

# H: THE TEMPLE MEN

WHAT DID THEY SEE? WHAT DID THEY SEE?

## "This Is How It [Actually] Happened" for THE TEMPLE MEN:

The Temple truck and "a" tractor-trailer spotted across the runway by reporters Tim Reiterman, Don Harris and Charles Krause. Krause said **THE TEMPLE MEN** had disembarked from the TRUCK; and that last seen, they were ON FOOT towards the larger plane. Krause: "They did not appear to be armed" -- i.e., not threatening to attack.

The reporters' line of vision to **THE TEMPLE MEN** then blocked as per NBC footage -- passengers boarding on left side of plane, view across the airfield BLOCKED.

Reiterman's schematic says that the TRUCK stopped; only the TRACTOR-TRAILER crossed the runway en route to the attack. Thus **THE TEMPLE MEN** saw the BACKS of the attackers at best -- not their faces.

Likely they saw even LESS: As revealed in "The Vehicle Used in the Attack: The Tractor," this duplicate tractor with a rebuilt frame was like "a headless horseman" -- NO DRIVER VISIBLE ABOVE THE FRAME OF THE VEHICLE. But the attack vehicle went into high speed for the attack. Thus coming from BEHIND, then whizzing by, may have been too rapid for the Temple men to NOTE that. Just that it was a tractor-trailer.
