Valysha's help got a good seat in the front -
June Lynn was my seat mate - the bus

were out bus stop - I went outside &
ate my food

I saw C. J. Jackson & asked to talk
w/ him - I had intended to do so even
before the the spring on the bus 2 who
ago - had a long conversation w/ him - my
main points were that he talked &
preached too long which interfered w/ my
sleep & that I resented pressure being put
on me as I had given all I had before -
he emphasized the diffic. of knowing how
to appeal for offerings & that the quotas were
set by J. which meant what money was
available - I told him I thought praise
was more effective than scolding

The bus left SF about 2 - I slept
well, not even getting off at the first rest

Christians called me at 7.45.

The audience was restless, as it usually is when the weather is hot

During the prelim. activs., ministers had usual diffic. in getting pledges for food for the wkend.

The McCoy boy, who suffered serious head injuries in the accident involving Edith Cordell, was able to be in serv. ton.

J. came on podium at 9.15 - starting to take an offering, he appealed for loans which wd be well secured for an animal refuge ctr in difficulties- were threatened with having to close, J. by revelation perceived they were in diffic. and offered a loan; ten minutes later owner of property would have come into possession of assets for one dollar, and would have made thousands - owner, Tom Plant, is going to get some unfavorable public. in the press, or we will give him some in our publication

J. emphasized again giving \$1,000 tow. hotel and personally wrote names down of those who gave this sum or lesser amts.

J. expressed h'self on subj. of pregnancy for benefit of those who were intending to take adv. of his remarks on wkend on neces. to see that honkies didn't have more babies than we - idiots who shouldn't bear child. are always the ones who hurry to get pregnant - he warned that none shd. cons. it who already have had a deformed or defective child, or suffer from diabetes - homeless child. shd. be adopted

A yng white man, who is new, had reported that someone sitting in the security section had refused to embrace him when congreg. had been told to greet their neighbors - the persons concerned were bro't on the floor, incl. a security guard, a woman, who had told the yng man that this was a security section & he cdn't sit there - the yng man, who is long-haired, is new and was much offended - J. sd he a radio announcer (perhs. one of the KFSO x personnel we had taken on for cure of drug addiction) - J. emphasized the need to show affection - touching has an effect upon health - he has to be the authoritarian, the people have to show kindness to compensate - those wearing a uniform have a responsibility, shd show more concern than anyone else - the woman who had refused to embrace the yng man was not in uniform: he had no way to know the section was for secur. - her husb., who is a white man, stated that he had told her she shd. show more warmth to others and not pay so much attention to him in public - their last name is Davis - J. sd. this was a good soc. statement

J. had rrecv'd birthday cards - sd. he cd. not accept them nor birthday presents - doing so gives an adv. to those who have money - it wd. have been all right to honor a sp. day w/the understanding that J. gets none of the proceeds

Billy Jones was sd. to be making prog. - he has been cleaning bathrooms

Steve Jones on floor - when questioned about his schooling by Marie Katsaris, he struck her - what can excuse the violation of tthe rule that we are not to use physical violence agst. each other? J. asked - Marie explnd what occurred, but J. sd. she minimized & covered for him in order not to hurt J. - J. expln'd this actually caused him more pain - Steve admits there is no excuse for his behav; he had been an ass-hole - J. sd. you need to see yrself as an ass in order to make change - all of J's sons have been neglecting school

J. spoke of the effect on some of severe punishment - an example was Louetta Brown who had recv'd severe punishment, about 150 whacks, & was now performing in an exemplary manner - what will work for some won't work for another - J. sd. he had been an ass too - one sin he had committed was bringing child. in - his child. had cared for him, but kindly deeds will be for nothing if you don't follow the rules - to Steve he sd., you have a good mind but are not using it - "You are going to pass" -

C-2-A-9 (57)

Lew has a job, is a hard worker - he got the car with \$800 from insurance on another car which had been wrecked - he had given an extra \$200 - the seller was trying to cheat him by claiming he still owed him \$100 - the car was also in poorer mechanical shape than had been represented

