Tell Paula to get a small tape recorder. Try to get it donated or at discount, but she must have one. Tape everything Bunny says. Then ~~##~~ duplicate the tapes and get a safe deposit box in Wash. under her name. Put her name and Jean Brown name as signatore and send a card to Jean to sign and send back. Also put 2 peoples names on it here if she can add them to the safe box. ~~Otherwise~~ just put hers and Jeans names on it. Put the duplicate tapes in the box, and bring the others set home. Get him talking about anything.

✓ Ask them to repeat and clarify message from June to Darlene on Rosanna Dickerson

* To Hilda - they suggested keeping pressure and option of suit. We're not wanting to call them up but just stop harrassment. We're told that Mrs. Whitley might do other things to hurt Jim. ~~PI~~ is glad that Garry introduced us to Lane and Freed. It's in Guyana's best interest to be dating Mrs. Getz. *(Hilda) (Freed)*

(Garry) ✓ Jim said to go ahead and take the \$30,000. but dicker with them for a few days and tell them \$3150.00, however, in finality, take the \$30,000.

- Message for Suzanne: No. Will not see you. I dont work that way. If you dont care for him you dont care for me and I know the boys fealk the same way. But I I'd be careful of what you say because as you see in the press we are suin- an? and thats why two periodicals wouldnt print any lies. we are on the offense. You can choose to believe the pack of lies of that last person or you can choose to believe me. I live with him. I wouldnt threaten you with such ultim vim as you threaten me-- we have all kinds of people staying here all the time so they can see how we live. For we eks on end. You know me better than to think I would stay in a place where a people are abused. Its uniquely beautiful- as close as you can get to a paradise on earth. You really show your ignorance. like C said I lived in Georgeto n. I dont. I live with him in a nice house with a screened in porch. We asked for investigation-- we had people stay with us for weeks. We are on the offensive and we will sue anyone who tells malicious lies. we are getting ready to sue someone over a letter right now. Your dad and I dont cut y u off and in your hour of need you'll see who your true friends are. So watch. They dont have your in interest at heart. I'm hurt and insulted that you think I would fall for such an appeal. I would have liked to see you be harmonious because we would have helped you in ye is to come. When you dad and I do you are an very good student ~~xxxxxx~~ so am I how to hear you are a enemy to u. both? If I were you I would let them drag you into it. It not the same situation now. One thing they always done --they tell you Jim ha said something about you when he nasnt Dont fall for it. it was your dads idea to make you inheritor of large insurance policy. try to remember the many times you dad put his life on the line for people. Just because they and they dont want to take the same path they want to stomp out the light along the way. Don take the path you want to--bu they want succeed in stomping out the light. Tell her I cries over S-- worry over her a what he conclude dont more for her.
- warn Mark about n r, and the coores, and the group rent, and the church.
- dont mention me by name when talking to her and stick to the script.
- be firm. I B to be there. but if V. clou so with out.
- send good press to LA gaz. medi.
- Mark should get hold of Chronicle right away and hint at lawsuit. Don should also feel out Newsweek etc.
- not ing paid to HBO
- diversions to press-- B y the e c u r g i n g u g u to tell

Stateside Feedback

- ✓ Marilyn Fursley is coming October 26th, with Cynthia, her dau, to stay for 3 weeks.
- ✓ Mark Lane is gone. Can Freed call Karen's mother. ✓ Ans from Jim is YES.
- ✓ Please clarify the instruction to Dale for Donna Stanfield. Who knows what bark. And who knows anything about it on this end. ? Who is Dale suppose to talk to.
- ✓ From Terri B. Goodlett was thanked for the article. Lane's opinion on that one suit yesterday is that PI needs to get another representative that no matter how hard this one tried, anyone could do better.
- ✓ They got the message last night for ~~Freed~~ Lane, and ~~he~~ Lane responded sympathetically. He hasn't been able to see Freed yet. (about Jim's health - our message was.)
- ✓ All the good press has been passed to the L.A. D.A, and it's also been sent to E. Younger.
- ✓ Lane cannot go south because he has to leave the area.
- ✓ Lazor has been quiet for awhile. Freed and Lane say leave him alone for the time being. Lazor got upset one day last week but is ok now since Lane talked to him. Lazor has not called Charles Garry at all. Checked on it yesterday.
- ✓ Mitzzy letters all done except to ones to FBI given last night.
- ✓ What did we do about the affidavit from Maria. Did Maria do some more to send back for Charles.
- ✓ They have been working on affidavits for Garry in the past day or so for Charles Garry. That's where most of the time has been spent.
- ✓ Marcie is going to talk to CL's parents, tonite; does Jim want Marcie to talk to L.A. DA with Garry.
- ✓ Regarding Lazor: Gordon and Freed do not want us talking to him unless they are present. Also, Garry does not want PI talking to Lazor either. Lazor is quite RIGHT NOW.
- ✓ Freed and Lane will keep in touch and they will remind Freed in the morning.
- ✓ Marcie talked to Suzanne today, and they are going to meet alone next week for dinner someplace. Dau still wants to visit but wants to talk to Marcie first.
- ✓ Lane signed books to numerous govt. officials in Guyana today and has personally written messages to them as well. Will be sending them down with next person down.
- ✓ Our people went to a dinner with a black film director ~~was~~ last night, and they made a lot of contacts but nothing significant.
- ✓ Francis will be getting back to a few of them.
- ✓ Mr. Willie Brown will be coming to our dinner & coming up.
- ✓ Garry is really upset with PI, about what happened with Lane last week. PI is trying to improve the situation/yesterday at Garry's we found some more things that will be helpful on Tuesday. Most of our efforts now are concentrated on Tuesday.
- ✓ Marcie tried to get hold of CL's parents and is still trying.
- ✓ Florence Brown, Jocelyn's mom, is extremely upset because the children did not receive their teddy bears. Ph. patch might be able to be done once they remember the teddy bears.
Ph: 968-9023, area 415.

pp. 9-d-1

✓ Marcie got ahold of Cl's parents. They were very friendly / they've been away for awhile. Nothing new from them. They told Alida to be sure to go to a movie or something or have some fun while she is here.

W
W
--Christine Miller's sister called. She had written to Christine several times and that Christine is not * getting all her letters. Please have Christine write her.

--Simon twins mother is worried that they haven't received the stuff they asked for. Some type of moisturizer they haven't received because they keep asking for it. Perhaps they should write back about the problem of the slowness of mail. ~~XXXXXXXXXX~~

✓ Just talked to Suzanne and she says she sends her love and will definitely help us out with the dinner, and will get to us in 35 hrs. as to the date she can take a trip here.

✓ --Also, as we already know, Willie Brown has agreed to MC our dinner.

✓ The RVW sold for \$155,000.00, cash, signed and sealed, 45 day escrow.

TO: DAD
FR: BEA GRUBBS
RE: PHYLLIS BLOOM/TOM GRUBBS: MY OPINION OF COUNCILING SESSION;
FEN NORTON & THE DANGER OF THE POLE

I AM SURE YOU WILL GET A REPORT AS YOU DO OF ALL COUNCILING SESSIONS BUT SINCE TOM WAS INVOLVED, I THINK IT IS IMPORTANT THAT YOU HAVE MY OPINION SINCE I AM FAMILIAR WITH THE BACKGROUND OF TOM'S THINKING, AND AM ALSO IN A POSITION TO SPEAK FROM THE STANDPOINT OF MY OWN EMOTIONAL STATE WHICH IS SIMILAR TO THAT OF PHYLLIS AND TOM, IN PART.

FIRST, I WAS ABLE TO PICK UP ON THE PAIN OF PHYLLIS BECAUSE IT IS A PLACE THAT I HAVE BEEN, MYSELF, MANY TIMES. EVEN IN THE STATES, I PICKED UP ON IT AND WE HAVE DISCUSSED IT IN THE STATES, EVEN THOUGH WE HAVE NOT COMMUNICATED HARDLY AT ALL SINCE BEING IN JONESTOWN. AFTER HER "LOVE SICK" TALK ABOUT CHAIKIN IN THE STATES, IT JUST TURNED ME OFF TO HER.

AS FOR MY CORRELATION WITH TOM'S EMOTIONAL STATE, I HAVE A PROBLEM WITH HANDLING ANY PRESSURE WHICH CALLS FOR THE INTERACTION OF MY EMOTIONS ALSO. I DONOT HANDLE IT VERY WELL, YET I REACT DIFFERENTLY. I DONT GO INTO RAGS NOR DO I HAVE VIOLENT THOUGHTS. ON THE CONTRARY, VIOLENCE HAS NEVER HAD ANY PART IN MY THINKING ... NOT EVEN AS A CHILD. ENOUGH ABOUT ME.

PHYLLIS IS STILL A VERY DISTURBED PERSON. SHE IS STILL VERY PISSED WITH TOM ABOUT TELLING ME ABOUT HER STATE. AS YOU KNOW, I DO NOT DEFEND TOM GRUBBS, BUT IN THIS INSTANCE, HE IS RIGHT. HE DID NOT COME TO ME ON A "GOSSIPING BASIS". HE WAS LOOKING FOR HELP FOR PHYLLIS BLOOM, KNOWING THAT I ONCE WAS FAIRLY CLOSE TO HER, AND HAD ALREADY PICKED UP ON HER STATE OF MIND, LONG BEFORE SHE WENT TO HIM, AND HAD DISCUSSED IT WITH HIM BECAUSE I WAS WORRIED ABOUT HER. SHE SAYS SHE WILL NEVER TELL TOM ANYTHING ELSE AGAIN WHICH IS ALIENATING HERSELF FROM THE REST OF US, WHICH IS NOT GOOD. SHE CANT SEE IT AS IT IS AND ABSOLUTELY REFUSES TO LOOK AT HERSELF AS "THE PATIENT". SHE, FAILING TO ACCEPT THAT SHE IS EMOTIONALLY DISTURBED AND DEAL WITH IT, ALTHOUGH TOM AND I BOTH ADMITTED TO HER THAT WE KNEW THAT WE WERE AND ARE EMOTIONALLY DISTURBED & THAT IT WAS NOTHING TO BE ASHAMED OF. MANY PEOPLE ARE. I THOUGHT IT WAS A STRANGE DESCRIPTIVE PARALLEL SHE MADE WHEN SHE COMPARED HER TELLING TOM HER SITUATION ABOUT HER STUTTERING AS, "THINKING OF HERSELF AS 'PREGNANT', MEANING, SHE WANTED HIM TO MAINTAIN HER CONFIDENCE BY NOT TALKING, JUST AS A PREGNANT GIRL GOES TO A NURSE, IN CONFIDENCE. IT IS WEIRD AND TELLS A GREAT DEAL ABOUT WHERE HER HEAD IS AT. SHE DIVORCES HERSELF FROM THE REAL PROBLEM, SEPARATING THE SYMPTOM OF "STUTTERING" FROM HEP WHO IS THE STUTTERER. SHE WILL NEVER BECOME WELL UNTIL SHE DEALS WITH IT LIKE IT IS. *(SHE SAID STUTTERING WAS LIKE BEING PREGNANT TO HER)*

SHE IS NOT PISSED WITH ME BUT WITH TOM FOR "BETRAYING HER CONFIDENCE", YET I AM SURF SHE DISCUSSES HER PATIENTS WITH THE MEDICAL STAFF. IT IS A PART OF HEP JOB BUT SHE CANT SEE IT THAT WAY. TOTALLY REFUSES TO AND THE SESSION IN A HOSTILE FRAME OF MIND.

TOM GOT PISSED TOO AND CAME OUT SHARPLY AND DIRECTLY TO HER: (IN HIS OTHER PERSONALITY TOO) BY SAYING: "SINCE YOU SEPARATE YOURSELF FROM THE PROBLEM AND JUST REFUSE TO LOOK IT AS IT IS, CONTINUING TO ALIENATE YOURSELF, THEN YOU ARE A PERSON TO BE WATCHED," INSINUATING THAT NOT ONLY HE WOULD WATCH HER BUT I WOULD TOO., AND HE IS ABSOLUTELY RIGHT. I KNOW I WILL WATCH HER BECAUSE SHE IS ON SHAKY GROUND WHICH MEANS WE ARE ON SHAKY GROUND.

TOM, HIMSELF, WAS UNDER A GREAT DEAL OF PRESSURE LAST NIGHT & IT IS IMPORTANT THAT I GIVE YOU THE BACKGROUND OF WHY HE WAS. IT IS TOTALLY UNRELATED TO PHYLLIS. HE WENT UP ON THE POLE YESTERDAY, UP VERY HIGH, FOR ABOUT 40

CVEP

P.F. G. E.

