1 Mar - W

I put the time in the morning
for getting up ahead 2 hrs, so I got
up at 8 or - Terry Bayard is in the
cottage too, in the top of Harriet

I had a talk w/ Inez Weyner - I had
thought she had gone to Guy w/ Mark -
as it turned out, she had been in
L.A. & I think she personally had done
getting out - I walked to Inez w/ Inez,
didn't because she stopped every few
mins to be greeted by an old friend

The new people were to meet in the
pavilion w/ Lee Ingram & Judy James for
orientation - I asked Lee if I could
go on a tour if there was one, as I
learned that h.s. classes were not to
be held

I did a little work on my girl

Had lunch

Waited in the Oh Depository for 1 or
at which time the tour was scheduled
to start - suddenly a downpour came &
lasted for some time - this relieved my
mind as it made watering unneces-
sary - I had intended to join the
water brigade

The rain stopped but it took until
3 or to get the gap too - I saw my Jones
first displayed a yag tree doc com -

(over) C-8-A-3 (2)

strictly to us - this was the smoke used
last night in one of the dances - Steve
Jones was handling him - we were
told not to kill snakes if encountered
in the bush, but to call security - they
are valuable for food or for effort

x Jack Beam was put in charge of the
town, w/ Ellie Beam & Rochelle x as guides
we walked down the road to the figgery,
chickery, dairy, & cassava mill - it is
1 1/2 mi. from Jonestown to this pt - we
saw our two horses - they are apparently
scarcely in the & are riding horses - we
saw a big bear (we have 2), a young bear,
some of the bugs we bred on the boat, &
figlets which arrived yesterday - we saw chickens,
both broilers & layers, sev. varieties, &
all eggs - I did not see the cows, of
x which we have x - the cassava mill
was not open as articles from the boat
were being moved in to it for storage, but
we saw some of its auxiliary space -
// they pointed out the crops along the
rd: citrus, pine apple, cassava, cutlass
beans, sugar cane, rice //

While we were in the area, more rain
fell - walking back was very diffic. be-
cause of the mud - the figgery, et al,
are 1 1/2 mi. from the front gate

On arriving home I had a shower

Did a little more work on my girl
Dey was home - she is having a prob w/
vaginal itching - luggage is still in disorder
at the cottage

For dinner we had a spread in honor of
the new arrivals: fried fish, bl eyed peas,
sweet potatoes, corn bread & a grapefruit - I
saved the letter I

At Citrus in the pavilion until time for the
rally

I & Marcie were present at the beginning -
there was a short prog. - Peter Draberspoon &
Tchabaka Baker sang a song about Victor Lee &
one to "Fallen Comrades" the kindergarten
child did a dance to welcome Mother - the
Misses sang "Don't Forget to Remember Where
All Our Blessings Come From" - Mother re-
sponded - Diane Wilkins sang 2 songs

I sd some don't apprec how we feel,
some wish we hadn't come - but he described
the sit in the States - The Christian Sci.
Monitor is now branded Communist - I
sd he didn't bel the world will escape
nuclear war & concentration camps

I gave a summary of world news
I spoke on his own indispensabil, to this
cause - "they" better hope we fare well, for
if we don't, their ass is grass - those
bastards murdered Chris Lewis - we have
an oppor to defend ourselves here

(over)

C-3-A-3 (4)

Approval to purchase a boat was given today -
it will transport cargo & people

Disc on govt advice on contour plowing
& windrow sys - I asked for clarif. of this
issue - Russ Moton reported urea fertilizer
is available at a good price - I insisted
we shd have proper storage, doesn't want
any waste

A probl concerning the order for pumps
for the irrigation sys - some essential
parts were not ordered - the probl was
one of commun. Blum Rob Christian &
Phil and Janaro - responsible, was not clearly
fufilld advic - I shd he had not seen the
value of getting the pumps - people power
had proven able to do the job. I go, value
to them - snrs shd realize the benefits of
vigorous daily exercise

Kaye Pofes had been reported as saying
"God damn Dad - I wish I hadn't come!"
Rose Shetter & Lulu Patin pummeled her,
aft disc of putting snrs on the Learning Crew
(they are not immune), she was assigned
to it

Allene^s Tucker didn't care to come to
the program to welcome Mother - she is a
good worker but has a nasty disposition -
Vincent Lopez is another one who didn't
want to see Mother - Vincent admitted he
is lazy - Denny Beck mocked Mother by

giving an imitation of her - Rose dis-
tressed him

The Christians sent a note complain-
ing about the treatment of their child,
Tina on the L.C. - I sd they interfere
w/ the supervision of child. Rob
Christian stated that he disagreed w/ the
discipl. prog - I damned him for
criticizing the office - "You underesti-
mate my intel. Vernetta admitted she
cdnt see the faults of her own child -
I sd Rob had wanted to live - he warned
him - his wife wdnt stay w/ him

It was reported that Rob had showed an
int. in cutting a trail through the brush
to the river that he wanted to live good -
Rob admitted he is arrogant, puts his own
family first - I rd the report on Tina on
the L.C. because she gets support from
her parents (her misbehavior) - Vern.
Rob talk firmly to Tina & then spanked
her. - Rob asked to be assigned to the
L.C. for 2 wks, but I refused

I asked that the prob about Kemo be
brot up - he is a child about 3 in the
toddler's grp who, I thought, had been brot
to the Tc by Carolyn Layton and her sister,
Annie Moore, put from their father's misis-
torical grp - he is in the misisery sch grp

F. is seen with Anne & Carolyn in the Jones family surroundings - it had been stated at the nursery school that he was getting sp attention - the statement had been made by Marlene

x ... who has a bad effect on her own
x child. - she was accused of picking on Jo's child (the first time I had heard that Jo was the father, the I recalled that a Herb Eden column had said I fathered a child (John) - Marlene said she that Kemo's case was exceptional - I said things like this should be brot up on the side - Mother asked if she tried to find fault w/ Jo's child, taking out hostility on a child - I said "you're looking for a cop-out because you're a permissive type parent"

I said he had been offered \$7,500,000 as a bribe (prob to give up John) which he could have taken, but he refused to abandon any child

Teresa King had agreed that Kemo gets sp attention - Harriet Trapp said that Kemo has been subjected to partic. terror, he has to be guarded from kidnapping threats, he wakes in the night screaming that someone is coming out of the bush to get him

I asked what spec. treatment any of the

child. receive - Terese sd the workers take extra time w/ certain of the child. - she admitted she was wrong to have sd anything about Kemo's getting spec. treatm.

J sd there was shooting around his residence 8 times - he asked what child. did not get enough attention - two were mentioned & J held each one & talked to him

Paula sd the central question was hostility to J - "you keep skirting around it" Steve sd there were worse hostilities held by other people, & J sd the remark was a sign of leadership

Returning to disc of the agric. prog., J sd it was fortunate that we got the burn out of the way (because it rained the following day) tho it cd have been done better

Ten frogs were born, & came through. Volunteers were requested to wk on fish heads all night

Chris Talley needs cages for a young deer & an anteater - this involves the whole prob. of an animal shelter

Michael Simon sprayed James Turner

in the eyes w/ insecticide today - I
saved his eyes - Simon was very
casual about the matter - J. gave him
a warning

C-3-A-3 (9)

2 Mar - Th

Because we were late this morn.,
I asked us to wkh straight through
w/o lunch - lunches were not put up
for field workers
I find my watch under the bed
in plain sight - it might have fallen
from the bedding or even from my
suitcase

There were no high sch. classes -
students were sent to their jobs.

I whid on my jind this morning
Shirley Ann Edwards & another
yng woman who worked cleaning
fish heads last night slept in the
cottage through a good pt of the day
A little rain fell during the day

I was very tired from the trip to
the piggery - I got a blister on my
toe, which together with my athlete's
foot is giving me some trouble - the
athlete's foot had been nearly cleared
up - I th my shower about one &
went to the pavilion to get my feet
treated

Dick Tapp told me that resumes
of all our Teachers, anyone who has

(over)

C-3A-3 (10)

Teaching offer, or who has any college credits are to be sent to the Massachusetts Dept. of Ed. in order to pre-stall any attempt to close our sch - the idea is to have already in their files evidence of the no. of educated people we have - Dick had drawn up a sample form & wants me to collect the required info & type it up in a uniform manner

I wrote my resume & also got my adult class list in order so that I can tell who has been coming regularly - Ira was home & scrubbed the floors & then it's a nap

For dinner we had fish chowder, made from the fish heads & greens

I met my class ton, the first time this wk - I broached the idea of our doing a little skit about the water brigade - This had occurred to me on listening to Ray Talley describing funny episodes when SAT tries to round up reluctant puns - The class was enthusiastic about the idea & contributed ideas - I had

I class members got down the names of those who wanted to do a speaking part - Jimmy Jo Jones came to the class to, taking a prominent part, & offered to be a bucket runner & recruit some others

At the end of the class I gave the class an exercise on metaphors in proverbs - this aroused a good deal of int & sev. members of the class had a goodly fund of proverbs they cd call upon & understood the meaning - Etha Thompson had a particularly rich store

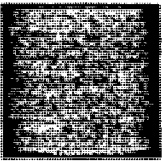

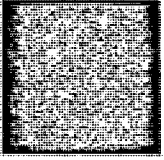

I had lent his voice in the loud speaker to encouraging adults to come to the class & a number of people who had not previously been there attended - I later find that I had put emphasis on learning to read & write & sev who cd not had come

I had planned with Bech, & I had announced that resumes. wd be taken in the sub text (from teachers & others) at 8:30 - I waited until 9:00 - Bech Tropp did not come & neither

3 Mar - F

Dick Tropp had told me we were going to send resumes of all residents who were teaching sch.; had teachers' credentials or college credits to the Ed Ministry in Georgetown - move is to pre-stell attempt to close our sch by having evidence in our files of our personnel's qualifications & intellectual attainments - Dick said they wanted to get as many as pos on the list when it has - Dick gave me a form which he had drawn up & asked me to get the info from as many of those who shd. be included as I could

When I went to my class today I th a viewer for film strips & 2 of the strips which Tom had thot might be useful in improving acting - Jerome, Kenny & Billy were absent - Billy later gave me a med. expense - the class seemed to be interested & got some good from the exercise

At 2⁰⁰ apt I had had my shower & spent all aft in the Pavilion taking resumes etc during the h.s. teachers' mtg - I wrote the info at the dictation of individuals who prepared that way, let them do it following the form if they preferred that

Dick Tropp presided over the mtg - praises & reprimands were discussed - I like Roy - you who with teachers h.s. meth rpld diffc w/ Stephanie Jones; who helps teach some

classes but is a student in his - Stephanie
was called in - Dick + others tried to
explain how she might undermine
Mike's relationship w/ his class - mention
was made of her brother, Billy - Tom
sd Billy has epilepsy + suffers continual
little attacks in his brain but did not
think he had to be as unsettled as he is -
Stephanie that Marie, her grandmother,
had not told him much about his
illness

A sudden call from J went out for
Kaye Rojas "found + enter" - all who
cd went to the Radio but to which Kaye
was literally dragged - it was not made
clear what their orig offence had been
but J was wrathful that she had sd,
"Fuck mother" + the workers who came
forward were very angry w/ Kaye + J
ordered her to be put in the "hole" -
the isolation box - she was taken away
Jth resumes for another hr

We had a good dinner w/ smoked fish
made in the new smoking oven

I got weighed + fnd I there gained back
a pound or two

The teachers of the socialism classes met
at 6³⁰ - I cleaned up first + arrived late -
Tld Don Jackson that I did not have
time to prepare to teach tom but he
suggested I make the presentation from the
socialist bk - this wh we had a section

(cont)

C-3A-3 (15)