Danny beh Lew's back had expressed scorn for Lew, and J. made him repeat what he had said - J. asked if the two are attracted sexually - Lew took up scuba diving because Danny did it - Lew's relations with Terry, his girl friend, were discussed - he had tried to manipulate her - Lew wdn't admit homosexual feelings

Attention was shifted to all males in the cong. and an effort

C-2-A-9 (58)

12 May - W - 7

made to convince them that all are homosexual - C.J. helped in bringing a bearded yng man up who had a probl - J. wk'd with him to bring his sexual feelings out - J. sd he was scared of him because he doesn't understand him - he's got a deeply hidden probl - the heterosexual who can't even embrace a man has the probl - "I don't have any faith in any of you mother fuckers who won't deal with yr homosexuality" - what we need is a socialist personality

Attention was turned back to Lew - J: You may think you're kissing the succulent lips of a rose petal & you're just eating shit" - Lew admitted his homosexual feelings

J. sd he never sucked anyone's dick, but if someone gave him \$5000 ton he wd do it - what he hates is not the penis but the attit. men have, letting women wait on them

J. complained about those who intrude on him, make demands on him all the time, in contrast to those who are considerate - he wd like to be able to spend more time with the latter

J. tried to discourage all sex relationships - the only reason is high money for the cause, and they shd not know who you are - this is hard to do - check with him first

Referring to the offer of the Mayor to put him on the Human Rights Commission, he turned it down - what he wants are paying jobs for his people

Making a disposition of the cases regarding his sons, J. sd all are to study three days and three nights - Lew has been gypped on the car -he ordered the leadership: get some of the brothers and see the seller - talk to him about taking the car back and returning the money

To set at rest wonder as to where Chris Lewis is, J. sd. he was on a mission - for those who had doubts, he told the workers to get his voice on tape and bring it for the wkend meeting

J. decided that all his sons were to pamphlet - he had already sd they had to put any money earned into the commune, just like everyone else - the boys had previously not been allowed to pamphlet for fear of their being kidnapped, but J. sd. there would be sufficient guard to take care of that fear

Danny offered to study all night and also pamphlet

William Klingman's case was dealt with - Martha, who has been put on Council, says he has shown a little improvement - Lee Ingram says he has volunteered to distrib nsp. - Mary Casanova says he has improved in jr choir - Debbie Schroeder says he is acting better, still talks back - J. gave him an extra hr of work

More commendations - Scott Thomas and Don Casanova do good work on the public address system - Sheryl McCall has been serving well, doing secretarial work in connection with the nsp. - Don Jackson has been helpful in supervising nsp. distrib. - Eliza Jones does good work at her concession stand

Rory Macon's case was dealt with - Don Beck says he dresses sloppily for serv - Jack Beam says he has wk'd well with the groceries & in publications - J. gave him 30 mins. straightening up the church after serv.

There is a lot of fear, probably that

of the largest, wealthiest cities in the U.S. - says

I spent all day putting a contract for Hart on ATS - it was the portion of the contract for constr. of an internat. airport which involves work inside Iran - it was good practice for me, as I haven't done much on ATS for some time - Hart is taking a day off as F & O Hill was overloaded

At lunchtime I went to the "Energy Forum" - Hugo S. Simens spoke on "Food and Energy" in which he emphasized the necessity of using large amounts of energy in order to increase food supplies so as to help underdeveloped nations feed their growing populations - but he didn't say much about the respons. of wealthy nations to cut their consumption of resources

O'Neill first in another brand airfield contract, this one the portion involved w/ wh outside the city, & again I spent the whole day on it - it was partic. frustrating because the basic contract I had changed for the contract you had to be used again for this one, & many items deleted had to be restored