MINUTES. HE VOLUNTEERED TO DO IT WHICH I THOUGHT WAS COURAGEOUS BUT I DONT THINK HE SHOULD HAVE. IT IS DIFFICULT FOR HIM TO HANDLE THAT KIND OF PRESSURE. IT IS ROUGH UP THERE BUT I WOULD LIKE TO TELL YOU WHY I THINK HE DID IT. IT IS RELATED TO KEN NORTON WHO HAD SUGGESTED A VERY EFFECTIVE, SIMPLY METHOD OF HELPING THE CLIMBER TO HOLD ON TO THE POLE, SOMETHING THAT HELD A PART OF THE BODY, THE FEET I THINK. WHEN HE SUGGESTED IT, HE WAS IGNORED, AND KIRKENDALL (THINK WAS HIS NAME) WENT UP YESTERDAY AND BECAUSE KEN'S SUGGESTION WAS IGNORED, HE ENDED UP HAVING TO STAY UP THERE FOR 3 HOURS. THE TIME WOULD HAVE BEEN CUT, IN HALF HAD THEY LISTENED TO KEN'S SUGGESTION. SO YESTERDAY, TOM DECIDED TO USE THE METHOD THAT KEN HAD MADE. IN MY MIND, TO PROVE THAT KEN WAS RIGHT AND TO DEMONSTRATE HIS OWN EGO. KEN WAS RIGHT AND OTHERS SHOULD HAVE LISTENED AND COME DOWN OFF THEIR OWN EGO. THE MAN COULD HAVE BEEN KILLED BY FALLING AND PROBABLY WOULD HAVE, HAD YOU NOT MEDITATED CONTINUOUSLY FOR HIM. IT WAS BRAVE OF TOM TO GO UP BUT HE COULD HAVE FLIPPED OUT UNDER THE PRESSURE. IT CAME OUT LAST NIGHT AT PHYLLIS COUNCILING SESSION .. A QUICK, JERKY, REMARK, JUST AS THE SAME TYPE OF UTTERANCE CAME OUT AT DEBBIE SHROEDEER--- THE OTHER DAY WHEN HE GOT ON HER ASS AND WAS DESCRIBED AS BEING "IRATE" WHEN HE SAID TO HER (BECAUSE SHE THOUGHT YOU WEREN'T JUST WITH HER ON THE FLOOR): "I REBUKE YOU", POINTING DIRECTLY AT HER LIKE YOU DO.

TOM TRIES TO IMITATE YOU AT TIMES, DEMONSTRATING HIS OWN ATTEMPT TO HAVE POWER AND INSINUATING AT THE SAME TIME THAT YOU HAVE POWER BECAUSE YOU ENJOY IT. *isn't an explicit rebellion against your power?*

ANOTHER REASON TOM MAY HAVE VOLUNTEERED FOR THAT POLE WAS HIS DESIRE TO DIE, HOPING HE WOULD FALL, AND I AM NOT IGNORING THE FACT THAT HE SINCERELY WANTED TO HELP YOU EITHER. I DO COMMEND HIM FOR HIS COURAGE, WHATEVER.

I HAVE BEEN WATCHING PHYLLIS FOR A LONG TIME. IT DIDN'T JUST START. THERE ARE JUST SOME THINGS I FEEL DRAWN TO WATCHING, ESPECIALLY THOSE SITUATIONS WHERE I HAVE ONCE BEEN IN MYSELF. I WILL CONTINUE TO WATCH PHYLLIS AND REPORT TO YOU WHATEVER I FEEL SHOULD BE REPORTED.

TOM DID NOT WANT TO WRITE UP ABOUT KEN BEING IGNORED BECAUSE HE FELT YOU WOULD THINK HE WAS DEFENDING KEN TOO MUCH SO I DID IT. I THINK IT IS IMPORTANT .. THE FACT THAT OTHERS WOULD IGNORE A LIFE SAVING METHOD FOR A COMRADE WHICH ENDING UP IN YOU HAVING TO USE YOUR ENERGY TO KEEP HIM UP THERE.

FROM: BEA GRUBBS

P.S. RE: PHYLLIS

SHE CONTINUED TO IGNORE THE FACT OF YOUR PUBLIC REFERENCE THAT YOU DID NOT SEE ANYTHING WRONG WITH EITHER TOM OR I DISCUSSING OR WRITING HER UP, ALTHOUGH YOU DID NOT CALL THE NAMES, I SURE KNOW WHAT YOU MEANT. PHYLLIS WROTE ME UP LAST SEPTEMBER WHEN I WAS VERY EMOTIONALLY DISTURBED. I AM GLAD SHE DID: SHE SHOULD HAVE. MY WHOLE LIFE STARTED TO CHANGE AS A RESULT OF THAT SESSION .. FOR THE BETTER. I AM A FREE, HAPPY PERSON NOW BECAUSE OF IT. I COULD NOT GET HER TO RELATE THAT TO HERSELF ... AT ALL.

FEEDBACK FROM STATES

September 19, 1978
Stateside

doe ✓ Garry's opinion is that it's in the best interest of the patient to pay Mazor for more control and security of knowing it would be a regular planned program and did assure a confidential relationship and he won't work for anyone else. Garry is adamant

✓ Garry thinks if he pays Mazor on his own without ever billing us it would be ok. Mac and Sandy are meeting with Mazor now.

doe ✓ Don Freed is fine. Pat misunderstood and lied about it

Sept. 18, 1978
Stateside

doe ✓ Mary Black has just arrived in SF with her suitcase, and she wants to come over here. Jim said to tell her that he spoke from his mind that is eternal that she should come that way.

doe ✓ Mazor will meet with Sandy tomorrow. He told Jean he was planning on seeing Marceline and Hue when they get in. He wants to train Hue for security reasons for a day or two.

✓ Sandy said she will keep her hands on the deed *doe*

doe ✓ We have to find out from June about Serina Hunt's situation. Need accounting of her expenses, to show what kind of services we gave her.

doe ✓ National Enquirer -- they were persistent when they called again this morning. They want to talk to Larry Schacht about the C-section. (Mark Lane's office is going to put them on notice.)

doe ✓ Mac took by some money for Garry and the deed for him to LOOK at.

✓ Maria, we got the \$2,000 back from Caracas

✓ Told Don Freed about the press conference.

doe ✓ We passed the message for Marcie to tell Garry that ~~we~~ we are a collective, and bossism is not acceptable. We wish to receive the benefit of Mazor's help, but we do not want him to be characterized as our agent or Garry's agent. Our political fate is our own destiny and we have to make our own decisions that determine this. We cannot permit him or anyone else to make fundamental decisions that dictate our political future. This is a precept that we cannot retreat from. We see legal representation as simply a political vehicle.

doe ✓ Told Mazor that we had a wonderful basketball game, old and young and seniors almost won.

PP-9-E-1

done ✓ Mac saw Garry. Garry talks in glowing terms of his vacation down here. He's ~~not~~ looking forward to working with Terri Buford. Said he's definitely still interested in us. Tom thinks he's just frustrated.

done ✓ Nothing in Enquirer or New West about -

done ✓ Monica Peterson wants a patch with ~~###~~ Jerry R. and Patt Rhea and Clara J. next Mon.

done ✓ Tuesday night do spatch with Clara J. again and Florida

done ✓ Maria's brother called Tom tonight and said he's hoping to talk to Maria, wants to do spatch with Maria. He's home after 5 or 6 every night.

done ✓ Shirley and Marthe need to write their dad and send pictures.

done ✓ Ask if they will donate tape recorders for Jim, Marcie and each of his children. Each of them need them all of the time. Think of creative ways we can get things donated so we can sell them.

SEPTEMBER 19 TRAFFIC

done ✓ Garry adamant that we pay Mazor 30,00 per hour, 300 per day. Says PT wouldn't have to be officially connected with payment. However, Mazor says he doesn't want to work for Gary because he doesn't want to be bound by attorney-client privilege. Says if we want him to go after TOS all over world then it'll cost about 20,000. Says he will be presenting Swinney deed to Calif Sec of State. He can get Swinney's ~~sub~~ but doesn't know what it will take to get TOS hooked in. Wants guidelines. Garry thinks he can insist on Mazor to work for him. Mark thinks Mazor could be trying to set us up or just greedy. Stringly advises we don't let him work for us-- we could get sucked into a libel suit.

done ✓ States asked to send legal size ruled and numbered.

✓ Ask if Goodlet and Don will write something for Guyana media

✓ Garry already answered the Cobb suit.

done ✓ Mary Black leaving Wed nite. Not on list.

✓ States asked to give us date when Jack began caring for Serena Hunt.

✓ Don is doing fine. Pat lied on him.

Sept. 12 - Feedback from States to Jonestown

done ✓ The Steve Katarakis suit ~~##~~ was suppose to Change of Venue on the 15th but has changed it to the 22nd.

done ✓ Robt. Coleman wasn't very detailed, so Jean hasn't shown anyone. She still has them

done ✓ A couple of them went and met with Nancy from Garry's office. Nancy called Stoen and had Jim Cobb suit set back 5 days. She would like Garry to talk to her about this, but as far as she can see, everything is alright until Mon or Tuesday.

✓ Michele Wagner is coming next Wednesday

This is a Supreme Court Judge who ~~###~~ five years ago turned one of his daus over to authorities for possession of marajuana, has filed suit ^{against} still another dau over a series of financial transactions. Judge Ross G. Throp filed suit in Superior Court, San Diego, Wednesday against a married dau, Elizabeth G. Horton, over the sale of a home he ~~had~~ bought for her and loan for an automatic laundry and a deed on the property in the San Diego Shopping Center where the property is located. Throp said his dau is hiding from him somewhere in Los Angeles after abandonening the business without leaving a forwarding address. The judge's suit ~~##~~ said that he gave her the ~~home~~ ^{house} to provide a house for her and ~~###~~ she sold it without repayment of the down payment provided by her father.

All the lawyers keep telling us that relatives cannot sue relatives, but Jim would like this passed on and reviewed by Mark Lane and Freed ~~#####~~ to see if Maria could sue her dad for the present harrassment he has put her through trying to see her, putting the stuff in the newspapers and passing out literature to Congressman. Is there anyway the worm could turn. .

Freed and Goodlett were unsure ~~#~~ about Guyana ~~#####~~ before they came. Goodlett had ^{not} ~~##~~ come for some months because of a lot of press against Guyana. We have converted them 100%, and now they even mentioning retiring here. All 3 of them. Dr. Goodlett, Freed and Lane are going to be using Guyana as a lecturing subject all across the nation. They are already doing it ~~already~~.

Dick Gregory admires the Prime Minister as a good friend, and Dick is a supporter of us. N. Ali is also a friend.

Let it be known again that Kathy Hunter has talked around to 3 different very prominent people who are investigating the conspiracy against the PT, that you were going to try to place the death of some person at PT's door. This is dreadful and I can't imagine that the District Attorney would lend himself in any way to that. Why don't you ask them to take lie detector tests. They would be more than willing. They had nothing to do with the death of him. Kathy Hunter is going ~~#~~ out and telling it everywhere / she also told it to a film making group that is going to be making a nice film ~~##~~ on their lovely community -- they should say they have been here. (this might stop him from taking action when he sees there are ~~#~~ other people interested.) 3 prominent men, very prominent Americans are doing voluntary work to study the grassroots conspiracy being done to against Jim Jones and PT. We know there is a conspiracy. They are attempting to get to the bottem of it, as they have already seen that there is a conspiracy, and I am sure you would not be lending yourself to it if the woman was telling the truth at all. But I was telling you what the woman said because she did say it. I was there. I don't want to get into difficulty with her ~~#####~~, so rather remain anonomous. You will know when you talk to her because she's surely saying it. If I were you I would tell her she shouldn't be quoting you because she's hurting your good office and people who have known PT for years to be servants of everybody in need. signed Sally

*Faula call Bunny. Tell about sick father. (When did she talk to him last? What did he say?) Tell him of good news. Don't send anything until we see it. Channel 7, reaches 80% of viewers in Calif, even Examiner printed it. Don't send anything till we see it. KGO radio also did a good interview with Lane. Came out clearly that we were victimized. All lies.

3 of the best journalist who are friends with the PNC told us that the US is trying to get us thrown out of Guyana. There were several witnesses there when we had all these guests come, and there wasn't very much coverage. Why would these 3 journalists tell us this?

Guyana

We are building something on this S.A. continent and we have all these guests who want to retire and come here and nothing said about that at all. Tell him we are not trying to sue the US govt. We just want to stop the lies and harrassment. That's why we are using suit bec. we want them to stop their lies. It's worked with more than one agency because we have had a lot of people step forward and give affidavits. The whole thing was just lies and it was covered on Channel 7, ABC and two TV stations in the bay area, KFOO and KSFO and KCBS. Had front page headlines in the Sun Reporter. We were written up favorably by some of our bitterest enemies such as the Progress, and Examiner, # who were forced to print it. There were two conspirators who stepped forward and declared that they lied. They did nothing but lie. She doesn't know if they did it for money or what they did it for, because she came here to see her dad and # try to keep him happy, so she could see Bunny. So she doesn't know what they are up to. But the newspapers printed it so it's pretty sound. Tell them that the newspapers who attacked us are now printing # that we are the victims of a conspiracy. This is the first time Channel 7, which goes all over Calif, want us on the most imp. radio show, KGO, Jim Eastland, the most popular talk show where people can call in for questions.

--Tell them we are living here in anxiety not knowing anything. Please give us feedback.

Make sure our people call in to the KGO show when we are on. When will it take place?

✓ Terry Buford is sure we will lose Garry if affidavits don't come by the 14th. Several hour argument with Mark Lane yesterday (Garry had argument with Mark)

✓ Francis not too well/ functioning

✓ Dick Gregory wants to come anytime. / Jim said to tell him to come as soon as possible

✓ Linus Pauling - Experiments with Vitamin C. He's interested in finding a community to give large doses of Vitamin C to. We would be willing to be experimented on, and we passed this back to states. We would be honored.

✓ Leona has been helpful to Terri // came over on minutes notice to help out w/ Francis

✓ They are holding off in L.A. court with Medlocks until affidavits come back

✓ Christine Cobb should do affidavit about last time J. Cobb saw her, her "trama"

✓ Mark and Don will be talking to David Walper about doing a documentary on us. Seems interested. Jim said good.

