REQUEST FOR PURCHASE:

THE LIST OF PARTS ARE FOR PUTTING AN OIL COOLER ON THE ROUND TOP CAT TO COOL THE TRANSMISSION OIL. THE REASON FOR THIS IS BECAUSE THE OIL GETS TOO HOT WHEN WORKING AND WE HAVE TO STOP AND LET IT COOL OFF SEVERAL TIMES A DAY WHEN IT IS HOT OUT. WHEN IT IS COOL BUT WE ONLY HAVE TO STOP 2 OR 3 TIMES A DAY. TOTAL PRICE IS \$2,500 AT THE MOST.

Mike Touchette

MARIA KATSARIS  
GEORGETOWN PURCHASES-----23 March 78 ~~XXXXXX~~Thursday

*To: Maria  
(c.t. order)*

- PG#1 4 watering containers for the chichery. Ordered sometime back.. NOW THE NEED IS DESPERATE! *Need the day will get.*
- PG#2  $\frac{1}{2}$ # of .003 plastic, minimum 6 inch width or multiples thereof... a place galled GUYANA PLASTICS LIMITED, someplace around where they publish the chronicle --look up in phonebook. Is sheet plastic for our nursery. *Will chk on it, getting now*
- PG#3 Two tins (probably  $\frac{1}{2}$ #) of pruning or grafting compound -- is in a green tin. Can likely get it from Geddes Grant or maybe Bookers hardware.... *haven't found yet*

~~XXXX~~ GENE'S FRUIT ORCHARD PLAN CALLS FOR THE FOLLOWING NUMBER OF TREES: WHICH SHOULD BE BOUGHT FROM Georgetown. Since the quantities are substantial they should be notified now that we want them, and they should give us a delivery date. Total cost of \$141 for the trees.

- PG#4 220 grafted Avocado. 50¢ each. Need delivery date.
- PG#5 55 Sapodilla. 10¢ each. Need delivery date.
- PG#6 40 Golden apple. 10¢ each. Need delivery date.
- PG#7 55 Cashew fruit. 10¢ each. Need delivery date.
- PG#8 30 Mamee Apple. 10¢ each. Need delivery date.
- PG#9 30 Guava trees, for cooking. 10¢ each. Need delivery date.
- PG#10 100 Five Finger trees. 10¢ each. Need delivery date.
- PG#11 10# Purple top Turnip. TOO EXPENSIVE IN SMALL PACKAGES.. IF CANNOT buy in bulk, get about 20 packages here--and will order balance from the states. GROWS VERY WELL OUT HERE.  
*Can't find.*
- PG#12 5# Tampala Spinach.
- PG#13 5# <sup>none</sup> Cabbage, the KK Cross variety. or the tropical variety Dutch --is a very large head. Called Flat Dutch variety...  
*5 lbs*
- PG#14 5# <sup>5 lbs</sup> red cabbage  
*60¢ 1 lb*
- PG#15 5# Copenhagen Cabbage  
*60¢ 2 lbs.*
- PG#16 5# <sup>none</sup> Kahlrabi seed
- PG#17 5# Collard seed  
*60¢ 5 lbs.*
- PG#18 URGENT. URGENT. Need at least 8 packages of "HEADSTART" in powder form (mixes with 50 gals per package). Need to have this sent out with the baby chicks on ~~XXXXXX~~ Friday or Saturday, when they come out. HEADSTART IS A VITAMIN MIX FOR DRINKING WATER, AND A SUBSTITUTE COULD PROBABLY BE USED, BUT A DRINKING WATER FORMULA WOULD BE MORE PRACTICAL THAN INJECTION.  
*Can't find.*

MARIA: I will make a backorder list with numbers, and give them to you with a W or waiting #....so you will know is back order... --Tish

*PP-11-30*

RADIO INPUT -- GEORGETOWN  
information needed

-1-

.. Thursday, 23 March 78....

PLEASE--all feedback is to go thru Tish. IF YOU CONTACT others in agriculture to give information, or ask questions -- PLEASE ALSO SEND TISH A MEMO ON THIS so that it will be recorded as followup. I am beginning with this order and will be NUMBERING EVERY ITEM, as IG# for Information Georgetown, IS# for information states...PG# for purchases Georgetown and a PS# for purchases states....I WILL DELIVER TO YOU THE INPUT ON SEPARATE SHEETS OF PAPER....NUMBERED. In the responses, please respond to the input by listing the input number of the item. I now have an input register listem the item numbers and the dates I get feedback...with a cardex to followup on them. The analysts are asking for a weekly report on feedback, so this way I can give it instantly from my number charts... YOU MIGHT WANT TO MAKE UP ONE OF THESE as it will give you the same records.

IG#1-- WHO WILL TAKE RESPONSIBILITY to put special markings on the rabbit feed you purchase? We need 3 bags of it. The tags come off easily, and there is no way then to tell it from the pig feed, since both are pellitized. PLEASE USE A LARGE BLACK MARKING PEN AND EXPLICITLY CLEARLY MARK THE PACKAGES OF FEED.

*Consult, Sent 5 Marks.*

IG#2-- Please tell us who will take responsibility for this item. DAD DEMANDS WE LOCATE THE BULK VITAMINS, MINERALS AND ESSENTIAL PROTEIN FOR MAKING OUR OWN ANIMAL FEED. Dr. Fernandez recommends that we do this. The states has located a pellitizer for us... SOMEONE MUST LOCATE, either in Guyana, Trinidad, or in a nearby surrounding country -- where we can get the items in bulk... along with information for putting it together. We can then make some up and send it to Trinidad for testing... We need to determine WHERE THE THINGS CAN BE GOTTEN, AND WHAT THE COST WILL BE....Also, after you have that information, consult again with Dr. Fernandez and try to determine approximate quantities that we will need.

*De-ackemic*

You should at the same time go to the Guyana Feed company and find out what they put in their feeds, what the vitamin and mineral supplements included are, etc... A good PR couple should be able to get this. Might get letter of recommendation from Dr. Fernandez to them to get in there?  
*See into their feed.*

IG#3 NEED TO KNOW WHO HAS MADE THIS CONTACT....We are requesting someone there to contact pig farms to arrange for Tim Swinney and David Solomon to learn the technique for clipping the teeth of the baby piglets. Would like them to be able to watch the process... Please make the contact ahead of the boats arrival to arrange this if possible.  
*Mike C. made Contact, they to see Isikaba anytime this week*

IG#4 NEED TO KNOW WHO TAKES THIS ASSIGNMENT! Mention was made of a pineapple plantation just out of Georgetown that Evelyn and some others went to a while back --where arranged for us to get pineapple and coconuts free if we would come in and pick... we never got back to do it because of crisis. HAVE THEM GO IN AGAIN AND MAKE ARRANGEMENTS FOR US TO GET SOME, ALSO...TO GET AS MANY PINEAPPLE SUCKERS AS POSSIBLE FOR OUR PLANTING UP HERE. They could send people in just before the boat returns. With so many agriculture people in town will be good. Should arrange same for any other fruit available--to line it up just before the boat returns home. *It is long done.*

*pp-11-3D*

- IG#5 Need name of person taking responsibility. URGENT! URGENT!! We need the queen bees and the worker bees we ordered (3 queens and 600 workers)... Supposed to be 3 day delivery on them... CAN THEY BE ARRANGED TO COME OUT ON THE PLANE WITH THE PERSON COMING OUT WITH THE BABY CHICKS? *Mike C. - make*
- IG#6 *informed e. King & Lee office* Still awaiting the feedback on sugar cane. WHO IS TO BE RESPONSIBLE? Ask Guyana Sugar Co. (Guysu) if there are any varieties available that are immune to sugar cane borer and red eye... and leafy. Is for feed. Want to know best varieties for animal feed. What do they use in Cuba? etc., ~~and~~ where they use the cane for feed.
- IG#7 *getting yet.* Metaldehyde or Metaldex insecticide for slugs and snails. WHO WILL CHECK THIS OUT? We want the information on THIS SPECIFIC type of insecticide. Substitutes aren't working. IS IT AVAILABLE here or through Trinidad? If not --let us know so can channel it through the states. *Have here, have to ask Tish.*
- IG#8 Chris and Mauri are still waiting for Richard to contact the vet in town about the rabbits. Need to know about a mild antibiotic to put in rabbits water for prevention of any respiratory problems... Need amounts to use. Need for 9 rabbits, 6 mo supply. *Do I have to count this every time.*
- IG#9 Check both vets and find out if anyone there has the electromyoclinometer in vet. in oral form...6 mo supply. ASSIGNED TO WHOM? *NEEDS 124 x bottles - there is box of electromyoclinometer.*
- IG#10 Ask vet about vitamin supplements for rabbits. ASSIGNED TO WHOM? *What - vitamins for dog - human - rabbit? yet.*
- IG#11 In contacting the feed company, find out also what is in the commercial rabbit feed. What is its basis? See what we might do for making it here by adding required protein, minerals, etc.. WE ARE GETTING A PELLITIZER from the states we understand one has been procured, or offered us and we definitely want it.
- IG#12 We lost a little deer we had. For future information, contact the Zoo in Georgetown..ask info on deer--what the babies eat, etc what to give at 4 weeks, 6 weeks, etc. *Khanda F. got this, should have report.*
- IG#13 Ask at the zoo also: Can a zoo be located near piggery and chickenry? How far away should it be? Is there possibility of spreading disease between them? Please get the opinions of 2 vets also...let us know so we can evaluate. GET ANY BOOKS pamphlets, information, also... See if someone can take pix of zoo facilities (cages, pens, feed supplies, etc., also try to get a zoo manual...and medical information on zoo animals. Please send this information to the agricultural office, attention Tish Leroy. Who is taking assignment on IG#12 & 13? *Khanda open - has this and should have feedback.*
- IG#14 Ask Dr. McKenzie about any literature available on tropical rabbit farming. *Over, rain*
- IG#15 Can the rabbits eat pig ration or broiler starter? Will it harm them? What supplements are needed if the pig ration or broiler starter can be used? *over*
- IG#16 WHO WILL TAKE RESPONSIBILITY FOR GETTING THIS INFORMATION? Still waiting for costing information on the prices of:  
a) CORRUGATED ALUMINUM ROOFING --label how it is priced, by sq foot or? Also prices on tongue & Groove wood, and lap siding--and how priced, by board foot or square foot? *See if ready?*

PA-11-30

GEORGETOWN

MESSAGE TO EVELYN: What has happened with the rice millings? this is not the hulls -- but the germ and bran removed when they make white rice. We would like to get this for our family to eat, mix with rice and with flour. PLEASE GIVE US SOME FEEDBACK ON THIS... ARE THEY ABLE TO BUY THE UNMILLED BROWN RICE.. THEY SHOULD ASK AT THE MILL AND FIND OUT. THAT IS WHAT DAD WANTED. ALL OF THE B VITAMINS ARE IN THE MILLINGS. THERE IS PRACTICALLY NO NUTRITION IN THE WHITE RICE. THIS IS VERY VERY IMPORTANT!

