Went to town again to finish my shopping - as I thought I didn't have much to buy, I didn't take a shopping bag.

On acct of a fire on Henry the bus took a diff route but turned on to Market St at 2nd St which was handy for me - I went to the off. supplies store where I bot my t. w. & got 3 t w ribbons - I saw a self. serv stationer on the same street & bot a package of t w paper of second grade on which to make drafts & so on - then went to Merrills' & bot a no of items, such as clothesline, moth killer, the hydrogen peroxide the Te wants us to bring - then to the bus to Kaplan's where I purchased my shoes, bot a light rain poncho w/ hood.

Ate some lunch.

I had not been able to get into my airline luggage all I had intended to take for immed use so I had to repack most of what was in the wooden crates - I transferred to my suitcase luggage a no of items, mostly articles

(over) C-2-A-1 (21)

of clothing - by use of my tote bag
I was able to put everything in, tho
I can't take a pillow nor my thermos
bottle

I phoned Elikun at about 2:30 - the
marish, the second of the who, had
been called off - Judy told me the
one on M had been subjected to some
harassment - Elikun had hung up
bef I cd give him my ex no & he
had had some diff finding it

I went in to the TA at 5⁰⁰ expecting
to check in for the trip but find that
th was the day instd of W - I had not
personally had informant of c, chage this
harass was - I shd have inquired
but didn't think of it - I was not
disappted, as I can use the extra time,
esp. in getting jnl entries done - I
learned my traveling companions are
Harold Cordell & Roosevelt Turner -
Judy told me Dicki President had
requested that Turner be sent over &
Father consented -

11¹ I am told that among the reasons
for re-scheduling flights is to make it
more difficult for the correct info to

11 Jan - W - 2

look out to those who might intend to
interf w/ the flight, & to prevent the
appearance at the airport of relatives &
friends who might make processing more
troublesome

Altho I had forgotten there wd be a
serv. ton I had to stay for it - I was
so tired, however, that I asked to be
excused from going taking

The serv. was distinguished by
much singing - it was concluded about
10⁰⁰ o'clock - the wargy came to the
altar & there was a sp. treat for
child, which was a sweet

I didn't take my suitcase - I had
some toilet items in my tote bag & I
sleep on my sleeping bag which I am
giving to Handa

I rd the msg & ate some dates &
walnuts - I saved some for the trip
& left some for Handa

I went to sleep at 12 or

12 Jan - Th

Got up at 8⁰⁰, having slept 8 hrs,
the first time in months I have got
8 hrs sleep

Rain, often heavy, all day
Didn't eat any sleep

Went down to Viola to see whether
I could borrow a needle & thimble to do
some mending - no one had a thimble -
she proposed we have
some sleep at the Moulin Rouge about
2 blocks down on Geary - she & Ray
then sat there - she said it was quite
inexpensive

We went about 12³⁰ - I had eggs,
ham, hash brown potatoes, toast & Sanka
Viola wanted to pay, but I wouldn't let
her

She had 2 ltrs from Ray in L.A.
which she had me read aloud -
he has been asked to drive up to
Redwood Valley this weekend - he spoke
as if he might not get down to L.A.
again - the Wh. which Archie's crew
has been doing on himself since the
Temple is almost finished - Ray & Viola
have 3 daughters, 2 of whom are in

(over)

C-2-A-1 (24)

the L.A. area - Ray finds it hard to say goodbye to them - he seems closer to them than Viola is

I offered to take Viola to see a motion pict., "The Turning Point", which Dorothy had recommended to me - she accepted - I thought we should be about 2³⁰ for the show, which started at 3²⁰.

