

Dear Grandma & Grampa,

Thankyou for the gifts you sent me especially that car coat from Ireland it really keeps me warm.

I'm glad to hear your working back at the u a university. ^{Grampa} You have a lot to offer and I know your students think of you as a great teacher.

I am now learning a lot about the medical field from a class that our doctor teaches. There's so much to learn in that area & I find it very exciting. The young people here have the opportunity to go into any career they wish.

You can't believe how beautiful it is here. The air is free from pollution there's only the pleasant scent of the abundant trees. We have a playground for the young

children, a basketball court,
a volleyball field, and a
tennis court. We have fields
upon fields of food and a
swimming hole where David
& dad along with many other
go fishing & swimming.

Mom, Dad, & David ~~whose~~
(who is really growing up) are
all doing fine, are healthier
then ever before in their life,
and love it here.

Your granddaughter,
Gail Chaikin

P.S. David says "thanks for
the check & the wallet."