PP-11-4

To: Maria Katsaris only

RADIO INPUT

from: Tish 7 March 78

-1-

- 1) Ask Kenard first and then Dr. <sup>fun</sup>Reed --what about the bug damage around the windrows. We get more bugs in areas of the windrows. What if we just contour plowed around the hill and did away with the windrows?
- 2) Have we gotten more welding rods for Charlie? Should order more since increasingly difficult to get. *yes - how much?*
- 3) The parts for the sprayers can be gotten from store ACROSS FROM CHURCH FROM BORDER MARKET. *Set.*
- 4) Enquire for us: is there an easier way to clean shark? Radio us some instructions, please. *Need to find out.*
- 5) Gtn to get a shark and weigh it: then take off head and remove guts and weigh again; see what difference is. CAUTION ALL GETTING THE FISH TO BE SURE THEY DON'T CHEAT US... *Yes*
- 6) Adrien Thompson's wife was saying our young trees are spindly and should be pruned (citrus).. We hear this delays fruiting for 2 years.. What do the citrus people in town have to say about this? *New, with.*
- 7) Has Dr. Fernandez been advised that the cattle we got are not good milkers --and that they might have been switched on us? Did he tell Wanda that they WERE GOOD MILKERS? *They are good (Guyana standards @ that price.*
- 8) Oramycin --powder for the chickens and livestock? Cost?? *\_\_\_\_\_*
- 9) What is happening with refund on chicks--that died?  
*10c free this time with 50 ~~at~~ every week when things get better.*

Maria

TO: MARIA KATSARIS  
RADIO INPUT —Georgetown AND THE STATES  
From Tish Leroy (Agric & Livestock)

- 1) Contact Dept Agric and others: People are building dairy herds on east bank of Georgetown going towards Tamari. They use mostly pangola ~~xxx~~ and Lacunta grasses. It is said these are better than tanier grass. Can you check and see if this is so, and if so, why? *Pangola is better but*
- 2) Evelyn and Jocelyn to contact Dr. Fernandez and find out about Pulmons Disease (commonly called Arizona disease). ?  
*McKenzie, we Tamar first then use pangola*
- 3) ARRANGE TO FLY THE MEDICATION OUT HERE FOR THE CHICKENS-- TRY TO GET IT ON BOARD FREE. NOTIFY US TO MEET THE PLANE. TELL THEM MEDICAL EMERGENCY.. OR SOME SUCH, IT IS THE TRUTH. The disease came in from the U. S.
- 4) Make contact with Trinidad and Granada. Find out how they handle erosion on their hill plantings.. CONTACT CAT PEOPLE IN GEORGETOWN AND see what they recommend in the various area.  
*Will chk but never get feedback from Embassies.*
- 5) Dad approved go to BETTENCOURT'S DEPARTMENT STORE in book section.. procure if you can --but get copy of EDIBLE PLANTS OF GUYANA.. is a yellow book, paperback 8 x 11. *New*
- 6) Literature on Newcastle talks about vaccinating and revaccinating at intervals --check with Dr. Fernandez and others and check and see how the commercial chicken growers handle this.  
*Sent in the info, have copy, flag.*
- 7) Tell them where we got the buckets that 18 of them leak. Try for replacement or adjustment. Will send the buckets back in on our boat its next trip into town. Out of 89, 18 leak... Get our money back. Talk firmly. *Got them replaced will be on a boat.*
- 8) PLEASE CONTACT PEOPLE IN GTN. TRY TO GET INFO AND BOOKS ON BEES IN THE TROPICS. Are there diseases or anything special should watch for?  
*New.*

--Get the following at Guyana Electric Corp. 1 ough Kearneys KS 26 100 ea. -L ASF American Wire gauge kearneys KS 22, 200 each. 100 clevis insulators for 2 ough wire or less.

PP-11-8

~~—GEORGETOWN—~~

Jocelyn--in re cassava tops. When you picked the ones that were good to cook, how did you pick...what leaves did you pick? Roughly how old the plant, and how many leaves from each plant?

Would you please go again to the chickenry in town and ask the person there about how frequently we should change the deep litter. We are using sawdust.. is this okay.. Is there danger bringing in contamination when you change it? or is there more danger of sickness by leaving in the same litter..the deep litter?

Wire-- We ordered the 3/4 inch square mesh wire for chickenry..was not on boat..when can we expect it?

AUREOMYCIN-- What we got is nearly used up. Should this be used all the time or just at times of illness...or... Please advise, and get another supply of this. It goes very fast, says Rob Gieg at the chickenry.

PP-11-9

[  
11-11-9

TO: MARIA KATSARIS  
3 February 78 - Friday  
From: Tish Leroy

RADIO TRAFFIC

Seeds:

4 tins @ 1/4# ea--Japanese Eggplant  
1/2# sunflower seeds; or 10 packets  
5# Creole Okra  
2 pkgs beefsteak tomatoes  
5 # Mustard  
5# Pok Choy  
5# Kohl rabi  
  
10' x 40' of 4mil plastic for garden  
2 tins of asphalt pruning compound  
5 gals. Rogor 40 for leaf minors

NOTE: PLEASE NOTIFY TISH BY RADIO WHO ON THE BOAT WILL BE CARRYING THE SEEDS, AND WHO ON THE BOAT WILL BE CARRYING THE INVENTORY OF WHAT IS BEING INCLUDED "ON" THE CURRENT BOAT. WE NEED A LIST OF WHAT IS THERE SO THAT ALL DEPARTMENTS CAN KNOW...

- 120 bags egg ration for chickens ONLY (you didn't give me for pigs)
- 110 bags broiler starter
- 3 automatic watering units (MUST have for new chickens)
- Need the de-beaker if available. Tim can check them out and get the most efficient one. We have lost chickens from pecking each other... Please do not hold up on this one again...

NO SEEDS CAME IN ON LAST BOAT... TO WHOM WERE THEY ENTRUSTED?????

States JJ said to get all sorts of books on tropical herbs --try to procure or get at very low cost. Not much call in states for them, so should not cost too much. Try gov't bookstore, 550 Golden Gate for gov't release and brochures.

States Ask Dad approved purchase of "Barefoot Doctor's Manual" for joint work of Dr. Schacht's herb committee.. Can probably phone around Sr to the dealers of nutrition books (health stores) and regular book dealers...

*Get Prices  
if have  
to buy*

Need some granite or earthenware or crockery pots to be used for making the herb teas --the aluminum cannot be used, affects medicinal qualities. Have Evelyn try to procure in Georgetown -- or bring down from states.. could be packed with some clothing. Label to herbal committee or Tish attn.

RICE BRAN--Ask Evelyn to try to procure rice polish or rice bran.. it could be a rich source of B vitamins for us..and added to our food. Also, if the place "sacks" rice, they might let us buy BROWN, UNPOLISHED rice from them. Dad has asked for this, and our folk can't seem to find it.. it must be available. The polishing takes off all of the b vitamins and main source of nutrition in the rice... Tell Ev to please get on this. Also, tell her to give us some feedback on availability of the bran..

Did they get the sack of sand and sack of cement..it was approved by JJ and was supposed to have been given Gtn already. Need it badly to make a sharpening stone for our tools in garden shed. Dad approved it!

States From used book stores (and if could get someone to go to Acres of Books in Long Beach--call first, only open some days)..get old books on the rfg. equipment of 18th & 19th century. We could mfr these here--tooling the parts and putting together ourselves.. Much of that equip would be good in case of holocaust--we could not make the complicated stuff, but could

*pp-11-10*

*Maria K  
Dad to clear  
the purchases  
just -  
thanks  
tt*

make the less complicated equipment of that era.. such as cotton gin, paper making methods and equipment, harvesters and farm equipment, steam generators, commodity factory equipment for "necessity" items... While we would not make the equipment now.. we should have the old books available in case we need it..later... These books at "Acres of books" range in price from 50¢ to 1.50..are VERY cheap. at that book store.

FISH-- JJ said he wants 5-6000# fish. Can sell some up here if we get it. (Maria --did this get on radio? said it that night to go on--someone was to send it over..)

Press for feedback on our querries re the pigs?

*Dad to be advised on this*

EARLY IN NOVEMBER we ordered 5 tons TSP and 5 tons UREA.. Since Dad has said we need to keep a 3 mo supply, these should be increased to 10 tons each and purchased now, even if we cannot ship now. They can store in garage in Georgetown. What is situation on this? Has the order been placed? Do they have some in Gtn?

States--Tell Rob Tarver we "MUCH" appreciate his efforts on the dairy collection. Needed it desparately... Keep up good work.

Someone in states needs to take on research projects covering light manufacturing methods --even back in 1800's that could be implemented here if times get tough -- on such as paper mfg., jute, hemp, rope mfg., freeze drying, soil testing.. a multitude of subjects we should be collecting. Tell CJ his spare time would be well spent collecting some of this -- and others who can do the research.. Tell him to get it free please --

Maria: Note all "library" markings must be removed from books & periodicals brought down here! So crucial as "someone" could be jailed for petty theft! In dairy material Rob sent was a L.F. library item. We cannot afford this type of economy - purchase or photocopy cheaper than attorney fees & a jail record - Code this but get it across - also have Debbie advise them in states -

Thanks -

Jish

P.S. Where is the collection of paid bills Debbie T. was to bring out?

PP-11-105

3. (cont.) gone, then discuss it with Mr. Gummie.
4. Go check on the three cows and calves at Mr. & Mrs. Sankar and also apologize for not returning the borrowed ropes. They live near the University, tell Evelyn where she took us and it is the place where we were going to drive the cows into the boat dock area but instead had to get a truck.
5. Ask ~~KAY~~ Corsby and I. C. Bubba if they vaccinate for any pig diseases and then check with two vets. The disease that I am concerned about is Swine Erysipelas. If so price the medication and its availability.
6. Check with the Home Affairs office and find out the laws regarding the branding of cattle and how to get a brand assigned to ~~KAY~~ u.
8. *Ask Dr. Fernandez & Dr. McKeown how long it will take to get the word*

Please check with Tim Carter about the Livestock Disinfectant that was ordered. - It was supposed to ~~KAY~~ have been ordered before he left as Maria's crew spilt all of ours. They are using it for fly control. We need this badly to disinfect our farrowing pens.

STATESIDE: We ~~hear~~ that Rob Tarver got some dairy equipment donated. We need to have some details on this so that we can determine if it is necessary to purchase the other or not.

Thank Dad & You.

Wanda Swinney

GEORGETOWN:

7. Price and check on the availability of Neo-Sulphentrin. It is a medication used for diarrhea in animals. Also price and check on the availability of Kaopectate. Want to compare using the two. *Price at Suddis Grant, UNTC, & Dept of Agric. (Dr. McKeown's office)*

*PP-11-11b*

Agric & Livestock -1 March 78

---

\* PLEASE ASK GEORGETOWN TO RESPOND on the issue of our seeds. WHY is there no cooperation on this. Seeds for our gardens are the crops that feed the family out here. We are low in vegetable production SOLELY AND SINGULARLY and ONLY because they have not been getting out to us the seeds we order. This issue is so serious that they cannot imagine it. We must have the seeds available to put in the ground WHEN NEEDED. We should get immediate feedback on seeds the next day.