✓ Terri B. wants Jim to know that Garry is not going to blow up unless affidavits don't come. Make sure they are coming by the 14th.

✓ Terri Talked to Scientology yesterday and they asked Jeff Quiros of his analysis of civerage. Still had reservations about motivation of Mark Lane, however, as long as something good coming out of it, use it for all it is worth, he said.

✓ Mark told TB yesterday that he is going to contact Walper to come down, pay his own expenses. He thinks he will do it.

✓ Mark is persistent in coming on to Terri. She turns him down 2 or 3 times a day. (ans. passed)

○ If Jim talks with Francis he needs to know that they explained we put the question of her making her visits alone and Johnny did a phone patch to Leona to her that he had talked it over with Jim and they would like Leona to explain for Jim the policy we have regarding that sort of thing. So Leona came over in the middle of night to talk with Francis.

✱ Maxine said Lula Stalling and her agreed that Lula said she didn't need to write long letters because if Lula was happy, ~~she~~ she would put an "L" on the page. If she wasn't happy, she would put no "L".

✓ Michele Wagner thinks Danyelle is looking forward to seeing her.

✓ Pam Bradshaw -- write a letter and address the envelope to her parents. Pam said she can't write to her parents bec. Sandi has been writing letters for her for a year, and she doesn't know what she's been saying.

OCTOBER 8 FEEDBACK FROM STATES

○ to Mary Murphy from her granddaughter. Joyce White, a relative, Wm. Murphy has had 2 strokes, in hosp. not expected to live.

✓ to Maria and Gene C. from June: Pets Unlimited offered to settle mortgage by paying \$30,000. at once. They owe us \$33,000. Mac thinks we should accept since we put out \$33,000. originally. He thinks if we must we should foreclose. That might cause problems. Should we accept the \$30,000.

✓ Jim Randolph to Kay - lock tight super bond glue comes in 1 oz. size. We ordered one gallon at \$8.95 each, \$1222.24 for total.

✓ to Jim: Terri Buford doesn't think Sandi will leave. She does feel that Sandi ~~may~~ may suicide ~~at any time~~ at any time but that could be here or there. Terri feels they may as well face that there. Sandi is very ill, but change of climate will not help. It is hopeless. Nature of illness not physical but emotional but covers by physical, non functional, almost catatonic by depression. Never out of room except to void. Non communicative. Complete mental deterioration. Hates Marceline. More withdrawn, no interest in anything.

✓ Dick Gregory was met by Marcie and Francis and Leona and Tim Clancey. Also Mark Lane and Ellsberg were there too. The meeting was brief but supportive. Gregory will let us know when he wants to come down and visit. He said he's good friends with Burnham and after he see Jonestown, he will try to see Burnham and talk to him about Jonestown. Lane said it will be a good idea to film him while he is here so we can use it for a movie. (Jim said to urge Lane to have Dick G. come down quick.) - passed

✓ Marcie is going to spent the day at the ranch tomorrow. Mac will be going with her.

✓ It will be a cheer up camp type thing, well needed there. ~~They are sending some~~

✓ (Jim said who the staff could change # with - find out-- this not yet passed.)

✓ They are sending some excellent plus movies down here to us. ~~They are sending some~~

✓ Nothing new from the media

✓ They all kicked around the possibility of Mark Lane talking to Garry's friend, (we need to clarify if this is Fat R.) but they can't think of anything reassuring to say. But anything they say would tend to make him more insecure.

✓ Can Marceline talk to the Paladium in Indiana. Jim said to have Marceline tell the Paladium Times we must have guarantees that they must use statements from Lane, Freed and Goodlett.

✓ She said (Leona) Guy Young needs oral surgery// might have abcess or tumor// (Jim ans. and said he should stay and have surgery) - passed to Leona by Lee

✓ Rosenbaum is not in town yet. He's still in L.A. He'll be back soon.

✓ Lane is going to get hold of the DA in L.A. tomorrow

○ Jim ans. is that he wants Lane to ask the DA if there is much to this case. Garry told us that it looked ok. Now they don't want to see us. What has changed now?)

✓ Garry asked Pat to call our people late last night and invite our people over for dinner. They are both wanting to be friends it looks like.

✓ Garry says that Marceline can go to see the DA with Mac when # they get the affidavits

✓ Terri asked Mark Lane's opinion, and he didn't agree with the idea. However, since this is what Jim wanted, he will do it. Lane thought it was not a good idea for the reason that Marceline was not involved and he was afraid that by bringing her there, it might put ideas into the DA's head to get her too. However, Garry said ok so will do

it unless Jim says otherwise.

✓ J.M. ANS: BY MC KEANS WILL HE GO AGAINST LANE'S WISHES. TELL LANE HE'S FEELING BETTER.

PP-9-h-2

FEEDBACK --OCT 6

✓ Lane talked to Kilduff and basically Kilduff invited himself to visit--
Lane said why should we take you when you had never been objective-- Lane told
him he has only taken one side of the story with no attempt at objectivity
in his opinion

✓ Mark talking to ~~xxxx~~ BARB
✓ Mark talking to Tom Fleming
✓ Dick Gregory will be in SF to morrow to meet with us
✓ Dymally very very friendly
✓ Mark talked to Ron Dellums--polite and cordial
✓ SB; a long dialoude about her health. Ended up that she is resigned to
staying longer, will see Finkle,
✓ Cal Canadian-- MK, TB, Eva P.
✓ Laurie Efrein letter report KGO 30; Exan 13; KSFO 10; KPOO 13; Prog 10;
ARRL 40; Dick McCoy 50; burke 74; Blake 47; Reid, Burnham 35 each
holding a lot for AG- waiting on word-- starting on Jim Eason and Peter M.
✓ get specs on depth finder, how many lifejackets etc. ~~ask town~~
✓ Find out from Don Fields what parts he asked Marcie to get, also John Harris

October 8th Feedback from States

✓ --Garry and Mark getting along so badly that even if he doesn't get the affidavits it
may not make much difference in the long run. Garry says he will quit in ten days
if mark talks to the press anymore so things aren't going too smoothly there. 2 hr.
argument yesterday. TOS won't give another extension. Have had 3 at this point.

✓ --Terri thinks a set back with the affidavits will be the straw that breaks the camels
back. But if there is nothing we can do, that's that. So they will concentrate on
finding another doctor. Probably Rosenbaum will be able to do it when he gets back in
town. Will try to make explanation acceptable but lately nothing has been acceptable.
Terri B. will go along with our idea.

✓ ANSWER FROM JIJ: Jim said to beg him. Mark and Don gained us immense ground here. It
was a stroke of genius. JJ physically is in very bad shape. Guyana is happy with
the press coverage with the balance. They had always wondered why we had never answered.
Of course we want them to counsel with you, but Mark and Don conference here got us
good coverage in Poland, Yugoslavia, Venezuela, Austria etc. Daniel E and Dick Gregory,
all that because of you. JJ got sick when he heard you might quit. Guayana won't under-
stand since Mark and Don presented themselves as Charles friends here. Sent here by him
to investigate. JJ praises Garry. Say close friends. JJ taking in extra things, off-
loading a ship// he worked on it to get money

✓ Jim in hosp. unit when he heard about this. Hematocrit 19, gemoglobin 9.5.
Soviet doctor emphases. Think what he's got is not terminal, but Dr. says cannot have
stress. Must rest 8 hrs. day.

TODAY

(A)

7:13:00

1. Mary Rodgers- she was working and drawing welfare, getting food stamps and medical, getting free surplus food for her grandchildren.
2. Mike Rozynko-got on medical thru Barbara Hoyer for a couple of months.
3. Joe Wilson-got some kind of benefits he was not eligible for (he is supposed to be writing this up)
4. Esther has her first pair of pants on-she is really proud, hoping you will notice. from Bev Livingston
5. Esther Dillard--her daughter Claudia Norris lived in RV with Alice Ingraham, and finished high school there, while Esther received medicale and funds when Claudia would need medical attention, I would have her come to SF and use the card. She also received food stamps for Claudia.
6. Penny-when she won the insurance money in L.A. she was on welfare. She asked TOS if she had to tell the welfare department and he told her no.
7. Barbara Cordell-could agriculture meetings be taped and played later over the PA system, so all can hear or played over the PA live?
8. Bea Orsot writes concerning Jim Bogue--he is home sick today, didn't go to work, has a boil, lives in her cottage. Thot she should mention it since you said something about it.
9. Constance Harris--thanks you for taking her off cooking. She asked that she not be put on it the first time. She can't cook anything without making a mess. She is just not a cook. She likes jobs she now has cleaning and helping Rub. Also the name --she know it was foolish to use McElvane and will not use it again. She had planned to ask permission to change her name to Jones, but was wondering about it. Whats to get away form her past names. Sorry it had to come to this before she could be taken off cooking.
11. Chlotile Butler-works in rice from 8 to 11 am and does security from 11 to 1pm, then lunch and back to rick until 4:30. She has not felt well and went to nurses, her suger was 274 plus or up. There is still not change, but she is still going with your blessings. She will do agriculture on her half day off.
12. Steve Addison--his schedule is only 6 hours in 24 hours: 8 am to 10 am and 6 pm to 10 pm. He is not productive the remaining 18 hours. May he increase the job schedule b 2 hours, three times a week? Wants to esteeop thinking and studying hematology and put 4 hours or more daily in the garden pulling weeds? Thank you *Disagree*
13. Margarita Romano-she was the one who made the stupid mistake on the CB at noon down the casava mill. She demonstrated a lack of consciousness by asking such a question about security without using her thinking cap first. There is no excuse for her stupidity for she knows better Being on SAT. She will be free of guilt by rectifying the mistake by work. She would be willing to go on the learning crew, or whatever. Excuse her stupidity and it won't happen again, please dad. I am trely sorry.
14. Charles Williams--the night I got on the learning crew I had no dinner and I ask S. McMurry to get me something to eat and he said to ask Penny! Well he asked Penny, she said she would get something to eat. They gave her some sandwiches, she kept teasing me and I said I didn't want nothing. She said she said I would not get one till I said I was sorry. I was hungry so said she said I would not get one till I said I was sorry. I was hungry so said

PP-9-2-1

OK.

OVER

15. Earnestine March--I have been involved in two suits; one went to court about 5 years ago, then one is still pending with Larue Grim. I was supposed to see him about it the next day, when I was on my way here. I told the attorneys at PT about it. I was told that Larue Grim was good, he ask for 25,000\$, --the other case was handled by Willie Brown's office. All the details escape me now because I wish to leave this and all other memories of that capitalish place the USA. Case one was with municipal railway, so is the second one. Problems were whiplashes, nerve impairment in bakc arm, right and both legs. I thank you for getting us out of there.
16. Esther-writes a note for how much you did for her at the time of the accident. (i have the note if you want to see it.
17. Cheryl McCall-note regarding Lela M. Lela cries, does not want to be left alone, complains of pain in abdoman. She asked Cheryl if she would make it? Larry said the infection caused by Cheryl and Leslie, not clamping thecatheter tube, but it was not their falut because they were not instructed or shown how by the nurses. Cheryl says its not justified, because she is going thru pain, simply by negligence. She and Leslie should have read the chart more carefully and asked. She thinks more follow thru on intensive care patie ts should be done. Larry complains about the nurses inability to follow thru. Cheryl thinks if there were less meetings she would be able to follow thru more. She thinks 2-4 everyday is too much time. One meeting questioned Jim's statement that nurses were putting down others, because they had a degree. Another meeting was to schedule everyone a day in the fields. Everyone has opportunity of choosing their day., thank you.
18. Mary Bailey-she planted banana stalks, when she went back to the well one had the green top chopped out of it and hacked the side up. Also pulled up and threw it away. This discouraged her very much. She was warned that someone would do away with what I had put there. (hardly legible note)
18. Barbara Davis-some of the things I criticize myself for is-talks too much, still put too much emphasis on her family. Get angry too quick. talk about people behind their back. is selfish and loves to have things her way. I realize in order to be a good socialist I am going to have to improve a whole lot and she is working on her faults.

Learning Crew . 7, 1978 (This report has been prepared by all Supervisors) (D)

Ronnie Dennis - (7 days on) 3rd time on crew. Sleeping on security. Attitude and work good. Helpful in Dorm.

Wayne McCall (10 days on) Slept in Socialism class, caused trouble while taking a shower. Worked through his lunch yesterday.

Jair Baker

Tracey Stone (10 days on) - Worked hard yesterday, worked through his lunch hour. Went to sleep in socialism class last night. Has had a good attitude.

Dove Patterson ^{Lundquist} - (10 days on) work is ok.

Vincent Lopez (10 days on) 3rd time on, once was voluntary. Work good, attitude good. We haven't had any problems with him. Helps in dorm. Volunteers to help and is supportive.

Mark Rhodes (8 days on) Work varies. Attitude poor. Has been calling dirty names. Slept in socialism class. (think he's 8 yrs.)^{old}

Linda Sadler (7 days on) (Left her security post.) Very good worker good attitude. Helps in dorm.

Kim Rochelle (5 days on) Work good, attitude good. Night before last when everyone else was asleep I heard Kim talking - he was saying his gratitudes to himself.

Dee Dee Lawrence (4 days on) - good worker, attitude good. 2nd time on crew. Good attitude in dorm.