Borothy's class was even worse than yesterday - she derided me minutely over details but did not allow me to ask questions - her voice was sharp when she talked & she was even sharp w/ others who came in - in the aft I found that she had 2 contracts to put on the computer which presented unusual difficulties,

Bob drove all the way - I sat in the
middle in the front seat next to
Marshall Ferris - Vern, Lorenza Tucker

21 May - F - 3

& the child. were in the back seat

Marshall sd. his wife was not a member of the Te; she was attached to her friends in the Baptist Ch. - his brother, Edward and his wife had stopped coming to Te services very much - Marshall has retirement income, is a mechanic and works most of the time on Te cars

I slept quite well most of the trip, even though the others in the car were talking - Bob didn't talk much, and Marshall also went to sleep, but Vern and Lorenza hardly slept at all

We stopped for gas and to go to the bathroom after about three hrs at a place (near Coalinga) where we had stopped sev. yrs ago - we stopped again about 6.00, an hr out from L.A. and went to the bathroom at a restaurant which was open - I had drunk some real coffee which Bob had br't to keep awake

When we arrived at the Te at about 7.00, we find very poor secur. - We were met by Sheila Jones, dghter of Lou Ester, a yag girl - her companion was a man, Richard Clark; neither was in uniform; and at one time neither was at the back of the bldg. where we watched a man enter the grnds and leave

Christians had hoped to rest until church time at the apartment of a woman they knew nearby, but found she had been evicted - they went inside the te. to call frnds and relatives - we drove to the home of Vern's aunt, whom she had not seen since they moved up to Calif.

11² We were discussing some of the older women who came to the Te from the Peace Mission & gave the Christians some details about the early Father Divine movem, & contest w/ them & his efforts to give - refuge to their members who wanted to come w/ us, (the Te trip back to Phila) - told them of Father Divine's celibacy rule for members & of his effort w/ Mother Divine (101)

22 May - S

About 6.00 we stopped at a rest. which was 35 mins. from L.A. to go to the bathrm - the weather was nice - we arriv'd at the L.A. temple arnd 7.00 - only Sheila Jones, dgther of Lu Ester ^{Richard Clark} ✓, & a man, neither in uniform, were on security duty and seemed to us inadequate to the job - the Christians had hoped to clean up and rest at the home of an elderly member who lived near by but fnd she had been evicted - they went inside the te to telephone friends or relatives - Marshall had to be at the Annex for choir rehearsal at 11.00

We went to see an aunt of Vern's, in her 80's, who had recently burned herself and been in the hosp. - she has never been to the Te

We cleaned up and ate - I had my food with me - the aunt made coffee for the others - Lorenza went upstairs to lie down and soon followed her, but I had trble going to sleep, prob. because of the coffee I had drunk in the car - my headache had started up again - Christians stayed downstairs

I got up at about 12.10 and dressed for serv. - rd. the F nsp I had bro't w/me

We left for serv. about 1.15

I went through secur. check & put my luggage downstairs - had an ice cream cone

Applications for the summer trip were being taken downstairs

Serv. started a little aft. 2.00

Norm tk the off'ring

Penny testified, as she had in S.F., that physicians in L.A. had fnd masses in her breast which they wanted to remove - J. had her move to S.F. where the doctors fnd that the masses had disappeared - however a growth was fnd in her intestine, but this too disappeared

C-2-A-9 (102)

22 May - S - 2

J. came on the podium at 3.15

The choir sang

Tape of a former sermon

J. tk another off'ring

J. gave a rousing sermon - he denounced the Muslim's relig. beliefs while he made a strong appeal to give another \$1,000 for a hotel - the ideas of Marcus Garvey had been perverted - he attacked relig and held up the neces. for atheistic soc. - why are two blacks murdered by police every day in L.A.? - because the Bible says "obey those who have rule over you" - relig. is the greatest deception ever foisted on man - Christ was found in church only twice - the first time they threw him out, the second time he threw them out - in order to show that I have power I have to do more than any of yr fucking gods - don't confuse me with God - I am a liberator, he is a fuckerupper - he'll fuck up your wife, your husband - he'll fuck up your children - if you love a little dog, he'll fuck up the dog

