HOW TO USE THIS LOG

The Federal Communications Commission requires every Amateur radio operator to keep an accurate record of operation of his station, including completed transmissions, unanswered calls, CQs, tests, etc. All FCC requirements will be met by filling out this log book as follows:

1. Fill in the information called for on the front cover and the bottom of this page.
2. At the top of the first log page, record the "Type of Transmission" by using one of the symbols shown on the inside of the back cover. Then, fill in the frequency band in Mc. It isn't necessary to give the exact frequency, but merely to indicate the band being used (such as 7 Mc., 14 Mc., etc.). Where input power is called for, fill in the D.C. input power to the final plate of the transmitter. In the event of a change in any one of these 3 items, note the change in column 6 and at the top of the following page. It isn't necessary to repeat them if they remain the same.
3. The rest of the log page is filled out as follows:
 - Column 1. Record the date. This need be recorded only once each day.
 - Column 2a and 2b. In 2a, record the time at the start of the QSO or when a call or test is made. In 2b, record the time the QSO or test is complete. If there is no answer to a CQ or call, put a dash in column 2b to indicate an incomplete QSO.
 - Columns 3 and 4. If you call a station, put his call in column 3 and an "X" in column 4. If a station calls you, put an "X" in column 3 and his call in column 4. If you call CQ, put CQ in column 3 and the station answering the CQ in column 4. If you are testing, put "test" in column 3 and a dash in column 4.
 - Column 5. This column is not required by the FCC but may be used to record the other operators' readability, signal strength and tone. Abbreviations for these are given on the inside of the back cover of this book.
 - Column 6. This column may be used to record any changes that are made. The signature and call letters of all operators other than the regular operator, as well as the name of any unlicensed person whose voice is transmitted by the station, must be recorded here. This column may also be used to record the names of the operators of the stations that are worked, the equipment of the other station and any other general remarks that the operator wishes to make.

All message traffic handled must be entered in the log or otherwise retained on file at the station for a period of at least one year. Column 6 or the back of the log page would be a good place to record such messages. The log must be preserved for a period of at least one year following the last date of entry and, during this period, shall be available for inspection by authorized representatives of the Commission.

FILL IN THE FOLLOWING INFORMATION

Unless otherwise indicated in the "other information and changes" column:

The operator for all transmissions is _____

The call of this station is WB6 MID/BR3 and is indicated by an "X" throughout the log.

If the equipment is at a fixed location, the address is Jonestown, Guyana, SA

If mobile, type of vehicle is _____. The approximate location of the mobile station should be entered in column 6. Times are recorded in local time.

Signature of Operator.

GREEN DOTS ARE ANSWERED (To be filled in by user)

Unless otherwise indicated in column 6, type of emission is _____, freq. is 14,330 Mc., input power is 265 watts.

## R-S-T REPORTS

### READABILITY

1. Unreadable
2. Barely readable; occasional words distinguishable
3. Readable with considerable difficulty
4. Readable with practically no difficulty
5. Perfectly readable

### SIGNAL STRENGTH

1. Faint; signals barely perceptible
2. Very weak signals
3. Weak signals
4. Fair signals
5. Fairly good signals
6. Good signals
7. Moderately strong signals
8. Strong signals
9. Extremely strong signals

### TO NE

1. Extremely rough, hissing note
2. Very rough a.c. note; no trace of musicality
3. Rough, low-pitched a.c. note; slightly musical
4. Rather rough a.c. note; moderately musical
5. Musically modulated note
6. Modulated note; slight trace of whistle
7. Near d.c. note; smooth ripple
8. Good d.c. note; just a trace of ripple
9. Purest d.c. note  
(If note appears to be crystal controlled, add letter X after the number indicating tone.)

Example: Your signals RST 599X, (Your signals are perfectly readable, extremely strong, have purest d.c. note, and sound as if your transmitter is crystal-controlled.)

## "Q" SIGNALS

"Q" signals are widely used in Amateur radio-telegraph communications. They express meanings very clearly, cut down transmission time, and serve as an "international language" to permit communication between Amateurs of different countries. When a "Q" signal is followed by a question mark, it takes the form of a question. When not followed by a question mark, a "Q" signal is either a reply to a "Q" signal question, or a direct statement. Commonly used "Q" signals are listed below.

- ORG - What is my frequency?
- QRK - How is my signal (RST)?
- QRM - Interference from other stations.
- QRN - Interference from static.
- QRQ - Send faster.
- QRS - Send slower.
- QRT - I am closing down my station.
- QRU - Do you have anything further?
- QRV - Are you ready?
- QRX - Wait or stand by.
- QRZ - Who is calling me?
- QSB - Is my signal fading?
- QSL - Written verification of QSO.
- QSO - A two-way contact.
- QSP - \_\_\_\_\_ Can you relay message to \_\_\_\_\_?
- QSY - Shall I change frequency?
- QSZ - Shall I send each word twice?
- QTC - Do you have any messages for me?
- QTH - What is your location?

## HOW TO USE THIS LOG

The Federal Communications Commission requires every Amateur radio operator to keep an accurate record of operation of his station, including completed transmissions, unanswered calls, CQs, tests, etc. All FCC requirements will be met by filling out this log book as follows:

