Soc. Class

Rfk mv of other women we placed a sept in a good place - signed in - Helen Love bes me - I what no girl for a while - a portion of day's tape was played

I entered - inquired whether everybody was ready for the written test - on being told that most had not heard the news today, he sit asked who had heard yesterday's news - few did - he said we wd definitely have a written test tom - he then gave a list of questions & asked for volunteers to ans them - those people joined the line & I promised a reward this time for "positive reinforcement" - people who ans'd correctly

In the midst of questioning, I spent some time in the day Newton article - showed each copy of the New Times with painting of Huey, which him worse than he was - geshed to those who can't read & those who can - they don't have to assassinate any more - the media shot him down - some people can't stand this type of attack - all they had was their public image

Up Head bkfst

Worked on adult sch records - on my list of those who have been attending I enter the info I have collected so far & their ages, level of schooling, disabils which may interfere w/ reading & writing & the dates attended during the last ~~part~~ of July - I have a column for ~~[illegible]~~ predicting their level of competence

Bruce Jackson, who repairs clocks & watches for members, gave back to me my clock which had stopped running a wh e he'd or so ago

Went to lunch

Lois & I met our adult class - another Ige grp was in attendance - the day was very hot & we all sweltered under the sch provided tent - I searched for another place - the nice tent is cooler, but the sch classes ~~are~~ there at 1st - we also needed more chalkbd space but I had to manage w/ the two we had - I wrote on the board statements summarizing the points in the questions asked by J & then asked a question to bring out knowl. and reasoning abil, & Lois meanwhile answered questions & effected bkgrnd - we finished all but about six questions

Lois, w/ the assistance of Mary Casanova, moved to the place under down & where the rice is sorted - the workers ~~did~~ listen as they worked - it is cool in this ~~part~~

Took a shower

I finished recording all the info I have at

[redacted]

C-2-A-1(3)

present on my adult class - in so doing, I have sorted out my files too, so that I am better prepared, know what I still have to do, & know where to find everything - a difficult prob as I keep all my writing materials in my crate, tog w/my t.w, this I am doing, h.s. records, tchrs records, sewing materials + linens for personal care - clothes I keep in my suitcase & under my mattress, as well as sheets + towels

Went for dinner - wh ended at 6 or ten instead of 6:30, so I went early - we had chicken dumplings

After dinner I went to the pavilion to listen to the (bonus) records & then with promised some of my class members, the questions I had not finished during class & went back to the cottage for them while they saved me a seat - but I had left my padlock key in my bag so quite distant bring them back - as the record was being played in the pavil. was the review meter I went to the library to see what J Teresa had put on the board

Signed in at the pavilion - then listened to J's newscast

I came in late - he dictated the written exam - there were four main questions but 2 of them had numerous items - it was a good test, prob prepared by Dick Trupp or Jann Gurvich - I think I answered all the questions satisfactorily - the 2 class members, sitting bes me, peeped at their notes + also asked questions of each other, tho I warned them against this - people who finished early were asked to help those who didn't write

The six tchrs assigned graded the tests

[redacted]

at the side of the pavilion - not all. helped who were on the list - each of us had 25 to 30 tests - the light was poor and I had to give those in which the handwriting was poor or which were dimly written in pencil to someone else.

Meanwhile the mtng went on w/disc of some agric. problems and disciplinary matters - the jury was used in some cases - one case involved hostile behav. by a Ward girl, [redacted] Alfredo, on the banana crew

The brooms made by Ken Horton from the materials they had were very fine

At one ~~x~~ I made some remarks on reincarnation which I did pay attention to - he was trying to discourage speculation concerning astrology, reincarnation also on the grounds that ~~it~~ they make people think the universe has a plan which will work out inevitably; it is not necessary to do anything - he said he had insights that reincarnation is a fact but it meant nothing useful. even that it ~~x~~ would prevent suicide if one believed he would come back for eons of time, or many generations - poignantly I said that even tho true, he did not understand. Why, as it seemed to him he just had to go through the same thing as he ~~x~~

~~R~~ On most topics I did not concentrate // Athletes foot was mentioned - most of the membership suffers from it - it seems to be a different

(over C-3-A-1 (S)

[redacted]

type of fungus than we had in the States - I said
yes dif. disinfectants were being experimented
with on the shower floors and research will
be conducted on remedies, some of them obtained
from abroad.

Although it was very late I took up another
matter - Norman James, who having been gone
for 6 mos., had informed the Tc he would be returning
this wk - he had not communicated w/his
wife (Judy) and child, had sent no money - he
had been reported w/another woman - some of
our people had talked to him while in Miami -
that he had been offrd a job at the airport in
Geo'Town he was flying on lines that did not
bring him in to Guy - the fact that he is a
pilot may have some signif. w/regard to his
activs in view of the arms surveillance of
Guyana by the RA Enquirer plane & spts of planned
mercenary attacks on us - many members spoke
of R's characteristics = spoiled by his parents
cherished as the only son, avoidance of physical
labor, pride in his appearance - which made it
poss that he cd have deserted to our enemies -
I said that the govt had told us ~~we~~ that the CIA
had a plant in our membership who might
come here - R's pos. relations w/his sisters, par-
ticularly Vicki Moore, were discussed & various
members told of incidents involving Liz Ruth
when she was telph operator in LA and
R had told her he wd be getting msgs under
an assumed name & when she [redacted] was
was to get in touch w/him immed. - she had

(cont) C-3-A-1 (6)

1 Aug-T-3

assumed he was on Te bus. – she cd not remember the name now – I got on the floor & told of the episode when I gave R a ltr. to funds in Bechtel, asked him to mail it from Caracas where his new job wd take him – his plans chng'd & the ltr wd have to be mailed from Tle, he had told me – I sd R had been meticulous about giving him info concerning all ways he had been asked to del: – I sd people wd be assigned to be w/R & no one else is to have any conversation w/him

The mtng did not end until about 330
I was in bed at 4 oo

2 Aug - W

I slept until 10 Am

Estelle was cleaning up the cottage, so I ate in a dirty bowl, cached w/ food & greasy outside, which had been left (by Donna accor. to others) on the porch - Jonestown is preparing for guests

I delayed going to bkfst until 11:30 so as to avoid a long line - we had biscuits - we didn't have lunch

I also did not hold my class because the sch child. were using the space from 12 or 1 oclock on

Whid at home on grad entries & almost finished my adult class records - the day seemed like Sh

Th my shower

Went for dinner - we had curried fish on rice

I had a frustrating time in the pavilion & libr Try ing to get the news - I wanted in partic the bonus questions which were asked on T ave while we were grading papers - Con - struc. in the pavil made it diffic to hear J's news Tape from which I usually take notes - the Tape being played in the libr And some mechan. defect which made it diffict to hear - I copied some items from the bd, I didn't get the bonus questions at all

Saw Dems Ratcliffs about my needs - he sd I didn't need to fill out a request again - the

(over C-3:A-1 (8)

workers wd be around tom night

In the pavilion there were movies & entertainment for the people coming in on the boat - I later find that Frances Johnson was one of them

I whd on my sewing for several hrs - yng people were in the cottage all eve - the conversation of Donna & some of her friends was annoying - that of Sonya & her friends was less so - I made considerable prog on my shirt.

Inez was out again w/ Chuck & Estelle was out - they both came home later - about 11:00 they left for Fredericton leaving me w/ the probl of getting the cottage quiet - I was helped by Donna who wanted to sleep by going to bed by Laura 11:15 & Laura 11

Juliette Langston was typing but the hot typewriter elsewhere when requested - however Shirley & Sonya wanted to play cds & it required some argument by them turned out the lights

I vaguely heard Estelle & Inez who came in around 1/2 to

This was the first day in a long time that we have not had any rainfall

C-3-A-1 (9)

3 Aug - Th

Aft bkfst I left my sandals for repair - stopped to inquire about my laundry - it wasn't ready yet but I had reason to fear there may be another mix-up

Went to the libr. & th notes on the news. ↓ because I had my commentary this aft by the Med Dept - ↓ from Teresa's bch II was home late - have been trying to get a morn. free for final typing but s'thing else is always coming up I did what on my adult Irish records & corrected spelling papers from the last test

Went to lunch - I saw Frances Johnson in passing - we had only an opport. to greet each other ↓ went to adult class - posted out this for a rdng lesson for all, aft a class disc on our Agricin map proj - we also had sev new people to whom I had suggested my class - Lois told me she had ↓ The results of the news test have been posted - a larger nr than bef. made "Excellent-plus" & fewer failed, so I concluded the new system is working - Tchrs' scores were not posted but Tr told me I made Excellent-plus II

Lois for me this morn to coordinate our activs - she wanted to give definitions of terms used in the news - aft we had had disc on steps we need to take to make our maps & had some minimes for certain jobs to be done, which I accepted, I allowed Lois to conduct the class session when on the definitions - we didn't get to the rdng - a heavy downpour

(over) C-3A-1(10)

caused further problems - people had to move, who were near the edge the bks had to be collected to keep them from getting wet, & on account of the rain many ed not keep - in all fairness, the definition proj was prop ~~the many ed no~~. I stayed some time discussing ideas w/ Lois about conducting the class.

I went by to pick up from Joyce Lund the African map she made for me - she has not had time to finish maps of Europe and South Amer she started & I want to see whether the African map can be used as a model for our proj. - I had to hurry to the cottage to prepare for my best appearance - it went smoothly & I gave them the bonus questions we are to be tested on F seemingly & then talked about the worst danger spots of the world

Th my shower

Spent a little more time on the spelling exercise of my adult class

~~Had~~ Met Terese on the path & she made a proposal to me concerning a preparation of some items of news for the adults in simple lang - this cd be typed (by Vernette) on a big type t.w. - her idea was to have me select & ~~typ~~ translate the items - I thot this a good idea the enticing aspect wh, & pd I wd disc it w/ Lois thinking she wd ~~approve~~ approve - I had in mind at first taking the items down from the tapes as I do now -

X Had dinner

Went to the pavilion & tried to take down the news from Jo's newscast = the first time I had heard it - had diffic getting the

3 Aug - Th - 2

ideas down & I despaired of getting my notes for the new summary from this shreds - later I spoke to Teresa about it & she sd she had to hear the tape several times - that being the case I told her I'd prob have to wait until I had her notes, we can't hope to put notes out fast - I suggested once a wk as a start

Sat Techs met but not many came - we were to make arrangements for F night's after classes - I felt & told Debbie it is unfair that the same Techs have to take the after classes all the time, besides I have to be home to see my needs worker - Debbie allowed me to go

Had an opportunity to talk to Lois again about the simplified newsletter - add a few remarks in the 11 o'clock. When I saw Lois I explained Teresa's proposal for having a simplified news summary for those who can't read well - she was quite vehemently against the idea - she feels people will learn the hard words if they have to - she thot the simplified version of the news, was to be put on the boards which Teresa hadn't mentioned, altho I think one or 2 boards w/easy notes wd be advantageous W//

some vein she had taken previously, she backed down - I wasn't sure why

The needs workers came shortly after I got home - they saw Laura too - they were very pleasant - they asked to see the items we already had of the requested category - they gave no indication of what the decision wd be - as they had

C-3-A-1 (12)

gone I spent the rest of the evening sewing

I hadn't realized that Peg had come home from the office sick & gone to bed - some young people coming in the cottage were noisy & she requested consideration but to no avail - the worst offender was Lonnie Evans - Charlie came in to talk to Peg for a while - when 11:00 came I did my best to get visitors out & the residents quiet & at last succeeded but not before they told them how inconsiderate she thought they were - Linn was there but she did not do anything to help

I was so disturbed myself that it took a long time to get to sleep - I was awakened by somebody at 3:30 went to the toilet - Peg & Estelle were talking which caused me another woeful period

4 Aug - F
Rally

I gave list of topics to be studied for test - Hay PM gave opinions on corruption in govt, firm on govt corruption & white collar crime - spoke Israel & ~~enemies~~ as enemies - on Ellsberg ~~X~~ - we had stress in court in attempt to get his lie - he admitted crimes but said "they did it too" as his defense

I started calling on members for what particularly caught their attention in the news - several responded - Ines called upon - topic of corruption in Housing Authority in St in news, opposing finally which I had uncovered while there - last night I sd Rex Enquirer listening last night - I invited a one-time supporter so they could get a gd story - Jon Korean news & offering of Korean visitors here - that we didn't ~~each~~ money impressed them much - I sd see if you don't have to spend money, don't & don't waste

Chair made by Ken Norton

Our ship not being taken care of properly - Steve got to go in to it - operation slovenly - Steve will replace Ruth Jan who away - going - ~~is~~ thing broken - partying on the boat - Heather will go too - if you like her face you don't feel like partying - Phil licensed on other boat - has girl friend now, Carol (Kerns) - we lost some bus

5 Aug - 5

Had bkfst

I checked the boards for the latest items we are to be prepd for the test which was to be given tues

Went to the warehouse to see whether I wd get my needs but I was too late - I checked w/ Catherine Dominique about scrap paper to put our typing mss on for a pattern - she gets paper sacks in which our flour comes & cuts them up for toilet paper + she told me to ask at the veg. stand

I did my hand laundry & hung the clothes on the line for the cottages - the day was clear + not too hot

Gave some thot to the news summary I am to prepare for the seniors who can't read very well - told Theresa I wd try to get her some copy on M

Had lunch

Checked our news items again

Lois had volunteered to teach newsad a spec. session of the adult class & I observed her meeting w/them in the second sch Pavilion (formerly the rice tent) - she had a goodly crowd

Took my shower

Wrote my report on adult ed to turn in to Cove Jones

Harriet Tripp came to borrow 1 of our last of Virginia Woolf which I rd for an hr or so, though I nearly

(over) C-3-A-1(18)

fell asleep

Went up for my mtng w/Cora - had a considerable wait for her w/Jeanette & Lois arrived two - when Cora came I gave her my draft rpt which she gave to Jeanette to type - Lois suggested we have eve classes for adults who cant come to the lunch-time sessions - I have no objection if she wishes to teach them but I have enough respons. now & I know from after that finding a free eve. is almost impos.

Cont'd reading the hist. of Guiana for an hr or so

Went to dinner - we had chicken gravy on cassava & very good greens and pumpkin pie

X The sec tchrs were called to a mtng in the pavilion - Tripp conducted it - he & John had been asked to prep questions for the test - they had a list of topics & asked our opin on phrasing - most were essay questions requiring considd knowl. - we then discussed ~~replacing~~ tchrs to replace some who have quit - Jim Pugh is one - it was decided that we wd take some of the co-tchrs from the classes - ~~11~~ I had decided we shd have met in our old socialist classes & we went to be tested //

Then we recd wd there wd be no testing until 9 or - classes were to meet for discd at 7:30 - if parties was not satisfy, we wd have a test at 9:00 ~~in our classes~~

Most of our old members were present -

(Cont) C-3-A-1 (19)

5 Aug - 5 - 2

few new ones came in - Don Jackson was [redacted] to teach another class & I conducted our own alone - I asked the class for suggested topics - partic. was very good & most people made comments - later I heard - I had time and to observe how the classes were going but I didn't see him if he visited ours - At 9 or I sensed that he was satisfied partic had been good - we shd go to the pavilion to see Hearts and Minds, documentary on the Viet Nam war, which was reqd - I got a seat in the back where I cd not see well but I remembered it well from prev. showings

Went home to bed about 12 15

[redacted]

C-3-A-1(20)

6 Aug - Sat

We got up at the usual time, had a half day off - I had Chpl at 8 ov

I typed on my jrnl from 9 ov until 12 30 - but in the order from the book where it has been taken & typed in a little nook btwn my bed & Laura's & Ruth's, putting the t.v. on my ears - though people were in and out they didn't bother me any & I made satisfying prog - I also typed a 2 page statement in resp to a request from Ted that everyone turn in their feelings about what he had said at a recent mtng - I was told this concerned the conference w/ Riccardo Otterbury & I had differ. of thinking what I had said at that time - however I went into the sit as the time, comments I had made on prior occasions & my own observations

I did some pers chores, th a shower & shampooed my hair

Few people were in the college today, tho' the residents weren't working in they the Gd either

I typed on jrnl entries

Dinner at about 5 ov - We had cheese rice and greens

Had news from the board

I served on my shift all eve. until about 8 ov - I have pieces saved all the way around, now have to work on getting it to the proper length - went

(over) C-3-A-1(24)

for my treat - I got an extra piece of fudge for my "Excellent-plus" paper; actually for some reason I was given 3 but I bet the guy in front handing them out was too generous.

Ra gets the rest of the eve

Inez is very unhappy over her supervising role in the cottage - the determining factor, in my opin is her anger over the lack of sympathy shown when she was ill - two, some of the residents (we can't be sure who they are) leave dirty dishes in the cottage, won't cooperate w/the request to keep the bath rack cleaned up, + let their belongings, even wet clothes, on others' crates + the commotion in the evenings is annoying + the difficulty of getting the cottage quiet at 11 PM - Inez may be more disturbed than I by night workers coming + going - I rarely hear them lately - Inez wants to give up her supervising position - I don't know when we may expect Versie + Ellie to return from Georgetown

I went to bed around 11 PM

7 Aug - M

In the adult class → I called the roll & filled in the missing info on each student; age, how much schooling, any phys. conds. which interfere w/learning - I explained to the class our plan to break it into 2 grps more or less accor to abil, that I wd take beginners & those w/reding abil. to about the 3rd or 4th grade level & concentrate on lang skills - Lois wd take the more advanced readers & concentrate on the news - I emphasized that the final choice is up to the individ = each is free to join the class which he or she feels will do him the most good. - I told them of Carolyn Layton's request for mats. for the Geo'town exhibition, that we wd try to finish the quilted map in time - Lois then contd w/discus on the news

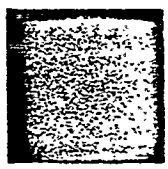

// Vernetta Chr. asked me whether she cd borrow my t. w. as hers is out of order - Mike Land, who repairs T.W.s, has been on PSH - his release had been obtained yest to work on the T.W.s in the op in Rita's cottage but there is a more serious probl w/ V's t. w. - I told her I had promised Teresa to get some news written up for our Large Type edition - she picked up the t. w. & arrngd to bring it back to me this aft about 3 ok //

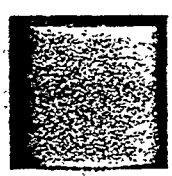

Th'g my shower

Vernetta did not come w/the T.W. at 3 or

(over)

About 4ºº o'clock there was heavy rainfall
I went to dinner
I spent the eve. sewing sitting on Laura's bed

C-3-A-1 (24)

8 Aug – T

I went over to Vernella's college to get my t.w. – she said she had not yet had a card of the rain

Had bkfst

Stopped at the warehouse – rec'd a pink towel, a wh wash cloth + 2 hos – plus a new comb – I had had two but cant find one

started wh on summaries of the news – I simplified as much as poss, interspersed meter w/ intern'l events + heavy polit topics w/more emotional meter on racial relations, suffering of child + so on, mostly in the U.S. – was not able to do very much

Went to lunch

Lois + I had the adult class as a whole – Ith the lower abil gp + she the more advanced – she occupied the space in the sch parl. we had used formerly + I moved my gp to the second sch parl, as the tape playing J's newcasts was running at the other end of the sch parl. – we had to move again at 1p o'clock when the girls high class came in –

I explained to both gps what we were doing on the map, showing them the 8½ sheet given us by Ruby Carroll (she let us have a few only), the paper sacks I had collected from the Kutztown area + the small map of Africa made for me by Joyce Lund – Curtis Winters

(10) 1-A-E-) Cover G3A-1 (25)

had volunteered to trace the map, which he did, using the glass on the aquarium - he did a good job - I then helped the class members w/ the stories which had been requested on their former life & their life in Jonestown - I think this for the book in which it is hoped the writer of the Parallax View will cop w/ our stuff - in the case of our people, many were on drugs, dealing in drugs, shoplifting, purse snatching; some had been in jail - in the case of the sons the misery of their lives in the ghetto is the predominant interest: fear of being mugged or stolen from, neglect by relatives, poor housing and so on - I either corrected the papers written by themselves or I wrote down what they told me - I stayed an extra hr to finish these - the day was hot & I was very tired

Took a shower

Could ish on the news summary

Had dinner

Eddie Washington saved me a seat in the pavilion for the rally

notes

We were to have a very late morn. today: sleeping until 10 or, and brkfst wd not be served until 10:30 - however, I was awakened by a man who was discussing his q wh w/ Laura right at my head - I thot it was Hue Fortson but perhaps it was not - After last nights' disturbances, I had had only 2 1/2 hrs q slep & I had brkfst about 11 or

11½ served for an hr or so - went to the library & rd news items on the boards

Finished the draft of the simplified news, gave it to Vernette who was in the library

Tripp asked whether he cd borrow my t.w. - Frances Johnson is using his - I think she is typing Legs which is to be given to the author of "The Parallax View" when arrives - his plans are to write a bk about Jonestown & numerous people are gathering mater. for him - Mike Prokes & Don Jackson were taking pictures the other day - He wants to use my t.w. while his own is in use - he will wk afternoons & nights & he sd he wd ret. my t.w. by morning so that I cd use it - I reluctantly agreed

Then my adults class - I had the beginning readers & others up to third or fourth grade lvl. Lois & the more advanced readers & those partic. ly intrstd in news - I split w/ the beginning rdrs who

Listened to news in the pavilion aft dinner

Extra poeclism classes were held for those who failed the test – I didn't have to teach.