I had about an hr - I repacked all the articles I had w/ me in the tote bag, & counted the money I had left - then sewed 2 buttons on my coat - I didn't find the dates & mts I had saved for the trip & wasted much time looking for them - Maude ret'd & she did not know where they were either

It is diff. to walk w/ Viola because of her crippled cond., & it was worse because of the rain & the heavy bags I was carrying - we waited some time for a Blond bus & it was about 3⁴⁵ before we got one - I know we were late which made me nervous

The pict. had been on about ten mins when we arrived - it was a story about ballet, which is not one of

(cont)

C-2-A-1 (25)

12 Jan - Th - 2

my favorite arts & I did not go to
theatrical in the issue altho the
performances were very good - Gene
Dancroft & Shirley MacLaine had the
starring roles & the Russian ballet
artist Mikhail Baryshnikov made his
debut - Viola liked the first very much,
but I never did relax completely.

I was supposed to be at the Th at 6:00 and
it did be a little late - we left
the theater about 6:10 - I got some
free presser at a drug store - the
rain was still coming down.

We arrived at the Th at about 6:35 -
then I saw the crating room bottled up
& few people around I was disappointed
that the party had left 1. The car
then Sandy Christman appeared - she
had been trying to find me - the
gap which was the C. T. was delayed
until M - The Hwy. got wanted

to 6 adults, so more people were
he proceeded to be M - but she
M. then we were w/us - Sandy got in
any help she can give but I told her

(over)

C-2-A-1 (26)

I had no problem - I was actually
glad to get some more time to catch
up on my Mrs & girl

Viola was there ^{to take us home,} & Viola offered to
buy us all hamburgers as we had
missed dinner - we paid some for 99¢
at a rest. on Geary

Viola had told me that in the
neighborhood in which she lived as a child
one had to resort to prostit. to get
enough to eat - her mother did housework
for a dollar a day - her mother had told
her of the customary way men had inter-
course w/ women & the first time she
prostituted herself, she was nine, she was
shocked because the man, her mother's
employer, had her "suck him off" - he
gave her 50¢, which meant food on the
table - Viola sd she was in this cause

Viola sd her father had been a gambler
her mother a dancer - her father later
got a job at Lockheed & was fairly prosper-
ous until the end of the Viet Nam War -
she sd all the girls she knew had had
sex by twelve but she waited until she
was 19, as she did not know how prevent
the birth of a baby

11↓ to keep any more child. from going
through what she had gone through - I tell

12 Jan - Th - 3

Have Son Casanova to the house with
w/ child, just out to wife's
bottoms "!"

We got in at about 6:00 o'clock
from Hander came in, I had to
go in truck w/ hands, no low travel
been put off for, until the Mon. following
more

Jessie gave me back my radio, which
I had given her

I ate a snack & read the paper until
12:00

13 Jan - F

I had another 8 hrs' sleep

It rained all day

In the morning I whid on my girl
Wrote a draft of a ltr to senators &
representatives about the Te for Handa's
signature, as I have already sent a
similar one in my name

Went to the Te for lunch - th my
cart

Saw Patti Chastain & Barbara Hoyer

Went to the Haight Food Store for
fruit, dates, eggs (items needed for the
next few days) - th a bus back to
the Te - then brot my suitcase & groceries
home in the cart

Saw Laurie Egrein whose mother is
visiting her now - she is staying at a
hotel downtown, having told Laurie: "Don't
worry about housing me, I have reached
that period in life where comfort is imp. &
I have reserved a rm in a hotel down-
town." - Laurie sd she cd use some
help in entertaining her

Had the msg & I had a snack

Went to bed at 12⁰⁰ - at first I was very
sleepy - then I cdn't sleep - there was a

(over)

C-2-A-1 (29)

brawl outside among the patrons of a
bar - it lasted a long time - men were
knocking each other down on the wet
pavement! - finally the police came - I
was in there 3 or 4 hours until I finally
got to sleep

