a fairly good crowd - the meeting was  
quite short - it was out at 1<sup>00</sup>

hot

The opera "Don Carlos" by Giuseppe  
Verdi was being presented on the

went to sleep

Had mt wr in the morning - had time to do scr for tanks

Last night June Cym called me saying Te rec'd a call from Kaiser from a woman named Fran Lyon who inquired about ins. in connection w/an accident - it was a puzzle as I rec'd no accident & we didn't know how Kaiser got the Te nr. to call me - I phoned Mrs. Lyon - she had no record of my name in such a connec - twin - she bldnk the teleph operator must have misunderstood the name

I made out my needs slip

I made my rounds for the United Way, buying cds for the people on my list

I phoned Marc - she has a job w/a real estate co where her dad works - she was in a good mood tho' still in pain from Whiplash - she is distressed about a scar on her face, but it may fade - Deb Bowen had flown home - she expects to be in the off. in a wh or 2 - Marc was unhappy because she had not called her - I told her there was no sign of a replacement for her as yet

I ate lunch at my desk

(over) C-3-A-5 (8)

It'd a little in final entries but  
made lit. prog

Horna Bondoc, who has been  
Philippe Lamy's secretary, had gone to the

may be having trouble w/her husband

My elbow is still causing me  
some pain

ate lunch outside

Went to the off supplies cat & got

William Head - the writer inminated  
the Te was resp. or part. evend murderer  
Head & profited from his death, a  
charge originated by Gen West

After finishing the Th, I attended  
the rest of the serv - a film on  
Leonid Brezhnev was shown w/scenes  
from Russian hist through which he  
has lived

Wanda has been getting our pers.  
supplies, which are blundered out  
at serv or W by Ollie Smith - she  
was the only one of the Widemanns who  
stayed in the ch, having married  
a Fe member - but she seems to  
have the bad disposition of the other  
Widemanns - I waited downstairs for  
her for half an hr - I then found her  
practicing songs (like the other Widemanns  
she has a good voice) & she let me  
know she would come when she felt like  
it - she was very rude when she  
did come - I was tired & didn't  
like to go out to the bus stop alone

(an elderly woman's purse was pinched  
the other day in broad daylight &  
her skull broken when she fell on  
the concrete - she died) - Vernell Hen-  
derson witnessed Ollie's behavior, but  
she'd had it better to put up w/ frustra-  
tions during this interim period - she  
thinks I handle home - I understand  
why Grande doesn't like to try to get  
supplies from Ollie - I hear now bath  
soaps - enough for all six of us - &  
laundry soap

Bates used to tell me of Rockie's  
Brendonbeck's longing to find a man,  
usually someone much younger than  
she is - she was continually w/ one  
man or another - I rarely noticed  
them - now, accrd. to Gibbs, she has  
a ff man named Roosevelt Turner  
says she is going to marry him - ~~she was  
set to be w/ her son; but again I did  
not notice him~~

I slept until 8 at

Phone'd Dor that I was not  
coming in, that I was going to see  
the Doctor at Kaiser about my sore  
elbow

Lor had mentioned last night  
that someone had eaten her last  
egg - she thought it was Estelle - When  
I think about it I was convinced that  
mine would have been taken too -  
I had 2 which I intended to eat  
for Sas breakfast eats - somebody had  
been using my toothpaste when I left  
it in the bathroom, & I had to bring  
it to my bedroom - soap which Wanda  
continually put in the bathroom was as  
continually taken away

This morning I made my displeasure  
evident about losing the eggs, which  
were indeed gone. I tell ~~her~~ that  
Estelle had indeed eaten them - she  
is said to have 2 for breakfast every  
day - I amied my plan to eat some  
of the meat I am ~~sure~~ <sup>sure</sup> she has in  
the freezing compartment of the refrig-  
erator - I think it would be a good  
idea to have a meeting of Estelle, Lor, Va  
& I & discuss other people's food &  
the common supplies, such as soap  
(Wanda doesn't eat in the apartment)

(over) C-3-A-5 (13)

spends little time in the kitchen, so I didn't intend to visit her) - the meeting never went on, as I did not find a time when we would all be in the apt - Ethel said she would bring me a half dozen eggs "to keep the peace" but I intended to speak to Estelle about taking others' food - Lat has told me how others take her food - etc & Judy Merriman are the worst - few calls taking or begging others' food "swaying" & had contempt for the practice which is very widespread in the communes.

I went to Kaiser about 9<sup>30</sup> & saw an orthopedist - he had X-rays taken & diagnosed bursitis. I think it may have been caused by my slipping on the dining room floor at the TA one day where somebody had spilled soup & I had thought I was not hurt - the injury may have been aggravated by the heavy typing job at the TA for Betty Peil & the typing I did at the TA where the chair & typing stand were not the correct height - the doctor Anton L. Reliaf gave me a choice of treatments - I decided on a prescription of indomycin.