God created everything, good & evil -- lice, fleas, bedbugs, syphilis, arthritis - you say the devil created these - God created the devil

J. left the podium for some time - Norm cont'd the offering with poor results - J. ret'n'd when Norm was down to \$5 - about the interruption, he sd he had saved sev. lives - someone told me she had seen him w/what lk'd like a fountain pen, & it is pos. he tk a weapon away from somebody - he con't'd the off'ring & the sermon

On the Muslims - he is not going to accept their relig. or any relig

Apropos of what I didn't catch, he told of Dr. Finkle recommending that someone with long hair and a beard

G2-A9 (103)

22 May - S- 3

stick his tongue out and "go to a masquerade party as a hemorrhoid"

You never will have my power - I was born with this power - some people can sing - I was born to put the whammy on people - it is a great responsibility - I never use it in wrath, to get revenge - I give a lot of grace - the only people who don't like me are those who have something to hide - he singled out one man in the auditorium

You never wd have put my whole body on a cross - you wdn't take me in one piece

Nobody's blood ever saved anybody

I am sorry for the dissertation, but there are more guests here than admit it - one woman admitted she was a guest, but others are guests and lied

J. finished the off'ring

He went into a disc. of the creation - he wd have spent more time on making woman than on man - God created the devil - it wd have been impossible for him to have more power than his creator - thus God is respons. for having evil in the world

Us niggers have to have more babies than honkies - we have to admit we're not doing it for the sake of the child, but we have to prevent extermination - when you had a child, you did it out of selfishness - you know you're a horse's ass - God has bro't in 4 billion - he's more of a horse's ass than you - you have to be a selfish bastard to hang on to relig., a selfish bitch - a feeling person will hate God

To those who claim Universal Mind is God, J. sd: Mind is impartial, indifferent - he hadn't noticed Mind doing good to people until it was combined with his body

(-2A9 (104)

22 May - S - 4

You'll get what you fear

I don't want to be wanted - every day more people want me - no one ever loved you but me - he made vivid comments on so-called love between husband and wife - there won't be love until we come to soc - relig. & capitalism teach us to be selfish

J. sd he hated to preach - his kidneys and bowels tense up aft. a mtng - but there is a reason for coming to church - you stay away, you'll commit treason

I don't like George Washington, Abraham Lincoln, Jesus - Jesus was a hypocrite - he cdn't fuck a woman, so he let a woman wash his feet - he went on to a detailed disc. of Father Divine, esp. regarding his sexual rules and his own violation of them - he made women put their mouths to him, claiming he was their God - he named Valor and Helen Love as two who had to have sex with Father Divine - I'd give a thousand dollars if I cd fuck right now - I haven't the time - I hate that son of a bitch (Divine) - I have not fucked for pleasure - if tonight someone's going to commit treason, I'd either fuck 'em, suck 'em, or duck 'em - with people who threaten the cause, what would you do? - I'd rather have killed them - some of you fuck me with yr mouth, talk me to death

J. told how he had sex with one who was going to commit treason, another who slit her wrists - he described our summer trip to the Peace Mission and how Mother Divine tried to seduce him on the tomb of Father Divine and, not succeeding, made him leave in the middle of the night with numerous child. - it was odd that he discussed these matters just after I had been describing these aspects of the Peace Mission and our visit in Philadelphia to the Christians

J asked how many wd fuck for \$5,000 - he asked for a vote, who wd, and who wdn't? Three sd. they wd not - elderly woman whom J. raised from the dead sd it was wrong -

P-2-A-9 (105)

22 May - 5

asked "What's so wrong? The 'white man's Bible?'" -
J. expln'd how the Bible was respon. for our thinking
sex was wrong - Valor sd it was distasteful to her - J:
it isn't based on what you want, but yr duty - one thing,
you two are honest - some of you sit there and you'll
go home and talk - he agreed with Valor that \$5,000 was not
enough, she shd get \$15,000