Laura has moved to a new cottage, #.10, the same as mine – she & Phyllis will be in the Cott – I can't use her bed in order to sew, as I'm a Geste

While cleaning out beh the her bed, Inez discovrd a dead rat in the corner – the women present acted hysterically – I told them I wd dispose of the rat – I th him (or her) by the tail & fnd he was not completely dead, had prob taken poison & was perh dying last night – I got a pail of water & drowned him, then threw him down the toilet

I spent most of the day packing and moving & I get'd gone Dept - I th most of my belongings in my laundry bag in sev. trips - Dee Dee Smith who is moving from the Dept in to 10 th. my bed in 48 & who had been pressuring me to vacate helped me w/the first load - she is one of the two yng girls to whom Edith Cordell has had so much objection - the other is Shakwanna Harris, Constance Jones' dghter, also moving to N. 10 - Dez is moving to No. 9 presumably w/Gene Chacken; altho I don't know what fld. is to be followed w/reg to the usual 3-mo waiting period - Estelle is staying at 48, which otherwise will be occupied by yng people; she says she can get along w/them - Edith C. had constant trble w/the 2 girls who were loud, rude, careless about keeping the college clean, & didn't do any chores - I've heard only her side - she just constantly scolded them - I am a little apprehensive about Edith's propensity for talking & also about Mark who is a noisy, spoiled child, tho bright

Ilv Laura will share the top w/Phyllis Chacken, & 2 more girls or women can be accommodated there //

I met my class at 12:15 - Curtis Winters put help - Th. my shower - the day was very hot, there was Cont'd moving my belongings - I moved everything etc. my crates & my big chair - Odell had said he would help me that when I got him

I went over to my old college - in cleaning out, someone had put dog crates out in the yard which made me nervous - tho they were padlocked or it didn't lk like rain - I saw Odell several times & he still was not free to go - finally he allowed one of the yng men he was supervising to help me - I started carrying a crate & the yng man but he picked it up & th it by himself - I found another man to help me w/the other & tog we moved it at 4:15 the girls told me they had asked for help in moving the crates all day but & did not get any - their own crates had not been moved out of 10 which upset Edith

While I was at 4:15 earlier in the day I heard that a nest of baby rats had been fnd the prev. night under Estelle's mattress - the everyone had been frantic & went to get Christine Lucentes to take care of the pit - she didn't get there in time & the babies got away - in the eve. when Dame came back, a baby rat (or a mouse) was trying to run into the house - Donna was standing in the doorway, shrieked & jumped on a crate - a kitten, which had just been stalking w the rat, made a jump over to the yard & pounced on the rat, held him in his mouth

Phyllis has been in the bed I am to occupy & had not come from wk to move into the loft, so I put my mattress in the loft & slept there - I went to bed about 11 but didn't sleep for some time - Mr Elliott had a hard time putting Mark to bed "

Soc. Sciences mtng was called for 6[30] - only a few people came - the mtg. business was to choose others to teach the extra classes following the reg. soc. class - as I have not taught any yet this wk, I thot it only fair to volunteer

The soc class was in the pavilion - saw the film "The Bombing of Dresden" which was about the last days of Hitler's Reich - monitored it

I taught one of the extra soc. classes

Spent the rest of the morning putting away my belongings and rearranging them

Beg lunch had a chat w/ Lois on Barbara's desires - we are not sure what it is she is dissatisfied with, whether the admin. is concerned that we divide the adult classes so that she has an equal share, or so on - I had suggested to Barb that she come to a mtng w/ Eve and we discuss the matter fully

Had lunch - got some supplies from Jim

From 12^or to 2^or I whid in the pavilion on the grid for the map, putting 3 in. squares on the paper sacks - some of the adult students helped, eg. Martha X - when we were about half way through Bob Chin came by & we questioned him about our method - he said we were doing it right

Of the diferent people in the cottage, Barbara Smith who is being trained as a nurse, is the one who seems to give the most trble - Edith thinks she takes things that don't belong to her - yesterday in the morn. she urinated in the hw can & left some urine on the floor, didn't wipe it up - Edith didn't want to spk to her about it, but I did - she said she hadn't seen it

Listened to news in the pavilion

The soc. classes met in certain grps - we had instructions to spend time on the details of the Rosenberg case & to drill people on the answers to questions that visitors might ask - we did so - I conducted the class alone - Dr Jackson & Jannis - she prob. writing up notes for Dr Fred - patter. was very good

We pet'd to the pavilion to see a film on "The Unquiet Debth of Julius + Ethel Rosenberg" + interpreting it — ? This had been taped from KQED prog. presentation — after this all those who hadn't seen "For Whom the Bell Tolls" were required to stay + see it + I went home, went to bed about 1:30

11:√ The former residents of College 10 have finally moved their trunks + Edith had spoken to Joyce Touchette who saw to it 11

Besides Edith Cordell and Mark the other residents of the college are: Mary Conder, a very, very agreeable, Isabel Davis, seemingly warm & generous, tho Edith has had some disagreements w/her; Betty Moore, mother of 8 yr old Billy, who has been living in the garden; Barbara Smith (previously described); Edith Parks, who is in the Med Dept, very friendly & helpful to me, a nurse when I was in the Valley, related to Dale, Brenda (grandmother), Jerry (the son), who is in Med Dept; spends long hrs on the phone; Lillian Taylor, agreeable, spends most time resting, but does a secretarial job & might on the generators — in the lab are Marthee Hicks, on secretarial w/the PSU, & a singer & band director; Chris Lund, electrician; Laura Johnston, on duty w/ PSU; & Phyllis, a supervisor in Med.

Edith C. does most of the work in the college, sweeps & scrubs, takes clothes off the line, notices everything, scolds a good deal but is very good-hearted.

Last wk we have had more difficulties w/Barb, esp. complaints about her lack of cleanliness — she has claimed she has been sick for the past 2 days & didn't feel like eating food brought to her & left her dirty plate covered by a ~~towel~~ towel; Mary Conder told me the day we discovered the "pee" on the flr in her bed she said she hadn't seen it but Mary told me she was reaching for me & my towels to wipe it up when Barb noticed Mary was awake

(over) C-3-A-1(56)

After that I did some more rearranging, put most of my papers in the box under the bed, also ash apples & the materials used for our map; put my bks on the shelf above our bed; left in my top crate only personal items, sewing materials & my t. w. - I intend to put in it also sheets & towels - in my suitcase I will put most of my clothes which are under the mattress now - I have some of my sewing materials & scraps of material propping up my feet - I have books for other articles; I could use both my trunks, such as spare shoes, raincoat, shower materials & bags

I washed some items I didn't want to send to the laundry

Went to lunch

In the aft. period until 2:00 I worked on the portion of the map which I don't have right yet - made some progress but didn't finish

Th my shower & it rained again

Wrote my rpt for Eva Jones - listed those who indicated that they could benefit from after school classes - this was in response to a request to let her know persons who I thought needed the classes because of deficiencies in social knowledge or attitudes & I did not feel competent to make such a decision - in typing I had even more trouble than beg w/ my t. w. - could not get it adjusted & it slowed me down

Went to the mtng w/ Eva - Zurette came & I gave her the rpt - we counseled at length one Eve who didn't have time to meet w/us

I went to the college & rested 15 min. before dinner

I was up at 8:00
Had news from the pavil. bds
for bkfst pancakes & coffee
Had an good items
At 12:00 I worked on the African map in the pavilion - I completed the outline for all countries, tho there are some loose ends to be tied up - I still have a problem in the area where Zaire + Angola join - I plan to cut out the outlines of all the ctys, have a game in class in which the students, using atlas maps, can pin the outlines of the separate countries on a sheet, thus learning the position of some of them - also we will be able then to ascertain where the map is insufficiently accurate - at the same time we can get a complete list of each country
Had a shower & shampooed my hair
Sewed, continuing w/my skirt
Ate dinner at 5:00 & we had rice w/pork okra, French fried eggplant in batter
Sewed
Mark was giving Edith table - she had a cold - she turned him over to Vern
The guest was expected tues & entertainment was being prepared for him in the pavilion - I intended to get up about 8:00 -

people were gathering but I didn't hear any music so assumed he had not arrived yet — then I heard J on the loudspkr — he was annoyed because people were waiting in the pavillion instead of being in the lib studying the news — I finished sewing about 9:30 I went up to the lib — rd as much of the news I did over the heads of the crowd — Tripp & Jack Bean were explaining the rhyme of some of the news — as the guest had not yet arrived I went home & went to bed but I didn't sleep

Then we received orders to come to the pavillion — I went up — I expected to find it difficult to get a seat but I had earlier ordered the people to get up & give their seats to persons who had come to see in front, asking the little boy occupying it to sit on the floor w/ the other children & the guest, a young-looking man was seated w/ those assigned to sit behind a table in the middle of the pavillion — a musical program was given — we were dismissed at 2:00 — a heavy rain fell

21 Aug - M

The instructions given to us last night were that everyone shd get up at 6 am for their colleges & apartments taking with them everything needed during the day & doors & windows were to be closed at all times - the doors were to be locked from the inside all day Today & no one was to go in them - more visitors were expected & I surmised that this procedure was to prevent one of the people coming in, any of whom might be a fascist or CIA agent, from conversing secretly w/ any member of Jonestown & a private place

We did not be until about 8 am as we had had a late night - I had bkfast - I went back to get sthing & find the door locked already

Seniors mostly went to the pavilions where they sat in any place classes were not held - some had little sewing or other handwork - children were w/ their mothers all day - I attic were kept open for those needing to lie down - I sat on my pad most of the day as I had got for behind

It was raining all day, sometimes there was a downpour, sometimes it was drizzly

No one was to use the central pathway as the guests were to be taken on a tour of the college area & we were not to use that way to go to the bathroom - we were also told not to go past the main pavilion where the guests wd be served his meals, but were to use the gate by the canal by the dispatch office

(2) A-B-E-) Over C-3-A-1 (62)

The area was very muddy - I went down once to the central area & talked to Tr at the sch of - some of the guests under umbrellas & umbrellas were being escorted to the college area - Tr said that I was going w/ Carlton Goodlett - ~~etc~~ the others were Guyanese news & radio men - they had H.J. The plane bringing in the guests came over & ~~we~~ they arrived about 10:00 & visited the med. sch - Tr said he wd rather not talk w/ strangers

We heard dif. info. as to when dinner wd be served - finally some were told about 2:00 & they cd go down to eat - I went to eat 3rd about 3:00 - We had chicken & dumplings

We retd to the sch proper until the guests left for Speed Bay in the late afternoon

We retd to the colleges - a young man climbed through a window to unblock our door

The lights were out in the college area - I do not know whether the reason was generator trble or was our pwr supply again pulled to prevent secret mtngs or phone calls from being anything - Both a rep for a couple of hrs

When I went to get to the dining pavilion about 8:00 the lights were still off - I had heard that soup wd be served at 8:00 & I felt that all were being served who were in the line - We were then told the food was for "smokers" only - I told the young women serving & also a young woman in the kitchen area that I was hungry but was

told unsympathetically to rest at 10 00

"Hearts and Hands" was being shown in the pavilion 1/2 - I sat on a stable in the back & watched - I was sitting watching it w/ Jreed

I did not know the time but when the film was over I went to the dining pavilion - and it was 10 15 - was told there was no food left -

11 2/ I said all I had see it"

Went home hungry - the lights were still off - I went to bed at 10 30

Now that the Lge grp of guests have gone, conds are more relaxed - we are still supd to keep the cottages closed up, but the doors were not locked today - the electricity is still off.

I wrote a memo to Eva on yest's meal pers - Edith Parks put in another note to Eva about Barbara Smith's habits - she left her pass book in the college today unsecured

For lunch we had soup, bread + an orange

Lois + I met our separate classes - I gave my grp some reading practice, having each one read a page or two so that I cd see whether they were doing books at the A level - then I went over the news, expecting a test too

Fred was expected to visit the sch today, Becky told me but he didn't get up till 2 pm when he had lunch - I heard he didn't feel well first & suffered from "jet leg" + was treated by the med dept - Edith P. told me he enquired about our pol. on dating - she thinks he may be interested in Annie Noble - ~~I had told her~~

I had my shower

I whiled in the typhoon map, sitting on my bed which was dark because the lights were off - I corrected the outlines of some of the countries which did not fit right when put on the sheet - made some of the ones which seemed to be right

Went to dinner at 5.15 - it was an excellent meal: cassava cooked in a butter w/gravy, pieces of pork + veg, greens, pudding & an orange

Went to the pavilion to be ready for the rally -

was in a seat saved for me between Eddie
Washington & Gertrude Kailer's - Jerry Bailey
was showing people around - she didn't want
anyone in front of me & I had who wd go to sleep -
she asked me to take a seat directly behind
the front row on the left in which she was to
sit.

2 He stayed at the end of his talk to visit &
answer questions of those who were interested - I
talked to some length - he used a lot of many
11 My gen. impres. was that he was too optimistic,
too naive in expecting that an investig,
no matter how thorough, cd be permitted to
affect the pilot climate appreciably - I think he under-
stated the lengths to which the capitalist establishm
will go to assure their profits & favored
econ position 11
obscenities, no doubt to convince me that we
are not religious - I said he wanted to have some
conversation w/me & went away w/him - it was
only about 11 o'clock - I spoke to Jr on the
telephone, told him I wd like to have him
bring Jr around to my class - he cd see us
flying some in connection w/our Cyprus map -
Jr said he might be able to but complained
that Jr was erratic" - perhaps he was reflecting
only on his visiting her.

The lights were on when we got home.

I wasn't very sleepy - there was much noise
outside - I got up to go to the bathroom once -
finally went to sleep.

G3A-1 (66)

3 Mentioning the owl movie which is shown
every night - I said he was concerned that
the people who attend wh

I had taken w/me my map-making materials hoping to work on the discrepancies that still exist at the sch. pavil. - however I did not have time as it was already time for dinner

After I ate I went home by way of the toilet, brushed my teeth, put my map-making materials away & went back to the pavilion where Eddie and Gertrude were holding my seat for me

The news was played ~~several~~ times & 7th notes ~~Soc.~~ classes were held in the pavilion - Rob Chr. opened the meeting telling us to get out paper and prepare for a written test - as the paper supply is almost exhausted in Jonestown, people complained they had nothing to write on - everybody who had extra paper was asked to share & I gave away all I had with me except a page for my own test

I came in - he asked who had not heard the news - a consid. no. had not, so he agreed to have the tape played again - I filled ~~some~~ some loose ends

//Tried together//

I dictated the test questions - there were ten ~~or~~ questions visitors might ask; ~~and some people have~~ agencies have indicated that we may have a CIA spy arriving here w/ a grp of our people & it is important that we all appear happy & exhibit satisfaction & know

how to avoid the wrong kind of questions ~~be closed not in position~~ or ~~not~~ give information which can be used against us - the remaining ten questions were on the recent news. The test was a series of items on diverse subjects which we were told to reproduce as well as poss. after I read them aloud to us - a few many people had not tried to take notes as I went through the ten again - I th. down as much as poss in long hand, & got most of it - there followed a blanks section - if we pass it we don't have to take the next test

After finishing our tests, we were sent to help those who did not ~~pass~~ write - we moved to the rice pavil as a movie was to be shown in the theater pavil. - I helped Jerry Clark & Gertrude Kaler - they both did well on the Jonestown questions & poorly on the others

I can't find my rain coat when ready to leave went back to the pavil for it - I had to wait until the end of the picture to try to find it - the pict was "The Diary of Anne Frank" - it seemed very slow moving & considering the honor of its time rather undramatic - perhaps styles have changed enough since it was made to make the dy

The lights were off in Jonestown when I went home just about 1:30 - it was difficult to avoid falls & mud puddles when going to the bathroom - somebody told me the lights are going to be off every night from now on

27 Aug - Sw

Today was decld by J to be a work day w/reg. hrs - we are to get a full day of instct - reason may be that we are to have guests on M, for whom preps have to be made

Had bkfst as usual about 8:00 - got some lovely papers from coordinators office

W/I 3-hole punch for my misstk as test has depleted my supply

Chaiken gave me some cards w/Russian alphabet on them - he said he can't spk Rus but knows the cadence

Wkd on grad entries

Went to lunch

Wk'd on J the my resp supplies to ask prevl. & prepared to wk on the southern dys of Africa - got them fairly well drawn but now they don't fit in with dys trained above, partic Zaire - it was very hot - some of the women in the adult class helped me, cut out & scraps some more countries & wkd on their own quilting - I became frustrated & being at my post 2 hrs, decided quit - others were still there

Th my shower

In the college I had an argument w/Barbara - called atten to glass she typ w/orange peels in it & not emptying pen basket, plus spilling pen on floor - she denied she had typ any on floor - others were present but ad nothing I intend to have 2 witnesses next time & then she is

Went to dinner - heard the news type in the lib when Teresa was taking notes for it

(over) C-3-A-1 (82)

Did home about 7:30 & served as my client's
Dr in he or pr Curtis Winters came by - he
wanted one of his colored pencils to do a draw-
ing for a the home - I got down from my bunk
to find his pencils - they weren't in the usual
place - I searched everywhere I could think of &
last to conclude I prob left them in the Libr - I
was quite worried because someone may have
picked them up - I went up to the libr & inquired
whether they had been turned in but they
hadn't been - Curtis, who waited for me, was
very gracious about the sit - he sd he liked
to draw things - he tried not to be too much
affected by disagreeable circumstances & he
stayed for per hrs, talking to Edith
& Mary Canada as well as me - Curtis came
from Ind w/ the Te - he sd he never remem-
bered having parents who cared for him -
He recalling events in the old Te days & singing
some of the old songs - he sd Jim was called
"Brother Jones" by his members then!
- I was concerned about the other items in the
bag I had evidently lost: pins from Ruby,
scissors from the El Op & items of my own
such as Scotch tape, but I tried not to be
too depressed - but may be that Eddie Wash-
ington or another of the women in my class
th the bag home. - I can finish the map w/o
the supplies - I feel I forgot them because I was
too tired & decided not to do a the map too
- I cont'd my sewing during Curtis's visit & after he
left. Heard for my tried about 9:30 - movies being shown - I'm an after
[illegible] & fudge for [illegible] - retired 9:45 [illegible] going to bed at 11:30 - Christmas lunch

C-3-A-1 (83)

28 Aug - M

I was successfully seeking not to be too depressed about losing Curtis Winters' pencils & the other items last week, as I have often find calm & easy in [illegible] being good results in a favorable outcome. I also decided to try again to have [illegible] sent to me by Lois or one of my sisters since either of they seems to take her most to car. - I told Curtis when I saw him that I would replace the pencils if I did not get his back - he was still very pleasant about the matter.

I typed this morn. on the next edition of the large-type Senior News - I had to write it w/a pen as the electric is off during the day in the cottage area until some parts can be repair of the generator.

Att lunch

When I went up to lunch, I find that Eddie W. had taken my bag of supplies home - she had noticed I had forgotten them immediately after I left yest.

I taught my reading class today - using the pre-primer, I followed the instructions to the teacher w/allowances for the age & effort of my studs & we had conversations about the story in the bk - I was also able to branch out into a discussion about events in Nicaragua

Th my shower

The children were out of the school at 12 for the end of the day & I th the mop mates up & spread them on a table & talked on the beautiful trees - I was still hoping to be making them for a living

Robert Zieg, who had written a ltr to J, which was read aloud over the p.a. system earlier, as he had had most of his remarks dealt with but he wanted to get for having given false info about Harold Bogue - the ltr was about questionable practices at the chicken - I added that he wanted to encourage people to write any complaints & observations; Zieg was to be praised for doing so

had been read

A note from Jerry Wilson's mother saying that upon she had gathered showed that she showed he was not guilty as child previously she had talked w/ Patty Dennis & told Patty said she had flirted w/him - a note from Tommy Bogue stated he felt Jerry was not guilty - in the first instance Pat Patty was a child & not competent to state how she felt - bes. it was wrong to put the child through the public questioning - interviews w/ Tommy & Glenda Polite revealed inconsistencies - the pit remained as it was bef. after that Tommy was disciplined because he had not been willing to get upon the floor when Jerry was up & the jury find him guilty of grabbing & threatening & had broke - he got a hold on PSU

11:2 this led to a rehearing on this subj.

The people who agreed to sign affidavits that Tim Steen had given them legal advice were being called to go to the pavil. & talk to the attorneys: Eugene Chaiken, Harriet Trapp & Jann Hurwich - I got my call & was interviewed by them - more than the advice Tim had given on the NCO (North Coast Opportunities) employm. case, they was interested to know if in my intimate conv. w/him he had ever talked w/me about Te cases - I'd not recall that he ever had - we discussed thoroughly my relationship w/him - one other matter I mentioned - I remember signing a will as the Te's required deeding all my property to Tim, so as I lived, the Te's would receive it rather than my relatives - as for cod know this will is still in effect

Went to dinner

Sat in the pavilion until the speakers outing scheduled for 7:00 o'clock - very few came

to this mtng which was for the purp of choo assigning tchrs to the extra classes which were to start tom - I thought it was decided that 2 of us wd teach each hr of the 3 hr class - I started the first hr w/ Robert Rankin - he has a ten-dency to take control + lecture away over the heads of the class + I interrupted him sev. times (I find the next day that only one teacher was spsd to teach each hr)

Those who attend my class + Lois's were efcngcd

Wk was rlvd by Laura Johnston - I went to the sch building, set the nibs on the boards then went home - the lights were out + I saw W/ Beth and Mary beside in bed - I turned the lights on + sewed on my shirt - I don't tell the time + had to guess at it as Edith keeps her clock beh her cur-tain + Betty's clock doesn't run well any more, + mine has not run much since I dropped it one day - At one pt which I later find was 10^{32} J's voice came over the loudspkr - it seemed that the tchrs had dismissed the classes early + some of the class members had complained to J that they were spsd to have 3 hrs instruc-tion + didn't get it - I supposed that Laura had not been relieved + had closed the class (-3 A-1 (92)

Went to the bathrm - I asked Lee Burger Dean who was a person who knew what time it was - she sd she didn't know for that it was about 10 or later - I went to bed but later heard the fire engine and that it was around 12^{00} or I had gotten to bed + asleep after 11^{00}

31 Aug - Th

I had been exp. tired yest. - slept soundly but was still tired today - have had a very tight schedule lately - got up at 7:30 - went to bkfst, on the way reading the news on the boards which I had not been able to see clearly the night before & taking notes that I needed

Had my blood pressure taken & my foot treated - have had a little trble lately w/ my athlete's foot prob because of the humid weather - it is never completely cured & breaks out again every now & then

Came across Lois who seemed disturb'd but I didn't find out what was the trble - I took to the sch off for Wabbe in the rally of people who need extra instruction in multiplying & dividing - I had discovrd that many did not understand these operations - they told me that Ira was dissatisfied w/ cottage life & was going for Tom on the Sir Russain class & that one for Sylvia Sly (formerly Stubbs) to give to Dr. Schacht on the clinic - She has good Russain pronunciation prob. was raised in a Russian Jewish family - I have now spoken to almost everyone that had

(over) C-37A-1 (93)

effressed an interest in learning Russian

I wrote Senior News for an hour or so - I have had to do it in handwriting this wk as the electricity is off during the day in the cottages & I can't use my typewriter - I get it done almost as fast

Went to lunch

As effected, a no. of new people came in to Lois's & my class as I had especially designated many to attend our classes who had failed the soc. test - Lois & I agreed they shd be assigned to our classes on the basis of their pres. ed. in general & it seemed to even out fairly well - I asked my class to vote on whether we shd concentrate on reading news or a combination - they all voted for a combination - we distrib the bks & discussed the story we had on the other day - quite a few got on their feet & told their pers. views & effers - Brother "Reb" (James) Edwards who is in chge of a new device instituted by J to make cert that people learn (to get their plate & meals they must answer a no of polit questions or key a phrase in Russian or Chinese) came into the class to illustrate a method for improving their memory - he drew diagrams to show China's doctrine of the Third World - the class enjoyed it

The day in the beginning was hot but rain came

Had a convers w/Joyce Lund who was writing news - she told her of Lois's distress today - she told me everybody had trble w/her in the med dept - she is very dominating - she had been told not to get lost in the nursing dept again - ~~Joyce said she got home from the pavilion~~ I started home - undressed, went to the bathroom - when I retd I learned that everyone was being ordered to come to the pavilion for the entertainm for the guests & new arrivals - ~~everyone was~~ most of the people in our cottage were invited & I went to bed prepared to

Today guests, Sov. & Cub. Ambassadors to Guy & a Tass' correspondent effected - sp activs planned - few demonstr classes - display of articles invented & manufactrd by the people - everything cleaned up - clothing taken off lines - streets such as Lenin & Jones & Dr, Cuba & Dr, Castro Way

I wrote Eth to J. Randolph requesting Chs & teaching meter be sent in travellers' luggage

Wrote yesterd's final entry

Went to lunch

Announcement read - visit of guests postponed because of weather

Classes were not held - students went to fields

Convers w/ Jack Barron about plants & crops unfamil. to me mentioned in last night's mtng - he showed some of them - offd to take me to a nearby area where ser of them grew not far from the central area - play area for toddlers has been constructed there but children were not using it then - Jack showed me num. plants, vines, bushes, trees & flowers - picked 2 pieces ripe fruit - showed me where they planned back up stream for pond for fish & ducks - the problem is that it receives waste water from the village

(over) C-3-A-2 (2)

Lynnette Jones, J's mother, has died & her grave is here - I had mentioned that she was buried among the children to emphasize life

I stopped at the office & asked Joyce Touchette for an order to Pop Jackson for some chairs for our cottage - she gave me a request for 2 - I visited w/ Mom & Pop Jackson in Trouble Twn. 1 for a few mins - Pop let me choose 2 chairs & a footstool he already had

Saw Tom in one of the sch. tents & we had a good convers. - he was more liberal than formerly about giving me responsibilities in the Eng. teaching priz - he proposed I assume supervision of the untrained Eng. teachers - I told him titles were irrelevant but I was glad to do all I cd - I was heartened

At home I had a nap - it was very flies. w/ rain falling

Then I showered & went to dinner - I have not much appetite & have been cutting down on rice drastically but I enjoy the veg.