Went to the Te for breakfast & to see

many were there for breakfast because  
most members were going to a rally  
on the Bakke decision at a party  
in Oakland - arranged to see Laurie too

I went to the Haight Community  
Food Store - but I smell and of  
vegs & fruit - I needed less than  
usual as I will be going to wh only  
one day next wh - pushing my  
cart home, I thought my arm was  
better

From our apt., Wanda, Ette & Virg.  
went to the rally - Lar stayed home  
I had a sandwich

I called Lar - told her I was trying  
to pick up my books next wh - Dick  
thinks the Te can send them to me  
for me - Lar told me of a S.F. Examiner  
story last night on the stolen custody  
case - Lar read some of the article  
to me - her attit has been influenced  
by such stories describing protracted

hard cards at our mission & inciting  
fear of the leaders - she is afraid  
for me to go

I th' a nap in Virg's room so as  
not to be disturbed by Lat getting  
up & down

The others come home - I had  
thought those who went to the rally  
were going to have a picnic but they  
didn't - sandwiches were distributed  
to them - the rally drew a big  
crowd, up to 5000, sponsored by several  
orgs incl the Te - There were several  
speakers

I prepared my dinner: fried chicken,  
bread & gravy, salad

Went to the Te serv - I spoke to  
us from Longview - the transmission was  
poor, & I heard only a little

Not messages from Laurie - she wants  
a letter to the Fam editor on yesterday's  
article - we discussed details

I was late getting to the bus stop &

the guests came in at 12:30 after the  
funeral pt of the serv.  
Bryce Heriot, a black who is an  
expert on African nations was the  
only guest who spoke - he made a

didn't speak & were not introduced.  
They were shown slides of the funeral  
at the serv.

The serv. was open today to  
relatives & friends of members - Dr.

I went home at 2:30 - Ede &  
Loren were there too.

I prepared & ate for dinner:  
broiled chicken, salad, corn on the  
cob, and beans - dinner not bad.  
and slept on Virginia's bed. D. avoided  
being disturbed by me - I slept on  
bed & a half.

I dropped in & typed at the office in the  
Stevens case, then sleep, took along an  
article in the Chronicle, concentrating  
on what we are doing educationally  
in Guyana.

Ate a piece of grapefruit

Lou, etc., Virginia & Wanda all  
slept until about the same time. Wanda  
is off today in acc't of Columbus Day -  
Vir. went to the Te - the others, incl.  
Wanda, got nothing to eat in the kitchen -  
I waited until the others were through

Laurie had given me a book of her  
people mentioned in People's Forum &  
when I was to write this up supposed  
had almost finished one when she

Went to WH today because I didn't want to miss the department meeting - it was at 9 am - There was a film on the United Way, the one that was shown to US commissioners. - Mike Conheim of Data Processing gave a survey on the operation of Word One - it was too technical for those unknowledgeable about text editing & presented nothing new to those who didn't already know it. Nothing was said about computer plans for the City Dept. in later Census. told me it was planned to hire a man as supervisor - she that park she worked introduced today but she wants to know how this change will affect my status. I made out my needs last

but a little bit on my entries.

D. Conheim's film called "Oscar Heritage" was shown - it was about Newfoundland & Labrador

I made the rounds of those on my United Way list who hadn't

few more.  
I did a little more work and  
dragged for Butter.  
I put in my time and to cover the  
weekend  
now had to go to the Tabloid.  
At home I prepared  
and did my grocery entries for an  
hour or so.  
On naps in bed.  
I had an afternoon off last week  
Mother had her table w/ Virginian  
she doesn't like a place where  
you have to pay the light & my  
radio on in the evenings - most  
times in order not to disturb her.  
I have sat on a porch chair in  
the kitchen, but I decided I could  
add to some comfort - she has  
the entire day to sleep. I told her  
my idea.

to the Height Committee. Dood there &  
bought a small amount of veg. & fruit

Pushed my cart home - the sun  
had come out & it was warm

In the park down Eddy & Turk's a  
big bunch of men's clothing had been  
dumped - I looked through it - mostly  
it consisted of socks & neckties of  
very good quality - The socks looked as  
if they would fit me & I found 2 shirts  
which I can also wear - I sorted out  
most of what is usable & threw the rest away -  
earlier on the street I had found a pair  
of men's moccasins, in good shape

Had a cheese sandwich & a  
tomato for lunch

Slept about an hr & a half  
for dinner fried some chicken  
liver, ate w/ whole grain rice &  
a big salad

Lar got up at 7<sup>15</sup> & prepared her  
breakfast - we went to the Te Deum.  
I got up at 8<sup>00</sup> - had grapefruit,  
pancakes, an egg, & sausage.  
Wanda had told me previously  
that she & June Clegg are on at com.  
which is starting to take breaking  
affidavits again & nothing done on  
them since Phyllis Chalker's &  
Jennie Cook a little later - I can't  
type them as I did before - Wanda gave  
me some this morning, mostly old  
ones which needed corrections -  
the new ones are not well written,  
as no one yet knows how to put  
them in good form.