3 Mar - F - 2

on Karl Marx which I quickly read
Don spent a few minutes on items
from the agrarian meeting & very little more
on the current news as rd to the
village by J - many are not in a place
where they can hear them clearly - I had
not heard them well mys. - someone had
typed up & posted the items in the dining
room which helped a little - Don is going
to inquire what else can be done in the
section I gave a Marx seemed to be fairly
well read, but it is hard for me to
raise my voice above the surrounding
clamor

At the soc class, I again which a
resumes in the side tent while movies
were being shown in the Pavilion - at one
time I was helping Betty Schwedler, Torin
King & Becky Bailment, & we got a good
deal of amusement of some of the incongruities
coming out of their byroads - Betty compared
to taking drugs, & anything she did get,
so that her mind was very cloudy -
Becky told of some of the days in the Valley
when she was working as a Teachers' aide,
in a convalescent Hosp, & w/c household of
young people - Dad told her she was to be
there some day, which seemed unlikely
as she has not even finished grade sch
Mike Peters arrived for his interview -
(over) C-3-A-3 (16)

we got into convers. about his first
time at the Te when he put down his
equipment & announced he was joining us & has
never resumed his old life & "I had
a sudden conversion," he said - I asked
him if he had been a socialist before - he
said he had recognized that soc. was
right but had never seen an authentic
leader before - "then I had no excuse - I
told him my reasoning had been the same
but a lot more gradual

It was quite cold then
Got to bed about 11⁰⁰

C-3-A-3 (17)

4 Mar - 5

Breakfast was late - I got up & ate aft
8 or 9 o'clock - we went straight through
to dinner w/o lunch

I spent the whole day typing resumes
etc for taking my shower - I got
my t. w. out of the crate, putting
some of the other items from the crate
on my bed

The day was hot & humid with no
rain

Diane rec'd a ltr from her mother,
Marion Pursey who is living in Cuba -
she compared Cuba favorably w/ N. Mex
where she had formerly lived -
she speaks Spanish - I have met Marion
in the Te & that she was a member -
I asked Diane if she did not intend
to come to Jonestown - she sd Marion
wd like to come for a visit - as for
living here, "she's getting on in years" -
when I asked her age, the ans. was
"that she's in her '30's" - I reminded
Diane that I am 62

Went to dinner at 6 or

The rally at 7³⁰ opened w/ studs of diff. class levels who were outstanding coming to the front to applause - Dandy Beck got a hand for helping w/ kinder - garten child.

I entered

For the benefit of new people Patsy Cartmell repeated an episode formerly given, of an episode which she placed on the river to her, Tommy Johnson, & Rheavina

The Apostolic Singers sang

Martha Hicks recited a poem for Chris Lewis, as this was a memorial program for him - Diane sang "Strong, Gifted & Black" for Chris - Becky Balkman recited "If," ending w/ the words "you'll be a socialist, my son", dedicated to Chris

The Missions did 2 numbers

The Agric. mtg; Citrus & nursery rpt -
x we have 10,000 seeds in citrus nursery which will cover 40 acres - we have 1000 young Liberian coffee trees - we'll get our own seed for coffee - we raise acreage for Vit. C - Mung beans bear 1 ton to the acre, they are the best bearer - we maintain a mixed fruit orchard - space is being saved for breadfruit - there was a diff of opinion on whether or not to prune citrus

(cont)

Q-3-A-3 (19)

4 Mar - S - 2

- Fr. Amer. almond won't bear fruit here - because we have no frost - Charkin that he shd visit people who grow fruit here & lh at what they're doing - Pally Cartmell mentioned a big Citrus grower here who wants to come in here

Jan says rice grows best on bush soil which has just been cleared - one variety is doing well in spite of having no rain - it is ready to harvest - she wants land to plant 3 diff varieties experimentally - she wants Pally & others to lh for pine-apple suckers - Becky Beikman says pine-apple is not a good money crop here, but it is in Linden - the good says we have the soil here for pineapples & Charkin sd the farmers arnd here have diff kind of land than we, they grow yams to make money

Dug Mitchell: rptd 6 piglets out of 10 died - 10 piglets were born today - we've been having a prob w/ mastitis - it is caused by nutrition deficiency - Dug underwent sharp questioning because of the loss of the piglets & why was Larry not consulted? - he didn't succeed in reaching him - he was told, from now on, contact Sylvia if he can't reach Larry - she scheds this time - Larry sd Dug has a lerkedairiel (over)

C-3-A-B (20)

att. - I sd it is the duty of the live-
stock people to consult Larry - Wanda's att.,
& Adams were questioned - Wanda didn't
tell Guy of what brot from the States on
tropical pig raising - Morell also backed
off - Guy sd he's glad not to have the
responsibil.

I sd the IRS has come down on us
all w/that threats - Morell. was charged
w/holding out on info because he wants
to spend time w/Hornie Buckley - Morell
was not present - I sd people like to sd
collectively but don't like to wk collectively -
all were told to solve the probl.

There were complaints that fence posts
were burned down a second time when
burning was done - then new poles have
to be made - fire makes galvanizing come
off wire & it will rust fast

Troy sd the rpts have been too Pollyannish -
the people had to dig out the facts

The cows were discsd, were sd to be
low milk producers - Wanda bot them -
Morell was now in the mtng - questioned
about the produc. qualities of the cows,
he sd they are not big producers, have
to be upgraded by 2 or 3 breedings - Wanda
sd Fernandez recommended these cows,
as did 2 other good experts - it is prob the

cows were switched on her overnight -
I told her what to do, how to bargain -
If we don't succeed, we face the gun,
the boom is being lowered

Charlie T. says Morell must stay w/ Gary
step by step & teach him - J & Johnny Jones
insist on priorities being taken care of:
bring in healthy pigs & raise those pigs -
J sd 93 crates were coming in, w/ more
of our people

Tommy Kecton gave the chicken rpts, Rob
Steg added to it - there was a long disc
on arrangements for letting the chickens out

Chris Talley reporting on small animals,
sd a small gov is planned

Ref was made to buying a boat - Patty cd
keep in touch w/ the Amerindians along the river -
Charikin recommends putting the wood that
were being forned - J sd it taken care of

Tish sd many production rpts are not
coming in

Follow-up rpts were taken; Jack sd Tools
must be checked out to individuals, not crews,
to ensure care of property

Responsibil, was fixed for repairing the
cellar way to safeguard the area coming in
Sharkskin we had saved was destroyed
by maggots - the gyp tried to fix responsibil

for not getting it taken care of
Juanita Green, a nurse, was put on the
l.c. for being unpleasant - Eugenie Bowser,
who cares, talks too much, assigned to l.c. -
Eileen Johnson for doing a half-ass job, two
months, given a warning - Loretta Buckley
was defensive, had a bad attitude, put on l.c. -
Kimi Tye, talks too much, defensive, on l.c. -
Darnel Keller, new, observes rather than working,
slept in 3 straight meetings - given warning -
long list of others given warnings

Mary Ann Casanova on the floor for not
doing her inspection job - she says she has
too many responsibilities - she wants off the
inspec. Got J. led her off but request she be
watched on other jobs, opted if she guilty of
elitism

Cynthia Davis was on the floor for attitude...
given warning

Tom Bartash^S - doesn't like the city - was
late for work - is defensive - is lapsing into
bad habits - on l.c.

Pauline Stud graduated from l.c.

Thyria Cartmell - worse aft. long time on
etc - to the top

Tina Christian cooperated when the parents
stood behind her discipl.

Shawonda Taylor on floor - Grandma is weak
w/ the child - J. insists on parent backing up
discipline - her mother spanked her

(cont) C-3-A-3 (23)

4 Mar - 5-4

Ted Jensen released from L.C.

Tommy Kice makes fun of people - made
fun of Pauline Stov - Tom Kice gave his son
a licking - girl Klingman got a spanking
from Marilee Klingman - she's back on the
L.C. - Harold Lawrence also read a
spanking from his mother - I said to him:
"You're a bright boy - do you understand
why I can't let you have your way?"

I dismissed the morning, asked for
commendations to be bid out, & 1:30
I was in bed at 2⁰⁰

C-3-A-3 (24)

4 hrs
IRS meeting

5 Mar - Su

We had doughnuts & coffee for breakfast -
the doughnuts had frosting on them

I typed resumes all morning.

Then had a shower - my right foot is
swollen & I have some pain in it - I had
socks on last night to avoid insect bites
in the pavilion & I think this foot got too
hot so I am afraid it may be insected

I wanted to get back to my resumes
but Irene was scrubbing the floor - when
she finished & I started up again the
housing investigators came by & objected
because I had many of the items from
my locker on the bed - who for another
hr or two on resumes in the apt - the other
residents had their shelf day of which they
spent in the apt & concentrating was not
easy

Wanted a few items

Did a little work on my journal

Waited until 5⁰⁰ to go to dinner - it was
near the end of the serving period but the
lines moved extremely slowly as the
servers kept running out of food - I on
the loudspeaker was telling the people that
\$13 for which we sell broilers in the
market, it costs nearly \$3.00 for chicken
dinner on Sunday - the chickens cost al-
most that much with the losses we have
suffered lately - he said we had had some

(6) 2012

more baby chicks because they had been
debeaked once more in spite of our orders -
it may be a CIA - engineered plot

I was talking w/ Joicy Clark & Jim Pugh
among others in line - I like & admire
Joicy because she is so vitally interested
in every thing, but s times she wears me
out because she always talks excitedly -
Today a gr many parents were w/ their child,
in line - we were in line over an hr -
I traded my piece of chicken w/ Joicy so
that I can get a leg

Returned to the Cottage & rd Cities a
while

Got my candy - Mother was distributing
It was announced that there wd be a
mtg of all teachers at 8 or in the dining
tent

The info we had was not authoritative -
the info from the Guyanese Ministry of
Ed will definitely be here at 9 or tom &
will stay through the morn, - they want
to see the classes in session & exam
the sch records - all children are to
be listed by age & w/ indic of the classes
they are assigned to - since we do
not have such lists, some teachers were
app'd to go to the coordinators of & copy
them - I had to go up to my cottage &
get the class lists, the incomplete, which
Bee gave me - Bee was too ill to give
much help - the Book Depository is to be

Carolyn Layton was in chge - the Guy-
anese officials from the Ed. Ministry
were going to be in Port Kaituma on M &
T; we had heard on good authority
they might come to visit our sch &
we had to be prepared to demonstrate
what we are doing - they might refuse
to accept our school unless insist our
students attending Port Kaituma sch -
plans were made for demonstr classes -
Carolyn wanted as many of the resumes
to be completed as pos & it was decided
that teachers who had not yet given their
resumes to me should stay at the mtg &
do so

However, only three did so - 2 of them
were Peter Wetherington & Lois Pans - Peter
was born in Chile to Brit. people who
were seized; generatn residents - Peter
sd they were now fascists - he had
lived through 3 distinct modes of living
in his life: "bread in bed" literally
the street life of the 60's in Chic which
reached a high pt at the convention
in 1967 & the socialist life of Jonestown, &
he was grateful for having known them all -
Peter has an astounding bro of skills & is
now intrested in fish farming - Lois Pans

6 Mar - M

The sch schedule was changed to allow for demonstration classes for the guests for whom we waited all day - high sch classes were cancelled & I didn't have to teach - I counted on getting wh done on my girl

My foot is still swollen - it worries me as it may be infected

I finished the resumes I had this morn.

At lunch I did my laundry - used the bucket at the toilet area & Deane let me have her little washboard from the pre-sch.

I th a shower & got my foot treated - if it is not better tom, I intend to go to the Med Off.

