Went to the TC for dinner - Stanley

when I finished my wh. at the end
of the hour I should get some money
from Debbie & buy what I need -
"transportation will be arranged from
the other side perh the first wh in

X I was late in getting home as the
regression that we had got home on time
by dark results in some delay

I put my clothes in the laundromat
did my exercises

did few chores

Washed my hair - I put color rinse
on but did not put my hair up

did my hand laundry

Old naps & had a snack

Went to bed about 12⁰⁰

11^{1/2} for Esther Lewis, her daughter (whose
name I do not know), & her son, Keith
Wade, are to be for my time - her Esther
has been working in the kitchen - she has a
familiar disposal situation, for a long time went often
to me, but lately she has been friendly //

given cards when one is getting ready to
go but I find a copy) - also told B.
I was prob. be living the first part of Jan in
case I don't see her by that

I phoned the Motor Vehicle Dept for a
change of address from per my drivers lic,
as we may wish to rent a car when

didn't eat at home, as I wanted to go
to the Nthpt Camp early - I had an ice
cream cone, hot fruit & veg juice
& butter-milk for my diet Feb starting
tom

Pressed clothes - everyone in the apt
was out or in bed

Judy came up - she sd Violet Godshalk
was sick w/a high fever but no color -
Judy talked a' time - she mentioned that
Flender Crawford, Harry Edwards' daughter
& companion of Ron Crawford, had kept the
TC w/ the baby - she had been a member
of the Council - I had heard that Harry
got down as far as Florida on his way
to Guy but then didn't board the plane
Judy also sd she seldom saw Wanda &
Malvin Johnson in ch but she had seen
Malvin driving a Cadillac around - Wanda
was also on the Council

I went down to see Violet - she had
aspirin & Judy had gotten her Vit. C

I did my hand laundry

Old mags - went to bed at 12⁰⁰

3 Dec - 5

Up at 8 or

Today started a week's diet in order to lose a few pounds - basically ^{don't} taking only fruit juices, buttermilk & fruit & in the morning I shall have some more solid food & some raw veg for lunch - This morning I had some hot cereal - even this was Pippin to prepare as Kanda who usually doesn't cook anything was in the kitchen w/ the rest of us

I went to the Height Comm. store about 11 or on Duni - but only a few items

On the way back I stopped at the Executive Motel on Grove. was thought to see about housing for Dor & Eddie - a double room with bath \$14.85 a night, a room w/o stove & ref for a while rate is \$68 or - only in that latter case would it be nec to make a reservation - I like it one of the rooms & it seemed okay - the location is fairly good - it is near a Hwy, St bus stop & only a block from Van Ness so that it be easy for me to reach

At home I boiled 2 eggs which had been cracked on the way w/o piece of toast

I th a veg for 2 hrs

(over) C-3A-7 (6)

Just aft I got up, Estelle came in -
she had come on the Te bus for the
weekend & is going back Sat night - I
told her I was sleeping in the room
& described the sit in the apt - Estelle
sd Jossie had no relatives that wd
take her in, that they had in fact
put her in a mental hosp. - she sd
the diff. about Jossie's passport is that
no record of her birth exists & she was
included in the census only in 1924 -
Estelle confirmed what Judy Morrison had
sd, that Jossie was a helper of Rev. Ike

I walked out on Hwy for Sat morn

Had some juice & buttermilk

Took some to the Te - to some mag
clippings to Laurie

Turned in my checks - Debbie told me
she & her mother, Lois Layton, were going
for Hwy on M - Terry Buford will come
back to take Debbie's place - I told
Debbie I was sched'd to follow sometime
in Jan & she gave me money to buy what
I needed - I thot people were given \$100
but she gave me \$150

I saw & talked w/ Beulah who was
up from L.A. - she sd she had heard

3 Dec - 5 - 2

asked twice whether she could get ready to go & she felt she had to put her things off because she is still trying to get the Soc Sec allowance for the child to which they are entitled because of their father's disability. - he is always drunk & I asked if she wanted to stay w/ me but she had other plans

The show consisted mostly of music - Sue Ellen Williams on the trumpet & Laurie on the piano did the Tschankovsky song but did not see the was to the band some rhythmic was played & several people danced

Marcy liked very much - she said that everyone had to get approval on the radio for any announcements for their dept, that Betty McLean had instructions to enforce this demand

Dennis Banks asked to use our blog for what Marcy that was to be a rally to raise funds for his defense but it turned out to be a rock concert to be held next 4th night - many profits id ensue & tom night we will disc how to handle them

1 The serv ended at 10^{or}
X Barbara Hoyer & Chris Kei th
1029 Henry people home

I rd a while in Estelle's room

Estelle spoke of the death of Earl
Poplin, Cream's husband, in L.A. -
Henry had told us about it in serv.
Cream, whose name was Alexander,
is the woman whose body was eaten
up by bone cancer as if by termites
whom I healed - she is very aggressive
& wants all her donations to the Te
known - she dresses very spectacularly -
Earl was blind & didn't get along
very well - they moved up to 51F.
but did not become communal -
Estelle sd she conducted the funeral
serv - Cream has Earl's ashes to take
w/ her to Calif.