1. Fill in the information called for on the front cover and the bottom of this page.
2. At the top of the first log page, record the "Type of Transmission" by using one of the symbols shown on the inside of the back cover. Then, fill in the frequency band in Mc. It isn't necessary to give the exact frequency, but merely to indicate the band being used (such as 7 Mc., 14 Mc., etc.). Where input power is called for, fill in the D.C. input power to the final plate of the transmitter. In the event of a change in any one of these 3 items, note the change in column 6 and at the top of the following page. It isn't necessary to repeat them if they remain the same.
3. The rest of the log page is filled out as follows:
  - Column 1. Record the date. This need be recorded only once each day.
  - Column 2a and 2b. In 2a, record the time at the start of the QSO or when a call or test is made. In 2b, record the time the QSO or test is complete. If there is no answer to a CQ or call, put a dash in column 2b to indicate an incomplete QSO.
  - Columns 3 and 4. If you call a station, put his call in column 3 and an "X" in column 4. If a station calls you, put an "X" in column 3 and his call in column 4. If you call CQ, put CQ in column 3 and the station answering the CQ in column 4. If you are testing, put "test" in column 3 and a dash in column 4.
  - Column 5. This column is not required by the FCC but may be used to record the other operators' readability, signal strength and tone. Abbreviations for these are given on the inside of the back cover of this book.
  - Column 6. This column may be used to record any changes that are made. The signature and call letters of all operators other than the regular operator, as well as the name of any unlicensed person whose voice is transmitted by the station, must be recorded here. This column may also be used to record the names of the operators of the stations that are worked, the equipment of the other station and any other general remarks that the operator wishes to make.

All message traffic handled must be entered in the log or otherwise retained on file at the station for a period of at least one year. Column 6 or the back of the log page would be a good place to record such messages. The log must be preserved for a period of at least one year following the last date of entry and, during this period, shall be available for inspection by authorized representatives of the Commission.

## FILL IN THE FOLLOWING INFORMATION

Unless otherwise indicated in the "other information and changes" column:

The operator for all transmissions is \_\_\_\_\_

The call of this station is \_\_\_\_\_ and is indicated by an "X" throughout the log.

If the equipment is at a fixed location, the address is \_\_\_\_\_

If mobile, type of vehicle is \_\_\_\_\_. The approximate location of the mobile station should be entered in column 6. Times are recorded in \_\_\_\_\_ time.

\_\_\_\_\_  
Signature of Operator.

Unless otherwise indicated in column 6, type of emission is \_\_\_\_\_, freq. is \_\_\_\_\_ Mc., input power is \_\_\_\_\_ watts.

| A1 | Telegraphy by interrupting continuous waves. | F1  | Frequency-shift keying.           |
| A2 | Tone modulated telegraphy.                   | F2  | Audio frequency-shift keying.     |
| A3 | Amplitude-modulated radiotelephony.          | FM  | Frequency modulation.             |
| A4 | Facsimile.                                   | NFM | Narrow-band frequency modulation. |

## R-S-T REPORTS

### READABILITY

1. Unreadable
2. Barely readable; occasional words distinguishable
3. Readable with considerable difficulty
4. Readable with practically no difficulty
5. Perfectly readable

### SIGNAL STRENGTH

1. Faint; signals barely perceptible
2. Very weak signals
3. Weak signals
4. Fair signals
5. Fairly good signals
6. Good signals
7. Moderately strong signals
8. Strong signals
9. Extremely strong signals

### TONE

1. Extremely rough, hissing note
2. Very rough a.c. note; no trace of musicality
3. Rough, low-pitched a.c. note; slightly musical
4. Rather rough a.c. note; moderately musical
5. Musically modulated note
6. Modulated note; slight trace of whistle
7. Near d.c. note; smooth ripple
8. Good d.c. note; just a trace of ripple
9. Purest d.c. note  
(If note appears to be crystal controlled, add letter X after the number indicating tone.)

Example: Your signals RST 599X, (Your signals are perfectly readable, extremely strong, have purest d.c. note, and sound as if your transmitter is crystal-controlled.)

### "Q" SIGNALS

"Q" signals are widely used in Amateur radio-telegraph communications. They express meanings very clearly, cut down transmission time, and serve as an "international language" to permit communication between Amateurs of different countries. When a "Q" signal is followed by a question mark, it takes the form of a question. When not followed by a question mark, a "Q" signal is either a reply to a "Q" signal question, or a direct statement. Commonly used "Q" signals are listed below.

- QRC — What is my frequency?  
QRK — How is my signal (RST)?  
QRM — Interference from other stations.  
QRN — Interference from static.  
QRQ — Send faster.  
QRS — Send slower.  
QRT — I am closing down my station.  
QRU — Do you have anything further?  
QRV — Are you ready?  
QRX — Wait or stand by.  
QRZ — Who is calling me?  
QSB — Is my signal fading?  
QSL — Written verification of QSO.  
QSO — A two-way contact.  
QSP — \_\_\_\_\_ Can you relay message to \_\_\_\_\_?  
QSY — Shall I change frequency?  
QSZ — Shall I send each word twice?  
QTC — Do you have any messages for me?  
QTH — What is your location?

### PHONETIC CODE

## HOW TO USE THIS LOG

The Federal Communications Commission requires every Amateur radio operator to keep an accurate record of operation of his station, including completed transmissions, unanswered calls, CQs, tests, etc. All FCC requirements will be met by filling out this log book as follows:

1. Fill in the information called for on the front cover and the bottom of this page.
2. At the top of the first log page, record the "Type of Transmission" by using one of the symbols shown on the inside of the back cover. Then, fill in the frequency band in Mc. It isn't necessary to give the exact frequency, but merely to indicate the band being used (such as 7 Mc., 14 Mc., etc.). Where input power is called for, fill in the D.C. input power to the final plate of the transmitter. In the event of a change in any one of these 3 items, note the change in column 6 and at the top of the following page. It isn't necessary to repeat them if they remain the same.
3. The rest of the log page is filled out as follows:
  - Column 1. Record the date. This need be recorded only once each day.
  - Column 2a and 2b. In 2a, record the time at the start of the QSO or when a call or test is made. In 2b, record the time the QSO or test is complete. If there is no answer to a CQ or call, put a dash in column 2b to indicate an incomplete QSO.
  - Columns 3 and 4. If you call a station, put his call in column 3 and an "X" in column 4. If a station calls you, put an "X" in column 3 and his call in column 4. If you call CQ, put CQ in column 3 and the station answering the CQ in column 4. If you are testing, put "test" in column 3 and a dash in column 4.
  - Column 5. This column is not required by the FCC but may be used to record the other operators' readability, signal strength and tone. Abbreviations for these are given on the inside of the back cover of this book.
  - Column 6. This column may be used to record any changes that are made. The signature and call letters of all operators other than the regular operator, as well as the name of any unlicensed person whose voice is transmitted by the station, must be recorded here. This column may also be used to record the names of the operators of the stations that are worked, the equipment of the other station and any other general remarks that the operator wishes to make.

