Dear Tim, Steve, Jim & Lew,

These are copies of a letter I wrote to Council. I have not mailed it. However, unless we can come to some kind of resolution to this problem, I feel it is my responsibility to you to seek help. This time of your life is so vital and I don't want to fail you. You all are good boys. However, the fact that Jim and Steve's excuse that they "were too busy to go to do a required assignment seemed so acceptable to them and completely unacceptable to me indicates that I have not communicated to you what responsibility is.  
mom.

JONES, MARCELINE

OCT 12 1976

Marceline is a 49-year-old lady who has a five year history of cough productive of about a tbsp. of white sputum a day and a few year history of shortness of breath. She has been treated with steroids in the past and noted a marked improvement in her symptoms but became quite high on steroids. At the present time her only medication is Dimetapp.

She has no history of sinus symptoms. No occupational exposures, no history of infections, and has never smoked. There is no history of asthma or childhood lung disease.

PHYSICAL EXAMINATION:

Frequent coughing during the examination, auscultation during deep breaths, difficult. No rales, rhonchi, or wheezes were heard and good breath sounds were present throughout with no areas of dullness. There was no clubbing.

PULMONARY FUNCTION TESTS:

FEV I is 1.7 before bronchodilators, 1.95 after bronchodilators. Vital capacity - 2.4 before bronchodilators, 2.3 after bronchodilators. Predicted vital capacity is 3.4. Predicted FEV I is 2.85. This is actually a restrictive pattern with no response to bronchodilators.

IMPRESSION:

Restrictive lung disease of uncertain etiology.

PLAN:

Marceline came in with a history and a chart which sounded very much like bronchospastic disease, however, her pulmonary function tests and in retrospect, her chronic cough and shortness of breath without real wheezing is suggestive of a restrictive lung defect although of course, this can only be truly measured on lung volumes. I am scheduling her for a comprehensive re-evaluation and am ordering spirogram, DLCO, lung volumes, and arterial blood gases. I have also ordered a CBC, a Panel 15, ANA, rheumatoid factor and a total eosinophil count, as well as a new chest x-ray. I hope to see her in about a week after the above has been completed and re-evaluate things then. It may well be that a lung biopsy will be in order.

Lewis S. Solomon, M.D.

LSS/as

11-1-76

Marcey comes in today for a follow up of the full pulmonary functions I did on her last visit. At that time I was concerned that she may have a restrictive defect. However, her full functions today showed that even though her FEV I is 70% to 77% of the vital capacity that her residual volume is 157% of normal and her total lung capacity is 98% of predicted suggesting that the reduction in vital capacity is, in fact, due to trapped air rather than restrictive lung disease. Her blood gases showed a PO2 of 79, PH 7.40 and PCO2 32, suggesting some chronic hyperventilation.

PHYSICAL EXAMINATION:

Good inspiratory and somewhat decreased expiratory phase. Again, no rales, rhonchi, or wheezes were heard.

SUMMARY OF LAB DATA:

The ANA and rheumatoid factor were negative. Her total eosinophil count was only 64. An incidental finding was the Panel 15 which was all within normal limits except for the triglycerides which were 22 and cholesterol which were 397. I ordered a subsequent lipoproteinelectrophoresis which showed a nonspecific elevation in cholesterol and triglycerides probably on a dietary basis.

JONES, MARCELINE

NOVEMBER 1, 1976

IMPRESSION:

1. Obstructive lung disease which presented originally as restriction on the spirogram. In face of a low eosinophil count and the minimal evidence of reversibility on functions with the exception of the MMF, I am not sure at present where her obstruction fits in the COPD asthma spectrum. Her subsequent course in response to treatment should decide this.

2. Elevation of triglycerides and cholesterol, probably dietary in origin.

PLAN:

1. Start an intensive regimen of: 1. beclomethasone, 4 breaths q.i.d., 2. Alupent, ½ tablet q.i.d., 3. Aminophyllin, 2 tablets q.i.d., and a pulse of prednisone, 50 down to 0.

2. Return visit with a spirogram in two weeks to see what her response is.

3. To receive the bivalent flu vaccine in the right deltoid.

Lewis S. Solomon, M.D.

LSS/as

NOVEMBER 12, 1976

Marcey comes in today after being tried on an outpatient regimen of pulse steroids, beclomethasone, Aminophyllin, and Alupent. She is raising slightly more clear sputum from 1 teasp. to about 2 tbsps. a day and has perhaps noted some decrease in the frequency of her cough. However, her pulmonary function tests have shown absolutely no improvement and she continues to have the unusual restrictive pattern on spirogram with the increased residual volume and normal total lung volume on helium dilution.

PHYSICAL EXAMINATION:

Good inspiratory and expiratory breath sounds without wheezes.

IMPRESSION:

I continue to be perplexed by Marcey's problem. If she has asthma, she certainly has had no response to medication so far. However, this cannot be excluded and it may be that there is such a degree of mucous plugging that she is presenting with a restrictive pattern and a relative refractoriness which will gradually yield to therapy and may require a stay in the hospital on high doses of steroids and bronchodilators. Another possibility is that she has fairly fixed small airways disease perhaps resulting from her episode of Hong Kong Flu several years ago. She certainly has no smoking or other history of pulmonary disease that would make me suspicious of emphysema. However, recall her total eosinophil count was quite low. The remaining possibility is that she does, in fact, have restrictive lung disease and that the only evidence for this being obstructive disease, i.e. the increased residual volume is in error.

MARCELINE  
NOVEMBER 12, 1976

PLAN:

1. Continue her present outpatient regimen of beclomethasone, 4 breaths q.i.d., Alupent, 2 q.i.d., Aminophyllin, 200 mgs. q.i.d., and have her come back in one month with an Alpha 1 antitrypsin level, and repeat spirogram in the office. I will also repeat her Helium lung volume and get a DLCO. If she continues to show an obstructive pattern at that time, I will hospitalize her for a trial on high doses of bronchodilators and steroids.

Lewis S. Solomon, M.D.

LSS/as

DEC 13, 1976

Marcey continues to have a perplexing pattern of chronic cough and obstructive lung disease by lung volumes with a surprising FEV 1 vital capacity ratio, and normal DLCO. It surprises me that she doesn't better respond to bronchodilators but it may be that she just has a fairly mild obstructive defect.

PHYSICAL EXAM:

Chest - good inspiratory and expiratory breath sounds without rales, rhonchi, or wheezes.

PLAN:

I am going to be thinking over Marcey's record and reviewing it and, perhaps, I will hospitalize her to see if she is reversible with high doses of steroids and even consider the possibility of a fixed mechanical obstruction such as a tracheal web. She will return in three months if I don't hospitalize her sooner.

Lewis S. Solomon, M.D.

LSS/as

ADDENDUM: 12/14 I have thought over Marceline's situation and believe that she should have additional evaluation but because her symptoms are minimal right now and of long standing, I see no reason to pursue them further at this point. If she were to deteriorate in any way at that point, a high dose steroid trial might be indicated and, perhaps, even a bronchoscopy to rule out a fixed obstruction of some sort. Tentatively, my diagnosis is bronchitis with, if anything, a small reversible component. I am going to review with her the possibilities of cutting back on her medications and observing her course. If she fails to deteriorate, I would be content to leave her on just Aminophyllin alone.

June 8, 1970

As the time approaches for our 21st wedding anniversary, it seems appropriate to take inventory of our lives together. In one more year I will have spent half my life with you. It is the only part of my life that counts. In that time I've known great joy and great sorrow. It has been my love for you that has tempered all things and made the good and the bad melt to compose a beautiful harmony.

This time of the year - I remember, especially, the time of Stephen's birth. It followed, so appropriately, the death of a child. I experienced the extremes of emotion at that time - Extreme sorrow and extreme happiness. Most important - you were there. At that time, I still had some of the idealistic anticipation that is characteristic of the young. I'm different now. Now - as I live one is busy at a time - I take time and am able to enjoy the small things. While I count on nothing for the future, I am able to enjoy the present more and I think, put things more in their proper perspective. If I have no future with you, I'm grateful for today. But more about the things I remember. I remember our days together before we married. The hours you sat by my bed when I had infectious mononucleosis. I remember our wedding night and the day that followed with Humphrey Bogart. Our lunches and the maple centered peanut clusters. I remember the foreign films we saw in Blomington, the hours we spent at the golf course studying with Shiele and how she used to warn us of any approaching snakes. And there were our visits to the church where you so courageously told them of their hypocrisy. Years have gone by and I remember hundreds of things that occurred in our struggle to help make this a better world. How much fun

(1)

we've had. In the beginning, in your dream to me, you drove hard. I understand. I remember, please, when you began to relax and live and be tender with me. My love for you deepened. We had trips to Chicago. It seemed then that you even enjoyed the trips. I remember eating in a certain cafeteria and how we enjoyed watching and discussing the people. How we dreamed and planned. Many of those dreams have come true. Our beautiful children were conceived in those dreams. I'll never forget the day we landed in Mexico City and our experience there, staying in the Metropolitan Hotel. There we lost Stephen and it was there that baby Jim was such a hit. Then there was the day we <sup>traveled</sup> to Sao Paulo, Brazil. How dejected I felt. Remember, as we were leaving the airport, we looked at each other and simultaneously started to sing the song that we heard at our wedding "I'll be loving you always".

There was one milestone in our relationship that I've never shared with you. It happened in Rio de Janeiro the evening I set out to meet you and got lost. I was hours late. When I arrived, you were visibly shaken. Would you believe, that until that moment it had never occurred to me that losing me would bother you much. You had always been so strong, self-reliant and surrounded by people willing and able to meet your needs that I never really felt that I was important. As a matter of fact, your tendency to pull or almost force others into your life indicated to me that I had in some way disappointed you and had <sup>not</sup> met your need. This incident in Brazil gave me an inkling that maybe I was a little special. However, later I rationalized and decided that you were

spoken then because I happened to be the only one there. I know now that you did care.

~~It~~ " I could remember and remember. There is no end. In all my remembering I must give most thanks to what I have learned in the past year. At times I don't know what is best for you. But - I do know you care. Regardless of who else you might care for - thank you for including me. I'm sorry for the times that I made you feel unloved. In my frustration as I tried to measure <sup>up</sup> but never quite doing it, I thought, I struck back in unkind ways. I'm grateful for the chance to prove my love to you. Thank you for your kindness and understanding. I don't know about tomorrow - but today - I give thanks for each moment I share with you.

To Mum,

I have had it with Tim Day. I don't know what he has against me. ~~or~~ maybe it's just the way he is. Jim tried of clashing with him. I think he has an arrogant attitude. I don't feel that I can approach him with this because I don't think he would take. A few weeks ago he accused me of playing on Jim's sympathy, it was not true, we had an argument over it and he told me I was going on PSU. I told him I wasn't. I was upset ~~at~~ then and Rhonda asked me what was wrong and I told her. She went and ~~talked~~ talked to Jim and ~~and~~ when I asked her what ~~was wrong~~ he said. I was told that he didn't say anything. I think he needs more sensitivity & to stop being so chauvinist.

Myself I have too much trouble communicating with people. It mostly stems from my passivity. I worry about myself too much and not enough about others. Jim too paranoid.

Dear Marceline - We received your letter with the picture yesterday. It is so wonderful to hear from you and know about the many things you are doing.

I am sorry dear, after I sent that letter to you, I thought maybe I shouldn't have written all the things that happened to you. It is surprising tho' Marceline how much come back you. Daddy has in him you would be surprised if you could see him. He is (15 lbs) thinner but somehow it doesn't make him look too thin and his color is very good. Dr. Rungo has taken him off all of the medication now but the "Lanoxin" before his breakfast. He skips his blood pressure and pulse is good now. He will see him next Saturday

again to see how everything is since he  
is off the medication. He also is  
doing some activity in the yard.

He doesn't do a lot at a time  
because of some weakness. I am  
really pleased with the way he is  
doing. Elsie has the reports from  
his Electrocardiogram - she plans on  
writing and sending them to you!

I did talk to Paulette. I told  
her you had asked me to call her.  
She is moving to Centerville. She  
said she was planning on writing  
to you. I will call her again and  
tell her of this letter.

I also called Aunt Esther and she  
was so pleased you had sent her  
your love. Obviously, she seems to be  
better now. I told her about the  
picture and the Dr. who was visiting  
there.

I guess you had known that Ed  
was unhappy with his job on

nights. He had asked them to put  
him on days but they told him if  
he went on days he would have  
to take a cut in pay. About a week  
ago he called for an interview at  
a new factory here in Richmond. They  
gave him a job right off with an  
increase in pay and working days.  
When he told the factory where he was  
working that he was quitting they  
offered him a day time job at the  
same pay, but he refused them.  
He will start next Monday on the  
new job.

you saw pictures of them.

Elvira has all the rest of her  
teeth pulled next week and will  
have her new plates put right in.  
She is dreading it. I really hope  
she will get along alright.

Sunday is the first day Daddy  
has been out any length of time since  
his surgery, but, he did very well.

I am so grateful for my health.

I look forward so longingly for  
the time when we can visit you,  
but I don't want to do anything that  
will be risky. I feel sure that this  
will work out, since, Daddy seems  
to be doing so well. He really is a  
strong person and he is working very hard  
on getting his attitudes straightened out. He  
doesn't say anything to me but I can tell he  
isn't so negative. We love you our precious  
daughter - my prayers are with you every day in  
the world. Love - Mother. BB-18-08

June 13<sup>th</sup>

Dearest Marceline - It has been so long since I have written to you, and, there is so much to tell you - I've many times in the past few weeks I have wished you were here so I knew I was in touch with you. As a general rule I do very well even knowing you are so far away because I know you tell us you are so happy in what you are doing. I also know that when I call San Francisco they will give the message on to you. But I guess I just felt the need to talk to you -

It seemed there were many people to go through to get in touch. I had to call San Francisco twice last week and to get a message through about your Sacramento. Sandy told me then that you had wanted to know how Daddy was after his operation.

I know you want to know about his surgery so I will try to fill you.

BB-18-P-1

in. For about six weeks before his  
surgery he had been having a lot of  
distress with bleeding and clots. He  
saw Dr. Adney and he said surgery was  
the only thing that could be done.  
Walter wasn't convinced that he  
wanted to have another surgery for  
this. It seems the first time they  
had done just a rearing and since  
that the prostate gland had enlarged  
a lot. He kept trying to pass the  
clot on his own thinking it would  
clear up, but, of course it didn't and  
when he was so terribly worn down  
he finally gave in. He went into the  
hospital on Sunday May 21<sup>st</sup> at 11  
A.M. Morning he gave Walter a  
genial Antiseptic and went in and  
examined the situation - It explained  
it was quite large - terribly frayed all  
around the edge which had caused

88-18-P-2

② the bleeding. It was also embedded in the top of the abdomen. From Monday until Friday was a difficult time for him. He was terribly nervous and depressed. I had to call Dr. Runge and to give him something to quiet him. The time seemed so long for him to wait. We were through the surgery floor, but he started hiccupping right after surgery and they didn't get it stopped until Saturday night. Then on Sunday he became so confused and upset. It was impossible to keep him in bed. He tore his I.V. out and was up constantly carrying his trusty pipe with him trying to go to the bathroom. They put a jacket on him and tied him in bed and the minute your back was turned out he came. For three days I was there from eleven until eight each day. Well the confusion only lasted two and a half days as Dr. Runge came in and decided it

was his medication. They took him off  
of everything and it didn't take him  
long to come out of it. Elvise and Sharon  
were so terribly upset. They said they  
would rather see him gone than so  
distressed as he was. We were all relieved  
when he came back to his natural  
self.

