asked whether people shd be encouraged to participate in the wk by writing to the Te if they don't want to come to mtngs - J. sd no

J.: Bl people own 42% of the property they had at the end of WWII - "I'm not staying here alive" - they're going to throw the white man out of Africa - then's when you'd better watch out what happens to black men here when the capitalists can no longer exploit Africa

J. spoke on the subject of people who want to stay in L.A. - when you walk down the str. with yr black son, you know how racist people are here - they're waiting to kill you - those who are mistreated are not limited to those w/bl skin - when the rev. comes, it's going to be all colors of the rainbow

Malcolm, DuBois, Robeson show you can't get educated enough to make them forget you're black

Johnny Brown sd people are refusing to get passports - some won't turn their passports in to the Te

Quest.: Why don't the Russians trust Carter? - they don't know much about him - J.: they know one thing: he believes in God and that Bible - no one trusts anyone who believes in God

J.: Blacks in Africa are going to be free bef the blacks here are - I'd be glad to be tortured to have our brothers in Africa free - when they're free, blacks here are going to be put back in slavery, as the honkies are not going to lose their standard of living

Quest. on Amin of Uganda - J.: Amin is one of the

Quest.: Will the soc. countries be affected by depression? - J.: It will be no danger to them; they don't live on deficit spending

Quest.: Is it pos. that germ warfare is the cause of the legionnaire disease case? J.: Yes, the police probably did it

A yng man who was released from Soledad prison by J. expressed his gratit. - J. sd that those who go out hurt the chances of such people

None of us had much to do all day - Halbraith, departing for Venezuela, left a contract for revision which Bob wrote on but w/ no great urgency.

Emily was feeling much better - she made some revisions on her book work, having consid. diffc. - Phil remarked to me that she did not know as much as she that she did.

Phil Beemel got in the Consumers Power contract & had work on for revisions & I made those.

There was much conversation mostly thru Bob & Mary on astrology which Emily looks in, & politics - on the latter subj. I've got into the subj. of Communism among the young & in the U.S. & the "country", what she thought saved the city from subversion - guess -

Got up at 9⁰⁰

Went up to the Haight - Ashbury to the second-hand stores to buy a few items I need for my trip - a pair of tennis shoes, a pair of walking shoes, 2 pairs of pajamas & a light house coat

Prepared & ate a meal & did dishes
Listened to the Te broadcast - the panel disc was on the power of mind & was concerned w/so-called miscellaneous happenings, not exclusively backlogs

Cleaned the apt

At 4⁰⁰ I slept for a couple of hrs

Sorted out the clothes I am giving to the Te - I have 2 big bags

I was about to eat, some milk when Bob called - he picked me up at 7⁴⁵ & we arrived at the Te at 8⁰⁰

As we were entering, singing in, or something, his voice came, and the loudspeaker - he was apparently reacting to the testimonials being given, and then another, made disc of Phil T. & other matters, and then that he devoted to honor of our section

By the time I came upstairs, there had

(over) C-1-A-3 (53)

been generated an atmosphere of praise & rejoicing

I came on vacation & after Rich Cordell had just taken an offering, he said it had not been sufficient, & then another - he said too many were going to stores, buying new clothing, & buying things they don't need - if we enjoyed taking articles in stores, going to movies, taking TV shows, & eating in restaurants, there was too much of Solomon & Homeroad in us - you are not only in Sol & Hom. but Sol American is in you

A film was shown, "Buster and the Preacher" w/ Sidney Portier & Harry Belafonte, directed by Portier - it concerned the ~~the~~ wagon trains which were organized by blacks in the South the Civil War to move to the west & were harassed by Southern night riders who were intent on keeping their color force - the film showed how the blacks & whites in helping the blacks to get to freedom - the picture was stirring, & the sounds in the theatre were loud - The film was more pop w/ the audience than any I remember being shown in T. T.

music & sang in church choirs - she was
a member of the Peace Mission ^{in Phila} but was vague
about when she left them & joined J.I. - she
apparently heard of J. from Roy Black (then
Love)

I left the dishes - dressed

I had got my operatory dress wet last
night & altho I had rinsed it out I didn't
have time to iron it, wore a short one

Eddie & Sue + they didn't come for an

putting up the second story - all the electrical
equipment has been installed & she is
living upstairs, but the whole house is as
cluttered as ever - she has, of course, a

16 Aug - M

I slept until 9 or - the room I was in was so dark I couldn't see anything - Dor & Eddie were already up

I had some canteloupes & bananas

We spent most of the morning talking - Dor told us of Paul's wedding - the bride was Polly Williams. Dor had some snapshots - it had been a simple wedding conducted by a Unitarian minister in the garden of the parents' house in N.J. - Polly's father is well to do -
x Paul has his own business designing buildings

Dor's chief topic was her affliction w/ Madlyn Murray O'Hair's atheistic grp - she still dislikes the Te's identity as a ch. tho she is not bitter about the incident in Chic summer by last - she fears being the object of Jo's "occult" abils.