I went to bed at 12¹⁵ - I wasn't
asleep yet when Judy came to ask help
in getting Julie's animals on her bed -
she is ~~is~~ crippled she can't get up

by hers & so heavy her eyes matter
can't help her - I went down &
helped them hold a chair steady for
her to hold while she pulled hers
up - I scolded Judy for the
impatient way she speaks to Julie -
Judy says she won't make any effort
for hers but Viola says, & Maggie,
that she can be greatly encouraged
by others' efforts.

I sleep in Estelle's room - she was in
the other bed

11/1 While waiting for a ride home talked to
Vernelle Duncan - she sd she was wanting
to go to Guy until her husband sold the bldg
they live in - then he wants to go to Guy
& explore the possibility of investing the money
there - he had put up \$15 or so pay the
fare to Guy & rd for the 2 child, so that
they can have a vacation time - I didn't
know how this unique approach wd affect
I now whether the Duncans have been encour-
aged or discouraged but I was not surprised
that straps has not been arranged yet for
the child.

4 Dec - Sat

Jessie got up & took a bath around 5⁰⁰ or 6 o'clock & from then on people were stirring around so I didn't get much more sleep.

I got up at 8⁰⁰ - took a bath - had some grapefruit juice, cheese & toast for breakfast - I am going to have s'thing substantial for breakfast every morn.

I had time to make a few notes for journal entries before going to the service.

Before service I gave my pay check to Debbie Blakey & she told me she & her mother, ^{like Layton} are going for Day on M - I took some newspaper clippings to Clarence.

In the service I didn't see Jessie - she & Virg have places in which they usually sit, & I did not look through - out the service.

There was a good-sized crowd in the service - Mary issued some instructions - among others: we are to stop using the expressions "nigger" & "honkey" about each other, even in a joking vein.

Wanda had a cold & stayed in bed all day - when I came home from the sew, about 2:30, she was worried about Jossie - a cousin but her some dinner I went to the fruit stand on Hyde & Geary & got some grapes.

Ate as salad, fruit juice & butter milk, for my lunch - day meal - Estelle came home to eat - she has been watching her diet & has lost much wt.

Estelle & Wanda discussed Jossie's passport probl - no record of where born was made & she wasn't included in the census until 1924 - Estelle suggested other acceptable sources of info, such as school records.

I th a nap for an hr & a half. Went to the eve sew at 6:30. Visited w/ Lisa - she will get birth return in come from the town of Cas, Mich & also disch. from Sea Sec - asked what job she wanted to do in the mission, she wasn't sure, perhaps cannery & p.c. sewing in the kitchen.

Most of the eve sew was spent in making arrangements for the Berks' rock concert next Th - in addition to reg

seems pers, a list of volunteers was taken - I did not volunteer, as I have enough to do w/ my reg job - very tight & careful seem Bill had to be maintained because the Te might be set up for a case of law viol, partic if marijuana is brot on to our premises - there was disc about the age limit for attendance of our young people - it was decided that children w/ not be admitted under the age of 15, tho there will be baby sitters sews provided

The sew was out at 9:00 - those serving at the rock concert met in the Gold Room to get their assignments
Gone th us home in 2 loads - I was in the second

We learned that Jossie had helped in the kitchen throughout the morn. sew - she was happy at feeling her. useful & also hopeful because Jim Randolph had told her they were looking at her passport

I rode mops, drank some Sanka & had an apple while riding mops

I had trouble getting to sleep, partly because Virg got up a good deal - I definitely rd from 1:30 to 2:30

Doc Storker is out ill, but the new young man takes care of the work - I have decided to tell Doc of my plans before he gets around - Bob O'Neill learned because my papers were processed through Weinberger's office

Wrote my diet lunch at my desk - then

Looked at paperbacks to try to find a book like Taylor and see what he's doing - I finally bought Third Reich by John

(over) C-3A-7 (15)

Signed 2 papers for Betty Vasil
in connection w/ my resignation

Went to the Te. Hon. to give the third

the bk wd not be a good choice for
her mother (I suppose it wd recall
memories which are too horrifying), so
I tk it back w/ me

Wanda, who had been out all eve,
came home - she had apparently
been at the home of her cousin who
is living Tex - she had sev. pieces
of clothing which might fit Vir. left
by her cousin, + other items - Her cousin,
whose name I do not know, is non-
Communal

Wanda & Vir talked a good deal
until aft midnight + I had trouble getting
to sleep, as there is no solid wall between
their rm & Estelle's where I am sleeping
I did go to sleep about 12¹⁵

6 Dec - T

Jossie got up in a very bad mood this morning - she complained about the living quarters - "never had lived in such a dump," the fellow residents - "we call people like that negroes," hastily saying I was nice

* Results of the state bar exam are out - Wade Huff man didn't pass & was very down cast