Maureen, before he went into the  
hospital he had to go in for the work  
that is done before surgery. Well, they  
found out then, that he had developed  
some heart trouble that didn't start  
when he was in for his stroke. His  
lung and heart examination neither one  
were too good. I didn't see them but  
they showed them to Elvise. So Dr. Runge  
started right away after he quieted  
down with sleeping pills, cardizem and  
watching this part of his morning. He has  
him on three heart medications a day  
so far.

③ - Today was his day to see Dr. Adney  
re his surgery - He said he was coming  
along fine from his surgery.

Tomorrow, he is to see Dr. Runge. I  
am going to try to find out if I can  
just what Dr. Runge thinks, as to  
limitation and the things he can do.  
I will hold this letter up until  
after I have seen him.

Two things have bothered him since  
his surgery, he has no appetite and he  
can't sleep. Dr. Adney told him today the  
"sulfa" drug he had been on would  
contribute to both of these things. He  
did not discontinue the "sulfa" drug  
but he cut the dosage in half over a  
longer period to see if this will help.

I am sorry to have to tell you all of  
this but I know you want to know  
what is going on. Maybe after Dr. Runge  
sees him tomorrow there will be better  
news. I surely hope so.

I am anxious to know if you are joining

has been able to get Core Elliott's  
house deal straightened out. I haven't  
called her because I haven't heard  
anything.

"You said and money on Daddy's  
Birthday was so beautiful. I have  
said to several - no other daughter  
in the world could have thought of  
this but you. He was in the hospital  
on his "Birthday" - I baked him a  
large cake and took in - The hospital  
also had one on his tray - small, decorated  
with one candle. They were surely  
nice to Walter.

I write to you that we might  
be coming but with Walter like he  
is we will have to wait to make  
plans until I see how he is going  
to be.

# We just came from seeing Dr. Rung -  
He took him off one of his medicines  
and put him on another one. The reason  
for this was that it was causing "Dizziness".  
He wants to see him again Saturday.

BB-18-P-6

I asked him what the E. K. G. had shown when they took it. The answer was that it was some irregularity which is common to old age. However last night I was talking to Sharon. I told her I was writing to you and felt you should know what they had found wrong. I told you that the hospital had given Cleve the medical terms for what they found. Sharon had "Muriel" a nurse at the Welfare Office tell her their meaning. One term indicated some blockage in the artery that leads to the heart. Some slight enlargement of the heart. Since Walter was there when I asked Dr. Runge - evidently he didn't feel it wise to go into any detail. I did ask him for some medication to help him sleep and he replied he would rather not do that. I hope these give you some idea, dear.

Daddy's color has been very good.

BB-18-P-7

It really doesn't look too bad - I am  
glad Dr. Punge is watching him!

I suppose you received your  
Insurance check - I suppose Jean Brown  
told you that she had sent a check  
from Peoples Temple to cover the amount.  
I made a mistake of \$11.<sup>00</sup> in giving her  
the amount - but Elaine said to  
wait as she was sending in the claim  
on the last spation test - This was in-  
cluded in the amount so if it comes  
through - she will take the (\$11.<sup>00</sup>) out of it.  
Then the rest I believe will come to you!

Tell all of the rest of our precious  
family how much we love and miss  
them. Tell little I am having a little  
trouble with my new bottom teeth - I  
thought about her having trouble too.  
Let me hear as often as you can,  
dear, I know you are busy!

Love

ANIMAL FRIENDS.....

I think the true picture of Jimba's growing up cannot be properly portrayed without describing the character and cunning antics of the animal fold who shared his home, his bed and his environment.

Jim and I have never been able to regard animals as "lower" forms of life... (and being less than ourselves) but rather as equals with all of our virtues and a few of the vices and many other beautiful attributes, and much more which nature gave them in attempt to equalize their lot since they can hardly make out in the present world evolution of things, depletion of their natural habitats, etc., in spite of the love and help and tender care of human kind.

However, my husband, Jim's father, and his family did not share these tender sentiments of ours and little else that had to do with us, except in ~~times~~ time their reasons of trouble and adversity, when they were quick to seek my aid, and were not rebuffed though I had little in common with them or they with me, in fact. Some of them harbored a poorly concealed notion that being as fit and able as I was in the skills of survival was unbecoming a female of my size and stature and somehow detracted from the thing they called respectability.

And so it was concluded by the house of Jones that pigeons were messy things, none of which was good, and it was scarcely decent of me to have rigged a nursery for ~~the~~ "Pidge Widge" beside my back door. Time her droppings had to be cleaned frequently, but I had strung a bushel farm basket upon nails by the wire hand holds close under the roof of the back porch. kitchen and bedrooms were within sound of her voice as she crooned her babes to sleep while gentle winds in summer rocked their cradle. We adored going to sleep to the sound of her ~~crooning~~ crooning, little Jim and I..

It is unfortunate that one must fight to have and hold a paradise permanency and to make wee creatures happy, but so it was with me in the course of marriage.

I had infrequently required the spouse and his younger brother to buff the back porch on a few occasions to remove ~~the~~ Pidge's droppings because I was so often working away from home and this was none to their liking since it required effort, and they began to plot to remove Pidge-Widge. Took me a while to catch on... Fact is, Bill, the brother-in-law had made two 200 mile runs before I learned of this. Pidge had beaten him home on both occasions. There was homing instinct in her genes for which I was very thankful and to reinforce this, I held long conversation with her like, "Don't let em put you in a car, girl, but if they do, be sure and watch direction carefully, sweetheart, because I have no way of tracing you.. yet. But don't you worry, sweet girl.. I shall inform them that if once more they try it, they are in deep, dark trouble. I will band you, now, and put this little tinkle bell on. They can remove these, of course, so you must watch out carefully both for yourself, your mate and the babies.. etc."

I passed these plotters taking the morning sun on the long front porch, as I lit out to work that A. M.

"Watch yourselves, me fine Buckaroos," challenged I. "Lay hands on Pidge and her family once more ~~xxx~~ or any of the others, and you no longer sleep under this roof or dine at yonder talbe. Geronimo had spoken! Whereupon I mounted the car which was incorporated in a workers car pool, and like Sir Gallahad, mounted his ~~stock~~ white, gayly comparisoned charger -- and was off to my habitual daily slavery. The nation was at way, and I worked in a defense plant. .17 miles away from our quiet town.

Two weeks later, these cohorts having repented their aggressions against Pidge ~~xxx~~ and her family, took off on a fishing trip, forgetfully of having Lady Bug our toy eskimo spitz along, they returned without her. It took me all night to locate the river and recover Lady Bug who was helpless, being of advanced years now would I hear their impassioned plea that this had been an accident. . .

I replied: "that's what I'm gonna tell God about what happens to you, too, if the likes of THIS ever happens again." It didn't happen again, but young William, (stolen car) the brother-in-~~xxx~~ law up and stole my car and headed for the asphalt jungle of an adjacent town where he'd had a long standing hubub of disappearing and being "ripped off" if he happened to have been working or recently had received a pay check. He was later murdered there, and it was a sorrowful things on the heels of what I called the wasted years of his life.

Loss of the car was too much! I headed for that town, stopped at the police department and they said: "ye can't go there! 'Tis as much as your life is worth. . it could easily cost your life."

Replied I, "That car IS my livelihood. . so what? said I, "I came to suggest that you have a look if I do not return inside of 12 hours, and bring an ambulance along, if 'taint too much trouble."

I sniffed and departed as they yelled inunison: "You can't!" So I sought the bell- weathers of this flock both male and female and in the more dangerous and most likely byways. Really, wherever I spotted cars that appeared slated for stripping down for the parts for which there was a lively market at this point in time. I didn't get abusive or speak with less than firm convictions either.

I did not appear greatly upset, but merely said in all the right (or wrong) places: "I shall expect my car to be parked with all parts intact out on the main highway!" before 8 am tomorrow where I shall stop and pick it up."

"Nay:" they all contended, "they had no knowledge of anything having to do with my car. Then quiz your grapevine, said I, "but get it done like I have said," said as if I was tougher than all skid row toughs put together, and I was a very good and convincing actress.

~~XXXX~~ "I hold no soul in these parts innocent of this," said I, calmly, "and I have contracted to do another census for the Federals and do it I will, even if I have to "rip up these parts brick by brick, ~~first~~."

STOLEN CAR

O Possum.

The car was at the designated place at 8:00 AM and no part missing. I insisted the police start it, though, for I had no intent to be taken in by a booby trap and leave Jimba at the mercy of a cruel world. Jimba and all of the others we had befriended, especially our darling and so dependent animals. There was Madam O'Possum and her uncouth children who rode her back when we went for walks in the evening time. There was Miss Skunk who threatened me every time I fed her by ~~squaring~~ squaring off and sighting over her shoulder, but restrained herself seeming to realize that I could not afford to take weeks off the job in effort to rid myself of such havoc as she was fully capable of delivering in less than ~~xxx~~ a wink of an eye. She was a beautiful thing with her white stripe against the sable blackness of her, and that mischievous twinkle in her eyes. There was Bobby, the raccoon...

Raccoon

Missey  
Mouse

and Missey Mouse who when she saw me putting a colorful border around my kitchen wall which I had painted light green fixed one for her cleverly designed house from bits of cotton.

That was a night ~~no~~ no sleep was had. Missey's house had a hand hold for carrying her wherever I went -- to make up to her for my long absences which must have been very lonely for her. I was unable to catch her message for sometime, but when I finally did, I was too excited to continue border-building and for her sake, discontinued it until later. She discontinued only when I did. Then we got serious about the message she was attempting to convey.

"Missey," said I, "If you can forgive my weariness and fatigue, and give me your message... again, I think I can read you, now."

Missey made it so plain that only a fool could have erred therein. She dove into her snow white cotton tee pee and came out bearing a fatted, hairless object, but little larger than a healthy grub work and when this light of comprehension dawned upon me, belatedly, she was placing the 4th object for my inspection.

"Missey," breathed I, always more than somewhat overawed at the ~~miracle~~ miracle of birth. These are without doubt the most beautiful babes on the face of this earth -- but HOW? Oh, yes! Now all is clear. 'Twas the day I took you and Horatio down by the creek for a dip and an afternoon of freedom. There was soft winds, the odor of many flowers and the music of clear running water, and the birds sang -- and spring hung heavy with promise upon the air.. Ah, I should have known. Horatio never does anything by halves, neither do you, my darling. I opened the door of her house and cradled her as usual, but her excitement was so great that I KNEW this was NOT the usual. I scooped up the hairless objects and Missey suckled them right there in the palm of my hand while I crooned and swayed them, gently, as the cradle rocks. Missey dozed. The babies unapologetically slept. All activity was suspended while nature had her way with them.

BOBBY RACCOON

And Bobby, the raccoon, had been run over ~~x~~ in the highway in front of the house. When a neighbor, Mr Kennedy, who together with his wonderful wife Myrtle, were the kind of neighbors every female breadwinner should have to keep their moral courage up, reported this to me. My grief knew no bounds -- Mr. K had asked if I could come and pull Bobby out of the street before he was "struck again" since he seemed to be dead or unconscious.

Said he would do it except he figured Bobby would bite him if he was ~~wasn't~~ dead. I was able to control my grief enough, and finally asked him to put on his winter coat and heavy work gloves to do it which he did, even though I was sobbing and saying "it is no use, he will not be ~~be~~ alive, and I love him so much I think I cannot live without him. ~~XXXX~~ Mr. K. came in with the little unconscious form in arms and I thought I heard a soft mewling ~~wax~~ such as Bobby always gave when he wanted me to pull down the covers of my bed and lay his head on my pillow. This I did, and he pulled my face down to his and kissed me, salt tears and all. I put cold cloths on his head and massaged his body gently, and my household inclusive of the Kennedys was soon in excellent spirits, because no harm had come to Bobby, the raccoon.

That was the beautiful part of the Kennedies. They rejoiced with me in times of you, and cried with me when sorrows came. ~~XXXX~~ They were the salt of the earth. Mrs. K. is still living, in Lynn, Indiana, my son visited her with his 13 church buses and numerous members of his congregation. The re-union was a great joy to all.

A very religious person, Mrs. K had always hoped my only son would be a minister, and her work at that time was tremendous and very side spread. Up and down the west ~~coast~~ coast of California with missions in the southern hemisphere and in the Islands of the South Pacific, Mrs. K's only child had been a daughter. A very able and likeable girl with no yen for the ministry. I think, though, in after years, a very devout church member which gave her mother much happiness in the later years, following the death of Mr. K. Sr.s husband, her father.

### THE PUPPY WHO CRIED....

Jim's going out on the highways at all hours (at age four) to save baby animals flung out on the roadside, often still tied in sacks, caused me great anxiety for his safety. He would go at most any hour of night or day, or any distance -- riding his little tricycle or on foot, prowling in the side ditches.

Once I had gone to pick him up and found him trying to push his tricycle through mud, water, briars and brambles, with his sack of animals across the handle bars. I loaded them all in my car and took them home...

Another time, the young doctor in town drove up in front of my house and unloaded Jim, his tricycle and the animals he had salvaged that night.. As the young doctor unloaded them... panicked, I half whispered... "I cannot take any more! Oh -- I swear, I cn not."

I take it that I was hysterical or half conscious to say that, but say it I did.

Little Jim snatched the puppy into his arms and promptly parked it in my arms. "Look for yourself," said he, scathingly, "you have grieved him. He needs someone so very much and he heard you say you do not want him."

This sent spears and daggers of remorse racing through me and bathed my eyes in silent tears.

"See, he is crying, Mom. He has little tears in his eyes. He feels so unwanted. Tell him you love him and will care for him always. Hold him close, Mom, and tell him he is your baby. Hurry...!"

The young doctor reached over and hoisted the brim of the old straw hat I had pulled low over my brow, regarded my tears awhile and announced to Jim: "It's just fine Jim, you have convinced her already. So I will get in my car and go home. I've been at the hospital all night."

The sack holding the kittens had been opened by then to give them more air and they were walking uncertainly about, being toddlers, still, with eyes barely open but not yet focussed. I rushed to warm some milk for them, with the puppy still in arms. Having told him he was loved and wanted and my very own for keeps, I gave him a bowl of warm milk for himself and scratched my head wondering where the next bottle of milk was coming from. But come it did.. when my brother-in-law who worked for the gas and electric company came by to inform my husband that there was a three dollar deposit

THE TINIEST DISCIPLE...

The church buses were on the long haul from San Francisco to Los Angeles to hold services in Rev. Jones large church down there. It was in the wee hours of night as it usually is before they finish services in San Francisco and take off for Los Angeles.

Those who were not fighting sleep, such as the drivers, were napping heavily in route. Johnny Stoen being the exception was neither fighting sleep, nor encouraging it... He had been in deep reflection for quite some time. John-John, as he is also called, is a law unto himself and capable of defying nature's laws with excellent success (about sleep) much to the perplexity of his mother who is apt to be chastized severely if she does not "watch out" how and when she essays or intervenes orders...

Johnny is stocky, bronzed and full of energy with black eyes, black hair and that air of independence that I had only seen twice before in my long life -- and, which is worn like a crown and quite unapologetically before God and everybody.

Having reflected at some length, young John walked up to the front of the bus, picked up the intercom and said, "All Peoples Temple buses, report please."

Startled, his driver did not remonstrate when the bus drivers reported quick and sharp like rifle fire. They had had trouble on the roads before and were quick to come to each other's aid.

"Wake up your people and tell them our Father loves them!" said John. "Then let them sleep again. Tell them not to worry. Father is with them, always, and will not let anything happen to any one of them at all. Over and out."

He thanked the driver for the use of the intercom, fell into a seat and was asleep almost immediately. John is well loved by all, especially the Father, and by Grace and Tim Stoen, his parents, who are very able young people who have served the membership long and well. Grace as secretary, Tim as attorney. He is assistant District Attorney of Mendocino County.