Both Dor & Eddie warned me to avoid disc of J & the Te w/ Habs - they are concerned about her mental condition - they think she is drinking too much, but she has too few interests -

(over) C-1-A-3 (64)

They think she should get rid of her house + do not understand her reason for keeping it - her given site is not good but not desperate - I promised to be careful in disc w/ docs

X The three of us went for a short walk w/ Eddie's 3 dogs - the weather was ideal.

We had a light lunch

11↓ Eddie has rented the downstairs portion of her homey bedroom + kitchen to a new teacher at her sch, a young woman - the arrangement will give Eddie more security.

Eddie intends to retire in perhaps another yr - she will get a pension from her sch. admin.

We drove to Denver, stopping at a shopping ctr on Haddsworth to make a few purchases - I got some zippers for my 2 dresses w/ Eddie's advice - Denver was very hot

airport - we had salmon - we thought
too much attention had been given to
any embellishments; the food was not
extraordinary - prices were high - we
paid \$8.50 for the entire alone - then
paid for the dinner

At 8:00 we picked up Mabs at the
airport - we found her right away although
we had not been certain of the
airline nor flight no

Mabs was in a good mood tho her
complexion seems muddy & she has
gained weight - she was happy be-
cause Miranda has just taken a job
in Washington w/ some experimental
agric. proj. of the govt, starting in Oct -
the climate in Montreal is hard on
her - Tazore is fine - he suffers from
allergies & has to have a restrictive
diet - she says he has a hot temper -
he looks like Matthew

X We spent some time in getting out of
town as Eddie took the wrong road

11 Mabs is still smoking heavily
We went to bed at 11:00 - Mabs slept
in the same room as I

17 Aug - T

I slept soundly ^{during} the first part of the night, woke at 4 or 5 and didn't get back to sleep - Mabs slept rather restlessly.

I got up at 5³⁰, made some lunches that I will make girl entries - but Mabs joined me & we sat talking until Eddie & Dor got up. We had toast & eggs for breakfast.

When we had dressed we went in the car w/ Eddie driving us to see set of her friends in the locality, to her school to meet her principal, whom she likes very much, to the vet w/ one of the dogs who was limping on one foot - we had a hamburger for lunch - Mabs & I shopped for food for Tom while Dor & Eddie went to the beauty salon & had their hair done.

From what convers I have had w/ Mabs, she is not as opposed as Dor to bel in some form of spiritual power, but she does not think highly of J.J.'s extra sensory

perceptions - however, she is very concerned about soc. issues & agrees w/me about the harmfulness of the present econ. sys.

On our ret we visited another of Eddie's friends - I had 2 glasses of Scotch & was very tired

I slept for an hr & a half

Took a shower while Mabs told me others of some of her relationships

Eddie had borrowed a projector from the cops & showed the films I had given her of her, Paul, mabs & Edna, friends, mother, father & the ranch

We had dinner which Edna prepared: T-bone steak, baked potato, mushrooms, Toms. - I had paid for the food

Mabs told of the trial & sentencing of the man who attempted to rape & murder her - he "appealed a plea" was sentenced to seven yrs, in which he served two - she does not think he was rehabilitated

Mabs told of some of her affairs

Maeb & I got up early, about 7⁰⁰, & sat drinking Sanka & talking when Edna & Don got up.

Edna took the dogs for a walk & she made coffee cake for breakfast.

We packed & got ready for going to Dillon - we talked so much that we were very slow & didn't get away until 1³⁰.

We had called my aunt Josie & told her we wd be coming - Ben & Florence came from Fort Collins & we phoned Laura in Pueblo - she drove up directly.

We stopped in Idaho Springs - Maeb & I had a hamburger & a root beer.

Just out of Idaho Springs rain began to fall heavily & we pulled to the side of the rd at Edna cd not see the rd. very well.