Deane Wilkerson moved in w/ Loretta Cordell; we have a teenager, it is sch - I haven't seen her yet

Did very little on my girl - th a short nap & the water brigade was called for beyond 4th o'clock - I didn't want to go out and of my foot & the very little wh I had done & I typed the Skit for my adult class

I had dinner

A sp mtg of all the stabs was called for 8⁰⁰ in the sch tent - I had to cancel

my class which was beginning to assemble -
Carolyn Layton told me we had to
gather & type some more resumes -
she had sent Rute Lewis w/ her own
resume, which she wanted rewritten
to submit to the govt ministry

Carolyn sd it was definite that
officials from the Ed. Ministry were coming
to visit us tomorrow - the issue is
whether we shall be allowed to retain
our own sch. or whether our child will
be required to go to Port Maitland - very
careful plans were made to convince them
that our sch. is doing a creditable job -
Carolyn sd some of the govt officials are
capitalistic & elitist - jobs have assigned
to diff. teachers - J. wanted the Bk Dept
shown & it had to be straightened up -
Bea is too sick to help - C. sd the
officials wanted to see lists of all the
child, their ages & classes to which
they are assigned - since the sch. does
not have such lists, some teachers had
to go to the coordinators' off to get them

In the middle of the mtg I started
taking resumes from those who didn't
give them earlier - I did in the dining
room tent, then did more in the sch.
tent where the Steering Com was having a
long mtg

I had a conversation w/ Shirley Fields,
who has been expressing int in helping

with my adult class - I have been trying to get her to commit herself, so that we can begin reading instruc. for those who need it. - Now Shirley seems to be interested in helping w/ my remedial prof in my h.s. class. I think day-time has the easier for her - this morn. might be a help, as my class is going to be larger next term, I understand.

As the residents in my cottage were asleep when I was ready to type = 12³⁰ = I was invited to type next door - Karen is in Georgetown & Penny was not there - Christine Lucientes went away - Paula Adams & Daisy Stroud went to sleep w/ the lights on & tape playing all night - I worked until almost 5⁰⁰ a.m. & did 11 more resumes, incl. Carolyn's which I had a draft

C-3-A-3

7 Mar - T

Got up at 7⁰⁰ as I had to do Deane Lundquist's resume by she went to work - we went over it try & typeset it while she went to get me some bkyd, which was biscuits & syrup

Vernetta Christian came in w/hers & I let her type it on my tw while I got the info for Deane's

Terry Buford picked up the resumes to deliver to Carolyn

I ret'd my plate to the kitchen - the Guyanese officials had arriv'd & were at that time doing Jack Barron's work - study project

Saw Bates who, to my surprise, had procured some surplus material from the warehouse & had had one of the other seniors make up a pillow for me, covering it w/my material - she will use the rest of the mater. to make pillows to sell

Did some work on my girl bkyd
went to lunch

(over) C-3-A-3 (32)

Had my shower - the aide who treats sores & athletes' foot wasn't at her post in the pavilion today because of the guests, but my foot is better - the swelling has gone down

I saw the new young woman who is going to be in the bed vacated by Diane Wilkinson - her name is Anita Green - she rustled through Versie's possessions looking for a tape adapter - I told her about it when she came & she didn't like it at all - some odd episodes have occurred lately in our cottage; somebody left some trash in the run yard & Harriet saw somebody had gone through her cosmetics & taken 2 bottles of cologne

I tried to take a nap for 2 hrs from 3⁰⁰ to 5⁰⁰ - I think I just dozed but it seemed to refresh me - the day was very hot

Spent half an hr examining recent journal entries to see which are incomplete - w/ so many entries the first pt of March, I got beh

Went for dinner

Then whid on my journal in the pavilion
I gave the news on the loudspeaker before
rally started

8 Mar - W

Got up at 8⁰⁰ - had bath & went to the
Med. Off for my Premarin

H.S. classes were cancelled & studs sent
to work projects - no lunch was served

In the morn. I made consid prog on my
journal

Washed my hair - my feet was much
better tho I still have some raw skin
from the toes - the aide at the pavilion
was not giving treatment as the nurses were
about to start a mtng but she did put
some cassava powder on my toes

I wld most of the aft on a memo to J,
a recom. for saving time & thus helping
to increase prodn. by better management
of the People's Rallies I plan to submit it
for disc to see others by passing it on to
J

Intended to go to the water brigade,
but the call was early & I was not through
w/my memo - I decided to finish it

Went down for dinner at 6⁰⁰ - th my
laundry in. - th a copy of my memo
to Tish - also showed the obj to
Mike who asked me a few questions
as to who wd be able to handle the chair-
manship

The boat bringing our crates (a private

carrier) also brot some new arrivals to Jonestown, among them Jane Matsch-
Werni, but I didn't see her yet

During dinner I was on the L. ypper
& very angry - at the watering he had
initiated a water fight for the child. -
this had been criticized as wasting
water by some of the adults, who had
even snatched buckets away from child -
I sd they had forgotten their childhood,
that child. needed some fun, he had
economized more ~~over~~ his whole life
than they had ever thot of

The L. ypper sys is not working well
in the cottage area - I thot wd were to
have an entertainment prog for new people -
because of this & because a ltr writing
prog was annnc'd for 8th, I cancelled
my adult class again - some of them
had already assembled & were dis-
appointed

As it turned out, the event taking place
on the podium was a try-out for those
who wish to present musical, dance
& related items at a show the TC will
be giving in Georgetown in a couple of
wks - the ltr writing grp was mtg at the
same time & we heard the entertainment
people trying to persuade those wishing

to perform ~~not~~ to be reluctant to appear
by the others - I got on the microphone
& called such people down for giving
trouble - etc

I had missed a thr writing session
the other night when I was writing
resumes & Dick had me write all
the ltrs I had not done plus the
new ones - I wrote to the Internal
Revenue Service, w/c copy to the Pres.,
protesting their harassment, then a ltr
to the Ukiah Daily Journal, the Santa Rosa
Press Democrat & the S.F. Examiner,
taking exception to the article each had
carried on the Jim Jones - Tim Stoen
child custody case, mainly based on info
from Stoen & I wrote the ltrs by hand
in the sch. tent - Dick kept going to the
microphone & rousing the people on his
left to come & write their ltrs

Meanwhile there was much movement
among leadership people, incl. J. G. self,
around the Radio Hut & the Tent area,
I heard J say he had a crisis on his
hands - He also, as on other nights, was
calling the doctor & sev nurses for consul-
tation on the radio

I finished w/my ltrs & went home at
11:30 & to bed

9 Mar - Th

I was awakened shortly aft 6⁰⁰ by J's voice on the h. phn - the sound was not clear & at first I thought there was some emergency, but as it turned out he was giving the news, as had been requested by those who were away from the central area & do not hear him at a later hr

Went to shop - it was ann'd that his classes are cancelled Th & F

The crates from the boat are being moved by our workers to the rice tent & unpacked in a steady stream - Tom told me many of our bks & sch. supplies are in cold storage. Traffic through the unpacking area is banned, making the shift - but I usually take unfeasible

Paula Adams had a st'ment from Crocker Nat Bank that my acct was still open & asked me to close it - I think the following mo's statement will show that it has been closed w/ the \$60 check I gave Lou, but I agreed to write a ltr to the bank

When I ret'd to the cottage Terri Byford spoke to me about a request from the Beethel Thrift & Trust off. to India, how I wanted for the co. portion of my Thrift funds - I have some \$388. or coming -

Phyllis Charkin has to design a curric. for training nurses aides at Port Kaituma &

asked me for help - it was not merely a request to type it - she wanted me to help her write it - I worked with her for an hr or hr & a half - we did not finish

I had Harriet Tropp & Phyllis Charlein read my proposal and conducting the rallies - His attitud was effrimative - Phyllis agreed w/ me that much of the mater in the Agric. reports was not understandable to the uninitiated

Went to lunch

Saw Tish in the Agric. off. - she had extremely negative opns on my rally proposal & she thot it showed a complete lack of empathy w/ people who had had less ed than I, little aware of what I had done to bring our members' abilities to the point where they are now, & lastly, an indefensible questioning of the off. - she thot I shd examine my motives - my effluations she regarded as defensive - I think that by discussing my pedant class, I absolved mys. somewhat from the charge of elitism - I told her my biggest prob was the abysmal state of prep of my basic Lang Arts grp - we parted amicably, I deciding not to submit the doc to J. At least in its present form - I was grateful to her in that she had saved me from giving so' thing to J which might offend her, tho he has sd we can write him anything privately

9 Mar - Th - 2

Saw Jane Mutschmann briefly - she is happy to be here

I got out my t w & completed the sec bus doc - th then up to the Radio Room just by 4⁰⁰, the hr specified by Paula, only to find she was next door

The call for the water brigade went out at 4⁰⁰ - I rd Cities in Crisis for a half hr, then went down to the field to water - most of the aft I was standing next to Tom Shubbs & later Debby Jensen - he made an inquiry about Bentel which led to a disc of Bentel, wh & finally to my telling him of my coding effort - w/ Debby we talked of old radio prgs, esp. comedians we had enjoyed - this arose out of a comment regarding diff in hearing the news versus reading it - Tom says he has a hearing deficiency - Tom Plemer, has a deep appreciation of rdng, likes poetry, incl. Shakespeare - he gets no time for rdng now

Some people left the line, perh. through a misunderstanding, but the majority stayed, afraid of incurring J's wrath, until Jim & Simpson called off the wh at 7¹⁵

A change in sched had been announced -

many of my adult students & I myself had
looked forward to having my class talk &
rehearsing our shit, but we were told
soc. classes would be held then rather
than F; then we would have the Rally
on F because of the dentists coming on
S - during dinner we were informed
of another change - we were to come as
quickly as possible to the pavilion to see
films - I took my food, a cheese sandwich w/

Clayton Harris, then of Dufour, was
visiting - he introduced 2 films on
Guy, the first "This is Guy" showing
the historic landmarks, scenic spots, the chief
agric & mining products, the dig, roads
in the city, & scenic spots - "Our to
Build" concentrated more on developm,
activities - the films were over at 9:30

I tried to go to the cottage & rd Citrus
for a while but, tired w/ the long physical
effortion, went to sleep by all the
residents were home

10 Mar - F

Had my usual routine today: to sleep, get my medication - the veg. shed his and had any papers or any other fresh veg. I can eat now for my constipation - I have had a little improvement, in the end anyway.

Told Dick Trapp of Tish's comments on my memo - he was vehement in his feelings that she was motivated by her own involvement in the Agrical. Dept, did not agree that I was insensitive to people w/ less ed. than I, nor that I criticized the off.

The sch supplies & bks coming in in the crates are being unpacked & distributed to storage facil. in the sch. tent & the Bk Dept, the latter being used for Teacher Resource meter.

Then I got home I saw Harriet Trapp & told her also of Tish's opin on my memo - she was even more intense in her attit than Dick, that I shd turn it in to J.

Had on my girl a short while at lunch I had hoped to catch Dale Parks & Don Fields in order to write their resumes but didn't see either of them - instad I saw Bob Davis who started to give me his - he has a degree in music from a state coll. in Wash State - we had to stop

(over)

by we were finished when I began to give
the news

The shower & the med. aide treated my
foot which is almost completely cured
I lay down for an hr. & dozed

Deek had told me the usual h.s. letters
meeting wd be held but the letters were in
the Speculari - I went to the Ph Depos who
told me the letters were cataloging lbs & sell
materials, that he was coordinating & Deek
had not consulted him

I helped catalog from about 3³⁰ to 6⁰⁰, as
I didn't feel like going on the water brigade,
which was early - boxes of lbs & materials
were being brought in & we are going to have
a serious prob of storage - as soon as we
get lbs cataloged I should have too much
trouble finding a bh to rd. - I was really
having diff. locating one to rd apt. I found
Chad w/o Crisis

Dinner was not being served until the
water brigade was dismissed, so I went
home & got my socks on (to protect agst
insects) & my pillow - then I was late &
barely made it to the rally, held ton
because the dentist is coming ton, & find
a seat - we had fish, chicken, and rice,
cutless beans & oranges

At 11:00^{AM} I went by the sch. tent where our books & ed. supplies were being unpacked - being on the shelves, I find at least some of the bks I had packed had ^{been} unloaded & put on the shelves - the teachers were sorting books according to subj. - arrangements were discussed for allowing the community to use the bks while making sure they remain in our custody - at present they are being put in locked bookcases in the sch tent (teacher resource bks & materials in the Bk Depository)

X ^{Whole} on my mind

People who straight through today w/o lunch because of losing 2 hrs in the morn.