I did most of the morn. on my final entries

* I got confused about the time, ate my diet lunch & went down to see the noon film - found that I was an hr early - I went again an hr later - it was "Sailing in Newfoundland," & showed a family w/ a small boat using the waterways & harbors of the Newfoundland coast

11/ I sent my change of address for my driver's lic

Called Trabs - she was in the midst of a tutoring session & did not like to

(over) C-3-A-7 (18)

be interrupted but I spoke to her for a few minutes - I told her that the Te had given me permission to resign from my job & wind up my affairs, I just wait for the first of Jan - her only resp was a sharp intake of breath - ad her & Eddie are both coming to SF for Christmas, I inquired whether it might not be pos for her to come - she ad no, it might be her last chance to spend Christmas w/ friends who is going to move elsewhere - she doesn't like her boss & has some good offers - she has a man friend, who is an envision - mental eng - has likes him - he is writing a bk & can go anywhere - Tague is in the first grade & doing remarkably well - when I mentioned to her that we might see each other soon again - she ad come to see me on a holiday trip, I thought her reaction was very cold

11/2 Dr H. is out again //

Spent a good part of the aft typing some articles for Steinberger which he is trying to sell to a mag - the left was a revision of typed versions which

had already been submitted once - they
were on pilot subjects

Wrote a letter to Eddie telling her
how & I can meet her at any time

Left when I dropped my basket
at home³ - then went to Safeway to
get more fruit juice & butter-milk
& some grapes

At the moment I opened the door I
perceived that someone had turned
the oven on for heat & left it on, tho'
no one was home - I turned it off &
opened windows!!

Went to the Tea to turn in my names
list - for some reason the bus was
delayed about 20 mins - saw Vernell
at the meals table - I told her about
the oven being left on because I tho't
Jossie did it - she said Jossie had been
very unhappy at the ch. today & that
she had told her she shouldn't come
when she didn't feel well

At home I learned it was Vera who
had left the oven on

took my butter-milk & juice
did my exercises

(over) C-3-A-7 (20)

Maudie came home & prepared her
dinner - The doctor said she must
eat 2400 calories a day, a high protein,
low carbohydrate diet, which she finds
diffic

When she was finished I prepared
lunch for two - Estelle had cleaned out
114 Miss Severus gave me a ride home &
she saw Terry Bilford has a wife from
N.Y. - Terry said I want to get people
out of the States as soon as possible - When
asked, what will happen to the ch?, he
said, "I don't care - Let them have it" I
had closets & threw out a coat which
Ella had - it seems to be in good cond. &
fits me reasonably well - the collar was
dirty & I tried to clean it w/ soap &
water

Old maps & ate some fruit
Went to bed at 11:15

C-3-A-7 (21)

7 Dec - W

Spent most of the morning on final items

— For St was in & I told her of my imminent return — she sd she had given some thought to doing the same herself — she will be 62 in Feb — she doesn't like "the way things are going" in the dept, meaning that Virginia Duncan's management is unpalatable to her

At lunch I ate quickly & went to hear the lecture of the "Bechtel Forum," which this mo featured Rich and Hodgwin, a Director & V-Pres of Bechtel Incorporated — his topic was "Focus: Middle East" & was mainly devoted to the Bechtel jobs in that area of the world — they seem to be a good % of Bechtel's occup. at the present time — The Assembly Rm was packed & we were told also accidental and heard the lect on TV in another room

In the aft I spent most of the time typing Weinberger's articles

(over) C-3A-7(22)

When I got home Tom I ate some
leftover vegs (which were not on my
diet, but I didn't want to waste them
& Jessie hasn't been eating at home lately)
I washed & changed clothes

Went to the Te serv at 7³⁰ - very few
were present at the beginning tho' atten-
dence increased later

Marcy sat up to midnight last night
she had read Teleph calls inquiring
about the spysal deaths of sev people
in Juvestown - all these rumors are
utterly - there is daily radio commu-
nication & Father does not keep anything
from us.

Marcy sd visitors from other chys
continually arr. in try to see a model
plan of living

Terry Buford had had a tape made
by J for broadcasting in So Amer. -
it was played for us - on it Mike
Prokes interviewed him - I was referred
to as "Bishops Jones" & the content was
geared to the relig bkgnd of the
listener - Marcy demanded us that J

starts where people are, as he did
w/ us - 'in Guy we won't have ch,
just rallies

Apparently few attended the required

event on Th - Tech Holiday started
to give the instrs which members,
all of whom w/ the exception of
seniors, are sup'd to help with - how-
ev for security //

even attendance to there was not good, so
it was decided people wd stay aft the

The mtg was over at 10⁰⁰ - I wd have
been in that second load, but Vole had

X
the annual Christmas lunch of legal Dept^{which} is to be W, 21 Dec at noon on the second floor - cold cuts, bread, punch, & coffee are to be provided & each person is asked to bring a dish.

11:30 From Weinberger's off I was asked to run off on the people to distrib a memo concerning 11 - I wrote the names of some 70 employees on the memos & distributed them. This took me about 2 hrs.

Most of the rest of the day I spent typing Weinberger's articles - there were 4 in all & they came to 4 pp each double-spaced - finished them in the late aft.