All message traffic handled must be entered in the log or otherwise retained on file at the station for a period of at least one year. Column 6 or the back of the log page would be a good place to record such messages. The log must be preserved for a period of at least one year following the last date of entry and, during this period, shall be available for inspection by authorized representatives of the Commission.

### FILL IN THE FOLLOWING INFORMATION

Unless otherwise indicated in the "other information and changes" column:

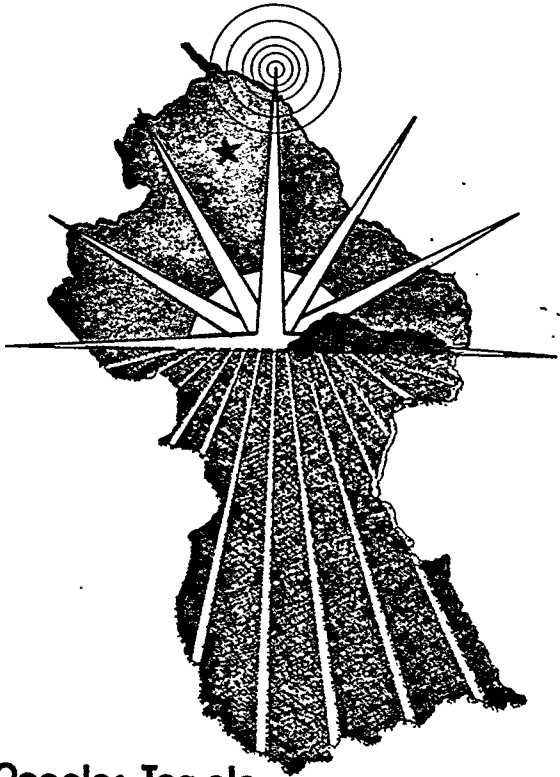

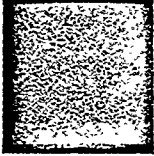

The operator for all transmissions is \_\_\_\_\_

The call of this station is \_\_\_\_\_ and is indicated by an "X" throughout the log.

If the equipment is at a fixed location, the address is \_\_\_\_\_

If mobile, type of vehicle is \_\_\_\_\_. The approximate location of the mobile station should be entered in column 6. Times are recorded in \_\_\_\_\_ time.

## R-S-T REPORTS

### READABILITY

1. Unreadable
2. Barely readable; occasional words distinguishable
3. Readable with considerable difficulty
4. Readable with practically no difficulty
5. Perfectly readable

### SIGNAL STRENGTH

1. Faint; signals barely perceptible
2. Very weak signals
3. Weak signals
4. Fair signals
5. Fairly good signals
6. Good signals
7. Moderately strong signals
8. Strong signals
9. Extremely strong signals

### TO NE

1. Extremely rough, hissing note
2. Very rough a.c. note; no trace of musicality
3. Rough, low-pitched a.c. note; slightly musical
4. Rather rough a.c. note; moderately musical
5. Musically modulated note
6. Modulated note; slight trace of whistle
7. Near d.c. note; smooth ripple
8. Good d.c. note; just a trace of ripple
9. Purest d.c. note  
(If note appears to be crystal controlled, add letter X after the number indicating tone.)

Example: Your signals RST 599X. (Your signals are perfectly readable, extremely strong, have purest d.c. note, and sound as if your transmitter is crystal-controlled.)

### "Q" SIGNALS

"Q" signals are widely used in Amateur radio-telegraph communications. They express meanings very clearly, cut down transmission time, and serve as an "international language" to permit communication between Amateurs of different countries. When a "Q" signal is followed by a question mark, it takes the form of a question. When not followed by a question mark, a "Q" signal is either a reply to a "Q" signal question, or a direct statement. Commonly used "Q" signals are listed below.

- QRC - What is my frequency?  
QRK - How is my signal (RST)?  
QRM - Interference from other stations.  
QRN - Interference from static.  
QRQ - Send faster.  
QRS - Send slower.  
QRT - I am closing down my station.  
QRU - Do you have anything further?  
QRV - Are you ready?  
QRX - Wait or stand by.  
QRZ - Who is calling me?  
QSB - Is my signal fading?  
QSL - Written verification of QSO.  
QSO - A two-way contact.  
QSP - \_\_\_\_\_ Can you relay message to \_\_\_\_\_?  
QSY - Shall I change frequency?  
QSZ - Shall I send each word twice?  
QTC - Do you have any messages for me?  
QTH - What is your location?

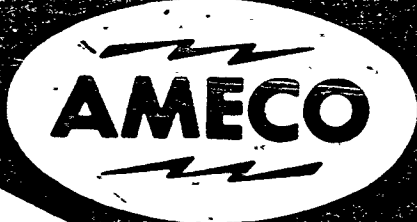

### PHONETIC CODE

Used to clarify initials and letters in radiotelephone transmission.