Karen Carr (4 days on) Second time on crew, 1st time with Penny. Smart aleck night before last. I made her stay up late and scrub, better yesterday and today. Good worker.

David Goodwin (4 days on) - second time on crew. Work good, attitude good. Volunteers to help in dorm and with children.

Ava Ingram (4 days on) good worker, attitude good. Positive and helpful in dorm.

James Baisey (4 days on) - very good worker, worked through his lunch yesterday. Didn't have to tell him once to keep working. No serious problems.

Anitra Green - (4 days on) Work is ok. Al Tschetter said she is treating him much better and was even helpful.

Melany Kemp (4 days on) - good worker, good attitude, good attitude in dorm.

Carver Cordell (6 days on) Work is ok, attitude is good. Good attitude in dorm.

Therman Guy (3 days on) Second time on crew, (for sleeping on security this time.) Attitude better yesterday and today.

Keith Wade (1 day on), 2nd time on crew. Giving dirty looks last night.

Learning Crew Continued ---

People who are under Penny's supervision but not on Learning Crew:

Tom Partak - seems to be much better. Rob Gieg says he's doing ok. Odell Rhodes says that Tom has been much better and expressed the desire to make it through. Tom also shared his clothes this past week with others. He also confronted Jair for his bullshit.

Janet Tupper -She should get up earlier so that she can make her bed properly and get ready for work. Needs to take better care of her clothes.

SUPERVISORS OF LEARNING CREW

Ronnie James(from Sebastian) - Way too easy on the people. Every now and then he might say "Push." Once in a while he might get strong on them.

Chris Cordell(from Sebastian) - When the Sap team asked Chris a question, he had a bad attitude. Good with the crew.

Sebastian (self criticism) - Sometimes I'm real easy on the crew, which I shouldn't be. Sometimes I don't listen when somethings wrong with them. Sometimes I close my eyes for a couple of minutes. I will stop doing all these things and for discipline I will go on # the Learning Crew for a week.

Fenny Silver - self criticism - I need to listen to the people in a more stable manner. Sometimes I allow people to make me feel intimidated.

(Personal to JJ from Penny, not to be read unless you wish:)
Al Tschetter gets very excited at times and explodes. Night before last he got mad and said he was "through" - he gave the gun to Sylvester and walked out mad in front of the crew. Chris Cordell went and got him and he came back. ALSO, HE SOMETIMES COCKS THE GUN AND PUTS IN ON PEOPLE. I worry about this for fear of an accident. Al told me that Sylvester left a shell in the chamber a few days ago. I reported this to Joyce T. who said she thought it was ok to cock the gun.

Note from Jeff Carey: I think that people should take into account the fact that the small streams near to the central complex but back in the bush are full of fish. Also there used to be a trail from the right side of our road about halfway back here to the Walabaka Creek which is deep in the bush but about 20 ft. wide and full of fish. I have seen people bring alot of fish out of here. These constitute a resource we have not yet tapped. Furthermore it doesn't require shells to obtain protein this way. You can get 50 to 100 lbs. with a net in less than a day. True, this is at this point an unknown factor but I believe that we should take immediate steps to make this a known one, taking into acct. the fact that if we must endure a state of siege this could be a means of survival

PRIMARY AND PRE-SCHOOL - AGES 3-5

Goals

To provide perceptual, motor experiences intended to produce high success rates as foundation experiences for the development of a positive, assured view of self.

To begin the teaching of cause and effect relationships.

To instill a strong sense of responsibility for all actions and statements.

To instill a respect for collective property, collective opinion, collective qualities of leadership such as the willingness and courage to question and express individual opinions so that a true dialogue can develop and all minds can contribute to the collective.

To instill in each child that work is good and all that is good is the product of work. To instill that honesty and truthfulness are fundamental to co-activity which is in turn fundamental to cooperative effort.

Time Allocation

The pre-school children are in a structured group setting for 8 hours. They learn and play in groups and so learn sharing at a very young age. Their day includes supervised group play, dances, songs, walks, naps and snacks. Each child is encouraged to participate in the various activities cooperatively with the group.

With the exception of evenings and nights, the pre-school children are under the supervision of the pre-school teaching staff. The Director of the pre-school worked for many years as a pre-school teacher in the United States.

No formal effort is made at this age to teach academic skills or information but educationally stimulating games are part of the program.

Daily Schedule

7:30 - 8:15 a.m.	Breakfast
8:15 - 9:00 a.m.	Post breakfast wash-up and journey to the pre-school playground and activity center. At the playground they have activity, an apparatus to challenge and enhance their development muscularly, perceptually and neurologically.

At all times teachers help the children learn through their daily experience socialist principles.

Following a group lunch and nap, the children again have a play period. The afternoon play period is inside with toys and puzzles. At this time fine visual tactile and special discriminations and fine muscle coordination are stressed as gross motor coordination skills were stressed in the morning.

P. 9- 11/11/51

The children spend even days and nights with their families. Those children who do not have their parents with them in Jonestown spend the evenings with married couples who are their parental figures. Parents and teachers have frequent meetings to coordinate their efforts so the child is not caught between conflicting expectations.

ELEMENTARY SCHOOL - AGES 6-12

Goals:

Initiate new goals:

To inculcate the following socialistic principles:

1. Each one teach one.
2. It is the responsibility of each young socialist to acquire educational skills which can be used to learn and apply knowledge predicament and eliminate suffering.
3. To inculcate the values that integrity and loyalty are important and honorable qualities.
4. To inculcate the conviction that labor not only is honorable, but desirable..
5. To inculcate the conviction that mankind holds the keys to his destiny; mankind determines his destiny, as the Marxist dialectical process unfolds.

Time Allocation:

The elementary students are awakened by their parents at 7:00 a.m. At 7:30 a.m., they eat breakfast at the community dining facility. Following breakfast the children are supervised through toothbrushing and final personal details before school begins at 8:00 a.m.

Classes include:

Language Arts: Becoming receptive and expressive.

Aspects of spoken and written English language. This includes Reading Skills.

Mathematics: Includes basic concepts of numeration, arithmetic symbology, computation and reasoning.

Perceptual Training -- Audio, visual, tactile training separately and in integrated patterns.

Page 9 - 177

Physical Education: Designed to provide mostly group or team cooperation experiences in setting that promotes development of perceptual-motor skills, strength and stamina, encouragement of the qualities of fairness and learning to be a "good sport".

Social Studies: An integrated discipline including aspects of economics, politics, geography, history, philosophy and demography - interpreted within the context of the Marxist dialectic.

Guyanese History: Specific details of Guyanese history with parallels drawn with the struggles of all third world peoples. Study of Guyanese heroes and historical figures as well as current Guyanese developments.

Foreign languages including: French, Spanish, Portuguese, Chinese, Swahili. Depending on the age of the students, their language background and the language being taught the approach and goals may vary to include:

1. Study of sentence structure (syntax) and grammar.
2. Symbol systems.
3. Conversational language.

Two and one-half hours of each day are spent in apprenticeship training for the children 10-12 years of age with 1 1/2 hours similar work experience for children ages 6-9. This work experience includes all aspects of the project life from electricity to carpentry, cooking to animal husbandry, and other fields included.

The initial phase permits several days experience in each project area unless exceptional interest or talent is exhibited. In such cases, the student may pursue further training of the field of interest.

An emphasis is made to protect the training aspect of the program. The trainees are placed with workers who have proven to be good workers with a collective conscience who have empathy and patience in working with young people.

The elementary school children are supervised by their teachers from 8:00 a.m. until 4:30 p.m. They are then released to their families for dinner and evening and nighttime activities.

SECONDARY SCHOOL - AGES 13 - 18

Goals and Values:

Continuation of the values and goals from the preschool and elementary.

[Handwritten signature]

Initial New Emphasis:

1. Socialist Work Means Change
2. It is most honorable and desirable to work the earth to produce food.
3. For education to be of real value, it must be incorporated into the work experience to practically benefit the people.
4. The task will not be complete so long as there is one suffering human being.
5. Ignorance is a capitalist luxury we cannot afford and do not want.

Goals:

1. To learn and apply systematic reasoning and logic procedures to problem solving.
2. To develop a degree of mastery of arithmetic symbology, concepts, algorithms and reasoning as will enable the students to perform the occupations native to their job or employment.
3. To show greater respect for and take greater pride in active participation in the solution of a problem than the planning and discussion of it.
4. To develop in the student receptive and expressive language skills and the development of skills of analytical reasoning as will enable the students to gather knowledge and ideas written by others; and to encode thoughts, beliefs, factual information and postulations in a standardized form in English and one other of 5 languages.
5. To inculcate a basic respect for all life, but the conviction that to live as a socialist is more important than life itself.
6. To develop within the student the ability to translate plans into a methodic goal-oriented action sequences.
7. To inculcate a basic conviction that implementation of Marxist principles benefits all peoples.
8. To inculcate a basic and active belief in labor as the process and route to human betterment.
9. To develop in each student such organizational critical/analytic reasoning skills as will enable the student to approach problems dispassionately with

PP. 9 - P.K.H.

moderate assurance, state problems accurately, thoroughly, and postulate solution steps, and evaluate cause and effect relationships. A Marxist focus on all problems helps keep a unified perspective.

10. To engender in each student a sensitivity to the struggles of all people seeking freedom, self-determination and security.

Program:

The secondary school program is a work/study program, the work day being divided roughly equally between work and study.

As discussed for the elementary program, students receive training with the work experience. All aspects of community functions are open to apprenticeship training.

The courses offered are:

Medical First Aid	Basic Arithmetic Review
Nurse Science	Algebra
Basic Biological Science	Geometry
Animal Science	Basic elements of spoken and written English
Literature and composition/ language arts	Social science with a Marxist perspective and socialist concepts
Foreign languages:	
French	Chinese
Spanish	Swahili
Portuguese	

It is our belief that our program will create students dedicated to the service of humanity, sensitive to the problems and struggles of others, possessing logical reasoning skills to approach problems effectively and having sufficient study and learning skills to learn technical data necessary to formulate and execute solutions to problems, i.e., the development of socialist character. The school does not teach religion, in any form, except to point out how religion has been used to pacify oppressed peoples throughout the ages. Students graduating from Jonestown School will have had training in manual arts as well as training in at least one trade or skill. Students who have the interest motivation and ability to go on to college will have completed college preparatory course work.

Through the program in social science, the students shall have been exposed to the histories of peoples struggling against oppression in its varied forms and shall have a strong identify with third world peoples and their struggles.

The graduate of Jonestown Schools we hope to be a sensitive socialist individual with well-developed problem solving skills and the ability to implement solutions. He or she will be able to work with their hands and their minds and will have their hearts in touch with the socialist cause, and will be loyal and willing contributors to the development of Guyana.

WEEKLY REPORT
PUBLIC UTILITIES

DATE: JULY 17, 1978

DATE 7-10-78 thru 7-16-78

SIDEWALKS AND ROADS

SIDEWALKS WAS STARTED AROUND KITCHEN AREA IN ORDER TO ELIMINATE OUR NARROW WALKWAYS. WALKWAYS COMPLETE ARE AS FOLLOWS BAKERY SIDEWALK , SIDEWALK LEADING TO BATHROOM ALSO AROUND SHOWER AREA. ALSO ALL SIDEWALKS WERE CHECKED FOR BAD AREA AND WAS REPAIR.

ALSO SIDEWALKS CREW CONTINUED TO WORK ON SIDEWALKS IN COTTAGE AREA. DON FITCH MADE A ROLLER FOR USE WHICH WE USE TO COMPACT THE DIRT. JOB WAS NOT COMPLETED ON THE WALKWAY STARTED BECAUSE OF WEATHER & HAVING TO ASSIST IN CARRING WOOD.

A MEETING WAS HELD TO DECIDE WHAT TO DO ABOUT OUR ROAD PROBLEMS THAT EXIST IN THE CENTRAL AREA. WE MET WITH COMRADE ISSAC FROM KAITUMA. HE SUGGESTED CLOSING THE ROAD DOWN AND MAKING A BY PASS ROAD, THIS WOULD GIVE OUR MAIN ROAD A CHANCE TO DRY OUT. HE STATED THAT HE HAD LET THE ROAD DETERIORATE SO BAD THAT IT WAS BEYOND REPAIR. HE ALSO SUGGESTED USING LOGS TO REBUILD OUR ROAD.

SURVEYING & DRAFTING

THE SURVEY CREW WORKED ON THE CITRUS FIELD BY THE NURSERY SURVEYING FOR ACREAGE, JOB WAS COMPLETED, AND DRAWN UP. SURVEYING CREW ALSO WORKED ON INTENSIVE FARMING FIELD, TAKING ELEVATION SHOTS IN ORDER TO FIGURE OUT PROPER DRAINAGE. JOB IS 2/3 completed. WE ALSO WORKED ON NEW PROP. SENIOR CITIZEN HOUSING SITE AND ALSO THE PROP. NEW COTTAGE SITE.

SANITATION

SANITATION

MARIE MADE DAILY INSPECTION OF INTER-CITY AREA , CHECKING FOR VIOLATION OF ANY SANITATION CODES. ALSO EACH SUPERVISOR WAS INFORMED OF PROBLEM AREAS SO THAT THEY WOULD BE ABLE CORRECT THEM. THERE WAS ALSO A INSPECTION MADE OF THE PIGGERY AND CHICKERY ONCE THIS WEEK FOR SANITATION PROBLEMS. WE

PP-9-~~12~~17-1

ALSO HAVE PROPOSED THAT THE PIGGERY AND CHICKERY BE INSPECTED AT LEAST TWICE WEEKLY.