14 Jan - 5

Did some sewing
Made an girl entries

Went to the Tc & did the final
draft of the two in London

Lucie asked me to go to dinner
w/ her & her mother at the Heath Regency -
Tina Silver, whom her mother had
taken to, was going too - she & her
mother had play - we three picked
up Mrs. Spein at the hotel - she had
taken lunch at the hotel & was waiting for
us - she ordered a carriage for us
(it cost about \$4.00) & I offered to pay
for it - altho, as I remember, a former
Comm. Party member who suffered during
the McCarty era, she wore 2 rings
on each hand & a necklace, & some
more jewelry in SF - she takes a train
to go - last year she took one to San Francisco
on a Puss. ship - she talked about it

But she had & said she had been told -
"if you have jewelry, she will take it - some-
day it will be yours" - she did not
make any comment or ask any questions
about our Bay. mission - when she paid
the bill I expected to get \$5.00 back out
of my \$10 bill, but I didn't

(over) C-2-A-1 (31)

We dropped Mrs. Egrein off at her hotel & came back to the Te serv

In the serv Hue made some amusing comments on the planning of the bl ministers for the observance of Martin Luther King's birthday tom - they are planning to have 2 snikes pulling a wagon - Mayor Moscone made sure there are going to be TV cameras by he promised to come & he will stay for only a brief time, as he has other commitments

15 Jan - Su

Woke up at 8⁰⁰ & had a bath
Ate bkyd - had an egg & toast
Went to the Te serv at 11⁰⁰ - helped
w/ the offering - the aud was small
Heavy rain was falling in the morn.

Our members went to the Martin
Luther King Jr. birthday commemoration
at the Third Baptist Ch. - the buses tk
us to the Panhandle from where we
marched to the church on McAllister St.,
about 9 blocks - there were no mules -
I was told they cdnt get the mules -
very few besides Te members were in
the march - we had a few banners -
a gay man outsider carried a poster
denouncing Andrew Young
(those who cdnt walk were taken
all the way in the buses)
near us

in the later rd, Moscone timed his
arrival for the TV cameras, left soon after
the start of the event pleading another
obligation

The spkrs were all very unimpressive
except Enola Dr. Maxwell of the Portview
Hill Neighborhood Assn. & I had diff.

(over)

C-2-A-1 (33)

staying awake - no mention was
made at all of the Te Tho or Public.
off printed the programs

He ret'd home on the buses - a chicken
dinner was served

He had a short eve sew, in which
He discussed the aft's events - the
contrast thru last yr's celebration of
King's birthday held at the Te was
glaring - current feeling in the city has
led to its being almost ignored

16 Jan - M

Had Vile come up for breakfast - we had oranges, eggs & toast - gave V. the raspberry jam I had left - gave V. my advice about assertiveness, not letting people take adv of her

The weather had cleared somewhat

I repacked everything I had to take w/ me & str it to the Te in my car - I decided to walk home for the exercise - as all my Sanka had been used, I walked along Polk & had a cup - had hardly enough change w/ me to pay for it but found later that I had \$25 in bills

Ate some soup for lunch

Made a few final preparations for leaving - I tried to do some back yard entries but all I can do was list those I had finished, had notes for, or not written & all - I have consid gaps for Dec & Jan

Jessie has been in an uneasy mood ever since I have been arranging to leave & change upsets her - she cooked off & on

(over) C-2-A-1 (35)

16 Jan - M-2

deportees processed us - They examined
luggage, labeled it, padlocked wooden chests,
gave us instructions on the journey, gave us
money for food in R.G. & for buying a fifth
of Scotch to take over for P.R. purposes -
in addition to our own luggage we had
additional chests added for each one to
be rep for materials to take for the Te
which were to be checked on our tickets -
among those briefing & serving us were
Jim Randolph, Chris Knie, Phyllis Houston,
Alice Ingraham, Robin Tachette^S & the
drivers, one of whom is John Henneke^S -
Robin gave me a bracelet with w/ins &
& diamonds to take over - I turned
over to Robin the money I had left, \$25

Besides Harold Cordell & Roosevelt Turner
who were orig scheduled to go w/me,
the two Simon girls, Barbara & Marie
had been processed to go, w/Marie's
baby, Camille, nearly 2, & Jewel

We left for the airport about 8 or in a

I got more sleep than I thought I had, as I was not awakened by the serving of breakfast - it was about 5⁰⁰ Eastern time when we landed at John F. Kennedy Airport.