## HOW TO USE THIS LOG

The Federal Communications Commission requires every Amateur radio operator to keep an accurate record of operation of his station, including completed transmissions, unanswered calls, CQs, tests, etc. All FCC requirements will be met by filling out this log book as follows:

1. Fill in the information called for on the front cover and the bottom of this page.
2. At the top of the first log page, record the "Type of Transmission" by using one of the symbols shown on the inside of the back cover. Then, fill in the frequency band in Mc. It isn't necessary to give the exact frequency, but merely to indicate the band being used (such as 7 Mc., 14 Mc., etc.). Where input power is called for, fill in the D.C. input power to the final plate of the transmitter. In the event of a change in any one of these 3 items, note the change in column 6 and at the top of the following page. It isn't necessary to repeat them if they remain the same.
3. The rest of the log page is filled out as follows:
  - Column 1. Record the date. This need be recorded only once each day.
  - Column 2a and 2b. In 2a, record the time at the start of the QSO or when a call or test is made. In 2b, record the time the QSO or test is complete. If there is no answer to a CQ or call, put a dash in column 2b to indicate an incomplete QSO.
  - Columns 3 and 4. If you call a station, put his call in column 3 and an "X" in column 4. If a station calls you, put an "X" in column 3 and his call in column 4. If you call CQ, put CQ in column 3 and the station answering the CQ in column 4. If you are testing, put "test" in column 3 and a dash in column 4.
  - Column 5. This column is not required by the FCC but may be used to record the other operators' readability, signal strength and tone. Abbreviations for these are given on the inside of the back cover of this book.
  - Column 6. This column may be used to record any changes that are made. The signature and call letters of all operators other than the regular operator, as well as the name of any unlicensed person whose voice is transmitted by the station, must be recorded here. This column may also be used to record the names of the operators of the stations that are worked, the equipment of the other station and any other general remarks that the operator wishes to make.

All message traffic handled must be entered in the log or otherwise retained on file at the station for a period of at least one year. Column 6 or the back of the log page would be a good place to record such messages. The log must be preserved for a period of at least one year following the last date of entry and, during this period, shall be available for inspection by authorized representatives of the Commission.

|----|----------------------------------------------|-----|-----------------------------------|
| A0 | A steady unmodulated carrier.                | A5  | Television.                       |
| A1 | Telegraphy by interrupting continuous waves. | F1  | Frequency-shift keying.           |
| A2 | Tone modulated telegraphy.                   | F2  | Audio frequency-shift keying.     |
| A3 | Amplitude-modulated radiotelephony.          | FM  | Frequency modulation.             |
| A4 | Facsimile.                                   | NFM | Narrow band frequency modulation. |

## R-S-T REPORTS

### READABILITY

1. Unreadable
2. Barely readable; occasional words distinguishable
3. Readable with considerable difficulty
4. Readable with practically no difficulty
5. Perfectly readable

### SIGNAL STRENGTH

1. Faint; signals barely perceptible
2. Very weak signals
3. Weak signals
4. Fair signals
5. Fairly good signals
6. Good signals
7. Moderately strong signals
8. Strong signals
9. Extremely strong signals

### 88-4 TONE

1. Extremely rough; hissing note
2. Very rough a.c. note; no trace of musicality
3. Rough; low-pitched a.c. note; slightly musical
4. Rather rough a.c. note; moderately musical
5. Musically modulated note
6. Modulated note; slight trace of whistle
7. Near d.c. note; smooth ripple
8. Good d.c. note; just a trace of ripple
9. Purest d.c. note

(If note appears to be crystal controlled, add letter X after the number indicating tone.)

Example: Your signals RST 599X. (Your signals are perfectly readable, extremely strong, have purest d.c. note, and sound as if your transmitter is crystal-controlled.)

### "Q" SIGNALS

"Q" signals are widely used in Amateur radio-telegraph communications. They express meanings very clearly, cut down transmission time, and serve as an "international language" to permit communication between Amateurs of different countries. When a "Q" signal is followed by a question mark, it takes the form of a question. When not followed by a question mark, a "Q" signal is either a reply to a "Q" signal question, or a direct statement. Commonly used "Q" signals are listed below.

- QRC — What is my frequency?  
QRK — How is my signal (RST)?  
QRM — Interference from other stations.  
QRN — Interference from static.  
QRO — Send faster.  
QRS — Send slower.  
QRT — I am closing down my station.  
QRU — Do you have anything further?  
QRY — Are you ready?  
QRX — Wait or stand by.  
QRZ — Who is calling me?  
QSB — Is my signal fading?  
QSL — Written verification of QSO.  
QSO — A two-way contact.  
QSP — \_\_\_\_\_ Can you relay message to \_\_\_\_\_?  
QSY — Shall I change frequency?  
QSZ — Shall I send each word twice?  
QTC — Do you have any messages for me?  
QTH — What is your location?

~~the~~ close one of  
of of the odore's friends who  
told her ~~abt the~~ who  
told her abt the plans.

→. Salp wants her friend ~~to~~ harris  
to at least be able to talk  
to people like Lola and  
Francis, like Theodore has  
done before. so he can  
at least have a balance  
perspective. On man. have  
to know some thing soon.  
harris is going to be with  
apton regardless, sal says he  
is a fair person and needs some  
background.

red s home background that is  
correct - motel material.

said Jenny be here now. or if  
least know at.

He probably should be told about Monday,  
but ~~then~~ as far as being the only one to  
deal with Theodore, no.

In case any of Theodore's friends call asking  
~~to come~~ come, they should be told that  
they must make formal application to  
Gabriel's office in Des Moines. (This is what  
Mr. Ludlow said). It is a policy.

It is ~~interesting~~ # it is interesting  
to note that all of ~~mr. hoppers~~<sup>police</sup>  
friends, ~~every~~ one ~~or~~ everyone  
of dr. hinton's staff + every  
one like that went ~~with~~  
went ~~with~~ with the guy  
like ~~Mr. Brown~~<sup>Brown</sup>, instead of mr.  
Cullens<sup>Young</sup>, so that ~~to~~ that is his  
resat.

+ ~~the~~ from shelly - jenny  
wants to know who is  
mr. Keating's general practitioner  
w/ b/ri - she was told by ~~one~~  
of ~~that~~ ~~home~~ of ~~someone~~ ~~ins~~ ~~as~~<sup>she</sup>  
dept. ~~sd~~ ~~at~~ ~~low~~ ~~Mr. Keating~~ ~~was~~ ~~insisting~~  
that ramona be present  
not Jennifer so Jennifer  
is asking that ~~questn~~ direct  
ly. apton ~~to~~ apton will  
no doubt tell seer that s-f

he has received a letter  
from sal abt. the mater.  
and suggestions?