Did some laundry

Rd - finished Cities w/o Crisis by Mike Davidson

Went on the water brigade from 5⁰⁰ to 7¹⁵ - J. was w/us for a while - I had some frustrating conditions - at first I was standing btwn Juanita Green, who complains a lot, & Lu Ester Lewis.

(over) 0-3-13 (60)

Who is critical - however, the latter did tell me I was "strong" - then I was moved to another row until we finished that sect - the jr. h. s. students were sent to another field & I told the roots to water the kidney beans "back of Dorm 5" - no leader was assigned - our grp became completely bewildered trying to find the right place, going forward & backwards sev. times - when we did find it, I had to go to the end of the row on the well among a mob of child, some of whom were disorderly - partic. Shay Jones, formerly Tad Kluyman, was a nuisance, doing what he felt like doing

We were until 7:15

I was told the dentist did not come because of a death in his family - 2 family members did arrive by air, however - Alva Johnson & Kay Nelson

I ate dinner

I was confused as to what the eve's activ's were to be: whether an entertainment prog or socialism classes - I learned that we were to have both

The entertainment prog lasted about an hr, the master of ceremonies, Gary Watkins,

Then we had socialism classes for
over an hr - I taught the first pt of
the period, reviewing the material on
Karl Marx - Don Jackson dealt w/ the
Third World Doctrine as required by
J & went over news events & we did
not have time for agric. topics

I started a new bk from the new

The guards had lights turned off @

11¹ Helen Lee wanted some help w/ a piece
of writing I had asked all of us to on

I gave her & the other rice workers an
explanation of the topic as I understood
it

12 Mar - Su

For bkpt we had rolls and syrup & a scrambled egg

X I was able to get resumes from Don Fields, the pharmacist, & Dale Parks, who is a respiratory therapist.

On returning to the cottage, wrote yesterday's entry of rd Azimov at Dorm 5.

I was to meet Edie Kutulas at 12³⁰ - we planned to go to Camp 1 - I learned that working hours had been extended and so she would be off until 100 -

I thought she was in the fields - while

X waiting I talked to X Watkins - she seems to like Jonestown & seemed much more positive than when I knew her in SF - Tommy Beikman came to see his mother, Edie - he had lived first w/ Beikmans when I came to the Valley - the Kutulas had adopted him later & Tommy was so bitter at what he regarded as betrayal by Danny (w/ Phyllis Houston) that he resumed the Beikman name.

I find that Edie had been waking up the small animals under Dorm 5 all the time - she can't leave until someone relieved her - I crawled under the dorm & looked at the animals (it was hard to

(4) EMB-2

(over) C-3-A-3 (63)

avoid bumping one's head - the 10 living piglets are being cared for here - a hot lamp & injections of sugar water are being used to keep them alive - Edie sd these piglets are the offspring of sows who were malnourished, and the pigs that I accompanied from Georgetown - there are also some rabbits, white ones, which we are breeding for food

Edie & I decided not to go to Camp 1 today because of the time & because we were told we shd have an escort as well as concern about the prowling cat - 11 ↓ a rumor is circulating that the cat got one of our dogs. Last night I proposed to find out whether some members of my adult class might like to go on a trip some Sun aft; I sd ^{perhaps} make arrangements w/ the secur. patrol to go w/ us

I saw Bob Davis near the cottages & he gave me the rest of his resume - he sd he was going to spend his aft off starting to build his house - he's going to put it in line w/ our row of cottages - he planned to spend the aft at Camp 1 taking down some poles which had

(60) 8-2-52 (cont)

C-3-A-3 (4)

12 Nov - Su - 2

been erected at Camp 1 - I asked him whether I could go with him & walk back alone, & he agreed

X - Camp 1 is west of the compound, farther along from the area where we have been watering - it was only a short walk - it's a quite delightful spot in the bush w/ a small stream containing fish - I drank some of the water - Bob told me a characteristic of the ³ ✓

A platform had been erected there by Tom Bee to start a house & Bob sd he might finish it - The poles Bob is interested in were put in place by Amer Indians & he's going to make his house in the same way they planned theirs - he is going w/ another couple whom he did not name & hopes to find a companion for h's self - he sd he was a person who had always sought a companion

11² While we were going up the road, we heard J on the public address system - he mentioned that complaints about any thing shd be bro't to him & not acted by new arrivals - he referred to someone who had not been completely candid about his or her plans & tried to give a false

(65) 0-4-8-5 (over)

CS-A-5

impression of what they had done in the States - Bob that he was referring to one of the new arrivals - tho I had heard their names often, I did not really know them - he sd Kay Nelson was a real estate broker who had handled much of the property sold through the church - I think she was a TE secretary in LA - Clara Johnson was director of the choir in LA - she was the one previously mentioned by J as having become interested in someone outside the TE, who desired her child to come home - all of them are happy here & I refused to send them!!

W Bush is that dif kinds of trees grow all together!!

I walked back to the compound so that I wd not hold up Bob's project

The other people in the cottage had their half day off - Ann had brot her child, Isaac & then went to take a shower leaving him unsupervised - another child came in & they were playing so roughly I was afraid one of them wd be hurt. - I tried to make the other little boy go home but he wd not obey until I called a passing secur. guard - they came in, wanting to take a nap, but Ann when she

Ird Azimov

Went to dinner w/ Doug about 4⁰⁰ o'clock -
we had fried fish, rice & baked dry
beans (of which they gave me too much)
& cutlass beans

Ret'd to the cottage, was riding Azimov
again, & intending to go off my cup cakes,
which was the conjecture being given out
today, when I called for all to go to
the pavilion to deal w/ a disciplinary
matter

I had a good seat up front

Harold Ordell started his statement
unrelated as far as I could see, to what
followed, that he had been a first-class
ass-hole until he had arrived in Jonestown
but had got himself straightened out

I then put an elderly woman, who may be
Adele Johnson's mother, on the floor for com-
plaining about conditions to a new arrival -
she then sd she had no place to put
her clothes & had been unable to get a
footlocker, a sit, which I sd could have
been easily solved

Then Clara was brot up - she was
quoted as saying she wouldn't have come

(66) E M O

if she had known she could go back -
I said this wasn't true - Ron Crawford &
Harry Williams had both gone back but
had not acquitted themselves well - it
had proved wrong to go back - the enemy
"knows everyone's weak spots & how to
get to you" - he didn't think Tim Stoen
meant to be as vicious as he had
become, but the enemy threatened him,
now he seems to enjoy his role

I went into more detail than he ever
has been of the interlocking of all elements
of the conspiracy - all those who left the Te
had cooperated w/ the machinations of the
CIA + Interpol, led by Harry Cohen & Meyer,
a Nazi agent - we have proof on those who
are involved

x x Cobb had built a part of the child of
Mickey Touchette & Jim Cobb thinking the
Touchettes & Cobbs wd be interested in
seeing it - all of those concerned expressed
H.I. whom I had to get out quickly to save
her from the plots of her son
no interest - I said he hated his daughter
Suzanne - he used to wonder why she
wd do what she did, but now he
simply hated her. Betty Cartmell stated
like sentiments concerning Mike & x Sly
stated that Dave Sly was not a Sly

Chris said she had left imp documents
in her home - I said I trusted Te

worker ed take care of them - to the assembly he stated: no piece of property, no matter how valuable, is worth going back for - into just dead - "No one is going back until we get all our people here."

1/5 Suzanne had walked into the Te, attempting to set up a church & take over our assets!!

- I seemed to imply that Vera Young had turned traitor.

The cup cakes had been passed to every-
body in the mtg.

A child sitting next to me had a troublesome case of athlete's foot & kept taking his shoes off & scratching his feet which made me nervous - I finally sent him to join his mother, tho I don't know whether he did or not.

Wesley Breitenberk's appointment as a tractor driver was discussed & confirmed - the question of women as tractor drivers was brot up - there that women weren't strong enough to help move logs which they s' times had to do but I seemed to favor giving them a chance at the job.

I complained because no one on the Resist Dem staff th proper responsible. - the people involved are Don Casanova, Terry

Tommy Beitman testified on the miracle which saved his life & his sight - he said this was the only place where his life had been worth anything.

Robert Christian made a recommendation for 2 farm mgs, one micture & the other yng, namely James Edwards & Steve - Mike Touchette suggested there should be 2 mgs & 2 yng people.

Seventy or so people are arriving in Georgetown on M - I want them on the boat for Jonestown on W night & work it out w/ Immigration so that it's done (to avoid anyone's getting trouble).

The mtg ended @ 9:30.

A film was to be shown but I decided not to stay for it - they ret'd too.

I'd a good night - went to bed @ 11⁰⁰.

I was awakened 4 times by people talking when they came in, had to go to the bathroom twice.

Felt a little queasy today; digestive sys. upset, tho I did not vomit - many others did - I ate a little blt. - got a ripe plantain instead of papaya at the veg stand for my constipation.

Returning home got a start on yest's girl entry. Did understand h.s. classes wh he in session - intended to use some more filmstrips as wd study if I cd get the viewer - learned from Tom that h.s. classes not many - h.s. teachers mtg called for 10⁰⁰ - Tom unhappy w/Dick because of lack of coordination betw them.

H.s. teachers met 12⁰⁰ in pavil. - not all present - Dick started w/proposal that we cancel reviews & tests which were planned for last wk of sch, wh our reorg immed. & open new system next wk - aft some disc, this was agreed on - admin. of h.s. was disc'd, & Dick th it on - both he & Tom emphasized how much they had to do.

Dick had essential keep records on prog & studs - Ben Arant to wh help time in Et. off, Inez Wagner going help w/ Tchrs Rec. materials - volunteers to do h.s. records called for - I reluctantly agreed w/ understanding admin'to tell me what is needed & th I am not required put pressure on Tchrs get their records.

The break for lunch - a new time for people to get their prescriptions has been set & I went in aft. eating, did not have to wait long.

Chris resumed their meeting - Dick outlined plans for implementing new apprenticeship system - students will have their reg. crew assignments in morn. - in aft will have help on apprenticeship assignm. - at 3⁰⁰ until 6³⁰ classes will be held in Lang Arts, Math & Socialism - we will interview students this wk. from 12⁰⁰ to 3⁰⁰ - Dick listed the areas in which training will be given - we will have to steer students into those for which we have greatest need - we agreed on this plan - will take 20 students a day, this as a grp will interview them individually.

When I ret. to the cottage was met by Vernetta Christian who needed type steering cone minutes - her tow broken - I allowed her to use mine in my cottage.

I did yests jrn. entry
- Went through my box of educational supplies which arrived on the boat.

At dinner I skipped the rice, ate the veg & pudding.

Went to the cottage & made yest's final entry
Washed my hair

Went to lunch at 11 or at 12³⁰

The h.o. teachers started interviewing the studs, aft a brief disc as to the procedure - I mentioned the omission of clerical work from the list of needed jobs, as we certainly will need to train young people to take minutes & keep records - Dick's reply: who's going to teach them?

Dick had Keith Wade & me get bhyst info from the students - tutors helping w/ the interviews were Marie Lawrence, John Barron, X James Turner, Shirley Robinson, Jim, Les. Dick, who conducted the interviews - we talked to about 20 studs - a list of the categories from which they cd choose were listed on the chalkboard w/ the no of studs each cd take - the largest no will have to go to agronomy & livestock areas - livestock is a pop area but not many chose the agronomy area - woodworking & machine shop are also much desired - attention was paid to the stud's part, ^{wh} records, size, part

conduct, sch record, & so on - first, second & even third choices were taken - the studs were also told the decision wd. not be irrevocable - two students interviewed: whom I had known previously are Clarence Klingman who wanted to wh in the tool shed but was told he did not have a paper record as far as steeling was concerned, & Janet Lewis (Tupper) who sd she wanted to wh in livestock because of her love for animals - her reliability is not beyond reproach - she may get her second choice: the warehouse.

