I had hoped to be able to type straight ahead all day on the Venezuela contract & to finish it but problems & interferences arose all day - Phil Beinell wanted a contract put on ATS today - I told him he'd have to find somebody else to do it, or ask Halbreath to give him priority - otherwise I'd have to go to Betty Uasil for a resol. - He got that written to do it but didn't have it ready for her to start until mid - aft - some ^{more} changes had to be made on Phil's contract & the page nos. for the indef put in for ¹⁵ th ^{was} didn't have time to do these - I started just by noon & spent nearly an hr on the job.

When I got back to the off I find Maggie wanted a change made in her Eng. litch. doc & a copy ordered - Marie, who has been extremely helpful, offered what to do, but neither she nor I could make out how to change Doc's format so as to get what Maggie wanted - she decided to have it typed in by Brenda

The sys. was down for about half an hr preventing me from finishing Delbreath's doc - I had five or so pp to go - I ordered a print - out of what I had done - I had encountered several inconsistencies in capitalization & format, as well as odd wordage, not all of it a result of translation

3/4
X After leaving the off, I took the bus to the SF Coop & I got a shopping cart, as it will be useful to bring produce home from the Hayes St. coop but mainly to take laundry back & forth

movement - he was interrogated intensively
by the FBI just before coming out to the U.S.

about an hour - she finally layed into
me & I went off to sleep & slept soundly
all night, getting up only once

I spent the midday hrs writing in
my journal in Peter's living room & walking
about occasionally talking to people

Pete told me which Te properties had
been sold & who was living where -
the Te is still keeping the money
raising funds - I also heard that the
parent house was to be turned into
a commune

Vernell Henderson asked me again
when I was going to be able to go
communal - I told her that privacy
to do my studying & typing was my
chief need - I told her that
she could find a suitable place for me
in her apt - I mentioned my dental
(bill) - she said she was going ahead
w/ plans on this basis

(cont) C-1-A-2 (21)

5 July - M - 3

Bob & I talked about how fascism might come to this city - I told him what circumstances in my opinion might cause it to be imposed & how a leader could come forward

Ray is living in East Horse - he spoke almost tearfully of what great power he has - his statements: "before the morning star was, I was" & "I am Universall Mind" much impressed him

Chris is enrolled in the degree program for registered nurses at Santa Rosa Jr. Coll. & struggling w/ her required Eng course - she had never liked to write - I had her show me what she had written for the class & I gave her some suggestions

6 July - T

I expected Dor to phone in today but none of us heard from her

At lunchtime I went to see the film in the employees' series - it was called "Art to -" & showed a variety of artists, their who & bits from their performances - emphasis was on the new & experimental - the only name of which I was familiar was Leonard Bernstein, but the billed artists were featured most often & were ^{most} enjoyable

Phil Beemel gave me the portion of the draft contract Kate had done for him - it concerned a nuclear power installation - he wanted a double-speed draft which presents probs in format but worse, the order of his sections was not consecutive & they had to be inserted in the proper places, & the material was very long - he wants an express print - out soon

I arrived at the office earlier than Dor

She made no mention of F's events but she was still very tense all day - she observed the details of my work closely

Dor spent 7 hrs going over the ^{departmental} invoices from the computer center

I spent seven hrs on the ATS, finishing Maggie's security agreement doc by feeding tapes prepared by Betty Barclay into the computer - it was exacting work - making additions & rearranging lines required constant attention

I ate lunch at my desk - then took the bus up to the telephone co to pay my bill, then went to U.S. & E. to pay that bill - the company now has a secur. system & requires employees to show badges - I was

(over) C-1-A-2 (73)

not permitted to go through the
hall & had to go to the Market St.
entrance

In the last hr of the day I had
to make minor corrections in Quinn's
trust & thrift docs & orders cc of
the 4 docs - I was late in leaving
the office

Having got home late, I was late in
finishing my exercising

I prepared dinner, ate, & washed
dishes

20 July - T.

Got up at 5³⁰ so as to spend a half hr or my girl, as I like to keep to the quote of 4 pp every night

Had tried to call Eddie & Bob. from Rita Schuman's off, now unoccupied, but didn't get any ans. - I wrote a ltr on the call & made a copy for each - I told them my plans were to be on Sun, 15 Aug & ret on 5, the 21st - to Eddie I told her of the night coach flight, the time & cost & of pos. arrangements for getting my ticket to me

I called Contonia from Rita's place - had not seen her at the Te for long time & someone told me she was ill - I spoke to her sister, Rosita Lewis who sd no one else had been in to see her - even inquire how she was - Rosita arranged for a sister who is not in the Te to take her in that sd she was at home now - And told me she had been ill for 2 mos & was still weak -

(over) C-1-A-2 (75)

she had gone to a doctor - she had tonsillitis, laryngitis & strep throat - she had called Sylvia Struffs, Debbie Evans & Marie Keteoris but no one came to see her - she sd she was still loyal to J but she was getting out of the commune.

In the early pt of the day I had little to do - in the late aft one of the new styps, James Harth, brot in a memo & a ltr, which I started to put in my cd.

At lunch time I saw the film in the Employees' Film Series, "Progress on Cancer" which showed new developments in many areas of research & treatment of cancer, making optimistic prognostications.