The orders that were sent in with Ujara WERE NOT NEW. THEY WERE ALL BACK ORDERS AND WERE SO LABELED... AND SHOULD HAVE BEEN ON THEIR LIST IN TOWN UNTIL PURCHASED. Can I please have an explanation on why this is so hard to process? ~~XXXX~~ Why aren't we getting feedback? IF THE SEED STORES HAVE TELEPHONES, WHY CAN'T THEY ORDER BY PHONE THE ITEMS WE MUST HAVE, then have them picked up? By having to send crews to the bush to scout and pick wild greens, we use 3-4 times the labor to get the same amount of food, costing us phenomenal sums for what would be only a pittance when we have the seed and grow the food in our gardens. THE WILD GREENS ARE GETTING MORE AND MORE SCARCE AS WE PICK THEM.

- \* Maria--attached is list of blades and parts that have been ordered for Philip, on the tractors... Please check with Georgetown that they have this on followup.
- \* Maria--attached also is the BACKORDER list that went in with Ujara. I have deleted what portions came out on the boat--will you please re-issue this, since they apparently disregarded it in town..
- \* 94 Crates--Dad asked that arrangements be made to get the 94 crates off the dock and up here. Has this been done? Can we have the date they have scheduled the government vessel to bring it up.
- \* What happened to the scrap paper weekly pickup from the printer there? Also, the scrap material from the ~~fixing~~ place that was to be weekly? also the 40 agricultural bags per week we were to get and none of the above was on the boat! SHOULD PICK UP REGULARLY whether or no they get out on next boat. We could perhaps send in a couple of crates to be filled with these items--STATIONERY SUPPLIES PROCURED, and the FABRIC SCRAPS PROCURED...to get them back up here in good condition. IS CRITICAL to us to get the items Dad's energy field has set up for our needs. People will think we don't care when we don't pick up!
- \* Who in capital does Ramniryan have to contact to get us some Sorghum seed. He says he will write and get it for us, but doesn't know whom he should be contacting.
- \* Need more text material on bananas and planta'n and any books that might be available.
- 8) What was answer on Marax? We KNOW it is supposed to be given day after birth. But "can" it be given to older chickens who are healthy? Also we need it for our chick we will be hatching ourselves. That is why these now haven't been vaccinated that are here--we hatched them ourselves and didn't vaccinate.
- 9) Bees

pp-11-15

Phillip Blakey

*This is followup order - all has been ordered.*  
*ALL is presently on order in Stn.*

P2 11-166

RADIO INPUT 24 Feb 78 -- Friday

TO: MARIA KATSARIS

From Tish Leroy

RUSH ITEM PLEASE! *Need it on the boat please.*

~~X~~ We need 2000 of the small plastic agric bags -- in addition to the 1000 currently on order.

The bags run 3¢ and 5¢ each at Chin Cho's on Lombard Street  
Get us 1000 of each size; (you already had on order 1000 3¢ size.)

AN ITEM FOR RICHARD TO CHECK OUT AND GET US PRICES...

2) We have on loan from the government a planting machine. This will save us MUCH time in our planting. However, the machine needs repairs and a couple of parts -- and we will need some additional "plates" to go in the hoppers that let the seed down, in different sizes.

In looking thru catalog, Philip identifies the machine thus:  
Looks very much like the Massey Ferguson -- MF-37, which has 4 hoppers. Our is the same, but it has 2 hoppers. Philip says looks same in every way..

It is an older machine, do not know how old.

Was bought at GNTC when the store was "Sandbach Parker's" -- which was a Massey Ferguson dealer. After purchase, the government had it originally at Mon Repos, so they might have a record on it..  
(it is now broken down and we need a parts book on it, and an instruction manual if one is available.)

WAS PURCHASED ORIGINALLY FROM MASSEY FERGUSON INDUSTRIES, LTD., TORONTO, ONTARIO, Canada MGK1E3.

For purposes of identification: NOT FOR ORDERING

On plates, the number is: 488364 MI Hadrich

Disc below plate: #089074 MI

Driven sprockets: Large 20 tooth #440851 MI

Med 18 tooth #4E110

Small 11 tooth #3741 32-IN

Drive sprocket 9 tooth #3733

Rim -hopper

Bits on #689 11 4 MI

Auger 689 090 M2

Planter base 689808 MI

PRICES NEEDED ON THE FOLLOWING PARTS WE WILL BE WANTING TO ORDER..

NEED PRICES SO DAD CAN CLEAR:

- 1) Lost drive chain; only have one and need another.
- 2) Need another (have only 1) of large driven sprocket 20 tooth which is #440851 MI
- 3) Price also 2 each of the following plates for planting: blackeye peas corn, cutlass beans (like large limas), peanuts, mung beans and if they have any small plates for vegetables-price them too.

NOTE: TRACTOR METER ON NEW MASSEY IS NOT WORKING RIGHT. WE REQUESTED NEW

*given  
27-2-78  
# JP*

*PA-11-176*

one but they did not have it in stock at time. Check again, please, with GUTC and see if they have one in yet.

AGRICULTURE IS DESPERATE FOR SEEDS AND ITT'S STND IN.. THE NURS'RY BATS FROM CHIN CHO'S on Lombard are critical for us in saving plants and trees for our nursery. Tommy brought in 900 coffee trees seeds and we have only 200 bags.. URGENTLY NEED THESE BROUGHT OUT ON THE "CAT". They can make difference in our saving plants for our tree nursery.

At least a partial order on the pigfeed should be on the boat too.. and the rabbit feed.. Be sure to remind them to refrigerate vaccines and refrig. on the boat..

*9/11/76*  
DAD SAID MARIA TO CHECK DAILY WITH GEORGETOWN TO SEE IF THEY HAVE GONE TO GUY-CHICK to get the problem straightened out on the 153 chicks we lost? Will ~~gr~~ we get the replacements? Will they give us a cut in price for doing own debeaking, and own inoculations except for Marax and the one to ~~help them~~ relieve them of stress for the trip.

NEED RESPONSE ON THIS DAILY.. I will be back up around 4:30 to check on this --send word if you find out sooner.

REMINDER ON THE ADDING MACHINE...we are hurting for it.

Thanks,

Tish

*PP-11-176*

TO: MARIA KATSARIS  
RADIO INPUT TO GEORGETOWN  
Sunday, February 26, 1978

from: Tish

- 1) Tell Ujara to put prices on EVERY ITEM on the list. The town people should know it or have the bill, if they bought it..the farm people should know if "they" bought it. If procured, label it procured, and list the approximate value.. ALSO, PLEASE HAVE TERRY SEND OUT ALL OF THE BILLS. HAVE BEEN ASKING OVER TWO MONTHS ON THIS AND IT IS HOLDING UP OUR ENTIRE COST PROJECTION DAD ASKED FOR.
- 2) What happened to the PLASTIC FOLDERS FOR THE MEDICAL DEPARTMENT THAT WERE TO COME OUT ON LAST BOAT..OUR MEDICAL FOLDERS JUST DO NOT HOLD UP AND THEY ARE FALLING APART..I HOPE GEORGETOWN DID NOT CONFISCATE THESE--THEY WERE GOT ESPECIALLY FOR MEDICAL AND ARE VERY COSTLY. PLEASE GET US IMMEDIATE FEEDBACK ON THESE AND GET SOMEONE THERE TO TAKE RESPONSIBILITY AND HAND CARRY THEM TO THE MEDICAL OFFICE OR TO TISH LEROY OUT HERE.
- 3) Is the molasses for the cattle FREE or if a cost, what is it?

FROM THE STATES

Please give memo to ALICE INGRAM from Harold.. He needs his adding machine and typewriter. The adding machine could be packed in a crate coming down, and the typewriter should be hand carried as an ONLY ITEM.. If they have other stuff or another in-hand case, the person cannot carry the typewriter topside..they are only allowed one item topside that can go under seat from New York on because the plane is stripped to hold more seating capacity..and there is danger of flying objects if they can't be secured under a seat should they hit an air pocket, get in a storm at sea, etc. THEY ARE VERY RIGID WITH PEOPLE..

MARIA--the following medical list is also to go to the STATES..it was thoroughly researched by a medical team comprised of: Larry, Dale, Annie, Don Fields, Joyce Parks, Liz R., Renie, and I was there as advisor on ordering and indexing... Vernetta came a brief time and left..said had to go to another meeting.

IN ALL CASES they are going to the generic product over the trade names, as he ~~x~~ no doubt knows this saves a lot of \$\$\$.. One item, for example was 95¢ in the generic...the same item, and the same quantity in the trade name was \$35 and was an item our people regularly used... I felt they were critical of cost, and tried to be conservative in their costs, and conscientious in their evaluations. THE ATTACHED IS A REQUEST FOR A 6 MONTHS supply...of what we regularly need --and some we are getting low on.. so all of this should be gotten soon as possible. WE NEED TO BE TALKING TO THE GOVERNMENT ABOUT GETTING AN IMPORT LICENSE FOR JOYCE PARKS ON DRUGS AND MEDICATIONS...We cant get anything thru their store

ff-11-18

Agric/Livestock & Rally  
21 Feb 78

-1-  
2.22.78

R A D I O F O L L O W U P...

GEORGETOWN

1) REPEAT DAILY UNTIL WE GET A REPLY...

Chickens Lost 153 chicks; faulty debeaking..  
We want to do our own debeaking, and all of the immunizations but Marax..which must be done on day of hatching.

PUSH FOR A CUT IN PRICE.. What is the shot they give to help them make trip easier? What is the cost--let us know about this immediately. Want all of this settle before we get the next batch of chicks.

MARIA-daily follow up with Georgetown on this till get reply.

- 2) Dr. Fernandez -to research for us on yeast from cassava flour--check with him on this.
- 3) Ask him what "Larasipelas" is.. we know about Uricipelas.
- 4) 330 toilet seats.. can we well them in Gtn?
- 5) Maria K-get list of the stainless steel used equipment from our San Francisco Temple we want to bring down here to use in our facilities here--see if customs will let us bring in okay? CLEAR ALL OF IT AHEAD, SAID JJ. We need immediate feedback.
- 6) Richard check on the availability of flour and needed ingredients to operate the bakery we are considering. JJ must know immediately.
- 7) PUSH for medical and dental appointments for those coming in on the boat. RUSH and get them back soon as possible. Try to raise \$K; JJ would like to give Bobby and Joan a turn at home.

\*\*\* SPECIAL INFO TO MARIA: JJ wants to know exactly the P.R. contact made "each" day, as they are made.. must know exactly how much income each day as it comes in. Must have weekly balance on time!

8) Appeal to Minro..JJ is ordained to try to get him certified to do our marriages. Has been minister over 25 years..

FROM THE STATES:

- 1) Safety Glasses are needed for welding and machine shop work. Get them with clear lenses.. Jane Hutchman would know about this.. need something with protective sides on the glasses.. JJ said bring over as personal effects with the group coming over.

Repeat: Maria, sent you during rally last night memo to radio Gtn since Mother having meeting with Min of Agric today, 22nd, to ask him about getting us a LAND RACER BOAR HOB.

for your calendar: Dairy Court, July 3, 1978--reserved seat for us at the seminar..Dr. Fernandez visit..information came then.

cardyn? QSO's: Make index of call signals, professions & names..keep file there on file. PP-11-17

MARIA KATSARIS  
RADIO INPUT -- Georgetown

Feb 23, 1978 from Tish

Note: Maria, you have possibly gotten this al ready--but am putting it back through in case you didn't. I think Wanda turned it in-- Is most important for the livestock people to get as much as possible on the boat.

