arrangements were being made to
Jank - he asked for volunteers to deliver,
mostly men - he then asked
for volunteers to clean the T.E. tank

Like the the offering - I got tired to
Testimonials, following which child
sang "I need you"

Mother came out proclaiming at 8⁰⁰
she the another offering - there had not
yet been any change on the floor - the
lack of any distressed her
she had the child sing & was firm
when they started to shovel

One of 7's tapes

Another offering

to try out about 11⁰⁰

Home w/ Marshall

on the way over w/a peck - up truck
in a few mins - I waited downstairs -
Ray Jones was driving, - 4 young men =
one of them Preston Wade = came
to help - they loaded everything quickly -
I was not even able to get anything
nor sweep out & vacuum the place
well

Ray got off the Te & Phil drove
us to the Henry Blvd apt - it is
1029 Henry, thru Van Ness & 5th -
we parked in the alley - everything
was put on the elevator & unloaded in
my apt, No. 47, which is on the 4th
floor - the boxes were put, mostly in
the closet in the bedroom - Phil gave me ^{keys}

That there was a Te sent, I didn't
get - it showed & out out around
7:30 & walked around looking at the
neighborhood - it seems like an extension
& diverse area w/ many people on the
str - I ate dinner in a c.d. -
had prawns, w/ soup, salad, baked
potatoes, peas & carrots, & tea

(cont) C-1-A-5 (5)

2 Oct - 5 - 2

I unpacked a few boxes
Went to bed at 12⁰⁰ - I slept

as my bed & rm were too
cluttered

C-1-A-5 (6)

Got up at 9^{am}

I typed the Te. ltr for Bert Tapp -
The t. ltr & afternoon card worked
fine on the electrical outlet in

At 10^{am} I went to my old apt -
th. the Story bus to ~~the~~ & walked

broom from Mrs. Heitmer [✓] - cleaned
the apt thoroughly, washing ~~stoves~~
& ~~refrig.~~ & stove & sweeping floors -
at 2^{pm} I had time to go to the Hayes
St. cop to get a car & find out
not much was available - could
11[✓] called her & had a health
talk w/ her, telling her about my
move 11

cleaning until 5^{pm} - packed up many
items which I had left behind at 5^{pm}

(over) C-1-A-5 (7)

Saw Mrs. Heitmeier & gave her my
new address - paid her at a daily
rate for 3 days rent = \$14.01 - etc.
Told me the cleaning dep. was \$15.00 -
the owner had to supply a receipt &
it wd be sent to me if we left
with a tip

Stopped at The Tea & showed the room
to Dick Tracy who was in the
line up - there was going to be an
ev. serv & Terry Catter was in the
of waiting to receive & record a call
from J

My key to the bldg wouldn't work -
last night & then another tenant let me
in but a woman from the off came out
& helped me - she sd her name
was Ruth & she was very pleasant

I prep'd a meal, etc. - in the
kitchen

It didn't turn up in the night

C-1-A-5 (8)

Up at 6⁰⁰ - encountered some difficulty finding what I needed to get the apt. put cups & lunch & dress, but left the apt close to 7³⁰ & was at work on time

Dor had done some more work on her apt over the weekend but was not up to date yet - Betty needed them for a meeting & was disappointed that Dor did not have last week's - she took some papers & put Brenda at them which disturbed Dor - actually Brenda had problems arriving at the meeting & was not through by noon. She showed in - all of us were at the machines all day, I was busy at ATS & Jan May Co - I found in 6 hrs an another deposit in a U.S. vs. Best award case. Had time to make only a few

as consid new meter - they inquired
whether they cd have a print-out
in the morn, but Dor was not
in a mood to wk late - they
later left w/ that tom morn.

I had seen Vile Sorshella when I left the city in the morning - she had been waiting for a ride to the Te w/ Bob Houston, who didn't come - I told her I'd drop in & see her aft wh - she shows an apt w/ Rocky Breidenbach⁵ - the apt was filled w/ plants - bromads, almost all of which are Rocky's - Vile says she keeps bringing in more, incl. plants - she had photo of her family displayed - I asked V. how she got money to buy so much, as communal members are not supd to have priv. funds etc. an B of a mo. - V. didn't know - in addition to the disorder in which she lives, Vile is handicapped by lack of transp. - The person who usually gives her a ride is on the Te trip - she has been going for treatm to Legume House & she had no way to go to the Te to eat so was making her some pan cakes - Rocky had borrowed a Te car but

(cont)

5 Oct - T-2
had to rest it

I prepared my dinner, ate &
washed dishes

I put away almost 2 c. things
in the kitchen, working until 11 or

12 noon until 11 or - it was
so tired I didn't even make
sambas but drank quantities of
water, as it was very hot in the apt.