Spent a few hrs reading Amer Radicalism

Was to meet at 11 at the pavilion w/ ps & our h.s. Eng teachers but the film we saw in Georgetown, The Outfit, which was about here, was being shown for the last time - I missed the first part but sat through the

(cont) C-3-A-2 (3)

rest of it - the sound had been so bad when the first was shown in Georgetown that I had not understood it - because of J's explan: of the theme I understood better its relevance to our concerns

After the film I saw no sign of any of the Eng teachers - I went to wash & see Dick W. & I decided to watch the film & meet w/ the teachers afterwds if they were there // Tripp w/ Shirley Hicks in the dining area drinking coffee & whisky - D. told me he had perm. to have coffee when he wished later - he had not been told about the mtng - he did not agree w/ the idea of having such a mtng now & he thot a mtng of all teachers shd be held as many of them were using extremely faulty methods - I proposed we have reg teacher training sessions & he seemed to agree, but I was not greatly encouraged by his attit

Went to bed around 1:00 - didn't turn the light on

2 Feb – Th

After the morning routine, I wrote yesterday's final entry.

Visitors from the Amer. were expected today so yesterday's arrangements were changed appropriately – for instance, the red shirts were replaced by many of our youth to greet the communist visitors when they arrived, & other songs were substituted – everything was very carefully regulated & timed by [illegible]

I went to the central area just before the guests' arrival in mid-morn. to help out with the demonstr classes – there were about 30 people & asked me to join Harriet Tripp's class – she lectured on the early history settlement in Guy.

The guests were an official from the Amer. Emb to Guy & a lawyer from the US representing his client & when asked where John was, everyone was to say, "I don't know".

I & staff met the visitors – they watched HS class briefly – I saw them entering W/S & staff in the pavilion where the exhibits were still displayed – a varied entertainment program had been prepared, some of which the guests watched.

I had lunch

The guests visited the medical facil. & then departed.

It had been arranged for me to give my remarks on teaching which I was unable to do last night, at the Book Depository – present

(over)

C-3-A-2(5)

were Don Jackson, Jan Garwick, Debbie Jensen, + Barbara Walker (none of whom have had any formal training or exp. in teaching) + for ½ of the time Tom Stubbs + Dick Tripp — I was able to make a few pts but did not get to my central thesis — resp. seemed to be favorable esp that I made diffic w/ Barbara who remarked that she & other teachers had to develop their own methods

From the lounge/ofc all were called to the Radisson for a competition w/ Catherine Dominique, who is a cousin of Bates — while the guests were touring the medical facil, she remarked that "they" made her take a top bunk from which she fell; neither statement was true + she prob. did it out of hostil. purposely to demand his attention — & her statements were very harmful + could have blown down all the careful preparations he had made — most of the membership was very indignant — I proposed a system of isolating potential troublemakers when we have guests — this competition lasted about an hr — it was very hot — we have had no rain today

I got a big washing out of the way

Had an hr

Went to dinner

Took a refreshing nap for an hr or so

Spent the evening making back grad entries — the other students were in the college

(cont) C-3-A-2 (6)

conversing but I managed to wh all night

About 10 or 11 o'clock a confrontation w/ Don Fields who had been on the floor night was on the loudspkr sys - he had justified taking out his hostility on child., by saying that I did so. - I blamed her but felt out hostil on anyone - Fields is a white man from L.A. whom I did not know

Diane & my other roommates reminisced about some of the dangerous events the mission has been through since their arrival at one pt I asked on the radio whether there was any other city which wd take our people in & they were prepared to live w/ nothing esp what they had on their backs - Diane slept 3 nights w/ the children under a tent I went to bed at 11 pm

C-3-A-2 (7)

3 Feb - F

Remembered at last time this morn. to go to the medical off & take my premarin - tend to forget it

Rtd to cottage + started on girl entries - Phyllis Chaiken - request for typing job - Hyde or Jonestown med. prog. to get to visitors + she sd she'd bring paper later

Jim on pol. asp. system commented on fact Chin Com giving aid to Pinochet's Chile & Somalia anti-Ethiopia regime - his opin Chin doing sd jst for own pol but from pol. nationalistic, supports U.S. + Eur. agst Sov. Rus - reprehensible - wanted our staff to be clear on subj.

Went to lunch

Observed Jenn's class, then Trapp's - both interesting - Jenn needs more rapport w/class - Dick using teams to foster soc. coop

Gave Jenn a critique on her class + she depressed - feels lack of org - she seems very tired - I gave her some suggestions but she put forth some objections

Talked to Carolyn Layton when she finished her class & by teachers' mtng - asked her about my girl mss - the typed ones in her custody + some later ones sent to her are in "safe place" - she does not know about the notes + drafts taken from me & the mtng turned over to Tom Adams now

(cover) C-3-A-2 (8)

the ones I later turned over to the Te (first in April 1977) – she thinks these may have been destroyed as the Te was afraid they might fall into the wrong hands – in spite of what Terry Buford told me, she did not know of anyone using them for writing about the Te – she will make inquiries – she said there was no problem about written mater

We joined the teachers' mtng which had started – this F mtng of 3 or is a mtng to sp prog & problems of all the h.s. teachers – apparently there is a Th mtng to disc h.s. teaching methods & Marie Lawrence questioned whether this nec. – I bel the decision was to arrange it on Th and rotating basis

Tom brot up the quest of adult ed as a prospective proj. for me – Barbara Walker seemed to not to show hostil. tow me in regard to her adult class in which I find she has only teaches vocal & hist as well as conducting calisthenics for adult women – she has only 8 in former class – Tom also provided Te the soc. class of people who have Christian who is in chge of the soc classes

Bee Morton showed a sample of a full page of which each of us will have to turn in weekly showing all actvs of more than 15 min. – the other paper needed was remarked upon – both forms can be duplicated in the States

(cont) C-34-2 (9)

3 Oct - F - 2

Or h.s. runs on a 10 wk sched. - in 4 wks we will be starting a new 10 - wk period - Trapp sd we shd start planning for the blocks of time + plan courses actually integrated w/ wh done in the commun. - this was discussed

Studs who are probs were discussed + disc'pl measures proposed + adopted

I went back to my college + typed the paper wanted by Phyllis

1 X Then showed + went to eat

Socialism classes met at 7:30 - all members of Jonestown are divided into grps for this disc - Introduction to Socialism by Lapt - only the teachers have copies + the classes are so close tog w/ little barrier is used as then that it is hard for the teachers to make themselves heard - I joined Don Jackson's class as he had indicated he wd like some help - I volunteered some remarks twice, the last time on thesis - antithesis - synthesis - something I said or didn't say seemed to anty Barbara Walker who is in Don's class - Dick Tropp passing by gave me a humorous rebuke for not having recognized her

1 1/2 I left my poncho somewhere + cdn't find it

A film was shown at the soc dem

about 9[00] - I intended to attend but
cdnt find a seat

I went home in a depressed mood, as
so many things had gone wrong.

After the film was over, J. came on the
radio denouncing it & calling for discussion
on its flaws - "Some of you have such
impressionable minds you'd be following
Hitler" - Diane came home w/ others
having seen the film & said it was not good

I walked up w/ Diane as far as the
shower & went on to the toilet - J. saw me
on the path & called "Hello, darling" which
made me feel better

I went to bed

Was awakened at 5[30] by some pers.
inquiring which cabin Orde was &
didn't get back to sleep

4 Feb - 5

The Sov ambass to Guy + a Tass reps were to visit us today, so arrangements were made to greet them - They were expected to attend the mtng tom + stay overnight

I talked w/Dick Tripp and my hand-written drafts of my ltrs, to find out whether he knew (or anything about them - he did not - he suggests they were burnt, along w/other mater which was destroy'd (regrettably, he thinks) when the TC leaders were afraid the investigative agencies might force an entrance + examine our files - we talked a while about Dick's proj. of interviewing ams on their backgrounds - I told him that in the adult proj I intended to use that type of material as much of the content of the course

Had an ests girl entry

John Jones handed out cookies, as I see he had to take care of emergency situations involving our family in the States.

I listened a few mins to the entertainment being provided in the pavilion, then went to the cottage & whid on yests' girl entry.

A movie brot from Georgetown was being shown afterwds & the other occupants of our cottage attended.

We did not get any new residents in our cottage, exc that in the loft where Judy James has moved out, Laura Johnston will be w/2 girls - Harriet Trapp is the other person in the loft - downstairs my room mates, besides Diane, are Versi Connesche & Shirley Ann Edwards.

A grog girl, whose name I do not know, borrowed my iron yest & at bedtime had not returned it, altho I had spent five mins telling her how to take care of it.

I went to bed at 11[th] but was disturbed by the conversation, which cont'd for some time of those who were returning from the movie - the guards come around to see that lights are ex-tinguished at 11[th] but apparently do not check beds fre-quently.

Didn't even hear the 6 or call this mo. nor anyone get up nor bo - got up at 7 or - shortly before this an announcement about my class must have been rd as per people told hearing that it wd meet at 7 bfst M, W & Th - I waited for my medication at the nurses' off - then went to the veg. shed to get papers but fish was being cleaned so I cdn't be accommodated - strangely enough, this was the first day I had a normal bowel movement, thro shave

Ate lunch at the 11 or o'clock period

Taught my first class, a grp of 7 or so drawn from Jann + Shirley's Basic Eng classes who need sp attention for one reason or another - among them are Lorethe Buckley, now 20 + Jair Baker a bro of Charlie Baker who fancies himself as an intellectual Jair told - the grp men in the class were talkative, the 3 girls passive - I started on a very simple level w/ disc + then made an observation assignment

Read bk & wrote girls entries - I prefer there was a teachers' mtng at 3 or in M's

No rain has yet fallen - the bucket brigade was called out again & I joined them at 5:30 & whid for an hr

Dressed for my ed class & went for dinner - we had shark which was very good

At 7 or not my actual class, which was slow in gathering - about 7 eventually came incl. Helen Lash & Shirley Hicks - I got an idea of their ling. abils (all can read & write a little) & told them what we might be doing in the class - at the end I put a short selection from Ogden Nash on the board to show them what cd be done w/lang.

As Charles Bronson film "Kenworth Kar," one of those brot from Georgetown was shown at 8 or & I stayed to watch it - it was horrible & I wd not have sat through it had not I come in to give his commentary - he pointed out the worst elements - the excessive violence was also deplorable

Went to bed about 12 or

Mrs Benny borrowed my t.w. again in spite of my deep-seated dislike of lending it - I still don't have my iron back //

After Bkfst I ate a whole papaya which I got from the vegetable stand - I had a small bowel movem. again -

I applied to Dick Tripp the difficulty I was having about the use of my t.w. He told me not to allow other people to use it

Went to the showers to do my laundry - they are cleaned from 9^30 to 11^00 + I cd not get in - all the buckets in the generator shed had been taken for use in the fields - the one tub I saw on the porch of one of the dorms the residents wd not let me use w/o the permission of their head, who was not there. I had an argument about this, in which Barker Walker participated in opposition to me. Some people were sympathetic, & finally the person in charge was found & let me use the tub.

I finished by 11^00.

Went to the dining pavilion & ate. -

Had my class at 12^00 - I used as the observation lesson I gave them & used it for practice in spelling, in which they seem to be pretty bad.

Ivy Linn had been returned to the cottage

I slept on her & a help - it was very hot

I did on girl entries for two or three hrs

Went to the pavilion to get a seat w/a back - there was the usual scramble btwn the seniors & the workers who were trying to arrange the area for the rally - I got a good place

The Majors did an amusing song inspired by J's comments on the rest of people who tell him about their constipation; called "Sitting on the Toilet Stool"

Jack Barton presided as the agric. rpts were given - he first rptd on the relative merits of pumpkin & grenadilla - the vote of the members was to follow his recommendation: plant pumpkins in the fields, grenadilla in the windrows

Costs of produce are being done, incl. a cost assigned to labor

Bob Gee rptd on the chickery & the visit of the veterinarian, Dr. Hamond - the baby chicks which had been pipped were dying because their tongues were dry - the

red soil pipping was not nice; he called it a "curiosity" - gravel is not nec as it is already in the feed - our egg production is down because the hens are too old

Chris Talley stated that 2 more dogs have been spayed w/the help of the vet - we are awaiting a litter of rabbits

Wanda & Dr. Fernand stated the dry season was the time to get on top of the fly problem: sand flies, which manure & wet spots for fly breeding

J. arrived at 8:45

Gene Chaikin spoke on expanding the planting of banana suckers - we may be able to market cayenne bananas - Danny Kutulas will estimate the no of banana suckers available - Gene that it not wise to go outside the area for banana suckers because of the risk of importing disease - Teresa King had requested a charge & got back to the banana crew, but she had find she was nervous in estimating her position as a children's worker & she had sent an amendment

J said Dr. Fernand was a socialist & very friendly & impressed by Jonestown - he stated the were the best we ever

in the world - he admired the simplicity of life of the leaders & the parties. in actual wk of the supervisors - J. asked Stubbs what prog had been made in the isolation prog. - Tom said he waiting for wood for construc. - in 3 days or so wk those in the prog will show change - & wk will guarantee it

Peter Fotheringham submitted a proposal for an even less skilled cooking arrangement so that we can have fried eggs, pancakes & so on - possibly of getting the coned metal for such a device were discussed - Peter also suggested using wind mills for power & watering during dry spells - this was referred to the Steering Com.

Jack Dawson thinks he is getting somewhere w/ bricks - Jeff Carey suggested mixing clay & selling it if feasible, as there is an increasing demand for it

I spoke further on the remarks of Dr. Fernand - Guyana is better than Cuba in the unpretentiousness of the leaders - I th to task those who had recommended tipping & the apathy of those who had let them prevail, also those who managed the beging tours - at much diffic. I ascertained that 8 people participated in the chicken

Charlie Touchette warned agst spreading disease from hogs to chickens - keeping them too is going to cost us in the end

A detailed discussion on the proper time & order in which to clear & burn additional land - J is concerned that land which is not cleared is an eyesore for visitors - the first 10 acres planted in bananas are interplanted w/ bl eyes - Jim Bigue wants a good banana man to be sent to advise us as the ext. advised us on animals - the same shd be secured in every area - J said everybody shd have a notebk & write recommendations down

Fernand said Cuba's motto was: "From each according to his abil., to each according to his work" instead of "needs"

Larry remarked he had a mother who had been in labor 18 hrs; the baby was turned and — he was prepared to perform a Caesarian but I came by, sd it had to be all dk — the woman went into labor, the baby turned and & the woman delivered in 2 hrs

I reprimanded Jerry & Amanda & gave each of them extra assignments - he doesn't like to send seniors to learning crew

Then Rob Christian th the floor & started to talk about the changes made in the warehouse where he has been the head - he sd Helen Swinney who was sposed to help him take inventory w/ Charlie Touchette & Joyce Touchette had formed in on him - he felt excluded - he resented removal from the warehouse job which had apparently been done by steering com last night, intending to write it up for J - Charlie Touchette sd he was not resp for removing Rob - Harriet Tropp sd she instituted the action - Johnny Jones sd Rob shd have registered disagreem w/ steering com. at the time - Vernette Christian then came forward to state that Rob shd not be so passive; he shd have acted - she was the one who sd sthing to Jerry & Amanda about it - J. sd "Ah, I felt that had to have come from somewhere

from the area in front of the pavilion was heard - I thought it was either a bomb planted by an enemy agitator who knew we would be in the auditorium at this time or an explosion of some fuel on the grounds - several people and I left; the rest of us sat silently & waited -

In a few moments some people were called for & it was evident that the tractor was going to be driven to Port Antonio & a plane from Georgetown called for; indicating someone was injured

We should have waited [illegible] be at least possibly 2½ hr - then I rec'd - told us that an explosion in a piece of equipment had injured Tommy Bateman (formerly Kutulas); in fact he had been dead & was restored - he was blinded & lacerated but he was going to be all right

11½ my watch, which has been keeping time well, has been stopping off & on all evening no matter how many times I set & wound it - I did not know what time it was //

I said when there are divisions such as those represented by racism, accidents like this happen - the gave an acct of Helen Twinney's being asked to inventory the warehouse - items intended for dif. depts were in the warehouse - the inventory was in a hell of a mess - I had asked for

reports he did not get room

I interjected remarks on the present polit. sit - the Foreign Min of Guy has been removed from off - we wanted to be sure this was not directed agst us - the Stevens are all over Washington seeing it - wing people - therefore Mother likes to be all over Wash - Steve won't have complete immunity tho - he can still be indicted for actions he performed, & he will be - they'll get him, as nobody likes a fink

Joyce Tourchette criticized Helen Sweeney for her attit - she doesn't pay attention to people's feelings - what was done in the warehouse was to give Rob more opportunity to perform engineering tasks for the fe - I reminded Rob of what Helen & he h'self had had to go through, having children who were traitors to the cause - she had to be willing to kill her own son - there were essential engineering jobs for Rob to do - I mentioned the distractions raised by Rob's rushing us when a process had been put into action & an issue to resolve - "then you come in w/ charges of racial injustice" - I asked Rob if he wanted to do both jobs, the warehouse & engineering - the ans was no - I said the engineering job was more imp - it involved the

Mike Parker had been named by the steering com as the head of the warehouse.

Th up the question of 2000 lbs of fish which were not put on the boat - We always get shortchanged in Georgetown when we need protein to feed our people - the reply was that the dock crew was short of ice - I replied this shd have been foreseen - you can't take anything for granted in a developing city.

Ryan Sly told that he felt uneasy w/ Tim when learning the boat controls - he said he felt he was not trusted to do anything

Resolutions made & problems: J-D is still hanging in the air - I said he shdn't have taken him off learning crew - he'll serve his full term

Tim swearing to go on l.c. for 2 days - Sly has to be more assertive - Ryan & Tim have to change their ways & Ryan is to be a l.c. too - Rob Christian to go to l.c class (all of these probs for just a night so that they can get back to wk tom.) - Helen Irving must serve nite - Bev Livingstone & l.c. class - she was involved in the warehouse w/ Christian - Vernette is already on & gets one more night

Harold Cordell, now companion of Edith Bogue, was tested, then Mike Lund

I made arrangements throughout the day on a worsening political situation in Guyana. The cabinet is in process of change. We were allowed to sleep until 9 00 - half a half day which means that h.s. classes were cancelled & students will be working on yards. I spent a good deal of time in the apt. in bed - good rest, good eating, then rain

Expected that we might be called out to water the garden but a little rain fell & we didn't have to

Had my Cadets class at 8 00 - I made announcements & I made another - he said that all cadets who were free from school come - he then came over to see whether they were there - some do attended - I had a good deal of time on the Island & ate selection of the turtle - most seemed to enjoy it

The letter writing group which had what we termed to write to Congressmen & the Senators ended - Tom & Grace then came back, seeking support in their quest to be cultural officers - I wrote a draft letter & left it with them - I will type it & send it to them tomorrow

The night had been disturbed by sounds of coming & going outside

We were awakened at 6[a] by an alert call, the loud spkr telling us to dress & go to the central pavilion as soon as possible - I used the pee jar, threw on my clothes put on my glasses, purposely did not take my watch, as the others were urging me to get

The entire membership w/few exceptions (the babies in the nursery & their care-takers & people liking at the animals) were gathered into the pavilion & seated on all benches & chairs which can be crowded in

I offend the point sit had worsened & was threatening - Jim Hicks, Wells had been forced out of the Cabinet & the Minister of the Interior, Desmond Hoyte, seemed to have increased power - the former had been friendly to the Te & the latter is a rightist - the Army was on maneuvers close to us & there might be an attempt to harm us in one way or another - many of us blame the U.S. & the CIA specifically might have played an ugly role in the events

Jo has been suffering w/an infected tooth for few days - the hot cab & dust beat the pain, the tooth's jagged edge cut his tongue, making it dif for him to spk -

worst of all, he had had no sleep for a long period of time - Shevonda Oliver, who has had training as a dental assistant, put temp. fillings in his tooth throughout the day while he sat in his chair.

What to do about the pit was the subj. of the whole day's disc - I thought the leaders asked our reps to clarify the views of the govt. & as time passed to make our demands known, as he followed his usual pol. of negotiating from a position of strength.

As we assumed, no immed. ans + certain developments indicated that the situation was "getting more serious, we began to talk of trying to get to other friendly countries - long lines formed to make suggestions or express opinions, w/ comments coming from J + others of the leadership: Harriet Tubb, who is a former polit. analyst, Mike Parker, Gene Chaikin as an attorney, Lee Lyons, + those who have been here for some time + know the big political shit, such as Charlie Tourchetta.