1) Pig feed	103 bags Pig starter @ 17.35 ea	1787.05
	108 bags Sow ration	14.87
	189 bags Pig grower	15.95
		<u>3014.55</u>
		6407.56

This is 400 bags, to meet the 3 mo feed-on-hand which Dad required be ordered. Wanda says the few bags on hand in Gtn are from another order, and should not be counted in this.

2. Get this from Geddes Grant or GNTC

Enough vaccine for 30 pigs (150-180# weight) and instruct amts. to use if it goes per pound, etc. How early should the baby piglets be vaccinated? etc. Dr. Fernandez can be called for this information.

Pig vaccine for Erysipelas  
" " Larasipelas

3) Equine Encephalomyelitis vaccine (for horse sleeping sickness) Get the three-in-one shot (Eastern-Western Strain) 4 doses; be sure ON ALL VACCINES to check the EXPIRATION DATES...we don't want any that isn't good for a while, though will use most of it relatively soon in all probability.

VERIFY THAT VACCINES MUST BE REFRIGERATED-- AND BE SURE IT IS REFRIGERATED IN TOWN AND ON THE BOAT. Thanks..tl

4) We are hurting for the 500# livestock salt, and the 500# trace mineral #105, the 4 containers 1 litre ea of Nilverm Wormer (prefer injectible but can use drench-try to get at least one bottle of injectible), 1 bottle nitrofurazone and 1 caustic potash stick for bleeding.. ESPECIALLY THE SALT & MINERALS.. THIS WAS REPEATED ON ORDER SENT IN WITH BOAT OF ITEMS BACKORDERED..

Dr. Fernandez suggested trying Geddes Grant and GNTC --if not avail, then go into latter store and order direct from Gr Britain..

Try for it at a discount as it won't be AT COST like the Dept. of Agric. is giving it. (TRY THERE FIRST).. Also, J. P. Santos carries other livestock supplies. Suggest talking to John Fernandez -- verify if that is the correct brother..said Wanda...

BE SURE TO CHECK AND SEE IF WE CAN GET THE MINERAL, VITAMIN & PROTEIN CONCENTRATES IN BULK --then we could use that instead of the regular feed..

5) 1 horse brush (Richard can select suitable type for our horses)  
6) 1 gallon of 2% formulin

pp-11-20

Agriculture & Livestock meeting  
Radio Traffic from meeting of  
7 Feb 78 Tues eve

To: Maria Katsaris  
From: Tish Leroy

- 1) Charlie gave you some information to get from Georgetown. Dad is waiting for followup on costs of 20 additional cottages, and bunks, and you are to get prices for Charlie on this from town. What has happened?
- 2) JJ said to radio people in town --what about the 35¢ fish? Ask about others.
- 3) Generator in town on dock awaiting repairs. Parts were to be gotten out of customs by the repair people.. What has happened. We need the generator desperately. Richard J. will check further on it when he comes in, but what is happening now?
- 4) Richard Janaro to talk to people in states and give them list of banned items. STRESS that it holds us up in customs!
- 5) Letter from Truck people in England was at our former address; check this address regularly for any mail that may go there. An invoice sat there for months, and we did not know it was there. The letter we are expecting is worth \$60,000 to us...
- 6) Followup and see if Gtn has checked with Brittain on the steam generator and on the trucks we have paid for. When will be getting them?
- 7) Has Gtn been instructed to send us out some cats to catch rats at the cassava mill?
- 8) Ask BR1 is our storage fee on the dock still deterred? or are they now charging us storage costs for what is being held up in customs?
- 9) Check with BR1 -when will next batch of chickens be coming in?
- 10) Tell Evelyn to carefully bundle the paper and rags or scrap material and send out on boat..Attention Tish--Give to Ujara to give to me.
- 11) Wanda said we need to vaccinate the pigs and asked for vaccine to be cleared, but we did not get name of it. Did she give to you? is on learnng crew.
- 12) Find out what McKenzie likes to eat and have something nice for him.
- 13) Need 1000 small plastic planting sacks, cost about 3¢ in Gtn -total of \$30. Can be bought at Cho Chin on Lombard Street, second floor.

PP-11-21

TO: MARIA KATSARIS

Radio Traffic  
Agriculture & Livestock

Followup as of Feb 14, 1978

GEORGETOWN

- 1) Information needed on the "leafy" variety of sugar cane for use in cattle and pig feeds. Where can we get the planting material, also.
- 2) Please call Percy Corsby; ask him about pipping of chickens: how early? Other info about chickens..

*Amount?* 3) Contact Mon Rapo --try to get some whitewash for our citrus trees.

- 4) PRICES NEEDED SOON AS POSSIBLE--Please phone on this.  
Corrugated Aluminum roofing \_\_\_\_\_  
Wood-tongue & groove \_\_\_\_\_  
Wood-lap siding \_\_\_\_\_

- 5) What is happening on rabbit food; have been out of it for over a month; have had on radio reminders several times...
- 6) Reminder--Serious when we don't get seeds, insecticides and Agric supplies. No seeds-will cause period when no veg on table for anywhere from 2-4 weeks! WHEN WE SAY URGENT on an insecticide or fungus problem medicine, it is because that problem is presently attacking our crops.. in a month, WE MAY ~~EXY~~ HAVE BEEN WIPED OUT ON AN ENTIRE FIELD.. They MUST respond on these emergencies. They are making value judgments without information when they ASSUME we are crying wolf...~~XXXX~~Snails are wiping us out because we did not get metaldex or metaldehyde..in the entire kitchen gardens. Failure to get other supplies causes equal problems..
- 7) China trade mission for info on nightsoil or human manure.. IS ON BRICKDAM, 1 block toward town from police station across street Also ask Dept Agric if they have any info on use of nightsoil
- 8) DAD ASKED US TO GET PRICES ON INSECTICIDES --QUITE A WHILE BACK.. HAVE PUT THRU SEVERAL REMINDERS. WHAT IS WRONG ON THIS.. Also must have the bills brought out or sent out (with Tim Swinney probably) from town. Is holding Tish up on both projections and cost analysis projections for farm which Dad has asked for over month ago...what is holding this up?

STATES: PLEASE SEND DOWN 10/2inch binders (3 hole) and about 3 reams of RULED 3 hole paper for Agric Office. We are starting some special notebooks, to register information and have nothing to keep it in. Also need 2000 3x5 cards. WHAT HAPPENED TO THE PRINTED FORMS FOR AGRICULTURAL DEPARTMENT WE SENT FOR JED DAD APPROVED... Should be hand carried down here..in a crate. MARK ALL ITEMS FOR AGRICULTURAL OFFICE, ATTENTION TISH LEROY. --Ask Betty to go to Argo Health Store--See about Buchu tea or berries or seeds...PHONE HEALTH FOOD STORE DOWNTOWN & SEE IF CAN LOCATE WHERE TO GET SEEDS. VERY VALUABLE HERB. SHOULD NOT BE VERY EXPENSIVE..

Thanks Much..

-Tish

ff-11-22

To: Maria Katsaris

From: Tish (Agric/Livestock Comm)  
15 Feb 78 -- Wednesday

RADIO INPUT TO GEORGETOWN

- 1) Please contact Joe Lambert at Guyana Marketing Corp and determine our marketing possibilities in Georgetown of Cayenne and Plantain.
- 2) There was an old sugar plantation in Gtn. See if you can get the old cast iron kitchen pots, utensils, for Jtn.  
Also, there is a castiron factory in Gtn. See about costs of having a large grill made for our stoves on special order; and if they have any utensils we might procure...  
See if there is anyplace in Gtn we can buy "grill" steel. Is a special non-porous steel that can be used for making grills.
- 3) Find out availability of buying vitamin and mineral concentrates that can be added to our foods.
- 4) Someone in Gtn go over to Dr Ferrands and stay there couple days at their chicken ranch; Dr. F. invited us to send someone... learn all they can about how to raise the chickens.. what they do...etc. how they feed.. write us up full report and send it out.
- 5) Please check out marketability of pineapple on commercial basis in Georgetown. How much could they use? price as it is now running..
- 6) Still awaiting prices on tongue and groove, lapsiding and flooring.. can you phone and get us the prices?

STATES: Please get us price on 200 egg capacity incubator.

WHAT IS HAPPENING ON INFORMATION RE BEE HIVES. WE HAVE LOST 3 swarms of bees we could have caught because we have no hives. --in one week last past.

-----  
What has happened on the following ordered and not received?

- 1) We are out of rabbit feed. What do you expect us to feed rabbits?  
Have been out a month and they are carrying young ones..need feed.
- 2) Please send out the black mesh netting. We need it. *Waiting for boat, also quantity*
- 3) Please send livestock disinfectant soon as possible. *Waiting for quantity*
- 4) Please enquire further about the herb, ~~xxxxx~~ buchu berries here & in states.. *stuff*
- 5) STATESIDE: SF was asked about 3 weeks ago to get info on additional wing bean seed. 3 sources were given: THE ASIA FOUNDATION, SF., A nursery in Homestead, Florida; and a nursery in Hilo, Hawaii.. Please follow up. The Asia Foundation is supposed to have seed ON HAND. Reference: Wing Bean Flyer, Volume 1, No. 2.

PLEASE ASK EVELYN TO TRY HARD TO GET US MORE STATIONERY SUPPLIES PROCURED FOR THE NEW AGRIC OFFICE. I. TELL HER TO SEE THAT THIS GETS ON EVERY BOAT COMING OUT--Either/and the paper and other supplies, plus the cloth she picks up. Send Attn Tish or Agric ofc. Tell her we need a pencil sharpener badly, more carbon paper for typing, and manila folders.

pp. 11-23

To Maria: -from Tish  
CONFIRMATION of Radio input to Gtn & States from  
Ag & Livestock meeting of 18 Feb 78

GEORGETOWN

- 1) Followup on 10 horsepower Jacuzzi portable irrigation pump which Richard previously checked out. GET PRICE AGAIN, and clear with Dad for purchase. Has been approved thru Agric Committee & Dad was present.
- 2) Cassava Starch-get info on who might take our cassava starch and refine it for use in bauxite. Can call the Bauxite Co in Gtn and enquire of them.
- 3) SODA POP BOTTLES--be sure they are filled to come out on boat this next time in. Also, if we have folks out door to door--can try to collect more bottles..since get filled free.
- 4) Need prices from Guyana Pharmaseudical on vaccines for chickens: Marax, Foul Plaque and Newcastle -does price change with quantity?
- 5) Contact Guy-Chick re last batch we received; 153 died; Dr visited here and said the tongues were broken and they had ~~FIXED~~ debeaked incorrectly. Carelessness..or person who did it did not know how..

Kenneth Chowgan used to own GuyChick and always made good.. If he is not there, try to contact him thru his brothers' place.. brother owns Redcone. Talk with him directly. Tell him about it--see what he says. We want another 150 chicks to replace those we have lost --we are trying to save the rest, but may lose more.