Mabel Dodge sd. she wdn't do it - she has too much respect
for him to commit adultery - J. sd she had committed a
sin, she judged him, she is more righteous than I am - he
offered her an oppor. to get out of it - she asked that he
forgive her - J. wanted everyone to lv. it there - say nothing
to her - only I know whether she's telling the truth

J. expressed his attit. about sex clearly: if you're laying
with some woman, with some man, tonight or tomorrow
w/o knowi^{ng} you're serving the cause, you're outside my
spirit .

Sev. women told of having to sell their bodies to feed their
child. - one spoke of living with guilt and of now feeling
a new sense of freedom at the knowl. of having done nothing
wrong

J. dismissed the choir for practice for tom's mtng - he
rebuked them for being noisy - "when I have been teaching
on a human level I have to show my power because people
are not moved by character but by power"

There was a healing session - then J. tk another off'ring -
response was poor

I saw Beulah among the group who had come in to fill up
the choir seats

The mtng was dismissed at 9.00

J. asked everyone to come up and lay a contrib on the
altar - there was a rush to the door - J. had the door
closed, insisted on people's passing the altar and going

C-2-A-9 (106)

22 May - S - 6

out the side door

Joyce Parks bro't me a cloth from J - he sd pressure was building up behind my eyeballs, I would have gone blind - he wanted me to get more rest - she sd J. was very fond of me - I went to the altar and gave \$3.00

I had to wait quite a while for Beulah who was helping out at a concession stand

Her husb. was in a bad humor that he had to wait so long for us - when we got home he was still fussing - she told him to go home - I asked her what was his name, as I had never heard it - she sd. he merely was called by initials, R.D.

Earlene

came with us

For dinner we had chicken, peas, and I ate a banana and an orange

As it was late, I went right to bed, didn't even try to read - Beulah followed soon after - It was about 12.00

C-2A9(107)

23 May - Su

I got up at 6.45

Brkfat

Brkfst: orange juice, fried egg, bacon, biscuits

House full of child. getting ready for serv. - Von Smith came in late last night aft. pamphleting

Beulah arrng'd ride for me and Earleen - we were picked up at about 9.00

Serv. was at 10.00 today

Choir members came in, many w/white robes - J. sd: What did you do, go slumming for choir robes? - he decided how their scarves shd be adjusted - red scarves were donated by other members so that all choir members cd have one

J. conducted a healing serv.

Sev. of the seniors were to ride w/J. in a hired Cadillac (I don't know what happened about the plan to use a Rolls of one of the members - prob. a secur. decis.) - I was surprised when I was selected - Joyce Parks tk us through the staff door and put us in the car - there were 3 black sisters, Mom Taylor, Annie McGowan & another whose name I don't know, and 2 white sisters, Valor St. John & mys. - we waited until J. dismissed the serv. & got in the car - 2 secur. guards were with us X

We seniors were deposited at the side & J. was taken to the back entrance, undoubtedly for his safety, so that the impression he wished to make was prob. lost as the Muslims didn't see him drive up with the seniors

//1 the driver of the car, who is accustomed to driving promin. people of all types, told me "these are very easy people to work with"//

C-2-A9(108)

23 May - Su - 2

I helped Mom Taylor who was not able to walk alone - she had been told to keep the grp tog, but Valor and Annie apparently resented her tone of author. & did not wait for us - we did not even know where they were seated

Our workers & the Muslims were co-workers on all tasks, ^{also} the secur. search seemed to be conducted by Muslims alone, & their ushers seemed to predominate

We were seated at 12.15

Our Black Velvet troupe performed; our choir sang 2 numbers with Norman Ijames & Melvin Johnson as soloists

In the ladies' rm I was told that the African dancers whom I had expected to see were not going to perform