Tell Jenny that since she introduced  
Clarke to Ep, + recommended  
him highly then obviously Jenny  
to the general practitioner for  
some purposes + Ep will be  
available to help her out with  
other things. The p

Clarke felt free to accept  
Ep as a doctor for some purposes  
& areas, as well as having  
Jenny as a doctor for other  
purposes. Clarke sees no  
problem with this - the  
patient can use ~~multiple~~  
help in different areas

Let me give a this

first: <sup>Garry</sup>

→ Becky called today she  
heard from apton <sup>Kyan</sup> who read  
becky ~~ramon's letter~~ of last  
week. <sup>Garry</sup> becky sd she shld  
have known abt. <sup>Kyan</sup> apton from  
the start; cpi ~~was~~

she will not be pacified  
bitter and hurt;  
said & that's it.

Finished with what affair?

I don't understand what Beeky is  
saying: How does this relate to  
Ramona's letter? I am confused.

That Ramona knew abt  
it from the start,  
at one point the letter  
says: "I have dreamt

Joan on some matters"  
D. letter says "as  
have re: the Joan

on some matters  
Beeky B mad that  
Ramona knew abt it  
from the start.

Is Beeky getting Mrs. Clarke  
that's what it looks like  
she sd it before, and  
did it do it, but

but she said, u better do some  
fence building with me or give  
it all to ramona.

Y might try telling her that  
Joan has been bedridden since Carrie's  
trip and ~~that~~ if she thinks  
now is the right time to desert  
~~she~~ could she please think  
twice about it?

We'll get back 2 you later.

OK - but it is the  
issue that still is not

we naturally thought when he  
offered his help it would  
be a good thing 2 accept  
since there are so many.

aspects to this thing. We have never  
seen Sal's letter to Apton either so  
we don't know what's in it beyond

The conditions - Keith is ill +

- we are under siege + have not been  
able to coordinate with Keith

like we should. Apton is obviously  
trying to be divisive

Keith says for Jenny to leave

now - it means his death - he's

RENEW FOR 1 MONTH)

WHEN GOING DOWN ANY NUMBER OF KC'S, ADD SEVENTEEN TO THE NUMBER YOU SAY YOU ARE GOING TO GO. FOR EXAMPLE, " LET'S GO DOWN 23" WOULD MEAN GO DOWN 6 KC'S.

WHEN GOING UP ANY NUMBER OF KC'S, ADD 21 TO THE NUMBER. " LET'S GO UP 43" WOULD MEAN GO UP 22.

WHEN VERY SENSITIVE INFORMATION NEEDS TO BE PASSED, IT COULD BE DONE ON THE CW FREQUENCIES IN MORSE CODE WITHOUT THE LARGE NUMBER OF OPERATORS BECOMING INSTANTLY INTERESTED IN THE CONVERSATION AS HAPPENS WITH VOICE TRANSMISSIONS. IF THE TRANSMISSION IS BRIEF, LIKE UNDER FIVE MINUTES, IT IS UNLIKELY THAT ANYONE WILL HEAR ENOUGH OF IT TO GET A COMPLETE IDEA OF WHAT IS BEING DISCUSSED. WITH A PREARRANGED FREQUENCY TO DROP TO, IT WILL BE VERY DIFFICULT FOR MONITORS OF OUR TRAFFIC TO FIND US IN TIME TO GET THE GIST OF WHAT WE ARE SAYING. USE 157 AS AN ORIGINAL FREQUENCY FOR CW. SEND A STRING OF V'S INSTEAD OF MY CALL SIGN, AS THIS WILL MAKE IT EASIER TO IDENTIFY YOU. GROUPS OF THREE V'S WITH PAUSES BETWEEN ARE A COMMON WAY TO BEGIN TRANSMISSION OF A LONG MESSAGE, SO THAT WILL NOT ATTRACT ATTENTION OF OTHER OPERATORS. THE DANGER OF CW IS THAT SOMEONE ELSE COULD ANSWER WITH MY CALL SIGN, AND YOU WOULDN'T KNOW THE DIFFERENCE. WHEN I FIND YOU, I WILL RESPOND WITH TWO X'S BEFORE I IDENTIFY AND BEGIN TRAFFIC WITH YOU. IF YOU FIND THAT 157 IS ALREADY FULL OF OPERATORS, GO UP TWO KC'S AND SEND THE GROUPS OF V'S, AND IF THAT FREQUENCY IS TOO BUSY, GO DOWN TO 155 AND TRY IT AGAIN, BEFORE GIVING UP AND GOING BACK TO THE VOICE FREQUENCY WE LEFT FROM. THE PHRASE INDICATING SENSITIVE TRAFFIC WILL BE " STAND BY, PLEASE, I HAVE A SHORT SOMEWHERE IN MY SPEAKER". THAT WILL BE A SIGNAL TO DROP AUTOMATICALLY TO 157.

CODES SHOULD BE CHANGED EVERY TWO WEEKS, OR AT LEAST EVERY MONTH, TO KEEP FROM GETTING TOO FAMILIAR. TO CHANGE THE SETS OF CODE NUMBERS FOR UP, DOWN, AND CW, SAY, " TELL \_\_\_\_\_'S NEICE HAPPY BIRTHDAY FOR ME. I HEAR SHE IS \_\_\_\_\_ YEARS OLD."