NIGHT TERRORS.... (Pentecostal Minister)

1-28-76

Then little Jim was overtaken with night terrors, heavy sweating, frightening dreams... It troubled me greatly. I sought the aid of a local doctor. I also set out to trace the reason for this development, and learned that Mrs. M., who together with her sons, ministered the Pentecostal church, was taking him to her church regularly even when they held meetings in other towns, and that Jim was ministering during all or part of the service, and attracting a gratifying attendance at the meetings because of his tender years and excellent familiarity with the written word as well as his remarkable insight into unwritten matters.

Little Jim was not usually afraid of anything whatsoever or anybody, either, and when he complained of the horrible snake that invaded his dreams, my suspicions of the churchmen grew by leaps and bounds. Remembering that the devil was first said to have despoiled the Garden of Eden whilst traveling in the garb of a serpent and putting this "wild tale" for humankind almost brought the species (snakes) to extinction, in their ignorant animosity and nameless fears. I was not exactly in a mood to cultivate religionists but did accept an invitation from the ministers of the Pentecostal church to attend one of their meetings.

Midway of the service, when the musicians and the followers had reached the pinnacle of hysteria and the noise was getting at me to the point where I feared I'd never live through it, the lady minister grabbed me in an iron grip and yelled in my ear: "Praise God! This is how it's going to be in Heaven!"  
...And I yelled back, "May God forbid that Heaven ever be my destiny if that is true!"

She fell away from me as if she'd been knee deep in a load of corruption.

I decided to question my good neighbor, Mrs. Kennedy and made tracks to her house to do so. It seemed that despite her disappointment at little Jim's preference for the pentecost over the Nazarenes (her church) she had not felt within her rights to question it, since she thought it had been arranged with my knowledge and consent.

Meantime, the finger of suspicion continued to point to the biblical narratives wherein Satan was endowed with stupefying powers, etc., and credited with inconceivable antics, all of which I defied and refused to let him go with Mrs. M. when she called to pick him up for services.

The closest encounter with Satan was when I looked into her eyes as she raved about my being devil-possessed, and that mine was a "dangerous" position. I explained to her that

Beelzabub would use more judgment than "earthlings" and not be so foolish as to mess with me when I was that mad.

Young James went into a caper and promptly became an agnostic, refusing to maintain his sunday service in his little church in the upper story of the garage, neglecting to place fresh flowers on his altar, and my spirits struck a new low -- but the night terrors let go of him and likewise the night sweats.

I felt vastly relieved when little Jim's agnosticism passed, and when I thanked the doctor for faithfully standing by, he said, "I have been tempted to tell you before now that the bible makes no sense, and neither does this stomping and jumping in the churches. In fact, it is very harmful to a sensitive child such as Jim."

I said, "but HE makes plenty of sense... and he will resolve 'the mess' so that it makes sense, also!"

The following sunday Jim held services and all of the village boys attended in a group. The girls came later, and I eavesdropped on the service.

Jim kept warning little George Fudge to stop disturbing the meeting with silly giggles for he would not permit him to disrespect God's house. On the third warning, he whaled little George! I fully expected little George's big brother to in turn whale young Jim... It was his custom to uphold his brother, right or wrong, but when little George sobbed out his story to his brother, he received no sympathy. The brother said, "He is right, and he warned you three times! Maybe sometime you will get some sense."

Addendum to NIGHT TERRORS.....

Lynetta said that the pentecostal woman was having little Jim preach the services and he was largely responsible for their getting large offerings -- it was because of this ability of his to get the large offerings, and do the healings that she was upset when Lynetta pulled little Jim from the services.

MRS. GOAT'S TWINS...

And then we began receiving complaints from all around the neighborhood because Mrs. Goat's twins insisted upon drumming upon the roofs of the abandoned cars in the lot at the garage. This sounded like Indian War Drums so I resisted interfering with their fun even if it did start at dawn and last fully two hours. I figured nobody needed sleep more than I, who worked just about as many shifts as could be wedged into 12 hours. Most fold were very considerate about my unenviable plight, but others wanted to make such weight as they could boast -- well felt.

I was stymied about how to convince the twin goats and also reluctant to put an end to their fun, even if I knew how, which I didn't. They handled it themselves then they leaped through the picture window of the village's foremost gossip, sheared her house plant off neatly, laid a crust of pills and robbed her breadbox.

There was an outcry about their horns and this I had to have done because Jimba insisted on butting heads with them, and even though I put double thickness of diapers on him, they would hit him such clouts in the behind as to really alarm me, and he would not give up trying to out but them. However, when their cute little budding horns were removed, they took that out on the foremost village gossip also. They riddled her antique bed spread, devoured a quilt and a line full of her cloths, and broke her slop jar though it was crockery and an inch thick -- she spared the goats. She got the notion they "practiced" black magic... Though I must say I've never seen a black magician or a white one who could devour a bedspread the size and age of that one without leaving a trace or suffering some undesirable effect.

POTTY TIME...

There was the usual wailing and gnashing of teeth... Somehow that was always the most difficult abdication of the day for him.

"I am so embarrassed that that wee bug that lives under our rug must be subjected to this uproar every evening... Could be she has babies, too, and this would be bad for them," said I, rolling my eyes heavenward and gesticulating wildly.

"Control yourself," said Jimba. "I have never really believed there IS a bug or a bug's babies under this rug!"

"What?" shrieked I, "then I must show you.. seems, in your mind, .. ah, er -- you have closed your mind to the realities."

"No bugs," said he, setting his lips firmly, and setting himself more firmly on the pot.

"Mrs. Bug," said I, in wheedling tones, "do you mind coming forth? We seem to have a non-believer in this household."

In a matter of seconds, Mrs. Bug emerged, stood up in front of little Jim and elevated her front feet.

There could be no doubt that he was thoroughly "surprised." As for me, I could have been pushed over with a feather.

He found his voice to say: "That IS a bug!"

I found my voice to reply, non-chalantly, "It is not just a make believe walking ... of that I assure you, son."

The proper ritual was performed on the potty. I do not recall there ever being other capers cut over it, thereafter. I took it that was in deference to Mrs. Bug and her new batch.

~~And then we began receiving complaints from all around the neighborhood because~~

BEDTIME

... Jimba's story

I was finishing his story. He was sprawled on my lap and I was too exhausted to breathe. So I had failed to reconstruct the story and get rid of the sad ending as I was always required to do. So the old hunting dog was killed by the cougar she'd set out to track and the tears spilled over my face as I realized this.

He, Jimba, had leaped off my lap and was yelling to high heaven while tears rained down his face. "Read him out of it, Mom! Read him out of it! You KNOW better than to let them end like THAT and break both of our hearts that way."

"But the writer claims that's how it ended, son," said I defensively, KNOWING there was no defence for such stupidity as I had displayed.

"What does the writer know about it?" screeched Jimba. "He wrote what he wanted to believe. Never in this world would you have written it like that, now would you?"

Contrite, I confessed, "Ah... no! The dog would have returned at daybreak with never a mark to mar his lovely coat, and his gait would have been as jaunty as in the richness of his puppyhood."

"Go on, Go on..." gasped Jimba, with a firm grip on my juglar vein. . now I can see him alive and well, bouncing over the top of that hill back of his house..." His voice faded out on little gasps of exultation while I mentally cursed every writer who had ever written a story that ended wrong... and kept the dog running there in the dawn light bursting butterflies with his fresh little nose as they sipped the nectar out of the buttercups. That was a long time ago, although it seems as new as yesterday.

WORLD DESTROYED BY FIRE...

Little Jimba came rushing into the house with all the village dogs at heel. I was washing a goodly supply of dishes which had accumulated in the sink. There was a look of excitement in the eyes of every dog, but Jimba was behaving as routinely as was his normal stance when he said, "Since you did not believe me, even though I have told you many times, this world would come to an end by fire, as the bible says -- you best had come with me and see for yourself," said he smugly.

I snatched the dishpan, too heavy with grease to empty down the sink and took my position of end dog at his heels. Having emptied the dishpan, I swabbed it out with a clean, dry cloth before setting it on the front porch. 'Twas then I chanced to look at the sky and momentarily was started out of several years growth," as the southern saying goes.

So there was the sky looking exactly like a huge southern wash kettle, wherein the old timers habitually boiled their linens (sheets and pillow cases in strong lye water picking them, and hoisting them at intervals with an old, well work stove poker, by way of testing for the degree of whiteness and the proper components of the concoction they had mixed for the "bilin'" of their whites.

Having seen, yet I could not have believed, except there was Jimba, flesh of my flesh setting knees absinibo? \_\_\_\_\_ in a dishpan that was at best (muddled) a \_\_\_\_\_ band about his head to catch any moisture that he chanced to work up in the course of the work, he told me he was born to do. Like work nobody else would or could do. Jimba had a bandana around his mid-section of exactly matching color, and always a wee flower peeping out over his mid section or his head dress, or both. He was so handsome as to make one weep just looking at him, let alone being taken into his confidence about the things he was born to do -- like things nobody else could or would do.

"I think I shall dash over and see if Mrs. K. has been 'caught up yet.' If so, I shall KNOW this is in truth the end of the world," said the little one, sagely.

~~Mrs. K. was the good neighbor, a very struggling female bread winner who should have kept the moral example to the members of the Nazarene Church, this good neighbor with believed with all the heart and soul that no child should be deprived of church and Sunday school, in the very early years, no matter how many churches he has on the second floor of the family garage or how fresh the flowers on the altars. This task she boldly undertook to see that Jimba never missed out on anything that had to do with either church or Sunday school.~~

ABOUT MRS. KENNEDY...

"I think I shall dash across the street and see if Mrs. K has been "caught up yet" ... If so, I shall KNOW for sure this is the end of the world." Mrs. K (Kennedy) was the good neighbor every struggling female bread winner should have to keep her morale up. A staunch member of the Nazarene Church, Mrs. K believed with heart and soul that no child should be deprived of church and Sunday school, especially in the very early years, no matter how many churches he has on the second floor of the family garage or how fresh the flowers on the altars. This task she boldly undertook in Jimba's behalf -- to see that he never missed out on church or Sunday school.

Mrs. K

-2-

Although I frankly contended that "every one-hoss preacher is not inspired by God" and neither is God the author of "frenzy" and foolish cavortings. Mrs. K and I got along famously despite the difference or disparity of our convictions. I loved the woman dearly, even to this day, though I could not resist teasing her v with such remarks as: "Myrtle, don't you think it would have been wiser if that old fool the bible says' howled in the wilderness had just settled ~~xxx~~ down and figured'how to cope with it?' "

Jimba and the dogs made 3 or 4 loops around the Kennedy holdings and he concluded he hadn't been "caught up, ~~h~~yet. "

He finally ~~bed~~bedded down with Bobby, the raccoon kitten, and they drifted into dreamland. The dogs and I bedded down on the front porch to watch the sky until dawn.

I did a lot of enquiry next day on the job, and elsewhere, and several days thereafter, but found no one who had seen the startling development in the heavens, but no one had.

~~Some days later~~

Borealis

But a small news item in a paper I picked up some days later reported that the Northern and Southern Borealis had "displayed" at the same time which happened only at long intervals apart, it was said...

My assumption of a "cold look" about the phenomena of the flames was not amiss. The runs reflecting off the northern and southern ice caps should give with a cold look, surely. I was certainly shaken by this phenomena until I became aware of the "cold look" which was sometime after I saw it first. Also, the failure of the dogs to display anxiety was reassuring. As for Jimba, he was not in the least skaken, though very young and certainly unfamiliar with such a startling sight.

BB-18-2-20

And little Jimba came bounding into the house with all the village dogs at heel. It was between 12:30 and 3:00 am. I was putting the finishing touch on a goodly lot of dishes that had accumulated in the sink, while I was at my job. I had worked two jobs that day.

The clock hands had passed the "witching hour" of midnight. The village was wrapped in sleep. There was excitement in the eyes of every dog. Jimba was behaving as routinely as was his usual stance, just before some sort of havoc broke out in our lives, and havoc was not a stranger.

It sometimes shaped up subtly, and at other times like an explosion -- but never fragmented or traveling at a "slow" pace. Jimba was not one to do things -- by halves. Neither was I. Jimba smugly said: "You did not believe me when I told you the earth would be destroyed by fire in our lifetime, I think you had best come with me and see for yourself."

I snatched up the dishpan, too tick with residue by now to empty down the sink. I dashed into the garden and emptied it there, cleaned the pan well and dried it out. Then set it on the front porch. 'Twas then I chanced to look at the sky. If there should have been a moon, it would have paled into obscurity confronted by such startling phenomena.

The sky looked like a huge black wash kettle such as I'd often seen in the yards of southern families, and which was used to boil their linens out doors. Their sheets, pillow cases, towels, etc, which they always referred to as "bilin" their whites.. in strong lye water.

Having seen, I yet could not have believed except there sat Jimba like the Buddha, sitting in that dishpan which was not more than a middle sized one, folded legs akimbo, wearing a colorful headband and a square of cloth to match knotted around his ~~xxx~~ middle. The motif was red and yellow. I leaned against a tree. The dogs formed a ring around us, quick and intent, listened to our exchange of conversation, and they ~~were~~ \_\_\_\_\_ as they awaited the action.

Great licking flames mounted from earth into the heavens. and met at the apex over the pot which was the earth. A remarkable display it was indeed -- less frightening to watch because it seemed not to advance as is the way of conflag (fire) -- nor did the flames give off the appearance of heat, having in fact a "cold" look, instead. This was not, however, immediately apparent and even so it lacked definitive conviction.

Note: The southern wash pot had a heavy stove poker close at hand, well used and clean as.. repeated bilings tend to make things.. Use in that description of the ~~xxx~~ pot. The whites were lifted at intervals with this to inspect the degree of whiteness and check the strength of the concoction.

Note: there was always a wee flower peeping out of Jimba's strange costumes. At the midriff or overhanging the headbands, behind an ear or ~~the~~ both. \*Remark that in transcription. He was so handsome as to make one weep, especially when taken into his confidence about his having to come to earth to do what others could not or would not do. It made me feel he was "only loaned to me" for a time.. which

could be only a brief time.. too and my heart was sad, always.

FEAST IN THE MIDST OF FAMINE or  
Passtime of the Local Freight Agent

Regularly. the village kids were entertained by Jimba with banquets at my expense and without my knowledge until it was almost too late to launch an effective protest.

These events were held under the loading platform which was elevated to facilitate loading and unloading freight from the railroad cars. on the outskirts of town, about half-way along the path to the " 'Ol swimmin hole. . . "

The freight agent had established a listening post in his office above and kept well and approvingly abreast of Jimba's doings. He justified his stand when confronted with criticism by saying: "boys will be boys. . . and some are just more boy than others. and they grow up to be more man than others, I think, and I am a close observer of such matters. . . "

When I protested excessive grocery bills when I hadn't been near the store to make a purchase, and said to my friend, the grocer, "Now you know better than to extend credit when it has never been my habit to seek it. "

"But," he would say, grinning. . . "must I become the town's bad guy? The guy who was NOT a boy, once? "

And I would respond: "By no means. . . 'Tis only that I respectfully suggest that I could refuse to honor these bills, oh, thou who regardeth not the heavy chains of my enslavement, or careth -- a fig about it!" . . .

The debt was always promptly paid and the incident as promptly forgotten, to be repeated: again and again. . .

The freight depot agent entertained his friends with the narratives of these forays : the 'ol swimmin hole and the feasting, the guest list of which also included the village dogs that habitually attended Jimba and the canine guests of his friends, as well. . .