FROM THE ANALYSTS MEETING--for the Georgetown ofc

- 6) Ask Richard if the welding rods have been gotten. If so, send in a handful..we have equipment WAITING on it for repair..holding up some of agriculture.
- 7) PRICE ONLY, do not buy --procure if you can.. Need price on 5 gal hand (pump) sprayer for garden use.. Several of ours are down and can't get parts..if can procure any, please do it..
- 8) Richard, in your wanderings -- we are considering some horse-drawn plows, and prices on some teams of work horses.. Also if there is any horse drawn equipment "around.." ENQUIRE-- of course, procure anything you can get..don't buy anything at this time. Analysts are planning several years ahead.

PP - 11-24

FROM: Shirley Fields, nutritionist and consultant  
on the yeast making & animal feeds.

- 1) Can someone please contact Banks Brewery in Georgetown and see if they make their own Brewers Yeast and see if we can get any information on it.. Also, is it available to procure, to buy, do they have chemical analysis of the nutrients in it (particularly the amounts of the B vitamins therein...). We would especially like to make our own for our livestock..and for human use also..

Ask if it is used in making marmite?

- 2) Please see if you can locate copy of GUYANESE FOLKLORE DICTIONARY which has herbal research in it. Price if you can't procure it.
- 3) From Ministry of Agriculture, find out about securing wheat --unprocessed. There are supposed to be papers we can fill out saying we will not use for resale, etc.

Also, can you find out about BRAN.. both from wheat and rice.. the milling are separate, and we are interested in these for stock feed.. We want whole wheat and brown UNPOLISHED rice for our human consumption, and perhaps in our stock feeds.

We need manufacturers instructions yet on the following, with ANTIDOTES...

- Nemagon (Nematocide)
- Basudin 40 (insecticide) - *Important!*
- Metaldehyde or Metadex (for slugs and snails)
- Planavin (Herbicide)
- Phosvel E. L. 0-12,5-Dichloro-4-Bionophenyl-0-Methyl

BACKORDER: Asphalt grafting compound--2 tins. Some was bough, recently for the piggery. GEDDES GRANT OR BOOKERS HARDWARE might have it or enquire of the Curatrix office across from Ministry of Agriculture, FOR NURSERY & CHAIKIN. WE ARE WORKING HEAVILY WITH GRAFTING AT THIS TIME AND NEED IT VERY VERY MUCH...PLEASE GET IT ON THE BOAT IF POSSIBLE.

PGB015

*pp. 11-40*

PAPER...PAPER...PAPER... Need procured paper of all sizes. Please try to develop more than one source. We need it for our school and for the reports our family is doing weekly....All adults and children are doing weekly news reports and turning them in at their political enlightenment classes...We need the larger sizes of paper. Also need larger heavy type paper which can be used for maps, etc. Please make your regular pickups, BOX IT CAREFULLY....SO THAT IT DOES NOT GET WRECKED COMING OUT HERE....AND DO MARK IT TO ATTENTION AGRICULTURAL OFFICE, SCRAP PAPER.... SO WE KNOW IT IS PROCURED.

Radio Input -- Georgetown  
From: Tish Leroy

Thursday 20 April 78

-1-

PG 101 URGENT. Try to get on the boat home...1 box of 1/2 inch fine thread nuts. (Get at Guytrac. Must be regular caterpillar "hardened" nuts. for Philip)

PG 102 *URGENT* / 45 bags @100# each of cattle feed. (This is a back up so that we do not get caught without any feed if we should have to keep them in during rain and if we don't have enough hay. Feeding as a suplliment feed at night, this will last 90 days. Cost is about 18.00 per hundredweight. (cwt)...  
*on back please*

PG52--REPEAT--URGENTLY NEED THE 2% formalin... Be sure it gets on the boat coming back.

PG 103 6 small hand sharpening stones for Orchard department. (Need to sharpen the cutlasses, loppers and pruning knives -- maybe 2" and 3/4" -- both rough and smooth stones. I don't know if they are available in Gtn or not, but will not be expensive..is for Gene's crew.

REMINDER...We are desperately in need of seed for the garden area.... Specifically at least 2#mustard, 5# purple top turnip, 2# spinach, 5# chinese mustard, 5# chinese cabbage, 2# Chantenay Carrots... WE HAVE ORDERED A LOT OF SEED ON BACKORDER...BUT WE NEED THESE LAST WEEK IN ORDER TO KEEP FROM HAVING ANOTHER @ MONTHS WITHOUT VEGETABLES ON OUR TABLE!!!!!!!!!!!!

REMINDER...were you able to get prices on commercial quantities of sodium carbonate ( $\text{Na}_2\text{HCO}_3$ ) and Sodium Bicarbonate ( $\text{NaHCO}_3$ )

PGB 014 { 10# Nylon (polyethylene) twine for tying up our various items in gardens. DO NOT MAKE VALUE JUDGMENT AND DECIDE IS TOO EXPENSIVE.. WE ARE LOSING FOOD BECAUSE WE DO NOT HAVE IT!!! Need it to be about 1/8 inch diameter for planting lines. *We are having to use wire which is MUCH more expensive.*  
*buy at C.R. Jacobs. on water St.*

REMINDER... You were to get citrus information for us..what happened? Also needd marketing information on citrus.

REMINDER... Someone was to go to the Dept of Agric, or phone them...and ask when the breadfruit trees send out shoots...it is only one period a year, and we have asked severaltimes for someone to find out.. Or the government gardens would know...

IGB-001 INFORMATION BACKORDER...We asked about information on purchasing of CANS for a cannery...this would probably be #3, 6 and 10 cans.. or from 1 pint through the gallon size...Probably pint, quart and gallon sizes...Are they made in Guyana? Venezuela? AID puts out a booklet: Small Canning Facilities... What supplies for a cannery are available in the south american area? are the prices reasonable? outrageous?... as soon as is practicable...look at the imports from the ~~maxx~~ country of the newsperson that was recently out here... We need to begin finding out what is available from that source. Our friend mentioned this publicly.

PG 104 2 Pair Rubber gloves for when we handle and wash suckers in insecticides. (for Kutulas, bananas)

Re: Needed supplies

Not cleared  
No

There are several items from the Edmonds  
scientific catalog 761 that have value  
here in Jonestown school and community  
page 6 15026 Lift Ceramic Magnet  
# 42,318 @ 9.95

In place of Psychogalvanometer previously  
requested, sought, priced, ? if it was not  
purchased you may substitute Edmonds  
Sensitivity GSR Monitor # 72,150 at 159.95.  
The other approved item costs \$350. Probably  
better but I believe the GSR monitor to  
be adequate

Page 34 15 Perception Games # 71,162

I am in BAD need of a Good psychological  
Dictionary. PLEASE RUSH ONE HERE!!!

Perhaps you can procure some health  
books. We can use books on all levels but  
particularly levels 4-8. We need a  
minimum of 15 copies of levels 4-6 and  
30 copies of levels 7+8. We have nothing  
in this area.

Procure and send cigar boxes up to 50.

How is the acquisition of Crafts material  
coming?

We are now Peoples Temple Community  
school. We are respected and envied.  
Also, we are looked to for a sample and  
example. However, our crafts program  
is weak, weak, weak.

Also, an already approved Rush

PF. 11-42i

Dictionary of Psychological  
Terms.

11-42i

item, 4 months ago Dad sent Mike R out of  
service to put a Rush order for the following  
Photo supplies

Super R.T. developer, 10 sets of 2 packs  
16 black, screw cap, re-usable 35 mm  
film ~~canisters~~ cartridges

This is a short request.  
But the items are urgent.

Thank Dad, thank you,

Tom Grubbs

MEDICAL

PP-11-43

TO DAD:

May 12, 1978

FROM PHYLLIS & JOYCE PARKS

REGARDING: ORDERING OF MEDICAL SUPPLIES:

We had an emergency meeting of the medical staff members on May 8, 1978 to assess the needs for additional medicine and equipment. The list attached contains names and some prices of items most essential. There will be other surgical instruments not included on this list, added next week after correct order numbers and prices are received.

This list was given to Debbie Evans last evening over the radio and is awaiting clearance before purchase in it's entirety. Mother and Maria gave the O.K. for transmission last evening because of Debbie's work schedule. We felt it necessary to talk with her directly in order to avoid mistakes and delays.

May 11th, Mother has talked with you regarding the needs. This memo is being sent so you are aware of specific items purchased and prices.

We have given Debbie the O.K. to bid \$300-\$350 on overstocked items amounting to \$11,000.

Thankyou for your constant love and attention.

Joyce A. Parks

THINGS FOR DEBBY TO DO, CONTINUED:

Page Six

Get: Information regarding emergency tracheostomy set ups and permanent Jackson stainless steel trache tubes with cuff adapters.

CHECK TO SEE: If we have a biofeed-back machine in San Francisco.

CHECK: Into Anesthesia Machine.

RUSH: Go to blood bank in San Francisco on Masonic and get complete information about cross matching of blood, blood bags, reagents, and any other necessary procedures or equipment.

GO TO: Blood Gas Lab, 7th Floor ICU Unit, U.C. Hospital and try to get hold of Dr. Severinghouse (Inventor of the Blood gas machine Electrode Unit). Get all information-how much it would cost, how easy it is to maintain and repair, the availability of parts-or any suggestions on alternate machines that would be practical. (U.C. Medical Center).

QUESTION: What is going on with Cauterizing Equipment? If you don't think it's wise to fix it, get a price on a new unit.

---

We need a water filter before the water distiller can be installed. The water distiller we have is Barnstead, Boston, Mass/Sytron Corp. 10-5-78

---

ELECTRICAL DEPARTMENT

OSCILLOSCOPE-Hewlett Pacard is the best. If not available get the same type that John Hennecka has in U.S.

WATTMETER- Model 43 Bird Wattmeter "UHF" and "N" Jacks.

WATTMETER- (Has been ordered) 1 phase, 3 phase, 110, 220, 480 and 2400 Volts. 500 KW for all 1% accuracy.

FET TRANSISTOR TESTER-

UTVM VACUUM TUBE VOLT METER, ANY MODEL.

RECORDING VOLTMETER- GENERAL ELECTRIC

1 YEAR SUPPLY OF SCROLL PAPER

We need Schematic for all machinery manuals and trouble shooting guides. It would be helpful if the manual also stated what type of tools are needed and if any special tools are needed.