There was a long wait, then at 1.45 the Southern Calif. Spiritual Jubilee got underway

Mike Prokes introduced Tim Stoen who introduced Joseph Freitas, S.F. D.A., and Carlton Goodlett, as Pres. of the Black Newspaper Publishers Assoc., who both spoke briefly - the 2 next spkrs were Kenneth Hahn, L.A. Co. Superv'r & a repr. of the Islamic Foundation - Mayor Tom Bradley of L.S. spoke, then Angela Davis who describ'd the racial sit. abroad & in this cty, put partic. emphasis upon N.Car. - a woman repr. of the Sikhs spoke, then Lt. Gov. Mervin Dymally, acting gov. of Ca.

J. then spoke for half an hr, giving unity in the struggle agast racism as our chief motivation

Wallace D. Muhammad spoke from 3.40 to 4.45 - he was as dull as usual

Either Sharon Amos or Karen Layton sat in the row in front of us during the mtng. & Mom Taylor told ^{her} how Valor & Annie went off on their own - Karen sd. Valor was losing interest in the cause - she "loves America"

C-2A-9 (109)

23 May - Su - 3

We were kept in our seats for the final prayer

Sharon Amos got Tom Adams to escort us to the back, and we got in the Cadillac for the ret. trip - after some time J. joined us & we were whisked away - elaborate secur. precautions were taken

J. asked where Valor was - I sd. she & Annie got separated from us, but the third bl. sister sd., "They separated themselves"

We were among the first to arrive at the Te at 5.15 - the rest of the members followed us in the buses, but it seemed that a good many went home instd. of coming into the aud. - I changed my clothes

Everyone to whom I spoke expressed massive boredom with Wallace D.'s speech

The session upstairs started at 5.45

There was much praise of J. - he remarked: "It prob. means, this looks good compared to what I just saw"

J. sd we were glad for the oppor. to show the white world we're tog - he sd. his kidneys were affected by the bad vibrations - we didn't show enough enthus. - we didn't follow instrucs - we were intimidated by the Nation of Islam, some of us admired them, applauded them more than we did our own - "you're going to repay" - secur. almost got in a brawl - Dennis was one of them - I have not come to be misled by carnality

He continued with a critique of Wallace D.'s speech - he didn't state any specifics of how to create a new earth

X In the ensuing offering which he took, people seemed to be trying to make up for their disloyalty - X Dennis did not help w/ the offering

C-2-A-9 (110)

23 May - Su - 4

//2 Dennis's mother, who is an usher & offertory worker posted oppos. me, began to wail in front of J's platform; he told her to be still//

We were dismissed to go to the buses at about 6.00 - lunches were to be picked up downstairs and taken to the buses

I got my lunch, waited for the Christians - finally Bob came for me - they had got downstairs and outside early - we went to their aunt's house where they loaded their belongings - this took consid. time

I was very tired & wanted to sleep, but Vern & Lorenza were not very sympathetic - Vern ^{couldn't} understand why I was tired, when J. had healed me - she wanted me to act as hostess & keep Bob awake - Ferris wanted to sleep also - I insisted on getting some rest, tho I said I wd hostess later - Vern says she doesn't sleep anyway when Bob is driving & he wdn't accept help with the driving, tho I offered - I did sleep most of the way

Vern had been ^{assigned to help count the offering} ~~among the money counters~~ with the Nation and had observed how our people did not stand up to them well, many appearing to envy them - J. had told us the Nation tried to take a separate offering at the door which we wd not share, accord. to the agreement - he stopped this & we came away with half the "take," tho we did not pay half the expenses

At one point about 2.00 o'clock about half an hr. aft. lving a gas station nr Coalinga, we saw a car with the hood up and one of our buses stopped - Bob and Marshall fnd that bad points were the cause of the trble; Bob went back to see if he cd. get some - altho we cdn't get the right size, Marshall, who does mechanical work on Te cars, sd. he cd have enabled the car to get to S.F. - the bus was still there but they had towed the car back to the station, which wd require someone to come for it tom. - we lost about an hr.