And, quoting the agent. . . said he, "I would look down upon this spread of food and salivate at the sight. 'Twould not have been difficult to maneuver an invitation for myself, I'm sure, except that it would have revealed my invasion of their privacy and would have deprived me of enlightenment I never ceased to enjoy. . . not to speak of the opportunity to relive my own boyhood and experience the lifting of the intervening years. . . for a space. . . of time. "

He would sigh at remembrance of those days and continue, "When the feast was over someone always remarked on the difficulty of carrying dirty dishes on the bikes and the more it was discussed, the more difficult it seemed to resolve it. Without entering the debate at any point, young Jim smashed the china, piece by piece against a huge rock, in all probability planted there during the great ice melt of thousands of years ago, and who knows but what it might have been arranged for this specific purpose.

Feast & the freight agent. . .

Anyway, Mrs. Jones china became more unmatched as the years advanced, and the spoon handles took on strange patterns. It is said that second hand merchants have known her by her first name for quite a while now. "While Mrs. Jones does not have the appearance of the second-hand-store type, 'tis said the addiction grew until it has become her only passtime apart from writing, of course. It cannot be denied that value exists mostly in the eyes of the beholder. A shoddy, mediocre thing cast on a pile of discards has no value until someone bothers to salvage it and endow it with advantages. I understand Mrs. Jones has become quite intrigued by the mismatched handles of pewter spoons."

A listener spoke up: "Why are all the plates, utensils and stuff to serve the feast always taken from Jrs. Jones' household? I'd like to know, since the initial cash is borre by her?"

The narrator thought this over for a space, and then replied: "She is always away at work and 'tis likely has not yet paused to devise a cure for this particular practice on the part of the kids."

The town loafer spoke up: "She did yesterday -- and it was a killer-diller! She haunted her own house, I'm told, and little George Fudge said if anybody thinks THAT was Mrs. Jones chasing him, that person is nuts for sure, for whatever was chasing him was bleeding all over. . . and. . . had teeth a half a foot long."

This rocked the building with laughter for a spell, and I snuck out of the phone booth. . . making like 40 years older than I was. It is not easy to make like bleeding all over without considerable advance preparation, and considerable mess attached.

BB-18-2-24

My mind had been so solidly made up for so many years that I would neither marry nor have a child, that it came as a shock to me when I realized that I had reversed this thinking completely. At the time it happened, I was unaware that it had. I could not say today what reasoning first made up my mind, or what part reasoning played, if any, in the final resolution to marry and also to have a child: a male child: one child, not more. But I can relate the incident that in due course terminated in both marriage and some five years later, the birth of the child.

My mother had passed away in 1925, of typhoid fever. My father had preceded her death some years before. I was sorely grieved for my mother and was very lonely without her. I returned to the home of my father's foster father who had reared him from the age of fourteen and in turn reared me from infancy. He was undoubtedly the most outstanding character I had ever met in my life. Nothing was ever too much for him to do to relieve poverty and need, trouble and unhappiness, wherever he found it, and however often he found it.

By this time he was alone and getting up in years. His fortune had been spent just for the necessities for himself and whatever the other fellow seemed to need who was in want. His fortune, once quite substantial, had been dissipated in the processing of what he figured each person owed to another. He had become wealthy in the timber business. Having mills all over southern Indiana. When the ~~tax~~ timber was cleared he even went into the business of buying and rolling grain. This was highly speculative and a person with his bigness of heart ~~and~~ had little chance against the sharks who profited by not caring about the underdogs of the land, though he was a man of outstanding intelligence.

My mind was made up a long while in advance that my child should be exactly like Lewis Parker even though he was no blood kin -- even to his brown eyes. My in-laws reminded me that it was scientifically said to be impossible that two blue eyed people should produce a brown eyed child. Impudently I replied to this: "I specialize in the ~~px~~ impossible, be it scientifically or otherwise proclaimed." I would lose my temper completely when anyone dared to voice a negation on this subject, though normally I was ~~not~~ very much in control of myself and whatever situation confronted me.

Then came the fateful day when I was destined to come down with typhoid fever: Before full break of day I was packing out for a swamp, now dry enough to travel through and where blackberries being unbelievably large and tasty to edify those who dared to enter the snake infested swamp. I had been rather fond of snakes since early childhood, and they of me, and did not grudge the snakes the sharing of the berries which they relished as much as I, especially before sunrise when the dew clung like the nectar of the Gods--and this was a very dry place in those seasons when the rivers were not pulsing with overflow and the sun was hot despite the shades of ground cover and the tall, tangled second growth of timber.

As I took a long drink of water from my jug before ~~leaving~~ leaving my parked car, I

nor could I remember water ever tasting so satisfying. I came to the berry patch, paused to admire the beauty of the luscious clusters, almost decided it was a sin to pick such beauty even though I never failed to leave a great strip up high for the birds and a strip near the ground for the ground creatures.. it still ~~stx~~ seemed a sin, but not for long.

Hours later, consciousness returned and found me tightly locked beneath the ground cover -- consisting of strong, heavy vines among other things. Why I was there I had no idea. I was eyeball to eyeball with snakes of all sizes, with some eggs just hatching. I put these in my pocket to afford greater comfort for the young and found the most active snake of all is a new hatch. So I tried to take the eggs out again and rest meanwhile, but somewhere along... unconsciousness overtook me again, and so it was for hours -- just in and out of "reality" and really enjoying the unreal quite as much, if not more, than the real. At last I woke up within sight of my car, crawled to it and started for home, but struck a sinkhole that swallowed a wheel to the hub cap and beyond. I spotted a length of down timber that normally would have required two strong men to lift. After a time, I walked over, picked it up and placed it in the sink hole ahead of the wheel and pulled the car out with the greatest of ease. It was not a light car: it was a Studebaker special Six. Probably the best that they ever manufactured, to this day.

But one must remember it was a "witching" time when nothing could be explained by natural law... why was I not still imprisoned under the ground cover; how could I, a frail appearing person lift a log with the mind, perhaps, or more logical still, miracles were being wrought even then...

At last, between long sleeps, I made it home. I bathed, combed and polished up, and hired the neighbor across the street to fry me a chicken. Having eaten the major portion, I hemorrhaged from the bowel from then on. Medical service was almost impossible to get. The doctor that had brought me into the world came. Mr. Parkers, my foster father, was ill throughout my illness but would not take his bed: he was so troubled about my condition, knowing my mother had not survived the disease the year before.

The climax or crisis of my disease came about four weeks following its beginning at 3:30 a.m., it was thought by those in attendance. I had remained at home because of my anxiety about Lewis' condition, my little dog, Sontag, being so troubled about it all and the fact that there was no hospital nearer than ten miles.

During the crisis I seemed to go down to the Egyptian River of Death and look it over, carefully... there was an Egyptian burial box which could be used as a boat... I thought and a plank that could be used as a paddle. The river was narrow and one sensed great depth because of the blackness of the water.

My mother walked out on the other shore.. she was dressed in skins -- a primitive woman... her hair was matted. This was great contrast to her way of

life. She had been very stylish and always well groomed. What would she be doing in Hades? So the legends were false, and I said so... While briefly preparing to cross that river. Legends are always false," she said, "it is the way of humankind to seek to evade the truth of things. But you are not permitted to cross that river yet. There are two very important things you must do before you come here. Your world is so full of sorrow and sadness, and Lew needs you now that he is old more than ever before. He has no one else. Remember? "

I thought it over in the wink of an eye and sadly turned to retrace my steps. I came to the bed where the sick woman was and found I was the sick woman... I walked to the door of Lew's room... I walked to his bed and offered water and cold cloths for his head... I fluffed up his pillow and said: "I will not leave you, now. Do not worry. Just get well, Lew. There will be other rivers, other hardships, but I hope to be with you always -- now..." Then, one year later, I married the man I was engaged to and took Lew home with me, but he grieved for his own home I felt. Five years after that, my son was born with brown eyes, too, though both my husband and myself had blue eyes.

SKID ROW

The denizens of the asphalt jungle had not finished with me. They came to my work place, six strong, to announce that Bill Jones, the truant paternal uncle, owed them \$36.00 which he had barrowed, and so they had come to collect it off me. "Is this not a bit irregular?", said I, in very business-like tones, wondering a little about what my co-workers might be thinking about my being visited by these unkept gentry -- from south of the railroad tracks -- and knowing that something "smelly" would of necessity grow out of any deduction. ~~THEY MIGHT MAKE.~~

"Something smelly and far wide of the truth", thought I. "Roses do not grow out of <sup>unpromising</sup> such unfavorable soil." I, <sup>thought</sup> summing up for future reference. Said the leader of this <sup>UNSAVORY</sup> pack, saying, "It seems you are thinking we do not mean business. Or, maybe you do not care what happens to your husband's brother... or maybe you would chose what is commonly referred to as 'else'". After a long and reflective silence, I replied; "Else being the murder of young William Jones, I take it?" Therefore, be it said, this money you want could be termed ransom. No? Yes? Still how do I know you have William Jones captive? And if so why is your price not higher? And do I have any reason to believe this will not heppen every day? Maybe three times a day?" One of the hefties stepped forward to snarl in my face, "We are honorable men!" "Shucks", sniffed I, "you are not even men. You think like streetwalkers. I'm told they are women! I will talk to Jones. Bring him here!" There was heavy intake of breath and its slow explusion, like the slow drip of blood. Goose pimples rose somewhat as this thought crossed my mind, though I'm quite sure my exterior registered no sign of "quaking or faltering". The twirp in center of the back seat drew a gun. It looked like a cannon, I wondered if it was loaded with lead or dung. I <sup>ONLY</sup> jotted down the license number of their car. The remaining

five worthies-- downed the armed man. As they careened around the corner toward the tracks and out of town - the gun gave with a loud blast-off and the town folk gathered from everywhere, especially from the garage on that corner, where the loafers habitually held forth, and gave with such learned matters as who was seen <sup>N</sup>sneaking out of town to meet whose husband.

The <sup>pitiful</sup>undertaker<sup>N</sup> addressed me saying; "are you having trouble <sup>V1/2 S,</sup>Miz Jones?" and I replied, "Never! Not a placid creature like myself! What trouble could I possibly have? In a quiet God-fearing town like this?"

"Oh!" said he, "one never knows, I hear your husband, chair and all, fell through the pool room floor last night. Seems the rats are weakening the timbers." "Jeepers! <sup>retained</sup>Is that a proper way to refer to potential customers?" said I, with <sup>B</sup>feigned severity. "<sup>W</sup>ell all go, <sup>some time, 7 per favor</sup> some time, 7 per favor."

"Tis <sup>four legged</sup>rodents (4 legged) that I refer to, <sup>MRS.</sup>Miz Jones. Seems they are numerous lately, <sup>WHARF</sup>Warf/rats, they are, and bent upon the destruction of the pool room, I'm Told."

ENTERTAIN

"Seems a lot for a rodent to <sup>take</sup> take" says I, "let alone to accomplish, by the beard of the prophets it had its origin <sup>in</sup> a strange manner — uh, er . . . it borders on the miraculous . . ." "Ha!" said he, "It's going to be the death of Big Jim — yet. You mean he did not tell you his back is skinned from his tail bone to his collar bone — and red streaks running across it. Could be blood poison — could be anything I reckon. You mean he didn't tell you?" persisted he — "That's what I mean!" gulped I, establishing a precedent that would outlive us both. We never discuss his tail bone — ah — er — or mine. Fact is we do not sleep together, either." He blushed to the third button on his shirt, which was upon at the throat. In Indiana summers were hot and humid.

He continued, "I knew he was or is sixteen years old, older than yourself, but I did not know of his impotency." <sup>said he, nervously</sup> By own nervousness matched his at this point, for I knew Big Jim would be thoroughly plucked if the tomsfolk got a notion he had given that, also, to World War I, though he had long since conceded that the physical toll had been almost too much to bear.

As I have said, Skid Row did not forget me. In less than two hours they had returned, all six of them, and young Bill Jones <sup>was</sup> stuffed between the two stalwarts in the back seat of their well battered car.

"Get out of there Bill" said I. "Go into the house. Lock the doors. Go into your room and lock it also. Try to sleep off this wretched experience. You look very ill, I think" Tears trailed down his dirty face, leaving a clean trail against the surface grime. He answered, "I can not, Skinny." (that was his nick name for me). "They will kill me." I appeared to laugh long and loud. "These? Well, 'tis too bad I have not told them . . . how harmless a live person is compared to a ghost. Especially if it met its end by violence."

Bill did not obey me, so I figured something was restraining him. There was a look of grief and pain in Bill's face. My housekeeper, Mrs. H., (a lady of eighty years and considerable poundage, was scrubbing my spacious front porch and training her very good ears upon this exchange of conversation.

Mrs. H., fortunately for me, was one to keep abreast of the trends of the winds. Once more I gave the order for Bill to dismount and enter the house. It was as if the whole group had been carved in rock. Nothing moved. Not even a nose twitched. Mrs. H. remarked ominously, "Let that boy loose." Not a muscle moved among the car occupants. Bill looked white and strained. His eyes looked frightened. My mind flew back to a time before I'd married into the family or hardly been born for that matter, when Bill was four and his mother at fifty-eight years lay a corpse. He'd refused to be moved from beneath her casket even after the remains were taken to the grave; he had lingered in that spot. Thereafter, he

I took some time to release young Bill from his bindings. His wrists were tightly bound. His ankles also, and all so cleverly attached that to struggle in one direction would have shut off his breathing. He could not have stood if his life had depended upon it. This was the work of hate-mongers aided by malice aforethought. It was even more evil than I had thought. I urged the Joneses to press charges before they killed Bill Jones or me or both or maybe sought to punish me by making off with my child. I was about to make off to some strange place with my child.

Bill talked me out of it by saying, "He's safer and happier here. Those people are scared to death of you, really. They credit you with supernatural powers."

The Jones brothers wanted no part of rocking Skid Row's boat. Bill went to Skid Row. In a matter of hours he was dead. I've always thought that he knew this would happen and thought in this way he could save me from harm or Little Jim or both of us or all of us. I screamed for the Jones brothers and sisters to demand an investigation. They wanted no part of it for fear it would cast aspersions upon their family name. I investigated.

When I got close, the embattled ones up and decamped the country in the dark hours of the night, taking all their possessions with them. When

the high faulty looped I figured hat was all. 7

But to return to getting Bill out of his trussing  
up, peeling potatoes for a leg rolling would have  
been easier. They must have tied him with Skip's  
hauser. We both, Mrs. H. and I, worked with sharp  
long-knives, but it was the doings of Mrs. H.  
that triggered my laughter to this good day.  
At first I couldn't decipher her hi-jinks, but  
she'd gathered every splinter of the broken cleaning  
tools and patterned them like hieroglyphics. She  
had bordered the strawberry patch with cross-bones,  
hair, and feathers. It was obvious this God-  
fearing woman was engaged in black magic, as  
she muttered at intervals in a voice very unlike her  
own: "Belzebub. If God ain't done it . . . maybe  
you had better try it."

It was obvious that she was laying some sort of  
curse on the Wild Breed down in Skid Row, and  
highly unlikely that even the innocent could escape  
it.

There was a tremendous barking and yelling in the  
distance and young Jim was borne around the street  
corner on the crest of a wave of dogs. In fact,  
every dog in town. The raccoons' kitten rode on his  
head voicing breathless "Whcc"'s as the gallop  
quickered. Mrs. Goat and her young twins brought  
up the rear. Beholding this out of the corner of

his eyes, Bill, who had recently been operated for  
appendicitis screamed: "My God! Do something Skinny!"  
Panice!, I flung my body across his soft middle  
and wore the hoof marks (three sets,) fully three  
months thereafter.

BB-18-2-35

"Jesus have mercy on God," leaned against an adjacent tree and allowed his asthma attack to have full sway with him while the garage loafers beat out the flame with coats, shirts and anything handy. But to my knowledge, his very productive strawberry patch never bore fruit again or even "flowered." It had produced a gratifying income for him in ~~the~~ its beginning days with berries larger than a man's thumb. It must be said of big Jim that he had a "green thumb." The culprits managed to reassemble. They mounted up and headed west. Ten minutes later I had a phone call from the owner of the local lumber yard.