TO: MARIA KATSARIS  
PURCHASES --To the States  
23 March 78 -- Thursday --RADIO INPUT

- PS#1 Please go to a health food store in SF and get 2# of unsalted and UNROASTED(-- THAT IS NOT ROASTED AND NOT SALTED) pure, raw sunflower seeds... SEND THESE DOWN TO US. ALSO GET SOME OF THE
- PS#2 JERUSALEM ARTICHOKE tubers from either a healthfood store or the grocery store... Safeway sometimes has them, and so does the ARKO health food store Betty knows about down on Geary... we used to go there occasionally and spend allowance on kefir.. I recall they have both of these items. It is down in the avenue about 22nd Avenue on Geary.... 5#
- PS#3 Organic Chemistry by Morrison & Boyd-- they have this at the city college book store, or state... Contact Rob Carver.
- PS#4 Also need a good BIOCHEMISTRY BOOK.
- PS#5 We have been asking for some time for books on MAKING OUR OWN YEAST.... for the development of B vitamins in our foods... and in our feeds. Please consult with some specialists on this. (Maria -- MIGHT ALSO TRY ON THE QSO's FOR THIS...-- You might contact the wholesale vitamin people we used to deal with -- ENTERPRISE CO., see canceled check in the P. T. Co-op account.... also might have some info on it in the Co-op paid bills for 77... THEY BOTTLE THEIR OWN VITAMINS, so would know who to contact or whom we might contact...also, the biochemistry professors at Berkley and Davis might know... THIS IS A MOST CRITICAL ITEM.
- THE FOLLOWING IS A REPEAT...WE NEED FOR THE BEES...  
If it is already gotten, fine...if not...please get on it.
- PS#6 Two grafting outfits for queen rearing (est. \$10)
- PS#7 2 cell dipping outfits (for making our own queens); will use after hives get going and we find the best queens...
- PS#8 2 of the "supers" were cut incorrectly and we had to have them re-cut locally out of other wood. Parts were #20105 --2 extracting supers. (Please give credit on other items --gotten at Dadant Bee Ware).
- PS#9 MISSING FROM OUR ORDER: 6 spools 5# ea Foundation wire. (needed badly)....
- PS#10 MISSING FROM OUR ORDER: 1 of the 3 hoods ordered...so far, we have gotten none and we need at least one. Will eventually need all three and none came in the order. Urgently needed. Can train no one without this.
- PS#11 MISSING FROM OUR ORDER: 3 smokers. Must have at least one immediately --use them when bees swarming, and to get new hives of bees.
- PS#12 PROCURE. Did they get the message we DO WANT THE PELLETIZER? THERE IS NONE IN THE N. W. DISTRICT, AND WE WILL NEED IT TO DO OUR OWN FEEDS...when we add the multi viat-mineral nutrients, etc. Please give us feedback on this. IMPORTANT ITEM.
- PP-11-60  
(over)

Maria:

Gene mentioned that the Synanon people gave us a whole lot of the PVC pipe, and he told Dad we should take only 10,000 feet of each of a couple of kinds... but if we have the boat...we should take it all. What we don't use ourselves, we could GIVE to the government for their other projects and communes.... would be good for P. R. and in exchange, perhaps they could pay the fuel to transport it down here--or part of the fuel.... Is likely a banned item since the government manufactures it... however, as we spread out over this acreage -- possibly we could use a lot more.... AND, CHANCES ARE, IF WE COME IN WITH OUR OWN BOAT...THE GOVERNMENT WILL NOT DO SUCH A THOROUGH SEARCH OF THE CONTENTS...AS THEY WOULD IF IT CAME THROUGH A COMMERCIAL CARRIER... ESPECIALLY IF WE WERE RETURNING TO GET THE REST OF OUR "PERSONAL" BELONGINGS.....

We should maybe find out the canal costs....for taking our ship thru Panama....in case we would decide to go around to SF...or if the costs are too much greater than the costs of shipping across country to Galveston or Miami....then we could of course forget it.... We were in fact getting a pretty good rate from that commercial trucker....so might be cheaper than taking our ship around...also, the less time we spend in U. S. waters, the better I would like it...might be better to go into Miami and stay closer to Cuba..... You might mention these possibilities to Dad...though am sure he likely has the best strategy already worked out on this in advance.

---Tish

PP-11-60b

On hand , in back yard warehouse.

240 lbs red clay, molding, in brick size cylinders, not for children ✓

~~10~~ rolls plastized wall paper, 48 inch rolls (used) dia, left  
on rolls varies from 4 to 8 inches, varies in color and texture

2 outdoor lamp cover and reflectors 3 inch hole top and 24 inch sp  
spread, suitable for outdoor sports. ✓

21. 3 stainless steel chests--39x20x24"--20lbs. ea. #31 ea  
vermin proof with locking doors--6" CASTERS--provisions for shelves

22. 2 stainless steel warmer chests  
1 28x57x22"--vermin proof, missing heating element 100lbs.  
1 21x70x31--same as above 90lbs

23. 1 pearl diving unit(sink) 118x32x26--150lbs  
This unit has a front, back and sidesplash, a double sink ea,  
20x26x12", a faucet and some plumbing, a plate cleaner with a hole  
for a trash can, and a water nozzle on side.  
Should we cut this item up to send it as it is very long or  
should we make a special crate for it? Our crates are now designed for  
maximun utilization of the trucks shipping to Fla.

24. 10 truck tires for the multifuel never shipped.

25. 3 colemann chests 16x22x13-2 wont lock shut, other has broken lid

26. 6 thermador electric heaters left over from la apartments  
ask Chris Rozyngo.

27. 4 tons joint compound for drywalk construction in 50lb  
cardboard and plastic containers.

Thank you for your time and cooperation

David Gallie

States - page 2

A. In re the Bees -

- ① 2 grafting outfits for queen rearing (<sup>stands</sup> 10<sup>00</sup>)
- ② 2 cell dipping outfits (for making queens)
- ③ 2 of the "supers" were cut incorrectly & we had to re cut them out of other wood - They were # 20105 (2 extracting supers) Please give credit on other items gotten at Dadant Bee Ware
- ④ Items in our order that were not here - need them :
  - 6 spools of 5# each foundation wire
  - 1 of the 3 hoods ordered
  - 1 of the 3 smokers ordered

⑤ Need info on making yeast cultures + vitamin development in them - ask Rob Sawyer to research this.

pp. 11-64

Subject: getting Herbal information and sample seeds from the states. Also Botanical books from UC on what is indigenous to this area. There are herbs which we can plant if we can get the seeds.

From: Bette McCann

List of Herbal Stores in SF are listed below:

Natures Herb Company  
281 Ellis Street  
SF,  
Catalogue 10 cents

Golden Gate Herbs  
P.O. Box 9 77212  
SF, 94107

These stores will have catalogues and herbs for sale. Maybe we can procure sample seeds or get them for planting. See if it is possible to talk directly to Betty.

Seeds requested especially are: Buche seeds, Flaxseed, comfrey, lobelia. There are others which we are investigating. Also we can ask

Betty to get Botanical books at UC on Botanicals, especially of Eastern South America. This could also be at Berkeley. This is very important as we would then know what we can plant in the way of herbs which are indigenous to the area. There are herbs that we can grow here for medicinal purposes which are not available here yet. High priority in my opinion and of necessity. We may be able to sell these preparations at a later date.

AP-11-65

- 1) 3 bundles of shovels in shipment --which crates are they in? are they down here or somewhere enroute?
  - 2) CAN YOU LOCATE BOOK ON PRESERVING AND TANNING FISH HIDES..PARTICULARLY SHARK. We have a lot salted down and don't know how to tan it. Where can we get tanning solutions? Can we make them or what?
  - 3) Need more books on herbs, with dir -- PARTICULARLY DRIED TROPICAL HERBS.. AND MEDICINAL HERBS. Also need books on extracting the components from herbs and making into lotions, elixirs and ointments.. PERHAPS SOME "OLD" pharmaceutical books on PROCESSES, chemical preparations, etc. Might get some ideas from people at Stanford or Berkeley? Betty McCann might have some ideas on this...
  - 4) Need more books on bees. One on Queens is good--need others on bees..
  - 5) Veberinary Therapy Vol VI good--but on small animals; need also on Cattle, pigs, horses and goats...
  - 6) RESEARCH PROJECTS FOR US ON WINDMILLS, systems for hydrolyzing water to make hydrogen gas with electricity--probably Stanford or Berkeley should have some of this info. We are seriously considering the windmill as source of electrical energy..see what you can find in papers
- 1) Order 300 large 3 gallon water buckets, good quality. Have Andy try to procure them if he can. Must have the buckets. Dad said you order thru--tell Andy try to procure.
  - 2) Need books on bees --especially anything on tropical production of be. .

However, would appreciate your trying to locate the following books and literature on bees: (some are from journals, can locate from readers guide indexes at the library)

- 1) Leidlaw, Harry H. Jr., 1932, HAND MATING OF QUEEN BEE'S  
American Bee Journal, 72-286  
TO SPEED UP PRODUCTION, WE NEED TO DEVELOP MORE OF THE QUEENS...THERE ARE SPECIFIC WAYS TO DO IT. This article is recommended in one of the books.
- 2) Watson, Lloyd R., 1927, CONTROLLED MATING OF QUEEN BEES  
Hamilton, Ill., American Bee Journal, 50 pp, 11 figs.
- 3) Quinn, C. W., 1923. HAND FERTILIZATION OF QUEENS  
Bee World, 5:75
- 4) Nolan, W. J., 1932, BREEDING THE HONEY BEE UNDER CONTROLLED CONDITIONS. U. S. Dept Agriculture, Tech. Bulletin #326
- 5) Nolan, W. J., 1937. IMPROVED APPARATUS FOR INSTIMATING QUEEN BEES BY THE WATSON METHOD. Journal of Economic Entomology, 30:700-705

To: Maria K.  
RADIO INPUT --from Agric & Livestock 1 Mar 78

IN RE BEES...

Input to Georgetown.

- given  
2-28-78  
to LK*
- 1) Is there a "Beekeepers Association" in Georgetown? Ron was told by someone there, when he first arrived, that there was.
  - 2) Can someone phone Dept of Agric and see if there are any hives or foundations available "anywhere" in Georgetown or in Guyana? Ask also if there are diseases to be concerned with.

(WE HAVE CAPTURED TWO SWARMS OF BEES, and hope we can hold them.. may lose them if do not get a hive. Ron is trying to save them. Has them in a box that he "hopes" will hold-in the queen bee.)

INPUT TO THE STATES 1 Mar 78

To Jim Randolph: In response to letter that came with Buford..

- 1) 3 beekeepers hoods @ \$19.46 ea 53.38
- 2) 3 bee gloves. @ \$6.11 each. 18.33
- 3) 2 smokers @ \$7.88 each 15.76
- 4) Three sets of #4--complete hive incl body at total of \$57.03 each..... 171.09
- 5) Six 5# spools of foundation wire @ \$7.24 ea 43.44  
(This is for 7000 ft. Note that the same quantity in the 3# size runs \$17.73 for 7000 ft. Much cheaper this way and keeps indefinitely.)
- 6) included in #4
- 7&8) Received only ONE book --from Buford on Queen bee..who has the OTHER book or books?
- #9) 2 elec hive knives @ \$25.20 each 50.40
- 10) 1 12-frame honey extractor that is manually operated. IS MUCH STURDIER THAN the electrical one. This one will last for many, many years...as long as we need it. 400.00
- 11) 150 sheets of hive body foundation 89.63  
150 sheets of shallow super foundation 90.08
- 12) Press for making foundation sheets.  
Ron is aware of the process. It is MUCH CHEAPER to use the foundations. You save your bees a lot of work. Takes 5# of honey to make 1# of beeswax.. then you have great loss of time in production.. WE COULD PROBABLY make the hives after we get ours going, and with the supplies, could thereafter help govt. with theirs..

*PP-11-68a*  
*over*

Ron says the hive the govt has at the government farm in Kaituma is very antiquated, and they get minimal production from that type of hive. They destroy the hive when they take the honey.. not so with the hives we are requesting. We will get much HIGHER quantity of honey with our setup. Very small 3oz jar in Georgetown sells for \$1 so could be very profitable, for the future.

The foundation press costs \$900.

ON THE DISEASES--medications for...we will request information from Georgetown to see if there is any information on this here. At this point we do not know if it is a problem. IN THE EVENT these three might be contracted from the humans caring for them...then we would need the control measures. WILL PUT THERU ADDITIONAL R INPUT TO RANDOLPH ON THIS in next few days.