C-2A-9 (111)

23 May-Su - 5

We got into S.F. at dawn, tok Marshall home first, then Lorenza, & reached our homes about 5.00 - Bob had hoped to get home about 2.00 - he sd. the child. cd. sleep for ^{about} an hour, then had to get ready for sch. - I don't know whether Vern intended to go to work

C-2-A-9 (112)

24 May - M

~~We got into SF about 5.00 o'clock - we tk Marshall home first, then Lorenza~~

I unpacked, then went to bed, having decided to call in at the off. at 8.00 & say I was going to the clinic to see about my eyes

I slept 2 hrs.

Called Dor. at 8.10 - she wasn't in yet - I spoke to Cathy Costello & told her I was going to the doctor

Washed dishes that were left from F night - had some bkfst: grapefruit & cereal

Pressed clothes for the next 2 wks

I phoned the off at about 11.30, told them I was back from the doctor's, cd come in if I was needed - I spoke to Cathy Costello again as Dor was not in - Cathy told me Dor's son had had a motorcycle accident, was not expected to live - Cathy told me to stay home, as she tho't others cd handle the off. work

I prepared a meal and ate and washed dishes

Baked the other loaf of bread which I had bo't at Petrini's - I had set it to rise according to directions

Arnd 4.00 I went out to walk to get some exercise - tk w/me sev. framed pictures which I wanted to give to Bev Livingstone and Garry Lambrev who are running a shop to sell items that Te people are giving up - some of these pictures I have had since childhood

C-2-A-9 (113)

24 May - M - 2

The shop is on Divisadero btwn Oak & Page - it wasn't open yet but Bev & Garry saw me at the door - Bev is going to sell only antiques, & I am not sure she will keep my pictures - she & Garry have living quarters in back of the shop - we talked about giving up possessions which have an emotional value to us - Bev has a doll she is attached to - I told them of my Dancing Shiva - I am also hoping that I will be able to ship some bks to the p.l. - Bev & Garry tho't that more than likely we'll have to lv w/nothing more than the clothes on our backs

I went up to Haight St, wanting to buy some handkerchieves in the second-hand shop but fnd it closed

I got home about 5.15

I planned to take an hr's nap, but I slept three hrs

I ate a meal

27 May - Th

When I got to the office, O'Neill told me John Foster, who was for Mary Caroline & Rita Schumann, went home on acid & a bad back - Mary won't have so much while Rita needed some help.

Rita said gave me a long green to type - it concerned hiring an outside counsel to rep Beach & a proj. in Iran - the Beach entity is to be incorporated in Panama - I put this on Tracy's list & ran it off - Rita was quite pleased w/ it.

At lunch time I ate at my desk, then went to the new Embarcadero station of BART which is opening today - I wasn't there for the ceremonies but walked around the station, got a free Coca Cola & an Irish delicacy which was handed out by the Angeli's reds, collected much descriptive matter - Marie had given me a free ticket but I didn't use it.

Walked up to the bank, deposited my checks, & got cash - the day was very beautiful.

In the apt Rita gave me a cover
letter for the beam meter - Hart was to
get it - she also dictated a memo
on our equipment rental agreement which
I put on Ray's CD - her instructions as
usual were unclear & I wasted much
time on their item - she was in a
hurry for both items & and asked me
if I could finish them by being - I
stayed all his overtime, had to open
up the floor run & wait for the
machine to warm up - then I find
she had not waited for me & that
Hart did not need the beam meter
for another month.

When I got home @ 6:30 I decided
not to exercise.

I didn't have to wash my hair
but I did other household & pers.
chores.