PUBLIC SERVICE

PUBLIC SERVICE CREW WORKED ON CUTTING GRASS, HAULING WOOD FOR SOAP FACTORY AND BRICKS. THE CREW ALSO STARTED ON THE NEW TOILET SITE WHICH WAS NOT COMPLETED. THEY ALSO CARRIED IN CONING LUMBER FROM OUR BOAT. OTHER PUBLIC SERVICE CREWS DID THEIR REGULAR DAILY JOBS SUCH AS BATHROOMS, SHOWERS, PRIVILION, CLEANING SIDEWALKS AND CUTTING GRASS.

PROBLEM AREAS

SIDE WALKS IN CENTRAL AREA ARE WAITING ON THE TRACTOR TO BRING IN DIRT. WE ARE ALSO WAITING ON THE TRACTOR TO HAUL THE TRASH OUT TO THE DUMP SITE.

ITEMS NEEDED

1. WHEEL/BARREL
2. MORE THRASH CANS NEEDED
3. NFFD LIGHT FOR LOFT IN COTTAGE 11
4. NEED TWO SPRAYERS FOR SANITATION

Proposal for airstrip & possible aircraft:

We feel that it would be relatively easy to construct an airstrip on our property parallel & ~~run~~ ^{run} adjacent to our main road on the westerly side roughly ^{between} the piggery & the 1st mile. There is a stretch of land there that is fairly straight & has little or nothing planted. We would have to bulldoze, scrap it, use a roller over it to make it reasonably flat. (We should be able to use a scrapper & roller that are on the Matarkas crew) The strip would be roughly 3000' long & 30' wide. The advantages would be quicker evacuation of medical,

other

emergencies, savings of maintenance on our vehicles in traveling to P.K. a PAK-WELL Consumer Product ■ Oakland, CA 94606

- Preliminary Pricing on wheat & beans \$21,100
based on 350 lbs per barrel. (\$17,300 for wheat, \$2100
for kidney beans, & \$1700 for pinto beans) Pricing
from Burger & Platter? (Note: on your memo you
have listed 50 barrels of large red kidney beans &
50 of Cuban black beans. I was told in FEB that it
was to be 25 barrels of kidneys & 25 of pintos?
which is correct?)

- auction coming up. Are we interested in asbestos,
mugs, Stratton parts, 2" Clark fork lifts 3500-4000 lbs
capacity (1 has pneumatic tires). Think we can get
for \$1000-\$1500 - sell new for \$7,000-\$10,000; fork
lift parts; oscilloscope, switches, sheet metal screws,
transformers, weather measuring instruments; Hewlett
Packard electronic test equip. (if they find something
on test equip list John submitted to us by -- They would
like approval on offering 25% or less of actual price).
word measuring - recording equip. A total of several
million dollars worth of govt surplus stuff will be
auctioned.

- Re the 15 KVA transformer. Is the 120 volt from line
to neutral? Can this be an auto-transformer or must
it be isolated. Need answer because it takes 8-12 weeks
manufacture time.

- many caps will be sent w/ next out (paths) PPH-1

U.S. Feedback (J.R.) on Aug 13

- 20,000 - 30,000 zippers available -- heavy duty

^{metal} metal, none under 9", a lot of them are double & a lot of them 30" long. 100 ea if we get all of them.

Doesn't know how much if we get less.

^{looking for them in the market} Do we need work shirts?

- So the watt meter we order a long time ago the same thing as ^{the} industrial analyzer in PWS976 reversed? (ans: no, cancel watt meter, get analyzer).

- Colored T-shirts - 3000 at 20¢/ea 50% polyester 50% cotton (red, blue, orange, yellow - all 1 color) J.R. says these are not "cheapsies" -- probably even, but as good as what has been sent. (Patty)

- Can get ~~work~~ work boots (leather) ^{all} brass eyelets, ridges in sole, tan, mostly triple triple stitched, come just over ankle. -- J.R. thinks well worth price - \$11.00 ^{Made in Korea.} a pair.

This is the best price they've been able to find.

We didn't get \$7.50 ^{per pair} because we didn't act quickly enough on it. J.R. is afraid the same may happen w/ this price.

- Boys jeans - 7 doz available at \$3.00 ea. Nothing wrong with them, they're just not in style. Patty says she can take the small size (27-30) so we want the rest? Maverick brand. 11 1/2 oz denim. Call it "Lean-fit".

Revised Log

- Telescope lens: Bell's Howell - \$157.99 (plus adapter \$30.40) Donny said Dad cleared this some time ago. ^{PL-9-1110}

U.S. Feedback (J.R.) on Aug 13 Cont:

- Lilly (Sandy) wants to know to what kind of paper we need, how many reams, specifics -- we just told them a lot of paper -- not specific enough

- Carolyn Layton ordered maps over 3 months ago for school. Is this still needed? (J.R. has ^{either} help on this)

- Burels come unlined + ungalvanized, lined + ungalvanized + galvanized + unlined. We can get 300-400 ^(all open end) galvanized for \$11.00 ^(used like new) (normally \$20.00)

Do we want to use galvanized w/ a 4 mil (.004 thick) plastic liner. We used unlined ungalvanized aluminum last time. Do we want added protection of a plastic bag or a lined closed ~~end~~ end for wheat + beans? Ron should be called in on this one

- They got all the emergency letter parts.

Option 1 - 5938: 3 alternatives. #100 KW DeLco Generator + Engine #9250 built by Gen Motors 50-60 cycle. Meets our specifications ~~was~~ was used for military, use completely rebuilt - before we take it, it will be completely disassembled, mag tested, dipped + coated. It will be tested under full load. Engine is a Jimmy Detroit Diesel - dynamometer tested + is a 4 valve head, advanced timing in line engine like we already have. No junkies to go with this. We can have gen treated for fungus, already treated for rust. Can get generator alone for 4250.

Option #2: generator #1 w/o engine. Option #3 100 KW

911 Tour Feedback from Maria on Aug 14:

- Who ~~is~~ should be contacted re: towing all batteries to drydock? ^{inform} ^{radio}
- Demetholate -- How much do we need. It's ^{room} been on order for a long time & now available \$50.30/gal at UNTC. Need to know today
- TSP, Urea & Potash needed for backyard of our 911 Tour residence. Send some out. Please assign. They want to clear purchase for garden tools -- hoe, rake, etc
- Send throw out bearing for 6x on Wed on flight.
- How much gas do we want on Cudjoe to come in?
- Infr items: They have 1400 lbs of fish & will try to get more today as fishing boats come in this weekend
- Order 5747 ^{5717 5733} ~~is~~ not in stock - they don't know when it will be available
- \$1400 worth of bar soap ^{order#} has been purchased. Still working on detergent (Custard Powder & Baking powder purchased as per order)
- ~~the~~ Maria wants to know if Richard did anything on PO Order 5745 (MF-IH tractor parts)
- Is a globe a fixture? This is what Scott bought as a porch light fixture \$4900 on Oct 5.
- 5707 Farmer files & paper files will not be available till next month. We were given wrong info.
- Ask Richard if he did anything about the wood discrepancy. Does Richard have a check register in Town. PP-9-10210 ^{if}

U.S. Feedback from J.R. on Aug. 14:

- Re: Shipping direct from W. Coast to Trinidad, J.R. said it is ~~too~~ very expensive. No one goes directly from W. Coast to Trinidad or Caribbean. For example to ship direct from W. Coast to Y/Town cost \$25,000 as opposed to \$18,00 from Houston to Y/Town (J.R. had looked into this before and said the situation is still the same).
- Items to come with next person. 7 bags allowed:
 - 2 will be personal stuff; 2 will be letter parts;
 - 1 will be paper (nearly out here); 2 will be electrical and Patsy's stuff. We are also to have sent a backup playback unit ^(video) which is essential for Donald Freed. It must come now and may have to be sent special at extra cost. Another item is the Bronkscope which if needed immediately, will have to be picked up by the person in the East. This has been referred to Jarre Buford to check into since I will be gone today.
- Andy is meeting w/ Advent (video unit) guy again tomorrow to show him slides of the project.
- Wheat per lb price. averages out to 24¢/lb.
kidney beans 24¢/lb. & pinto beans 19½¢/lb.

2/1/70 Feedback from Maria on Aug 14:

- Our VW van needs to be overhauled according to the guy who does our work. Should we send someone in to work on it? Blue van is not working.
- Molasses will come out on our boat. and as well Nancy's paint order.
- How much gas should come out? Charlie says 20-25 barrels. O.K?
- Van Sleitman told Charlie he would give us a "substantial donation." He didn't say how much. We've paid \$30,000 against our bill of \$60,000. They are asking for \$30,000 more right now. Maria says there's a chance this is the final bill but she can't tell for sure. She is going to pay \$10,000 of it and see what happens.
- Evelyn LeRoy is supposed to get serial numbers & model numbers on all freezers here so they can get compressors for them. Is there an order for this? Please remind Evelyn.
- 2/1/70 wants to know if something can be sent in to match the adaptor for the acetylene regulator we want in order 5757. They don't know what this is and evidently no one else does either.

9/1/2009 feedback from Maria on Aug. 22:

- Our cargo list from the offloading indicates we were short 209 bags of flour. Maria ~~wants~~ ~~to~~ says they loaded 400 bags. Is that how many we were ~~so~~ expecting? We weren't measuring any pork. They took off 300 lbs because they couldn't get enough ice to pack it in. Maria personally put the pig's push broom + the garden tool on. If they are missing they may have been stolen. How do we know we were short 7 boxes of hooks?

- The tide was too low to load the midboxes (which we have) and the gardens (which we don't have)

- They have purchased 50 lbs of welding rod which they got at the places we told them to go 2 weeks ago.

- Paint not gotten yet (5 different orders). They say they are short-handed.

- Order 5707 files - won't be in till next month (Charlie)

- They didn't get word soon enough on the pullets. Do we still want to get 500?

- Order has been placed for 4000' of lap siding (Charlie)

- 600 gals bleach - didn't have time to get it.

Y/Town Feedback from Terri on Aug. 31:

- Aapt. to see if we can have landrover in now or Sat w/ Men of Work & Transport. Co. is holding it for us. ^{being ordered from Japan.}
- Noodle making machine ~~can be picked up in (2 weeks)~~ ^{2-4 months delivery}
- Albatross will be leaving "sometime" next week.
- Waiting for Joan to come back to see about pool table -- she's the only one who knows where to go.
- Ask Maria about Charles' large tractor order when she comes in.
- Rice milling machine didn't get loaded but its funnel did.
- The company gave us wrong info on aluminum. All we can get is 1500 sheets 12' long, 36" coverage & 26 gauge, and 3100 sheets of 12' long 21" coverage & 27 gauge. Our order was for 7000 sheets of the 26 gauge. We are proceeding with the stuff that's available.
- Our 600 gals of bleach is being stored at J. P. Santos.
- Richard said he will check into water situation at the warehouse for sale. There are no weight measures in the country according to him. Said he sent one in months ago & it was lost. He said the Palm Court is now doing a good business & the owner's attorney advised her against selling.
- Washing machine motors. They only have 220 volt which we are getting. We'll have to convert washing area to 220V.
- Phillip is staying on boat & not doing other work.
- Y/Town will call re: what feed is being used for commercial chickens but Terri Carter said this has been done at least 3 times in the past & why don't we keep record - 9/27/80 - 13

Y/Town Feedback from Gloria on Aug. 3:

1. - Y/Town wants to know what is ^{you making profit} Truethanolamine (for Jack Larson)
2. - Regarding special items cleared for purchase (tractors, plow, trailer, noodle machine) ones in stock will be paid for after the Company tells us how much discount we'll get (one this week); items not in stock can't be paid for until invoices come in with pricing.
3. - Discount on aluminum is 24%. Was \$2.98 Discount price for us \$2.75. We're buying it as soon as they'll take our money. 4. - They have checked into hiring the jumbo ~~sh~~ (0.500 ton boat) and its costs \$7000, but there are 2 others who want to send shipments into this area + we may be able to do 3-way split. Jumbo is on drydock for about 2 weeks.
5. - Another bit of bad info: The ministry that supposedly didn't want the hardware, it ordered does ~~not~~ want it after all.

21 Your feedback on Aug 4 from Elora:

- When we cancelled the checks last week we told them we wanted them this week but the guy didn't put us down (and there is a flight on Wed), so when we called to see about it, it was too late. The first earliest we can get more checks now is Sept. 27th!
- 2 electric motors purchased for \$189.00 each for washing machines. There are 4 more available at \$335.00 ea. That are better motor and have starters. OR we can get cheaper ones for \$110.00 ea. What do we do?
- We can get warehouse space for \$600/mo. We have no place to put the cement we ordered. Ujara is seeing if we'll lose it if we don't pick it up.
- Cost of EMF185 w/ front end load and weeks 6 ton trailer is \$44,800. Was asking for a 10% discount. ^{Waiting} or answer.
- Tennis shoes are about \$10 for adults + \$8 or so for children.
- Rickard guys were definitely getting the 3100 sheets + 1500 sheets of aluminum plus 5 rolls of 27 gauge 29 1/2" wide x 100 ft long for capping. Will pay 1st instal. Wed.