A tunnel has been dug under Loveland Pass because of the numerous skiers who go across the Divide on weekends - it save a good deal of time but one misses some of the scenery.

We arrived in Dillon about 3³⁰ - They had expected us much sooner & were

(over) C-1-A-3 (70)

worried - Ben had taken Laura
sightseeing - w/ Joanie driving we
all followed them - we first went
to see the site of "the ranch"
which my grandfather & then my
Uncle Earl owned & where we had
spent some of our summers as child -
but the land is flooded - the ranch
house burned down sev yrs ago -
the old barn & tool house are still
standing & are still in use - condos -
mini-homes & other tourist housing
have been built in other places -
the whole area has had a tremen-
dous growth in population - the lake
created by the dam built by the Denver
water district is used for recreational
purposes & the water goes to Denver

We then went to Heystone to see
more condominiums & a fancy hotel
built to accommodate skiers & summer
tourists - we had met Ben & Laura
on the way

Ben is now 67 but seems to be
enjoying life, tho in poor health
2 yrs ago - he is retired from the
Forest Serv - Florence has a gall

Laura, is a home ec teacher, is
married to Ralph Chaney, who

Jane spends the summers in Biller &
the winters in Tucson, Ariz - she seems
the same as ever, very mild - tempered
& agreeable - Florence also is much
the same, very critical, esp. of people's
housekeeping.

For dinner we had steak, an
eggplant dish, green beans, & cake -
We discussed politics & gave a round
info on all the child. & other relatives -
Ben was quite volatile on his beliefs
X Ben is concerned about environ-
mental issues but is conservative on the
subj of economy in fact, prej. against
welfare recipients, racial relations -
He was even more narrow-minded
on the racial question -

We were up at 8⁰⁰

For breakfast we had pancakes & syrup
& black currant jam

W/Ben & Laura we started on a
walk to Dillon Lake - we met on the
way an elderly woman, an old-time
who is in charge of the Summit Historical
Museum, which has been gathering
mementos from the Dillon area. She
showed us through the museum -
I got a couple of post cards to send to
Lou & to Don & Mary at the off. - we
then continued our walk to the lake, staying
at the condominiums there

For lunch we had hamburgers

Laura left for Steamboat Springs to
see Lesley Gordin, daughter of Mr. Mother's
Aunt Ruby

Josie has a beautiful rock garden -
Helen & Edna took some photos from it -
we all had our photos taken in front
of it

We left for Denver about 2⁰⁰ driving
over Horseshoe Pass & through L. Park -
I drove until we turned up home road
We arrived home at 5⁰⁰

C-1-A-3 (74)

I slept for an hr

We dressed & went to the city for dinner - we walked and a ^{rehabilitated} area called Laramie Sq & ate at the Lafayette Hotel. - it was a high-class rest - we all had sea food & wine - Dor paid the bill

We liked and a store which sold plants & she took one for Joyce - Joyce, who is a close friend of both Mabel & Dor, is the daughter & wife of rich men - the father owned the Republican Drug Store & Max Struble owns a hardware Co - Joyce who is in the store & is, according to Mabel & Dor, quite liberal - she is ^{now} deeply involved w/ NOW - the Nat Org. of Women - she has done many services for Mabel & Dor & they always visit her when in town - I remember meeting her only once

11/1 Dor met her yrs ago when she was working at the exhibit at Edwin's Dept Store

We, the Dors to the airport - her plane wasn't until about 4 PM - we had a drink & talked w/ her until about 10 PM - both Edna & I had some items to show her - Edna's were items used in

good time, getting home about 3:00

C-1-A-3 (76)

20 Aug - F

I slept late

We stayed at home today

We three took a walk down the rd -
Mabs & Edna discussed the various
flowers & shrubs - Tourists have scattered
a good deal of trash and we took
back aluminum which Edna sells

Mabs worked in Edna's garden

Edna showed me how to put new
zippers in 2 of the dresses. Clara gave
me - under her instruction I did
most of it like the machine sewing

First Reticulation in America

We had more disc - Mabs gave
more detail on the assault she had
undergone when a young black man
had attempted to rape & murder her
in about 1971 - when he tried to rape
her she got him off, he then stabbed
her 3 times & threw 2 objects at her
face, leaving her for dead - she de-
scribed the plastic surgery she had
which was remarkably successful

I learned of the financial state of each
sister - Mabs is able to get along on her
annuity, supplemented by her home

