

Dear Chris

(Do you spell your name different? I never wrote it - only said it!)

Saturday 3/12/76

Well, I just found the ultimate cure for Acne. Fight it with a heavy dose of P.L. (promised land) Its about time that my face started clearing up. Right?

I was so upset that I couldn't say goodbye to you - Did Doxee give you my message? I found out Wednesday after dinner that I was going and I left that night ^{for the first} I am in Georgetown now.

I'm not yet in Gonestown - I'm getting on the boat Monday & will arrive Tuesday

you can keep my plants - I have enough here ^{now} on Chris, you're going to love it here!! you can have all my plants

Say hi to Christine Falley for me. As I said before I left on the trip & came

here to Georgetown by plane from N.Y. On Tuesday with Patricia Cartmill. This

air is so ~~much~~ clear, moist, cool, etc. and the people are caring and friendly. Its

hard to get used to! We are going to have to go driving together soon! but you'll

have to get used to ~~the~~ driving on the wrong side of the road & the

steering wheel on the wrong side on the car. (I've jumped in the drivers seat so many times). I haven't been

able to lose much weight yet (Really, what do you expect in 4 days) because I've

been tasting all the exotic foods. Even non exotic foods like ice cream - tastes

~~like~~ heaven here. Did you know

Tell Christine there's been a program here + I've been playing with her stuff 3/12/76