--Tish

89-11-608

Maria K

INPUT FOR THE STATES  
from Agric & Livestock  
1 March 78

- 1) Need books and information on BANANAS & PLANTAIN from the states.
- 2) NEED TECHNICAL BOOKS on "chemical processes" and machinery for making such items as paper --push on this one please; for manufacture of cloth from cotton.  
  
NEED TECHNICAL BOOKS on 18th century manufacturing equipment -- some may be found in the historical sense of saying what they used to do as against the modern technology.  
  
"PLEASE" send someone to Acres of Books in Los Angeles while we still have someone there...to search for any MANUFACTURING EQUIPMENT BOOKS for things we might need:  
  
Canning, harvesting equipment, planting equipment, book binding, making of rope, manufacture of iron, steel, tin, ALL INDUSTRIAL TYPE manufacturing that might be useful in the future --at a time when imports might not be available due to non-existence of former sources.. (holocaust --but should not be worded this way)...
- Pauline Groot in this a.m. and thinks we can develop method of making paper..so need books on the CHEMICAL PROCESSES for making paper, but prefers a book dated 1930 or prior so that modern technology is not involved.
- 3) Re the Wing Bean Seeds --Tell Randolph we have been requesting since November; tell him handle the same way he did the others...
- 4) If AJ hasn't left yet, maybe he could get the sorghum seed..again.
- 5) Also, we need COTTON seed. We had some growing here and some fool plowed it under without consulting! It was doing well! ALSO NEED BOOKS on mfr. of the early cotton gins.. and prices on what we could get now ourselves, at least expense..
- 6) ROMA TOMATOE SEEDS, BEEFSTEAK TOMATOE SEEDS, several varieties of carrots..
- 7) See attached sheet on "Bees"

PP-11-69

MARIA:  
from tish

RADIO--Stateside

Supplies needed here:

- 1) Urgently need my paper cutter from accounting office. Tell Randolph we have nearly 1000 people here and not one in town... WE NEED IT and he can use the one that was sent down from valley. Send the large green one here!
- 2) Padding compound --get this from Clancy for making tablets.
- 3) Pads of 11x17 plain paper --about 1000 sheets.
- 4) 3 hold notebook paper-ruled (cheapest at Pay'nSave or thrifty drugs (Ukiah has one).. can get very cheap or clancy can get very cheap at ~~the~~ paper houses.
- 5) 11" typing paper, and some colored stock: pink, yello, green, blue --16pound is okay..cheap paper.
- 6) Need badly 11" manila folders (letter size) several hundred
- 7) Need at least a dozen 3 hole notebooks for Agriculture.. --the looseleaf binders: 1½ to 2 inch capacity.
- 8) Steno pads
- 9) Some cheap-cheap ruled tablets.
- 10) TELL CLANCY TO PRINT UP SOME OF THE FORMER PC SCHEDULES WITH SEVEN DAYS A WEEK ON THEM AND SEND DOWN --we are using them again for some of the group.
- 11) 3x5 cards --need around 5000-10,000
- 12) Need some of the gooseneck or bending lamps like I had on desk in states.. was an ~~orange~~ one upstairs on 3rd floor..need for dentist work.
- 13) Betty-contact technical book store: there is a book on "Radio Electronics" -comes out of England --get price on it for us.
- 14) 5 boxes carbon paper for typewriter and 1 box pencil carbon

PP-11-70a

TO: MARIA KATSARIS

FROM: TISH --Larry approved all Med & Dental items.

1) LARRY SCHACHT SAYS "PROBABLY GET FROM STATES"

We do not have too many snakebite kits <sup>1</sup>--should get some more. Have only 15 -- They are having a lot of bites at Kaituma because of the long dry... Dad warned us about it.. Possibly order another 20 kits..

2) NEED "GOOD" DENTAL TOOLS.. Urgently need some forceps for pulling teeth. Larry says they would be a vital emergency tool to have.

3) Need more books on dentistry and especially on DENTAL SURGERY.. Might be needed by Larry. Shonda knows what is needed, but he'd likely have to do it.. Larry agrees.

ROB CHRISTIAN IS ASSIGNED TO DO SURVEYING -- HE HAS NO PAPER... Following are the supplies he needs. Should be brought down soon as possible.

1) 1 roll 24"x36" graf paper, 1/16th inch squares, 200 ft roll

2) 6 mechanical pencils for drafting lead

3) 3 pkg each: drafting lead sizes H, 2H, 4H and 6H

4) French Curves -plastic drafting tools what size?

5) Rulers & T squares--small selection what size? Aluminum or wood

6) 500 sheets 24"x36" drafting paper, 16 pound weight

ALSO--ask Andy to contact blueprint shops in SF and LA (maybe Ruby Carroll's daughter could contact in LA..but ask for donation of blueprint equip (large size used for drafting). He says it is a long, thin unit sets on a table top --like the process on the old town copier..it is a solution type developer on sensitized paper.

GEORGETOWN--we will be having enough peanuts coming off in April for our use--send someone to the Omar Peanut Butter Co. and check out the steps they take in making the peanut butter--how long they cook it, etc.(the peanuts before grinding them, that is... Thanks. Tish

PP-11-70b

To: Maria from Tish

STATESIDE RADIO TRAFFIC

- 1) From Analysts: please send down some designs for wagons or buggies; you might get book at library and photocopy some ideas for these. We are "considering" some alternate forms of transportation besides the tractor to conserve fuel..The wagons or buggies would be horse drawn.  
We are also interested in information on horse-draw cultivation and plowing equipment.
- 2) Information and pricing needed on: Orchard irrigation equipment, a sprinkler-type system with hydraulic hose and pump. It has a plastic type hose, and you "walk" the equipment around.  
Books like world crops might have the information.. or contact County Agricultural officers, or U. S. Dept Agriculture, local branch; the local farm advisers might help -- or any of the counties that have a lot of orchards..usually they would have a few brochures on these types of things.
- 3) We are concerned to learn more on manganese production. Ask Jimmy Ingram if he collected information on this as he told Jack Barron he would do.. Knowledge of making molds, forms, etc.. Also need information on mining and methods of refining. Someone in L. A. might be able to go to Acres of Books and get some of the earlier methods -- but at least one book of late vintage should be collected. Radio us price before buying unless is used and cheap.
- 4) Information needed on making cement from quick lime. Don Beck can perhaps research this at Berkley (also on the manganese)..
- 5) Need also information on tanning "fish" hides.. We have some sharkskin and would like to know how to utilize the hides..
- 6) Dad said to buy THREE (3) of the incubators, 200 egg capacity as I understood it.. on the special "deal" someone there worked out.
- 7) What happened on the procurement of the 35,000 egg incubator? We heard it was being procured in S. F... what happened????  
*4<sup>plus parts</sup> for the price of 3 that we ordered - 16' long x 8' x 7' high  
20,000 ea. \$1500. Twice as large as a crate. \$1500 ea  
to send.*

1) Plastic Chart folders

It is our understanding that there are 500 plastic envelopes or folders, 8 x 10, which we need brought out immediately, please.

STATES: Also if there are 500 more in states, please see where they are and have them brought down with Buford. We are desperate for these -- like poste haste, and desperate.

2) Also, can you have brought down with Buford the following -- Clancy should be able to get it at wholesale. We need it immediately as we are re-organizing entire filing structure and procedures.

*35<sup>00</sup> = 50<sup>00</sup>  
3.75*

→ 2000 Acco fasteners, standard base -- or 2 3/4 inch centers *(last for years)*  
→ A punch for this base -- will be needing it on thousands of sheets of paper, subsequently... Accounting and law office both use these; perhaps they could share one and send the other down.

*est.  
@ .70 ea large  
roll*

→ 12 rolls 3/4 inch mystic scotch tape -- does not bleed and is about same price. Clancy gets it at high discount.

3) Accounting, Agriculture and Medical all need some colored stock -- 8 1/2 x 11 paper.. Pink, green, yellow, blue and of course white..

*3 cases  
about 55 total*

Tell him we can use the cheapest sulphite paper, but to get some down to us. 1/2 case of each for starters. His cost should be around (.10-12) per case... of 5000 sheets (10 reams of 500 sheets each).

We are sending thru a medical printing order, after Dad sees it -- will be very simple, but should save us in time and money for other supplies that will be saved thru more efficient medical care. Dad said write up order and pass it by him..he was at meeting today.

*@ 60 ea* (4) Also need more liquid paper and thinner -- and type writer erasers.

Georgetown: Ask Evelyn to try and procure any and all office supplies that she can -- particularly paper, carbon, scotch tape and paper clips, etc. Printers sometimes have paper we could use also... Newsprint would be fine for some things..

5) STATES--Tell ~~XXXXXXXXXXXXXXXXXXXX~~ Betty McCann we have an urgent need down here for my paper cutter I left on the safe in the S. F. accounting office. They have another there that came down from the valley that SF can use.. but send the large one I left down here. PLEASE CAREFULLY WRAP IT, AND PUT "TISH ONLY" on it. I will not be using it personally, but want to see it is centrally placed for a lot of us who have need of it, including medical department, school, agric. etc. Priority is definitely here, at this time. They do not have the need there that we do here with NONE in Georgetown --and all the folk here. Tell Betty to shriek, cry, emotax or whatever she has to do to get Randolph to part with it. It belongs to accounting and not to his department, and we want to share it with everyone here who needs it!

## Check list from States for Chaikin:

① Wing bean:

San Francisco source

Hawaii source

Florida source

② 6 pomegranates (before they are totally out of season)

③ Vitamin B solution for plants  
Industrial Iodine for disinfectant

④ Material to shade plants  
Copyrighted trade name is Saran.  
Ask the county agricultural officer about it  
where to get it.

✓ ⑤ Black bean seed & pinto bean seed -  
both ordered for January delivery - what  
happened? Buy at Seward in 2 lb packages.

✓ ⑥ Budding twine - maybe 2 lbs

✓ ⑦ Fig tree cuttings - to be cut during winter,  
ends dipped in warmed paraffin and flown down -  
they can get them at the ranch. Cuttings should  
be 4-5" long, at least  $\frac{1}{2}$ " in diameter and we  
would like 30 to 40 of them. - Self-pollinate

2 ea Bottom roller for a speed queen wringer, model#D79013  
Serial#X626919.. It might be necessary to purchase 2  
since the other one tore up very easily. \$20.00

NOTE:

*cleared*

(I ordered an INTERNAL-EXTERNAL GROWLER for motor repair  
and was sent an external growler --which I already have  
on hand.. The internal-external growler is very important  
for checking stators in electric motors. It costs approx  
\$70 in the McMaster-Carr catalog the #is 7275R11..  
The external growler is nice to have just in ~~xxx~~ case the  
other one goes out, but I still need the internal-external  
that was ordered. Thanks so much, and can you please rush  
on these parts. --Ray Jones)

1 Dowell maker 450.00 (approx)

While in SF it was requested that Ken buy 250,000 dowel pins at a cost of 1320. Have since located a dowel maker that is used in conjunction with the lathe we already have. The total cost of all equipment and necessary accessories will cost \$450.00 or about 1/3 the regular cost. We will be able to make dowels as we need them... 6 different sizes, simple design and durable. The dowel pins can be used for chairs and stools, clamps and gluing presses, axels and wheels for toys, broom handles and much more. It will make our work faster and more professional. Should move quickly on this so as not to lose it.

