didn't have any rm to type & of course wd have had trble concentrating anyway - ✓

(over) C3-4-2 (110)

climbed on my bunk & made more girl entries, solving most of the problems I had had with the Dec 1977 entries.

11½ After my shower, ||

When the Child had a nap, I slept for a short time

Dinner began to be served about 4³⁰ - there were the usual long lines - we had fried rice w/some veg & meat in it, sweet potatoes & citrus fruit

11¾ Had a conversation w/Rita Lenin & Edith Bogue - Edith does physical therapy ||

11¾ Aft I had spoken to various people about my missing sheet, the women in chge of the laundry brot it back to me - I imagine Ruby Carroll had it - my name was on it but in an inconspicuous place ||

The rally started at 7³⁰ aft the usual scramble for the seats w/backs among the seniors, which each wk seems to be more bitter

Dale Parks presided over the entertainment prog which began the rally - among the singers were the Apostolic Singers (some of the grp in SF are now here - one, Florence Heath, who sd sent to me

(cont), C-34-2 (11)

& shared her fellows, told me among her "gratitudes" that she was "grateful to God for bringing us to this lovely African city"). Martha Hicks, Ollie Harrington, Tommy Keaton, Connie Fitch (formerly Thomas - now the companion of Don Fitch)

A wave of enthus had built up so that J when he entered was greeted w/a long ovation

The agric rpts began - rpts on assignments given were asked for

Dr. Schacht had inquired about cow colostrum for human babies - he said babies get anti bodies from the placenta; however, J said the Univ. of Ca saw no reason why it wd not be good for human babies - Larry said we dont have anyone doing pathology slides - Cathy Jackson may be able to do them when she gets here - w/regard to Marrick's disease, among the chickens slaughtered yest, only one chicken had M's disease - it seems that we can trust the firm which sells the chicks to us to vaccinate agst the disease, also called fowl paralysis - the chickens had few worms - he described the disease - when we hatch chickens here will have to vaccinate them - the 165 chicks we hatched here have not been vaccinated - Larry will investig whether

(over)

we can do it now - vaccine will be ordered - Ron Talley asked what it costs to raise a chicken to a sellable age - Anthony came up w/the figure of $4.88 per chicken at 9 wks - we try to sell them at $13.00 but as I pointed out there is some mortality

SAT (Search & Apprehend, the uniformed security force) kept track of those who left the water brigade by watering was finished - few did

Jack Barron spkd on the pyramid testing - so far all the foods tested were bad; he will keep on investigating

Ernest Jeffries spkd on prog w/the smokehouse - it was done by the e&c for the stove - we're waiting for supplies on the boat

Connie Ditch spkd on the safety sit at the shop - it has chng'd for the better - she has only one probl: Stan D'eg refused to use goggles at the partic. machine - Stan was at the front gate - Stan had also been resp for letting an unqualified worker use a chain saw which was destroyed - altho repaired, it wasted materials Stan was sent for - it seems Chas Tourbette is resp for Stan's elitist attit, making him think he is indispensable - incongruously Stan had told Bruce Turner, now in dig

(cont)

of the shop, that Charlie didn't like him.
I interposed that Christine Cobb was in danger & he had to get her out.
Also, from rpts from the convention in Port Townsend, the people seem to be more radical than was that, they want more nationalization.
The question of relations btwn Bruce, Charlie Touchette & Albert Touchette was discs'd — Steve sd both Touchettes can be obnoxious — I sd Bruce too had elitist attitude in incidents rptd to him — one incident involved tractor maintenance — Blakey to rpt on this next mtng.
J: Clara Johnson has emerged again in her schizophrenic behav.
Steve Jones' own attitude were examined — (he is usually on the platform during discussions & takes a prominent pt in many confrontations — may be in training for leadership role) — He & Albert Touchette were chgd w/being disruptive in Jean Durrwachs socialism class — Marlene Wheelos, called upon to give the pros & cons of their behavs, was easy on Steve & hard on Albert to which I th exception.
I who had been engaged in talk w/ Caroline Layton, Harriet Tropp & Gene Charlton on rpts read on the radio noted they had been laughing about the Steve custody case — Tim Steve had sd JJ Blood

(over)

he had a divine right to raise John as his heir - it was not so much that J wanted to be Jesus Christ, which is ludicrous, but that Stan doesn't want to be Joseph