Then went to bed

C-1-A-5 (14)

6 Oct - W

Dor gave me no work to do today - she spent most of the day on the computer here, working on 2 items which she considered too difficult for her & me - one was another litigation report - Butler has decided on another format which had to be which, but in addition, the copy was difficult to write from - the other item was a table of contents to the Jersey meter contract, which Halbraith wanted in an unusual & time-consuming form - either of these items she could have shown us how to do, but Dor has a tendency not to delegate, which Mary did have on 11/15 just prior to the time

Dor told me Jim Cronin, who used to be responsible for the litigation report was unhappy because it has been taken over by the legal dept, who are having so much trouble establishing a suitable format

(-1-A-5 (15))

I may buy a floor lamp & a half-size mattress for the apt. I got advice from others as to where I might find the former - & now, after eating my lunch at my desk, I walked up to 3rd St. where I told Walter that there were some second-hand furniture stores, but I find they had only office furniture. - I was told, however, of a lighting equipment store on Mission Street at 17th - He offered to help me bring a lamp home if I found what I wanted, as she has a car.

When I got home this evening I washed & mended my dress - started out to go for dinner & the Hair night thing - I got a ride w/ Tom Cartack who then brot. Chris Rice down to stay w/ Eric's boss who is ill - when we arrived at the TC I find that almost everyone had left for the Democratic rally & the time couldn't watch the Ford-Carter political debate.

I was given a plate of macaroni salad, cauliflower, & potatoes, but I had already eaten as a Communion member.

Got a ride w/ these Janans, who w/ several others had driven down from the Valley to the rally.

goodlooking; I may not be intel but I
do know I can work in the book biz -
time is coming when it would be safe to be
bl in this city - minorities don't last down
through hist. - they are wiped out - some
of you are going to get shit on & be left to
die on the desert (apparently juv. in LA)

Mike Costello at another opening

Marcy on podium (about 10:45)

ducing her to Rosslyn Carter who intro-
duced her to Jimmy

7 Oct - Th

I had no work again today

Finished all final entries including
the one for W, - it took quite a while
long

Mary & I had a conversation about
Doris keeping us unoccupied & not
passing time along - I have had 2
entire days to be changed on my time
as admin. overhead - Mary is
that it was unfair that she had to do
all the lit. pts, as they are tedious -
Mary when unhappy, just gets moody
& then angry

Took lunch at my desk - went to the
bank - I intended to cash a check
for pers needs & give my salary
check to the Te that I forgot & deposited
it - I went to the post for more
change of address cds

In the aft I wrote a memo - to
Betty on Doris's condition & what habits -
I told Betty I seemed for her mental
stabil - I worked the memo copy -

(over) C-1-A-5 (19)

told Mary that I had written a memo to Betty on the off site but did not show it to her. One of my motives is that when Betty sees my time card tom, she is likely to notice that I had 30 hrs of admin. work.

A few mins aft I showed the memo to Betty, Dor th in to show her the letter lit. aft the off had read - she wanted to show Betty how sloppy the meter was.

I have noted or overheard remarks of sev others in the dept concerning Dor's unreasonable beh - she reacts to unusual requests in an uncompromising way which offends people.

Dor asked me to take the forms for the United Way, for which she is one of the commissioners, to the people on her list.

I did my laundry in the washer & dryer in the basement of the apt house.

Prepared & ate some food & washed the dishes.

Out outside on the P & E steps
As wk I tore up some packing boxes to throw down the garbage shoot

Went to the Te by bus about 6⁴⁵ - dinner had not been served yet, as the Te was fumigated today

I th upstairs my wk's pay to give to Terry Carter - She wasn't in the off, & Carolyn Layton sd she wd give it to her - sev. people were counseling Kawal Lawrence - I also did the last gnd section for Tim Stren - I talked w/ Carolyn about the gnd - she cramed me the mss.