1 ea. Carbide saw, 10" 10 teeth, flat top tooth style with 10° alternate face bevel, 5/8" eye, standard plate and kerf.

\*We want to experiment with this and the following blades - to see what is best. We have had trouble with blades on the wood we have here and we are trying to isolate the one that will wear the best.

~~U.S.~~ \$710.00

~~U.S.~~ U. S. EMERGENCY ORDER

300 ft. Coax cable R 6 8/U approx

\$40.00

Antennae - 2 ea. 6 element, triband beam Q350.

700.00

\$710.00

Note: We need 300 ft Coax cable for antennae feed line. We have about 50 ft left. If something should happen to the coax cable here or in Gtn, it would stop communications with the states. As we have no replacement transmission line.. we also need a back up antennae for Georgetown and Jonestown. Electrical storms are frequent here and a hit by lightning would destroy the antennae and possibly the coax cable... or, if the antennae blew down, etc. You cannot get coax cable or the antennae we need in Guyana. It will have to be bought stateside. The approx cost is above.

12	Weed cutters *		5.00	60.00
4 sets	4 cutting blades	Cerona # 82 or for Felco #2 Hand Shears		
	<del>Shears</del>		EST. 30.00	
1/2 dz.	Springs to fit Cerona # 82 or Felco #2 shears			
		TOTAL		

Est 90

NOTE: IN THE SEYMOUR HARDWARE CATALOGUE.....

 *Don't get the "L" shaped one! Get one with serrated blade with an inverted "U" on bottom with attaching it to pole.*

\*Seymour Mfg. Company  
 500 S. Broadway  
 Seymour, Indiana 47274  
 Ph; (812) 522-2900

Seymour # 20 Serrated Edge Weed Cutter  
 Cutter is made of high carbon steel with a blade about two inches wide and roughly 14 inches long, with a rounded piece of steel coming up from each end in to the handle so it looks like a half moon shape at the end. of a handle with rounded part of moon toward handle and straight part at the bottom (or like half of a circle). It has forged brackets, serrated blade and with handles shaped to fit the hand. Blade can be removed for sharpening.  
 : 34# per dozen. 6 ea. per bundle.

Watch makers manual 5th ed.  
 Any other books of watch repair or clock repair.

I need all the books that can be gotten on watches and clocks. I also need a high intentisty lamp and a fan. To order the watch equipment they need to know to go to a watch material whse. While they are there have them get as much info on watch repair as they can get. Also if they can procure anything at all like used parts, books, tools anything at all that would be of help.

# PEOPLES TEMPLE

OF THE  
DISCIPLES OF CHRIST

Jim Jones,  
Pastor

"For I was an hungered  
and ye gave me meat:  
I was thirsty  
and ye gave me drink.  
I was a stranger  
and ye took me in.  
Naked, and ye clothed me;  
I was sick and ye visited me,  
I was in prison  
and ye came unto me.

Then shall the righteous  
Answer him, saying

When saw we thee an hungered  
And fed thee?  
Or thirsty  
And gave thee drink?  
When saw we thee a stranger  
And took thee in?  
Or naked, and clothed thee  
Or when saw we thee sick?  
Or in prison  
And came unto thee?

Verily I say unto you,  
Inasmuch as ye have done it  
Unto one of the least of these...  
...Ye have done it unto me"

Matthew 25:35-40

Order # BO 5740 (p192)

? states or is it purchased?

Radioed to \_\_\_\_\_ on \_\_\_\_\_

Dept: Metal Fab and welding  
Needed by closedown

Approved: C. T. and F. E. B.

Cleared \_\_\_\_\_ date \_\_\_\_\_

STATESIDE \$ \_\_\_\_\_

2	9" hand grinders or disc grinders or disc grinders (Bosch, Souix, Miller Fall or Rockwell)	_____	_____
2	One handed disc grinders (made by Bosch. I believe 4 1/2" grinding disc. It was cleared 4 mo ago. One here is burned out. Need one daily. Get at Bay Bridge or Western Hardware	_____	_____
36	9" dished grinding discs (get several dozen)	3.00	288.00
5	4 1/2" grinding discs to match one handed grinder if it is purchased. This is lifetime supply	2.00	10.00
BENCH GRINDERS			
12	8" grinding stones-various grades Should have it at Grangers	\$8-10	120.00
4	8" wire wheels (Grangers)	\$2	32.00
6	10" grinding stones (various grades, mostly rough) (Grangers)	12.	72.00
2	10" wire wheels (hardware)	10	20.00
6	Safety glasses shaded yellow (Bayox)	8	48.00
12	Safety goggles (soft frames) --at Grangers	2.50	30.00
36	Replacement lenses(square) --Grangers	1.00	36.00
2	Boxes soap stone fillers(round)--Bayox	20.00bx	20.00
6	Soap stone holders (round) --Bayox	1.	6.00
6	Glass cutters --Grangers	3.	18.00
2dz	Clear glass arc welding lenses --Grangers ----- (covers 2" x 4 1/4")	1.20	7.20 6.00
8 sets	4 shade round goggles lens --Bayox	2.00	16.00
3 doz	clear glass lens covers --Bayox	.25 ea	9.00

PP-12-9/a

		Round gas welding goggles		
<i>Cancel</i>	650#	Carbide for making acetylene & other uses		
<i>Cancel</i>	1	Horizontal band saw to be used with machine shop - metal cutting accurate enough to be used in machine operations and able to smooth out thick steel and brass cunks, etc.		
<i>cancel</i>	1	Old fashioned forge welding flux (lucky if this can be found but a must in future days of yesterday...		

ARC WELDING ROD

<i>Bayox</i>	400#	6011 1/8 (good all position rod and good penetration, works on our small machine. Good for overhead work (Bayox)	1.#	\$200.00
	100#	6011 5/32 same		
	200#	6013 5/32 (good general rod. Makes a nice looking weld. also works in our small machine.		
	100#	6013 1/8" same		

*no* Ken Norton has a lead on some low priced rod that is surplus from the Alaska Pipe Line. Sells for 25¢#. It is 6010G. I have never used this type before. I do know it is good penetrating like 60E, but more difficult to use. The price is very good. Any amount would be used up here.

<i>Bayox</i>	50#	6011 3/16 (Bayox)	1.	50.00
	50#	Good cast iron welding rod 1/8" Murex Nickel Electrode (good stuff) or Eutectic Brans -Gtn		
	20#	Machineable electrodes for cast iron--what you <del>get</del> can get. 30# Bayox		600.00

We don't have a way of successfully welding aluminum. This could be a selling point for doing outside work.

<i>Bayox</i>	1	Lincoln 225 or 250 Amp AC Welding machine. 100#..This is as important as the rod itself --Bayox --Heli-Arc...200-300#		700.00
--------------	---	---	--	--------

Gas Welding Rod				
60#	1/8" Brazing rod (not flux coated) most imp size (Bayox)			300.00
15#	3/16" brazing rod (not flux coated)	5.		75.00
10#	3/32" brazing rod (not flux coated)	5.		50.00
10#	5/32" brazing rod (not flux coated)	5.		50.00
2 cans	Brazing flux 1 can \$2 -Bayox			2.00

*PP-12-51b*

# <sup>80</sup>579-Page 2 of 2

10#	Silver solder (odd jobs refrig, copper) (Bayox)	30.	300.00
2 rolls	Silver solder wire (repair of eyeglass) at Bayox or Henshaws refrig co.	30/roll	300.00
3 bottles	Silver solder or silver brazingflux	2.50	7.50
10 gal	<del>Fluxing</del> Fluxers acid or soldering acid (not mistaken for soldering paste) --Hinshaw Refrig Co.		50.00

MEMO TO STATES  
FROM: GENE CHAIKEN  
DATE: JULY 14, 1978

*Manufacturer will  
have to figure out  
if heads of pattern  
to be made. There may  
be some. The spacing  
for the sprinkler  
is not very close  
together. It may be  
longer than  
that. It may be  
covered by  
standard heads.*

CRITERIA FOR OUR SPRINKLER IRRIGATION SYSTEM

WE NEED TWO PORTABLE 10 ACRE SYSTEMS. THIS WILL BE GROUND PIPE WITH RISERS THAT HAVE "RAIN BIRD" TYPE HEADS. OUR SOIL IS CLAY TO CLAY LOAM AND WILL REQUIRE AN AVERAGE APPLICATION RATE OF .15 INCHES PER HOUR. OUR PLAN IS TO IRRIGATE FOR TWELVE HOURS, AT NIGHT, VERY OTHER DAY. THIS WILL GIVE US 40 IRRIGATED ACRES. IF POSSIBLE WE WOULD PREFER A SYSTEM WHICH USES STANDARD HEADS ON A 40' x 60' PATTERN, BUT OVERALL ECONOMY MUST DECIDE THE SYSTEM. RIGHT NOW WE ARE OPEN TO THE ENTIRE DESIGN- HORSEPOWER OF THE PUMP, LINE SIZES AND MATERIALS ( ALUMINUM VS. PVC), ~~XXX~~ SPACING, HEAD TYPE AND SIZE, ~~XXX~~ P.S.I.

*We need to submit plot map showing shape, elevation, of the belly, nothing, sloped, etc.*

SPRINKLER SYSTEMS ARE THE ONLY PRACTICABLE ALTERNATIVE BECAUSE:

1. WE MOVE OUR FIELDS SO THE SYSTEMS MUST BE PORTABLE
2. THEY ARE THE CHEAPEST OF THE MECHANICAL SYSTEMS.
3. THEY ARE THE SAFEST IN REGARDS TO EROSION BECASUE THE AMEUNT OF WATERING GOING ON THE SOIL IS WELL CONTROLLED.
4. THEY ARE THE GENTLEST ON YOUNG CROPS, WHICH WILL CONSTITUTE A GOOD PART OF THE RX IRRIGATED ACREAGE AS IT IS MOSTLY FOR OUR OWN TABLE USE.

*Require a maximum 50' lift*

ANALYSTS:

GENE - RUSSELL

*Want information - pricing.*

*How deep is the well? 25 ft*

*How many gal per sq yd. or acre per min. or hr. .15 inches over 10 acres*

*What kind of crops. Garden vegetables*

*Sprinkle or drip type*

*Shape & plot of land Rectangular*

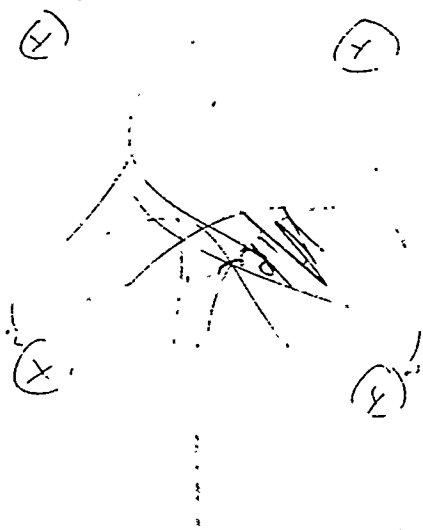

*at which point do we want hook up.*

*a corner.*