Made yesto's final entry
etc my lunch inside

Betty David asked if I wd be able to go to lunch w/ the admin. grp on Th, the 22nd as I had told her I wd be taking some days off - I told her it depended on what time of day Edna arrived.

Norma Bondoc asked me to go to lunch on Th, the 15th

I rec'd a ltr from Weindinger, thanking me for my services in glowing terms

After wh I went home ate my diet food, as I didn't know whether I was get any dinner at the Banks affair ton - changed clothes

Jessie came home early, rather than staying for the concert - she didn't feel well & was in a complaining mood

Judy & I went to the Te tog about 6³⁰ - not many people had arrived but gradually the audit. filled up - most of those attending were native Amers, many w/ small child. They were on the whole quite well-behaved etc that there was much talking throughout all the proceedings, esp for a period of drumming which seemed to have relig. signif. I set a table down - stairs there I saw some letters & other hand-outs on the Amer Ind. Movem, a raffle was being conducted & petitions signed - Te people unobtrusively watched what went on at all entrances, hallways, stairs & in the audit. itself - most of the Te people

bands & soloists - a native Amer poet
from Ariz, Simon Ortiz, rd his material

sat down bes me & I had some conver-
sation w/ him, tho I don't think he knew
me //

Banks came to the podium - he told of
a Congressional proposal to abrogate all
the Ind treaties & sd all the donations
shd go tow. fighting this rather than
for opposing his extradition, the comid
purp of the concert - he got very nice
trks to the TA & J. - he introduced
his wife & some of his children incl.
Dor Dor Woman - he then tk the
giving & Ind comid. sums of money -
He is very natural & quite at ease

We stayed for another mo or two - the
hall was getting crowded, the music
louder and offensive in content - to some

about 12⁰⁰

I awakened slightly when Hester
came in - she told me later the
concert, sped to end at 12⁰⁰, was
extended a half hr & then another
half hr - people were dancing &
having a good time

At 3¹⁵ the Teloph rang - someone at
the Te was calling PD Jones, who
had not come to Orelieve him at a
secur. post - I didn't want to go down
to the second floor & get her & told him
to send someone for her

I had a hard time getting back to

10 Dec - 5

I was up at 8⁰⁰

Wanda was getting her kipp in the kitchen & she seemed to prefer not to be disturbed by others when around her - since I was in a hurry I didn't wait to get anything to eat

I took my laundry to the laundromat on Hyde & O Farrell - Wanda took her laundry did to but happened to go to another place

I then took Wanda to the Haight Com. Id store - I was an hr later than usual but was able to select quickly what I wanted - pushed the cart home - I was home only about an hr later than usual

I had decided to stay on my diet for one more day to make up for the food I ate at the Banks affair on Th

I had missed my new manicure scissors Fr night - I remember using them one day last week while sitting on my bed & I probably left them on the dresser - I looked for them diligently but didn't find them

I started to search again, intending to pull out the dresser & the bed & under the bed - I came upon a hamper which Jamie keeps near her bed - it was filled w/ small pens, some of which we have found

(over) C-3-A-7 31

missing, a china bowl & plate, which I had also been missing, & several pieces of silverware, as well as 2 or 3 kitchen knives, & several paper cups - there was also a half lemon which had spoiled - I have been looking for a few - tender paring knife but didn't find it - in a sack which she usually deposits on my dresser (a sack that mostly contained dry goods, purchases & Jan occas carried or bunches of celery) there were more dirty glasses & dishes

Josie was at the Te but I called Handled she was partic. aghead at the knives & wanted me to turn in all the knives we had to the Te - we both felt that the mystery of the missing paring knife & just my manicure scissors was solved; however, I did not find them - Josie's bureau drawers are a jumble of clothes & other items, as is the floor of her side of the closet, but I did not have time to search further

I had left a folder at the of w/meter. in it which I needed, so I decided to go down by bus & get it - I also

biscuits, an egg, beef sausage

The Muni to the Te serv

Mary seemed very distraught - I
perceived that s'thing had happened to J, but
she said he was all right - she had
talked to him as recently as noon Sat

Mary had met recently w/ Dick
Gregory - he is an old friend of Frances
Johnson - however he said he had
known of P.T. for a long time - he said
he was only surprised that the harass-
ment directed agst us had not taken
place much sooner - J had had a call ✓

Mary showed us some small toys
made in Jonestown out of the wood left
over from building - she also had a
small black doll called a "Mary doll"
made by Bev Livingston - it is planned
to sell the dolls for next Christmas

The service was designed to evoke
deep fervor & loyalty ✓

work w/ the seniors on the second floor -
at times no one is in our apt & she
has trouble getting msgs - today she told
me of a probl concerning a TV which
was being used by Lillian Taylor, a
sister who is not well - the owner
ret'd from a long absence & she it back -
Lillian is agitated & tried to get help from
various people to get another TV - July

11 Mary spoke strongly ag materialism
& preoccupation w/ such things as TV -
was disgusted, since people had just
listened to Mary on the subj. of material-
istic concerns but Sandra was sympe-
thetic

Instd of taking a nap as I usually
do on Sat, I ret'd to the TC at 4:30 -

I talked w/ Patti Chastain for 2 hrs prying the next issue of People's Forum - we conversed a good deal, partic on what might happen in the future - I told Patti that Judy said Mabel Johnson had remembered she thought she wd wait to go to Hwy until Dathon provided us all w/ a house of our own - Patti & I agreed that it might be some time bcz we said had a house - it is much more likely that as perse - certain in this city increases, a flood of refugees will have need of all the housing we can provide; we cant see of providing us w/ separate housing while others are without

When the sent beyond, we cd hear it over the loudspeaker - when Mary arrived on the podium, an effort was made to get people in to the seat.

