Took at 745 - got up at 5³⁰ as I was unable to get to sleep again - Bates got up too

I was a little concerned how Jo's statement about cutting back expenses would affect us, partic' whether our needs money would be cut back as had been mentioned carbon
gas - I don't know what people will do about their laundry; & in my case, I doubt whether my wash will be approved as Dr. Bates, it is likely that we won't be receiving more eggs in our diet - I advise her however to talk to Dr. Kies about the diet prescribed by her doctor

If I prepared the beans just like I did & then I fried them - we had grapefruit & beans - gave Bates an egg & I ate some of the beans

I packed clothes for the next 2 who were down for dinner - the menu was the same as yesterday

I went out to buy a few maps

I had intended to walk in my girl but didn't feel very well, so I took a map until time to take the bus to the Tx, as did Bates

The bus left for the Tx around 9 or 10 started at 5⁰⁰ - the minister had

Clothes bag boarding the bus

My seat was occupied on bus 12 - as Irene Mason, a person who is blind, had got on the wrong bus, I was changed to bus no 10 - I specified that I not sit in one of the seats ~~against~~ the wall, as the backs do not let down, & I explained I needed to sleep for about two hours.

The buses left at about 4 or

Ira Lower Radcliffe as long as there was light - we went by route 5 - there was snow on the Upperville, quite heavy on the northern side.

Then I tried to find my seat back, the mechanism would not work & I didn't sleep any before the stop at B.W.

The bus offering was taken w/a good deal of earnestness. One of the Hecks sisters was hostess - this bus carried a mixed crowd of pros & others incl. child., & they were as cantankerous as those on bus 12.

At the stop I helped Irene to come to the bathroom, as no one else was assigned or volunteered - Vida Godshalk was being helped by Ray - she always gets permission

you would like to stay here if Ray is not going - we agreed that people shall be assigned to help the handicapped - but the nurses are so busy that they have not had time to take care of all details.

As my seat could not be fixed I was changed to another seat low the back - beside me was a young man who was ill & was vomiting - the woman next to me resented having seats changed so often - she was fast & sprawled into my area - however I slept well until the next stop, which was at 11³⁰.

There I awoke - the night was not as cold as I thought was the I got a little chilly, not having anything but my coat to cover me.

I didn't sleep on the rest of the journey. We arrived at SF at 130 - bus 10 dropped people at 2 Commissioners & 21st the Te - people from 1029 Army came off other buses, & we were taken to our bldg - Bates had just got in - my suitcase had been unloaded - Bates and I talked about the disagreements of many of the ones - she told me of the arguments which had occurred just before I boarded bus 12. I went to bed at 3rd but it was 11³⁰ (C-2-A-5 (60))

Rester Marie Thor & her daughter came to do this morning, while Dr. who was at the ATS - the doctor said Marie's finger was not broken but he advised her not to use her hand for a few days. - she saw Betty who told her as the such Dr. in adv. or who can be found for her which did not recommend her to use her hand.

I did some work on my quilt.

Then Marie started to tell me about her sister who behaves in a deranged manner - she really seemed to need a more experienced person to listen to her & give her a little advice.

Dr. came over, obviously invited, but instead of saying our telling interpreted what we were telling us she now had assignments for us, she seemed to blame us for not working.

I reacted angrily as I had not been given any work to do & had not done anything at ATS since last Christmas - I had told F. quietly & tactfully asked for assignment to the ATS - she repeated what she has said before that all

Marc was back today, having moved yesterday - she had to do it by herself, as her brother left for China the day before, & she was very tired.

I made corrections & additions to yesterday's work on ATS for Schuman & Galliher - did a memo for Maggie on my CD.

Dor was in a relatively good humor, tho we exchanged a few harsh words on the subj. of the personnel of Tokyo Rose.

Dor was working on the Cushing contract, a major effort which came in piecemeal, a which was needed as soon as possible.

During my lunch hr I walked up to the firm where I lost my tw & got a t.w. written - the T gave me money for it.

The sun was out & the temp. was much warmer.

24 Jan - M

There was out all morn. waiting
for her telephone to be installed - she
then learned that it could not be done
today - she was in a very depressed
mood.

I worked all day on the file list for
the statistical manual

I scarcely had time to finish yesterday's
print entry & fill in meter on a few
old ones

Ate lunch inside

Went directly to the station & ate
dinner - all the children were eating
early

Saw Washington Sanders who had
had his dinner at pamphletting -
didn't know how he was going to
get home - I took him w/me on
my bus, on which he can ride free
because he has a cane showing
that he is blind - he has some
vision - when I used to take him
home to Oak St I didn't realize

(over)

I washed my new dress, 2
shirts & tops in Wool Soam &
hung them over the bathtub

The depts. resumed its reg. mtgs this morn. w/ a prog devoted to a disc of Alyeska - William Sanders of the Pipeline Div. showed some magnificient slides & described the project which is almost completed - emphasis was put upon the litigation which has resulted involving Bechtel, particular stages of faking x-raying of the pipe welding - types & doughnuts were served - the mtg was from 8:30 to 10:00