We took the ^{airport} bus to the Pan Am terminal. The temp remained about 24° all day, it was slippery underfoot & a light snow was falling.

At the Pan Am terminal we put our luggage in one place - we found we had to pay \$1²⁵ to check one suitcase w/ corresponding rates for other items & decided not to check anything - at least one pers. stayed w/ that luggage.

Only a snack bar was open for breakfast - the charges were excessive & the food unappetizing - I had Sanka, ham & an Eng muffin which cost about \$2⁵⁰.

The others spent some time sleeping - Harold here as he was going to study tax law but I don't think he made much prog - I rd the maps I had brought along - tried to make some notes for my journal but didn't concentrate -

later in the day I started to read
Psychic Discoveries behind the Iron
Curtain by - I had
been riding this see you ago on a Te trip
to Chic but I lost the book & had
not had a copy since, until I found one
at the Te recently

Wed - morning I walked over to the
other terminals. It was cold & slippery
& the paths for foot traffic were inadequate -
my purpose was to see whether other
terminals had better facilities for eating - I
found they were all much alike, esp. that
Eastern had an obviously expensive rest.,
which was not open, however - the
airport was almost deserted & ^{most} planes did
not take off until aft - I had a brief
conver. w/ a couple from Ind who were
going to Moscow for a vacation

I had 2 cups of tea during the
day & lunch of roast chicken & green
beans w/ a glass of beer - we had been
given \$10 for food & I had about a
dollar left

We had moved our luggage there,
first, to be in a better lounge & second,
to be nearer to our gate - Roosevelt
Turner & the two Simon girls did not

carry their share - the girls sulked all day & late in the aft Jewel expressed her opinion to them about their uncooperativeness

Harold was worried about the amt of luggage we had ¹² - on the second plane we were limited to one piece - as for 11^{1/2} (as Barb. & Marie had brot num. items)

bef flight time he checked w/ the airline officials - they th the extra pieces in the luggage compartment made an additional charge - Harold & Jewel were busy w/ the arrangements until almost the last minute & I was afraid they weren't going to be able to board

The second flight left at 3⁰⁰ - the plane was crowded - we had to squeeze up to take off & were at least a half hr late

My seating companion was a business man going to Trinidad - I replied to his questions about my destination by saying I was going to Guyana on a teaching mission for my church, P.T. Dis of Chr - he did not seem to recognize

I had been staying in my dinner I sd Psychic Research - I did not get to sleep when I tried

My seating companion ^{when we landed} left the plane at Trinidad about 8 or so clock

We landed at Georgetown about mid-night - our grp went through the formalities w/ no diffie, but clearing our lge no of portlockers was time consuming - I find that one for Norman James had been checked on my ticket, & I did not have the key. - two others contained small tools & fixtures & off. supplies

Several people from our Georgetown installation met us - two vans were loaded with our effects by a friendly airport crew & we

were transported to the Te house in Georgetown - it was over on his ride

A staff of twenty or so are based in Georgetown - among them are the Carter gang people: Tim, Terry & Mike; Helen Sumner who does the cooking; Pauline Smith; Sheron Amos, who is coordinator; Richard Johnson; Shawonda Oliver (formerly James)

We had mattresses on the floor - I could not get to sleep for a long time - Camille would not settle down at first - Marcie was reluctant to discipline her - I finally shouted at her & she went to sleep - then mosquitoes buzzed around & dogs barked

At 10⁰⁰ we were taken to the Immigration off by Shandra - we were briefed how to respond to questions - we went through in short order & it was a long wait in line - we had no diff.

On the way home our driver's remarks showed him to be pro - Brit. & an admirer of the U.S. - he was opposed to the pol. of Guy - Terry argued w/ him.