On the loudspeaker I heard Mary start to tell about Chris Lewis being killed last night - he had gone to Hwy but didnt want to stay - agd

J's advice, he insisted on going - he
got drunk & damaged some Japanese
property which we have heard our
relations w/ the government had said
I established good feeling - Chris came
back & went into barbed where I had
told him not to go - so he is dead
because he disobeyed instructions - he
had been in a sort of serv - Mary
emphasized that I loved him & was
sorry because of what happened
to him - we love him & miss him

I had gone into the audit
I noted that Mabel Johnson was not
in serv, as she had not been this
morn.

Mary counseled us all to care for
each other - on the occasions when she
had put material things first, she
had learned bitter lessons

The serv was out shortly aft 8⁰⁰ -
Mary asked us to shake hands w/ her
& pass by the altar

A man gave Frank a ride & took
me home too

Start was back from So. Africa
today - he told me he was there
while momentous events took place:
the election returning Prime Minister
Vorster to office, the Baker decision, &
the establishment of another native
"homeland"

Jim Mansfield had returned
from his trip of several months to
Saudi Arabia & asked me to type
up the last page of his report (the
major part was done in London) &
distr. the total figure among the
various jobs - I got the amounts
by using the calculator

I also jotted notes for the weekend
This morn I lost my Bechtel
badge, missed it in the elevator
which was crowded - I expected it
to be turned in some time during the
day but didn't hear anything
I ate lunch at my desk

Went to the BWAA meeting,
another of the series on health
relating to women - attendance
was very small - The speaker was

Mary Loren of the Coalition for the Medical Pts of Women - she explained the meaning of "informed consent" & women's pts in their medical treatment. - a great deal of the inadequate medical care & lack of understanding she blamed on the ultimate concern for making money - she gave out some printed matter from the Coalition which also emphasized that it was the desire for profits which resulted in poor medical care.

Went to the Te to ext ten
Spent on bus parking the rest of
the hour for Pat's

Got a ride home w/ Chris Rice -
I told her of my sisters' visit - she
was concerned that we got the apt
cleaned up & was apprehensive w/d
their seeing Jossie - I told her both
were in the educational field &
used to seeing people of every type;
at all, it is to our credit that

The Chronicle ran an article about the
shooting of Chris Lewis in Hunters' Pt

at lunch at my desk early

Law the Bechtel film, "The Santa Vallec
Project," on copper mining in Ariz

My Bechtel badge was found in the
elevator pit by a building worker, of
Betty Vasil had suggested this possibility.

Norma asked me to give her some
suggestions on what I might want as a
gift, leading me to think that a group
of the secretaries are planning to go
try to get me something

Late in the day I was asked to
put in an hr on the reception desk -
I did on joint items

It rained most of the day
I had no off- wh: etc. a slight
revision of Jawdat's seminar rpt

Spent most of the day on a no. of
pers. tasks, in partic. going through
the Mac Graw-Hill catalog, choosing
bks which I wd like to use in my
teaching - I copied a sample cover
letter for use in requesting the donation

Wrote a letter to Bechtel, letting her
know that I wd not be going to
L.A. this weekend

Made a request for 14 days' vacation
while my sisters are here

Ate my lunch at my desk - then
went down to see a videotape
on Bechtel's world-wide construc.
of LNB facilities - went to the post
to buy stamps - because of the rain,
the line was surprisingly short

Went directly home aft wh
changed clothes

Went to the Te to eat

CBA-7 (44)

Talked w/ Andy Silver on the Mac Hunt -
Hill bh order & got his suggestions -
he told me the gen. method we use
for requesting donations - sev contacts
shd be made by ltr & phone, impress-
ing the pers. in charge w/ the Tex's wh &
our needs - then when they have goods
which for some reason they can spare,
they may let us know - we have to
be ready to go aft the goods immed. -
we cannot exp. to get precisely what
we wish

I showed H under the bh list I had
prepared - she & another nurse will
be making records in the medical
field

I rd the paper until the serv started
During the serv., when Mary aff'd
on the podium, she was very serious -
she spoke of people who don't do their
share & are jealous of others' imagined
privs. - there is still some racism
manifested - she commanded that the
use of terms, such as "nigger" &
"honky", even in fun, cease - be kind

to each other" - she named some people who were very devotedly - among them were Tim Blancy^S & Laurie Egrein^S

