

A-I: MARKING THE REITERMAN SCHEME

FOLLOWING IS A SUMMARY OF MARKERS FOR USE IN UPCOMING PANELS. ALSO NOTE THAT **BLACK X'S** WILL DENOTE **BLOCKED LINES OF VISION**.

A - Location of Temple truck and (NON-Temple) tractor-trailer spotted across the runway by Reiterman, the latter of which then used in the attack.

B - Marked by Reiterman as "Jungle and swamps." Surrounding foliage, high and thick, a perfect hiding place for an additional vehicle.

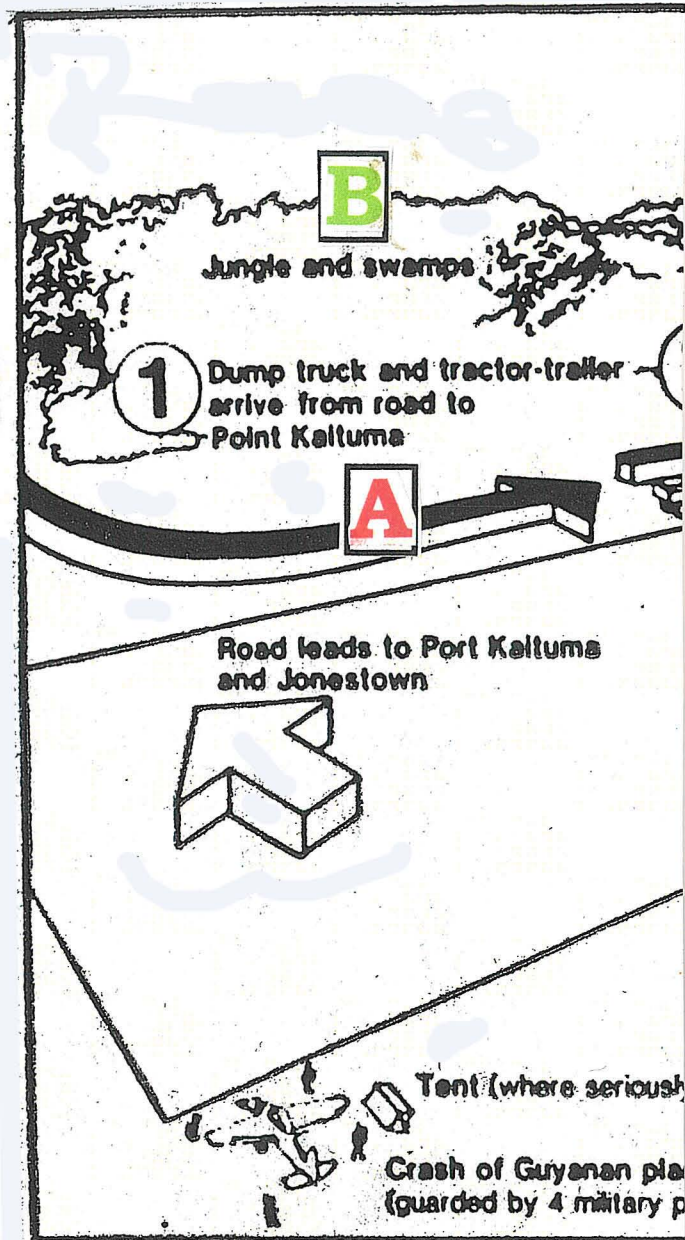

C - Where the NBC film footage placed the REAL Temple tractor-trailer under the left wing flap of the smaller Cessna plane.

D - Trajectory of the attack vehicle across the runway.

E-1 - Tim Reiterman leaving terminal shack to head towards Guyana Airways plane, revealing **NO LINE OF VISION** to the REAL Temple tractor-trailer.

E-2 - Reiterman's own reported **LINE OF VISION** across the runway to the (duplicated) NON-Temple tractor-trailer.

E-3 - Location of all would-be departing passengers (save for Richard Dwyer, reputedly CIA) when the shootings began, with **NO ADVANCE LINE OF VISION** to the attackers.

F - Trajectory of "government eye" he fled from the scene, revealing **NO** to the killings -- rather being blocked plane!

G - Location of bulk of DEFECTO i.d. Temple men, showing **NO LINE** attackers. Including lone Temp LAYTON, who had **NO LINE OF V**

LET US NOW PROCEED FROM EACH EYEWITNESS COULD