At the interviewing, I had expected to have to type up the notes but Dick told me Drey Wagner had consented to do some secretarial wk for the h.s. - we did not finish until aft. 3⁰⁰.

At the cottage I th my pillow apart & put half the stuffing in another case (Bates had made 2, one inside the other) - I want a small pillow to take to meetings, can sleep on both.

I went to the water brigade at 5⁰⁰ - watering lasted only a brief time however. He had dinner about 6⁰⁰.

I ret'd to the cottage, got my notebook & water & a robe for Drey (she gets cold late in the eve. in the pavilion) - forgot my pillow however - was fortunate enough to get a bed w/a back, tho it was high & became uncomfortable.

Beane Landquist moving from our cottage to one across the way, where she & one other pers will be housed w/ 14 toddlers - this is an interim arrangement, to be in effect until the new nursery bldg is completed - at present the child, live w/ home mothers, who are not happy taking care of them

At 8:30 I whist on my girl, then typed the water brigade script again, making some changes & clearly indicating the lines each pers. is to speak so as to give copies to the persons taking speaking parts

Had lunch

Helped interview students again - others participating beside Dick were Marie Jones, Mike Lund, Jack Barron, Don Bowers, some of these for part of the time only - the grp of students was more varied, some barely out of eighth grade, others mature w/ careers in mind, a few seem to be 18 & not required to be in sch - sev. of the students are in my Eng. class & I th a more active role in the Questioning - Willie Malone was in today's grp - his behavior has not been the best - Shirley absent hrs -

• // we are gradually getting more varied requests for proj. assignments, such as sev ind. branches of medicine, dentistry, sewing //

Jann differed w/ Beth over attit in one instance - she felt she is too lenient - he on the other hand is afraid of discouraging the bl_g child who is apt to have a poor self-image

We finished about 3³⁰ - aft taking my shower I had little time until the call for the water brigade came - I try to go every other day - today Kurtas Smith the member, at Jo's request

Socialism teaches left the time at 6³⁰ got their dinner plates & discussed Tom's soc. class - we had heavy requirements today to give instrs. and the Third World doctrine so all members can turn in paper on it to cover news items of the wk, disc agric. topics brot up at the rallies, & disc the assignment in The Intro to Soc - most of the time was spent on the Third World doct, which many of the techs find frustrating, Debby Jensen in partic

I went home for my bks - Ted & Don take the lead in the class - he started w/ news items - I then talked & questioned on the agric. topics & Don went on w/ a disc of the Third World - at one pt J. came by - he told us that some of the people arriving Tom on the boat had been quite undisciplined; I gathered they spent money wildly across the country as they

traveled to the embarkation pt. - I emphasized the imp. of our giving them a positive image of Jonestown & letting them know the big difficulties they would have faced if they had stayed in the States - the class lasted an hr & a half

I did a seminar for an hr or so until I went to bed at 11⁰⁰

113 walked back w/ Drey - she also is leaving the cottage, will be occupying a duplex w/ some other people which will be closer to the central area - I think the tape recorder the younger people constantly play in our cottage bothers her - she seemed dubious about staying in the sch. res. job - I gathered she doesn't like working w/ Bee Ornd - she sd she cd still "help me out w/ sch. records"

17 Mar - F.

At 10:30 I got some carbon paper to use ✓
A little rain fell while I was at lunch
& later we had considerably more -
11:15 in typing resumes from Joyce Touchette -
she also gave me a note entitling me to
some new sandals as the ones I have have
been repaired several times & are wearing
thin so that it hurts my feet to walk
on the pebbly paths - I wanted a pair that were -
house quite a while, as the line was
long - Ber Livingstone had mine left of
those which came in on the boat, & she
closed the W.H. at 9:00 then she took me over to the
old W.H. to look at second-hand shoes -
I find nothing suitable - Ber told me
to come back next W.H. - she had some
which had not been unpacked.

I had very little time left before going back
to lunch - rd Agimov a while //

The Libs interviewed studs again in
the pavilion - This was the last batch,
a mixed group, etc for a few stragglers,
whom we'll have to look up - Marie, Jack,
Don & Jenn participated - among today's
studs were three in my class: Billy Jones,
Jim Baker & Loretta Buckley - I took a
bigger role in talking to the studs, - Billy
Jones makes a very unimpressive appearance,
looks very unsure of himself & I have

(over)

heard he has a form of epilepsy - also
I think through the yrs he has become
accustomed to moving around where &
when he wishes - Dick mentioned to
him that he was out of class more
than he was in, which he denied - he
showed little int in the projects offered
but did decide upon X - Jan has
improved recently in his gen abilit but
Jan has the offer to disperse his writing
abil - he argued about this judgment -
I tried to strike middle ground, saying
he had int but needed to pay attention
to spelling, sentence struct & grammar -
concerning Lavette, Dick warned us to go
easy - she has been through h.s. as far
as the records are concerned - she is
20 but she wants to take h.s. classes

Today's grp was varied in age, class
level abilit., & interests - Dick has been
tentatively assigning studs to partic. projects
& has managed to get a fairly good
distrib but some fields are overcrowded
we didn't finish until nearly 4⁰⁰ - Dick
sd he doubted whether we cd start
h.s. on M - the supervisors of the dig.
areas must be consulted & studs assigned
to them cleared - then we will have to
tell their present work supervisors that
they will be losing the labor of the
student workers & has a day, in most
cases

Just bef I left Dick told me my sched. for the new session - I will teach my Remedial Gyps will meet at 4⁰⁰ (first period), & Dick has assigned me another class, an Advanced Gyps at 4⁵⁰ (second period) - I was flattered but also somewhat dismayed as my load will be heavy - I mentioned to him my suggestion to sched. a grp of adults in the day time & hoped I was not have any conflict w/ Barbara who teaches gen. ed. to adults & had also spoken of her intention to expand the mov.

Work is being done on the showers & the shower faucets were closed off today - everyone had to use the wash bowls, & it was very crowded, but I got washed.

I wrote in my journal for an hr or 2 bef dinner - the water brigade was not nec.

I went early to the pavilion aft dinner & got a good seat w/c back - however, I was very uncomfortable as I find to put on the right shoe for rainy weather - my feet were dirty & itched, as my athlete's foot is not completely cured yet.

& the remark was regarded as that of
the provocateur, suggesting to Brian that
he might want to do - Many others gave
examples of the same pattern: Jeff selects
someone whose loyalty is weak & makes
suggestions which encourage the person's
weakness - Jeff admitted he did this,
sd he didn't know his motive - he
denied he was an agent, agreed that
he is a masochist - he was questioned
about a note he wrote to J. stating
he had sexual leanings toward J. but J.

Went to ship¹ - throughout the day saw some of the people who arrived from the States, besides those mentioned last night - Ken Horton was one - Edith Corwell came w/ Vern Hosney & Mark

There were showers off & on during the day

still - missing items in Dec - my notes are now up to date

Had had a very satisfactory day, being by myself most of the time & able to catch up on my grill

Went to dinner

A film was shown in the pavilion & for the first time I was able to get a good seat & sit through the whole of it at a reasonable hr - it was "The Day of the Jackal" directed by Fred Zinnemann - I didn't learn who played the chief parts - it was about an attempted assassination of Charles de Gaulle by a gyp of former Fr

officers in Algeria who resented losing their privs - it was very well done & gripped my attention throughout - I had the luck to sit beside Joyce Lund who had read the bk & filled me in on details I would have otherwise missed - altho it was diff. to sympathize deeply w/ the bk's author (& thus the Establishment's side) it was a very instructive film, revealing what resources can be marshalled by the State in a security matter.

A 2 Jann came by & talked for some time - she has been drafted by Phyllis' Chicken to write the Pt. Natunum Nursing Training Curric. which Phyllis had tried to get me to do - Jann is having a hard time w/ it - we talked of our teaching respon- sibilities & I told her of Dick's plan for me in the next term & of Barbara's mention- ing the possibil. of our teaching the adult class too - she warned me that team teaching w/ Barb. is a trialth - I told Jann of my desire to do some creative writing & of what I had done (in general) on the Te history - she advised me to make stronger efforts to discover what happened to the unfinished notes I had turned over to Tom Adams //

who had to be rescheduled, is here - he had four appointments on his - for dinner we had liver over rice

I checked w/ Rita concerning the rules governing the living quarters, specifically w/ regard to entertaining visitors; having the lights on after 11⁰⁰, & holding conversations & playing tapes when others are trying to sleep - Rita sd she thought it was after the rules not to turn the lights off at 11⁰⁰ and she thought guests of the oppos. sex are not allowed in the living quarters - Rita has moved next door where Paula Adams, Christine Lucientes & Daisy Stroud live - this is the cottage where people work all night on the t.w.s. - Rita's broom which she was using had been in crates at the parcel, & had been broken into & she was moved in w/ the other workers on comp. mats. - some guys are also living there temporarily

I also checked w/ Lee Ingram on practices disturbing my sleep - he too agreed that it was after the rules to entertain people of the oppos. sex & sd lights shd go off at 11⁰⁰ but he thought the other matters shd be regulated by consideration of the comfort of others

the baby did not come until he did -
she needed a medicine which had not

it, Ting & the baby wd have both died

Just when I was going up for my

shown in the dining tent - when I got
back to the pavilion, the cookies were
being passed out

Old Azimov for a while

At best worked as my girl until 11⁰⁰
At this time I went for my medication -
I had a 2-hr wait. - I don't know the
reason etc, that Magnolia told me one
nurse was out - I bel the med staff
was also having a mtg - I sat by myself
while waiting

Was fortunate to get some lunch ^{at 1⁰⁰}
serving was stopped

The shower near the cottages are still
being wh'd on so I cd only get a bath
from the basin - went to the aide in
the pavilion for treatment of my foot

More rain fell today
Sorted the material concerning the
resumes I have been preparing - listed
all of them - Typed 2 more - I wd
about 3 hrs & there only Joyce Parks left
tho there are others still to be
obtained from the comm.

Just before I left for dinner at 6⁰⁰
I cancelled over the p.c. system that an
abd might have to be called - I chng'd
clothes so as to be prepared for a long
size in the pavilion; wore pants, socks,
th my rain coat & watch, but writing
material.