As bad attendance was one cause of complaint, Nancy then called the roll - I don't know whether it was composed only of those living communally or ^{all} those in the area claiming membership - some were not on the list

Those who went going to L.A. were asked to stand & were put on the list to do so on the weekend - I got my name on the list, thinking that I'd spend 3 hrs during that weekend

Another serious probl. was the no. of members who accumulated parking tickets - the sum during the mo. came to \$450 - during the disc on the subj, Nancy sd. Betty^S had orders to refuse a car to anyone who de-linquent in fines - fines will be pd from people's allowances - I suggested

(over) C-S-A-7 (16)

that those incurring fines should be brought up by the Jap. for public ignominy as child were for bad behavior - Mary replied that no one, not even child, were being hit on the floor in J's obs - Jack Beane sd he didn't know how many of those resp. for the fines cd stand being hit on the floor

Mary commented on a resp. article concerning a foundation, called the Pioneer Fund, which had given support for the "research" of geneticists such as Arthur Jensen + + + who claimed blacks are racially inferior

The serv was dismissed @ 10³⁰

I applied to June Czym for addresses to give for office (Bechtel + Ind Rev) use & for pers. mail - she will let me know

Talked w/ C. J., who is the chairman of the Mc Grow Hill project com

Did my exercises

Started to do my pers. chores -
didn't find some more items: my
eyebrow tweezers, razor, & the holder
given to me by my dentist to hold
a toothpick for dental care - I told
Handa - I searched my drawers care-
fully - we awoke Jossie & asked her
about the missing items - Handa went
through her drawers but w/ no luck -
Jossie denied taking any thing, saying

CJ arrived to go over the two draw-
Hill ths - he brought letterhead paper -
we discussed the wording & format of
the ths

Left C.J.'s departure, Handa & I could
to question Jossie about my missing
items - she, obviously distressed,
left but Handa was not afraid she
had left the bag as she hadn't taken
her coat - I was worried, however, &
after a while Handa went to look for her -
when Handa returned after some time, she

15 Dec - Th

Had no work all day

I made a revision in the Mac Dowd -
Hill list & ran off xerox cc

At 11³⁰ I left w/ Norme for lunch -
I thought prob others were involved -
in the women's rm Helen Lowe gave the
plan away, saying she was sorry she
couldn't make my party - I'd tell Norme
was extremely annoyed but I pretended
not to notice - at the elevators I saw
Brande & Bob O'Heill, dressed up, &
assumed they were going

Norme & I walked to the Embarcadero
& she had a little difficulty finding the
rest. - we ran into John Foster who
was looking for it too - the rest. was Jap-
anese, the Fujiya - when we came in
I saw I tabled w/ approx 24 people seated
incl. 3 attorneys, Barb, Jaworski & Huston -
Betty Veal & Virg. Duncan were there also
& most of the Secretaries w/ whom I have
had close relations

A big package was at my place at the
head of the table - I left it to be opened
later

(over) C-3-A-7 (50)

I ordered prawns - other choices were
steak & chicken - The food was cooked
in front of us - I had a martini -
Don Stokes arrived late - cards for my
birthday & congratulating me on ^{my} retirement
had been signed by every one - Kate
Walker had written an amusing poem
on my retirement. - I opened my gift -
it was a blue suitcase.

On my retirement plans I have told
everyone that I am going to do
voluntary work for an agency which has
a rehab. proj. for delinquent ^{U.S.} youth
"on the borders of Venezuela" &
that I will be teaching Eng.

In the aft I did some work and
journal entries - I was very sleepy.

Aft of hrs went directly to the Te

talked w/C.J. on the Dr. Grew - Hill
proj.

Four of us went home on the transit
bus

I put my laundry in the machine

Had to retype the MacGraw Hill
the last, because one tab was off on the

then typed C.J.'s ltr to the Grad-Hill +
✓ ran it off on the stationary

Bete Huggins's wife Cynthia came in -
she is a teacher of Eng. as a second
lang. - she is now teaching at Armstrong
Coll in Oakland - most of her studs are
Francians who pay enor. fees - Armstrong is
mainly a bus sch. - Cynthia is putting in
an applic. to a foundation for teaching
Vietnamese at Keney College, which I would
be a good salary - I typed a resume
for her at Huggins's request

More money came in from the Legal
staff as contrib. to my present + former
gave it to me

Kora Armstrong gave me a tote bag
in very good cond., which matches
my new suit case - Betty Barclay gave
me a purse which I might be able to
use

Got up at 8¹⁵ - had some breakfast
I moved my belongings from the drawers
in the room I occupy & possible to the
drawers in Estelle's room - then I cleaned
out both rooms & went through Jo's drawers
& the closet - while going through my
things I found my razor & tweezers, then
my manicure scissors - I don't get a
vacuum cleaner to clean the floors

Left at 10³⁰ for the Airline Terminal -
it was raining - took the bus to the SF
Airport - sat there most of the time waiting for
Dor - Dor's flight from Chic was scheduled
to come in at 12⁰⁵ - the time was changed
to 12²⁴, then 12³¹.