I finished the Major work I had been doing on the Secretarial Manual

Mare had a rush contract to do for Deenel but the system kept going down, so she & Mare spent most of the day talking - Mare cont'd to give her views about "Rots," obviously uneasy because it portrays whites in such a bad light -

Mare has been very conciliatory since she got her raise & in

(over)

C-2A-5(122)

nothing contradictory - she has not been watching the proj. - nor cd have been working on her records but didn't

Td lunch a film on a cruise and so Grier was to be shown in the employee film series but it turned out to be So Amer., because of a typographical error - it was called "Leisure Cruise" & devoted a good deal of film to ship board luxuries but there were interesting shots of many So. Amer. countries - ate my lunch in the assembly room.

Got off a clear copy of the Scholman. note, & showed it to Betty Vail. Typed up index cards the rest of the day.

Dor & I had further conversation on the hist of slavery, much of it erroneous - I think

Ind that I have lost my train pass - must have dropped it on the bus this morn. - had to pay a quarter ten -

26 Jan - W

I managed to do only yester' girl entry - Betty Vasil took back the wh I had done on the Secretaries w/ some additions she wanted made - w/ her's help I figured out how to put them in - then Maggie took me back a doc I had put in Dog Col on which she wanted changes - I started on this

At luncheon the Blacked Women for Affirmative Action presented Dorothy Kuhmin of Western Women's Bank for a short visit speaking on "A voice for Women" - I did not hear her say - she spoke briefly & then ans'd questions

After lunch Maggie dictated to me a few minutes. I made some changes in a doc I had done for her previously - I think on these until 11 V dor was in a good mood - she had been much mollified by reading that the story of "Ruth" was fictional - she obviously did not wish to consider

a cultured mind - she said not

suggested that I give my opinion. So
I presented my ideas concerning the

more civilized dark people - she

least seemed to //

closing time & was not able to finish

It can hardly nothing to do all day -
Two new pieces of wh come in but
don't like either hers, first because
she that they presented particular difficulties

26 Jan - W-2

I was asked to go upstairs to the nurses' quarters to speak to Joyce Parks - she needs some help in a four-week course she is taking for her master's degree - among other requirements she must write four short papers on a topic in the field of birth control - she is trying to recruit four people to write a paper each - the papers are due on 28 Feb - she outlined the topics - I told her I would try to write one on the legalization of lecture.

11/2 - Dale Parker provided info having been in LA conducting services over the weekend

Mary gave a message from Father to the child - be good & gentle - be helpful & cooperative - set an example of poes - treat each other kindly - in the end every one is resp. for their own actions - Mary asked the adults for counsel of child who are trying to improve, and of reacting negatively to child - who have become labeled as trouble makers

that we wd have dinner ton night

Dale & Johnny Brown asked for
volunteers to go to the Housing Commission
meeting ton at 10⁰⁰, at which J will be
present - very few responded - after con-
siderable pressure was exerted, more
were obtained - drivers had to be
recruited as a bus driver may not
be available

A revelation from J concerning Blanche
Washington was given by Dale, other Blanche
had left the meeting earlier - J told many

details from her past & saved her from a stroke - Dick said he was going to try to get the msg to her

The meeting was dismissed at 12⁰⁰ - The bus took home the people from Divisadero as well as Henry & we didn't arr. home until nearly 1⁰⁰

As we will have a meeting Tom & I for LA after the meeting F. J. decided to do my laundry ton, so I put the clothes in the washer & dryer while I read the paper - after sorting them I did not get to bed until 3 or

11⁰⁰ coming to the Ta - she was living in Phil. & was very ill

C-2 A-5 (129)

27 Jan - Th

Finished the 2 items for Maggie
which I had on my CD
Then I made the desired changes in
the secret'l trans meter & printed out
a copy for Betty Vasil - filled in one
word copy the line nos of the cards
so that they can be fed into the
computer

Marc phoned in sick as she said
she was going to bed night - her wisdom
tooth is giving her trouble - she is also
expecting the telephone installer to
come.

Weinberger's off but some more of the
secret'l meter for retyping - it had
been corrected by the orig sptor but
was still full of grammatical & typewriter
graphical errors - Don't like it,
complaining constantly of the state of the
meter - Dale finally decided to make
substantial changes to make the text
conform to standard English

~~Date lunch made~~

Went to the stationery store & got
a card for Dorothy's (my sister) birth-
day & for Marc's - both were born
on the 3rd of Feb

(over)

C-2A-5 (130)

I wrote a note on Dor's card &
addressed it

I finished some girl entries from
See which have not been done

I telephoned ^{Ken White?} a man in Public Rel
who is in charge of video tape - I
inquired about the possibl. of renting
a machine to transfer my 16mm films
to videotape - he gave me the names
of 2 firms which could either make
videotapes or make a copy of a film