We were told to get ready to be on the boat tomorrow for Jonestown about 4³⁰ - many provisions have to go & there will not be room for our footlockers - I opened a mine & the old items most needed.

The men took the provisions to the boat & loaded them - they later loaded the footlockers too in spite of the earlier decision - then we were informed that the boat would not be until 5.

Jan Psychiatric Discoveries

We read much enjoyment from watching the children, Camille & Monique - the latter is the grandchild of a woman now in Jonestown - the mother of the child abused her - the Te is now taking care of her - she is about 2 yrs old, intel & active - much time is spent in toilet training.

All the household came in - Sherron sat on the radio sat her while in the fields.

using the new watering system.

Most of the people here are engaged in procuring foodstuffs & other items.

I lay down on the couch but didn't sleep.

For dinner we had fish.

We had a meeting after dinner - next - comers told of their last exp. in States which made them glad to be here - we discussed the tasks which shd be done - Sharonda will take stool tests in to the Health Off - Sharon will meet w/ god people & she & others will be on the radio - other jobs which were assigned were: cleaning the garage, cleaning & watering the yard, sweeping & buffing the floors, cooking & washing dishes, watching the child, putting provisions on the 'box.

A film had been obtained which we saw, "A Day You Can See Forever" w/ Barbra Streisand & Yves Montand - we had coffee, Pepsi, & fried sweet cassava which is like potato chips.

20 Jan - F

Got up at 7⁰⁰

Had breakfast

I helped w/ the dishes - Jewel W. has
has taken chge of the kitchen, since Helen
winney broke her arm - I had an
argument w/ her as she is very domineering
Washed my hair

I peeled endives & sweet cassava w/ Pauline
Simons - she arrived in Dec, is staying
in Georgetown for med tests - she has
blood cond.

Sharon & others explained to us that good
officials have an easy-going attit - a phrase
which everyone uses, a phrase of much
laughter, is "just now," which means the
next day, next wk, or next mo, anything
but "now!"

New arrivals were taken to see the
Botanical Gardens & the Zoo in the early aft. -
Jewel & Roosevelt didn't go - the 2 babies
were taken & gave us trouble because they
got tired & were thirsty - water was not
easily available tho we were finally given
some - we saw some distinctive
brightly colored birds & some common
monkeys - the zoo also has a pr of lion,
an elephant & several other animals - we were
shown where the manatee is in the pond,
but it did not surface

I had a nap

While the ev. meal was being prepared, we rec'd a call from Jonestown - an emergency flight here had arrived - a plane was going to Port Kaituma to pick up 2 patients, Lela Murphy & Lillian Payne - Harold Cordell & Helen Whinnay were sent to Jonestown on the plane.

Dinner was very good - we had meat, cucumber salad, vegs, pie made of green papaya, which tastes like apple pie.

I rd Psychic Discoveries - disc'd it w/ Rich. Jan. 1978

About 1¹⁵ I was disturb'd w/ the next arrivals from Jonestown - the 2 patients were taken to the hosp. - Terry C. Terri baby, Chel - Ok, was sent to be w/ her - Nathaniel Walters (formerly Barnes) cared for the patients & baby on the plane.

We packed up ready to go by 4³⁰ if the boat went - the men were busy loading it & procuring provisions - the neces. for buy meat for frostown is holding us up

There were rain thunders today

A milit. base is not far from us & we hear the band used in drilling the men at dif. hrs. during the day - sometimes the men march fast - they put on an especially good demonstration today

Another sight I enjoy are small herds of goats & sheep which come by grazing w/ their kids & lambs, as both have young this time of yr - the Te house, the Alpacas, since, is on the outskirts of town

Dr. Psychic Discoveries a govt of the day

Later in the day we learned that we cannot go on, as the procurers did not get meat to load

The electricity was off in the eve. - the pump didn't work so there was no water meter

I volunteered to wash the dishes that day in the kitchen & was very in the dishes, complained about my work constantly - we had had lunch & dinner, both greasy, we had no hot water - I did suited her