This same kind of concern + argument had taken place at least once before, as Diane had told me - at the time of the last arrests when our opponents had entered our grounds + actually fired shots (in connection w/ the attempt to get John Stoen away from us), the membership had stayed in the perilous three days + nights - food was brought in + people escorted in + out to relieve their physical

needs - on this occasion for orienting we were instructed by secur. to go beh a small nearby bldg

Some people envisaged the possibil. of returning to the States but in gen the choice seemed to be btwn Cuba, the Sov Union, + various African countries, such as Ethiopia (I explored the serious dispute btwn Ethiopia + Somalia w/ the alternate positions of the U.S. + the Sov. Union as playing a role in our dilemma), Mozambique, Uganda + Zimbabwe - votes were taken now + again + some place in Africa wd get the most votes - the difficulties were recognized: the fact that we are overweighted w/ unproductive ones + little child, the question of funds for journeying any where + by what means, long range problems, for other cty's wd have that we might infiltrate enemy agents - I did not propose that I wd go back to the U.S. + support our sons + children by relig. + lecture trips, say, in N.J. - this latter suggestion fell flat, more it wd seem because of dislike of the cold then because it wd prob be impos to keep our soc faith alive among our grp

We had some bkfst - tangelos + water

was given to each, we were told we wd have only one other meal - biscuits & cheese - & we had this, & water was given out again. I told us the sit had not improved.

I had made several statements from the floor & at one time finding it difficult to get when my comments seemed pertinent, I sent up a proposal - that I asked for it to be aired but it was not - I suggested that instead of revolutionary suicide (which had been suggested) we seek to send our young people to some African city where they cd be used in a revolutionary cause, that the adults support their own & children in whatever place was most feasible, so that the brains & talents of our little ones wd be preserved for the future - a few other people made similar suggestions that our young people fight in revolutionary situations.

At length I stated that the polit. sit. showed no signs of clearing up & that we had no alternative but revolutionary suicide - he had already given instructions to make the necessary arrangements - all wd be given a potion, which contained a potent poison - & taking it, one wd die painlessly in about 45 mins - those who were leaders & knew wd take it last - he wd be the last to die & wd make sure all were dead - lines were formed

as a container w/ the potion in it was kept
in by the med. staff - I saw only a small
amt was nec. - the Jews were allowed
to be seated & be served first - at the
beginning those who had preservatives
were allowed to express them but those
who did were required to be first - as
far as I cd see once the procession
started, very, very few made any protest -
a few questions were asked, such as
an inquiry about those in the nursery - I
ass they had already been taken care of.

I find it hard to felt that the threat w/
which we were faced justified such an
extreme action - I wd have thot it
more in keeping w/ what we had been
taught to go down fighting, taking some of
the enemy w/us - I felt that some form of
civil disob. shd be tried first, as it
cd have a profound effect on world opin -
and I wondered why we shd be all our
lives & cares to be exploited by the enemy, as
I had mentioned earlier instituting a
scorched earth pol.

These considerations led me in corner of
my mind to doubt that I was actually
giving us a poison - however, the whole
procedure was otherwise so convincing &
I knew that I was able to perform any

sent to others, & that since he is convinced that life is all pain anyway, he wd be unlikely to be influenced by our desire to live

I shuddered - I regretted dying as I feel I have yrs of wk & hope ahead of me not least the writing I wish to do about this whole remarkable story - it seemed, bad luck that just when I had come to Jonestown & had a chance to use my talents as a teacher, I shd be cut short - nevertheless, I am glad & I thot of those who were younger, especially the children, w/all their potential - & Ida and me - many had glowing eyes - it was awesome - even the children were very quiet - I liked the beautiful sky surrounding us

X I reflected on some in the past who had been presented, some such as Nathan Hale and Charles II whose principles I didn't even agree with; but they died bravely - I don't know why I didn't think of revolutionary heroes, except Rizal in the Philippines, of whose courage I had been told - men such as Victor Jara & Salvador Allende shd have come to mind - perhaps they did not, because they had been tortured as is the custom nowadays - the ones I thot of had had to accept death - because of devotion

to their polit beliefs – presumably they
cd have renounced their beliefs & lived

Poetry in general was what I most
regretted losing beh – inevitably Hamlet
came to my mind & altho he was
a fictional person, I felt that he most
nearly typified the condition we faced –
all of us, a sacrifice for the community,
dying when he was yng & capable of so
much achievement – but the sacrifice
of his life, as remarked by Ferguson,
accomplished s'thing for the society that
lived aft him & I felt that this amazing
event in which we were involved wd
undoubtedly be visited and the world &
people wd know that we must have
cared deeply – when it came my turn
I meant to request that the same thing
may be done protecting passion – this is ✓
I gave some thot to my sisters &
Lon – when they heard the news I
was afraid they wd think Jim Jones
was better than dying by the nuclear bomb

than one – This thot I dismissed – what
did it matter? – sooner or later when

the bomb fell they wd realize Jim Jones was right as I had always said — the thought of the people of Bethel whom I had known well never crossed my mind

At intervals as the line went down the pavilion & crossed the room & came down the middle I contemplated the imminence of death — another Shakespeare character (Abel, it was, sd) "We owe God a death" — I had to die some time — but I must say I did not look forward to it w/joy — at that particular moment I neither wanted to cease to exist, to be absorbed into the Universal Essence, nor to be reincarnated & start all over again

However, it was a new sensation & in a certain & peculiar way, I was enjoying it, just the effect — everything was very vivid — I was fonder of those around me than I had ever been — it was remarkable how disciplined & obedient they were, tho the look in their eyes showed they knew the importance of what they were doing — I especially noticed the children who were very quiet

(cont) C-3-A-2 (65)

16 Feb - Th - 5

11½ The most poignant that of all was that the greatness that is Jim Jones was not now come to fruition - was this movement he had nurtured to come to naught, to a pile of dead bodies & an abandoned agricultural experiment in the small city of Guy? He is the most remarkable man who has ever lived - is this what he will be remembered for?

I thot of the time that in tones of the utmost solemnity on a tape played to the SF Fri night mtng he had promised, "If you stay & live your fondest hopes, all that you ever imagined you could be, will be fulfilled" - I didn't feel that I had achieved all I could do, and I knew that others had not. I remember his saying, in a flash of revelation, "Larry Walkerspon, I see you giving your life for this cause." I did not think he meant in this way, that was one reason I did not quite believe our lives were at stake.

And what would happen to those other members of our family in San Francisco - some of the brightest, the

(over)

most loyal? What would happen to them?!!

Diane told us the next day that many persons came up to their children to give them a last embrace

Some people were beginning to collapse - I saw one woman being carried out - I didn't know the passage of time - it must be about 45 mins since we had started taking the potion - I was annoyed that I did not have my watch - then I was amused at myself - when one is about to die, what diff does it make what time it is? - I don't very well write in my jnl: "I died at 5.30 p.m. on 16 February 1978 !!"

I had only a few mins left until I took the potion - I was going to be a credit to myself - I was just like to sit down on the grass and in a few minutes I would pass out - that would be the end

Then I heard a voice - quite quietly he was saying "You didn't take anything stronger in it!!" He went ahead to explain the people who were passing out or feeling dizzy. "The mind is very powerful" He told us we should have known that the revolution cry suicide might be sometime near, he would have

× much interest to say about it, had it been real.

One little boy, Irwin Perkins, Ibel, said, when he learned of the potion, "Oh, boy, I'll get to learning crew." In a way, a great many of the seniors said that they were grateful to die = they had suffered so much – I think many people regretted that they weren't going to die – in a way, I do, regretted that I was not going to be of learning crew. Back to the sound and fury of life.

11 3/4 I wd take the potion w/o hesitation 11

We went into our 3rd serv the chief subject was the advisability of making some visits to churches in Georgetown w/the object of gaining a following which wd stand back of us in a political crisis – I envisaged holding healing services w/the choir – 11 4/4 I also to raise money 11

someone proposed that tapes & motion pictures be used to prepare for future things – some opposition was expressed, prob. much of it based on going back to the services now that we had gotten away from the rally atmosph – I, however, emphasized the wisdom of using his gift, which was genuine – he told the choir to get ready

19 Feb - Su

We were not awakened until an hr
late today
I had bkfst at 8 oo
I hid out in my tent all morn, writing
my reactions to the day of crisis, 16 Feb
Went to the Central Area around 12 oo -
guests from the Day prot were expected -
I joined Harriet Tropp who had a demon-
stration class for adults, since it was
Su, on Guyanese history
Two govt. officials were in the party,
Fred Wills, the former Dom Min. who
was said to have been deposed but
who according to Dick Tropp later in the
day, may still be Dom Min, & the
Min of Ed, Vincent Teekah - Teekah
played in Bro Kaetano until late in the
day
Wills did not notice our class at all.
the party w/ the leadership (esp. Wills)
drove to the pavilion where they con-
ferred - we were released - Teekah
arrived by & had lunch & he wanted
to inspect our sch - I was worried

(OVER)

C-3-A-2 (82)

that he might want to see our sch records, some of which I have which are far from complete - Have done nothing on them - however Harriet told me later that Teekeh was impressed w/ our projects & that all went well

I had asked Dick for a list of the Govt ministers - the pres. is Arthur Chung, Chin - Forbes Burnham is Prime Minister, Ptolemy Reid the Dep't Prime Minister; Vincent Teekeh, Min. of Ed., for Min. Fred Wills; & Desmond Hoyt, Min. of Development

I retd to the college & rs Hall until dinner

At 4 went to dinner at 5:00 - the line was not to bed - we had liver, sweet potatoes & green

Did my washing at 7:00 - the band & singers were furnishing entertainment in the parlour until late but I stayed for just a few mins

I had until bedtime in the college - Diane, Verne & Vic still were in the college, but I read on w/ my journal, etc

(SB) (cont.)

C3-A-2(83)

that I helped sweep out the college when V. borrowed a broom

Deane seemed very depressed all day which I think was a result of the adverse comment on her permissiveness in yesterday's entry - I tried to soothe her feelings but she did not respond, maybe because it might have been interpreted as gossiping or resentment of author.

On Su evenings it takes a long time for the college area to settle down for child, to get taken back to their homes & residents to turn off their tape recorders. Altho the guards had announced "Lights Out" at 11^p^ as usual - Laura Johnston, who has moved into the log, had a secret assignment during the night & also intended to have Kenneth two in the next cottage when she told from her secret assignment & Ken gone to bed at 11^p^

11½ I saw Jim Bogue on net by from my shower & questioned him about some changes in the Bogue & Cordell families - J. is now called Jim Borell - Edith Bogue is now the companion of Harold Cordell, who the two nine Bogue - Tina is the wife of Bruce Turner, & Marylee is the wife of Cordell Neal II

Went through my reg morning routine &
dressed, had brkfst, 2 cups of tea, got
Prem'arin & med. off, got papers, in
bathroom had small bowel movem -
my system seems to be straightening out
Made my plans for my class &
room
Did a little wk on my grad
Had lunch
In my Basic class, I put some of the
topics we had discuss'd on the board to
trigger their memories of F's disc - then
asked them to write on the day of the
crisis, their observations & their thots -
Sue one wrote well, had even a few
sentences - and made no sense - some
just copied the topics - Jan who had
already turned his composition in, had some
good ideas, but his spelling & such grammatical
pts as tense were deficient & his writing
was full of a lot of bombed
X Did more wk on my grad
Had a shower //
At 3pm we had our Eng tchrs' mtng -
Tom, who has inducted 1 of the soldiers
each, was not present - very little was
said - At the mtng after Jan & I gave the

(over) C3A-2 (85)

Rest of my pts are teaching Eng. - Dick Trapp expressed some reservations about emphasis on oral methods, but his further remarks were supportive of the idea - Barbara Walker did away to give the impression she wasn't listening, made no comment - he is in favor of centering all instruction on the actual work in Jonestown, a de-emphasis on writing etc for factual rpts

Becky Beikman & Christine Lacentes were taking grps of small children down to the isolation site so that they will be warned about what faces them if they misbehave - Becky invited me to go along - the place in which the first person, Diane Trad, age 8, was confined is a generator hut back of the dorm - Tom was sitting outside, making notes - Diane was pleading evidently that she was thirsty, wanted water - However, Becky told me she was given water & she was merely trying to get attention - there was no light but she had more space than the rpts called for - the other children just listened

I prepared for my cadre class, did a little more ed and my grid

Then I went to dinner, I was con-

Greeted by Penny who is angry about the t.w. episode - she said I had shown a very exclusive club, had had tantrums about little things (incl. my concern about my son) - when I explained what the t.w. meant to me, she said I was defensive + she liked my ps. - I tried not to retaliate but remained firm in my determination not to lend my t.w.

~~Penny made me late getting dinner + time~~

~~assembling to my class equipped + on~~

I was late getting dinner + had difficulty arriving to my class equipped + on time

Some 30 people came to the class, & kept most of the period as the exercises, cultural items from Bosnia, songs, some limericks + other amusing jingles - I asked those who didn't know to tell how to read + write to give me their names + I will try to make arrangements for such instruction - about 10 turned in their names

Debbie Jensen who is a judge of the circuit library, let me borrow a copy of Cities w/o Crisis by Mike Davison, which I like + started

to read in Georgetown - an order has been given out that all radical bks are turned in to the pvc. libr. & will be issued to those who have need of them for a limited time, and students & heretofore only teachers cd borrow such bks

On my way home I met Irene who told me that Irene Johnson had moved in our cottage & was occupying the bunk beneath mine - Irene who is Diane's ex teacher of the toddlers

I found Irene in the cottage - she had moved all my material & had made a very attractive nook for hers. - she also scrubbed the floor of the entire cottage - I put away, hung up or otherwise disposed of my articles & can still keep my suitcase under the bed & managed to put some more items on hooks so I won't be handicapped as much as I had that

Had Cities w/ Crisis for a hour or so went to bed at 11 pm

21 Feb — T — 1

Made carbon copy on final entries today

Ate lunch mess w/my Basic class - had planned to have the members discuss their blgrnd in couples while I talked to Jan about his paper, then discuss the paper w/each student — however Jan was absent for a second day & I decided to talk to the class as a grp — few had anything at all in their papers — some had merely copied the topics — I talked to them as to where we cd start in view of their deficiencies & tried to draw them out about their blgrnds — I learned Kenny Dennis's mother left the family when he was 4; Kenny Dennis is not related to him by blood tho they were reared together — Loretha didn't go to school at all until she was 12 — she was used as a baby sitter for the younger children — they had few memories of their father good or bad — Frances, Anderson & Ted practically nothing

I worked again on my final

Took a shower

Had a short nap for a half hr at 4:30 — the call went out for the bucket brigade so I dressed & started out at 5:00

the water brigade was late getting through - I had the class members tell in a few sentences a thing interesting that had happened to them before they had met & or came to the Te I somehow interpreted the word "interesting" to mean "exciting" & people seemed to restrict themselves to that definition - not that the material was not on the whole good - less nervousness about the typing & tape recording was shown than I had expected - Hedda Yates was the only one who got into the kind of memories I had hoped to extract = she told a story of racial persecution in West Texas - she listened to some of the playback & will have the rest on M

25 Feb - 5

At bkfst today I had my athletes foot treated at the Spores table in the pavilion - the attendant put on alcohol & cassava powder which she said had been enormously successful

The P.N.C. is holding a convention at Port Kaituma coinciding w/ Republic Day & and 50 to 65 of our people attended, living at 10:00 a.m. - Laura Johnstone was one who attended - as well as speeches & music, there was a tree-planting ceremony

Spent some time in the morning trying to find out what happened to my fishes & talked not only to the laundry workers but to Dale Parks (just met him on the path) but to Joyce Tourtellot & Ruby Carroll - Joyce is Coordinator & Ruby has responsibil. over housing - to Dale & Joyce I also mentioned my missing watch & they advised me to write it up so that Security could keep a lk-out

Because I had a practically free day once I got home I accomplished much w/ my mind - I not only have Feb entries up to date, but I finished Jan entries & later in the day was able to start w/ the missing Thurs thru Sat Dec 1974 entries - some of these had been drafted so that actually only the last wk in Dec remains a problem & I shd be able soon to wk through that freeing myself either for typing entries or

(over) 0-3-A-2(105)

doing other kinds of writing

The children's workers were in the college about 2 or - Ira, who takes a rest period then, is still putting up the college & w/o consultation w/med tk out the nails on which I hang my towel & washcloth - this, I thot, was too high - bended & I said sth thing about it bg going to get my shower. I when I retd I'pd the others had intervened - at any rate she made some allowances for me - all were rather friendly to me

Dick Troff had been asked by Marie Lawrence to give her sci students some instruc in sci ppr writing & I was going to attend, asked Dick to page me on the L. sphr - for this reason I planned not to go watering - tried to nap fm 3 or to 4 or but didn't get to sleep

For a while a big wind came up & it lkd as if a rain storm might develop - I did not call for the bucket brigade - later Dick told me he gave the sci report writing at 3 or but only Marie came, he spent abt half an hr - they had paged me but I didn't hear

I cont'd w/ind entries until dinner time

While waiting for the rally to start, I had a conversation w/Dr Layton, told her about my early experiences & home life

25 Feb - S - 2

arising out of her enthus. for The Rebel Girl by Elz. Gurley Flynn

XX The services had had their usual scramble for seats, & decided that too many people were in Pond Kaituma & that we wd hold the rally tom - bef dismissing us, he gave us on the L. after a rundown of the news:

1) I had dinner - was weighed - I have lost only 5 lbs this past wk - cutting down my portions of rice & the two - for instants on the water brigade I bel are resp //

(1) Tim Stone now has got relig - he has told Herb two differing stories

(2) our atty is acting weak, old & tired - he may be in pay of C.I.A. - didn't follow instructions but we went ahead & threatened the Expos - we know that they & News West were in collusion w - we forced them to print our side of the story for once

(3) The Soviet Union wanted to make a film about our project but the U.S. threatened to cut econ. aid grants to Guy if they allowed it.

(4) Coal mine strike continues - thermostats have been set back by law to a day. level for older people

(5) The Egyptian - Egyptian war worsens

(over) C-3-A-2 (107)

(6) Sev gyps in U.S. want to come to Guy. & settle

(7) Ethiopian sit, severe - Cuban troops keep coming

(8) Our settlement in Guy doesn't make Carter's human rts emphasis look good, else why did we do?

I also sd Mother has been appearing in churches & also on a talk show in Georgesinging in churches & also in a night club

The usual entertainment prog the Sat night was permitted & we heard the dance music until late

Only a spattering of rain fell

At the college I climbed on my bunk & rd Cities for a while, then fell asleep over it

11½ Had a convers. w/Joyce Land - we talked of Harry Williams & his family who either didn't come to Jonestown or went back; his wife, Rosemary; his dghter Yolanda, & her husb Ron Crawford, who th their baby - I mentioned Mary Bleak who had been seemingly devoted & a hard worker, tho seldom in serv - I had expected to find her in Jonestown when I arrived - Joyce sd one had to learn as she did not to expect a pers. relationship w/J which she seemed to think was Marxist prob

(over) C-3-A-2 (108)

25 Feb - S-3

she said Mary had been J's sister in his former life !!

I got up, washed & went to the toilet - got to bed about 11 or

26 Feb - Su

Had Chpl - we had rolls + syrup, scrambled egg, + coffee

Talking to Tom Stubbs, I mentioned the abysmal abils of some of my Basic Eng studs + asked him for any suggestions - he said he had a gd variety of filmstrips which might be of use to me, covering all types of approaches to Eng such as phonics - I spent about 2 hrs w/him in the Book Depository - there are 2 machines he showed me how to operate

At home I got my sewing mater out of the footlocker + mended my ind. bag - the handle had come off + also mended my housecoat

Some of our people who had been to Port Hastings at the P.V.C. convention went again today - our entertainers - Kathie's name was mentioned - had made a big hit

I made yests' gmt entry

I was planning to do some typing but in the a.m. the other residents of the cottage had some nursery rich child in + used it for a playroom - I didn't have any room to type + of course wd have had trble concentrating anyway - V

(over) C3-4-2 (110)

climbed on my bunk & made more
girl entries (solving most of the
problems I had had with the Dec 1977
entries

11 V After my shower. !!
When the Child had a nap, I slept
for a short time

Dinner began to be served about 4 30 -
there were the usual long lines - we
had fried rice w/ some veg & meat
in it, sweet potatoes & citrus fruit

11 V Had a conversation w/ Rita Lenin &
Edith Bogue - Edith does physical therapy !!

11 V After I had spoken to various people
about my missing sheet, the women in
chge of the laundry brot it back to me -
I imagine Ruby Carroll had it - my
name was on it but in an inconspicu-
ous place !!

The rally started at 7 30 after the usual
scramble for the seats w/ banks among
the seniors, which each wk seems to
be more bitter

Dale Parks presided over the entertain-
ment prog which began the rally - among
the singers were the Apostolic Singers
(some of the gp in SF are now here -
one, Florence Heath, who sd sent to me

(cont), C-3A-2 (111)

& shared her fellows, told me among her "gratitudes" that she was "grateful to God for bringing us to this lovely African city" M. Marthea Hicks, Aldé Harrington, Tommy Keeton, Cosmé Fitch (formerly Thomas - now the companion of Don Fitch)

A wave of enthus had built up so that I when I entered was greeted w/a long ovation

The agric rpts began - rpts on assignments given were asked for

Dr. Schacht had inquired about cow colostrum for human babies - he said babies get anti bodies from the placenta; however, I & the Univ. of Ca saw no reason why it wd not be good for human babies - Larry said we don't have anyone doing pathology slides - Cathy Jackson may be able to do them when she gets here - W/regard to Merrick's disease among the chickens slaughtered yest, only one chicken had this disease it seems that we can trust the firm which sells the chicks to us to vaccinate agst the disease, also called fowl paralysis - the chickens had few worms - he described the disease - when we hatch chickens here will have to vaccinate them - the 165 chicks we hatched here have not been vaccinated - Larry will investg whether

(over)

C-3-A-26(2)

we can do it now - vaccine will be ordered - Ron Talley asked what it costs to raise a chicken to a sellable age - Anthony came up w/ the figure of $4.88 per chicken & 9 who - will try to sell them at $13.00 but as J pointed out there is some mortality

SAT (Search & Apprehend, the uniformed secur force) kept track of those who left the water brigade by watering was finished - few did

Jack Barron spoke on the pyramid testing - so far all the foods tested were bad; he will keep on investigating

Ernest Jeffries spoke on prog w/ the smokehouse - it was done by Stan e/c for the stove - were waiting for supplies and the bird

Connie Ditch spoke on the safety sit at the shop - it has chng'd for the better - she has only one probl: Stan D'Ley refused to use goggles at the particle machine - Stan was at the front gate - Stan had also been resp for letting an unqualified worker use chain saw which was destroyed - altho repaired, it wasted materials - Stan was sent for - it seems Chas Tourette is resp for Stan's elitist attit, making him think he is indispensable - incongruously Stan had told Bruce Turner, now in chg

(cont) C-3-A-2 (113)

of the shop that Charlie didn't like him.
I interposed that Christine Cobb was in danger & he had to get her out.
Also, from gtts from the convention in Port Hardy, the people seem to be more radical than was that, they want more nationalization.
The question of relations btwn Bruce, Charlie Touchette & Albert Touchette was discs'd – Steve sd both Touchettes can be obnoxious – I sd Bruce too had elitist attds in incidents rptd to him – one incident involved tractor maintenance – Blakey to rpt on this next mtng.
I: Clara Johnson has emerged again in her schizophrenic behav.
Steve Jones' own attds were examined – (he is usually on the platform during discussions & takes a prominent pt in many confrontations – may be in training for leadership role) – Bc & Albert Touchette were chgd w/being disruptive in Jean Dubuc's socialism class – Marlene Wheeler, called upon to give the facts & cons of their behavs, was leery on Steve & hard on Albert to do/with the exceptions of other Ed Bc engaged in talk w/ Caroline Layton, Harriet Tropp & Steve Charken on rpts reed at the radio noted they had been laughing about the Steve custody case – Tim Steve had sd JJ Blood

(over) a-3-4-2 (114)

he had a divine right to raise John as his heir - it was not so much that I wanted to be Jesus Christ, which is ludicrous, but that Stan doesn't want to be Joseph.