"Eight big plug-uglies down here and another car with five or six men in it just joined them. They claim they are working for you and want about \$100 worth of lumber charged to you," said he.

"Tell 'em I'm a poor risk. Meantime, I'll call the ~~sheriff~~ sheriff and send him down to your place as if he just happened in to pass the time of day, etc." The man replied: "They appear mighty nervous. Doubt if the sheriff makes it before they leave."

I said "Meantime, watch it. These birds are ex-convicts for the most part. Methinks the charges were "murder." I think they are unarmed, now. I shall give the sheriff the nose count on them and the license number on the touring car. The eight are in a truck, you say?"

He verified that, and I said, I'd tell the sheriff to bring help along.

①  
It was one of those rare days when I had escaped the treadmill of my self-enslavement to regular jobs in industrial plants to expel the usual accumulation of dust and attack the disarray of my house. I was a working wife. My husband had been a semi-invalid all of our married life -- a matter of ten years or more. He was sixteen years older than I, and a veteran of the first world war.

I had read the signs correctly in the early years of our marriage: economically, this marriage was and never could be greater than my ability to endorse it with whatever worldly goods were required to make it.

I was of slight build and limited strength, but according to my philosophy, nothing was impossible and my ambition for my son knew no bounds! I had chosen what I had considered a favorable time to bring him into the world, and my judgment had been at its lowest ebb at that moment. My son was born right in the midst of the depression and all he had seen of this world since had been the gringing aftermath of depression.

The animals on this day, and there were many, had taken up comfortable positions in (they hoped) quiet and less frequently disturbed places. The salvage of these rejected and needy fellows had been my son's very first objective. "These things ARE my work, " he very often said, "you must understand, Mother, that I was sent to earth to do many things that others do not wish to do -- or cannot do. That is why I must often offend the baby sitters by not being at home and even off hurt, now sometimes. You though, I love you very much and you have come nearest to understanding this and everything else about me than anyone else now living..."

There was young Jim's crib in the corner -- it was four foot in length and still large enough to hold him, but seldom was utilized by him these days -- so busy was he, dropping in on the ~~XXXXX~~ lonely, and kinless and sick, taking wild flowers and enchanting odds and ends of things which he could not bear to see abandoned to a garbage heap because of their latent beauty... wherever beauty was in person or thing, obscured as it w often was by careless handling, it became its BEST under his touch.

Troubled people came and he talked long because with them he to take philosophical approaches to solutions. He did this in the privacy of "his church" in the 2nd story of the garage (a spacious, comfortable place with fresh flowers ALWAYS on the altar). Some time later and after their troubles had cleared up, many of these would seek me out to say (some would speak rather nastily or irately) as if I personally...resenting "something" about my attitude toward my son. These I assumed to be close associates of my husband's sisters-in-law, who held that one's character of a housewife was dwarfed by working outside the home especially if she

was so skillful, and if her services were as much in demand as were mine.

The sun topped the distant trees and cleared the intervening shadow, and in a swoop (burst) of glory washed through the big picture window where my husband sat observing the early morning passers-by as they gaped in and out of town along the main artery of travel easterly and westerly. Our village of Lynn, Indiana, provided but few means of making a living for the impoverished who were forced to seek employment in either Winchester, 17 miles to the North, or in Richmond, a somewhat larger city, 17 miles to the South. Our city was halved by Federal Highway #36 which ran from coast to coast through flat lands and hot winds.

of Kansas, though I do not recall my outstanding job opportunities for committing heads of households either to east of \_\_\_\_\_ (?vest)...

This need of transportation to apply for and maintain jobs in such distant employment, and the extreme duress of the depression, making the price of gasoline and upkeep prohibitive, predicament got me bugged over such conditions and made me bent upon seeking alternatives, too it.

*out of fear they'd be*  
*Autumn*  
*They*  
*having narrow margin*  
Our bankers had looked askance at potential manufacturing interests bent upon borrowing. Like many small towns they wished to cleave to old ways, etc... ~~so being a woman of outstanding impatience and with marrow~~

that persisted in making the poor poorer and fostering new generations of them as in the past, I brought together these bankers and a so-called "deadbeat" from just across the line in Ohio who knew tomatoes and the processing of same from "a to izzart" and whom the depression had just driven into bankruptcy. *I was a woman of outstanding impatience with*  
*new and old alike, without regard to narrow margins of population --*

So I talked and advocated and stood into this 100% until a job offer in another city again made a commuter of me. By this time, I was certain I had convinced the processor of tomatoes that <sup>1</sup>would tear into him like a rooster on a compile at the first thought that crossed his mind about "defrauding" even the least of these people who had trusted him ONLY because I had sworn that "risk though he be, he was RISK worth taking." ...even though...I knew he would defraud his own Grandma. ~~XXXXXXXXXX~~  
"Remember," said I, when we reached agreement, "just remember -- in the event temptation starts dangling foolish ideas before your covetous mind's eye.. that nowhere on the face of this earth lives a human being who can so "expertly reduce RISK to zero."

I never saw the man again, but kept my finger on the pulse of his "impulses" as I had sworn to do. He ~~flw~~flew right -- not only keeping faith with the folk in the town but "expanding" in response to increased need, holding strictly as he had agreed with me to our hiring of local residents on a first priority.

Bobby, the raccoon kitten was rolling and kicking amid the downiness of the crib arranging and rearranging his covers. An attention he insisted that I grant him at bed time is giving a plaintive whimper "whee" when he was ready to end his busy day. His waking up to a new day was quite a ritual as he conducted it -- so cunningly, appealing as to make one weep at remembering. It always inspired to grab him and shield him from all harm in some enchanted nook where "harm" could never come.

The village never-do-well strolled past the picture window over alled, plow shoes, outfitted for agricultural work which he had shunned

most of his life.

"Ugh," growled my spouse. "There goes a good for nothin. For all of the years I know him and I swear, he never tells the truth."

The truth is often too drab. In his case, it was so. He likes more color, more humorous events than every day happenings afford -- quite a philosophical man...

"Philosophical, hell.. he's downright ignorant," said he, with undue heat.

I continued, "Once he challenged his sister Beatrice about having kids faster than a cat can respectably have kittens.. Betty answered, "The Bible said populate the earth and I believe the bible.." said she smugly.

He replied, "But dear sister, it did not say you gotta do it all by yourself. Why doncha just relax this big heat of yours before all the kids start lookin' as if cut over the same pattern.. You, Betty, I love ye but I do not think

we have all that much to hand down or pass on... Ye know how Paw lit out and left maw, house full of kids and nothin else.. and showed up in this county on a dozen towns every election day to vote the republican ticket.. "cause his paw did. Why else? Paw didn't have enough solid sense to pour pea out of a book. How would ee know what's best to vote for?

A screen door hit the outside wall of the house with a bang and the young man, I called Jimba, my son, bounced into the room. Clad in sun suit slender, bronzed and full of zip, he gave the racoon kitten a gentle roughing. Bobby spat, hissed, blew and became a round ball to be stuffed in the bib of Jimba's sunsuit. I landed again, he hoisted himself up beside me where I sat on the ancient library table beside my typewriter.

"Remember that man who offered you that marvelous opportunity way back in that time you called depression, Mom, said he. I ~~can~~ could sense my husband giving full rein to his morbid suspicions of vast, ill founded promiscuity.. Startled, I stammered a "Good Heaven's, No, child!" When man or woman either could have boasted such excellent turn of events or safely hustled(?) such strength of bargaining power at such an unfortunate time in our history when nations starved and all people sought sustenance from garbage dumps...

The child continued. "You needn't be so shocked, Mom. Perhaps you do not remember, but that does not mean there was no such man. He sat in that very chair right there. I stood beside his chair. My eyes came level with his ear and I was surprised and shocked when I saw a speck of dirt there...

"Why," thundered I, with more feeling than I'd dreamed possible to register -- especially over...nothing.

"Mother," said he with studied patience ... "here was a man well dressed, clean as a pin, who spoke remarkably well and who was concerned only with you, and you deliberately did not restrain Pete the groundhog, and he was bitten to the bone and one of his crimson socks rent in half so he had to stick both socks in his pocket and let his ankle bleed better, etc., but somehow he thought it funny and looked much happier when he left our house. You know I've wondered for years about what that remarkable opportunity was that he offered you.

"Oh, ~~knought~~ that!" tittered I, gustily, "I shall reveal it the very moment your father sets off for the pool hall this evening.

His father rose in high drudgeon and decamped the place, speedily and at once.

I clutched the bronzed shoulder in a weak hearted grip.. the racoon kitten rose to full height out of his sun suit bib and blew a warning blast in my face.

Always play acting with Jimba and our wee animal babes, I croaked hoarsely, "Alas! 'Twas a correspondence course he offered and with almost no installment terms, and though I could not have bought it if the charge had been a bag of cinders, money was that tight, then -- non-existent. Perhaps you should reveal this to your Father, not later than tomorrow...

"Mom," said he, "I can urinate over our hen house since I was circumcized."

"Man!! ~~xx~~ exclaimed I, "I must say that is real free wheeling compared to the modest-- arc we had before.

Later in the day, when I was making some progress with my house cleaning, I was aware of voices out in front on the sidewalk and lifted the edge of a curtain to sneak a peek...

There was little Jim convoying a stranger (an adult female) straight for the front door and it was still the depth of depression years and without a doubt she had a cargo of something to sell, for he was saying, "Do not be troubled, Madam. You will feel better after we talk to my mother about it. She can think of ways to do most everything. Last week she made our Miss Mouse a pair of pj's and Miss Mouse on the very verge of having babies, to which she did almost immediately thereafter, and of all the things that might have messed up Miss Mouse's plans what with Mom meddling with her plans, NOTHING did as I shall show you.. Miss Mouse's plans worked very well, indeed, in spite of mom's meddling with 'em.. I shall show you her babies. It's like that with -- ~~my~~ but I will say Mom doesn't work at getting into people's business...though it never fails that she knows more about it and how to get 'em out of it than they KNOW about their own business. She says that is because these are depression years and nobody has lived through the likes of it before..

By now, he was <sup>was</sup> pounding on the front door and I had darted into an upstairs bedroom and crawled under the bed.. This lady had looked so correctly English throughout, that I hadn't the courage to confront her problem in present state of physical fatigue and dishevelment. Certainly I had never come up with such impolite solution, hitherto..

So he escorted the lady into the house and seated her comfortably with a tall glass of water at her elbow, then swung the stair door wide open to yell into the void, "Come out from under that bed, Mom! That's no way for a grown up lady to act! I know you are under there!! *This lady needs help, Mom! She has never been like you to behave like this.*"

*Miss Mouse  
& the parents

It was in the years immediately following the depression and before there had been any measurable indication of a leveling off, such as more work available at better pay... or reduction in the cost of living..

But Little Jim (my son) never seemed to lack for answers when the troubled approached him with their troubles and this they very often did.

Jim had entered this veil of tears at the very <sup>great</sup> crash of the depression in the year 1931, and had allowed nothing to dim the sparkle in his beautiful brown eyes, since.

He had his little church on the second floor of the garage, and the animal quarters directly beneath it and any person who sacked up their domestic animals and flung them by the roadsides to thirst and starve to death.. had reached the last level of depravity and deserved to starve in company with all their blood line.. so this earth would be FREE of them, henceforth and forever, and KNOW them no more.

While I was in full accord with his findings (100%) most of the population had already resorted to the heathen rule of "self-preservation being the first law of nature," all... ~~that~~ that is, except the young ~~lad~~ lad, Jimba, who went out every day before sunrise to ~~comb~~ ~~every~~ ~~highway~~ and ~~biway~~ <sup>road</sup> for kittens and puppies.. babies who may have been tightly ~~bed~~ <sup>ried</sup> in gunny sacks to starve and thirst to death. It was a very hard task for the four year old to cycle these unfortunates home, not to speak of the ever present hazard of ~~the~~ highways where small bodies are often thrown and broken beyond "recognition," by those who worship speed. ..more and more speed, greater speed and, <sup>ever and always</sup> ever more greater speed.. but always there was that ever watchful higher power looking after the young Jimba -- maturing him to <sup>adulthood</sup> maturity in order that he might meet the need of those thousands of "troubled others" for whom there would be no other way to peace and well being in the turbulence of ~~these~~ these grievous times.

JIM BABE'S ADVENTURES ON 'THE LONG WALK'

I was deeply involved whaling the dust out of my house, hoping it would remain suspended until I found another interval from my jobs to "whale" it again.

Young Jim raced through the house, hurricane-fashion, relieved himself of a few inaudible words, and buzzed out, heading for the "Long Walk". Suddenly I realized that Ms. Samantha and Ms. Bear were not in Jim's big crib beside the front door, and figured that he must have taken them along with him.

I had created Ms. Bear and Ms. Samantha from whole cloth in rare idle moments. Samantha was made of golden brown cloth. Ms. Bear was made of darker brown stuff. They had been smooth and expertly stuffed with something soft and firm and tempting to the touch. They wore colorful and very becoming costumes - - well suited to their culture and the environment of their time. There was an enchantment and an aliveness about these remarkable toys that puzzles me to this day. They seemed to repudiate inanimacey and kinship with distant culture. They were definitely a part and parcel of the "now" generation.

I often discussed with them the vexations of our times and the trials and tribulations of my days. I missed them when they were absent from the big crib when dusk came,

BB-18-2-45

just as I missed young Jim at that hour when he was overdue from his wanderings. A psychiatrist would dub such conduct on my part as a departure from the norm, no doubt just as I, on the other hand, have always entertained a deep conviction that the theory advanced by the doctors of psychiatry is merely the outward manifestation of deep-seated disturbance of the mind. There is no verification of the claim that psychiatry ever 'cured' anything or anybody..

Restless over the absence of young Jim and the dolls, I walked out on the front porch and was startled to find all the village dogs stretched at full length in deep sleep of exhaustion from the morning run with Jim. I had never known them to sleep through his departure before.

At that moment there was a frightful scream from the direction Jim had gone. All of the dogs leaped up at once, knocking me down on my knees as they charged away at break-neck speed in the direction of the sound. I leaped to my feet and took off behind the dogs. Tearing my way through green briars, tall weeds, and dead branches, there in the vacant lot I came to a high fence of chicken wire.

The dogs had torn the sturdy gate down so it was flat on the ground. The air was a fog of chicken feathers. Chickens were running madly about. Some, overcome with

BB-18-2-46

fear, huddled in fence corners and in the outbuilding which had been home to them. All were nude or semi-nude. Unfortunately, some had been killed. Pal Dog; a capable leader and an astute strategist, was indeed a formidable adversary when young Jim was being either embarrassed, harrassed, or harmed. He was a large snow white Eskimo Spitz.

Pal had taken a firm grip on the back of Jim's sunsuit and had dragged him out of the path of the dogs and the paniced chickens and was comforting him with his large wet tongue. Jim; who had been laying prostrate, but thrashing wildly about and yelling at the top of his lungs, became quiet. I restrained the dogs, bellowing loudly to recall them. They formed a circle around young Jim. As I tested his flesh for injuries, the dogs observed me closely. Had he let out a yell of protest, the dogs would have jumped me, in mass, as readily as they had rushed the chickens. Jim's flesh was pitted with triangular breaks. The fowls, in the desperation of hunger and thirst, had attacked him and bitten out small pieces of his flesh.

I hurried him to our house which was only a short distance away, where I disinfected his wounds. Jim Babe was pitching hissie fits over the disappearance of Ms. Bear and Ms. Samantha. I was also troubled about that and the plight of the surviving chickens. Hotly pursued by the dogs, the fowls had crossed the railroad tracks and headed for the

BB-18-2-47

deep woods to the southwest.