IF THE NEICE IS 6 YEARS OLD, THAT WILL ADD 6 TO 17, 6 to 21, and 6 to 157. THE FOLLOWING MONTH, WHEN THE CODE IS CHANGED AGAIN, ADD THE NEW NUMBER AGAIN TO 17, 21, AND 157. IF WE KEEP 17, 21, and 157 AS BASE NUMBERS TO CHANGE FROM, IT WILL KEEP US FROM GETTING HOPELESSLY CONFUSED ABOUT WHAT WAS THE LAST NUMBER WE USED. ANYONE NOT SURE OF WHAT THE CURRENT CODE NUMBERS ARE CAN ASK HOW OLD SOMEBODY'S NEICE IS, AND GET BROUGHT UP TO DATE WITHOUT A LOT OF HASSLE.

SINCE "JEROMY" HAS BEEN USED FOR SOME TIME NOW AS A REFERENCE POINT FOR NUMBERS, WE COULD ALSO USE THE CURRENT "NEICE" NUMBER AS A REFERENCE POINT FOR NUMBERS TO AVOID FAMILIARITY, SINCE IT WILL BE CHANGING PERIODICALLY.

POSITIVE ASPECTS

ORGANIZATIONAL PROGRESS

THE FOLLOWING NOTEBOOKS HAVE BEEN SET UP AND ARE IN OPERATION:

OSG REPORT OF DAILY CONTACTS NOTEBOOK

THIS BOOK INCLUDES ALL CALL NUMBERS CONTACTED BUT ONLY INCLUDES SIGNIFICANT INFORMATION OF CONTACTS MADE WHICH IS VITAL TO US. (EXAMPLE ABOVE)

(OVER)

## II. QSO INDEX CARD SYSTEM

THIS SYSTEM IS BEING DEVELOPED AS A RESULT OF THE QSO REPORTS OF DAILY CONTACTS. ALL CARD INFORMATION IS TAKEN FROM THAT NOTEBOOK WHICH IS KEPT UP TO DATE IN A GREEN NOTEBOOK. THE BREAKDOWN SO FAR INCLUDES THE FOLLOWING CATEGORIES:

|                        |                           |
|------------------------|---------------------------|
| ACCOUNTING             | OBSTETRICS AND GYNECOLOGY |
| AGRICULTURE            | OPHTHALMOLOGY             |
| ARCHITECTURE           | PARAMEDIC                 |
| ATTORNEYS              | PARAPROFESSIONAL          |
| AVIATION               | PEDIATRICS                |
| ELECTRICITY            | PHARMACY                  |
| ELECTROCARDIOGRAPHY    | RELIGION                  |
| ELECTRONICS            | SURGEONS                  |
| ENDOCRINOLOGY          | TEACHERS                  |
| FILM                   | THORACIC SURGERY          |
| ENVIRONMENTAL HEALTH   | UROLOGY                   |
| FOOD DISTRIBUTORS      |                           |
| FOOD SERVICE           |                           |
| HYPNOTHERAPIST         |                           |
| INTERNAL MEDICINE      |                           |
| MEDIA                  |                           |
| MEDICAL IMPLEMENTATION |                           |
| MEDICAL TECHNOLOGY     |                           |

EACH CARD INCLUDES THE SPECIALTY, SPECIALIST, CALL NUMBER, ADDRESS AND PHONE, IF AVAILABLE AND/OR WHO MADE THE RECOMMENDATION AS WELL AS ANY OTHER INFORMATION TAKEN FROM THE QSO REPORT OF CONTACTS. THIS SYSTEM CAN BE EFFECTIVELY USED TO QUICKLY FIND, FOR EXAMPLE, A SPECIALIST IN OB-GYN. A SEPARATE LISTING WILL ALSO BE PLACED INSIDE BOTH QSO CONSULTATION NOTEBOOKS. (DESCRIBED BELOW)

## III QSO MEDICAL CONSULTATIONS NOTEBOOKS

THERE ARE 2 BOOKS, 1 FOR DR. SCHACHT AND 1 FOR THE RADIO ROOM. DR. SCHACHT'S BOOK INCLUDES A TYPED CONSULTATION REQUEST WHICH INCLUDES THE MEDICAL SPECIALIST REQUESTED, NECESSARY BACKGROUND INFORMATION AND THE SPECIFIC QUESTION NEEDING TO BE ANSWERED. THESE REQUESTS ARE DUE IN THE RADIO ROOM TO HARRIET TROPP BY 5:00 PM DAILY IN ORDER THAT SHE MAKE THE CONTACT DAILY AND EARLY SO THAT HARRY CAN CONSULT THAT NIGHT OR AS SOON AS POSSIBLE. AFTER CONTACT HAS BEEN MADE, HARRY OR SOME MEDICAL PERSON REPORTS TO THE RADIO ROOM, CONSULTS AND WRITES DOWN THE RESULTS IN THE NOTEBOOK.

### NEGATIVE ASPECTS

#### ORGANIZATIONAL PROGRESS

I AM HAVING TROUBLE KEEPING MATERIALS DESCRIBED ABOVE STATIONARY AND ORGANIZED BECAUSE OF THE VARIED NUMBER OF PEOPLE AND DEPARTMENTS WORKING IN THE RADIO ROOM. I HAD A BOX SPECIFICALLY MADE FOR THE PURPOSE OF HOLDING THE NOTEBOOKS DESCRIBED IN THIS MEMO AS WELL AS ANY OTHER QSO BOOKS, SUCH AS CALL NUMBER BOOKS, GUYANA HANDBOOK, ETC. SINCE YOU HAD REQUESTED THAT YOU WOULD LIKE QSO INFORMATION AVAILABLE AT ONE'S FINGERTIPS IN FRONT OF THE QSO WORKERS ON THE TABLE, I PLACED THE BOX BETWEEN THE TWO TYPES OF RADIO EQUIPMENT ON THE TABLE WHERE IT FITS PERFECTLY. HOWEVER, EACH TIME I GO INTO THE RADIO ROOM, NOT ONLY HAS IT BEEN MOVED, BUT THROWN INTO THE BOX ARE CORDS, EARPHONES, CLOTHING, DISHES AND UNRELATED ITEMS. IN ADDITION, BECAUSE LIQUIDS SUCH AS COFFEE HAS BEEN SPILLED ON THE PAGES OF TYPED REPORTS, CAUSING ME TO HAVE TO RETYPE MATERIAL. IF LIQUIDS SPILL ON MEDICAL CONSULTATIONS, VITAL INFORMATION COULD BE WIPED OUT SO KEEPING QSO MATERIAL IN