Side issues were taken up, such as relations btwn the Talley family; at one time all 4± Ray, Maureen, Maureen Fitch, & Chris were standing in microphone, w/about 50 other people & Maureen remarked she'd rather not have much to do w/the other Talleys, & I commended her for at least avoiding the family centrism which many practice.

I called for getting to the root involving Chas & Albert Tourette, Stan Gieg & Bruce Turner - at least Charlie who - the young ones want BL pride but let's see BL work, tho he acknowledged the BL male is in a sex which is constantly trying to castrate him.

Back to Gieg who thinks he is indispensable because Charlie gives him responsibil. & he won't wear goggles - it is outrageous not to tell Charlie you hate him, then get a BL man all stirred up - there is nothing to alliances; they're all self-serving. Stan is arrogant because of self consciousness on acct of his size & Connie demanded he break up the clique w/Albert 117. I said he has no reason to let his size make him feel inferior.

(cont)

26 Feb - Su - 4

J: The judge deciding our case (in the Stan custody matter) is having dinner w/ Marcie - who've come a long way from the white night

I told Stan he was back on learning curve - "Why did you give a chain saw to a man who didn't know how to handle a saw, Walter Williams[x]? - use of axes instead of chain saws to fell trees - all those regs for using that saw went to, L.C. - Charles & others warned against using trees help out

There was criticism of Marlene for pampering her son - she is always w/him, rubs to him, when other children don't get this treatment

Sev people were taken off the L.C. - Pauline Rhodes & other troublesome children, were on the floor - Joyce Blair got a whipping from Steve - his mom - Steve came out w/ a snake in his hand & for a few minutes terrified the child who screamed & cried as Steve said he will tell the snake to bite them - I intervened & showed them the snake was nothing to be afraid of - he said he don't been for them to be afraid of snakes - he played w/ the child. To help

(over) C3-B-2(116)

him helps people

Rose Pearson was on the floor for over-eating

The names of many who avoid the water brigade were called - among them were Kaye Rufes, Carrie Duncan, Barbara Smith, Lucille x 65, Sara x who is mentally incompetent, doesn't know she doesn't work for a living, doesn't know where she is, - the seniors were assigned to l.c. for one night, setting a precedent

Millie Cunningham finds Sp. Theatre & some people, receives a warning

Dietrich Walker who had been turned in by the nursery teachers was up - his mother, Barbara Walker, was criticized for the way she handles him - got a warning - Jay Parks got a warning for whining -

Several elem. students were cited for their attitude in sch.

Arlene Tucker was cited for eating peanuts which were used to be planted - it was found that the peanuts were rejects but she's on weight watchers - she was put on the l.c.

The young people whom he's supervising on the l.c. told Ronnie James he's not sleeping on the job - they claimed he gets more than his fair share of food - these charges were unproved

At the end of the outing J. called out a command based on first a stroke C-3-A-2 The outing was dismissed about 12:15 x

Pete & Josephine put to bed about 1:00 x (117)

27 Feb - M

The day was on the reg sched. Because guests were coming early - one of them was a woman from Tanganika

Had bkfst & went in for my medication from the veg stand & got dressings for mine & one for Helen Love - I told her there where she was sitting in the rice tent & the mine home etc etc

Stopped at the "sores" table in the pavilion & got treatment for my athletes foot - a salve made from a herb called Gotu Vine was used

Did a short while on girl entries

After lunch went to my 12 or class - all studs were absent efc for 2 - Tripp came and to check the classes & when he discovered the extent of absenteeism he went on the L. spkr - & giving the names, demanded their presence in class - all of my absentees came in one by one etc for Henry Reed who is on L.C. - I asked if they had had what it might or had been sitting when called; all acknowledged they could make it to class

After I got home & did a little more on girl entries

At 2 or when some of the nursery sch kids came in I went for a shower - however the water had just been turned off, as the well was being dug on - I got enough water

(over) C3-A-2 (118)

from the pipes to wet myself down + cool off but didn't try to use soap

There was a short Eng techers mtng at 3 or – Dick Tripp said that the tchers wd have to help interview studs + place them in skill areas during the normal working hrs starting next wk, when evidently we will have to forbid them sch. terms – he told us of a bk in our socialist library which describes how the Soviet collective farms train child. for the skills needed – he advised us to lk at it – Dick has turned over his Eng classes to the other instructors + is acting as h.s. administrator now – however Grubbs sd he did not expect to be tied up as much as he had at first that w/ the isolation apparatus, as I apparently was not inclined to do much w/ it – We discussed briefly the tenacity of our ppl in their wrong beliefs – Jenkins Darvell brot up tchg tools, by studs – it was agreed we wd use them + Tom will draw up some pts w/a scale

At 4/30 I went on the bucket brigade for 2 hrs

Stood in a long line to get dinner although I scarcely had time, I retd to the cottage to get my notebk, for in to the rally by it was started – I had decided we had to have another rally tom to finish w/ the agric pts

17 Feb – M-2

Apt. 2 musical numbers. J the chge of the mtng – he sd by we went to the agri-cultural rpts, we had a case to deal with concerning a woman who was unwilling the shd her child

Annette Jones, who is the grandmother of Mongue, was on the floor & she had threatened to go on a starvation diet if she can't have the child to herself – she had been w/ counselors, one of whom was Jerry Brady.

I reminded her that Mongue was on her way to being a retarded child; Tom Shuffo sd how was withdrawing from life – Annette sd, "I told them they cd have her" – Paula Adams is one of the Te people involved – I dared her to deny him – "there is s' thing worse than death if you take the freedom to die & be a 2 yr old child – Tom sd it was cruel to die & be a mark on yr child's yr life – JJ reminded her of the demands of how life goes on after death, & the "other voice hanging there", referring to the appeal to him to reincarnate a woman who had betrayed him in a former life – J & John Jones emphasized the harm she wd do to the race – Ernestine Blair made an eloquent statement pointing out the effect on the other child.

Annette relented little by little & I pursued his effects – "Why go back to the cruel world?"

(over) C34-2(120)

11/2 I spoke of the cond. of the baby caused by her age accident after Kim's
He told how the fascists are using the child custody issue to incite people against us - the London Observer now has become part of the conspiracy - he said Annette that every child needs all the love it can get - all those who care for her can be part of Monique's life - Annette agreed to stand together with the others.
Attention was turned to the agric. plots - among some of the plots made: Jack Bonnell said we should get 2000 lbs of peanuts per acre to make a profit - reference was made to the supposition that the climate is gradually changing & Guy may turn out to a temperate zone - we have to make preparations for fruit which requires frost.
Phil Bleker suggested a change in the method of plowing for a portion of field - Jan Wilson stated her preference - the dispute on whether to use the rotivator or piper is to be referred to the analysts.
I insisted that we have to cut down on use of generators & bulbs - $150, one c mo for diesel fuel - Chris Lund said biggest load is 8-12 at night - dryers take the load at night - Tom suggested using wood as fuel which will produce hydrogen for use - windmills are a possibility. I: "It's sad for you prophetically" - he & there was a danger of web wiping but all the power were used to - suggestions made for curtailing use of power; cut the no of bulbs,

CSA-V(12)

27 Feb - M-3

use a horse + cart - Tom suggested wind generators - Chris will ck into conservation possibl. - I asked that a mtng be held btwn Chris, Tom, Don Fitch + anyone else who is knowledgeable + they shd form a plan for using land use

Disc the place about the cleared area beh. the cottages + whether it was dry enough to burn now, what effect rain wd have if it came by we burned - Steve + Jack advised burning now - the rainy season has been very erratic - I made the decision: "burn now"

Shirley Fields in herbal ppt sd 37 pots + herbs have been displayed for guests - she gave a list of herbs w/ their capabilities - I wants a record kept of treatments w/ herbs + results

The nursery ppt was given by Chaikin - The citrus is flowering + the new transplants are doing well - we have 1,657 fruit trees to plant as soon as it is wet enough - these w/ 100 citrus seeds will make 48 acres of citrus + we will be on a commercial basis - we have 1,000 coffee trees to be planted - we have Liberia + will get some Robusta - tropical citrus seeds have to be kept wet - we can help Guy by planting plantain which is in demand for afford + when small, coffee trees need shade - we propose interplanting w/ cassava or bananas - we can get cocoa cuttings - we propose getting fruit trees in the fall - wd use 450 pounds lbs of rice (seed) - we shd grow

(over)

C32-2 (22)

it - Ram Narayan says hill rice should do well here - 15 acres will provide us w/ all the rice we need - we should find a low area or get an irrigation system

I sat Minns of Development, one of our visitors has in the past few very cold - he has become very positive & he wrote the "very progressive project" in our guest

Cassava & garden pots were heard there was disc & the discussions of buckets; needed for the water all bicycle, & glass jars (needed in the kitchen) people must bring them - I send SAT to retrieve them from the neighbors - if anyone has a bucket & jar & does not supply it now, discipline will be forthcoming

Jim Wiley gave the report on vegetables, Several people turned their names in for playing dog games in the fest - their cases were dismissed; they had sent, knowing they were doing wrong

The meeting ended about 12:15

Late - Agreement saved from blight

Want to bed about 10

C-34-2 (123)

28 Feb - T

Dick had succeeded in convincing my h.s. students they shd come to class + all were there esp Ronnie Dennis + Kenny Reed = the latter is an E.C. - Karen was inattentive + kept falling asleep - I told about the rest of the story we had started, explaining some pts to the class - questions + skull projects were included, in which as a grp they did quite well, showing that vocab & intell are not the probl in most cases = its reading abil - Jan's behav seemed better, + Jerome definitely tried to keep still

Washed a few clothes - cdn't find my clothespins at Diane lent me some of Vernles' - also washed my hair, put rinse on it + fixed it up

Then I went to the college Irene was scrubbing the floor again - she had requested that I look in my bedspread letter, tho in my opn my feet look better than Diane's or Vernie's

I did a little wk on my grad

Today the workers burned the decrepit area back of the colleges - as I was trying to wk in the college, it seemed to me that the flames, very hot + pushed by a strong wind, were coming very close + I predicted in the possibility that they might jump over the windrow - after a while, I decided for safety's sake to get out - then I observed that the nursery sch

(cont) C-3-A-2 (124)

children had been moved from the cottage in which they spend most of their time - several people were watching the fire - at the same time SAT came through urging people to join the water brigade - I had decided not to go today, - I sat on Ruby Carroll's porch across the way w/ Barbara Dwerse (Cordell) - she lives under the direction of Ruby Carroll

The fire just still this dangerous to me - then I saw I walk in to the area - in a few mins the wind turned and the flames began to die out, & it was obvious we were in no danger

I went to the Bh Depot, as the smoke made it unpleasant in our area, & ate Cities until dinner time

J, on the L. ghts, has been making an offer to anyone who w/four other people, will build a big cabin w/an afe, and his and time, can live in it - when all our family arrives, we are going to be very short of housing

Didn't teach my class tom as I set that the 4-H members had have an entertainment prog to greet Mothers, as the bad was due today Attendance was mandatory

Mrs Watkins, a bl, was master of ceremonies, helped by a wh x ser- kind work in all dance numbers were played & many danced, and up

(End) 0902 (25)

numbers done by the child, + mrs — Shirley Bessy + Toby Stone did a provocative number — Elyse Hall gave a blues rec, w/ comedy touches, which was very impressive

The tractor - trailer had left for Port Hacking by 6 or at least & we expected the party arriving on the boat at almost any time, but they didn't come — I began to suspect that I had had the gyp stopped down the road for the purpose of defrauding Marcia by permitting the gyp to come to the reception — however since the tractor can be heard coming by the road, I realized later this would have been difficult to manage

Mike Parkes came in w/ a movie camera + the films of many of the numbers, which were rejected + Larry Schacht was persuaded to come in + participate in the item about "De-Worming" presented by the Wizits — I also came with & made suggestions during the filming as it was apparent the Gun druids were not there yet

We were dismissed at 11 or — I was in the toilet when I heard that the party was just arriving — with a great many others I set off to the central area — some of us went down to the dining

(over) C-3-A-2 (26)

hall area & greeted the new arrivals -
There were about 15 people who had
flown in Jonesboro - not all had
arrived there at the same time nor by
the same means of transp - 3 pregnant
women, incl. Cathy Jackson, had been
flown all the way - Inez Jackson was
in a grp which had taken Greyhound
across the city to N.Y. - Cathy told me
the bus had hit a sandbar & a dirt
grp of until high tide

Most of the entertainment grp was run
through again for the new arrivals -
Mother was seated w/d beside the platform -
she showed the effects of three months
of strain.

The program ended at 2 or

I told Hinson through Diane that
Diane Wilkinson was going to be in
our college - Inez Hayes was also
assigned to it - We all got to bed
about 3 o'clock

I put the time in the morning for getting up ahead 2 hrs, 8 or 9 or - did up at 8 or - Terry Bryant is in the college too, in the dept w/ Harriet

I had a talk w/ Mrs Wagner - I had that she had gone to stay w/ Mark - as it turned out, she had been in L.A.P. I think she personally had difficulty getting out - I walked to Pilgrim w/ Mrs, difficult because she stopped every few mins to be greeted by an old friend

The new people were to meet in the pavilion w/ Lee Ingram & Judy Gaines for orientation - I ~~thought~~ thought I'd go on a tour if there was one, as I learned that H.S. classes were not to be held

I did a little wk on my girl

Had lunch

Waited in the BH Depository for 1 or at which time the tour was scheduled to start - suddenly a downpour came & lasted for a time - this relieved my mind as it meant watering tomatoes, this aft - I had intended to join the water brigade

The rain stopped but it threatened for to get the grp tog - Virginia Jones first displayed a gdy tree bec can-

(over) C-3-A-3 (2)

strictos to us - this was the snake used last night in one of the dances - Steve Jones was handling him - we were told not to kill snakes if encountered in the bush, but to call security - they are valuable for food or for effort

Jack Beam was put in chge of the X-tour, w/ Ellie Beam & Rochelle X as guides √ - we walked down the road to the piggery, chickery, dairy, & cassava mill - it is 1½ mi. from Jonestown to this pt - we saw our two horses - they are apparently scarce in Guy & are riding horses - we saw a big boar (we have 2), a guy boar, some of the hogs we first on the boat, & piglets which drank yeast - we saw chickens, both broilers & layers, sev. varieties, & all ages - I did not see the cows, of X which we have X - the cassava mill was not open as articles from the boat were being moved in to it for storage, but we saw some of its auxiliary space - // √ they pointed out the crops along the rd: citrus, pineapple, cassava, cutlass beans, sugar cane, rice //

While we were in the area, more rain fell - walking back was very difficult because of the mud - the piggery, et al, are 1½ mi. from the front gate

On arriving home I had a shower

Approval to purch a boat was given today - it will transport cargo & people

Disc on good advice on contour plowing & windrow sys - J asks for clarif. of this issue - Russ Morton reported urea fertilizer is available at a good price - J insisted we shd have proper storage, doesn't want any waste

A probl concerning the order for pumps for the irrigation sys - some essential parts were not ordered - the probl was one of communn. Between Rob Christian & Richard Janaro - responsibl, was not clearly defined as yet - J said he had not seen the value of getting the pumps - people power had proven able to do the job & for value to them - ones shd realize the benefits of vigorous daily exercise

Kaye Rogers had been reported as saying "God damn Dick - I wish I hadn't come!" Rose Shelton & Lula Rater pummeled her. Of disc of putting sons on the Learning Crew (they are not immune), she was designed to it

I told Christian stated that he disagreed w/ the disciplinary prog - I damned him for criticizing the office - "You understate - misfe my intel. L Vernette admitted she dont see the faults of her own child - I said Rob had wanted to leave - he warned him - his wife wont stay w/ him

It was reported that Rob had showed an int. in cutting a trail through the brush to the river - that he wanted to help - Rob admitted he is arrogant, puts his own family first - I rec'd the report on Tina on the l.c. because she gets support from her parents - does misbehave - Vern. + Rob talk firmly to Tina + Vern spanked her. - Rob asked to be assigned to the l.c. for 2 wks but I refused

I asked that the probl about Kenny be brot up - he is a child about 3 in the toddlers' grp who I thought had been brot to the TC by Carolyn Layton and her sister, Annie Moore, both from their father's ministerial grps - he is in the ministry's grp

F is seen going w/ Anne & Carolyn in the Jones family surroundings - it had been stated in the nurses sub grp that he was getting sp attention - the statement had been made by Marlene who has a bad effect on her own child. - she was accused of picking on J's child (the first time I had heard that J was the father, tho I recalled that a Herb Eden column had said J fathered a child of John) - Marlene said she that Kemo's case was exceptional - I said things like this should be brot up on the side - Mother asked if she tried to find fault w/ J's child, taking out hostility on a child - I said "You're looking for a cop-out because you're a permissive type parent"

I said he had been offered $7,500,000 as a bribe (prob to give up John) which he could have taken, but he refused to abandon any child

Teresa King has agreed that Kemo gets sp attention - Harriet Tregg said that Kemo has been subjected to partic. terror, he has to be guarded from kidnapping threats, he wakes in the night screaming that someone is coming out of the bush to get him

I asked what spec. treatment any of the

I sd there was shooting and his residence & times - he asked what child. did not get enough attention - two were mentioned & I held each one & talked to him

Paula sd the central question was hostility to I - "you keep starting and it" Steve sd there were worse hostilities held by other people, & I sd the remark was a sign of leadership

Returning to disc of the agric. prog., I sd it was fortunate that we got the burn out of the way (because it rained the following day) tho it cd have been done better

Because we were late this morn. I asked us to wk straight through W/o lunch - lunches were not put up for field workers

I find my watch under the bed in plain sight - it might have fallen from the blanket or even from my suitcase

There were no high sch. classes - students were sent to their jobs.

I visit on my gird this morning Shirley Ann Edwards & another yng woman who worked cleaning fish heads last night slept in the cottage through a good bit of the day

A little rain fell during the day

I was very tired from the trip to the piggery - I got a blister on my toe, which together with my athletes foot is giving me some trouble - the athletes foot had been nearly cleared up - I th my shower about one & went to the pavilion to get my feet treated

Dick Tripp told me that resumes of all our teachers, anyone who has

teaching offer. or who has any college credits are to be sent to the Japanese Dept. of Ed. in order to forestall any attempt to close our sch - the idea is to have already in their files evidence of the no. of educated people we have - Dick had drawn up a sample form & wants me to collect the required info & type it up in a uniform manner

I wrote my resume & also got my adult class list in order so that I can tell who has been coming regularly - Ira was home & scrubbed the floors & then took a nap

For dinner we had fish chowder, made from the fish heads & greens

I met my class too, the first time this wk - I broached the idea of our doing a little skit about the water brigade - this had occurred to me in listening to Ray Talley describing funny episodes when SAT tries to round up reluctant sms - the class was enthusiastic about the idea & contributed ideas - I had

2 class members put down the names of those who wanted to have speaking part – Jimmy Jr Jones came & had class tie him, tickly & prominent part, & agreed to be a bucket runner & recruit some others

At the end of the class I gave the class an exercise on metaphors in proverbs – this aroused a good deal of int & several members of the class had a goodly fund of proverbs they cd call upon & understood the meaning – Etta Thompson had a particularly rich store

I had lent his voice in the loud spkr to encouraging adults to come to the class & a number of people who had not previously been there attended – later find that I had put emphasis on learning to read & write & several who cd not had come

I had planned with Beck, & I had announced that resumes will be taken in the sch tent from teachers & others at 8:30 – I waited until 9:00 – Beck Trapp did not come & neither

Dick Tripp had told me we were going to send resumes of all residents who were teaching sch., their teachers' credentials or college credits to the Ed Ministry in Georgetown - move is to forestall attempts to close our sch by having evidence in our files of our schoolmates' qualifications & intellectual attainments - Dick said they wanted to get as many as poss on the books when it loos - Dick gave me a form which he had drawn up & asked me to get the info from as many of those who shd be included as I can

When I went to my class today I took a viewer for film strips & 2 of the strips which Tom had that might be useful in improving acting - Jerome, Kenny & Billy were absent - Billy Kater gave me a med. excuse - the class seemed to be interested & got some good from the exercise

At 1 or 1:30 I had had my shower & spent all of it in the Pavilion taking resumes etc during the h.s. teachers' mtng - I wrote the info at the dictation of individuals who preferred that way & let them do it following the form if they preferred that

Dick Tripp presided over the mtng - praises & reprimands were discussed - Mike Rozynko who teaches h.s. math still differs w/ Stephanie Jones; who helps teach some

A sudden call from J went out for Kaye Rogers "front + center" — all who could went to the Radio Hut to which Kaye was literally dragged — it was not made clear what the original offense had been but I was wrathful that she had said "Heil Hitler" to the workers who came forward were very angry w/ Kaye + J ordered her to be put in the "hole" — the isolation hut — she was taken away

We had a good dinner w/ smoked fish made in the new smoking oven

Don spent a few minutes on items from the agric. mtng & very little more on the current events as red to the village by J - many are not in a place where they can hear them clearly - I had not heard them well myself - someone had typed up & posted the items in the dining room which helped a little - Don is going to inquire what else can be done & the section I gave on Marx seemed to be fairly well read, but it is hard for me to raise my voice above the surrounding clamor

After the soc class I again cried a resumes in the sick tent while movies were being shown in the Pavilion - at one time I was helping Debby Schroeder, Tom King & Becky Baitmond, & we got a good deal of amusem of some of the incongruities coming out of their backgrounds - Debby confessed to taking drugs, & anything she could get so that her mind was very cloudy - Becky told of some of the days in the Valley when she was working as a teachers' aid, in a convalescent hosp, & w/c homesick young people - Dad told her she would be a teacher some day, which seemed unlikely as she has not even finished grade sch

Mike Rykes arrived for his interview -

Diane read a ltr from her mother, Marian Pursley who is living in Cuba - she compared Cuba favorably w/ K. Carolyn Layton was in chge - the Guyanese officials from the Ed. Ministry were going to be in Port Kaituma on M + T; we had heard on good author, they might come to visit our sch & we had to be prepared to demonstrate what we are doing - they might refuse to accept our school and insist our students attending Port Kaituma sch - plans were made for demonstr classes - Carolyn wanted as many of the resumes to be completed as poss & it was announced that teachers who had not yet given their resumes to me should stay after the mtg + do so

However, only three did so - 2 of them were Peter Wotherspoon + Lois Pons - Peter was born in Chile to Brit. people who were "second-generation" residents - Peter said they were now fascists - he had lived through 3 distinct modes of living in his life: "backyard in bed" literally the street life of the 60's in Chic which reached a high pt at the x convention in 1967 + the socialist life of Jonestown, + he was grateful for having known them all - Peter has an astounding no of skills + is now interested in fish farming - Lois P. seemed disorganized + I would guess is not

Carolyn said it was definite that officials from the Ed. Ministry were coming to visit us tomorrow - the issue is whether we shall be allowed to retain our own sch. or whether our child will be required to go to Port. Moresby - very careful plans were made to convince them that our sch is doing a creditable job - Carolyn said some of the govt officials have capitalistic + elitist - jobs have assigned the diff. teachers - I wanted the Bsh lessons shown + it had to be straightened up - Bea is too sick to help - C. said the officials wanted to see lists of all the child, their ages + classes to which they are assigned - since the sch does not have such lists, some teachers have to go to the coordinators' office to get them.