As I was preparing dinner, Tim
called, wanted to come to see me
in about half an hr - I ate dinner
in the midst of which I received the
Te msg - Bertha Cavitt's asked me
if I was going on the Te trip - I told

I was disturbed because I didn't know
whether I was to be allowed to go or
not, & because there was no index
that people who got last year for the trip
that was cancelled wd be allowed to
go on this one w/ chgs - mostly I was
tired

Tim phoned that he was delayed
late dinner

I did the dishes

Started my laundry - had washed
my underwear & started to rinse
when Tim arrived

He stayed a couple of hrs - I told
him about Jo's healing me & of my
recent visits - Tim has been about

started full time in SF - he is prose-
cuting cases, which he doesn't like

The plan to go to Contonias to get a permanent - I intended to stay all night as I did not want to come home late and public transport, so I packed a suitcase - I had heard on the radio that a man was holding a bus hostage on Upper Market St & when I boarded the str. car on Market the conductor informed the passengers that we wd be transferred to shuttle buses & taken to our destination.

I got off the shuttle bus @ 15th & Roe & walked to Contonias, stopping to buy her & my Dr. Pepper.

The table was on 17th St rather than Market - the police & fire trucks had traffic blocked off @ 17th & Roe - there were various rumors as to what had happened - from Conto's windows we had a good view - the crowd dispersed about 9:00 o'clock - (The paper the next day sd a man had shot through the windows of his estranged wife's apt & had held her hostage, but a police officer finally persuaded him to hand over his gun.)

Rosita, Contonias' sister, arrived - she stayed last night also - she is unhappy in her Commune - her roommate gets up early & turns the TV on - she goes

out & sits on park benches - I asked
her why she didn't join Antonia's
Commune (no one lives w/C & present)
- she sd the Te did not want her
to drink the 3 flights of stairs - she brt
food from the Te for Cont

We decided to wait until Tom to do
my firm

I listened to a part of a TV prog, a
panel on both sides of Prop 15

Antonia is not working & present -
she receives disabil payments from the
state - she has turned over some of her
domestic who jobs to her daughter, Rosezette

Antonia says her mother, Mary Lewis,
is back under the wife of Jesse Lynchner
I never see either of them at the Te
any more

I stay w/ Cont. Rosita in the other
rm. - we went to bed about 12 or

29 May - 5

I got up at 9⁰⁰ & Contonia followed from
soon after - she made some oatmeal
the Te gives the communes some items
for the day - Route got up & left
she gave me a perm - as usual it
took a long time - at one pt she got off
on the wrong set of directions & I was
worried that the perm wd not take
but as the hair was subjected to the
waving lotion for a longer period of
time, the result was a tighter wave
We listened to the Te broadcast at

11³⁰

Contonia had a no of complaints
about the Te leadership: rudeness, indig-
nity, cruelty to child, getting others to do their
work while they sleep & Lee Ingram was
one she mentioned - she said that aft
keeping Michael waiting at the Te all day
aft his assigned punishment had been
completed, Lee Ingram sent him home
alone at 1⁰⁰ - Michael is 12

Cont. finished w/ my hair about 1⁰⁰ -
I got here at 15⁰⁰

I went down to the Modern Times
store & checked over their stock - I
got a paperback to read on the trip
The weather had turned cold - I

Today is Memorial Day

I slept until 8⁰⁰

Made yesterday's final entry

Got out my boxes of bks - put all the bks on the bed & sorted them into a group that I wanted to sell & a group I wanted to keep - the latter group I divided into 2 categories, the first consisting of those I wish most to save - in the end I have only 2 boxes I want to ship if post to the p.l., plus a box of Russian bks

Worked for 3 hrs in the morning, then prepared a meal & ate & washed dishes

Went out only to buy a map - the Chron had a report on yesterday's meeting, telling of the African leaders' statements that they had to fight for freedom but J. was called a pacifist & did not quote his brief exemption remark. The weather was very pleasant.

I worked until 5⁰⁰ o'clock - did not go through my personal papers, the former journals, nor teaching material but should think that most I will have only 2 boxes of these.

Read a Te mag that all those applying to go on the summer trip must