Georgetown Feedback From Maria on Aug 10:

Things coming in on dump truck: 2 boxes of
oil filters (PO5737); 4 boxes of aerograms
(PO5749); 27 gal. bleach (PO5759) -- more later;
4 barrels of gas (no purchase #); 3 blackmer pumps
(PO57~~45~~³⁴); 6 drums of whitewash; 4 boxes of
educational (high school) books (they have 9 more boxes
in garage + more to pick up); 4 boxes of nuts
& bolts (PO5735); 7 boxes of sprayer parts (5721)⁵⁷²⁴
Maria thinks 6 of the boxes are new sprayers (5723)
(do inventory of sprayer parts + see if we need more);
4 bottles of McDougal fluid; planting line + molasses
po. to be picked up - they gave us wrong info.
Maria didn't have prices at hand. I will get them from her later.

I - the fascist gover of the Shah of Iran trembles. To try to keep control he appointed a new prime minister who promise freedom for all political parties. However the people are not appeased. Last week the Shah burned down a theater killing 400 & he tried unsuccessfully to blame it on the left.

II - Much depend on the Camp David meeting among Carter (US), Begin (Israel) & Sadat (Egypt). Israel offers a vague peace plan, she refuse to give up its occupied land (west bank, Jordan, Gaza Strip (Egypt) & South Lebanon). The Soviet Union & the Arab world protest that the US plans to offer a separate peace to Egypt - the heart of the problem is the right of Palestinians - they need a homeland & governmental representation. Begin fail not consider it. He bomb a block in South Lebanon where the PLO (the Marxist Marxist Palestinian group - the Palestine Liberation Organization) office, children & over 100 wives were killed. This make unity among all of the Palestinian groups.

III - Peace Larka of Lebanon demanded that the UN give proper backing to the Syrian troops & that they get rid of the Phalangite who are Soviet puppets.

IV Civil war is ready to breakout in Nicaragua where the Sandinista just successfully released 140 political prisoners who found sanctuary in Mexico, Venezuela & Panama. This sparked the people to unite against the hated dictator Somoza. They are in 3rd day of general strike that has closed everything. Voice of America say if Nicaragua will become a second Cuba.

Required Commentary

Guyanese officials attended a rally on the reunification of Korea. The U.S. maintain the fascist South Korean Gov. a puppet Gov. that allows them to milk the minerals out of S. Korea. The people of Korea want a united country. North Korea was praised as a small but brave & industrious friend of Guyana. Guyana has much to learn from North Korea. Guyana has been bombarded by U.S. It produces 15,000 tractors a year, while Guyana produces only 300. Despite the opposition of the U.S. military, North Korea has resisted imperialism. The small country has over 20 million people but they have developed self-reliance. N. Korea maintain relations to both the USSR & China & Guyana is following her example. Guyana is moving ahead on a socialist course, making her an enemy to the U.S. Guyana accuses the U.S. of direct violence in the Cubana Airlines bombing. Guyana refuses to bend to IMF demands that she devalue her dollar. Guyana can make this stand viable because she owns 90% of the means of production. Burnham has given police a go-ahead to take people to trial for corruption. He says: everything has its just time, even top officials will be tried. Burnham says: The average slave & rob have always gone to jail for theft now so will the white collar worker & the socialist state will take care of his children.

Korea: by the Japanese

Korea was annexed in 1910, at the end of WWI the Soviet Union liberated the north & the US the south. The US wanted the maximal wealth of South Korea & set up a puppet Gov. The Soviet Union gave North Korea her independence in 1948. The people elected Kim Il Sung president. He had been a guerrilla leader & fought all his life for the liberation of Korea. In 1950 the North Koreans liberated South Korea, the US sent it's military in - & so began the Korean ^{war} ~~war~~. The Chinese moved in to support the North Koreans. In 1953 a cease-fire was called & Korea remained divided. Kim Il Sung has the deep respect of his people. Capitalists put it down as a religious fanaticism, because they fear a people so divided. A strong leader is a necessary step in the Revolution of Communism. North Korea has completely re-built her industries she has free medical care & education, while in South Korea the people live in misery under Dictator Parks. Most of the women have been force into prostitution (while in the North women have a strong sexual discipline & have been liberated from centuries of sexual discrimination). North Korea has 20 million people while in the South they have 35 million. Parks maintains his control over South Korea thru the repressive KCIA (the Korean CIA) that keeps on people at home & abroad. Parks is hated the world over for his torture & imprisonment of his people. He is an

embarrassment to Carter's human rights policy. The KCIA was involved in bribing several Congressmen to vote military aid to Parks. The US has 42,000 troops in South Korea and control the South Korean military. Sun Moon (of the marriage) comes from S. Korea & is good friend of Parks. North Korea maintains ~~strong~~ Relations to both China & Russia

Bakke Decision: Ruling class weapon

The Supreme Court decided in favor of Allan Bakke, a white, middle-aged, average student, who claimed he was the victim of reverse discrimination because affirmative action lowered his chance of acceptance into medical school. The effect of their decision was to eliminate affirmative action. Affirmative action says you must take action to overcome the effects of centuries of racism & sexism. Whites won't just naturally drop their racism, nor will men drop their sexism... Change must be enforced by law. The Bakke decision gave the power to the ruling class, who have always appealed to the racism of the backward, white working class. The ruling class stays in power by dividing the working class white against black & men against women. That way they don't get together to fight the ruling class - their real enemy. Militant unions which unite the working class into a unified front could force the court to change their decision. However, there are no militant unions in the U.S. so the Bakke decision is just one more step in the racist build up in the states.

- Youth Terror

Commentary on ABC's "Y.T.": A view behind the gun." A documentary gave accurate shots of street life & interviews of the young criminals. It displayed the desperate hopelessness of their lives - lives without jobs, broken families, alcoholic parents, drug addiction, wife & child beating. Theft was a way of survival in a jobless world. They displayed a lack of remorse, they did not care what happened to their victims. They believe they must use as much violence as is necessary to get the job done. They all accept as inevitable that they will eventually get caught. They interview a young white murder who felt no shame & a young black mother who complains she had no control over her children while the children made fun of her before the T.V. camera.  had slanders prepare the public for the state
 to move in for the kill. The article is filled
 with cheap pornographic descriptions of an
 important gold kadillac. Stopping long
 enough to rape, murder & white wash the
 Community, or they spend they time in
 luxury penthouse, smoking coke & sipping
 Cognac. It is important to note that the article
 is full of informants who want give their
 names. Huey Newton was the Defense minister
 of the Black Panther Party in the 60's. He
 was popular with whites left because he
 dropped racism & appealed movement against
 the police to both Black & white police to
 join in a guerrilla movement against the
 police. They told lies about the Black
 Panther burning down, beating & raping.
 Some did a painting of Huey, they made
 him look like a monster.

New Zealand

is a series of Southern Pacific Islands 1280 miles from Australia, some in the arctic region. Total size is not much bigger than Guyana.

Population is 3 million. There's not much fertile land mostly it is grazing land for it's 60 million sheep & 2 million cows. Part of it's main exports are wool & butter. New Zealand's economy is dependant on her imports. War would destroy her economy. The Polynesians arrived on the volcanic islands about 500 A.D. The white man discovered the island

in 1642 by Abel Tasman who named it. Capt Cook started it in 1770. The Polynesians known as the Maori have been steadily eliminated. Today there is only 8% Maori & 91% European. Despite their racism they are known as a social democracy. It was the first country to give women the vote & one of the first to introduce welfare, old age pensions, social security, minimum wages, & socialized medicine. - the economy of the capitalist world is tottering there are several patchwork operations going on.

○ - the EEC has been in Brussels. This is the European Economic Community - more commonly called the Common Market. The purpose of the organization is to build a European trade community & to allow free trade among its member nations. Recently the EEC made trade agreements & promises. These undermined the US attempt to undermine the Japanese economy thru IMF manipulation. The OAU attacked the EEC's position in Africa, saying that they can't help themselves so they are trying to bleed Africa. As they increased imports from Africa they have made no attempt to help Africa industrialize (Belgium, Germany, France, West Germany, Ireland, Luxembourg, Netherlands, United Kingdom).

- The Economic Summit meeting in Bonn, West Germany is a meeting of the 7 major capitalist nations: the US, Britain, France, West Germany, Italy. They have been trying to stabilize competitive economy. Japan is winning the capitalist competitive market & a trade surplus of \$5 billion. The value of the yen increases while the dollar decreases. With much pressure Japan agreed to cut her exports if the US would reduce her oil imports (the US uses 50% of the world's oil) & (2. to test crude oil, Carter agreed in order to stabilize the dollar. However Congress would not back him up - fearing water reaction to the 2 gallon a day gasoline rationing Japan is going back on her part of the bargain while the dollar continues to fall. Add to this France's decision to sell her minerals to the highest bidder is serious trouble for the US. To make matters worse the OPEC countries have been watching the outcome of these meetings. They don't think Carter will be able to get Congressional backing. They've lost faith in the dollar & are planning on stopping their use of it to sell oil. They are looking for a new currency or well up to a gold standard. The capitalist countries may unite against Japan & pass protective trade policies.

PP-10-69

against her, refusing to trade with her. This would bring the value of the yen down, but such economic manipulations begin wars.

Meanwhile the Non-aligned Conference in Belgrade Yugoslavia shattered the West's attempt to censor Cuba's presence in Africa by affirming the right of African nations to ask for help wherever they want. The OAU conference in Khartoum was a disappointment as it rejected the West's proposed Pan African army & decided to form a totally independent force.

- West Germany is having tax cuts. They will be using their reserved money to help other capitalist economies
- Gabon kicked out 9,000. Benin people in retaliation Benin went over to the UN & accused Gabon of attempting a military coup in Benin.
- The UN Security Council voted 13-2 for Namibia's independence. They insist that the UN monitor the election. The USSR says this is a way for the US to control elections. The UN agreed to give Walvis Bay to Namibia. South Africa has been insisting on keeping it for a military base.
- Zaïre is celebrating the opening of the Angolan Embassy. The Congo recently negotiated secretly to bring Zaïre & Angola together. The Nationalist dictator Mobutu is tired of being underpaid by the imperialist. He plans to ship his minerals out on a joint railroad with Angola & selling to the highest bidder.

Founded in Addis Ababa, Ethiopia in 1963

OAU = (Organization of African Unity) is having a meeting in Khartoum that will go down in history. Africa has grown up & they realize that the capitalist system is falling. The OAU is made up of all the independent African states except Rhodesia & South Africa. In 1965 Britain was trying to the idea of majority rule in Rhodesia, organized under the Rhodesian front Party & Ian Smith as leader. They declared independence from Britain who put economic sanction on Rhodesia. The OAU met in Guyana & demanded that Britain use military force.

II. Major changes in Africa

1. The socialist countries have gotten on their feet & Soviet aid, they've come to realize that in order for capitalism to succeed they need to keep Africa down & to draw on her minerals.
2. They have come to realize that in unity is strength & they no longer fear nuclear war. Death is better than slavery.
3. This is the significance of the current OAU meeting of 30 heads of state. Formerly the US looked up the idea of a pan-African military force to protect neo-colonialism in Africa. The people of US & Western Europe won't send their sons off to foreign wars anymore. They want a Black African "front" army.
4. The African countries united in rejecting a foreign controlled military force (including the traditional pro-West government like Nigeria) & ask for a truly united African military force. They suggested invading South Africa & Rhodesia to destroy the oppressive white minority while kicking out of Africa.) that Ethiopia & Somalia were justified in asking for Cuba & Soviet assistance & that any African country has the right to do so.

(1) Malcolm X said there should be armed struggle by any means necessary. As a child his house burned. His dad was killed & his mother placed in a mental institution. After the death of Pres. Kennedy he made no more claims for territory or payment. was suspended for 90 days by the Muslims.

Because in regard to Kennedy he stated that "Chickens" come back to roost:"

stated that to teach hate for your self is worse than teaching hate for others. Blacks have less college positions today than at the time of Malcolm.

He stated that the personal problem is not solved until all the Blacks are solved.

7. Oxygen may be necessary mixed w/ 4 to 10% Carbon dioxide
Blood transfusion or CPR
8. Relieve pain by splints
morphine

Shock = blood lost, an electrical stopping of the heart.

Burn = fluid = straw color
Pulse = is very fast - low blood output
Chest
Bones

Purpose of the heart = to pump blood to all parts of the body 60-100 b per min.

Blood flow to arteries to capillaries to cell back to capillaries to veins.

Blood must flow from a certain force, it will be different for different tissues. When the heart is going fast the blood vessels are constricted.

First signs of shock

1. Sweating
2. Pale - from lack of oxygen
3. Pulse is fast
4. Nausea & vomiting
5. weakness & dizziness
6. Body cold

7. Eyes dilated
Unconsciousness

PP-10-120

VI shock

8. most of the blood is going to the heart & brain.
9. you might have a heart attack.

Cardiac output = How much blood put out

10 Pulmonary Edema

the heart can't pump out its load. & the heart become enlarge.