In the middle of the mtng I started taking resumes from those who didn't give them earlier - I whid in the dining room tent, then did more in the sch. tent where the Steering Com was having a long mtng.

carrier) also brot some new arrivals to Jonestown, among them Jane Matschmann, but I didn't see her yet

During dinner I was on the L. spkr & very angry - at the watering he had initiated a water fight for the child. - this had been criticized as wasting water by some of the adults, who had even snatched buckets away from child - I said they had forgotten their childhood, that child needed some fun, he had economized more than his whole life than they had ever thot of

The L. spkr sys is not working well in the cottage area - I thot we were to have an entertainment proj for new people - proj was annc'd for 8 PM; I cancelled my adult class again - some of them had already assembled & were disappointed

As it turned out, the event taking place on the podium was a try-out for those who wish to present musical, dance & related items at a show the TC will be giving in Georgetown in a couple of weeks - the Stn writing grp was mtng at the same time & we heard the entertainment people trying to persuade those wishing

8 Jan - W

Got up at 8:00 - had bkfst & went to the Med. Off for my Remarin

H.S. classes were cancelled & studs sent to wk projects - no lunch was served

In the morn. I made Consid prog and my jrnl

Washed my hair - my foot was much better tho I still have some raw skin btwn the toes - the aide at the pavilion was not giving treatm as the nurses were about to start a mtng but she did put some cassava powder btwn my toes

I did most of the afternoon on a memo to J, a recom. for saving time & thus helping to increase product. by better management of the People's Rallies & I plan to submit it for disc to see others by passing it on to J

Intended to go to the water brigade, but the call was early & I was not through w/my memo - I decided to finish it

Went down for dinner at 6:00 - th my laundry in. - th a copy of my memo to Tish - also showed the other Tribe who asked me a few questions as to who wd be able to handle the chairmanship.

The boat bringing our crates (a private

to perform not to be reluctant to appear by the others – I got on the microphone & called such people down for giving tribe – &c

I had missed a ltr writing session the other night when I was writing resumes & Dick had me write all the ltrs I had not done plus the new ones – I wrote to the Internal Revenue Service, w/c copy to the Pres., protesting their harassment, then a ltr to the Ukiah Daily Jrnl, the Santa Rosa Press Democrat & the S.F. Examiner, taking exception to the articles each had carried on the Jim Jones – Tim Stoen child custody case, mainly based on info from Stoen & I wrote the ltrs by hand in the sch. tent – Dick kept going to the microphone & rousing the people on his list to come & write their ltrs

Meanwhile there was much movement among leadership people, incl. J. h'self, around the Radio Hut & the tent area & I heard J say he had a crisis on his hands – he also, as on other nights, was calling the doctor & sev nurses for consultation on the radio

I finished w/my ltrs & went home at 1:30 & to bed

(over) C-3-A-3 (42)

11/1 I had given a copy of my memo on saving time at rallies to Dick & got his opin - he was supportive, merely remarked it wd be diff. to implement 11

9 Mar - Th

I was awakened shortly aft 6 oc - by J's voice on the l. sphr - the sound was not clear & at first I thot there was some emergency, but as it turned out he was giving the news, as had been requested by those who whi away from the central area & do not hear him at a later hr

Went to Chpl - it was annc'd that bkfst dishes are cancelled Th & F

The crates first on the boat are being dlvrd by our workers to the nice tent & unpacked in a steady stream - Tom told me many of our bks & sch. supplies are included - traffic through the unpacking area is banned, making the short - cut I usually take unpassible

Paula Adams had a st'ment from Crocker Nat Bank that my acct was still open & asked me to close it - I think the following mo's statem will show that it had been closed w/ the $60 check I gave Lon, but I agreed to write a ltr to the bank

When I got to the college Terri Bygord spoke to me about a request from the Bechtel Thrift & Trust off. to indicate, how I wanted for the co. portion of my Thrift funds - I have some $388 or coming -

Phyllis Chaikin has to design a curric. for training nurses' aides at Port Kaituma &

(over) C-3-A-3 (44)

asked me for help - it was not merely a request to type it - she wanted me to help her write it - I worked with her for ab hr or hr & a half - we did not finish

I had Harriet Tropp & Phyllis Chaikin read my proposal on conducting the rallies - His attit was affirmative - Phyllis agreed w/ me that much by the mater in the Agric. reports was not understandable to the uninitiated

Went to lunch

Saw Tish in the Agric. gp. - she had extremely negative rpts on my rally proposal - she thot it showed a complete lack of empathy w/ people who had had less ed than I, little appreciation of what I has done to bring our members' abilities to the point where they are now, & lastly, an indefensible questioning of the off - she thot I shd examine my motives - my affiliations she regarded as offensive - I think that by discussing my Ed Adult class, I absolved myself somewhat from the charge of elitism - I told her my biggest prob was the abysmal state of prep of my basic Lang Arts grp - we parted amicably, I deciding not to submit the proposal to L, at least in its present form - I was grateful to her in that she had saved me from giving offense to L which might offend him, that he has said we can write him anything privately

(cont) C-3-A-3 (45)

Saw Jane Wittschimenn briefly - she is happy to be here

I got out my t w & completed the rec bus duties - th them up to the Redist Rm just bef 4 pm, the hr specified by Paula, only to find she was next door

The call for the water brigade went out at 4 pm - I rd Cities in Crisis for a half hr, then went down to the field to water - most of the afternoon I was standing next to Tom Stubbs & later Debby Jensen - he made an inquiry about Bechtel which led to a disc of Bechtel, wh finally led to my telling him of my coding effort - w/ Debby we talked of old radio progs, esp. comedians we had enjoyed - this arose out of a comment regarding diff in hearing the news versus reading it - Tom says he has a hearing deficiency - Tom Shearer, has a def appred of reading, likes poetry, incl. Shakespeare - he gets no time for reading now.

Some people left the line, perh. through a misunderstanding, but the majority stayed, afraid of incurring JS's wrath, until Jim & Simpson called off the wh at 7 pm

A change in sched had been annc'd -

10 Mar - F

Had my usual routine today & to bkfst for my medication - the vegs. shed his not had any peppers or any other fresh veg. I can eat now for my constipation - I have had a little impression in the cond anyway

Told Dick Tropp of Tish's comments on my memo - he was vehement in his feelings that she was motivated by her own involvement in the agricul. depts, did not agree that I was insensitive to people w/less ed. than I, nor that I criticized the off

The sch supplies & bks coming in in the crates are being unpacked & distributed to storage facils in the sch. tent & the Bk Depos, the latter being used for Teacher Resource meter

When I got home I saw Harriet Tropp & told her also of Tish's opin on my memo - she was even more intense in her attit than Dick, that I shd turn it in & I

Had on my gird a short while at lunch & had hoped to catch Dale Parks & Don Fields in order to write their resumes but didn't see either of them - instd I saw Bob Davis who started to give me his - he has a degree in music from a state coll. in Wash State - we had to stop

(over)

by we were finished when I began to give the news

The shower & the med. aide treated my foot which is almost completely cured

I lay down for an hr & dozed

Dick had told me the usual h.s. letters writing wd be held but the ltrs were in the parcels — I went to the Bk Depos who told me the ltrs were cateloging bks & sch materials, that he was coordinator & Dick had not consulted him

I helped catelog from abt 3:30 to 6:00, as I didn't feel like going at the water brigade, which was early — boxes of bks & materials were being brot in & we are going to have a serious probl of storage — as soon as we get bks catelogued I shdn't have too much trble finding a bk to rd. — I was really having diffic locating one to rd at present I finish Ariel W/o Cris

Dinner was not being served until the water brigade was dismissed, so I went home & got my socks on (to protect agst insects) & my pillow — then I was late & barely made it to the rally, held late because the dentist is coming tom, & found a seat — we had fish chowder avocado pear, cutless teas & oranges

who is critical - however, the latter did tell me I was "strong" - then I was moved to another row until we finished that seed - the girls & H.S. students were sent to another field & I told the ones to water the kidney beans "back of Dorm 5" - no leader was assigned & our grp became completely befuddled trying to find the right place going forward & backwards several times! Then we had socialism classes for over an hr - I taught the first ½ of the period, reviewing the material on Karl Marx - Don Jackson dealt w/ the Third World doctrine as required by J & went over news events & we did not have time for agric. topics

I started a new bk from the new arrivals: Is Anyone There? by Isaac Asimov - rd for about an hr

The guards had lights turned off at 12 mn

11 Helen Love wanted some help w/ a piece of writing I had asked all of us to on the Third World & differences thru for Russia & China - we went to the rec tent where I gave her & the other rec workers an explanation of the topic as I understood it 11

X I was able to get resumes from Don Fields, the pharmacist, & Dale Parks, who is a respiratory therapist

On retiring to the college, wrote yesterday's entry & read Asimov

I was to meet Edie Kutules at dorm 5 at 12:30 - we planned to go to Camp 1 - ^ I learned that working hours had been extended an hr so she wdn't be off until 1 pm - I thot she was in the fields - While waiting I talked to X Watkins - she seems to like Jonestown & seemed much more positive than when I knew her in SF - Tommy Beikman came to see his mother, Edie - he had lived first w/ Beikmans when I came to the Valley - the Kutulesis had adopted him later, & Tommy was so bitter at what he regarded as betrayal by Danny (w/ Phyllis Houston) that he resumed the Beikman name -

I find that Edie had been wking w/ the small animals under dorm 5 all the time - she cdn't leave until someone relieved her - I crawled under the dorm & hid at the animals (it was hard to

(cont) C-3-A-3 (63)

avoid bumping one's head – the 10 living piglets are being cared for here – a hot lamp & injections of sugar water are being used to keep them alive – Edie said these piglets are the offspring of sows who were malnourished, not the hogs that I accompanied from Georgetown – there are also some rabbits, white ones, which we are breeding for food

Edie & I decided not to go to Camp I today because of the time & because we were told we shd have an escort as well as caution about the prowling cat – // A rumor is circulating that the cat got one of our dogs. Last night // I proposed to find out whether some members of any adult class might like to go on a trip some Sun aft; I cd perhaps make arrangements w/the scout patrol to go w/us

I saw Bob Davis nr the cottages & he gave me the rest of his resume – he said he was going to spend his aft of starting to bld this house – he's going to put it in line w/our row of cottages – he planned to spend the aft at Camp I taking down some poles which had

been erected at Camp 1 - I asked him whether I cd go w/him & walk back

1 - Camp 1 is west of the compound
further along from the area where we
have been watering - it was only a
short walk - it's a quite delightful
spot in the bush w/a small stream
containing fish - I drank some of the

house in the same way they planned
theirs - he is going on w/another
couple whom he did not name &
hopes to find a companion for h'self -
he said he was a person who had
always sought a companion
11 While we were going up the road
we heard J on the public address system -
he mentioned that complaints about any-
thing shd be brot to him & not asked
for new arrivals - she referred to someone
who had not been completely candid about
his or her plans & tried to give a false

impression of what they had done in the States - Bob thot he was referring to one of the new arrivals - tho I had heard their names often, I did not really know them - he said Ray Nelson was a real estate broker who had handled much of the property sold through the church - I think she was a Te secretary in LA - Clara Johnson was director of the choir in LA she was the one previously mentioned by J as having become interested in someone outside the Te, who desired her child to come home - all of them are happy here & J refused to send them //

retd put some rock & roll music on her tape recorder - I told her she should not let her child unsupervised but she responded only by complaining about the other child

Did Azimov

Went to dinner w/Jim about 4 o'clock - we had fried fish, rice & boiled dry beans (of which they gave me too much) & cutlass beans

Retd to the cottage, was riding Azimov again, & intending to go off, and cup cake, which was the confection being given out today, when I called for all to go to the pavilion to deal w/a disciplinary manner

I had a good seat up front

Harold Odell started w/a statement unrelated as far as I could see, to which followed that he had been a fool - less but had got things straightened out

Then got an elderly woman, who may be Cleve Johnson's mother, on the floor for complaining about conditions to the new arrivals - she stated she had no place to put her clothes & had been unable to get a footlocker, a sit. which I should have been easily solved

Then Clara was brot up - she was quoted as saying she wdn't have come

(over) C3+3 (67)

if she had known she can't go back - I said this wasn't true - Ron Lonyard + Harry Williams had both gone back but had not acquitted themselves well - it had proved daring to go back - the enemy "knows everyone's weak spots + how to get to you" - he didn't think Tim Owen meant to be as vicious as he had become, but the enemy threatened him, + now he seems to enjoy his role

I went into more detail than he ever has by of the interlocking of all elements of the Conspiracy - all those who left the Te had cooperated w/ the machinations of the CIA + Interpol, lead by Harry Cobb + Mazo, a Nazi agent - we have proof on those who are involved

× × Cobb had built a file of the child of Micky Touchette + Jim Cobb thinking the Touchettes + Cobbs wd be interested in seeing it - all of those concerned expressed ~~it~~ "I" whom I had to get out quickly to save her from the plots of her son"

no interest - I said he hated his daughter Suzanne - he used to wonder why she wd do what she did, but now he simply hated her + Patty Cartwell stated the sentiments concerning Mike + × × Sly stated that Dave Sly was not a Sly

Chris said she had left ~~my~~ documents in her home - I said I trusted Te

worker ed Take care of them - At the assembly he stated: no piece of property, no matter how valuable, is worth going back for - it's just dead - "No one is going back until we get all our people here."

"Suzanne had walked into the Te, attempting to set up a church + take over our assets"

- I seemed to imply that Vern Young had turned Traitor.

The cup cakes had been passed to everybody in the mtg.

A child sitting next to me had a troublesome case of athletes' foot + kept taking his shoes off + scratching his feet which made me nervous - I finally sent him to join his mother, tho I don't know whether he did or not.

Wesley Breidenbach's appointment as a tractor driver was discussed + confirmed - the question of women as tractor drivers was brot up - Steve that women weren't strong enough to help move logs which they sometimes had to do but I seemed to favor giving them a chance at the job.

I complained because no one on the Resist Com stays the proper responsible. - the people involved are Don Cascone, Terry

The mtg ended at 930

Dick understood h.s. classes will be in session - intended to use some more filmstrips on work study if I could get the viewer - learned from Tom that h.s. classes not mtng - h.s. teachers mtng called for pm - Tom unhappy w/ Dick because of lack of coordination from them

H.S. teachers met 12:00 in panic. - not all present - Dick started w/ proposal that we cancel reviews & tests which were planned for last wk & next, wk on recog immed. & open new system next wk - after some discs, this was agreed on - admin. of h.s. was discd, & Dick left it on - both he & Tom emphasized how much they had to do

Dick said essential keep records on progress & studs - Bea Arnett & wife help time in Ed. Off, Joey Wagner going helps w/ Tchr Res. materials - volunteers to do h.s. records called for - I reluctantly agreed w/ understanding admin to tell me what is needed & that I am not required put pressure on tchrs get their records

Back to the cottage & made yesterday's journal entry

Washed my hair

Went to bed at 11:00 & at 12:30

The h.s. teachers started interviewing the studs, after a brief discussion of the procedure - I mentioned the omission of clerical wk from the list of needed jobs, as we certainly will need to train young people to take minutes & keep records - Dick's reply: who's going to teach them?

Dick had Keith Wade & me get bkgnd info from the students - others helping w/ the interviews were Marie Lawrence, Josh Barrow, James Turner, Shirley Robinson, Jim, Mrs. Dick, who conducted the interviews - we talked to about 20 studs - a list of the categories from which they cd choose were listed on the chalkboard w/ the no of studs each cd take - the largest no will have to go to agronomy & livestock areas - livestock is a pop area but not many chose the agronomy area - woodworking & machine shop are also much desired - attention was paid to the studs' past w/ record-keeping, past

conduct, sick record, + so on – first, second + even third choices were taken – the studs were also told the decision would not be irrevocable – two students interviewed: Gibson & I had known previously are Clarence Klingman who wanted to wk in the tool shed but was told he did not have a perfect record as far as stealing was concerned, + Janet Lewis (Tupper) who said she wanted to wk in livestock because of her love for animals – her reliability is not beyond reproach – she may get her second choice: the warehouse

After the intervening I had expected to have to type up the notes but Dick told me Mrs Wagner had consented to do some secretarial wk for the H.S. – we did not finish until aft. 3 or

At the cottage I took my pillow apart + put half the stuffing in another case (Bates had made 2 one inside the other) – I want a small pillow to take to meetings, can sleep on both

I went to the water brigade at 5 or – watering lasted only a brief time however

We had dinner about 6 or

I retired to the cottage, got my notebk + water + a robe for Mrs (she gets cold late in the eve, in the pavilion) – forgot my pillow however – was fortunate enough to get to sleep w/o a bath, tho it was high + became uncomfortable (cont) C-3-A-3 (175)

From 12 hr to 3 hr the h.s. teachers interviewed another grp of students - today Jann & Shirley sat at the table but the little Dr - Barb was present but did not sit at the table & she nothing during the interviews - the questioning was largely conducted by Dick & Laurence

These studs were mostly from the upper grades of h.s. - many had attended Upper High - some were 18 or over - in these cases Sask. law does not require them to be in sch - even if they have not finished h.s. we will not req. attendance, but ser. wanted the proj'ed training - one stud., X X supposedly interested in training in reprod'n, was not prepared to cope w/ anything but the superficial aspects, & made Dick & Marie indignant - she had a hist. of consuming much time in guidance & then not following through - Shirley, joined by

(28) 6-R-6-3 (over) C3A-3 (82)

Jann + then Barb, stated that Dent + Marie had backed her into a corner - the yng woman was told to come back later w/a decision - after the studs were dismissed, the matter was argued - I had sympathized w/Marie as I cd see the yng woman had purposelessly taken much of her time - I also felt it contrary to good practice to show diffs of opin in the presence of the stud

I typed a few resumes this aft - spent much time trying to change my t-w. ribbon - even the instruction bk was little help, but I finally succeeded

Went to dinner

Met w/my class - at 7:30 I rd an article on Larry Flynt, so we didn't get started until 8:00 - several of the people assigned to spking parts didn't come (there were several conflicting events taking place) but we went through the "Water Brigade" skit once - since it is so difficult to teach in the eve. this because of the variability of attendance + the noise we have to cope with, I proposed arranging a day-time class as well as the night one - several studs indicated they cd attend - I cd combine either the eve. or day class w/beginning reading instruction

Typed out & edited on my ms, then typed the water brigade script again, making some changes & clearly indicating the lines each person is to speak so as to give copies to the persons taking speaking parts

Had lunch

Helped interview students again - others participating beside Dick were Marie, Jean, Mike Lund, Jack Barron, Dan Bowers, some of these for part of the time only - the grp of students was more varied, some barely out of eighth grade, others mature w/careers in mind, a few seem to be 18 & not required to be in sch - several of the students are in my Eng. class & I took a more active role in the questioning - Willie Malone was in today's grp - his behavior has not been the best - Shirley absented herself

// V. we are gradually getting more varied requests for proj. assignments, such as several in dif. branches of medicine, dentistry, sewing //

Jann differed w/ Deb over attit in one instance – she felt she is too lenient – he on the other hand is afraid of discouraging the 8th child who is apt to have a poor self-image

We finished about 3:30 – after taking my shower I had little time until the call for the water brigade came – I try to go every other day – today Kurtas Smith the monitor, at J's request

Socialism Dehrs left the line at 6:30 got their dinner plates & discussed tom's soc. class – we had heavy requirements today & to give instruc. on the Third World Doctrine so all members can turn in paper on it & J. cover news items of the wk, disc agric. topics brot up at the rallies, & disc the assignment in The Introduc to Soc – most of the time was spent on the Third World sect, which many of the tchrs found frustrating, Debby Jensen in partic

I went home for my bks – 2nd let Don take the lead in the class – he started w/ news items – I then talked & questioned on the agric. topics & Don went on w/a disc of the Third World – at one pt J. came by – he told us that some of the people driving tom on the boat had been quite undisciplined; I gathered they spent money wildly across the country as they

A little rain fell & while I was at lunch & later we had considerably more - ✓ in typing resumes from Joyce Touchette - she also gave me a note entitling me to some new sandals as the ones I have have been repaired 2 or 3 times & are wearing thin & so that it hurts my feet to walk on the pebbly paths - I waited at the warehouse quite a while as the line was long - Bev Livingstone had nine left of those which came in on the boat, & she closed the W.H. at 9 & th me over to the old W.H. to sh at second-hand shoes - I found nothing suitable - Bev told me to come back & left W.H. - she had some which had not been unpacked.

heard he has a form of epilepsy – dear I think through the grs he has become accustomed to moving around where & when he wishes – Dick mentioned to him that he was out of class more than he was in which he denied – he showed little int in the projects agreed but did decide upon X – Jim has improved recently in his gen attit but I saw the the oppor to disparage his writing abil – he argued about this judgment – I tried to strike middle grnd, saying he had imp but needed to pay attention to spelling, sentence struct & grammar – concerning Lavetha, Dick warned us to go easy – she has been through h.s. as far as the records are concerned – she is 20 but she wants to take h.s. classes

Today's grp was varied in age, class level abil., & interests – Dick has been tentatively assigning studs to partic. projects & has managed to get a fairly good distrib but some fields are overcrowded we didn't finish until nearly 4 ov – Dick said he doubted whether we'd start h.s. or M – the supervisors of the dif. areas must be consulted & studs assigned to them cleared – then we will have to tell their present work supervisors that they will be losing the labor of the student workers for hrs – day, in most cases

Work is being done on the showers & the shower faucets were closed off today - everyone had to use the wash bowls, & it was very crowded, but I got washed

Shaw gave up Eliz. thinks an addt. of child, Carol has more claim to him

11 √ Many of them gave consid trble on their way here - smoking + drinking were rest'd + Cevish spending of money + we must present them w/ a completely positive attit. - anyone who says anything negative or anyone who listens to. Any above remarks must be rpt'd //

11 5 Jeff had said to him, "If I wanted to get away, I'd knock the secur guard in the head + beg they find him, I'd be across the border" // he had referred to Brian's having a record of resistance to author. + the remark was regarded as that of the provocateur, suggesting to Brian that he might want to do - many others gave examples of the same pattern: Jeff selects someone whose loyalty is weak + makes suggestions which encourage the person's weakness - Jeff admitted he did this, sd he didn't know his motive - he denied he was an agent, agreed that he is a masochist - he was questioned about a note he wrote to J. stating he had sexual leanings tow J, but J showed this was untrue + he is a homosexual but the statem was manipulative rather than sincere - J's relations to Les Mathews were gone into in some detail - he had a harmful effect

(over) C-3-A-3 (94)

in Les's case - J. sd he didn't feel J. liked him but admitted he was projecting on J his own estimate of h' self - actually J has done much for him - When asked what he thot shd be done w/him, Jeff sd, "Shoot me." - This was regarded as a provocative & manipulative ".