I laid a trail of cracked corn from my chicken lot back to the scene of the conflict in hopes the surviving birds might return and follow it to the safety of my house. I also put food and water there, where they had lived so long and suffered so much. This place had not been visible from the Long Walk because of intervening weed growth. My inquiry established that no person had knowledge of the fowls being penned up there without food or water, or even a notion as to who might have done such a cruel thing or for what reason.

Little Jim and I searched the lot often, hoping to rescue some of the surviving chickens and find some clue to the disappearance of Ms. Bear and Ms. Samantha. This quest was unsuccessful. The fate of the dolls and the surviving chickens was never revealed. We have often wondered about it, over the years.

Janit,

We're concerned not to appear to  
have censored ~~the Temple Reporter~~  
against the Congressional Record  
report in order to show off to  
the community ie it should  
not be on the front page

Also don't we need some kind  
of defensive statement about our  
reason for the paper - some  
little hello from the Temple  
Reporter / editor to clear the air.  
Was there not at one time plans  
for an open house? How about  
something to answer questions  
about our use of this building  
and the recent activity here.

Perhaps we need a list of staff  
or friends of Jim Jones in order  
to make it clear that he has  
not written this so that we take

full responsibility

Consider the juxtaposition of the Bill of Rights with the U.S. Civil Rights Act of 1964 in Congressional Record.

Marcelline Jones graduated from nursing school. In ~~the~~ last year she met Jim and was so impressed by the way he cared for the suffering and fought for the rights of the poor and aged that I learned to love him very much. We got married ~~later~~ and in the years ~~since that day~~ <sup>I have known him</sup> Jim ~~has~~ lived a life of constant serving and caring.

We have lived in many countries and been with thousands and thousands of people - and he has never ~~been~~ ~~any thing~~ other characteristics changed these characteristics. Day and night his first concern is for the suffering and oppressed.

I am privileged to be married to this man of principle, but even if I were not married to him - still I would always follow him.

Jim Jones... as seen through the eyes of those HE LOVED...

BB-18-2-62

For the 27 years I've known JJ I've seen many miracles, but the greatest of these is the miracle of the life of one who chose to die that God might live in him. He was my lover, the father of my children, but became my leader, my example of God's love and the Father of all who loved ~~xxx~~ justice, peace and equality.

I met JJ when he was a high school senior and worked full time as an orderly in the Hospital where I was a senior in nurse's training. I first encountered him when I sent for an orderly and he answered my call. A young pregnant woman had died from trichinosis, a disease ~~dis~~ contracted from eating raw pork. He helped me prepare her body for the undertaker. He was visibly touched by the suffering of her family.

JJ was handsome, brilliant and ambitious, but the thing I noticed about him first was the sensitivity and concern he exhibited. As the months passed, I became more aware of the attributes I mentioned first. We worked together in the hospital, started dating, and I fell in love. He pursued me diligently. I often teased ~~xxx~~ him by saying, "I married you to get rid of you." but the truth is, I knew there was something special about him. I saw greatness. But little did I know how great he ~~xxx~~ would become. Just as he pursued me <sup>once</sup> ~~when~~ he decided I was the one he wanted, he has pursued truth -- once he decided to live and to die to free the oppressed of the world. He didn't have to do it, but he did.

The process of dying that God might live in him started when he was a boy. He climbed the ladder to perfection by saying no to selfishness and yes to love, when making the decisions of his life. Understanding this takes all excuse from us. Our lives are made up of decisions: we may choose self or others, death or life, hate or love. As JJ chose the way of the gap of love, so can we.

It was JJ who first made me aware of the race problem. He was a HS basketball star and quit the team because the coach referred to black players on an opposing team with racial epithets. He left a barber shop with an unfinished haircut because a barber said he wouldn't cut a black man's hair. He was hitchhiking between college and home when a man who picked him up spoke of blacks in a derogatory manner and he demanded to be let out in an isolated area. These are examples of things that happened during a year and a half that we dated. I can't begin to reiterate all that has happened since our marriage.

But, I'll try to tell you some of his activities in the area of civil rights, in the area of equality, racially and economically and the marvellous ministry of healing that has confirmed all that he ~~xxx~~ stands for.

He was a freshman in college when we were married in 1949, during the McCarthy era, a time when this nation bordered on fascism, and political witch hunts were rampant. Jim bravely opposed injustice during that entire time. He at a very young age, saw the

hypocrisy in the practicing religions in the churches of that day. I remember well him standing in a church auditorium in Bloomington Indiana and telling the people of his displeasure at seeing such an elegant edifice and the minister's Cadillac parked in front of it when poverty was so evident in the community that the ~~congregation~~ congregation served.

We had been married about 2 years when he decided to become a minister of the gospel. He was eager to awaken the people to the humanity of Jesus and to let them know that what Jesus was they could also be. Jesus was the first born of many brethren. Although Jim knew the Bible from beginning to end, he emphasized the human service ministry of Jesus and said, there must be no creed but the helping ministry of Christ and no law but love.

Jim was 20 when he became a minister. After J had been ministering for about 1 year he went to a church convention in Columbus, Ind., where a fellow minister prophesied that he would have a deliverance ministry. That night J was the speaker and he was introduced as one who had a ministry of healing and discernment. My reaction to the introduction was one of concern for J. because I didn't know how he could live up to it.

Imagine my amazement when he got up and he called people out by name and by their social security number, and by their disease and their illness and marvellous healings took place. My reaction was one of amazement, it was one of feelings of deep concern and one of being aware of the responsibility of such a ministry. But for three days it was as if I walked on air and I could not feel my feet on the ground and it was difficult for me to even speak. I stood in such awe of this marvellous ministry and I stood feeling the burden of this responsibility that had been placed upon the one that I loved more than any one in the world. After that, the knowledge of Jim's ministry of healing, ministry of discernment went around the world and he received many offers. He was asked to go to England to <sup>hold</sup> meetings, he was asked to go to Africa, he was asked to go to Siam.... And I said to him, "J why don't you go?" and his reaction to me was it's easy to take a ministry like this and go from one place to another, but someone must use a ministry like this and live a life of Christ, a life of selflessness before the people.

A short time after that we decided that we would go to a convention in Detroit .. to the Bethesda Temple. And I remembered at the time that I didn't want to go too much. And we were on the way, driving, and I'm one who never had very many supernatural things happen to me -- and I never had any until I met and knew the ministry of JJ. But while I was thinking and even expressing my displeasure with making this strip to the Bethesda Temple and to the church convention, the words spoke in my mind, "You'll not be sorry my dear that you came here." And in fact, I wasn't sorry because it was an

incident at Bethesda Temple in Detroit Michigan that really gave the opportunity to J to take his ministry further and reach more people with it.

At that time J was having horticaria, or in laymens term for ~~him~~ hives, and when he was in a meeting and he was having discernment on people and he could not express hhat discernment, he would break out with hives. His eyes would swell shut, his lips would swell: he was covered with them. And during the meeting in Bethesda Temple there was a well known evangelist there from LA who had a ministry of discernment, but it wasn't as detailed as J's ministry: he would do things like pointing out people in the audience to the left who had a pain in the back or a pain in the side, and ~~while~~ while he was doing this, J was looking at ~~them~~ these people: knowing their names, knowing what had happened in their patst, knowing what was going to happen to them in their future -- but he was unable to express it and so he broke out in hinv<sup>e</sup> and his eyes were swelling, and it was so evident that the Pastor of this church, who was a woman, came to him and asked him what the problem was and he told her. Jim at that time was about 21 years of age and she said, Why by all means ~~oif~~ if you feel that you have a ministry to give, feel free to express it. Well, when J did express it, it was so superior to the ministry of the visiting evangelist that this pastor, this woman pastor was so threatened by this young man who <sup>had</sup> ~~was~~ superseded the person who was supposed to have more knowledge and more experience ~~than~~ in the ways of ministering the gifts that God had given him that she ordered J to be removed from the church and he was physically removed. In that meting was a pastor of a church in cincinnatti who ~~saw~~ saw J's ministry and who asked him to please come and hold services in his temple in Cincinnatti Ohio

Therefore, J began to hold meetings at Elmwood Temple in Cincinnatti Ohio.. There were marvellous healings that occurred: catarracts were removed, hip sockets were replaced; people were healed by just having his shadow fall upon them. Growths were spit up. I used to carry a paper bag to the meeting just for the purpose of carrying the growths away. People climbed into the windows to get to him. They would come at 2 oclock in the ~~morning~~ afternoon in order to have a seat for a 7 30 meeting. One day I was sitting in this church andin the front of the church was a large picture of Jesus. I was sitting there and in my mind I said, Oh God, if I could have just lived back in Jesus time and served him... This was another time that words seemed todrop into my mind... which said: Follow your husband and you will have followed Jesus. I am convine

I am convinced that if he had been content to just be a healer, there would have been no evangelist in this world that could have compared to him in drawing crowds, but Jim was too much of a man of principle not to also teach people the truth about living the life of Godliness: the life of love. And when he started telling these people that wanted to be healed, and these people that were healed that living a life of God required something of them, that is when the crowds began to fall off. They didn't want to hear that Jesus meant it when he said: You must feed the hungry, and you must take care of the sick, and from each according to his ability and to each according to his need... and that God is no respecter of persons, and that we must live together in peace and harmony with racial and economic equality. When he began to tell them, as Jesus told the rich, young ruler, that in order to enter the kingdom, you must sell all and give it to the poor...they were not interested in hearing this.

However, at the same time that the numbers began to drop, people that did stay were people that wanted to go on to perfection: they wanted to be more Godlike; they wanted to live a life of sharing, and a life of selflessness. And, so where numbers were sacrificed, quality was gained and we began to develop a church family with ties that were much stronger than any blood tie could be because we began to know what living for truth, what living for justice, what true living was about.

At about the same time O. L. Jagers in California had heard of Jim's ministry and he was offered a large sum of money to come out and hold a revival meeting for him. The amount was around \$3000 a week which in 1951 for a 21-22 year old was a fortune. And so he came to see about holding the meeting. And I will never forget the Sunday that we went to the World Church to attend a meeting and O. L. Jagers was very unkind to his own father in front of the whole congregation, and without any hesitation, JJ decided that he could not associate himself with a man that would be so unkind to an older man: the fact that it was his father was not so important, but he was a father and a human being that deserved to be treated with dignity. It was during our trip to California then that quite a phenomenal healing happened to me. I became quite ill when I was there and I had very enlarged lymph nodes and both sides of my neck, you would have thought there were marbles in under my skin, and Jim touched them and they disappeared instantly...

It was so phenomenal for the simple reason that I, as we all are, are strong believers in medical science...but I had never turned to Jim for healing to me, and in fact at that very moment I had said, "No, leave it alone and I will take care of it.." but in spite of me, in spite of my pride, in spite of my disbelief: however you want to describe my attitude at that time, <sup>I am not sure myself what it was</sup> he touched me and and I was made whole: I was healed, instantly.

In Indianapolis, Indiana, there was a large Assembly of God Church called Laurel Street Tabernacle. It was there that Jack Beam was on the Board, it was there that Mother La Tourneau and her family had been members for years, it was there that Eva Pugh had attended for a long, long time... The pastor of that Church, Mr. John L. Price, was a very brilliant man, he had met Jim, he knew

of his ministry, and he had asked him to come and upon his retirement become the pastor of that church. Jim went and he was holding, every Sunday afternoon, deliverance meetings. This was a large church that was packed out every Sunday afternoon -- and I remember that one Sunday afternoon Jim came to me and he said, "I know by discernment that there are black people coming to this church and the ushers are sitting them on the back row..." He gave me the names of two black women that would be there and he said, "I want them to be sat on the platform..." Well, as you know, Jim is never wrong; the two black women came; the ushers sat them on the platform and as a result of that a Board meeting was called. The Board was upset about the black people being on the platform, as a matter of fact, they did not want black people in their church... they did not want to lose Jim's ministry because he was quite a drawing card, after all, not only as far as members were concerned, but financially. So they made an offer in which they said they would help him establish a church in the black neighborhood. And, without hesitation, Jim said, "There will be no church in the black neighborhood -- I will not be a pastor of a black church or a white church: wherever I have a church ALL people will be welcome, and with that he walked out. And with him walked Jack Beam and his family, Mother La Tourneau and her family, her husband and children, and Eva Pugh... We had no money and so Jim borrowed the money to put a down payment on the church in the ~~inner~~ inner city part of Indianapolis, Indiana, and that was the first Peoples Temple.

In the beginning he had a hard time making black people believe that he was sincere and he and his workers knocked on the door of every black family in Indianapolis, Indiana. I think they estimated that they knocked on 10,000 doors... and out of that campaign came a few black people and among them was Archie James. It didn't take Jim long to realize that Archie had ability, he had promise, he also was dedicated and he was made associate pastor of the church.

One of our members, one of our white members, who played the organ and was quite a financial support threatened to take away her support if Archie was not taken from the platform: and of course, I don't have to tell you that Jim had no problem deciding which one should go... Archie stayed on the platform and we were very glad to get rid of the racist who had been sitting on the organ bench.

As Peoples Temple developed, Jim's work and life to free the oppressed, and his ministry of deliverance and healing worked simultaneously. As always, and up until just the last few years he worked a full time job ~~in~~ in the community as well as <sup>ministering &</sup> pastoring a church. And one of the jobs he held was with the Marion County Welfare Dept in Indianapolis, Ind. And I remember a time when his gift ministry helped him on the job. He was walking in one of the less desirable parts of Indianapolis, Indiana, and he had on him a large sum of money that he was to pay on the church when a bandit came to relieve him of whatever money he had... and by discernment, Jim knew that the man needed \$29 for a specific need, and he told the man you need \$29 and he gave him the \$29 and saved the \$5000 that he had with him to put as a payment on the church...

He became well known in the area for his work in civil rights, and so he was appointed the first Director of the Mayor's Commission on Human Rights in Indianapolis, Indiana. This was before there were any civil rights laws... and everything he had to be done by ~~conciliation~~conciliation. I want to tell you that there was nobody too big for Jim Jones to tackle.

All the way from Bell Telephone company for their hiring practices, the largest hospital in the state: the Methodist Hospital in Indianapolis, Indiana, and he was so brave, so unafraid, that the local chamber of commerce in Indiana offered him a job which ~~paid~~ paid \$25,000 a year to get him out and away from this job as Director of the Mayor's Commission on Human Rights: the job as Director was a \$7,000 a year job...but the \$25,000 a year that the Chamber of Commerce offered him was no lure for Jim Jones because he can't be bought, and he stayed on the job as Director of the Mayor's Commission on Human Rights.

Before closing this particular session, I would also like to say that Loretta Cordell, and her mother and ~~father~~ step father also came from the Laurel Street Tabernacle with Jim to start the new Peoples Temple. There were others that had come to Laurel Street as a result ~~as~~ of Jim's ministry, such as the Stahlé and Edith Cordell, and they also followed him.

For the 27 years I've known JJ I've seen many miracles, but the greatest of these is the miracle of the life of one who chose to die that God might live in him. He was my lover, the father of my children, but became my leader, my example of God's love and the Father of all who loved ~~xxx~~ justice, peace and equality.

I met JJ when he was a high school senior and worked full time as an orderly in the Hospital where I was a senior in nurse's training. I first encountered him when I sent for an orderly and he answered my call. A young pregnant woman had died from trichinosis, a disease ~~dis~~ contracted from eating raw pork. He helped me prepare her body for the undertaker. He was visibly touched by the suffering of her family.