The morning sun was uneventful  
& rather short - Korni conducted it  
to the second spring, saying that  
contribs were down & we needed  
more funds for both the needs here  
& in Guy.

Only a few people came from L.A. -  
Roy Tashjian didn't come up - Wanda  
had a letter from him - he says  
it is planned to send a bus to  
L.A. only every 2 weeks now

After the show was over about 2 or 3  
I went home to eat - Leo came too -  
Estelle & Volyshe arrived later - Leo ate  
his dinner quickly & lay down  
I had red steak & Cauliflower

I slept for an hr & a half

I pressed the ties I had found  
yesterday & took them to the Te, gave them  
to Norm - had earlier given him  
the messiness I had found

Bettie & McLean let me use the IBM  
L.W. I had given to the Te & had used  
previously when I was typing the heating  
accounts - the accounting off has been  
carried very tastefully

I think on the accounts throughout the  
show etc when I spoke to us on the  
radio - he said the young people were  
having a dance at the moment - for  
dinner the menu had been frog  
legs, sweet potatoes, & etc - the  
people were now at the museum -  
songs being taught were Spanish, Portugese & Chin - 63 more housing  
units had been completed, furn. was  
being made - an inflat. of 4 guests  
was effected

I didn't get home until 9:30 (show  
had ended about 9:00) & Leo was already  
in bed - I sat in the kitchen -

Went back to the office today  
Barbara Vas had jury duty  
& asked if I would sit at her desk  
& handle her work - she is Robert  
Galbreath's secretary - he had given  
her a good deal of typing which  
I did on the May A few from his

She returned shortly by noon

the jury but has to go back tomorrow.  
I supposed that a new super-

I sat at Barbara's desk again this morn. - Galbreath gave me some more typing which kept me busy into the aft. Barbara ret'd by noon & was finished w/her obligation.

At luncheon time I walked up to Stacey's & got the bk I had ordered through them, - The Rise of the Colored Races by Keith Ervine - Dor sent me a library copy of the bk, but I presume I shall have to get it to her - the bk cost me \$10.65 w/tax.

notes in the affidavits which were not complete had been filled in last night by the other workers but only was in proper order to type up - finished typing this & taking on it through the first pt of the Jserv

Shortly after I came in, Sandy Bradshaw (Dixie), who had just returned from Bay, told us enthusiastically about the mission she mentioned in particular the housing which is painted all colors, the healing of Bobby Stroud's hand which had been cut off & the healing of another whose head was struck by a stone causing the spinal fluid to drain off; that 17 young women were pregnant & that no medical pregnancies would deserve now.

A talk made from a broadcast of it was played - it was about an hour long & he described the mission in detail, spoke of various people of all ages who passed him (some spoke on the radio), exhorted us to greater efforts to raise money, remarkable on the deeds of our enemies

News he told us of individuals: Dixie (the girl) is teaching this, is very cooperative; Sally Carmell lost 30 lbs; Jim Pugh is planting in the veg garden; Edith Boone lost 26 lbs; Mike Prokes is eating

Other matters of which I spoke: no one is permitted to make fun of another's appearance nor handicaps; there are twice - weekly meetings unless the emphasis then formerly; Guy gives first aid to all who desire it; the mission gave Venay who was in need of a special drug - aft seat has of course, all the states, we were able to obtain

it, winning many funds; he gave more details of the accidents mentioned by Sandy, saying both occurred because of negative influences; all the children who suffered nervous conditions in the States have overcome them; as J. had mentioned previously, our people had not lost w/ & suffered strokes, but J. has healed them; everyone has a check-up every 2 yrs. & a thorough med. exam every 2 mos.; J. requested us not to send cosmetics nor candies to relatives or friends in Guy, send useful items such as sheets which we all can use; everyone participates in decisions about governing the community.

Mother is coming back after performing a task for the Te I (the tape was made in early Oct.)

securing the print-outs<sup>1</sup>, making typical  
additions to John Brainerd's patent <sup>1</sup> pts., &  
H.Y. & handling them II.  
messaging a doc to L.A. - also did a short