THE RADIO ROOM IS NOT ADVISABLE IF WE ARE TO HAVE ANY KIND OF ORGANIZATION AT ALL... SO I HAVE REMOVED IT AND IT IS RETURNED WHEN IT IS NEEDED AROUND QSO TIME. I DO NOT ESPECIALLY LIKE KEEPING THE MATERIAL IN THE BOOK DEPOSIT AS IT IS FULL OF PEOPLE ALL THE TIME NOR DO I FEEL RIGHT TAKING UP OFFICE SPACE IN THE BOOK DEPOSIT SINCE I DO NO WORK FOR THE SCHOOL ANYMORE. I DID NOT ALLOW NON-SCHOOL STAFF IN THERE WHEN I WAS WORKING THERE SO I MUST BE EQUALLY AS HARD ON MYSELF AS I WAS ON OTHERS SO AS MY OWN SOLUTION, I AM HAVING A SMALL STOOL-LIKE TABLE BUILT IN MY COTTAGE FOR MY TYPEWRITER AND CAN WORK FROM THERE. IT IS THE ONLY SOLUTION I CAN COME UP WITH SINCE I FEEL THE RADIO ROOM IS ALREADY OVERCROWDED.

SEVERAL DAYS AGO, I TYPED UP A MEDICAL DIRECTORY AS YOU REQUESTED; PUT IN ON THE TABLE IN THE RADIO ROOM AND HAVE NOT SEEN IT SINCE. WILL HAVE TO DO ANOTHER ONE AND PLACE IT IN THE MEDICAL CONSULTATION NOTEBOOK. THIS IS AN EXAMPLE OF WHAT I MEAN ABOUT THE IMPOSSIBILITY OF KEEPING THINGS ORGANIZED IN THE RADIO ROOM. IT IS VERY FRUSTRATING, TO SAY THE LEAST. IT LEAVES ME WITH A FEELING THAT OTHERS THINK WHATEVER I AM DOING IS LESS IMPORTANT THAN WHAT THEY ARE DOING WHEN I KNOW THIS IS NOT THE CASE. I FEEL QSO WORK IS VITAL TO OUR CAUSE. I ALSO FEEL ALL OTHER WORK IS VITAL TO OUR CAUSE.

LASTLY, LARRY IS NOT GIVING ME MANY CONSULTATION REQUESTS..BECAUSE OF LACK OF TIME OR LACK OF ORGANIZATION. MARCIE SAYS THIS IS VITAL. I HAVE ONLY RECEIVED 3 SUCH REQUESTS SINCE I HAVE BEEN QSO COORDINATOR/HAVE BEEN ON HIS ASS BUT NO CHANGE SO FAR. I HAVE ALSO MADE THE COMPLAINT TO MARCIE WHOM I AM SURE WILL ALSO GET ON IT.

CONCLUSION:

ALL SUBSEQUENT REPORTS WILL NOT BE THIS LENGTHY. THIS PERIOD INCLUDES 11 DAYS AND FOUNDATION WORK BUT I THOUGHT YOU WOULD LIKE TO KNOW WHAT IS HAPPENING.

RADIO USAGE

RADIO OPERATIONS: Woodshop Interpret this to mean the  
F.C.C.: Shop supervisor exact opposite: Take it for what  
ARRL: Cabinet maker it's words..  
Working from new list: Making fine adjustments on my set  
Working from an old list: Using the old hand-held mike  
Check your codes: This is giving me a headache = or = can you hear me OK?  
This next word should be added to the coda list: "I learned something  
new today" or "Have Angel research this at the library"  
This is a new name to be put on the code list: "Have Tom put (old name)  
on his phone patch list (on the door) to talk to (new name)." o  
"(old name) is asking the birthdate of (new name) so they can send them  
a nice card".  
We are revealing too much: This is all making me hungry  
This is going to be bullshit: Take notes on this  
Don't talk on this subject anymore: "Well have to really get our heads  
together later, and sort this thing out. We'll get back with it."  
We can't discuss this on this medium: It would make more sense to write  
this, because it's very complicated. (or call it)  
MARCO: Our Pittsburg members -or- The Davis family  
Ease up, Mildred, I'm doing the best I can: My feet itch  
Danger of losing license: Dinner smells good tonight  
Problems with monitors this end: I've misplaced my calendar  
Warning citation: FCC- newsletter from Environmental Protection Group  
ARRL- newsletter from Water Project Group  
Called to answer questions to F.C.C.: Developing insomnia  
Station license suspended: being asked to resign on the job  
revoked: Fired at the warehouse

DESCRIBING MEDIA COVERAGE

Alternate the context in terms of Watching soap operas on TV, reading  
a novel, receiving a letter, and hearing gossip.