Side issues were taken up, such as relations btwn the Talley family; at one time all 4 = Ray, Marleen, Maureen Fitch, & Chris = were standing in microphone, w/about 50 other people & Maureen remarked she'd rather not have much to do w/the other Talleys, & I commended her for least avoiding the family centrism which many practiced

I called for getting to the pt involving Chas & Albert Tourette, Stan Gieg, & Bruce Turner - at least Charlie who! the yng ones want bl pride but let's see bl work, tho he acknowledged the bl male is in a soc which is constantly trying to castrate him

I Back to Gieg who thinks he is indispensable because Charlie gives him responsibil. & he won't wear goggles - it is outrageous not to tell Charlie you hate him then get a bl man all stirred up - there is nothing to alliances; they're all self-serving. Stan is arrogant because of self consciousness on acct of his size & Connie demanded he fuck up the clique w/Albert 11 & I sd he has no reason to let his size make him feel inferior//

(cont)

26 Feb - Su - 4

J: The judge deciding our case (in the Stan custody matter) is having dinner w/ Marcie - we've come a long way from the white night

J told Stan he was back on learning curve - "why did you give a chain saw to a man who didn't know how to handle a saw, Walter Williams? - use axes instead of chain saws to fell trees - all those reqs for using that saw went to L.C. - Chaken & others warned against having trees half cut

There was criticism of Marlene for pampering her son - she is always w/him, rules him, when other children don't get this treatment

Sev people were taken off the L.C. - Paulie Rhodes & other troublesome child, were on the floor - Roger Blair got a whipping from his mom. Steve came out w/a snake in his hand & for a few minutes terrified the child who screamed & cried as Steve said he will tell the snake to bite them - J intervened & showed them the snake was nothing to be afraid of - he said he didn't bear for them to be afraid of snakes - he pleaded w/the child to help

(over) C3-B-2(116)

him help people

Rose Pearson was on the floor for over-eating

The names of many who avoid the water brigade were called - among them were Kaye Rogers, Carrie Duncan, Barbara Smith, Lucille x 65, Sarah x who is mentally incompetent, doesn't know she doesn't work for a living, doesn't know where she is, - the seniors were assigned to l.c. for one night, setting a precedent

Millie Cunningham gives Sp. Theatre to some people, receives a warning

Dietrich Walker who had been turned in by the nursery teachers was up - his mother, Barbara Walker, was criticized for the way she handles him - got a warning - Jay Parks got a warning for whining -

Several students were cited for their attitude in sch.

Aileen Tucker was cited for eating peanuts which were supposed to be planted - it was found that the peanuts were rejects but she's on weight watchers - she was put on the l.c.

The young people whom he's supervising on the l.c. had Bonnie James rest & sleep on the job - they claimed he gets more than his fair share of food - these charges were unproved

At the end of the entry he called out a number seven had had a stroke, C-3-A-2

The entry was dismissed about 12 15 x

Late - Superintendent, got to bed about 1 00 x (117)

27 Feb – M

The day was on the reg sched. because guests were coming early – one of them was a woman from Tanganyika

Had bkfst & went in for my medication

From the reg. stand I got a passage for myself & one for Helen Lowe – I found her there where she was waiting in the nice tent & the mine home the ed

Stopped at the "sores" table in the pavilion & got treatment for my athletes foot – a salve made from a herb called Irish Vine was used

Had a short while on girl entries

After lunch went to my 12 or class – all studs were absent esp for 2 – Tropp came and to check the classes & when he discovered the extent of absenteeism he went on the l. sptr. – & giving the names, demanded their presence in class – all of my absentees came in one by one esp for Henry Reed who is on l.c. – I asked if they had had what it might or had been waiting when called; all acknowledged they did make it to class

Then I got home & had a little more on girl entries

At 2 or when some of the nursery sch tots came in I went for a shower – however the water had just been turned off, as the well was being worked on – I got enough water