Left dinner for my the while others playing

The weather was cool w/ nice breeze - there was no rain

Went for an hr & a half walk w/ one of the Simon twins - we went in an out - a - town direction - came to see dead-ends, crossed small canals, then came to a big canal - we sat on the bank for some time - the Simon twins are not related to Pauline Simon's family - they are grand-daughters of Bob. & V. Hutchinson, the frail-looking man I brot back to life sev yrs ago - she went to go to Guyana but the grandmother doesn't

The house was cleaned up in prep of a visit of a brigadier invited by Sharon Amos

Much food was brot in today: liver, fruit & vegs - for dinner we had liver fried, a veg mixture w/ okra, squash, onions, tomatoes & oranges w/ coconut

Procurement jobs continued - Rich and Janaro told me they were making prog. in getting meat - the boat might be able to go in a couple of days

visitors were expected

I skimmed James Peple Day by Eric
Bene

At a nap I went to walk alone as
the Simon Turners didn't want to go -
walked along Stearns St.

Davis & I cleaned shrimp he had
procured - it was a Technis 1:1 - no
one else was help

For dinner we had curry prepared by
Edlyn Leroy

The visitors, expected at 7³⁰, Technician
they didn't come - we ate the hors
d'oeuvres ordered for them

Roosevelt Turner, then on his way home -

After dinner we both enjoyed the

A contretemps ^W the place over shrimp cleaning - Jewel Wilson disapproved of the way I Davis & I had done it yet & sd we had to do it over - she also objected to see other things we were doing & every minute. Aule's pt was the object of her scrutiny - saw other people were occupied w/ cleaning a new batch & Jewel objected to various elements of the op - the Simon Towns joined us reluctantly & complained, as I later learned, because Betty Stroud was not required to help.

The result was a listing called by Sheron Amos - she explained that all the permanent residents had assigned jobs - Betty Stroud & Joan Pursley walk all over town raising money for the cause, as much as \$3000 a day - Terry Carter is on the radio most of the time - Tim Swinney who is a Customs w/ the Foreign Minister trying to get our crates out of customs - Evelyn drives a car - Richard Jencro is taking on procurement - all are effective & hard working - the Simon Towns & anyone else who complained was rebuked while Jewel was praised for jumping in & working so vigorously in the kitchen - it did not seem to be the time to say that I won't object to working if every move I made was

I cleaned, more, shrimps, the w/ some help, but Jewel did not miss a chance to point out the slightest error I made

I started to read Citrus Without Crisis by Mike Devichow, and account of present-day Soviet Russia - I had found it in Bobby Stroud's room

In the evening aft dinner 3 guests, prob Guy, official, actually did come - they commended w/ the workers who doubted the agric. mission to them - Then Richard Jensen showed a film, "The Outfit," which he had obtained - it was a gangster film which I cd not follow because the sound was bad - Davis made judge for every body - we all had a Pepsi-Cola

Evelyn went to the airport to meet Norman James who was coming in

I made my bed inside until the guests left, then moved outside

26 Jan - Th

We were told to have our bags packed, to be taken to the boat at 9⁰⁰ o'clock - the van went back & forth loading the boat all morning.

Three hundred half-grown pigs were loaded.

I was chgd for some time w/ watching the 2 little girls & making them clean up their plates at lunch - I was not very good at it.

We had a late lunch.

We were taken to the boat at 3⁰⁰ - the journey started at 4⁰⁰ - besides our own party who came from the States (Roosevelt has been working on the boat) the others going to Jonestown were Sharon Amos, Norman James, Debbie Touchette, Tim Swinney, Pauline Simon, Lenore P - N, Ruth and Janaro.

Ujara Sly was at the controls of the boat, Tim Swinney & Davis Solomon helping him - we steered out to the ocean & went along the coast.

I went to bed about 8⁰⁰ - my blanket was in the hold so I used a pair of overalls of Roosevelt for cover & the red

The motion in the top bunk was extreme & I began to feel sick - I went out on deck & stayed for a while & felt all right the rest of the night - slept well.