Was preparing to make an announcement
prelim. to holding my class when the
alert was called at 4:00 o'clock

People hurried into the pavilion, benches
were set up rapidly, the guards were
equipped w/ weapons & a system of
checking attendance put into effect

I applied to us set rec events &
conditions - Larry Schacht, our doctor, has
not yet been certified to practice in Hwy until
he serves a 9-mo. internship in New Town -
the Amer Med Assoc has become interested
in us because of our contacts made on
the radio & is planning to send a deleg-
to us in a few days. We cannot risk
their questioning Larry concerning his
certification

It wd be beneficial if I went to New
Town w/ the entertainment group & spoke - he
cannot risk it as there are arrest orders
agst him in the child custody case - the
decis. of the judge in the case is expected
soon - it wd be advantageous if this
decision, hopefully favorable to us, were
made by 1 Apr, the date of the New Town
effed. - our contacts in the Hwy Govt.,
among whom are for Min Reid & Kings,
Sec. of the Interior, indic that the Hwy
Govt, incl. Prime Min's Burnham, wishes
an outcome favorable to us, & also are for
prohibiting Tim Stoen to set foot in the
city - The Sov. Union also has indicated

(cont) C-3A-3 (103)

To Mar - M-2

its int. in the welfare of our project in
Guy - Paul Adams has established close
contact w/ the Amer. Emb. & they tend to
support us - the Govt predicts a favorable
decision of the court case - on the other
hand, a group so-called Black Nationalists,
receiving support from the CIA, are opposed to
us - The Guy govt needs aid & for that
reason is sometimes amicable to the U.S. -
several members of Cong have been won over by
Tom Swen. We have learned that our govt
officials are being shortly for a visit to the
U.S. & the Camp David, so in Louis
and which will make them less dependent
upon the U.S. or intern. agencies under its
control

In the middle of disc of the best plan to
follow, other matters were bro't up -
asked for the person who said a thing about
"getting to Georgetown - & then run" or
anyone who heard such a remark to
come forward - at the same time
first - the person, it did not seem to
anyone who made that exact statement
appeared

attracted - granite, as is well known,
has a habit of complaining all the time -
Lois had not meant that she could be
trusted in the town but that there was no
partic. reason to send her there -

Ray Barnett, husband of the former Cathy
Stahl, was asked how he liked Jonestown -
it was not clear whether he had been
overheard making a negative remark but
he was reminded that as he is older than
|| (both arrived in the recent yrs w/ their
small dghter) ||
his wife he might face diffic. supporting
his family + bringing up his child in the
States

All new arrivals were asked to make a
statement about their feelings, pros or cons, regarding
Jonestown - the most freq. complaint was
about too much rice in the diet; some
had reservations about the toilet faults -
there were touching remarks about the beauty
of the site, how much construction had been
done - one man sd it was marvelous to
think of the water being piped every where
" + even a cold water fountain in the
midst of the jungle; " + the freedom of
fear from muggings

For some reason when Pat Patterson spoke,
his companion, who presumably had
welcomed him, (Michaelan Brady) attacked

- him physically as well as verbally - I feel she had attacked him w/ a cutter or some other implement in the field during the day & had murdered him - the motive of course was jealousy - she had found he had had other relationships in the States or wished to be her now - she had to be subdued & I had her taken into custody & assigned for treatment in the "box"

Relative to the questioning concerning those who wished to return to the States, I asked Rev. Edward Moore (who sings in the programs) about giving a letter to Key Nelson to deliver to his relatives in the supposition that she might be going back - I had it in my mind to attempt to effect they would be willing to break the rules; furthermore, he had no reason to think Key might be returning - Rev. Moore was questioned intensively concerning his attitude to his relatives.

After effecting on the damage wreaked on individuals or the cause by dis. members' relatives, I asked all who wished their relatives dead (later he added "or here" but w/ emphasis on the former desire) to raise their hands - most did, but some did not, mostly those w/ relig. background which had been transferred to J. w/ fanatic - cal faith - him as God - he dwelt on the

inconsistency of claiming complete devotion
to him & lack of trust in his orders -
he insisted on a formal retraction & plea
for mercy, following the superstitious belief
that the persons in question had displayed -
to marjests in the end he pointed out
what cd be learned from the incident
11/3 Moore was very hard to pin down //

Radio communication w/ Geo'town had
been kept up all night while the staff there
conferred w/ various govt ags: - a
decision was announced that if we go to
Geo'town relying on expectation that
no undesirable consequences to the Te's
position wd be suffered - in other words
that no armed orders wd be served,
Tim Stoen wd not be permitted to land
in Guyana, & the judge cd be expected
to hand down a favorable decision on
the custody case

The mtg ended at 5⁰⁰ a.m. & I
set the sleep hrs at 10⁰⁰ & 11⁰⁰, no lunch
to be served

11/3 Edith Cordell had aboard a letter or
parcel to Gladys Smith from David - altho
Gyara sly had given instructions to passengers
not to do anything directly to residents of Jones-
town she had given it to Gladys - I sd Edith
shd have known better than to give it &
Gladys shd have known better than to accept it
esp since David didn't want to come to Jonestown //

Had a shower

The h.s. teachers had a mtg. in the pavilion to discuss the new term - Dick explained the class hrs & gave an assignment - the studs are to work on their projects from 1³⁰ to 3³⁰ - aft. a half hr break they will start classes at 4⁰⁰ - there will be 3 class periods, ending at 6³⁰ - the first 2 will be divided btw math & lang arts, & in the 3rd sec classes will meet - Jan W. Teach. removed. Eng in the first period & adv. Eng the second, the former w/ the same studs I had prev. plus a few additions & the adv. Eng w/ studs of superior abil.

We now have the Japanese curricula for the "forms" equiv. to our 7th to 10th grades - they studs do not have to attend sch past the age of 16 - we are to fit in to their curriculum as nearly as pos - our sch is now the Jointtown Comm. Dick had agreed to Jann & I switching classes every wk & I am willing to do it, tho I think Jann's motives are somewhat selfish

At the mtg I got my athletes' feet treated

Jann & I spent a couple of hrs planning our joint class time - we will have the 2 gyms meet by Tom only while we offer what we have in mind - I proposed finding out what the studs want to learn & feel they need - we agreed to read a few poems by black poets & she chose a play by Langston Hughes. Intending to rd a few pp of it

11 I told Jann a thing of my inability to relate to lge nos of people & some of the early efforts which may have contrib'd to it //

the band played "Red Roses" seductively - the crowd, incl. children, watched attentively w/ laughter & cheers, as Ellen was helped to undress & Chuck th of all etc his red shorts - I chided some of the seniors for their disapproval, saying this demonstr wd be good for children, show them "there's nothing in it" & might even cure some cancers - "in fact, I'm sure it will" - he led a hymn about Jesus, then another about the blood of Jesus, indic. that the sit. was similar to that of last night & that criticism wd be just as dangerous

Chuck tried to perform while Ellen played the role of the "frigid female", but he was unable to "get it up" & I finally released them - I sd, "you couldn't have seen a show like this on Broadway"

Went to school & followed usual routine.
Took my shower early & washed my hair
at 11⁰⁰ ret'd to the central area for my
medication - didn't have too long a wait
today

Ate my lunch

At 1⁰⁰ students, prog. directors & h.p.
Tehrs met to set up the new prog. (in the pavilion)
Dick rd the names of the studs & the prog. to
which they were assigned & the name of the
pers. to whom they were to report - some prog.
directors weren't present & some studs objected
to their assignment - one was David Charkun
who didn't want to have his prog. in the
area where he w'd ^{the papers} altho he had requested
it when interviewed

I went home & wh'd on my grill

Ret'd to the central area for the beginning
of classes at 4⁰⁰ - my basic Lang Arts class,
the remedial grp, consists of the same studs
as last term w/ a few additions - we were to
meet in the same place too as last term but
Barbara Walker had during the brk organ-
ized a grp of adults in Spn Ed & they
were in Shirley's area on the other side of
the blk board & she wanted to put her class
in my area because she needed the
blk board - she consented to move her grp
to a platform ~~at the end of the~~
~~text & let occupied my usual place -~~

(PI) S-A-E-D (over) C-343(118)

much time was left to do anything but take
I moved my eye to the pencil where I had
only enough time to take the roll - here we
had competition from the band which was
rehearsing loudly

Jimm & I planned merged our classes
in the second period - I perceived that some,
prob suffering from a brand of elitism,
didn't like this & were not glad that we
were going to alternate classes - perhaps they
think there is something about having a
teacher who is called "Professor," a title
which I usually gives me - Jimm & I both
tried to elicit opinions on what the studs
needed or wanted to learn, not too
successfully - we also had competition from
the band - Jimm sd we each had our
specialties - she gave "poetry" as mine; a
word which did not mean w/gen favor -
she sd she specialized in current events
& socialism - we each rd a poem written
by a black poet - at the class, Jimm told
me she thought the studs were bored &
sd she shd not have so bluntly labeled
me - I fin to sneek up on them w/ poetry

The second class was over at 5:30 - the
students' soc. classes meet during the next
period.

To dinner there was a flurry of activity & announcements on the p.c. system - I thought I heard J's voice say, "Stay in the living areas, colleges & so forth," so I didn't move but I realized the area was deserted - a guard came around & told me to go to the pavil. - I changed my shoes, th. a rain coat.

I had to stand in the pavilion for some time until a seat was found for me.

Tom Kice was on the floor being questioned by J & others, incl. Bob Ruck his relative who is a S.A.T member - I never learned what was the immediate cause of the confrontation but it was apparent that Tom had been an object of surveillance for long because of dissatisfied remarks about "overcrowding" - he must have declared an intention of taking his son Tommy back to the states & under questioning he admitted his desire to be far from people - he showed an dismal lack of understanding of the sit he was face in the states, both in seeking employment & with standing the demands of the T's opponents - I tried to show him that

(151) E-4-8-3

(over)

he wd no more be able to resist
being used than Tim Stoen & Jo's dghter,
Suzanne were - I also made an
effort to understand how serious was
Tommy's sit - when brt to Jonestown
he was a psychopathic child, almost
autistic, wd certainly have wound up
in jail - tho improved, those tendencies
wd come out again in a capitalist en-
vironment - I ad child, do well
under strict - Tom had spoken to
others of wild dreams of going to
Venezuela, getting through U.S. Customs,
even of Tommy's being able to get along
alone if Kice th' self was detained

I urged everyone who heard my
remarks to report them because they
may be the first signs of treason! The
indicated that security measures are
have to be extremely strict

I did not hear any determ. of what
Tom Kice's penalty is to be but learned
later that he is on learning crew

While the mtng went on ddrness was
served to those who had not had any.

Bread examinations were to be
done ton & I decided they shd be
given in the mtng itself - the nurses

set up the nec. facilities on tables & benches; women & men were both lined up & examined.

Shirley Fields requested a separation from Don; he was attempting to dominate her life, a typical "Jewish husband". - after some remarks on women's liberation, her request was granted.

A woman named Birdie Arnold reported having had some articles stolen from her by Millie Cunningham - Millie, on the floor, was questioned not only about this allegation but about various incidents of the past, incl. charges she had made concerning Jack Barron - her behavior in the kitchen was given attention again - she still does not adhere to the sp. diets people are supposed to have - she was removed from the kitchen.

Some medication had been found in Jack Barron's possession - strict orders are in effect that no med. is to be dispensed etc under the eyes of the pers. administering it.

A woman named Georgia, white Ibel, was noted as having said to her fellow residents that she "never would have done what that woman had had

My toe, aft being nearly healed by appen-

Thru my shower & had my feet examined -
Mary James, the aide, says that the tennis
shoes are the probl.

Washed a few clothes, trying to keep up on
underwear

I decided on what I was going to do in my
two classes

Cont'd wth on my job

Went to meet my first class at 4:00 - the students
were late in coming - Billy Jones didn't arr.
until the end, had been at the med. off - Jerome
Anderson was still on front gate secur. - Marcus
Anderson is on l.c. - Barbara was still occu-
pying one of the classroom spaces - Shirley con-
sented to taking her class to the platform area
at the end of the rice tent, so that I cd use
the bl'bd in my space - the noise from the
pavilion where the band was rehearsing was
deafening - I tried to rd aloud from an article
by G. L. Jones on the world of 2047 but was barely
able to get started - the class was reasonably
well behaved - I had a correct fair for
extraneous comments & Willie Helms for
sleeping (he had been on secur. last night &

but 2
My second class, all girls, was quiet &
cooperative & some individuals even con-
tributed, while I discussed the separate cate-
gories which could be studied in lang arts,
then applied the continuum of written mater
graded accord. to emotional content - gave
them an assignment - be prepared to write
a composition tomorrow on some aspect of teaching
or learning lang.

Saw Ann briefly & told her what I had
done in the class.

At home I did Ag. minor

Went to dinner at 6:30

The soc. classes which were to be held
tom were cancelled - others class heard an
ann. from J. that he hoped Prof. Roller's
adult classes were continuing - I wanted to
hear whether the soc. techs were to meet -
if not, I would have called the adult class together,
that I would have had to improvise something
for them.