Bois after seemed normal - she sd a new girl has been hired to start Th.

At home I exercised

Prepared & ate dinner & washed dishes - prepared lentils for lunches

worked on the contract negotiations & people
from the division involved gave details -
a report from the graphics area had pictures
& diagrams to display - the project, to
build a whole city of refineries, infrastruc-
ture, pipes, housing, a training center,
desalination plant, is estimated to cost
\$25 billion & require 20 yrs - the
force will be built in from other ctry (from
Pakistan & Yemen mainly) & first -
Saudi Arabia has few trained personnel
but Opec is expected to train replacements
for all functions - the Saudis were very
apprehensive that they wd be overcharged

(over) C-1-A-2 (77)

I do not have the means of checking - a
similar proj will be carried on on
the Red Sea side & will be used to
evaluate the Red performance - the
key code sit, was mentioned - we agree
to abide by the laws of Saudi Arabia
while in the city, which was sd to be
acceptable to our govt

The mtg lasted until 11 or - coffee,
doughnuts & sweet rolls had been
served

The rest of the day I had little wh
to do - I made grill entries

Ate my lunch on the PGE steps,
then walked up to Mission St. to a hard-

This I had set the alarm for 6³⁰ & got up at 6¹⁰ - I was able to start for work earlier than usual, at 7²⁰ & got into the off by 8⁰⁰ even after picking up the print outs at the computer center - Dor was on the elevator w/ me as she had got her son started earlier this morn.

The new girl, Marquette Scarberry, entered on duty & was in the off about 9⁰⁰ - she is 24, a tall blond, who has just worked on computers for a Contra Costa msp - she is rather talkative, open, friendly - she lives w/ a brother in Concord & takes Bart to work.

Dor put Mary at one of the computers which she can use for orders & it on May Cal who - the off is crowded & had a bad effect on my nerves, but I liked Mary better than I think I will.

I ate outside on the P & E steps - the

in my opinion as many people were not

J came on the podium during testimonials about 9.00,
then left

Norm took an offering

J referred to 3 rich young men who kidnapped 26
child. & busdriver - newsmen, neighbors say how good
they were- they're misunderstood (ironically) - if it's
poor black, poor white, they're hoodlums - rich child.
are always very nice - they won't serve any time,
because money buys anything in this city.

Someone downstairs now who got in trouble, came for
help - he was not inclined to give it

The Cleaver trial today shows our power

J: I know that some don't want to go to the p.l. - we'll
give you a church and you can come and have church
& sing to yourselves - don't want to force anybody to go
when they don't want to go - if you work for us while
you're here, when the situation gets bad, come to us and
we'll take you in - if you haven't worked for us, keep
running

J took offering by sum

Two films on "People's China" shown - had a white
narrator - first was "People's Communes," the second
"People's Army." One or both I have seen before - J.
said they have anti-revolutionary commentary but to
us they don't look bad. - Amer. breeds alienation &
suffering - the child gone from here 3 weeks has been
out shooting cocaine - we're programmed by TV - I will
take my chances on soc. - I would be glad to give up a
few individual indulgences to live where there is no crime-

relationships in this country based on sex are superficial - none last - the poor have no chance - you wdn 't have anything if it weren't for this grp - as Mao sd, the people are God - Christianity has been arnd for 2000 yrs and has done nothing for anyone

Quest. period - Indian woman tells of pol. sci. class at Laney where they had trble keeping their ethnic class - she asks if we'll have an oppor. to go to China & Cuba - J. says soc. ctys arrange scholarships for youth - but the imp. thing now is survival - we'll have time later for travel, now we must wk - we're facing genocide - now we must wk to save our child.

Quest. by Joicy Clark: will there be any more exposure of Watergate? - J: they're not going to expose corruption - they are investigating who's screwing who - while big business buys congressmen, nothing is done to reform the tax structure - the rich screwing the poor is what I care about - to a question on deferring the implementation of capital punishment, J sd: yes, until the elections are over - the people are going back to relig. - you can't get people away from relig. - relig. is the worst disease there is - the cty is full of mad dogs - I've got people in here who believe in capital punishment

There's no use going down the tubes for a bunch of stupid people - he referred to spoiled children - our child. will be destroyed: shooting coke, snatching purses, breaking car windows - getting a Baptist for pres., we should get out of here - only a robot can keep from getting mad - not one of those three yng men will go to the gas chamber

After elections, you'll be sorry you didn't sell yr house, extra clothes, junk jewelry & give us the money to help build up the p.l.

Question on the Key Plan in Contra Costa Co. - J. didn't know what it was - someone expln'd it was a means by which Medical recipients were required to go to certain doctors or hospitals - pressure ~~was~~ put on people to join - benefits are going to be cut for those who don't join - J sd wd have to join if you lose yr benefits - here we go down the road to dictatorship

Quest. on Dennis Banks present sit - J: not very happy about Dennis Banks - he didn't keep his promise not to talk ab^out certain subjs. - he didn't want to be associated with socialists

If you want to stay back, stay here and sell what we can't get rid of.

The L.A. church is up for sale - the police there are Gestapo - we cannot center there.

J. has had some contact with Jack Arnold - he wishes he hadn't left us - he said he has great respect for J's foresight - the financial straits of the ins. cos. is an ominous sign