(over) C-3-A-2 (118)

from the pipes to wet myself down & cool off but didn't try to use soap

There was a short Eng teachers mtng at 3^00 – Dick Troff said that the teachers wd have to help interview studs & place them in skill areas during the normal working hrs starting next wk, when evidently we will have to fit them sch. terms – he told us of a bk in our socialist library which describes how the Soviet collective forms train child. for the skills needed – he advised us to lk at it – Dick has turned over his Eng classes to the other instructors & is acting as h.s. administrator now – however Stubbs said he did not expect to be tied up as much as he had at first that w/ the isolation experim. as he apparently was not inclined to do much w/ it – We discussed briefly the tenacity of our yng in their wrong habits – Jerry Gurwitch brit up Tchr Tools. by studs – it was agreed we wd use them & Tom will draw up some pts w/ a scale

At 4/30 I went on the bucket brigade for 2 hrs

Stood in a long line to get dinner

Altho I scarcely had time, I rett'd to the cottage to get my notebk, got in to the rally by it was started – I had decided we had to have another rally Tom to finish w/ the agric pts

(cont) C30-2 (119)

17 Feb – M-2

Aft. 2 musical numbers, I th chge of the mtng – he sd by we went to the agricultural rpts, we had a case to deal with concerning a woman who was unwilling to share her child

Annette Jones, who is the grandmother of Monique, was on the floor & she had threatened to go on a starvation diet if she can't have the child to herself – she had been w/ counselors, one of whom was Jerry Brady

I reminded her that Monique was on her way to being a retarded child; Tom Huffs sd Mon was withdrawing from life – Annette sd, "I told them they cd have her" – Paula Adams is one of the Te people involved – I dared her to defy him – "there is s' thing worse than death if you take the freedom to die & lv. a 2 yr old child – Tom sd it was cruel to die & lv. a mark on yr child's life – I reminded her of the demonstr of how life goes on aft death, & the "other voice hanging there," referring to the appeal to him to reincarnate a woman who had betrayed him in a former life – I & John Jones emphasized the harm she wd do to the cause – Ernestine Blair made an eloquent statement pointing out the effect on her other child.

Annette relented little by little & I pursued his appeals – "Why go back to the animal world?"

(over) C32-2(120)

"I spoke of the cond. of the baby caused by her dope addict father Kim"
He told how the fascists are using the child custody issue to incite people against us – the London Observer now has become part of the conspiracy – he said to Annette that every child needs all the love it can get – all those who care for her can be part of Monique's life – Annette agreed to stand together with the others.
Attention was turned to the agric. rpts – among some of the pts made: Jack Barron said we should get 2000 lbs of peanuts per acre to make a profit – reference was made to the supposition that the climate is grad. changing & Guy may turn into a temperate zone – we have to make preparations for fruit which requires frost
Phil Blakey suggested a change in the method of plowing for a particular field – Jan Wilsey stated her preference – the dispute on whether to use the rotivator or ripper is to be referred to the analysts
I insisted that we have to cut down on use of generators & bulbs – $150, one a mo for diesel fuel – Chris Lund said biggest load is 8-12 at night – dryers take the load at night – Tom suggested using wood as fuel which will produce hydrogen for use – windmills are a possibil. I: "it's a bad sign prophetically" – he said there was a danger of wch wiping out all the power were used to – suggestions rec'd for curtailing use of power: cut the no of bulbs,

CBA-2 (12)

use a horse & cart - Tom suggested wind generators - Chris will lk into conservation possibl. - J asked that a mtng be held btwn Chris, Tom, Don Fitch & anyone else who is cutting dead wood & they shd form a plan for

Disc the place about the cleared area bch. the cottages & whether it was dry enough to burn now, what effect rain wd have if it came by we burned - Steve & Jack advised burning now - the rainy season has been very erratic - J made the decision: "burn now"

Shirley Fields in herbal rpt sd 37 foods & herbs have been displayed for guests - she gave a list of herbs w/ their capabilities - J wants a record kept of treatments w/ herbs & results

The nursery rpt was given by Chaikin - the citrus is flowering & the new transplants are doing well - we have 1,657 fruit trees to plant as soon as it is wet enough - there w/ 100 citrus seeds will make 48 acres of citrus & we will be on a commercial basis - we have 1,000 coffee trees to be planted - we have Liberica & will get some Robusta - tropical citrus seeds have to be kept wet - we can help Guy by planting plantain which is in demand for export - when small, coffee trees need shade - we propose interplanting w/ cassava or bananas - we can get cocoa cuttings - we propose getting into cocoa in the fall - we use 750,000 lbs of rice (fancy) - we shd grow

(over)

it – Olam Narayan says hill rice should do well here – 15 acres will provide us w/all the rice we need – we should find a low area or get an irrigation system

I sd Minns, of Development, one of our visitors has in the past for very cold – he has become very positive & he wrote "very progressive project" in our guest book.