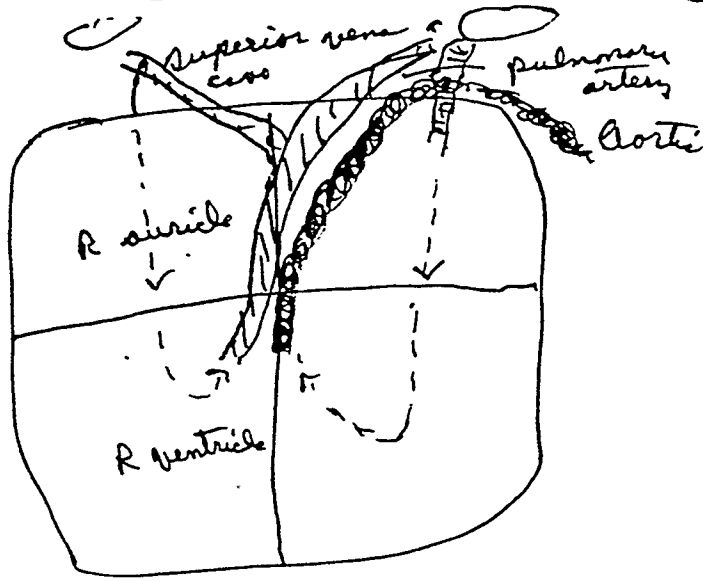

the liver is not getting enough blood to function,

11. Breathing more wrapp'd & swallow
coughing up blood or pink frothy sputum
 1. Start IK

Shock

Shock means a state of collapse of the cardiovascular system.

Heart & blood vessels

- 2. arteries
- veins
- small arterioles
- venules
- capillaries

6 quarts of blood in adults

The opening or closing of vessels is entirely automatic & is under the control of the sympathetic & parasympathetic

The heart serves to circulate the blood. If it pumps six quarts in a system that can just hold six quarts, every part of the system receives a regular supply of blood.

Shock is a condition in which this system fails to provide sufficient circulation to every part of the body.

3 causes of shock:

1. The heart can be damaged so that it fails to act properly as a pump.
2. Blood can be lost so that the volume of fluid in the container is insufficient
3. The blood vessels of the container can dilate. Insufficient to fill up the system & provide efficient circulation.

There is insufficient blood flowing through the tissues of the body to provide food & oxygen.

The vital body functions slow down.

PP-10-123

1. Hemorrhagic shock = Blood ... burns plasma
Signs & symptoms
1. Restlessness & anxiety - may precede all other signs
2. Pulse weak & rapid
3. Skin becomes cold & clammy
4. Sweating is profuse
5. The face is pale or cyanotic
6. Respiration may be shallow
7. Eyes become dull or hyperemic with dilated pupils
8. Pt has marked thirst
9. Pt. may feel nauseated or vomit
10. Blood pressure falls gradually
11. Pt. may faint

anaphylactic shock
occurs when an individual who has become sensitized to a substance by previous contact & it reacts violently to another dose or contact
severe form of allergic reaction; treatment immediate medication
epinephrine - might need to be repeated

metabolic shock
fluid loss from vomiting, diarrhea or urination
or because of severe disturbance of body salt or acid-base balance by disease such as diabetes

anaphylactic shock =

1. Skin - there is a flushing, itching, or a burning sensation especially of the face & upper chest. Hoarse, edema of the face, tongue may occur
Cyanosis is rapidly visible about the lips
2. Respiratory system - there is tightness or pp-10-124 pain in the chest, an irritating cough, wheezing & difficulty in breathing

3. Circulation - there is a drop in blood pressure, a weak or imperceptible pulse, pallor, dizziness, faintness, even coma.

II Treatment Shock =

1. It is important to recognize the probable cause of shock for treatment is adjusted accordingly.
2. Do this first before anything else.
Secure & maintain a clear airway & give oxygen
3. Control all obvious bleeding by gentle firm compression.
4. Elevate the lower extremities
5. Splint fractures
6. Prevent the loss of body heat by putting blankets under & over the pt.
7. Head lower than body
8. Record pulse, blood pressure
9. Injection of epinephrine

IV therapy

I Infusion - which is used for administration of fluids other than blood.

these are blood-volume expanders, salt solution, sugar solution & dextrose

II transfusion - administer of whole blood.

Equipment needed

1. Fluids such as glucose in distilled glucose in normal salt solution, normal salt solution, lactated Ringer's solution

Sores

I Bacterial Infections use neosporin

Keep clean

A Boils NO sugar

1. the area will be hard
 2. around the area will be red which will be infected
 3. there might be a little opening
- Carbuncles are found @ the back of the head

Treatment: put hot compresses, one teaspoon of Epsom salt T.B. to bring to head.

Never squeeze because you can cause infection through the blood stream

Clean & use antibacterial oint. neosporin

If there isn't a white head let Dr. Lyana

If really bad pt. should be put on antibiotics

B. Impetigo

skin disease by strept. infection. → arm pits

Small area usually on children face

1. Clear fluid & form yellow crust
2. Blister; leave raw surface, spread
spread = soak the crust off & apply neosporin

Can spread from people to people

Leave open to air. open the blister with a pin & apply neosporin thinly. If bad give antibiotics

3. A Kidney disease

PP-10-131

Cellulitis = Bites that people scratch & sub.
 & form sores usually a crust
 on top & pus under. Remove
 the crust by soaking first clear
 out with soap or H_2O_2 & thin
 layer of neosporin & cover it with
 telfa
 open = over night of pus & red, level with
 skin, no draining

Folliculitis = open

If 2 kinds of sores people get in Guyana
 1. a little cut = within 24 hrs it will
 become big & red ring around a bubble.
 2. a perfect circle
 3. Never put neosporin on it

Treatment:

1. Keep it out of water
2. open them up. usually no pus first
clear fluid.
3. Wash with alcohol & put sutures & dressing
Bid =  no
4. the arm or leg is painful & usually
swells

Cellulitis = inflammation of the dermis

Causes by

 it can go to the heart.

pp 10-132

B. Tropical ulcer

1. Red red and inflamed
2. Hard white tissue which grows under the skin
3. Give antibiotics orally
4. It takes months to heal

II. Fungus & plant-like
B. Athletes feet or hyperhidrosis

1. Between the toes, white in color
 2. Too much water
 3. Dry well between toes & put powder
 4. Put the feet in the sun
- Children = hair, ring whitfield - athlete's

- C. Athletes feet itchy on top & sores & weeping ^{& swells}
1. one tablespoon of boric acid & one qt. of water
 2. Soak for 20 mins use neosporin or sutlun bid then put
 3. Put Decadron of fadit cream for 2 or 3 days
 4. Cover with dressing thin gauze.

- D. Blister very thick = the fungus is growing inside, open it & trim around the edge take off then dry put fadit (if in) cover the first time you open. When open try putting bleach on.
- Cracking kind of athlete's use blood root pp-10-133

Contact-dermatitis

Pruritis - itching more during the night
& warm

Cortisone - represses the attack on
the foreign protein. A dangerous
drug because it lowers the
entire body to fight off infection

PP-10-134

Skin Treatment

1. a boil = is an infection of a hair follicle.
2. carbuncle = is an infection of more than one hair follicle.

Frequently pt. & carbuncle or by boils are

1. Diabetics: put on PO antibiotics. Boils & car. found
more like on the face are particularly dangerous &
sugar. should be referred to a practitioner.

Boil in groin area & nose in which
no whitish surfaces need to be seen
by practitioner.

Simple treatment for small boil & no complications
is to apply hot salt water compress for 15 min.
if it is open let drain, apply neosporin
or antibacterial ointment & dressing.

3. Impetigo = is a strep infection that is very contagious. Its treatment is to soak the honey
color crust in warm water until they can be
pulled off easily. apply neosporin ointment, leave
open to air. It is instructed to keep hands off.
Stubborn cases are to be treated by PO antibiotics
It could develop into glomerulonephritis.

4. Athletes foot = is a fungus. it can be treated
w/ acetic acid in warm water, or
vinegar. If there is a blister
open & sharp fissure. powder or
desiccant are only to be used in
extreme cases. Cover & thin crust.

PP-10-135

5. Burns = 1st degree - red - no oedema - apply of
boiling water apply kip
2nd degree - cleanse & water of sterling
in 1/2 water 1/2 vinegar allow dressing
to dry on the pt. No kip or oedema
should be applied on open wound
Papaya may be applied later &
Linné's advice

6. Ecthyma = may come to a bite or scratch
there is a crust on top & pus underneath
Remove crust, & scrub, clean & alcohol
or H₂O₂ apply neosporin & itelpa
pad. No sugar diet, don't
shave under arms or use deodorant

7. Pizzosore - starts out as little cut, becomes
round bubbly sore & red ring around it
perfectly circular. Treatment is to keep core
dry, open top layer keratin up to
pin or sterile tweezers, cut off dead
skin wash & alcohol, euthrin cream,
Cover & thin gauze bib
if not treated red streak can develop
& true
Lufa drugs should be ordered in

19/2 Clear - Heat Exch

1. Body hot inside & send heat to the surface then out to atmosphere through the blood. There is a lot of blood at the surface
2. Sweat the process of dry climate is vaporization
Evaporation turning liq. into vapor - the faster it vaporizes the colder it will be
Heat if doesn't vaporize it stays on the skin
When the internal body is not receiving enough heat the blood will return inward.
The body dry heat up to 100 with excretion
Humidity 100 can change the body temp

hair is insulator

Both direct exposure & indoor heat
Age-old - baby & poor health of people who are on salt diet
Loss of salt from body.

2. Lt. upper quadrant - stomach, spleen & transverse colon - the spleen is frequently injured.

tenderness or pain here may be related to injuries of the spleen

PP-10-143

Important Diagnostic Signs & their Interpretation

pulse
Respiration
Blood pressure
temperature
Skin color
pupils of the eyes
State of consciousness
ability to move
reaction to pain

I pulse

Normal is 60 to 80 beats per sec.

80 to 100 in children

Changes in the rate & volume of the pulse are important

1. a rapid, weak pulse is usually the result of shock.
2. A bounding pulse is present in stages of fright & hypertension
3. The absence of a pulse means the heart has stopped
Cardiac arrest

II Respiration

Normal rate 12 per min.

1. Rapid shallow respiration are present in shock
2. Deep gasping labored breathing indicates airway obstruction or heart disease
3. In respiratory depression or arrest there will be little or no movement of the abdomen & chest & little airflow at the nose & mouth
4. Frothy blood at the nose & mouth accompanied by coughing following an injury, indicates injury

PP-10-145

to lung damage, possibly by fractured ribs
these signs are also an indication of pulmonary edema
seen in acute cardiac failure or severe lung contusions

III Blood Pressure

is the pressure that the circulating blood exerts against
the walls of the arteries. It can fall markedly in states of shock

1. Lowered blood pressure means that there is inefficient pressure
in the arterial system to pump blood to all the organs of the body.
2. If blood pressure is abnormally high, damage to vessels in
the arterial circuit may occur.

Systolic pressure is the level present during contraction of
the heart

Diastolic pressure is the pressure during relaxation of
the heart.

Normal for males is 100 plus the age of the pt.
65 = 80 mm

IV Temperature

Normal 98.6°

V Skin color.

Depends on the presence of circulating blood in subcutaneous
blood vessels.

1. Red color is present @ high blood pressure certain stage of carbon
monoxide poisoning & heat stroke
2. Pale, white, ashen skin is indicative of insufficient circulation &
is seen in shock & heart attack.
3. A bluish color. (Cyanosis) results from poor oxygenation
of the circulating blood. as in heart failure
airway, obstruction & some poisonings
4. Yellow (jaundice) seen in liver disease

pp-10-146

VI Pupil of the Eye

Normal - regular in outline & of the same size

1. Changes & variation in size of one or both pupils are important signs in emergency care.
2. A constricted (smaller) pupil may be present in drug addiction or disease that affect the central nervous system
3. A dilated (enlarged) pupil indicates a relaxed or unconscious state

Variation in size of the pupil is seen in head injuries & strokes -

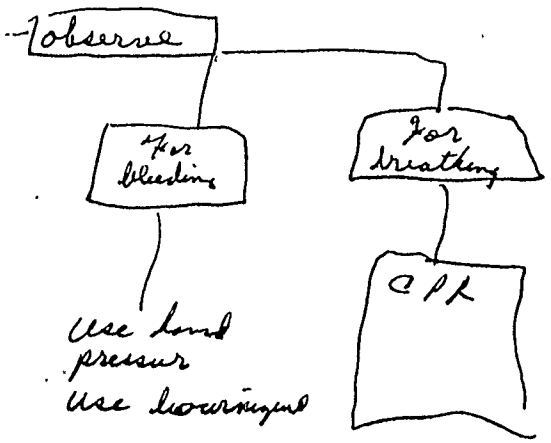

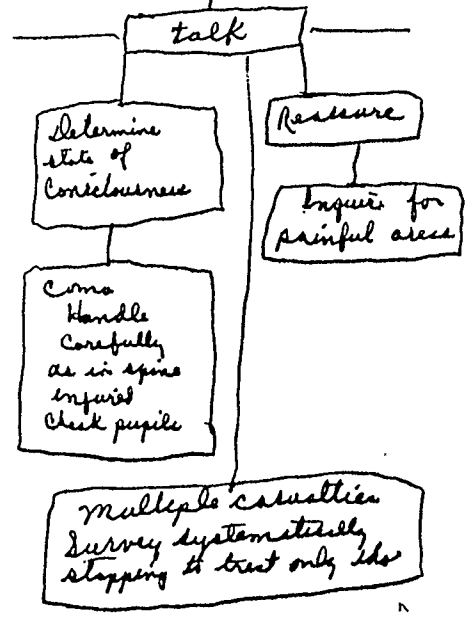

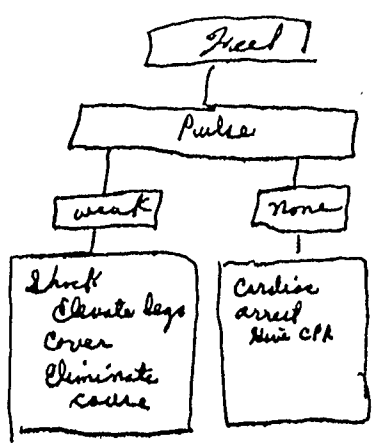

Failure of the pupils to react to light may indicate poisoning with drugs, alcohol, or solvents. In death, the pupils are dilated & fail to respond to light