Ajara explained the route we were to take

At 9³⁰ we stopped at Morehanna Village
to register w/ police - we were on the
Moreh River

For breakfast we had coffee, pancakes & syrup

The day was cloudy w/ little rain & we
liked the jungle growth along the river,
occas. saw Amerind huts & people

About 2⁰⁰ those who wished helped
themselves to a cheese sandwich

We arrived at Port Kaituma^S at 3⁰⁰ having
made excellent time - we were so early that
the people were not there to meet us -

Davis started to walk but met the tractor
on the way - the tractor pulled a trailer
to carry us & all that came off the boat

Personnel were unloaded from the
boat first - some of the luggage was, so
w/ us - then it was decided to send the
rest of it later - we were taken to Jones-
town - it is 7 mi. to the central pt of the
mission

our friends

Our luggage was assembled under a
green tent to be checked through by us
had to be it - we were warned that
all this, maps & items for other people
must be turned over to Rita Levin (Tupper).
my luggage had not arrived

I was talking to people when Jo's voice was
heard on the loudspeaker from the Radio Hut -
he mentioned he saw Edith Butler who
"had fled from the CIA & taken refuge
w/ us" - a crowd assembled in front
of the hut, I among them

I was confronting an older man, ob-
viously a drinker type - the man had
asked Roosevelt Turner for liquor or
money to buy liquor - he had told
Turner lies about children being poisoned
(some children had gotten hold of
insecticide & had have died but I
miraculously saved them) & had also
told Turner that "you can't get out of
Jonestown" - Turner was then put on
the floor - his squandering of money was
brought up - Rocky Brindenbath was also

Went to get my luggage checked out - had

the extra items were sent to the warehouse -
all this & plus for others had to be turned

some entertainment items - the kindergarten
did a sweetest version of The Three
Little Pigs - John Stoen was a member
of the grp - he is now called John Jones &
lived near I on the platform

I spoke of the sit in the U.S. where
NAACP is compromising w/ the establishm
& spking of big gov, big labor, big indus &
a big minority - Huey Newton & his pals -
I also spoke of recent actions of the conspir-
acy agst us - they made an attempt to
have Nellie Touchette & Mike Clark
extradited for a crime they didn't
commit - the Guy Gov refused to do so -
Tim Stoen is now in Georgetown - I had
sent Sharon Amos to demand of the Gov
that they get him off our neck & they complied
& shipped him off - Stoen had told he

I read aloud a Herb Caen article devoted to P.T. - this supposedly harmful, he wrote it to do us good - Caen accepted that I was the father of John, that Tim Stoen had asked in the most flamboyant terms for J to give Grace a child, ostensibly his, & that Tim was a Transvestite despised by Grace - Caen drew 3 times slipped in a remark to the effect that J had been cleared of all charges of incesting of the authors - Caen implied that Stoen was sterile, whereas (he said) I had fathered a child since the birth of John.

Patty Cartmill gave a hilarious account of the antics of Chevinis, Tommy Johnston & hers going up the river to sell contributed items of produce citrus fruit for us - these 3 are regularly engaged in this.

I spoke fragmentarily of having to send Sheron Amos to Wash & Norman James back to the States where they did not want to be, because he could count on them to carry out his orders - he referred to those who didn't he depended on & even got in table or were lazy here.

The meeting was over about midnight I told to the college & went to bed.

