

## WHAT CAN WE CONCLUDE?

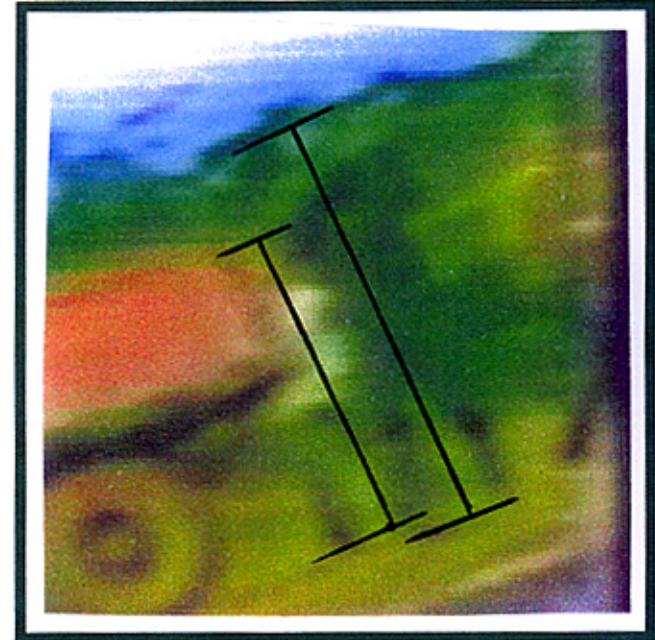

THESE WERE THE THREE ASSASSINS. ASSASSIN 1 WAS **NOT BOB KICE** (TOO SHORT); ASSASSIN 2 WAS **NOT BOB KICE** (TOO TALL); ASSASSIN 3 WAS ALSO **NOT BOB KICE** (CURVATURE OF THE SPINE.) THEIR HEIGHT DISCREPANCY IS GAUGED PROPORTIONALLY, AS FOLLOWS:

Assassin 1 measures  $1\frac{3}{4}$ " (=  $\frac{7}{4}$ ) with a ruler. Assassin 2 measure  $2\frac{1}{4}$ " (=  $\frac{9}{4}$ )\* This means that however tall the assassins were, every seven inches of height for the shorter man equaled nine inches for the taller man.

As the lowest minimal baseline, let's say Assassin 1 was  $4'11\frac{1}{2}"$ , almost unthinkably short for a grown man. That's  $59\frac{1}{2}$  inches or  $8\frac{1}{2} \times 7$  inches tall. Proportionally, that would already shoot the height of Assassin 2 up to  $8\frac{1}{2} \times 9$  inches tall, or  $76\frac{1}{2}"$  tall, or  $6'4\frac{1}{2}"$ , with a height discrepancy of 17 inches between the two.

How likely?: Not. No "unthinkably short white man" on the list of the accused and  $6'5"$  was the *maximum* height of anyone at Jonestown. Nor was anyone identified as being that short or that tall. Much less a height discrepancy of 17 inches or more.

Now try a more realistic minimal height, let's say  $5'6\frac{1}{2}"$  or  $66\frac{1}{2}$  inches =  $7 \times 9\frac{1}{2}$  inches. That would make Assassin 2  $9 \times 9\frac{1}{2}"$  or  $85\frac{1}{2}"$  =  $7'1\frac{1}{2}"$  tall! Likewise, the height discrepancy is now increased to 19 inches. If Kice were  $5'8"$ , the "giant" was  $7'3\frac{1}{2}"$  tall!

**DIDN'T ANY EYEWITNESS NOTICE THIS "GIANT," DRESSED LIKE A WALKING RAIN FOREST, FIRING HEAD-ON IN PLAIN SIGHT? NO, NOT A ONE IN THE WHOLE 417-PAGE REPORT!**

WHAT DOES THAT SAY ABOUT THE FBI EYEWITNESS REPORT? AND WHAT DOES IT SAY ABOUT A GUNHAPPY WANNABE WAVING A GUN SAYING "WE DID IT!" AS CONVEYED SECOND-HAND AT ANOTHER LOCALE, WHEN THE ON-SITE NBC FILM FOOTAGE, THE ONLY PRIMARY EVIDENCE, SHOWS **NO BOB KICE**? INDEED, NO ONE FROM JONESTOWN AT ALL?

**WE MAY NEVER KNOW THE IDENTITY OF THE UNKNOWN ASSASSINS.  
WE JUST KNOW ONE THING FOR SURE: THEY WERE NOT FROM JONESTOWN.**

\* Note: Shorter man measures a bit less, the taller a bit more, locking in or even extending the height discrepancy.