However the soc. techs did meet from 7⁰⁰ to
9⁰⁰ - But Christine chaired - we discussed
a complaint that much of the mater was taught
in such a way as to be over the heads of many
of the people - We decided to turn in the
names of those whose understanding is
limited - Jenn's class had been provided by J -
she gave 5 of the most imp. news items &
we discussed them - Don Jackson gave some
provisions of Senate bill 1437

has been having trouble w/ swelled ankles; had
been given "water pills" by Dr. Schacht

Ann played her tape recorder, which both
Inez & I find unpleasant

I succeeded in getting the lights out about
11⁰⁰ but Ann would play her tapes - I asked
her to stop - she said she had the music on
low - she finally stopped, then when (frut!) she
that I was asleep about 1 $\frac{1}{2}$ ⁰⁰ she put it on again -
I complained again - I went to the bathroom, saw
Tish, who said there had been a pronouncement
from the office, that tape recorders
were to be turned off at lights out at 11⁰⁰ -
she advised me to write Ann up

Had my shift, pursued usual morn. routine

Made final entry

Went to the med. off @ 11⁰⁰ for my medication - had about a half hr wait - spoke to Sylvia Grubbs, Larry's secretary, about appt. meant w/ her to disc. issues for my taking Oremarin - she attempts to cut down Larry's sched & tried to convince me but I told her I was wasting much time waiting for med. I may not need - she will notify me of appt. meant - also asked her to get resume from Larry for me

Had lunch

Took my shower & had my feet treated - my toe is better but not completely healed

Prepared material for my remedial class - Clarence Klingman who has been on l.c. for a long time was assigned to me - ~~has not exemplary~~ - Billie Jones title (see his thing for class), Willie Malone title (had to list articles using an article on words of 2014 by Agemov from Is Anyone There? - listed dupli words which I then use for vocab. study & typed copies for studs as we were not to have checked today

The class met on a platform @ the end of the sch tent - studs used benches & tables borrowed from elem sch by prev grp - I promised Lene Harris we wd ret them - Clarence Klingman
(125) 8-A-20 (over) C-3-A-13 (127)

who has been an l.c. for a long time, was assigned to me - his behavior was not exemplary - Billie Jones was late (he said he was being for the class) - Willie Malone was late (he was writing list of articles stolen from him) - class behaved fairly well - int. in the article, judging by disc. was above average. The same did not pertain. - I had asked the class to help put the benches & tables back but they went off to their next class w/o saying anything.

As band & deacons were rehearsing in the pavilion I held the 2nd class, the adv. group on the platform class - altho I had warned the class yest. of my plan for composition writing (on some aspect of common terminology or teaching lang. arts) most did not know what to write - I tried to give num. suggestions - am not sure of the qual. of wh. I will get from anyone - by the class was over, I informed them the benches & tables had to be moved back to the elev. sch. ate, asked them to find some men to help or do it themselves - They made jokes about women's lat but at the end of the class all dis-appeared - I was prepared to move the furn. myself but ca. had left anything by mys. off the platform.

The studs here - soc. class scheduled at a fresh taught by Harriet & Carolyn - the other h.s. teachers had a mtg^{11:30} - Dick inquired as to space assignments, absences & tardiness of students - He will ask Barb. to give up the space she is using for adults for my class here

- Some of the techs got their dinner plate - I waited - 11:45 talked for help on how to tell the news - Dick decided my remedial class is too large & transferred Clarence Kingman & John Baker - I told Dick of the incident concerning the benches & tables - he & the other techs that it was very serious & Dick sd he was going to make an announcement

11:50 & other examples of elitism

At 7⁰⁰ when the mtg was over I got my plate & etc.

I had hoped to read the news, as we were told the news items I rds every day wd be posted in the dining area but didn't get time - I wanted to put on a pair of socks so that the insects wd not bother my feet too - also had a nail horse in my sandals which hurt my feet - had to

11/3 I stated that Tim Stern was continuing his efforts & by a good source of info we had learned he might try kidnapping by some method such as a helicopter landing - there is also a plot to kidnap Wesley Breidenbach - he has a brother & sister outside the cause

Several times in recent days I has stated that the org backing the Conspiracy agst us is the Armed Services Com. of which the chairman is Sen. Stennis of Miss. - the plot had its origins in the appearance at the table of the bl. woman mayor from Miss.

I gave a no of startling facts - Rep. Charles Diggs, a black businessman who has been advocating the rights of African govt has been indicted on 27 counts of fraud, indicative of the determination to end the career of any promin. bl who stands up for minorities - Synanon is moving to Mexico having found it impos. to do so in the States, altho it is not a soc. org. - they gave us tons of supplies last night - the Ch of Scientology is moving out too but it is not known where

The polit. enlightenment mtg started at 7³⁰ & kept on until 9⁰⁵ - Sen gave the list of acts prohibited by Sen Bill 1437 which passed the Sel - I discussed the

news items specifically asking for volunteers to tell the ones they know - Bob helped me out - my main probl was hearing but I heard better than usual - we had some items on cloning & experiments w/DNA -

I wanted all members to see the two motion pictures, "The Day of the Jackal" & another on the topic - I went to the pavil to see the topic film which had not arrived yet - so I saw the Jackal film again, trying to observe details I had missed before. Dick Tropp gave comments on the film, relating it to our objectives - the other film, we were told, has not arrived yet - I made further comments - he was more sympathetic to the hired assassin than to De Gaulle, who he said did not want to let Algeria go but had to because France could not afford to hold it

At 12⁰⁰ the film was over & I went home to bed - Ann & a man friend were talking on the steps

x Had bkps

Went to the library (the bk shelves in the sch. tent) & the sch. off (the old bk depository) to lk for printer. For my remedial class & for the adult class in beginning rdng - I had got some advice from Betty Berkman & Tom Grubbs - Betty x showed me a series called system & Tom showed up while I was experimenting w/ the overhead projector, unmercifully - he showed me a small adjustment needed to make it work & got out the screen for me - I also looked over all the shelves to see where different kinds of bks are kept - a good many of my bks have arrived, but some are missing, so I think another box is still to come - we have an extraordinary good collection of books on black & minority hist. & culture & socialist bks, in general - but there are few non-fiction bks of gen interest

Went home & made Gesta's final entry

which did not take very long - none
of them was outstanding & none of them
was imaginative; in fact, one was a
collection of common clichés about the draw-
backs of the modern sch., reflecting no orig-
X that - several were thoughtful & well written -
Mark Wagner had an original ^{time} - some showed
a limited view of the imp. of the study
of the lang, to say the least - on the other
hand, some displayed ignorance of
what a sentence is, reinforcing my view
that these studs were labeled "Advanced"
because of the abs. of flagrant errors -
several studs apparently turned nothing in

I tried to sleep for an hr but didn't
succeed - Paddy Mc Coy came home & was
talking w/ various people about packing for
the trip to Georgetown.

Went to dinner

Betty Jean Hill

Barbara Kemp, Francine Crenshaw - I says Francine also doesn't get to him - she laughs at people who are on floor - 95% hrs. others she says she had nothing of it - "You think you're better than others - prettier" - One on the floor knew who Biggs was - Jan. over class - had to let the class down

- Jerry Wilson (Shirley Hecht's son) always evades sch - I: "When we are bl. oppressed, it is treason to refuse to think - I will not have this god-damned treason!" - Steve calls Vincent a no good son of a bitch

- Johnny Jones sd we shd be discussing matters he mentioned this morn. whether he shd go to Ger town, possib. of inviting Biggs here, whether we shd meet as a separate nation - I says he had his son, he didn't dare go to Ger town, can't possibly be people as dumb as these

- Betty Jean, like the others, doesn't know anything - she's always primping, answers Mother impudently

- Tommy Kue thinks he's spec. steels, pissed on blanket too - Alfred March sat on somebody's bed, fell asleep, pissed on mattress - I says have to concentrate all bed wetters in Dorm 1 - they were indig. men when asked to clean up the piss

because he is dependable - Mark the horse
w/o permission - he ran the horse too fast -
he denied wrong behavior, full excuses -
fight over called them David Davidson & Mark
yes - Davidson tricked brother into thinking
he off on l.c.

Xo Vinny X - stated she wanted to go to L.A. -
she says she said if she had a go back she would
Dee Dee Smith objected to those senders
telling her to take shoes off showers - Gordon
Lochard refused to give his name when asked
to turn the water down - Helen Snell who
asked to take off shoes in house but she
wanted, told them to write her up" - I says auto-
matically on l.c.

Dee Dee Wagner got praise for job she's doing
as sex party in Bank Depos.

26 Mar - Su.

We had breakfast an hr & a half late this morn. - the menu was biscuits, a hard-boiled egg & coffee - followed my trip to the Book Depository & examined the best material for use in my reading class for adults & in the instructs - they use a phonics system which I hope will be effective for adults - I checked out a board

11 & usual morn. routine //

On Edie Kautlask's room, went to Room 5 where under the bly are kept the small animals - Edie, who works there, sd they had acquired another fawn - it was given to some of our field workers by Amerindians - they also have a piglet - the rest have been sent back to the piggery - which they are raising as a pig - Chris Talley is now trying to teach her to drink milk from a bowl - in addition to the rabbits which I saw before, they have 2 kittens, 3 Capuchin baby monkeys, Rev's antecater, 2 ducks - the female is making a nest.

When I got back to the cottage, I made for my journal an entry covering the day's events - by the rally.

As again the papers turned in by the advanced class & made a record of how

(over) C-B-A-B (142)

each student did.

I did a good deal throughout the day -
I finished Is Anyone There? by Isaac
Aizimov.

I gave the news six times today - the
sound is much improved - in our cottage
however I still cannot hear clearly.

It was a little cloudy today & we
did get some rain.

The who crews stayed on the job today
until 145 - when our cottage residents
arrived they started to clean the cottage
up & did a thorough job - it had been
messy for several days w/ orange rinds, dishes
from the kitchen & people's clothing scattered
around - they had talked of a house
meeting to discuss such matters as playing tapes,
but she was tied up because of the
visitors to the project, & everyone ^{in the cottage} went
their separate ways.

The visitors, who arrived about 200, were
educ. people from Pt. Kaituma - displays
were arranged for them in the pavilion &
I saw J & the leadership people talking to
them when I went to dinner - a
musical program was put on for them.

I went for dinner at 4:00 - we had
fried chicken, one-quarter of which was
very good.

I started to read Teaching as a Subversive
Activity by Neil Postman & Charles Weingartner

11th Versie, who had not been home earlier, had come in & cleaned up her area!!

I went up at about 9:00 to get my candy which was being handed out in the pavilion.

After a while the film on the stage was being shown in the main tent (the orchestra rehearsed in the pavilion) & I saw a little of it, but I wasn't interested in it even if Dick Trapp explained the action so went home w/ they whom I happened to see.

Shirley Ann was clear home - someone had taken her tape recorder from her bed - since she could not play it, she had gone to bed.

I rd Subversive until bedtime.