The topic of how to use me in the h.s. Eng
prog was approached - I realized w/ some
already set up that they didn't have much
need for another Eng teacher - I proposed that
I teach a course in Eng for adults & who
individually w/ Adv. students - this was
agreed on

The loudspeakers all day carried admonitions

from J. - an especially severe one was
on belitism - there was to be a mtg. ton;
of the Agric. & Screening Coms at 7.15 - it
was mandatory for all to attend

I stayed in the central area - had a
convers. at dinner w/ Mary Motherpoon - she
manages the cessa mill

At the mtg I directed that names be
taken of those who were late - some of the
topics discussed were: (1) Anthony & head
of the chicken op. was resp. for 7th baby chicks
being killed; (2) all must get in time in the
fields; at least one whole day every mo. working
in agric - all must get in a sched. of their
daily activs (3) complaints were heard about
Marie Lawrence, that she was not on the job
as her of the Landscape & Poisons Coms. - the
7 children who had died & been saved by J
just by my arrival had been poisoned by
insecticides which was left around, I gathered,
by Mike Lund (Rugby) - there was much
disc of the proper disposal of such poisons
& further provisions which shall be made
by Marie's com. (4) detailed rpts were heard
from those in charge of pigs, cows, chickens -
proposals were made for making a pond to
raise ducks & fish (5) there was communica-
tion by radio w/ S. Iren. - Diane Wilkinson
asked to rpts to one of the Simon girls - J.
that Diane was attracted to her, tho the
Simon train sd she was not aware of it -

Talked to Don Jackson who teaches in jr
high sch & wanted some pointers - I spoke to him

to all the jr high Eng teachers at once & we
settled upon a kind of seminar tomorrow night
at 11⁰⁰ in the pavilion as permission had been
given to teachers to stay up late to work

Talked in on an Eng class taught by Ann
Gunnish & Barbara Walker - they had
given an interesting assignment, but I felt it
was too complicated & was not sufficiently
introduced to prob the follow - through &
not be suffic - Barbara is not aware of
my credentials so I did not give it up

made a list of pts I plan to cover with
jr high teachers & went through some of them

Took a shower & rested for an hr
No rain today

Went to dinner

Went to the pavilion early to get a seat for the People's Rally ton, scheduled for 7:45 -

11 V. Livests were at the mission today, the John Trinis, & other, Hungarian fugitives - they arrived about 9:30 & their arrival was announced from the gate - then converged w/ft in the dining area & security personnel were on duty. (For spec. emphasis as in Rhodesia)

as in SF. the seniors vie to get seats on the front

When I came in he first announced that Mary's cancer which had been conclusively diagnosed twice was healed to the amazement of int doctors - this had cost him much of it - she will be w/us in 2 wks

31 Jan - T-2

~~was given~~
I told the results of his meeting w/ the
Myanese officials. - points mentioned:
how our gov. fit into the immigration, etc. of
the gov. They stated agric was our strength.
We were multi-racial; we have various
genial skills; we integrate well; people are
abstract; our leaders abilities are extra-
ordinary - he has a loyalty to the gov. which
is rare. There is no separatism or rebellion -
the only drawback they saw is that we
cd be a target for the CIA & we might
accept an agent into our midst - we must
watch everyone for any sign of capitalist
behav - the gov. is working with the U.S. to
other cooperatives

Two young men were on the floor for the
Lhasa: Robert & John Gardner

Jack Barron, rfted on peanuts, sorghum, sorghum,
& granadilla, Becky Flowers on citrus

Jeff Carey was kept upon a mission of find-
ing through on a proj. he had promised
to do - failure to do so is common w/ him

Hazel Russell was put in the line for
husb was broken - beaten - died -
bring the child back - there were 3 seen
be some 5 or 6 - she had the child -
it is clear the husb is an alcoholic who
used all family money he cd get for liquor, &
not faithful to his wife & had even made
advances to one of his daughters - I was furious
that she worried more about her husb's
feelings than her child's welfare & safety -

he put in some form of isolation where
she had not have paper to write complaints

of sensory deprivation

A child who tried to strangle little brother
Mother'spoon was put on learning crew

J was suffering intensely from a sore in
his mouth as a result of so much oral
activity & all night cursing W... the radio

about 230

11 2 Karen Layton is in the cottage next to
ours - she types the info from the radio
w/ evaluations

11 3 ^{files} up most of the night cursing on our

can be very valuable to us