JJ was handsome, brilliant and ambitious, but the thing I noticed about him first was the sensitivity and concern he exhibited. As the months passed, I became more aware of the attributes I mentioned first. We worked together in the hospital, started dating, and I fell in love. He pursued me diligently. I often teased ~~xxx~~ him by saying, "I married you to ~~xxx~~ get rid of you." but the truth is, I knew there was something special about him. I saw greatness. But little did I ~~xxx~~ know how great he ~~xxx~~ would become. Just as he pursued me ~~when~~ <sup>once</sup> he decided I was the one he wanted, he has pursued truth -- once he decided to live and to die to free the oppressed of the world. He didn't have to do it, but he did.

The process of dying that God might live in him started when he was a boy. He climbed the ladder to perfection by saying no to selfishness and yes to love, when making the decisions of his life. Understanding this takes all excuse from us. Our lives are made up of decisions: we may choose self or others, death or life, hate or love. As JJ chose the way of the gap of love, so can we.

It was JJ who first made me aware of the race problem. He was a HS basketball star and quit the team because the coach referred to black players on an opposing team with racial epithets. He left a barber shop with an unfinished haircut because a barber said he wouldn't cut a black man's hair. He was hitchhiking between college and home when a man who picked him up spoke of blacks in a derogatory manner and he demanded to be let out in an isolated area. These are examples of things that happened during a year and a half that we dated. I can't begin to reiterate all that has happened since our marriage.

But, I'll try to tell you some of his activities in the area of civil rights, in the area of equality, racially and economically and the marvellous ministry of healing that has confirmed all that he ~~xxx~~ stands for.

He was a freshman in college when we were married in 1949, during the McCarthy era, a time when this nation bordered on fascism, and political witch hunts were rampant. Jim bravely opposed injustice during that entire time. He at a very young age, saw the

hypocrisy in the practicing religions in the churches of that day. I remember well him standing in a church auditorium in Bloomington Indiana and telling the people of his displeasure at seeing such an elegant edifice and the minister's Cadillac parked in front of it when poverty was so evident in the community that the ~~congregation~~ congregation served.

We had been married about 2 years when he decided to become a minister of the gospel. He was eager to awaken the people to the humanity of Jesus and to let them know that what Jesus was they could also be. Jesus was the first born of many brethren. Although Jim knew the Bible from beginning to end, he emphasized the human service ministry of Jesus and said, there must be no creed but the helping ministry of Christ and no law but love.

Jim was 20 when he became a minister. After J had been ministering for about 1 year he went to a church convention in Columbus, Ind., where a fellow minister prophesied that he would have a deliverance ministry. That night J was the speaker and he was introduced as one who had a ministry of healing and discernment. My reaction to the introduction was one of concern for J. because I didn't know how he could live up to it.

Imagine my amazement when he got up and he called people out by name and by their social security number, and by their disease and their illness and marvellous healings took place. My reaction was one of amazement, it was one of feelings of deep concern and one of being aware of the responsibility of such a ministry. But for three days it was as if I walked on air and I could not feel my feet on the ground and it was difficult for me to even speak. I stood in such awe of this marvellous ministry and I stood feeling the burden of this responsibility that had been placed upon the one that I loved more than any one in the world. After that, the knowledge of Jim's ministry of healing, ministry of discernment went around the world and he received many offers. He was asked to go to England to <sup>hold</sup> meetings, he was asked to go to Africa, he was asked to go to Siam.... And I said to him, "J why don't you go?" and his reaction to me was it's easy to take a ministry like this and go from one place to another, but someone must use a ministry like this and live a life of Christ, a life of selflessness before the people.

A short time after that we decided that we would go to a convention in Detroit ..to the Bethesda Temple. And I remembered at the time that I didn't want to go too much. And we were on the way, driving, and I'm one who never had very many supernatural things happen to me -- and I never had any until I met and knew the ministry of JJ. But while I was thinking and even expressing my displeasure with making this trip to the Bethesda Temple and to the church convention, the words spoke in my mind, "You'll not be sorry my dear that you came here." And in fact, I wasn't sorry because it was an

incident at Bethesda Temple in Detroit Michigan that really gave the opportunity to J to take his iministry further and reach more people with it.

At that time J was having horticaria, or in laymens term for ~~hives~~ hives, and when he was in a meeting and he was having discernment on people and he could not express hhat discernment, he would break out with hives. His eyes would swell shut, his lips would swell: he was covered with them. And during the meeting in Bethesda Temple there was a well known evangelist there from LA who had a ministry of discernment, but it wasn't as detailed as J's ministry: he would do things like pointing out people in the audience to the left who had a pain in the back or a pain in the side, and ~~xxx~~while he was doing this, J was looking at ~~them~~ these people: knowing their names, knowing what had happened in their patst, knowing what was going to happen to them in their future -- but he was unable to express it and so he broke out in hives and his eyes were swelling, and it was so evident that the Pastor of this church, who was a woman, came to him and asked him what the problem was and he told her. Jim at that time was about 21 years of age and she said, Why by all means ~~oif~~ if you feel that you have a ministry to give, feel free to express it. Well, when J did express it, it was so superior to the ministry of the visiting evangelist that this pastor, this woman pastor was so threatened by this young man who <sup>had</sup> ~~was~~ superseded the person who was supposed to have more knowledge and more expeirience ~~than~~ in the ways of ministering the gifts that God had given him that she ordered J to be removed from the church and he was physically removed. In that meting was a pastor of a church in cincinnatti who ~~saw~~ ~~xxx~~saw J's ministry and who asked him to please come and hold services in his temple in Cincinnatti Ohio

Therefore, J began to hold meetings at Elmwood Teple in Cincinnatti Ohio.. There were marvellous healings that occurred: catarracts were removed, hip sockets were replaced; people were healed by just having his shadow fall upon them. Growths were spit up. I used to carry a paper bag to the meeting just for the purpose of carrying the growths away. People climbed into the windows to get to him. They would come at 2 oclock in the ~~morning~~ afternoon in order to have a seat for a 7 30 meeting. One day I was sitting in this church andin the front of the church was a large picture of Jesus. I was sitting there and in my mind I said, Oh God, if I could have just lived back in Jesus time and served him... This was another time that words seemed todrop into my mind... which said: Follow your husband and you will ~~have~~ followed Jesus. I am convine

I am convinced that if he had been content to just be a healer, there would have been no evangelist in this world that could have compared to him in drawing crowds, but Jim was too much of a man of principle not to also teach people the truth about living the life of Godliness: the life of love. And when he started telling these people that wanted to be healed, and these people that were healed that living a life of God required something of them, that is when the crowds began to fall off. They didn't want to hear that Jesus meant it when he said: You must feed the hungry, and you must take care of the sick, and from each according to his ability and to each according to his need... and that God is no respecter of persons, and that we must live together in peace and harmony with racial and economic equality. When he began to tell them, as Jesus told the rich, young ruler, that in order to enter the kingdom, you must sell all and give it to the poor... they were not interested in hearing this.

However, at the same time that the numbers began to drop, people that did stay were people that wanted to go on to perfection: they wanted to be more Godlike; they wanted to live a life of sharing, and a life of selflessness. And, so where numbers were sacrificed, quality was gained and we began to develop a church family with ties that were much stronger than any blood tie could be because we began to know what living for truth, what living for justice, what true living was about.

At about the same time O. L. Jagers in California had heard of Jim's ministry and he was offered a large sum of money to come out and hold a revival meeting for him. The amount was around \$3000 a week which in 1951 for a 21-22 year old was a fortune. And so he came to see about holding the meeting. And I will never forget the Sunday that we went to the World Church to attend a meeting and O. L. Jagers was very unkind to his own father in front of the whole congregation, and without any hesitation, JJ decided that he could not associate himself with a man that would be so unkind to an older man: the fact that it was his father was not so important, but he was a father and a human being that deserved to be treated with dignity. It was during our trip to California then that quite a phenomenal healing happened to me. I became quite ill when I was there and I had very enlarged lymph nodes and both sides of my neck, you would have thought there were marbles in under my skin, and Jim touched them and they disappeared instantly...

It was so phenomenal for the simple reason that I, as we all are, are strong believers in medical science...but I had never turned to Jim for healing to me, and in fact at that very moment I had said, 'No, leave it alone and I will take care of it...' but in spite of me, in spite of my pride, in spite of my disbelief: however you want to describe my attitude at that time, <sup>I am not sure myself what it was</sup> he touched me and and I was made whole: I was healed, instantly.

In Indianapolis, Indiana, there was a large Assembly of God Church called Laurel Street Tabernacle. It was there that Jack Beam was on the Board, it was there that Mother La Tourneau and her family had been members for years, it was there that Eva Pugh had attended for a long, long time... The "Free Kitchen" or restaurant opened on February 24, 1960. On the very first day 18 people were fed; the second day 200 were fed. During the first month alone an average of 2800 meals were served. Mr. Archie Lyman, one of the workers at the free kitchen said that as time went on the people formed lines 3 and 4 people wide. Children who had not even so much as a diaper were given warm milk and food. Probably the only food

that they had had in days. ~~At~~ The Peoples Temple Restaurant under the direction of Pastor Jim Jones fed hundreds of needy children in Indianapolis, Indiana. At 975 N. Delaware Street Indianapolis, Indiana.

But Beedman's Chartered Interest

Jim always stood up for the minority people  
Every place he ever been I can remember going  
into a community one time where he told  
the young people not to go to a certain place  
a 3 day wild. He told us exactly when to go &  
when we were there what we could find & when we  
go there we found an old lady crying. Given  
that it is a church & now that she said no  
one (nobody) would visit her. She said she  
had no friends, no one came to see her.  
No body loved her. & Jim just reached down  
in his pocket & grabbed a word of \$ & laid  
it on the table & gave it to her. He had young people  
went to visit her & take her shopping, clean her  
house. He just figure that she go to church  
He just ask her what her job was etc

(Another time); 16th + W. St. -> integrated neighborhood  
~~body~~ Jim & Mrs. don't want to be there.  
(like) Jim ~~but~~ young people <sup>went</sup> go out - cleaned

he had tears in his eyes, & he asked them what was  
the matter, & they replied "we have no place to

out a whole lot & Jim went down & talked to  
some of the businessmen & had them build  
a little recreational park like. That really  
touched me deeply.

~~It interested Jim~~ There was one particular

### Harassment Integration

He had this big church on 116<sup>th</sup> & Del -  
he had this nice restaurant. Huge huge  
meals got big plates. I can remember that  
Jim had us go around + deliver coal  
to poor black & white people in the winter.  
He never got a \$ + they never came to  
church order. + also he wd take in buses  
& give them jobs + clothes + a place to stay.  
~~And more~~ The city wd send ppl to our  
church to get help. We'd go into church to  
dead + help out.

One minister came there died up like a  
framp. After they ate they wd order come to  
church as next as they passed. He wanted to  
find out what the service was like.

Jim always insisted that we integrate w/  
those transients. People had a tendency to want  
to sit on one side of the church + let them  
sit on another side. He kept crying that people  
mingle w/ those people - ~~many~~

↓  
( Jim knew he wanted one of "our fella" as he called  
him. When the man got up to leave he stopped him.  
on the aisle & told him (from the pulpit) "Guess  
you have all the free food you want" "You're not one  
of our fella. You're - in our way. You're here  
to spy on us. Well, you can have all the  
free food you want, but just stay out of our  
business."

There was a lot of mischief that used to happen to us.  
For one thing they were jealous. Because Jim always had  
crowds. Lots & lots of people used to come. Church  
was always so full you could hardly get in.  
Jim was in his home one time & they threw one  
of those Molotov cocktails <sup>at</sup> him. They got the dog. He  
went out there. [add details] <sup>at</sup>. Another time people  
went up & down the street in front of his home  
singing these vulgar songs directed at him.  
They used animals (skinned cats, etc.)

(Beat die)

They wd throw stuff in through the window.  
All kinds of telephone calls day + night -  
White people harassing him - didn't like his  
living in ghetto.

I remember one time he was at the church +  
he got out of the car + some guy came up to him  
+ stabbed him. Jim turned around + vaulted  
him + said "You'd be alright." + the guy  
was ~~so~~ dumbfounded. He was more concerned  
about that guy than himself. Didn't press  
charges.

Stalking at house: Agnes. The man came from the  
side of house + stabbed him in the chest + left him  
on the steps ("X" on his chest)

Another time we was in church. Some one

Hayrides: I can remember I took young people who had never been out of the city on hayrides... for the 1st time in a lot of kids lives they were out in nature. It was really beautiful ~~to be~~ to see the birds & ~~and~~ the stations & drink the fresh cold water & breathe the clean air. Besides in the city it was so smoggy ~~in~~ "He gave all these children this-headed this gentle of life."

### Nursing Homes

I'm going to my 1st class at work. Taught me all about nursing. I can't really write when I first came to church. Was willing to give some the dose -

Two story building Totally integrated -  
When I first came there. One thing that stood out to me was the beautiful meals they had -  
All they eat. Fresh fruits, veg. The very best of meats - steak. Pot. cooked fresh. Very best of crops. ~~had~~ ~~been~~ completely changed every day or more. Ev. patients clothes ~~changed~~.  
Just patient there was RN on every shift. Never a time when any aide on floor w/out RN supervision. (24 patients - 1 RN.) (5-6 aides

for 24 people)

Aides best paid - \$2.00 an hr. when others were getting 75¢ & \$1.00. He wd. also help the aides out of court cases. One time he personally paid for the divorce of one aide who had been brutalized by her husband. Went to ct. for her to testify. Helped them w/ \$ when they needed it - ~~also~~ helped pay their bills etc.

Complete bed bath every day at least once.

# The nurses & the nurse aides there never knew the people that were in it anything about the people that were. Each person was treated exactly the same no matter where they came from or how much \$ they had. [One hosp't would send us the worst cases - eaten down to the bone & bedsores. But they knew Jim'd take care of them.] One lady had been there for years - got the very best care & never paid a cent per day & none of us nurses knew it. I didn't find out till after I stopped working there. So I know this is true." Every patient got indiv. care. We were never told that we shouldn't talk to the patients. It was such a friendly atmosphere. There was plenty for the patient to do - sewing, embroidery, knitting, quilting, & ruffleboard.

BB-18-2-94

Jim used to ~~come~~<sup>come in</sup> ~~in~~<sup>81-82</sup> see his fingers along  
the baseboards & if they weren't spotted then  
we'd catch hell

The yard was beautiful - flower garden  
He wd have the young ppl come in &  
sing or play music & talk to them  
and out selves - sep either

Each one got Xmas gifts + birthday gifts  
Every one big birthday cake - even if  
Dishwater - wd make special preparations  
for " " "

Always had all the food, juice they wanted -  
Cakes, crackers, ice cream. We had fun  
jobs & play checkers w/ them.

Jim'd come through at night to check  
Janes washed, hair combed, teeth  
washed - always - every day kids to be  
neat + clean [ Most of us enjoyed our  
work so much it was like one  
continuous bent ]

Jim enjoyed us so really get friendly  
w/ the patients.

" I remember one time there was this little  
man + this little woman + they had a  
cub on each other. ~~So~~ One was downtown  
+ one was upstairs. + this little old man  
wd make his way upstairs to see his friend.

Well, Jim found out abt it & so he arranged  
It so the whole man was moved up to the  
next floor - he made it easier for them to  
he <sup>together</sup> <sup>sneering</sup> <sup>instead of</sup> <sup>up</sup> <sup>the</sup> <sup>stairs</sup>  
5 ~~minutes~~ <sup>as</sup> <sup>they</sup> <sup>talked</sup> <sup>ab</sup> <sup>t</sup> <sup>it</sup>, \* It was so sweet.