When I went downstairs, food was being served - Joyce Ruzgater told me of her diffie in getting some plates to take to some ailing members at the Herman St. communal - some child in the line were noisy & she tried to curb them

The serv began about 7⁴⁵ - Dave Harrison & Wesley Johnson presiding

There was so much disorder & noise that Leora Calkin from the podium had to address the congreg. & insist on an attit. of reverence - she decided to seat child. w/ adults - I had 2 child. beside me

The child were allowed to come to the platform to sing

Tom Adams in the afternoon - he told how Bob Stroud was saved from fire while welding

Dor gave both Mary & me a
pro forma contract from Rita
w/ annotated sections which by an
"edit" command can be excluded
from the print-out - Mary had
done some of this annotation
previously, but it was my first
effort w/ it - Dor is quite proud
of the proced. which she says
she adapted for the depts' needs
from the basic instrns - the 2
docs needed revisions which
involved set d/types of annotated
entries, as well as the usual
type of revisions - I did on this
doc 5 hrs before apt lunch - I
then had about an hr's work on a
revision of a ^{short} Holbreath doc.

Had very little time to do on final
entries - did yester's entry

At luncheon I went to see a film
in the energy series, called "The Road

a Tefco film which showed
various aspects of the oil industry, the
main effort being directed to telling
the viewer how expensive it is to
search for oil & that environmental
considerations are always in the
co's mind - ate my lunch in the
assembly room

I intended to go home for a few
mins by going on to the Tea Con, but
it was well that I didn't - the
family had arrived from the trip
in the morn. - large nos were
in the dining room & food serv.
started about 5:45 - the meal was
very good

It seemed that papers listing
our pers needs were to be

like V. she is rather talkative &
thing of her things & perhaps other
needs might be time - consuming,
but I would have found it hard to
refuse her, esp. as she & Ray had
been good to me when I was new

trouble w/ Rocky - R. had been rude

Revelations were dramatic.
The mtg ended about 4³⁰-

We had dinner downstairs

We left LA at 6⁰⁰

Ind. Radio in Amer

About an hr or so out of LA the buses came to a halt & we heard over the inter-com concerning an accident that had occurred - police were mentioned & Jo's voice came over, asking someone if he was hurt - we learned that someone had thrown a thing into the windshield of the lead (Jim's) bus

The police had come; the buses went on their way after reporting the incident - some had been slightly injured by shattered glass but I had hospitalization was not nec.

I stay

When we had a short stop at Button Willow, everyone was allowed to ill at the bus - the missile thrown had not made a hole & was apparently not a bullet but had hit the glass w/ terrific impact - I saw Mike Prokes, the driver & Karen Layton, who had been cut w/ glass, got it in their eyes & swallowed

us later that his son Steve had also
been struck by the glass but was also all
right) - I had been standing in Mike
but had moved a few mins before

I had Viola motor as a seat partner,
again - she told me all about a son
who plays in the movies & whom she
saw in L.A. - however, she stopped
talking after a while & I had a comfortable

Went to the Te in the bus - I knew that the members who weren't working had gone to the Demo rally for handles at noon - I had the impression there would be a communal mtg - I was late for dinner & they were out of

I went to the audit, where in the back the "needs" procedure was taken care of - the individ. fills out forms & submits it to his or her counselor listing the items desired w/ estimated cost - on W night the money will be provided - receipts must be ret'd - a separate form is filled out for food items, which are furnished from kitchen supplies - Vernell Henderson is my counselor & she showed me how to make out the forms

back as the US had not kept its word to
stop terrorist attacks - the U.S. had threaten-
ed "Bum & was told, "Don't threaten us" -
144 m. we die in the first strike of a

p.l. - we will buy another freighter - we
are moving from a big to a small air-
plane - a freighter can move 200 people
|| we need a mobile machine & restaurant
equipt. ||

I estimated 500 people will go to the p.l. -
we have 300 communal people.

We need at least 10 Toyota station wagons -
we need to raise \$550,000 - when we
have it we will sell the ch & apt. flings

cover equipm - we ought to do everything
in our power to get what we need