I did a girl card for some
time

To the Te bus to the Te ton &
had dinner

I had ride & went to the Housing
Com. mtg, which many of our people
attended & Carter Chastain who came
back by air w/ J. gave us an acc of
the mtg - many complaints were
brought from tenants of J's housing -
the other Commissioners wd always
want to refer the matter for investig.
or defer for a later hearing - J wd
insist on dealing w/ it now

Judy X Joe Pikes opened the

meeting - I didn't learn where the
ast ministers were - by other arrival
later - attendance was very sparse
Two offings were taken

I entered at 8²⁵ - he chided those
who had not gone on the trip because
of their fear of cold weather - nobody
had been sick except one woman who
didn't follow instructions to jog - the buses
had got through when vehicles all
around were stranded

The buses went on to Houston while
I & those who had to who ret'd to ST
by air - I was loving time for Houston
to hold services there - mother was to
be in LA over the weekend

Peter Chastain came back to us on
the way

I told how bad the racism is in the
East - for instance, the black newscasters
have disappeared from the TV prgs -
in Chic the child are the only ones of such an
hr early so that they can get home
bef. the whites, who I might have them,
are out - a th called The Hoax of
the 20th Century, which denies that
Jews were killed in the concentration
camps, is selling like wildfire in the

end

I spoke on the ethics of blacks for
"Roots" - we can't effect anything helpful
to come out of a big TV network - the
series will end as an affirmation of
the bl. offer in Amis, just wait &
see - it will be shown how foolish
it is to revolt - the author, Alex Haley,
is a sell-out - it the money to go
back to Africa to learn about his ancestors -
I isn't interested in where he come from -
Haley refused to commit him. As
McClellan & was killed, he wanted to be
immortal - the slave cabins like like
slavery housing.

I spoke on the dig. b/w the sentences
read by those who steal bread to feed
their families & the sentences given to
violators of anti-trust reg's. & wealthy
evaders of income tax.

I described the Housing law meeting
He expressed much disapproval of
some of the interests of our young members,
such records & so on - "All you talk
about is shit - we don't care, and
of yr mouths" - the day of retribution
is coming for those who take up prios."

At 10 PM the screen was set up &
the installment of "Roots" was shown -
in this episode the young daughter of

Kinte was punished for learning
to read - then fled using a faked pass
given to her by her White mistress she
was sold to another owner who raped
her - in the meantime her slave fiance
had tried to escape, was dragged back &
beaten - the only comment I made was
that the master did not see the beating

I made out my time cd

X Bob O'Neil is ill & Hart had sent his shorthand notes to Betty Vail to find someone to decipher them (Hart doesn't deal directly w/ her); she is aware of his unfriendly feelings & reciprocates them - there is no love lost b/w them) - she inquired whether I'd do it - tho it took me some time I transcribed them, etc. for a few wds which Hart filled in, took at th a long time - there were two memo, fortunately rather short

Dor & Marc had on more notes from the seminar

At lunch time I heard a lecture by Harold Wong, a Bechtel engr., on "Industrial Proj. in the People's

C-2 A-5(135)

Republic of China' - he showed slides
of an exp. mission he had been
on - he interspersed scenic views
w/ shots of machinery & factories -
even the latter were interesting - I
was a little late & I had to stand
against the wall

In the aft I had to type on the
typewriter for Garbo's unit - Garbo had
done part of it

There was transcribing notes of
telephone conversations, which Jim Hertz
records, on labor relations cases, &
the food there very diff'rent - Dan & I
both felt we had had some "oddball"
assignments today

I did not have any time for any
purs. wh at all

On the way home I stopped &
bought some chicken backs - if I had
had my pens I prob. would have gone
to the Fa to eat, then come home,
as I didn't want to go to the serv. -
instead I broiled the chicken backs
& cooked some zucchini

The meeting was over at 3¹⁵
I intended to go home directly, so as
not to have the Trifle I had last wh,
but Dr. Helen Lowe persuaded me to
stay & eat - she was going home after-
wards & not returning as she didn't want
to see "Roots" - we got seats at the
smallest table but space was extremely
limited & I gave my seat to Lucille
Boyley - there was no idea of
when we might be served so I
decided to go home at all.

I was delayed further because
Verdelle Duncan sd her husband was
coming for her & wd give me a ride -
however, something went wrong & he
didn't come - Verdelle told me Mom
Taylor sd food was being served to

Mary the a quick offering - she gave J's revelations

None of us had much wh to do

part of the day doing a meg questionnaire.
I typed some more index cards for
my grad use.

Wintergerd sent an amendment and
making some new appointments - Galbraith
was typed over Butter as Litigation &
Legislative Counsel & Virginia Blenner,
who was brot in by Wintergerd, was made
Admin. & Manager, off of the dept - there
was much disappointment expressed by
Butter's staff, plus the unhappiness of
many of the secretaries as a result of the
crowding resulting from the remodeling -
I wondered if Betty Vassil's position
was affected by Virginia's assignm -
I had never talked this over w/ Betty