J finally asked Griffis if he cd de-program Ethis' men" - Tom sd he was positive he cd - Jeff was sent off to the "bowl"

✓ The following item not complete - the 3 men playing and w/other women in SF, on the bus trip & on the boat were as stated - Sharon Kisling boy was linked to Elihu whose boyfriend is Carol - not clear who were the girl friends or wives of the other 2 - also indic. sure of final disposition of all the liaisons and/or marriages".

The meeting ended at 2:10

Jud adjourned until 3 PM when the lights were turned off

18 Mar - 5

Went to Chpl ✓ - throughout the day saw some of the people who arrived from the States, bes those mentioned last night - Ken Horton was one - Edith Cordell came w/ Vern Mooney & Mark

There were showers of rain during the day

I mended a few things

Wrote on my girl & filled in the // ✓ which was late because of last nights' outing - we went straight through b/o Lunch //

still - missing items in Dec - my notes are now up to date

✓ The a nap

Have had a very satisfactory day, being by myself most of the time & able to catch up on my girl

Went to dinner

A film was shown in the pavilion & for the first time I was able to get a good seat & sit through the whole of it at a reasonable hr - it was "The Day of the Jackal" directed by Fred Zinnemann - I didn't learn who played the chief parts - it was about an attempted assassination of Charles de Gaulle by a gp of former Fr

officers in Algeria who resented losing their privs - It was very well done & grabbed my attention throughout - I had the luck to sit beside Joyce Lund who knew not the bkr & filled me in on details I wd have otherwise missed - altho it was dif. ie to sympathize deeply w/the de Gaulle (& thus the Establishments' side) it was a very instructive film, revealing what resources can be marshalled by the State in a security matter

Ms Jann came by & talked for some time - she has been drafted by Phyllis Chaikin to write the St. Katherine's nursing training curric. which Phyllis had tried to get me to do - Jann is having a hard time w/it - we talked of our teaching respons - in the next term & of Dick's plans for me ing the possibil. of our teaching the adults class toy - she warned me that team teaching w/ Barb. is a trial - I told Jann of my desire to do some creative writing & of what I had done (in general) on the Te history - she advised me to make stronger efforts to discover what happened to the unfinished notes I had turned over to Tom Adams //

The Te entertainment acts went to Port Maitland to give a performance tonight - Laura Johnston is in the Knights & Varsie. went to sell sandwiches & drinks at the intermission - Diane & Greg have moved - Shirley Ann Edwards was entertaining a male friend in the cottage - when the Te worker came by to order "Lights out" at 11:00, Ann turned them on again as soon as he had passed - I protested this - she & the friend cont'd to talk & play a tape recorder - I objected to this because they were interfering w/ my sleep - Ann finally went outside w/ her friend

19 Mar - Sa

For Bkfst we had doughnuts, a hard boiled egg, & coffee - Lieut Trupp & I had a ✓

By all accounts the program at Pt. Kaituma last night was a huge success // ✓ Talk about last nights movie - he liked it too //

I did some laundry in the toilet area

Some more rain fell today

Made out my activ. sched, which always takes me an hr, & th it to Tish - income tax forms are being prepared now - I told her I had not saved my W-2 form & it turned out that she had ✓ - she wants to do over some of the returns to take a bigger contrib for the Te, as this will not be subj to audit - she also advised me to have my correspondents in the States use the Te SFTe but not me & ask them to have it sent w/Te mail to Guyana // ✓ & the sch. prepared //

I shd through my bottom crate in order to find some more panties - I also got out some socks

I typed resumes for a couple of hrs

Went to dinner and 3rd - it was late in starting, partly because the dentist

(over) C-3-A-3 (99)

who had to be reschedul'd, is here - he had four appt'ments on hr, - for dinner we had liver over rice

I checked w/Rita concerning the rules governing the living quarters, specifically w/regard to entertaining visitors, having the lights on after 11 or, & holding conversations & playing tapes when others are trying to sleep - I Rita said she think it was after the rules not to turn the lights up at 11 or, and also the blind guests of the opposite sex are not allowed in the living quarters - Rita has moved next door where Paula Cedams, Christine Lucentes & Daisy Stroud live - this is the college where people work all night on the T.V.s. - Rita's T.V. on which she was working had been in crates at the pavil. & had been broken into & she was issued in w/the other workers a new one. - some guys are also living there temporarily

I also checked w/Lee Ingram on practices disturbing my sleep - he too agreed that it was after the rules to entertain people of the opposite sex & the lights shd go off at 11 or but he thot the other matters shd be regulated by considerateness of the comfort of others

I'm Azimov

Rain fell off & on today

Talked w/ Dorothy Solomon whose daughter, Ting, gave birth to a boy last night - Dorothy said she had been having labor pains for a wk, & it was a good thing the baby did not come until he did - she needed a medicine which had not come in until just w/ the dentist - w/o it, Ting & the baby wd have both died

Just when I was going up for my cookie, the rain started up - a program was being presented in the parlour & I watched it for a while - went to the bathroom & saw that a film was being shown in the dining tent - when I got back to the parlour, the cookies were being passed out

Ate Azimov for a while

Went to bed at 11:00 - my foot is still giving me some trouble - I was awakened at 3:30 by loud conversation - I didn't know who it was, but I objected to the noise at that hr of the night

C-3-A-3 (101)

To Dear - M

Apl Boys worked on my grid until 11ov

At that time I went for my medication - I had a 2-hr wait. - I don't know the reason exc. that Magnolia told me one nurse was out. - I bet the med staff was also having a rally - I ate a/c while waiting

Was fortunate to get some lunch at 1 or 2 before serving was stopped

The showers on the cottages are still being w'd on so I can only get a bath from the basin - went to the aide in the pavilion for treatm. of my foot

More rain fell today

Sorted the material concerning the resumes I have been preparing - listed all of them - Typed 2 more - I w'kd about 3 hrs + have only Joyce Parks' left tho there are others still to be obtained from the commun.

Just before I left for dinner at 6 ov I am'd over the p.a. system that an alert might have to be called - I chng'd clothes so as to be prepared for a long siege in the pavilion; wore pants, socks, th my rain coat + watch, bk + writing mater.

Ate dinner

(over) C3-A-3 (102)

I was preparing to make an announcement prelim. to holding my class when the alert was called at 4 o'clock

People hurried into the pavilion, benches were set up rapidly, the guards were equipped w/ weapons & a system of checking attendance put into effect

I depend to us several events & conditions - Larry Schacht, our doctor, has not yet been certified to pract. in Guy until he serves a 9-mo. internship in New Town - the Amer Red Assoc has become interested in us because of our contacts made on the radio & is planning to send a deleg. to us in a few days. - We cannot rush their questioning Larry concerning his certification

It wd be beneficial if I went to New Town w/ the entertainment group & spoke - he cannot rush it as there are arrest orders agst him in the child custody case - the decis. of the judge in the case is expected soon - it wd be advantageous if this decision, hopefully favorable to us, were made bef 9 Apr, the date of the New Town effect. - our contacts in the Guy Govt, among whom are Sen Reid & Mungo, Sec. of the Interior, indic that the Guy Govt, incl. Prime Minis Burnham, wishes an outcome favorable to us, & also are for forbidding Tim Stone to set foot in the city - the Sov. Union also has indicated

(cont) C-3A-3 (103)

its unit. in the welfare of our people in Guy - Paula Adams has established close contact w/ the Amer. Emb. + they tend to support us - the Wash products & favorable decision of the court case - on the other hand, a grp of so-called Black Nationalists, receiving support from the CIA, are opposed to us - the Guy govt needs aid & for other reasons is sometimes ancillary to the U.S. - several members of Cong have left - were seen by Tom Skeen. we have learned that Guy govt officials are going shortly for a visit to the U.S.S.R. + the Comp Govt has come to Guy, and which will make them less dependent upon the US or intern. agencies under its control

(The minist of disc of the last visit to follow, other matters were brought up - as noted for the person who will be flying direct to Georgetown - + then Sam or Guy Fire what heard would remark to come forward - with our position in the first matter of fees, it did not seem that anything else made it advisable to appear

3 X This Panel had it in mind to have by Friday Guy to accompany her to US. Gov. as a minor + had difficulty in that she was unlikely to be considered [illegible] Juanita that she needed all her [illegible]

(over) C-3-A-B (104)

attracted - Juanita, as is well known, has a habit of complaining all the time. - Lois had not meant that she could be trusted in Geo'town but that there was no partic. reason to send her there -

Ben Barnett, husband of the former Cathy Stahl, was asked how he liked Jonestown - it was not clear whether he had been overheard making a negative remark but he was reminded that as he is older than [illegible] (both arrived in the recent grp w/their small daughter)] his wife he might face difficulties supporting his family & bringing up his child in the States.

All new arrivals were asked to make a statem. about their feelings, pro & con regarding Jonestown - the most freq. complaint was about too much rice in the diet; some had reservations about the toilet facils - there were touching remarks about the beauty of the site, how much construction had been done - one mem said it was marvelous to think of the water being piped every where "& even a cold water fountain in the midst of the jungle," & the freedom of fear from muggings

At some [illegible] when Pat Patterson spoke, his companion [illegible] presumably had welcomed him, Michaelean Brady attacked

(401) 8-A-8-D (cont) 8-3-A-3 (105)

-him physically as well as verbally - Obel she had attacked him w/a cutlery or some other implement in the field during the day & had have murdered him - the motive of course was jealously = she had found he had had other relationships in the States or wished to be her now - she had to be subdued & I had her taken into custody & assigned for treatm in the "box"

Relative to the questioning concerning those who wished to go to the States, I asked Rev. Edward Moore (who sings in the programs) about giving a ltr to Kay Hodson to allow to his relatives in the supposition that she might be going back - I did it is insulting to anyone to effect they wd be willing to break the rules; furthermore, he had no reason to think Kaye might be returning - Bro. Moore was questioned intensively concerning his ltr to his relatives.

After effecting on the damages wreaked on individuals or the cause by dis. members' relatives, I asked all who wished their relatives' dead (later he added "or here" but w/emphasis on the former desire) to raise their hands - most did, but some did not; mostly those w/relig. bkgnd which had been transgressed to & w/fanatical faith in him as God - he dwelt on the

(over)

inconsistency of claiming complete devotion to him + lack of trust in his orders - he insisted on a fervent retraction + plea for mercy following the superstitious belief that the persons in question had displayed - to Marxists in the land he pointed out what cd be learned from the incident

11:2 Moore was very hard to pin down 11

Radio communication w/Geo'town had been kept up all night while the ship there conferred w/various govt reps. - a decision was annc'd that J wd go to Geo'town relying on expectation that no undesirable consequences to the Te's position wd be suffered - in other wds that no arrest orders wd be served, Tim Stoen wd not be permitted to land in Guyana, + the judge cd be expected to hand down a favorable decision on the custody case

The mtng ended at 5:00 a.m. + I set the next hrs at 10:00 + 11:00, no lunch to be served

11:3 Edith Cordell had allowed a letter or parcel to Gladys Smith from David - altho Guyana Sky had given instructions to passengers not to allow anything directly to residents of Jonestown she had given it to Gladys - I said Edith shd have known better than to give it + Gladys shd have known better than to accept it especially since David didn't want to come to Jonestown 11

I slept until 10 ov
Had bkfst
Did a little wk on my gird
Had a shower

The h.s. Teachers had a mtng in the pavilion to discuss the new term - Dick explnd the class hrs & gave us assignments - the studs are to wk on their projects from 1:30 to 3:30 - after a half hr break they will start classes at 4 or - there will be 3 class periods, ending at 6:30 - the first 2 will be divided betw math & lang arts, & in the 3rd sec classes will meet - Jan to teach remed. Eng in the first period & adv. Eng the second; the former w/the same studs I had previously, plus a few additions & the adv. Eng w/studs of superior abil.

We now have the Guyanese curricula for the "forms" equiv. to our 7th to 10th grades - Guy studs do not have to attend sch past the age of 16 - we are to fit in to their curriculum as nearly as poss - our sch is now the Jonestown Command H.Q. - in a few yrs we will prob take over the Port Kaituma sch which has a very fine plant

Barbara Walker had approached me w/the idea of my cooperating in team teaching w/her

Dick has agreed to Jann & I switching classes every wk & I am willing to do it, tho I think Jann's motives are somewhat selfish

At the mtng I got my athletes' food treated

Jann & I spent a couple of hrs planning our joint class tom. - we will have the 2 girls read to tom only while we offer what we have in mind - I proposed finding out what the studs want to learn & feel they need - we agreed to read a few poems by black poets & she chose a few by Langston Hughes intending to read a few of it

11½ I told Jann s'thing of my inabil. to relate to the mvs of people & some of the early effects which may have contrib'd to it

At home I wkd on my grad for an hr

Tried to take a nap for an hr but didn't sleep - my feet hurt, - they give me trouble lately when we have had long mtngs

the band played "Red Roses" seductively - the crowd, incl. children, watched attentively w/ laughter & cheers, as Ellen was helped to undress & Chuck th'd off all of his red shorts - J. chided some of the seniors for their disapproval, saying this demonstr. wd be good for children, show them "there's nothing in it" & might even cure some cancers - "in fact, I'm sure it will" - he led a hymn about Jesus, then another about the blood of Jesus, indic. that the sit. was similar to that of last night & that criticism wd be just as dangerous

Chuck tried to perform while Ellen played the role of the frigid female, but he was unable to "get it up" & J. finally released them - J. sd, "You couldn't have seen a show like this on Broadway"

Went to bkfst & followed usual routine.
Th my shower early & washed my hair
At 10 reptd to the central area for my medication - didn't have to long a wait today
Ate my lunch
At 10 students, proj. directors & h. s. Tchrs met to set up the new proj (in the pavilion) - Dick rd the names of the studs & the proj. to which they were assigned & the name of the pers. to whom they were to report - some proj. directors weren't present & some studs objected to their assignment - one was David Chambers who didn't want to have his proj. in the area where he wkd, although he had requested it when interviewed
I went home & wkd on my jrnl
Reptd to the central area for the beginning of classes at 4 or - my basic Lang. Arts class, the remedial grp, consists of the same studs as last term w/ a few additions - we were to meet in the same place two as last term but Barbara Walker had during the bkfst organized a grp of adults in Open Ed & they were in Shirley's area on the other side of the blkboard & she wanted to put her class in my area because she needed the blkboard - ~~she emerged to make her grp~~ ~~to a platform area at the end of the room~~ ~~text & for accompanied my basic class - mine~~

~~much time was left to do anything but take~~
I moved my gp to the porch where I had only enough time to take the roll - here we had competition from the band which was rehearsing loudly.

Jinn & I as planned merged our classes in the second period - I perceived that some prob suffering from a bout of elitism, didn't like this & were not pleased that we were going to alternate classes - perh they think there is s'thing sp. about having a tchr who is called "Professor," a title which J. usually gives me - Jinn & I both tried to elicit opins on what the studs needed or wanted to learn, not too successfully - we also had competition from the band - Jinn sd we each had our specialties - she gave "poetry" as mine; a word which did not meet w/ their favor - she sd she specialized in current events & socialism - we each rdg a poem written by a fellow - at the class's, Jinn told me she thot the studs were bored - I sd she shd not have so fluently labeled me - I plan to sneak up on them w/ poetry.

The second class was over at 5:30 - the students' next classes meet during the next period.

At home I had a visit from my girl Anna 6 or when I was planning to go

to dinner there was a flurry of activ + announcements on the p.a. system - I thot I heard J's voice say, "Stay in the living areas, colleges + so forth," so I didn't move but I realized the area was deserted - a guard came around + told me to go to the pavil. - I dryed my shoes, the c rain coat.

I had to stand in the pavilion for some time until a seat was found for me.

Tom Rice was on the floor being questioned by J + others, incl. Bob Reed his relative who is a SAT member - I never learned what was the immediate cause of the confrontation but it was apparent that Tom had been an object of surveillance for long because of dissatisfied remarks about "overcrowding" - he must have declared an intention of taking his son Tommy back to the States - under questioning he admitted his desire to be for good people - he showed an dismal lack of understanding of the sit he was face in the States, both in seeking employm. + with standing the demands of the T's opponents - J tried to show him that

(121) 8-A-3-0 (over) a3-43 (120)

he wd no more be able to resist being used than Tim Stoen + Jo's daughter, Suzanne were - I also made an effort to understand how serious was Tommy's sit - when brot to Jonestown he was a psychopathic child, almost autistic, wd certainly have wound up in jail - tho improved, those tendencies wd come out again in a capitalist environment - I cd child. dr well under strict - Tom had spoken to others of wild dreams of going to Venezuela, getting through U.S. Customs, even of Tommy's being able to get along alone if Rice + Maly was detained

I urged everyone who heard neg. remarks to report them because they may be the first signs of treason / he indicated that security measures are have to be extremely strict

I did not hear any determ. of what Tom Kice's penalty is to be but learned later that he is on learning crew

While the mtng went on dinner was served to those who had not had any.

Breast examinations were to be done too + I decided they shd be given in the mtng itself - the nurses

(OSI) ENCL-D (cont) C-3-A-3 (121)

set up the nec. facilities as tables + benches; women + men were both lined up + examined.

Shirley Fields requested a separation from Don; he was attempting to dominate her life, a typical "Jewish husband". - after some remarks on women's liberation, her request was granted.

A woman named Bridie Arnold reported having had some articles stolen from her by Millie Cunningham - Millie, on the floor, was questioned not only about that allegation but about various incidents of the past, incl. charges she had made concerning Jack Beam - her behav. in the kitchen was given attention again - she still does not adhere to the sp. diets people are spec'd to have - she was removed from the kitchen.

Some medications had been found in Jack Barron's possession - strict orders are in effect that no med. is to be dispensed exc under the eyes of the pers. administering it.

A woman named Georgia White Abel was rptd as having said to her fellow residents that she "never would have done what that woman had had

I decided on what I was going to do in my two classes

Cont'd with on my girl

Went to meet my first class at 4 pm - the students were late in coming - Billy Jones didn't arr. until the end, had been at the med. off - Jerome Anderson was still on front gate security - Thomas Anderson is on l.c. - Barbara was still occupying one of the classrm spaces - Shirley consented to taking her class to the platform area at the end of the nice tent, so that I'd use the blbd in my space - the noise from the pavilion where the band was rehearsing was deafening - I tried to read aloud from an article by Cazneaux on the world of 2014 but was barely able to get started - the class was reasonably well behaved - I had to correct Jair for extraneous comments & Willie Nelson for sleeping (he had been on security last night & (OK E-NES) (cont) C-3-73 (124)

was going on again + so he didn't like sch[illegible].

but 2
My second class, all girls, was quiet + cooperative + some individuals even contributed; while I discussed the separate categories which could be studied in lang arts, then explored the continuums of written matter graduated accord, to emotional content - gave them an assignment - be prepared to write a composition on some aspect of teaching or learning lang

Saw Jean Breig + told her what I had done in the class

At home Read Agenor

Went to dinner at 6 30

The soc. classes which were to be held Tues were cancelled - others also heard an announcement from J. that he hoped Roy Roller's adult classes were continuing - I waited to hear whether the soc teachers were to meet - if not, I would have called the adult class tog, tho I would have had to improvise something for them

However the soc tchrs did meet from 7 00 to 9 00 - Bob Christian chaired - we discussed a complaint that much of the matter was taught in such a way as to be over the heads of many of the people - we decided to turn in the names of those whose understanding is limited - Jean's class had been visited by J - she gave 5 of the most imp. news items & we discussed them - Don Jackson gave some provisions of Senate bill 1493

I was wearing a shirt - had my legs bitten, was very uncomfortable

23 Mar - Th - 2

I look forward to getting home + seeing for an hr or so - Inez does home - She has been having trble w/ swelled ankles, had been given water pills by Dr. Schacht

Ann played her tape recorder, which both Inez + I found unpleasant

I succeeded in getting the lights out about 11:00 but Ann contd playing her tapes - I asked her to stop - she said she had the music on low - she finally stopped, then when I got up she said I was asleep about 12:30 she put it on again - I complained again - I went to the bathroom, saw Tish, who said there had been a pronouncement from the Off., that tape recorders were to be turned off at lights out at 11:00 - she advised me to write Ann up

Had my bkfst pursued usual morn. routine

Made 1st entry

Went to the med. cl at 11:00 for my medication - had about a half hr wait - spoke to Sylvia Grubbs, Larry's sec'y, about appt ment w/him & disc recess for my taking Premarin - she attempts call down Larry's sched & tried discourage me but I told her I was wasting much time waiting for med. cl they not needed - she will notify me of appt ment - also asked her to get resume from Larry for me

Had lunch

Th my shower & had my feet treated - my toe is better but not completely healed

Prepared material for my remedial class - Clarence Klingman who has been on L.C. for a long time was assigned to me - behav not exemplary - Billie Jones late (sent to Klingman for class), Willie Malone late (had a brief article using an article on world of 2014 by Asimov from bk Do Cities Have? - listed dyptic words which I plan to use for vocab. study & typed copies for studs as we were not to have class today

The desks were on a platform at the end of the sch tent - studs used benches & tables borrowed from class sch by prev grp - I promised Leone Harris we would return them - Clarence Klingman

(Sat) 8-A-C-D (over) C-3-A-3 (127)

who has been on l.c. for a long time, was assigned to me - his behavr. was not exemplary - Billie Jones was late (he said he was liking for the class) - Willie Malone was late (he was wanting list of artistes stolen from him) - class behaved fairly well - int. in the article, judging by class, was above average tho some did not partic. - I had asked the class to help put the benches + tables back but they went off to their next class w/o saying anything

As band + dancers were rehearsing in the pavilion I held the 2nd class, the adv. grp on the platform class - altho I had warned the class byest. of my plan for composition writing (a some aspect of common, everyday or teaching hsg. arts) most did not know what to write - I tried to give num. suggestions + am not sure of the qual. of wh I will get from anyone - by the class was over, I informed them the benches + tables had to be moved back to the elem. sch. site, asked them to find guy men to help or do it themselves - they made jokes about women's lib but at the end of the class all disappeared - I was prepared to move the furn. myself but did not lift anything by myself off the platform.