(over) C-1-A-3 (77)

teaching - I don't think the nursery is
returning anything to her & her partner
that they don't put back in the busi-
ness but she says they have a firm
foundation & an excellent reputation -
the house is run down & needs much
work but she refuses to sell it on account
of the garden

Edna plans to retire in another year -
she makes twice the salary I do &
Alice pays her 17,000 - most of her
surplus has gone into the house &
" she will get retirement pay from the
sch. dist. until old enough to draw
soc sec "

she has still more to do

Edna made plans for the return of
Sue, to whom she has rented the
downstairs - Sue is expected this weekend -
Edna has cooking, laundry & sleeping
furniture already upstairs, is moving her
dishes & cooking equipment

I washed my hair

For dinner we had some broiled
chicken on boiled potatoes & a salad

I read Radicalism in America

21 Aug - 5

I slept until 9⁰⁰
✓ Hals & Eddie had walk w/ dogs
✓ I packed

Eddie spent to finish the sewing on my dresses while I changed sheets on the beds - Hals will move upstairs - Hals cont'd w/ her gardening proj's at which she worked most of the day

11 ↓ Hals & I had honey dew melons, an egg & toast for b'fst - Eddie ate coffee - cake 11

I had a half hr's walk - I went up the rd on prop. above Eddie's place owned by John Hamble - it was a beautiful sunny day - the wild flowers were the best I have seen

Eddie & I left for the airport at 12⁰⁰ - Hals stayed back - Eddie made one stop at an electrical shop & I purchased some grapes & a can of salted nuts, as a meal was not going to be served on the plane

Eddie & I discussed the reunion ^{sisters} we had had, agreeing that it had been very successful & we had not had any angry arguments - we are all concerned

(over) C-1-A-3 (79)

about each other & reassured that we are all well. - even Habi is in a better condition than we had expected, tho we wish she didn't smoke or drink so much - Edna sd they were pleased that I was happy, had friends & are now convinced that my retirement is taken care of - she asked if I thought they were selfish - I told her the whole country was living at a level which was beyond its deserts

My own conclusions are that altho not racist & altho they back many progressive ideas & movements, they refuse to accept the seriousness of the sit - all have faith that reformist solutions can & prob will be found to our national probs. - they are bound by ties to loved ones & prop they own - Dor is so adamantly anti - relig that she cannot accept any phenomena which she regards as supernatural - she also lacks sympathy w/ all living things & to a certain extent w/ people - I did make some headway w/ all of them in leading them to view extra - sensory occurrences as real

We arrived at the airport at 1³⁰ - Edna did not come in

The plane, on Continental flight to SF by way of Colo Springs & Albuquerque, left at 2:35 - I had a window seat - at Albuq. I got off the plane & walked around the airport - I was fascinated w/ the tiles of Indian design in the passageway & interested in the Machine dolls - On the flight we had good views of the Grand Canyon, Boulder Dam, Las Vegas, Death Valley & the Sierras

I read Radicalism in America, etc my grapes & nuts - soft drinks & nuts were served twice

We arrived at 6:14 SF time - I took the limousine into the city, walked up to Henry to get the bus I waited nearly an hr - when it finally came, the driver told me that there had been two mishaps at the East Bay Terminal - the brakes of one bus went out & a woman slipped & hurt her head & an ambulance had to be called

I transferred to the McCowan bus, was home by 8:00

I made some spaghetti w/ canned tomatoes & ate it

I unpacked

Went to bed at 10:30

Made quilt entries

A little after 10⁰⁰ I went up to the
Hayes Neighborhood Coop to buy a few
items of produce - it is now open
on Su but not until 11⁰⁰, so I
threw a short walk in Golden Gate Park -
my sense of smell, which began to come
back my last day in Colo, retd in the
park & I could smell the flowers - the
little coop still did not have its
produce out, so I went over to

Petrini's & purchased a few items

I prepared a meal, etc, &
washed dishes.

Made more quilt entries

Pressed clothes for an hr & a

Lay down for 2 1/2 hrs but

Don phoned that her arm was still giving her trouble & she couldn't be in.

I checked the print-out of the Hiltz contract & found a few errors that have been overlooked - advised it to him for further checking.

He called on Telph. to tell her I safely arrived - told her in my phone trip - told her I had had the "I" enjoyable vacation of my life which pleased her.