~~Jim~~

~~Jim~~

Insisted on being fed best food -> fish whole  
piece - glasses filled up to the top. Cereal  
- cooked fast every morning. Big slabs of  
best meat & he didn't eat that well himself  
for patients

Used pine veg. shortening - not lard. He didn't  
take the easy way out. He must've lost  
\$ bec he was continuously making sure  
the patients ~~had~~ had the best. The expense didn't matter to  
him.

In fact other people from Springfield  
home came in & asked him "how can you  
afford to do this?" & Jim said: - "Well, we're  
not making a profit. We're here to serve  
people, not to serve ourselves."

When Jim was just four years old, he was always bringing home animals and people he would find hungry on the streets. ~~He was~~ I never ceased to be amazed at the consistency of his character - always caring about the welfare of others.

I remember when a lady up the street was dying. Little Jimmy went to visit her, and then he came to our next door neighbor's house and got some flowers + took them to her. When the neighbor came home he was very angry. He came to our house and asked why Jim had taken his prize flowers. Jim told him "the lady was going to die before you got home, so I didn't have time to wait to ask you."

Sure enough he checked and found that the woman had died shortly before he came home. When he realized that Jim cared so much, he offered him all his flowers and any of the food in his cellar to use for any need that ever came up.

Kim Unida was one of several <sup>foreign</sup> children  
who were adopted in 1960.

A fund was established by members of  
the congregation to pay the costs of transporting  
the children here and the legal fees  
arising <sup>when</sup>. Any family ~~who~~ wanted  
to adopt a child, the church would  
place the child in their home ~~with~~, using

Characters

## A FEW EXAMPLES OF CHARACTER

### CONCERN FOR LIFE: nature

When we went to Philadelphia to the Father Divine Estate, the gardeners there wanted to cut down the tree branches so that the busses could pass under. Jim refused and said that he did not want to have them cut. Instead the busses were parked there and the people waded over the lawns to the entrance of the house.

When Jim was pulling weeds, he took them and transplanted them along a creek bed where they could grow. While they were waiting to be transplanted, he placed them in the shade out of the hot sun.

One time when Jim was moving redwood burls and such, a black widow spider came out and bit him on the stomach. He gently removed it and said not to kill it for he had disturbed its home and it had a right to live.

He had a daddy long legs spider that would come down every morning when he was shaving and get a drink of water. Would only come down when he was there.

### CONCERN FOR OTHERS OVER HIMSELF

When the group was in Oregon, he allowed a rattlesnake to bite him rather than another member.

He had discerned that there was a problem with a certain horse that the children often rode. He, himself, went out and got on the horse and rode it until the horse threw him. He landed on his head and it was a miracle that he survived.

When a man came to the church with intent to do harm, Jim ordered all to stay inside and let him deal with the people alone.

In Oregon there was a rope that went out over a river. Jim tested it himself to be sure that it was safe for his people. On the way back, the wind caught him and blew him in a path that forced him either to gently bump some people or hit a tree and hurt himself. He chose not to hit the people and bloodied himself on the tree.

On the vacation trip to Philadelphia, people were thirsty. Though it was close to a rest stop he stopped the busses and gave them his water. His unique system required this water for his own health and yet he gave it to people who had no real need of it other than their own desire.

On one occasion the congregation felt that they had betrayed what Jim stood for and signed a paper giving him all the money. They told him that he could do anything he wanted with it and there were no strings attached. Jim took none of the money and instead put it into building the church in Redwood Valley. This was also in spite of the fact that Jim had put thousands and thousands of dollars into the church in previous years without ever getting it back.

At a monthly birthday party Jim gave revelation to a young man that serious trouble would come his way unless he did certain things. The young man went out and spoke all manner of lies against the church, the pastor and the beliefs. The young man did not heed the revelation and he was arrested. He called Jim at 2am and asked for help. Jim gave the young man help though it took two days and nights.

### LACK OF CONCERN FOR OWN IMAGE: SELFLESSNESS:

Refuses all money, gifts and such. When things such as furniture are offered, he asks that they be given to the senior citizens for their enjoyment.

He refuses to join any clubs, organizations, etc. and chooses to fellowship only with his own congregation. With the offices that he has held of service to the community, he could

character, continued

have his pick.

When cleaning the Legal Services Offices (which he was instrumental in founding), he cleaned the dirty, stinky toilets that no one else wanted to do and had purposefully avoided.

Jim cleans the church and even reaches his arm in to get used kotexes that women have put down the toilet, stopping it up.

When the church was coming from Indiana, he was always the last to eat, waiting til he was sure that all had eaten. He also went out and took care of the people's animals while they ate. [they were more concerned about themselves than the poor animals]

Once when coming to a very important community meeting (Grand Jury or School Advisory Comm???) Jim saw a deer standing by the road hurt. He did not hesitate to stop and help the deer taking it to the vet and such, even though it meant that he would be late for his meeting.

He does not change his sermons or water down the truth when State Senators, Mayors and such are in attendance.

When he was shot, he came into the services and ministered to the people. He also said that if the person who shot him came to him for help, we would welcome him and help him, even taking him into membership if he desired.

When asked if he would like a vacation for his family, he said yes-if he could take his whole family. He took all of the children and as many adults as possible to Oregon.

When we were planning to go to Philadelphia, he announced in the Benjamin Franklin Auditorium that if any of the people knew of a child that would like to go, let him know and he would arrange it and pay for it himself.

When he received the Sun-Reporter Award, he chose not to attend the ceremony as it would interfere with his own services. I'm sure others would have gone.

Though he has had no sleep for days and will be up on the bus, he stays until the last person who wants to see him has had a chance to speak with him after the Wednesday night business meeting.

When Kinsolving was in the midst of publishing his terrible series on the church, Jim was still able to recognize the good aspects in the man (i.e. his stand against capital punishment).

When Jim was in the LA jail, he refused to take bail as it was not available to all.

When he is questioned by federal agents, he refused to give any information about anyone. He chose rather that they take him.

MINISTERIAL NEWS "THE SAFETY NET... UNDER THE TIGHT ROPE"

116 years ago the first church in Ukiah was built by the Christian Church. Disciples of Christ denomination, who shared their building with the Methodists and the Baptists. There was little thought or concern then about the competition such as exists between many churches and denominations today. But even though the Methodists and the Baptists have long since had their own church buildings, the First Christian Church still seems to possess the same strong spirit of brotherhood and sharing as it did over a century ago.

The very articulate pastor of First Christian Church, REV. ROBERT LEWIS, believes the church must be open to all and made available for use by whatever community groups or individuals have need of a facility. Thus, Ukiah's First Christian Church is being utilized by a nursery school, a community service club, and for the planning of local cultural programs.

Rev. Lewis feels the role of the contemporary church should be to give people models and alternatives for becoming total human beings. For living life to its fullest. He takes his example from the lives of Jesus and Paul. "There's a 'real you' somewhere, and when you're living it, you know it," says the Reverend Lewis. His desire is that the church help individuals become aware of their respective gifts so that each may express his "true self", in authentic living.

Rev. Lewis would like to see some of his ideas along these lines put to practice within the Ukiah Ministerial Association, to which he was recently named President. "Preachers do have problems, contrary to the image most often seen, and they need to help each other out," the Reverend asserts. Most ministers in the local area belong to the Association, and Rev. Lewis would like to see its meetings involve more communication on a personal level. "After all," says the Reverend Lewis, "the ecumenical movement is not really to get churches together, but people together." And, if the labels are dropped off, it's easier for people to unite in the way that Rev. Lewis has visualized. He would like to see the various church families become a community of neighbors; he thinks more informal and personal discussions can help bring it about.

The Ministerial Association is involved in the community in such activities as assisting local convalescent facilities and providing emergency shelter, food and gasoline on an emergency basis to travelers passing through the area. Rev. Lewis would also like to develop some form of specialization committees within the association to give each minister the opportunity to "...take up something he is impassioned about and run with it."

Rev. Lewis views today's church as, "the safety net under the tight rope," and his ideas would seem to strengthen it as a place of security for those who might fall.

*Second thoughts about this paragraph  
Don Beck also agrees. It sounds as though  
The Christian Church is the only one practicing  
brotherhood & the others are competitive.  
It could - would - seem division in the  
churches. The Methodists are "athes." (of a sort)  
Should be ~~revised~~ revised.  
Probably omit the part about competition.*

*Tim Stoen also agreed  
to some change.*

Life is nothing without purpose  
And there are different purposes  
in life.

And many of these are need\*  
fulfilling.

But the only really satisfying  
goal, is that of helping and  
reuniting all that has life  
and needs purpose.

And to achieve this goal one  
must strive to perfect one's self  
to the best of one's ability, and  
to fight for what one

I, Stephan Jones, hereby resign my membership in Peoples Temple Christian Church. I am resigning because my beliefs and activities are at variance with the beliefs and activities of Peoples Temple Christian Church, and Jim Jones, the pastor of said church. I have no criticism of the church or of the beliefs or standards of the Peoples Temple Christian Church. My only reason for resigning is that I do not feel that I can uphold these beliefs and my current activities take up too much of my time.

I have been treated fairly and with justice and love by Pastor Jim Jones and the members of Peoples Temple. At no time have I had any reason to be unhappy or to disagree with any of the treatment that I have received.

Signed Stephan Jones

Dad,

I know I'm a selfish Son of a Bitch for doing this, but I've given a great deal of thought, and I know I'm never going to amount to anything, I accomplish anything for Socialism. I can't blame you if you hate me, but please try to understand.

I constantly am feeling guilt for one thing or another, when I feel I'm doing right. I'm doing wrong, I just can't win.

You talk in service of killing me — I assume this because I'm the only one from your "group", as you said it. This makes it possible to console my guilt by saying I'm only saving you the trouble.

The main thing that grieves me is the love I felt for a girl I can never hope to have. I would sacrifice all else to have her at my side. At least you have Carolyn and Kim.

I just hope I don't die ~~as~~ as I lived — hated

I'm Sorry Dad, but just  
can't see living without what  
I want most in life and  
I don't see any purpose to my  
life when I consistently feel  
like a traitor.

Please believe I love  
you,

Stephan

Life is nothing without  
purpose.

● And there are different  
purposes in life.

And many of these are  
need fulfilling.

● But the only really  
satisfying goal is that  
of helping and reuniting  
all that has life and needs  
purpose.

And to achieve this goal one  
must strive to perfect one's  
self to the best of one's  
ability.

Transcript of Telephone Conversation between Marceline & Suzanne <sup>1 IN</sup> Sept 20

S: Hello.  
M: Hi, Suzanne.  
S: Yea.  
M: This is your mom.  
S: Yea.  
M: How are you doing sweetie?  
S: O.K.  
M: I just got into town a couple of days ago and I wanted you to know I was here.  
S: ~~XXXXXXXXXXXXXXXXXXXX~~ O.K.  
M: Are you still planning on going down?  
S: Yea, Grandma said that Dad said, and Dad mentioned it also, that he wanted the trip postponed?  
M: Yea, because I was coming back and I thought they could go down with me. You can go with me too.  
S: Oh, O.K. When is that going to be?  
M: I can't know for sure how long, but I'm hoping it won't be for more than 3 or 4 weeks that I'll be here.  
S: All right.  
M: But having been here for such a short time, I can't tell you for sure. I will give you enough notice.' How much notice would you have to have?  
S: Well, more than likely, it will be the third or fourth week in Oct?  
M: Probably.  
S: That's when I can't make it because I've got a trip out of the State (or States) for a week and a half, clear through the first week in Nov.  
M: What is this the third week in Sept?  
S: Well, I'm going to be out of town all next week too. three  
M: O.K. well, let's play it by ear. Last time I came here for ~~xxx~~ weeks and I stayed for five months, so I don't plan anything.  
S: (They both laugh.) Oh, my God.  
M: It doesn't mean you have to come with us or anything like that. I had to come back.  
S: How come?  
M: Charles Garry thought it would be good if I came back, the people see me, see that I am well, healthy, and all that kind of thing, mainly...  
S: Did any of the boys come with you?  
M: No.  
S: OH. (an obvious let down)  
M: I came by myself. So grandma and grandpa were planning the 4th, but Dad, and I did too, felt it would be kind of foolish for them to be there when I am here.  
S: Yea, because when I first talked to them, they said they had plans to go see you.  
M: Yea.  
S: Oh, O.K. I didn't know.  
M: This came up and Dad decided, not just him, it was decided..and Garry thought it was a good idea for me to come back for awhile. Well, I'll keep you posted. O.K. You'll be gone all next week?  
S: Yea. Well, o.k., so when we come back can I, can we meet for some.. to talk?  
M: Yea, sure.  
S: O.K. I'll call when I get back.  
M: You do that, and I'll meet you honey.  
S: All right. Are you going back to Indiana? Or are ? coming out here?  
M: I plan to go back that way.  
S: You mean stop on the way

M: Unless my plans change, but that's the plan.

S: O.K., go through that way and just pick Grandma and Grandpa up and then just go on from there. I see.

M: All right.

S: Have you heard anything from Mike down ~~at~~ there?

M: No, have you heard anything?

S: No, I haven't seen him or talked to him for ages. ~~XXXXXXXXXXXX~~  
~~XXXXXX~~

M: I wonder where he is.

S: I called the bank and he wasn't there. I don't know if he was just off for the day, but they said he wasn't there, that's it, and you know, I didn't want to leave any name or anything.

M: No, we haven't heard anything from Mike down there. I wonder where he could be.

S: Well, I ~~do~~ know his job was temporary, when he first got it. Well, I wanted to finish up on the divorce.

M: If there is any contact made, I'll be sure to let you know. Are you all right?

S: I'm fine

M: O.K. well take care of yourself honey, and when you get back, let me know and we can have a talk.

S: O.K.

Re: My analysis of Suzanne's response.

At first she was very reserved. I think she had believed that my parents' trip had been cancelled and I had been sent here to keep her from coming. When I assured her that I was sent for other reasons as indicated on the write up of the conversation, she began to soften. There was almost a pleading in her voice when she asked if she and I could get together and talk. If it is alright with you, I thought I would meet her but I would be driven to pick her up ~~my~~ my security would take us to a place of my choice that she would have no advanced knowledge of. She seemed disappointed that none of the boys had come with me. I can't imagine what would make her think I'd bring them back to this hell.

She is going to be gone for a week and then she will call me. Unless I HEAR OTHERWISE, I will meet her as stated.

Tim Tupper

Jones

Mr. Jack Persaud  
General Manager  
Plaza and Strand Cinema  
Georgetown, Guyana

Dear Mr. Persaud:

It is a pleasure to introduce my son, Tim Jones, and to recommend him for employment as a security guard at your cinema. Tim has proven himself to be an excellent worker, conscientious and reliable in everything he undertakes. I have no qualms about speaking to you on his behalf. In the United States, he was employed as a security guard on a night shift, and his employer commended him for doing his job well. I'm sure that the dangers and the frustrations of his job were far greater in the U.S. they they will be here in this lovely capitol city.

While Tim has been extremely helpful at our Project Headquarters, assisting especially in the necessary tasks of procurement and transportation, he has thoughtfully worked out other means for these jobs to be accomplished so he can help us financially during this time of expansion for our Project in the North West District. While we are making splendid progress, we must realistically calculate that the experimental farm will not become self sufficient for another few years. Some of our main investments, for example the fruit orchard, will not become highly productive until the trees are about five years old. In the meantime, we are pouring every cent we can raise back in the States into equipment and supplies to support the growth of the settlement and to clear and cultivate more and more acreage. We appreciate Tim's concern and hope that he will be able to work with you. As importantly, we feel he would be a great asset to your security team, and could easily head it up to your advantage.

If you have any questions, please don't hesitate to contact one of our coordinators, Deborah Touchette or Paula Adams, as I may not be available for a few days. I'm sure Tim will satisfy your requirements in the best possible fashion.

Thank you for your consideration. My best to you.

Sincerely yours,

Jim Jones,