Had ~~break~~ - followed my usual morn.
routine - got my medication at a half
hr wait

Terri Buford, when I passed the Radio
Rm, told me a msg had been recd.
from Georgetown on the radio that a
ltr had been sent to me from Tim Stoen -
she sd the stuff wanted to turn it in
to John Minis Reid, as it lkd as if
he might try to set me up - she did
not tell me the contents - I gave my
permission - I told her Tim must be
suffering from delusions - I meant, to ~~X~~

I wrote remarks on the papers of my
advanced Lang Arts class

Went to lunch about 1130

Checked out the ~~blister~~ materials from
the sch off together w/ the screen & a
waf pencil + met the adult beginning
rdng class - only 3 came, altho I
made an announcement on the p.c system -
the method is a phonetic method &
introduces the letters by sound &
shows the letters in print but I
am trying to teach the studs to print
& write the ltrs - I think adults

(241) 2-10-0 (over) C-3-A-3 (146)

will want to see more prog than
knowing the sounds alone

Had a shower & got my feet taken
care of

Worked on yests' final entry

at 4 or o'clock again had a diffic
w/ space - finally got settled in the
jr high speed which they don't use
at 4 or - sev studs were late - I men-
tioned the incident F concerning the jr
high benches & table. (Kenny Reed is on
l.c. so I did not dwell upon this
class's failure to help me but mentioned
Willie & Jerome who did help) - I
summarized the rest of the Azimov
article & we discussed it paragraph by
paragraph

The 4/45 - advanced class met in the same
place - I thr up the benches & table issue
but we did not agree on the order of
events, let alone full blame - the class
obviously had a bad attit, perh caused
by apprehension about their papers, &
resented me - Pete Sweeney saw what I
had written in my own ^(about them) notes & questioned
me - when I distributed the papers &
gave some of my comments orally & rd
from some of the papers, the class attit
appeared to improve somewhat - I reacted

positively to many of their suggestions about class activity. - I told them we cd start by getting poems by Victor Jara & other revolutionary meter.

X - Dick called I teach' meeting for 5³⁰ - he finished w/ math probs early, went on to Eng, saying we were going to have a mandatory curria for h.s. Long Ants classes. - the students know so little about the world sit = geo, economics, gov't, hist = that they cd not understand J's news broadcasts & were handicapped in motivation to the cause by their ignorance - we are going to wh on this sit by teaching world probs - we will have to meet frequently to have agree on what is taught in all classes - Does depressed not only because of the extra time that was being demanded but because there seemed no allowance for the teaching of emotional content

!! I think anyone cd send a ltr to me which wd not be noticed!!

!! During this class period of on the p.c. system revealed that cd have been in emergency in view of the kidnapping threats we have rec'd lately - he warned first of all that he had reason to bel an infiltrator was in our ranks & that conspirators might try to get ways in

cleared up - a later rider who rode from the
gate was that they had neglected to inform
the central area that a police Land Rover
came through - one of the studs in my
adv. class, Marwin Janew, a grey blk
man, who is a med. aspirant, was the one
on duty who had not fulfilled requirements.

Had bath & went through morn. routine
Last night all who had tape recorders
were asked to bring them in to be examined
& registered - all microphones had to be de-powered
& not used at present as tapes cd be made
by an infiltrator & perhaps smuggled out - no
recording is to be done until further
notice.

Later I announced that insuring the secur.
involving the tape recorders had necessi-
tate much changes which might damage
the devices, so he had decided to
keep all tape recorders for the time being -
meanwhile dig tapes of all kinds of music
wa be played over the p.a. system - he
hoped that people wd learn to appreciate
other types of music & get over their
liking for the decadent rhythms that were
prob designed to brain wash us & which
certainly do phys. damage to the ear drums -
my own belief is that the controversies
which have become known btwn those
who like the vocal tapes & those who
complain of them had prompted J to experi-
ment w/ dif ways of managing music in

my 2nd class, the advanced grp - I remarked that my eye might be the diff. - he sd that all 3 of us (he, Janin + J) suffered from being white intellectuals

Dick came to my 4th school class w/c map (states, gov & globe) & told the studs of the new prog. - sev were absent - those present incl. Yolande were entranced by the map & disc. of polit. ramifications - only Loretha & Billie Jones (to I certain extent) failed to follow all the time

I applied the new prog to the adv. class - sev. were out for diff. reasons - I told the class of the new prog - it had a good rep. - I mentioned that I had held out for allowing the class to rd bk on revolutionaries & as soon as I told them we'd sched. a partic. day for rdng - we spent the rest of the class period talking about news items, of which most of them I had a good grasp

successful.

At 1⁰⁰ the Eng tutors met w/ Dick in the
pavilion - Jason is doing the h.s. health &
safety course, & was excused - Dick, Shirley
& I discussed the currie for our remedial,
basic, intermed, & adv. levels, using the
Guy currie guide as an example - Dick is
going to do the intro - he gave Shirley &
me some pts & left us to work on the remedial,
basic, & adv., saying he wd do the intermed -
he later asked that we do the intermed, too -
Shirley & I whd about an hr & a half,
mostly putting into slightly diff. lang. the
items in the Guy guide by w/ Dick's sugges-
tions - Shirley left at 3⁰⁰ to take a shower -
I whd a while longer - we finished the
remed. & basic & I did some of the adv.
section - The Guy divide their secondary

knowl. of geog. - gave them their little
notebooks to copy the names of the continents -
most did this correctly but Willie Malone
didn't

In the second class I had Dorothy Buckley
rd her paper (a touching incident), I rd
x Mark Wagner's & Candace x as
examples of good papers - Dorothy acted as
chairperson for the giving of news items

During the class period for the p.c. system

Rilly dismissed 9:15

Soc Tchrs met - Bob Christian rd list of people who might be considered as new tchrs - 17 classes, plus 18 instd of 11 we have now - I don't have roll as Ben Jackson kept it - Bob assigned students to each tchr; taking off those who are "slow learners" - I was instructed to take roll, give a quiz, & determin. 27 I want to keep, giving up the slow learners who will be put in separate classes - people on the list for co-teacher assignments were asked to withdraw (those who were present) & were discussed - 16 teachers kept

I got to my cottage about 10³⁰ - Ann & Anitra were making curtains for their beds like Irene's & stayed up past the 11⁰⁰ lights out - I rd Subversive until they ready to go to bed about 11³⁰

Planned my classes

Went to lunch at 11:30

Went to adult riding class at 12:15 - J. was
broadcasting the news & we listened to it -
then proceeded w/ our riding & writing lesson -
* * attended today - they all show int'l & are
learning

At 1st instd of riding to my cottage &
getting a shower, I checked w/ Dick on the
curric write - up - I didn't find Shirley - I
finished the Rembrandt, Babine & Advanced
Lang Arts items - I had left out the Internal
Level, in which Dick sd we had 2 levels so
I rearranged & added items & wrote them
all - I then examined the bks we have in
the libr, as we had to give texts & resource
mater, listing first all the Eng bks we
have in the Lang Arts field (very few), then
back lit from both Greece & the U.S., &
then Brit. & Amer. novels, poetry, & drama -
it was a very hot day - I had not finished.

Went home & th a shower at 2³⁰

I was a little late for my 4th class -
strangely, they were quite orderly today -
we worked on listing & spelling correctly

(20) 8-2-3

(over) 8-2-3 (165)

the continents & a few other geographical concepts - I started to list the countries in Africa - Billie Jones is behaving better, Willie shows a gd attit.

In the advanced class we also wrote the names of the continents & listed all the cities of Africa, started finding their capitals - This class still talks too much among themselves, I feel still out of some resentment of one

Worked for help on how to finish the list of books for the currie & turned the draft in to Dick

When I ret'd to the cottage to change clothes, I hoped to teach the adult lang arts class, as I had been excused from the soc. scis mtg - I had made a tape of the news, & it was being broadcast - I did not make an announcement about the class, & by the time the news was finished, it was too late - I went to the back of & saw Dick who planned to type on the currie all night - he was coordinating the h.s. lang arts, math, & soc sci curricula & was includ- ing class descrip obtained from the work prog. directors - I offered to help type & he gave me the soc. sci. currie.

||| Cte dinner |||

||| I find that another bunk is being erected - the project of having more people in the cottage pleased none of the residents -

30 Mar - Th - 2

I don't know whether I can find a piece to type!!

I stayed on the currie from about 8⁰⁰ to 1130 - the other residents were in & out w/ children & men funds but I did not have too much to do - I put the t.w. on the bottom level of the new bed as the top level is not officed as yet

Th the currie in to the Bh Depos. - Tom was coordinating the elev. & jiv. high sections & they was working late on it - the currie is to be taken in on the plane by someone going to Geo Town - I heard Tony is going in & I suggest that I may be too x In the toilet I talked to Esther Dickson, who used to be Jo's housekeeper in the Valley - she lives next door to us in the cottage where Chris Talley used to be (Chris stays w/ the small animals now, I bel) - she inherited some cats Chris had - she talked amusingly about the cat who has some kittens she's teaching to hunt - she brings in live rats & dead lizards - one Esther threw a lizard in the trash & the cat reacted hostilely, moved her kittens across the way

Had bkfst & followed usual morn.
routine

The med. bldg is being repaired &
expanded - meanwhile prescriptions are
being dispensed in the dining rm & some
other med servs are being performed in
the pavilion

Made yests' final entry

Went to lunch at 11:30

Met my riding class at 12:15 - I was giving
the news (prob. a recording) & the attendance
was about the same - Chuck Beckman
who had spoken to me once about joining
the class - I had told him he wanted
him to learn to rd. came today - I find
that he can write a little & he
seemed to get some satish from helping
others, esp. Nancy Clay who gets exasperated
& unsuccessful efforts to form the ltr
175 in the beginning!

Went to the cottage, had my shower &
got my feet treated - my toe is healing
rapidly

When I got back to the cottage the women
came in to install the new bunk - they
talked of various arrangements, finally put
it in what seems to be the least incov -

(201) 5-4-65 (over) C-3-A-3 (168)

venient place = none of the other beds
had to be moved - I will have to find a
new place for my footlockers ³

I rd Subversive for a few minutes

I gave my 4th class a quiz on the
continents & I had brot in a no of
atlases, old & new, & asked each stud.
to write the names of all the African
ctys he cd find - then we will compare
old & new lists - Willie Malone seemed to
have the most table, not understanding
the maps & all - Betty Jones on the
other hand has been doing well on the
quiz the past few days - The class is not
giving me much table, etc that they
make too much noise

The adv. class went to the library &
selected bks to rd on their own for the
period - bks had to be checked in &
out by me - all selected a bk on some
aspect of liberation or rev. etc Mary
Jones who rd All Things Bright and
Beautiful by x Herriot

I have another bk to rd after I have
finished the one I'm on: Introduction to
African Civilization - I started on the
introduction

Beck called a 6^h ^{h.o.} hrs mtg - perh.
most hrs did not hear the announcement.

31 Mar - F-2

only Betty Finch & I came - I got my dinner plate & etc - the party had to be cancelled - I went home to prep for the ² ₁ the entire comm. the last few days has been preoccupied w/ news items because of the imp. being given to them: Jo prep news cards, posting of items, in the dining area, mum: people writing the news down from the broadcasts or from other lists & I don't hear the broadcasts clearly & have not had time to do any writing but in various ways felt I had gotten enough beyond.

// ✓ see entry //

The soc. classes have been reorganized & co-teachers assigned - lists of members of the new classes were posted - because Don Johnson did not do a class list, my class was not reorganized - people who were formerly in it were to come - I th. a class roll & will submit a list of those I wish to keep - not having a co-teacher appt'd, I persuaded Barbara Walker & Clare Johnson to help me - I gave a short written quiz & presided over the recitation of the news by the class members, while Barb. & Clare questioned them orally in turn of their knowl.

I, who had after all not gone to Geo's town,
for close pers. attention to the classes,
checked attendance closely - he personally
dismissed the classes at 9⁰⁰

I went home very tired - the reaction of
the other residents to the placement of the
after lunch was mostly one of relief - that
they had not been allowed more the space
too much blocked off

I had subversive a while, fell asleep on
it, having had a very hard day & wh-
day was also very tired - I went to
bed at 11⁰⁰

11/3 Tom Kice was in charge of the construc-
tion - he told me that we were going
to get more crowded when new people
come in as we do not have the materials
for construc. - however, we will event-
ually get bricks & more wood & con-
struction of housing will start up

Tom talked about what it was like
on learning crew - he sd he did not
mind the job - it was being lined up
& having to stand in line for everything
that was hard - only 3 mins each
closed for a shower - however, he sd
only I had the insight to handle punish-
ment so that one got the love, heh it -
phys. punishment used to be permitted on the
island perceived it was sometimes used & inflicted