Harry had gone to ATS 1:00
at my lunch at my desk
saw a film in the employee series,

advertised as showing life in the
Sol Sea Islands - however, it was
a mere 20 mins. showing

mesian cultures - I heard complaints
about the artificial character of the
piece.

Went in the bank to deposit
last wk's checks & get cash - the
weather was pleasant

In the apt I made corrections
in the Scherz contract & read off
the corrected pp & Mary did the
same on Brand's contract - she
had some diffc w/ some of the
changes. But after her experiment
until, she asked for help
got home in good time

Exercised

At 6⁰⁰ meditation I went to get
my plant from Magnolia - Christians
were not there & on my inquiry
they told me they had moved -

going to work - she had been

her for persuading Harry to live when
he seemed to be accepting well to
the Te - Harry is w/ Liz, Bonnie, sd -
it was unforgivable that she just
"dumped" Renee instead of placing her

time on her make-up - when I
inquired what had led to Liz's leaving
the Te now, Bonnie thought it was
the prospect of getting money from her
grandfather - I had always known
what she was like - she was mentally
unstable & he gave her every chance

mind for me to write for the map -
I told her of my idea of writing

people who then enslave or after-
annate the dark races - we are not
sure this theme wd be suitable for

I also suggested for the map a question-

I talked w/ Vernell Henderson about going communal as it will have to give notice on the first of Sept - she sd a great many people were joining places & so (no doubt because of an influx from L.A.) & unless I wanted to share w/ a roommate it was going to be difficult to find a room for me - I repeated what I had told her previously, that w/ the pressure of my job I needed privacy, & wh & when wd disturb a roommate w/ my typing - she sd she wd confer w/ others at the leader & let me know then

a lesson - Sylvia Watson came up w/o per-
mission of her mother - she is 17 - mother
is hostile to the ch - one girl asked a young man
for smoking weed in the ph -

disc. in conclusive - no comments, didn't help
Gol. pres disc, Dr. Boulton pregnant -
Paul says they decided on abortion because
this wasn't the time - I inquired whether
this is what they want to do - has been so
they don't take proper care of the 2 they do have
I: Those who want to have babies should let
us know so arrangements can be made out
✓ I'm tired of being told over everything -
✓ in dec's the other night Paul wanted to get
a job - he hasn't found one yet - & Boulton
wanted to raise money, as was he - neither had
any yet

As he started to take a final opening, J.
displayed gr discouragement - if people did
not want to keep the rules, she could take the
first logical ones & do something, "like an over
track" - but he added at the end, "I
don't let my depression affect what I do for
you, & don't you either."

He dismissed the mtg at 2⁰⁰
I waited until Vernell was through helping
at the altar & then inquired whether she had
any work for me - she said she had some -
sat with some others in the leaders' room, &
they were going to try to work it out,
so I concluded that they did not carry my
desires out of line - I felt the remarks of J.
about not saying we were going to have our own

way, but referred to the Big case, & not to my desires
// ✓ he had had to do some things to protect us which is known, & he had us, & there might be a time when it will be better for us if he left us - if that were the case he would do so - he had earlier said that in case of an emergency & if he were removed, we would be very bright if we didn't individually make our way to the p.l. //

// ✓ we had in L.A. - he had to hire one of the best attorneys in the U.S. & pay one of our attorneys, plus supporting staff, there - the husband of Melissa Jackson who was a sedent & a police informant was opposing her custody of 2 children - he could not let go for the p.l. w/ some of our members' children, condemned to stay here - the husband had raped Melissa when she came home from the hospital childbirth w/ stitches in her - one child had shown inward. bravery, & went to bring out evidence that the father was a dealer in drugs //

// 3 rash of pregnancies & requests - women to be permitted to have babies - as a later incident revealed, some of the background to this remark the place at the 1 night communal meeting //

114 lines - the plot was less subtle & more farcical than the bk & whole new episodes had been invented - the aud appreciated the slapstick better than the satirical references - J's comments were to point up the revolting aspects of Amer life //

None of us had any work at the

There were various discussions
throughout the day thru Don, Brian

heated - her view philosophy is unreasonably
reactionary

At lunch I saw the film in the
employees' series, "Without Warning,"
which was about high blood pressure -
it was worthwhile but I think the
imp of diet & exercise was downplayed
& medication over-emphasized, prob.
because a pharma central co. produced
the film

I ate lunch quickly on the P & E
steps.

In the apt practiced on some mag'd
