

JONESTOWN  
Port Kaituma, N.W.D.

Dear Claire -

Hi, how are you? Long time  
no hear. I have a lot of animals  
for you to see... you'll love it!  
Our latest addition is a barn owl.  
He's fluffy white with brown -  
tipped feathers and has huge  
yellow eyes. You'll love Berni, ant-  
eater too!

Well, Daren is gone off to  
Georgetown with Richard on  
the new ship. He was really  
excited to ride the ship. He's  
been coming to help me out  
in the animal dept. every day  
after school. He also takes care  
of the McCains and Tuccans.  
He's much taller now, and his  
voice is squeaky. Main isn't  
any taller, but she's much slim-  
mer and very pretty. She's very  
happy and loves working with  
the animals.

Marlene is still working in the school and is enjoying it too. She's also slimmer and so am I. The food is very good, in fact tonight we had sweet 'n sour chicken over rice, with french fries and greens. This morning we had pancakes for breakfast with hot syrup (just the way I like it).

Billy is running around here looking like "Fongie" with his hair greased down and combed back. He's cute though, and has developed quite a nice personality. Remember how shy he was? Well not no more, he's in to comedy these days! Jeff just graduated to highschool along w/ Billy and Daren. He works part-time in the baby nursery. He's really good w/ the babies.

Well, write back, see you

Soon,  
Love ya,

Chris  
Tally