Don recognized me but I didn't hear - she
wore a hat & glasses - looking nice & well

We went to get her luggage - she did
not get one bag, a dresser one in two, a box
of a large album, containing a new cap,
shoes, underwear - she put in a call at
the TWA office & they arranged for interchanging
calls on the bus

At the airport bus into the terminal -
we ate a little lunch at the back TWA
cafe on the terminal - I had a hamburger

(over) C-3-A-7 (52)

which was very good

On the way to the Epic Hotel Transferring Traces - the motel gave her a very rate of \$60 for a double room w/ stove & refrigerator, that she did not intend to prepare any food there

I took Lynnie to the Haight Community Store & bought a few vegs & some fruit for my breakfast & lunches next, who was interested in a young woman on the Haight bus who was carrying a coat in a basket over to Oakland

Bob & I dressed & took the bus down to Market to Powell - we decided to eat at Bernstein's Sixth Street - prices for meals were quite high & we chose the cheapest items on the menu - she had red snapper & I had cannelloni (sage) w/ macaroni - we had some white wine - on seeing the bill, we found that together we were a little short of having enough money to pay - Bob had about \$100 cash & 20 payroll checks - we succeeded in getting the management to cash the smaller checks

I stayed w/ Bob in the motel - the room had not been meticulously cleaned

We went to bed about 10³⁰

C-3-A-7 (50)

18 Dec - Su

Don & I woke in the dark & talked - my watch had stopped, we had no clock, there was no radio in the room, so we didn't know what time it was

Don told me about her stay w/ Paul & Polly - altho she likes Polly, she sd Paul was like Matthew - he can't get along w/ his mother when his wife was present - however she told me about an incident in which it seemed to me she was criticizing Polly & comparing her treatment of Paul unfavorably to Clara, his mother - Paul has apparently become quite mercenary, tho as a small boy he knew how to handle money to his adv. - he suggested to Don that I should sell some property & give him half to put into his bus - she has already lent him \$4,000 - ^{she refused} - he has his own Constructive bus - Don thinks Polly doesn't have any intention of having child. soon

Don sd she also sees much less of Miranda & Tadore than she had hoped - Miranda is very busy

All three of my sisters had planned to be in Colo. in a few yrs - Mads

(over) C-3A-7 (51)

plans to move to Boulder when she is
60 - Dor had talked of getting into a
condominium in Denver - however,
she may change her mind - she likes
her house & greenhouse - she has orgs
she is active in & she does some
traveling - she has gone on architect-
ural & horticultural tours, she attends
the conventions of Madelyn Murray O'Hare,
& she goes to plays & the opera

While it was still dark, we got up &
went up to catch the bus on Van Ness -
we find, as the sun came up, it was
about 7 or 8 o'clock - we had coffee in Jim's -
I prepared ~~break~~ in my apt

Dor telephoned the baggage claim office
at the airport but her bag had not been
located; Mr. Wanda, who had not gone to
L.A. either, phoned - Dor went out to
buy s'thing at the drugstore

I prepared a steak dinner for us -
besides the meat, we had beans, corn &
3 salad

We then took the bus to Union St.,
walking along & taking in the shops -
had coffee in a cafe

We saw the film Julia w/ James Fonda
& Vanessa Redgrave w/ Jason Robards -

(cont) C-3-A-7 (58)

18 Dec - Su - 2

it was based on a story by Lillian Hellman, a true happening - all the principals gave amazing performances - the clothes & the-
glands were superb - the details of the story were gripping; tho I was not sure the band as a whole saw the signif. - I was of course partic. interestd because of the connection of Jones w/ the Te

After the show we walked along Union looking for a place to eat - we wanted a light meal & didnt find any rest where the prices were not too high - when we got to Van Ness we turned & walked along it & finally turned off on Polk where we went in an Ital place. Dor had spaghetti & I had a solomi sandwich

We walked home - Dor stayed w/ me in my apt - during the night we heard as we thot Jossie & Virg ret'ing from L.A. - I didnt go to sleep again until 11¹ While Dor was gone I suddenly remembered this was my birthday. 11² she was authorized to spend up to \$35 to replace needed clothes. 11³ Hankes came - Dor liked her. nearly morning

19 Dec - M

In the morning we saw that Virg's bed was empty & we got the impression from Jessie that she had gone to the Freedom Land - Kande was surprised - so we'd have to ship her luggage later - Dor. was quite interested

I went to work

Did see items for Herb

Dor came into the off - I introduced her to my friends - she liked best Norma, Kato & Philippe Lamy

At lunchtime we went to the Hyatt Regency which was presenting free the Oakland Ballet in excerpts from "The Nutcracker" - we went up to the 3rd floor from which we got an excellent view

I met Dor for dinner - we went up Polk St. looking for a good place to eat - we chose a beef rest. - we shared our items & each had a little beef. beer - for dessert we had a custard w/ sauce

When we got home, we found Virg. had not left - when the buses got out last night she had merely gone to the Tea to sleep - Dor thinks she & Jessie

I woke early
Had left & prepared lunch
Hos called ^{some} friends whom she had
known in Chic - the friends invited
her to visit in their apt

I went to wh - left for an eye exam
at 11²⁰ at Kaiser

Dr. Takahashi examined my eyes to
see whether I needed a new prescription -
he found little def in my eyes but it
wanted a change of prescription as it is
hard for me to see small print in
the teleph bk & dictionary - I decided!