I went to the pavil. where a crowd was watching the African dancers - I tried to enlist the help of Ronnie Dennis, got no

24 Mar - F - 2

resp. - just Jerome + Willie who good-heartedly did the wk

The studs had a soc. class scheduled at 4 each taught by Harriet + Carolyn - the other h.s. teachers had a mtng Dick inquired as to space assignments, absences + tardiness of students - He will ask Barb. to give up the space she is using for adults for my class hr

- Some of the tchrs got their dinner plate - I waited - Ilj talked for help on hr or so Telling wh the news || - Dick decided my remedial class is too large + transferred Clarence Kleinman + Jair Baker - I told Dick of the incident concerning the benches + tables - he + the other tchrs that it was very serious + Dick said he was going to make an announcement

|| 2 + other examples of elitism ||

At 7 or when the mtng was over I got my plate + ate.

I had hoped to read the news, as we were told the news items I rds every day wd be posted in the dining area but didn't get time - I wanted to put on a pair of socks so that the insects wd not bother my feet too - also had a nail loose in my sandals which hurt my foot - had to

(over) C-3-A-3 (129)

wear my Tennis shoes

11/3 I stated that Tim Jones was continuing his efforts & by a good source of info we had learned he might try kidnapping by some method such as a helicopter landing — there is also a plot to kidnap Wesley Breidenbach — he has a brother & sister outside the issue

Several times in recent days I has stated that the org backing the inquiry agst us is the Armed Services Com. of which the chairman is Sen. Stennis of Miss — the plot had its origins in the appearance at the Ta of the BC women mayor from Miss

I gave a no of startling facts — Rep. Charles Diggs, a black businessman who has been advocating the rights of African govts has been indicted on 27 counts of fraud, indicative of the determin. to end the career of this — Synanon is moving to Mexico having found it impos. to do its wk in the States, altho it is not a svc. orgn. — they gave us tons of supplies last night — the Ch of Scientology is moving out too but it is not known where

The polit. enlightenment mtngs started at 7:30 & kept on until 9 or — I gave the list of actns prohibited by Sen Bill 1437 which passed the Sen — I discussed the

news items specifically asking for volunteers to tell the ones they knew — Don helped me out — my main trouble was hearing but I heard better than usual — we had some items on cloning + experiments w/DNA -

I wanted all members to see the two motion pictures, "The Day of the Jackal" + another on the Mafia — I went to the peril to see the Mafia film which had not arrived yet — so I saw the Jackal film again, trying to observe details I had missed before — Dick Tropp gave comments on the film, relating it to our objectives; the other film, we were told, has not arrived yet — I made further comments — he was more sympathetic to the hired assassin than to De Gaulle, who he said did not want to let Algeria go but had to because France can not afford to hold it

At 12^or the film was over + I went home to bed — Ann + a man friend were talking on the steps

* Had Bkfst

Went to the library (the bk shelves in the sch. tent) & the sch bldg (the old bk depository) to clk for meeting: for my remedial class & for the adult class in beginning riding - I had got some advice from Becky Barkmeier & Tom Grubbs - Becky × showed me a series called system & Tom showed up while I was experimenting w/ the overhead projector unsuccessfully - he showed me a small adjustment needed to make it work & got out the screen for me - I also looked over all the shelves to see where different kinds of bks are kept - a good many of my bks have arrived, but some are missing, so I think another box is still to come - we have an extraordinarily good collection of books on Black & minority hist. & culture & socialist bks in general - but there are few non-fiction bks of gen interest

Went home & made guests' gift entry

Had lunch

Took shower & had my feet attended to

It was very hot & sticky today & no rain fell

Did the papers written by my class,

(over)

which did not take very long - none of them was outstanding & none of them was imaginative; in fact, one was a collection of common cliches about the drawbacks of the modern poet, reflecting no original thot - several were thot ful & well written - Mark Wagner had an original tone - some showed a limited view of the imp. of the study of the Lang, to say the least - on the other hand, some displayed ignorance of what a sentence is, seeing one's view that these studs were labelled "advanced" because of the abs. of flagrant errors - per studs apparently turned nothing in

I tried to sleep for an hr but didn't succeed - Patty McCoy came home & was talking w/various people about packing for the trip to Georgetown

went to dinner

wore my new sandals, with socks, to the rally - with pants, my legs were protected - kept insect bites - my feet were too warm, however, so most of the time I had my feet on the sandals, not in them

// went to the warehouse where Bergare me a pr of Mexican sandals //

We had [illegible] an hr + a half late this morn. - the menu was biscuits, a hard-boiled egg + coffee - followed my [illegible] to the Book Depository & examined the illustrations for use in my reading class for adults + ptd the instructs - They used a phonics system which I hope will be effective for adults - I checked out a filmstrip

(C.T.) 9-1-63 // Usual morn. routine //

On Edie Katula's recom. went to Dorm 5 where under the bldg are kept the small animals - Edie, who works there, ptd they had acquired another fawn - it was given to some of our field workers by Amerindians - they also have a pig + the rest have been sent back to the piggery - which they are raising as a pet - Chris Talley is now trying to teach her to drink milk from a bowl - in addition to the rabbits which I saw before, they have 2 kittens, 3 Capuchin baby monkeys, Bevo anteater, 2 ducks + the female is making a nest.

When I got back to the college, I made for my pink an entry covering the day's events to the rally.

Ck again the papers turned in by the advanced class + made a record of how

(over) C-3A-3 (142)

each student did.

I did a good deal throughout the day - I finished Is Anyone There? by Isaac Asimov.

I gave the news six times today - the sound is much improved - in our cottage however I still cannot hear clearly.

It was a little cloudy today & we did get some rain.

The wkr crews stayed on the job today until 1:45 - when our cottage residents arrived they started to clean the cottage up & did a thorough job - it had been messy for several days w/ orange rinds, dishes from the kitchen & people's clothing scattered around - they had talked of a house mtng to discuss such matters as playing tapes, but she was tied up because of the visitors to the project, & everyone in the cottage went their separate ways.

The visitors, who arrived about 2 or so, were educ. people from Pt. Kaitaia - displays were arrngd for them in the pavilion & I saw J & the leadership people talking to them when I went to dinner - a musical program was put on for them.

I went for dinner at 4 pm - we had fried chicken, one-quarter of which was very good.

I started to read Teaching as a Subversive Activity by Neil Postman & Charles Weingartner (cont)

C-3-C-3 (143)

11th Version, who had not been home earlier had come in & cleaned up her area //

I went up at about 8:00 to get my candy which was being handed out in the pavilion

After a while the film on the Magic was being shown in the rec tent (the orchestra rehearsed in the pavilion) & I saw a little of it, but I wasn't interested in it even after Dick Tropp explained the action so went home w/Peg whom I happened to see.

Shirley Ann was also home - someone had taken her tape recorder from her bed - since she cd not play it, she had gone to bed

I rd Subversive until bedtime

will want to see more prog than knowing the sounds alone

Had a shower + got my feet taken care of

Worked on yests' jrnl entry

At 4 o'clock again had a diffic w/space - finally got settled in the jr high space which they don't use at 4 o - sev studs were late - I then turned the maid F concerning the jr high benches + table (Kenny Reed is on d.c. so I did not dwell upon this class's failure to help me but mentioned Willie + Jerome who did help) - I summarized the rest of the Dz inov article + we discussed it paragraph by paragraph

The 4/45 advanced class met in the same place - I th up the benches + table issue but we did not agree on the order of events, let alone fix blame - the class obviously had a bad attit, partly caused by apprehension about their papers, + resented me - Rita Delvaux saw what I had written (about her) in my own notes + questioned me - when I distributed the papers + gave some of my comments orally + rd from some of the papers, the class attit appeared to improve somewhat - I reacted

I wrote remarks on the papers of my advanced Lang Arts class

Went to lunch about 11:30

Checked out the Alistar materials from the sch off together w/the screen & a wax pencil & met the adult beginning reading class - only 3 came, although I made an announcement on the p.a. system - the method is a 'phonetic' method & introduces the letters by sound & shows the letters in print but I am trying to teach the studs to print & write the ltrs - I think adults

X - Dick called & techrs' mtng for 5:30 — he finished w/ math probls early, went on to Eng, saying we were going to have a mandatory course for h.s. Lang Arts classes — the students know so little about the world sit = geog, economics, govt, hist = that they cd not understand J's news broadcasts & were handicapped in motivation to the cause by their ignorance — we are going to wk on this by teaching world probs — we will have to meet frequently to have agreem on what is taught in all classes — I was depressed not only because of the extra time that was being demanded but because there seemed no allowance for the teaching of emotional content

// I think anyone cd send a ltr to me which wd not be noticed //

Had bkfst & went through morn routine
Last night all who had tape recorders were asked to bring them in to be examined & registered - all microphones had to be deposited & not used at present as tapes cd be made by an infiltrator & send smuggled out - no recording is to be done until further notice.

Later I annced that insuring the security involving the tape recorders had necessitated such changes which might damage the devices, so he had decided to keep all tape recorders for the time being - meanwhile dig tapes of all kinds of music wd be played over the p.a. system - he hoped that people wd learn to appreciate other types of music & get over their liking for the decadent rhythms that were prob designed to brainwash us & which certainly do phys. damage to the ear drums - my own feel is that the controversies which have become known from those who like the usual tapes & those who complain of them have prompted JC to experiment w/ dig ways of managing music in the prog.

I did some wk on my journal
Washed clothes in the toilet area
Went to lunch about 11:30
Conducted the learn-to-read class w/ the

adults - I had made a gp appeal, & sev more people came - they seem to be making prog

I th my shower

The people living in Georgetown left in 2 grps for the boat = one at 11 or & the rest at 2 ort - I addressed them at their departure, a talk which was sent to the whole proj. over the p.a. system

Don Jackson was one of those who went to Geo'Town - as offic. photographer he will most probably take pcts of the performers, but he may have other bus, as he estimated he will be gone 3 wks - w/regard to the soc. class, he suggested that Clark Johnson, who is a teacher might help me out. - however, she told me she didn't feel that she was ready

I did a short time on grnd entries at 3 or the Eng Tchrs met & Dick went over the specific matter he wishes covered & named some of the materials we can use - I put in some wds in defense of some emotional type of matter such as revolutionary songs & poems & bks about revolutionary heroes - he had no quarrel w/that - however, he at the meeting I was going to my remed. class was not successful, he had had 3 complaints that they find it boring - we also discussed

my 2nd class, the advanced grp - I remarked that my age might be the diffic - he said that all 3 of us (he, Jamie + I) suffered from being white intellectuals

Dick came to my 4th o'clock class w/c map (I later found a globe) + told the studs of the new proj. - ser were absent - those present incl. Yolander were entranced by the story + discussion of polit. ramifications - only Loretha + Billie Jones (to a certain extent) failed to follow all the time

I explained the new proj to the adv. class - ser. were out for dif. reasons - I told the class of the new proj - it sounds a good proj. - I mentioned that I had held out for allowing the class to read Thos on revolutionaries, + so on - told them we'd sched. a partic day for riding - we spent the rest of the class period talking about news items, of which most of them had a good grasp

I ate dinner, then returned to my college + changed clothes

A mtng of all tchrs was sched'd for 6th - I met w/ my adult class (about 5) for a half hr - they took turns reading a folk tale from one of the elementary texts - it was about 4th or 5th grade level + most of the class read it quite well; some learned new words - I chose it for, among other reasons, that we

(80) C-MRS (over) CS-A-5(157)

have enough copies so that everyone can follow the reading

Carolyn Layton presided at the Tchrs' mtng - she had recd instrucs from the Hwy Dept ed off that we must turn in our entire sch curric. plus a list of bks & materials we use by F. morn. - all disc, responsibils for dif areas & grade levels were divided up - Dick is resp for the Eng H.S. area & asked the Eng tchrs to meet tom at 1 pm to wk on this portion - I volunteered to help type

We broke up about 9:30 - I went home & rd Subversive until bedtime at 11 pm

29 Mar - W

Had bkfst, followed my usual morn. routine - & my medication.

Did a little wk on my grad

Took my shower early as I had a meet w/ Eng Tchrs at 10

At 11:30 had lunch.

Met w/ my Eng reading class at 12:15 — seven people attended & the class seemed to be very successful

At 1 the Eng Tchrs met w/ Dick in the pavilion — Jackie is doing the h.s. health & safety course. & was excused — Dick, Shirley & I discd the curric for our remedial, basic, intermed, & adv. levels, using the Guy curric guide as an example — Dick is going to do the introduc — he gave Shirley & me some pts & tips as to wk on the remedial, basic, & adv, saying he wd do the intermed, — he later asked that we do the intermed. too — Shirley & I wkd about an hr & a half, mostly putting into slightly dif. lang. the items in the Guy guide to w/ Dick's suggestions — Shirley left at 3 to take a shower — I wkd a while longer — we finished the remed. & basic & I did some of the adv. section — the Guy divide their secondary & sch. into 3 forms starting w/ about our X & ending at our 10th grade — we go to

what they call the pre-professional level

I did up atlases & globes to use in my first class — the studs were interested but rather disorderly as I tried to systematize what Dot had started yest w/ a basic knowl. of geog. — gave them their little notebks to copy the names of the continents — most did this correctly but Wilbur Malone didn't

In the second class I had Dorothy Blackley rd her paper (a touching incident), & Fred Mark Wagner's & Candace × as examples of good papers — Dorothy acted as chairperson for the giving of news items

During the class period Jon the p.a. system told of an intruder's shooting from the bush over the heads of our children — he scolded those who had rushed into the bush unarmed, & that it might have been for the purp of diverting attention & passing a msg

A mtg of soc. tchrs was annc'd for 4:30 — this was to disc the new arrangement of soc classes

I went home, chg'd clothing, got materials ready — while I was eating dinner I annc'd that 7 new people arriving from Geo. Town had had to be sent by sp.

means - the Navy govt had told us we had an infiltrator here & one of this grp had caused some probl. - he warned us not to have any substantive convers. w/ any of them - in a few mins he decided we shd meet them in a rally on their arrival which was immed. - Off to my plane to the pavilion - dinner was served to those who hadn't eaten

Rally

6:40 - I started w/ the news

IMF stated they won't get any money if the press didn't play ass down - Mingo said there might be posturing - story currents in this city - I left for press - new arrivals came in at 7 or 8 - Ky to shots today - I thinks intended to divert us so that someone inside can divert a msg - conclusion or motive for running into incursions eg: auto. weapons, well know you're diverting a msg or creating a diversion

Food served to those who hadn't eaten

I asked individs. to offer items from news which they did

I offered secur. probl - a member stepped forward to tell us he was w/ an agent - she left the ch because I was an Atheist - joined w/ Marxists - Chris went back & was killed - this is a parallel prob - referred to Henry Williams & wife, Ron Crawford & wife - then solicitous out to get out of c.i - gr sentence - Hentles also asked for Chris's death - X Chaikin tells of plot to kidnap John & Wesley - I told of Tim Stowe & the story of John's birth

I'm to tell them not to send us any more people who haven't lived communally to some extent - cost of merely sending people - like a million dollars in air fares, not to talk of shipping effects, $1000 a mo. to maintain each for a mo.

Rules efficient to new people Pres. forced to loose our money by indirect we will be

crazy niggers - hard to pick up tape recorders - tape recorders worth $5,000 - some cost $475 each - eat all you want, exercise expected to diet if you need it - the criminal act to have $500 recorder - Angela Davis + others write thru for us because they want to come here if curtain falls because they see handwriting on the wall - Ronnie Hy wants Neva Sly to be called Hargrove

Story of lost person who tried to come on property - we have his effects - no one come to inquire - panther the case of mistaken one - one today shot over a child

Facts about our mail - we don't get theirs, they don't get ours

Jeffersonian in the bebop music

We defended this island for 6 days + 7 nights when leaders were out of the city signing the Panamanian treaty - we were ready to burn the bldgs + get to Cuba on our boat

Notes taken - the plans of Chief Davis of Police in L.A. - the permanent in Jackson case - J. told of advantages enjoyed here - should be grateful even if you think we have too much nice

Vote on selling tape recorders passed - no one voted Nay

Comments made on food on race in Georgetown - we don't have racism here - institutionalized racism

Soc Tchrs met - Bob Christie rd list of people who might be considered as new tchrs - 17 classes, prs. 18 instead of 11 we have now - I don't have roll as Mrs Jackson kept it - Bob assigned students to each tchr; taking off those who are "slow learners" - I was instructed to take roll, give a quiz, & determ. 27 I want to keep, giving up the slow learners who will be put in separate classes - juggle on the list for Co - Teacher assignments were asked to with draw (those who were present) & were discussed - 16 teachers kept

I got to my college about 10:30 - Ann & Anstra were making curtains for their beds like Ines & stayed up past the 11:00 lights out - I did Subversive until they ready to go to bed about 11:30

Had bkfst & followed usual morn. routine

Made final entries

Planned my classes

Went to church at 11:30

Went to adult reading class at 12:15 - J. was broadcasting the news & we listened to it - then proceeded w/ our reading & writing lesson - X X attended today - they all show intr & are learning

Dr. invited us going to my college & getting a shower; I checked w/ Beck on the curric write-up - I didn't find Shirley - I finished the Remedial, Basics & Advanced Lang Arts items - I had typed out the Internal Level, in which Dick & we had 2 levels, so I rearranged & added items & wrote them all - I then examined the bks we have in the libr; as we had to give texts & resource mater, listing first all the Lang bks we have in the Lang Arts field (very few), then Black Lit from both Africa & the U.S., & then Brit & Amer. novels, poetry, & drama - it was a very hot day - I had not finished

Went home & took a shower at 2:30

I was a little late for my 4th class - strangely, they were quite orderly today - we worked on listing & spelling correctly

the continents + a few other geographical concepts - I started to list the countries in Africa - Billie Jones is behaving better, Willie shows 2nd attn.

In the advanced class we also wrote the names of the continents + listed all the cities of Africa, started finding their capitals - this class still talks too much among themselves, I feel still out of some resentment of me

Worked for help on here on finishing the list of bks for the curric + turned the dup in to Dick

When I retd to the college to change clothes, I hoped to teach the adult Lang Arts class, as I had been excused from the soc. studies mtng - I had made a tape of the news, + it was being broadcast - I did not make an announcement about the class, + by the time the news was finished, it was too late - I went to the lab of + saw Dick who planned to type on the curric all night - he was coordinating the h.s. lang arts, math, + soc sci curricula + was including descriptions obtained from the work shop directors - I offered to help type + he gave me the soc. sci. curric.

11½ Ate dinner 11

11⅔ I find that another bunk is being erected - the prospect of having more people in the college pleased none of the residents -

30 Mar - Th - 2

I don't know whether I can find a place to type !!

I typed on the carrie from about 8 or to 1130 - the other residents were in + out w/ children + men friends but I did not have too much trouble - I put the t. w. on the bottom level of the new bed as the top level is not affixed as yet

Th the carrie in to the Bk Depos. - Tom was coordinating the elem. + jr. high sec - Twins + Greg was working take on it - the carrie is to be taken in on the plane by someone going to Geo Town - I heard Tony is going in + I suspect that I may be too + In the toilet I talked to Esther Mohren who used to be J's housekeeper in the Valley - she lives next door to us in the cottage where Chris Talley used to be (Chris stays w/ the small animals now, I bel) - she inherited some cats Chris had - she talked amusingly about the cat who has some kittens she's teaching to hunt - she brings in live rats + dead lizards - once Esther threw a lizard in the trash + the cat reacted hostilely, moved her kittens across the way

Had bkfst & followed usual morn. routine

The med. bldg is being repaired & expanded - meanwhile prescriptions are being dispensed in the dining rm & some other med servs are being performed in the pavilion

Made yesterday's final entry

Went to lunch at 1130

Then my riding class at 12'15 - I was giving the news (prob. a recording) & the attendance was about the same - Church Berkimer, who had spoken to me once about joining the class - I had told him he wanted him to learn to rd. came today - I find that he can write a little & he seemed to get some satisfaction from helping others, esp. Nancy Clay who gets desperate at unsuccessful efforts to form the ltrs I'd in the beginning //

After to the cottage, had my shower & got my foot treated - my toe is healing rapidly

When I got back to the cottage the workmen came in to install the new bunk - they talked of various arrangements, finally put it in what seems to be the least incon-

convient place = none of the other beds had to be moved - I will have to find a new place for my footlockers 3 x

3rd Subversive for a few minutes

I gave my 4th class a quiz on the Continents & I had brot in a no of atlases, old & new, & asked each stud. to write the names of all the Grecian cities he cd find - Then we will compare old & new lists - Willie Malone seemed to have the most trble, not understanding the maps at all - Billy Jones on the other hand has been doing well on the quiz the past few days - The class is not giving me much trble, tho that they make too much noise

The adv. class went to the library & selected bks to rd on their own for the period - bks had to be checked in & out by me - all selected a bk and some aspect of liberation or rev. tho Nancy Jones who rd All Things Bright and x Beautiful by x Herriot

I have another bk to rd after I have finished the one I'm on: Introduction to Grecian Civilization - I started on the introduction

Beth called a 6th hrs mtng - perh. most tchrs did not hear the announcement.

The entire commun. the last few days has been preoccupied w/ news items, because of the imp. being given to them: Jo's preg newscasts, posting of items in the dining area, mum: Jaiyde writing the news down from the broadcasts to be from other lists & I don't hear the broadcasts clearly & have not had time to do any writing but in various ways felt I had gotten enough bkgnd.

11 V soc mtng

The soc classes have been reorganized & co-tchrs assigned - lists of members of the new classes were posted - because Dr Jackson did not have a class list my class was not reorganized - people who were formerly in it went to come to me - I th a class roll & will submit a list of those I wish to keep - not having a co-tchr appt'd, I persuaded Barbara Walker & Clara Johnson to help preside over the recitation of the news by the class members, while Barb. & Clara questioned them orally in turn of their knowl. —

I who had cycles all rec'd to Bkn town, pd close pers, attention to the classes, checked attendance closely - be personally dismissed the classes at 9 or

Did subversive a while, fell asleep once - it, having had a very hard day - with - beg was also very tired - I went to bed at 11 or

11:30 Tom Rice was in chge of the Construc - tion - he told me that we were going to get more crowded when new people came in as we do not have the materials for construc - however, we will event - ually get bricks & more wood & Con - struction of housing will start up

Tom told me about what it was like on learning crew - he said he did not mind the work - it was being lined up & having to stand in line for everything that was had - only 3 mins was allowed for a shower - however, he said only I had the insight to handle punish - ment so that one felt the place, tho it - stops punishm used to be permitted on loc, & discovered it was sometimes used unfair - ly [illegible] stopped it
