③ Some kind of conflict between Roosevelt Jr. & Daryl K. ✓ Roosevelt wanted D.H. to deal with Daryl this AM. but no one was available. I recommended to Roosevelt to write it up. I talked to Roosevelt on Wens. morning and he said Daryl's attitude has been uncooperative of late. Daryl feels that Roosevelt doesn't ~~listen to him~~ give him a proper chance.

② Assigned Dannie & M. Baldwin & Terri to B. Walker. They stayed & then went at shift due to guests coming and going all day.

NOTE B. Walker acting very upset, I strongly urged Joyce Parker to increase meds until guests leave. She complied and Dr. S. ordered Robin's birth control pills in addition to Thorevic. The birth control pills are to counteract an ~~abnormal~~ ~~abnormal~~ estrogen deficiency while on her period. I brought it to the attention of the medical dept. that it had been a month since her last outburst and that her cycle was in correlation with previous outbursts. They cooperated!

③ Coordinated Gacy Taylor for Front Entrance for T.S. 34, could it find a partner.

* Near incident this AM (approx. 0900) Mazer apparently left E. House unsecured, he was part way up the path when Bob Christian started a conversation. Bob's conversation was apparently to stop Mazer. Dad talked to Christian shortly afterward. Mazer's breakfast was on its way down at the time so it turned out OK.

Workers are usually late in returning from lunch when the whistle doesn't blow. They used the whistle as an excuse.

According to Mike Carter, JEROME Anderson requested to check out a blank tape then a news tape. This seemed suspicious to Mike. Mike told him that they didn't give out news tapes or blanks. This may have been involved on Jerome part, but it did seem odd.

The lunch whistle didn't blow today. Workers for most part do not have watches and don't know when its time return to work.

Two explosion type noises were heard this morning out on the bush. After investigating it turned out to be water williams throwing down saw fuel on some bush then lighting it. Judging by the noise heard from the cottage area - or too much gas was used.

Re: Tony Baxter & David Goodwin

They were seen together in the cottage area in the beginning of the Rua slaw. Later on they were both seen again and when asked why they were in the cottage area David gave two different reasons. David said he was coming from the bathroom; Tony said he was coming from the well by East House, but that can not be true because they was both coming from the same direction together. To our understanding, they are not supposed to be ~~seen~~ seen together.

Re: Sir M. King - Everyday for 4 or 5 days last pass three or four days Sir M. King has his way up to the front of the dinner line. He understand he is to be at work at 5:00, but, that still don't give him a reason for such action.