When I returned to the apt of friend Hos
had left a msg that her friends were
taking her to "Kaiser Woods" - they wanted
me to have dinner w/ them at a
rest on their home - ~~it was to call~~
~~later & get the arrangements to~~
~~the bus to take~~

Had to get new frames & use my old
glasses as a second pair - the exam at
Kaiser is free but the lenses & frames
cost \$64⁰⁰ - a copay of 50% was desired,
but I had only \$23⁰⁰ which I gave them.
etc. lunch at my desk

C-3-A-7 (62)

I went home and washed - changed clothes

Took my needs slip to the Te

Bob's friends lived on Union St -
I thought I'd catch the right bus on
Sutter & Fillmore but none came so I
phoned - I had to take the Fillmore
bus to 22 to Union & transfer to 45 -
Bob's friends, a Jewish couple, had a
pleasant apt at Greenwill St. - Bob's
daughter was also present - we had wine
crackers & cheese - conversation was of the
liberal variety about Bob & life in SF.

We went to dinner. A homestyle
Jap. rest

The friends took us to the motel - as Bob
had not been there for several days, the
motel didn't know what had happened
to her - he said the day following her
checking in the airport had "aloud"
her missing bag - the baggage records
were not very accurate, for Bob
had been phoning about it every day -
she had spent some of the money
authorized to replace her underwear
& so on

I took a day of leave from the office
for & I had stayed at the Hilton
in the Airline Terminal - the food
& service were disappointing - Dor was
quite sharp w/ the waiters because the
muffins were not hot

We took the bus to the airport & met
Edna who flew in & - and I had some
message and rode the bus back to the
Terminal & had a cake

The party was today & I had that of
Carmie & seeing whether I could
send food for Ed & Dor but I decided
against it - the crowds were so dense
on the public transp. that I didn't even
want to do any more trucking - I had
bought some nuts which I had roasted
to the office as my share, later learned
that they had been used at the recep-
tion desk rather than at the party

We went to the Essex Hotel - I found
that it was much better than had been
described - I had brought some cleaning material
& scrubbed the stove & cabinets & washed
the dishes which were furnished

We all talked about our recent activities
I went to the Te to eat & the Green

Today was a Bechtel holiday

I shopped at Safeway for chuck steak & broccoli - I had invited Laurie Grein, Nina Stevens & Patti Chesterni to lunch, thinking that Dor & Eddie wd enjoy meeting them & learning of their backgrounds. When my sisters came, we prepared lunch - they helped w/ salad - I intended to broil the meat but the broiler didn't get hot enough so I had to put it on top of the stove - Laurie & Nina arrived, Patti called that she can't come, as she had to make posters for a Te march tom.

The food was enjoyed but Dor was espec. unpleas'd w/ the guests - when I tried to draw Nina out about her experiences & she told of coming to the Te, Dor thot she was being propagandized & started to tell about her work w/ Veterans for Peace - Laurie was very shy about revealing anything unusual about herself - neither Dor nor my sisters were impressed w/ either Nina or Laurie tho w/ Patti, they are 3 of the best friends I have at the Te - perh their youth & inepen w/ sophisticated older

got off I rode to Hwy on the Fillmore

Edna drive - it was a beautiful day - we drove to Tripoli - had lunch + did some shopping - then we went to Sonoma, did some sightseeing of historical spots - stopped at a couple of wineries + sampled wine - we visited Mrs Vallejo's home on the way back + spent some time there - then det'd to SF, getting in aft dark -

We went to Clement St + had for a good rest - we settled on an Armenian rest - we each had a lamb dish - we didn't have any drinks as Edna was beginning to worry about expenditures

Dor again got into controversial matters,
bringing up the subject of the Te w/ Jerry,
but she didn't much trouble Judy who
stood her ground

I went to the Te at 12⁰⁰ for the first
pt of the service - the tables were set
upstairs for dinner - Vernell Henderson
knew that I had to be w/ my
sisters - she sd that perhaps it wd
have been arranged for them to come in
the Te & have Christmas dinner, but I
felt that Dor in partic^{ular} wd have prepared
me to

I left at 1⁴⁰ & we three left to visit
Lor, who had invited us for Christmas
dinner - Barbara Pease & Dor &
were also guests - the 2 yng Jeps^{ons} were
present & had prep'd & served the dinner
which consisted of Jap food - altho inter-
esting, I wd have preferred to have
turkey - Lor is having another Christmas
dinner tom for the yng people, at which
I feel she ordered a pre cooked turkey -
I rec'd gifts from all, altho I br^{ought}
something only for Lor - Dor & Edna had
been absent