1. "I watched soap operas with (insert name of newspaper or station)  
today." (Describe as plot) "  
a) newspaper: "This was installment one of a new series." (page one)  
"This was installment two of a six part  
series" (pages two and six)  
b) radio or TV: "We watched TV until about 6:00 o'clock, then  
(name of station) had to go home" (it was on  
the six o'clock news)

Garry's opinion on it will be described as The Critics for Soap Operas,  
The Reviews for a novel, and My Personal Opinion for a letter or gossip.

nauseating: sue the bastards interesting: issue press release  
dumb: demand a retraction depressing: leave it alone  
thought provoking: demand equal stimulating: call a press conference

Financial Codes

*4.00 X Ray Machine*

1. signatory-the doctor in charge; Mr. Espinoza
2. the amount we will lose if we take out a loan--3.58 \$ in pharmaceutical supplies (it will probably be in the thousands so if I say 22 I will mean \$22,000. If I say 2 I will mean \$2,000.
3. The amount of the loan that we can get--\_\_\_\_\_ cost of the new X-ray machine. This figure will be probably in millions. So, if I say ~~2-it-would-be-2,000,000.~~ \$2,000 it will mean \$2,000,000.00
4. The amount of the loan will be the amount we can pull out in a cashiers check. That would also be the amount we could deposit in a Soviet bank. Thus, it is the amount Sharon has to give to the Soviets for them to get approval on. The need the total rounded off which we promised to get for them.
5. While we are waiting for the Soviets, I could put it in an intermediary bank in a regular savings account at 5%. That way we could pull it out whenever we needed it on demand. However, if we do this I will have to go back by there to pick up the check before I visit the Soviet bank. If you want me to do this you can say go ahead with number 5.
6. Just get the check and bring it back here with me. If you want me to do this you can say, go ahead with number 6. (I will probably have to come back here first anyway because of having to pick up the check which has to be gotten from Barclay's external account.
7. We have talked to them in terms of one year fixed time deposits. That, or longer would be the greater interest bearers. However, he cautioned us that if you pull it out in advance you will lose practically all the interest. He did not have exact interest figures but said maybe 4 to 6% on fixed time deposits. Perhaps it could be higher. He said because of our humanitarian nature they would try to look around back there to find an investment that will yield better interest, but that takes time.

<sup>Personal</sup> Plan: ask Margaret Ackman if she would do us the favor of coming in Friday with Congr. code Ryan, his aides, & Mark Lane (St. 1) who'd help deter Ryan from misrepresenting us.

② Tell NBC it was decided after long and careful consideration ~~to~~ not to have them come in. (decision reached by a vote of the community).

③ Copy of Jarvis asked about going  
to airport to talk to Bob about  
ch. 1 of our new law

★ SANDI - Pass 1st  
thing IN MORNING.  
DUCK Thanks,  
Loren

⑤ What is the status of the visas of the concerned relatives.

Clifford L. Waldron wrote this letter Sec,  
of Teaching Service Commission Addressed  
Comraele Jim Jones at Jonestown Community  
24 Brickdam  
Cde,

The chief Education officer has forwarded  
to the teaching service commission a number of  
applications from members of your community  
for teaching post at the Jonestown Community  
School. And I have been directed to request  
at the earliest ~~possible~~ convenience you ~~may~~

receive a team of 3 commissioners, to discuss  
those applications. Harriet said to give this  
to Dick to answer. We just go  
I + would be appreciated if you took this matter  
with some urgency, since the commission is  
anxious to have the matter expedited, and the  
date of their visit is ~~intended~~ depended on  
the date of your reply on this correspondence  
(NOT YET PASSED) Thank You  
to Jim) Cooperatively Yours,  
Sandy

Handwritten note from him also

Cde Sharon Amos

We spoke enclosed please find copy of letter which  
was dispatched to Cde Jim Jones some 3 weeks ago  
After she said that I had her stop because I don't think  
it's so smart to read the rest which could be a  
complaint about not prompt answering when we're  
probably being monitored

Sandy - please pass to Jim

THE RADIO ROOM IS NOT ADVISABLE IF WE ARE TO HAVE ANY KIND OF ORGANIZATION AT ALL... SO I HAVE REMOVED IT AND IT IS RETURNED WHEN IT IS NEEDED AROUND QSO TIME. I DO NOT ESPECIALLY LIKE KEEPING THE MATERIAL IN THE BOOK DEPOSIT AS IT IS FULL OF PEOPLE ALL THE TIME NOR DO I FEEL RIGHT TAKING UP OFFICE SPACE IN THE BOOK DEPOSIT SINCE I DO NO WORK FOR THE SCHOOL ANYMORE. I DID NOT ALLOW NON-SCHOOL STAFF IN THERE WHEN I WAS WORKING THERE SO I MUST BE EQUALLY AS HARD ON MYSELF AS I WAS ON OTHERS SO AS MY OWN SOLUTION, I AM HAVING A SMALL STOOL-LIKE TABLE BUILT IN MY COTTAGE FOR MY TYPEWRITER AND CAN WORK FROM THERE. IT IS THE ONLY SOLUTION I CAN COME UP WITH SINCE I FEEL THE RADIO ROOM IS ALREADY OVERCROWDED.

SEVERAL DAYS AGO, I TYPED UP A MEDICAL DIRECTORY AS YOU REQUESTED; PUT IN ON THE TABLE IN THE RADIO ROOM AND HAVE NOT SEEN IT SINCE. WILL HAVE TO DO ANOTHER ONE AND PLACE IT IN THE MEDICAL CONSULTATION NOTEBOOK. THIS IS AN EXAMPLE OF WHAT I MEAN ABOUT THE IMPOSSIBILITY OF KEEPING THINGS ORGANIZED IN THE RADIO ROOM. IT IS VERY FRUSTRATING, TO SAY THE LEAST.

LASTLY, LARRY IS NOT GIVING ME MANY CONSULTATION REQUESTS..BECAUSE OF LACK OF TIME OR LACK OF ORGANIZATION. MARCIE SAYS THIS IS VITAL. I HAVE ONLY RECEIVED 3 SUCH REQUESTS SINCE I HAVE BEEN QSO COORDINATOR/HAVE BEEN ON HIS ASS BUT NO CHANGE SO FAR. I HAVE ALSO MADE THE COMPLAINT TO MARCIE WHOM I AM SURE WILL ALSO GET ON IT.

CONCLUSION:

ALL SUBSEQUENT REPORTS WILL NOT BE THIS LENGTHY. THIS PERIOD INCLUDES 11 DAYS AND FOUNDATION WORK BUT I THOUGHT YOU WOULD LIKE TO KNOW WHAT IS HAPPENING.