Cassava & garden sets were heard of buckets; needed for the water brigade & glass jars (needed in the kitchen) must bring these off – I send SAT to people to remove them from the washhouses – "if anyone has a bucket & jar & does not report it now, discipline will be forthcoming

Jon Wilsey gave the report on vegetables

Several young people turned their names in for playing dry games in the past – their cases were dismissed; they had gone, knowing they were doing wrong

The meeting ended about 12 15

Date of agreement saved from Hyde

Went to bed about 10

28 Feb - T

Dick had succeeded in convincing my h.s. students they shd come to class + all were there exc Ronnie Dennis & Kenny Reed = the latter is on l.c. - Karens was inattentive + kept falling asleep - I rd aloud the rest of the story we had started, explaining some pts to the class - questions + small projects were included, in which as a grp they did quite well, showing that vocab & intell are not the probl in most cases = its' rdng abil - Jan's behav seemed better, + Jerome definitely tried to keep still

Washed a few clothes - cdn't find my clothespins so Diane lent me some of Vessie's. - also washed my hair, put rinse on it + fixt it up

Then I went to the college Ione was scrubbing the floor again - she had a request that I took in my bedspread texts, tho in my opn my feat lks better than Diane's or Vessie's

I did a little wk on my jrnl

Today the workers burned the dead wood out of the colleges - as I was trying to wk in the college, it seemed to me that the flames, very hot + pushed by a strong wind, were coming very close + I speculated on the possibility that they might jump over the windrow - after a while, I decided for safety's sake to get out - then I observed that the nursery sch

child, had been moved from the cottage in which they spend most of their time — sev. people were watching the fire — at the same time SAT came through urging people to join the water brigade — I had decided not to go today, — I sat on Ruby Carroll's porch across the way w/ Barbara Stevens (Cordell) — she lives under the direction of Ruby Carroll

The fire just still kept dangerous to me — then I saw I walk into the area — in a few mins the wind turned and the flames began to die out, & it was obvious we were in no danger

I went to the Bh Depos, as the smoke made it unpleasant in our area, & so Cities until dinner time

Ate

J, on the l. ghr, has been making an offer to anyone who w/four other people, will build a log cabin w/an afe, and this and time, can live in it — when all our family arrives, we are going to be very short of housing

Didn't teach my class tom as I sd that the Tc members had have an entertainment prog to greet Mothers, as the bad was due today — attendance was not mandatory

Greg Watkins, a bl, was master of ceremonies — helped by a wh — very good work in all dance numbers were played & many danced, incl sp.

(Cont) C3-A2 (125)

numbers done by the child, & Mrs — Shirley Basey & Toby Stone did a provocative number — Elyse Hall gave a blues no, w/ comedy touches, which was very impressive

The tractor - trailer had left for Port Hacturne by 6 or at least & we expected the party arriving on the boat at almost any time, but they didn't come — I began to suspect that I had had the grp stopped down the rd for the purpose of debriefing Marcie by permitting the grp to come to the reception — however since the tractor can be heard coming by the road, I realized later this wd have been difficult to manage

Mike Brokes came in w/a movie camera & the films of many of the numbers, which were rejected & Larry Schacht was persuaded to come in & participate in the item about "De-Worming" presented by the Misfits — I also filmed with & made suggestions during the filming as it was apparent the new arrivals were not here yet

We were dismissed at 11 or — I was in the toilet when I heard that the party was just arriving — with a good many others I rushed to the central area — some of us went down to the dining

(over)

hall area & greeted the new arrivals - There were about 15 people who had flown in Georgetown - not all had arrived there at the same time nor by the same means of transp - 3 pregnant women, incl. Cathy Jackson, had been flown all the way - Inez Jackson was in a grp which had taken Greyhound across the city to N.Y. - Cathy told me the bus had hit a sandbar & a dirt grd off until high tide

Most of the entertainment prog was run through again for the new arrivals - Mother was seated w/J. beside the platform - she showed the effects of these last months of strain.

The program ended at 2 AM

I told Amazon through Diane that Diane Wilkinson was going to be in our college - Inez Wagner was also assigned to it - we all got to bed about 3 AM which