VII State of Consciousness

1. alert
oriented
Responds to vocal or physical stimuli

Chest Pain

- Chest pain could be from many different sources.
All chest pain should be taken seriously.
1. Ask where is the pain? Deficit involve the sub-sternum region
 2. Describe as a clinician find. They should be able to describe it.
 1. the quality
 2. where does it radiate to? to Lt. arm. Teeth
 3. Ask when they first had the first episode? what happen?
 4. Describe the most recent attack, brought on by activity?
 5. Ask if relieved by rest.
 6. Take PVC if 6 or more in one min than alarming
 3. Nitro - relieved chest pain. It can relieve gastro intestinal pain
 4. Look vitals signs
 5. When a person is having heart pain the B/P will go up & the rate increases. B/P $\frac{S}{D}$ $\frac{100}{70}$ indicates how the heart is working
 6. Fluid in lungs - Rales - when inhaling - rales sounds
Edema - legs
- EKG To frequent. - As many in a period
Where they come from
the same places KKG - SAN & AVN
How close they come to T-wave. T. P-Q & R wave

PP-10-149

Head injuries

1. Unconscious
there might be bleeding in the brain
Pressure on the brain
the body won't function
Children can go into shock much easily.
2. Check pupils - check frequently.
 1. Failure of pupil to respond to light = testing a reflex arch
 2. Unequal pupils = one larger than other, one doesn't react to light. O hole in skull to release the pressure
3. Breathing
Breathing is deep & a period of not breathing
when it stops entirely you know the P/p increased.
4. What happens to P/p? It goes up & the heart rate goes down
that means increase in cranial pressure
5. P/p increases & pulse decreases
6. Temp. Set a base line temp. If elevation infection
7. Watch vomiting - projectile because the vomiting center is in the brain stem.
8. Look for weakness.
If weakness is on the left side, damage is on the R side
9. Put down to what patient responds to.
Watch what she moves.
Note how rapid symptoms progress.

 4. The hazard of infection is increased because the flushing action of external bleeding is limited
 5. Tetanus may develop
 6. Not a lot of blood lost. a disadvantage w/ bacteria is taken out. difficult to clean out.

A. Abrasion

1. The outer layers of the skin are damaged or scraped against a hard surface
2. Bleeding is limited
3. danger of contamination & infection exists
4. Infection is possible because of dirt

I Incisions

1. Cut w/ a sharp object =
2. Bleeding may be rapid & heavy
3. Deep cuts may damage muscle, tendon & nerves

L. Lacerations

1. a jagged, irregular, or blunt breaking or tearing of the soft tissue. a deep cut - not clean
2. Bleeding may be rapid & extensive.
Destruction of tissue is greater in a laceration wound than in a cut.

A. Avulsions

Results when tissue is forcibly separated or torn from the victim's body

things to do.

I Stop the bleeding

by applying direct pressure by hand over a dressing
in case of emergency, bare hand or finger.
never remove bandage.

II Elevation = the injured part of the body raised
above the level of the victim's heart.

III Pressure points.

as a rule do not use a pressure point in conjunction
with direct pressure & elevation any longer than necessary to
stop the bleeding. Pressure on the artery = In addition
the pressure point technique = main artery
It also stops circulation within the limb

Brachial artery - arm - fingers

Femoral - leg - hand

Carotid arteries - neck & head

Subclavian

IV Tourniquet - control bleeding from chest wall & amputations

should be used only for a severe - life threatening
hemorrhage that cannot be controlled by other means

1. a tourniquet should be at least 2 inches wide
2. Place tourniquet just above the wound
3. wrap the T band tightly around the limb twice
& tie a half knot. two knots on top of stick
4. twist the stick to tighten the T until
bleeding stops.

5. secure the stick in place @ the large end tie down

Hypoxia

Hypoxia is an often serious condition that responds most specifically to precisely measured doses of oxygen.

The basic simplicity of this statement belies the many difficulties involved in assessing hypoxia and in selecting the best means of therapy. In reality, clinical situations involving inadequate oxygenation are often complex, requiring treatment of many pulmonary and circulatory derangements.

Because of widespread application of newer techniques, such as cardiac catheterization and blood-gas measurements, there has been in recent years an exciting growth in basic knowledge of cardiopulmonary physiology. Technology has also spawned new methods of oxygen therapy such as the Venturi mask, positive end-expiratory pressure (PEEP), and long-term home therapy from a liquid oxygen "walker" system. However, this proliferation of new knowledge, techniques, and equipment is often confusing to the clinician not intimately involved with respiratory care. This article provides a basic understanding of the physiologic causes of hypoxia, and on page 10 also reviews some of the newer, more useful techniques for administering oxygen.

- *Hypoxia* is the inadequate delivery of oxygen to satisfy the metabolic requirements of the organs and tissues of the body.
- *Hypoxemia* is a reduced level of oxygen in the blood.

The goal of therapy is to provide enough oxygen for metabolic function, thereby correcting both hypoxemia and hypoxia.

A comprehensive approach to assessing the severity of hypoxia, to determining its causes, and to treating it optimally is outlined here in *Table 1*.

EARLY DETECTION OF HYPOXIA

Hypoxia can occur in many clinical settings, in both medical and surgical patients. Although the mildly hypoxic patient may

have no symptoms, the astute clinician can suspect hypoxia by eliciting the symptoms and signs shown in Table 2.

Arterial oxygen tension (PaO_2) that is low—below a level of 60 to 70 mm Hg—stimulates the chemoreceptors in the carotid and aortic bodies, which signal the medullary respiratory center to increase ventilation.¹ Volume of compensatory hyperventilation, that is, the amount of increase in the minute alveolar ventilation, varies with the degree of hypoxemia. If there is any depression of the central nervous system, such as from barbiturate overdosage, or any limitation of thoracic motion, or mechanical impairment of the lungs, such as with interstitial fibrosis, full respiratory compensation for hypoxemia will not take place.

Increased rate and depth of breathing are often experienced by the patient as dyspnea, the increased subjective awareness of breathing caused by heightened sensory inflow from chest wall muscle spindles.² Hypoxemia can exist without the patient being dyspneic, since he may have compensatory hyperventilation without subjective awareness of it. On the other hand, dyspnea can be the result of causes other than hypoxemia, e.g., hypercapnia, increased work of breathing caused by thoracic impairment, or decreased lung compliance, such as in severe atelectasis.

Sympathetic stimulation in response to acute hypoxemia, mediated by the chemoreceptors acting on the vasomotor centers, causes an increased cardiac output, primarily by an increased heart rate.^{1,3} Selective peripheral vasoconstriction is also present, with resultant increased peripheral resistance. This, coupled with the augmented cardiac output, often results in systemic hypertension when sympathetic responsiveness is intact. Thus, tachycardia and mild hypertension are often early signs of hypoxia. Severe, chronic hypoxemia, however, is frequently accompanied by severe metabolic acidosis if cardiac output falls. This may result in sympathetic depletion with cardiac failure, systemic hypotension, bradycardia, arrhythmias, and finally cardiac arrest.

Although hypoxia causes vasodilatation of coronary and cerebral arteries, it also causes

DIAGNOSIS OF HYPOXIA

Symptoms	Signs
Dyspnea	Tachypnea
Restlessness	Tachycardia
Impaired judgment	Arrhythmias

Headache	Central cyanosis
Impaired motor function	Late (more than 5 gm of reduced hemoglobin/100 ml of blood)

Coma	Coma

pulmonary arteriolar vasoconstriction and pulmonary artery hypertension.⁴

Clinically appreciated cyanosis is a late sign of hypoxemia.⁵ Cyanosis is not present unless more than 5 gm of reduced hemoglobin/100 ml of capillary blood is present. As long as normal cardiac output is maintained, cyanosis is detected only at a very low PaO_2 , near 40 mm Hg. In an individual with high cardiac output or anemia, the PaO_2 must be even lower for detectable cyanosis to occur.

The human brain, which accounts for about 20 percent of the total oxygen consumption (although it comprises only about two percent of body weight), is very sensitive to hypoxia. The degree of cerebral symptoms and signs induced by hypoxemia depends on the extent of compensatory cerebral vasodilatation resulting from local tissue hypoxia (and to any coexistent hypercapnia). It is also related to factors which influence cerebral oxidative metabolism, on the duration and extent of hypoxia, and on the effectiveness of the cardiovascular compensation to the hypoxemia.

A small degree of hypoxemia is associated with restlessness, personality change, and impaired judgment. Moderately severe hypoxemia causes impaired motor function and confusion. Severe hypoxemia, that is, PaO_2 between 20 and 30 mm Hg, often causes delirium and coma.⁶

masks are too restrictive, and they get a suffocating feeling.

Open Face Tent

An open face tent (space mask) avoids the complication of CO₂ entrapment and can provide moderate amounts (30 to 55 percent) of well-humidified oxygen.

Nasopharyngeal Catheter

A nasopharyngeal catheter is a direct way to supply a low percentage of oxygen, but the oxygen is delivered at an unknown concentration. The catheter is inserted through the nose into the pharynx below the soft palate. The procedure is often uncomfortable for the patient, and the tube can inadvertently slip into the esophagus, causing acute gastric dilation, vomiting, and aspiration. For these reasons, this method of oxygen delivery has not been so popular in recent years.

Venturi Mask

A recent development with widespread acceptance is the Venturi mask (Venti mask), which uses the Venturi principle to supply precise concentrations of oxygen. A mask can be selected that will deliver 24, 28, 35, or 40 percent oxygen. The Venturi mask is especially useful in patients with chronic obstructive lung disease, in that it can increase blood oxygen levels, with resultant minimal increases in CO₂ tension.²²

In patients with chronic obstructive lung disease, the degree of rise of PaO₂ on the Venturi mask is approximately proportional to the starting PaO₂ before therapy.²³ Serious instances of CO₂ retention are usually not encountered in this type of patient if oxygen concentrations of 40 percent or less are used.

Oxygen Tent

The oxygen tent, although comfortable for the patient, is used less frequently now because of the large amounts of oxygen that are required to keep the oxygen concentration above 50 percent. In addition, there are difficulties in preventing leakage of oxygen when the patient must be turned or otherwise treated by nursing personnel.

Intermittent Positive Pressure Breathing (IPPB) Devices

One hundred percent oxygen can be delivered by intermittent positive pressure breath-

ing (IPPB) devices. Delivery of a lower percentage of oxygen by this machine's air mix device is not precise. The air mix device has been labeled 40 percent oxygen; however, concentrations as high as 90 percent are delivered to patients with stiff or obstructed lungs. Failure to recognize the inaccuracy of the air mix device has resulted in pulmonary oxygen toxicity.

Ventilators

Should a ventilator be used to treat hypoxemia? If the patient with hypoxemia can be treated adequately with oxygen therapy and other specific therapies in order to maintain the PaO₂ at near normal levels, artificial ventilation is not necessary. However, artificial ventilation is mandatory if the PaO₂ falls below acceptable levels despite maximal comprehensive treatment, or if the CO₂ tension rises to unacceptable levels, or both, indicating inadequate alveolar ventilation.¹⁹ Artificial ventilation is also mandatory if the patient becomes exhausted from his respiratory efforts.

In a trial of temporary assisted ventilation, endotracheal intubation is performed, and a respirator is employed. Tracheostomy is performed only if the patient requires artificial ventilation for longer than two to five days.

Regulation of the percent and pressures of delivered air and oxygen depends on the type of ventilator used. In a pressure-limited ventilator driven by 100 percent oxygen with the air mix device in operation, the percentage of inspired oxygen varies inversely with the flow rate, and directly with inspiratory pressure.²⁴ Thus, with stiffer lungs (less compliant), the downstream pressure against the inspiratory flow rises, the percent of air added to the oxygen flow falls (less Venturi effect), and the percentage of inspired oxygen rises to potentially dangerous levels (above 60 percent). The percent of oxygen delivered is higher (61 to 93 percent) if the main ventilator gas source is compressed oxygen. Oxygen delivery is lower (30 to 55 percent) if compressed air is used as the main source with a flow of oxygen added to the nebulizer line. The inspired gas mixture should always be measured with an oximeter for accuracy.

With a volume-limited ventilator (piston-

Diabetes mellitus is a hereditary disease characterized by impairment of the body's normal ability to metabolize or utilize food. This defect is manifested by increased amt of sugar in the blood & subsequently by the excretion of sugar in the urine.

1. A deficiency of insulin resulting from a disturbance in the function of the islets of L. of the pancreas or the interference with the action of insulin in the tissue. It involves faulty storage of sugar in the liver, the overproduction of sugar in the liver & possibly a diminished utilization of sugar by the tissue.

Ketosis = In the absence of sugar utilization the metabolism of fats & protein is accentuated to meet the energy requirement of the body & there is increased production of ketones by the liver for distribution to the tissue for combustion.
