1 Apr - S

Had breakfast - followed my usual morning routine which includes getting a plant from the veget. shed to help w/ my constip. prob. - Bro. Bridgewater always gives me one - lately I've been getting one for Helen Love - but so times I didn't see her at breakfast or lunch - then I usually eat the other plant as a snack

Having no classes today, I did my weekly personal chores which I have been neglecting somewhat; care of teeth, skin, eyebrows, fingers & toe nails

Made yesterday's journal entry

Corrected the papers from the soc. class - some knowledgeable people are in the class & some who are unable to follow much of the news, judging by their queries & their lack of participation in oral activity.

Went to lunch

At my t.w. out & started a letter to my sisters & Lou - I wrote about 3 pp. - then I have Rita check it & then I'll copy it in cash - tried to keep it my attention of difficulties or shortcomings, etc. of writing supplies which I hope Lou will add to me

Found that I had put my chests at the bottom of the bed where they had been, leaving a narrow passage for Terri & Hubert to go by the ladder to the bed -

they sd it was set up.

~~As for the~~ had several days w/o rain,
it had been ann'cd that the bucket
brigade wd be in action starting at
3⁰⁰ - I planned to go down aft. I had
taken the resume of Gene Chalkin -
however, about 4⁰⁰ we had a pleasant
shower & the bucket brigade was called off.

I went to the central area, find Ch -
th his resume down while he had
treatment in the pavilion for sores on his
legs - Ch had had an amazing th'grnd of $\frac{1}{2}$

$\frac{1}{2}$ Rd Subversive until dinnertime

$\frac{2}{2}$ Went for dinner at 6⁰⁰

$\frac{1}{2}$ Cont'd to read in the pavilion until the
rally began

// $\frac{1}{2}$ dig. active - he sd he has wh'd since
he was 10 - he has also traveled much
in all parts of the world - I had forgotten
his birthday is the same as mine -
perh this was the basis for my dis-
covery that, like me, an intellectual, he
was drawn to gardening - in my case it
is an unfulfilled dream as yet - Gene has
also, like me, an indep streak - in both of
us, it shows a reclusive nature //

// $\frac{2}{2}$ Again, I thot I might have gone into
Newtown, but I saw him in the Radio Room
before the rally //

Rally

I read the news while people gathered for the rally - rpt that people can't hear because of too much noise - inquires whether need to take a test - says people don't have enough respect for this bleeding power - e.g. (Rose) whether had massive brain hemorrhage, blinded, paralyzed - never knew what was going on - I think he's not healed yet - rally in 5' -

Organic rpts - Bro. Simpson chairman
11:30 started 1:30 w/ a new song

Lesson rpts given by Keith Newsome - he's 13 yrs old across the Dark Troop, precocious, but often gives problems (obstreprous)

Garden crew - rpt by Bro. Buckley

Takes over p.c. system - I call for inc. criticisms - Jeff Carey admits giving story for himself, but thinks treatment inconsistent - makes him hostile - he says he still tries to manipulate people by proving - I ask for ideas. L.C. may be just is not, ideal. + Mark Rhodes X + Michael who tried to run away - taken to tiger - acted up again - tried to sell coal action out - I tried to reason w/ them + appeal to their sense of responsibility - I describe his work - I call attention to someone in back row who won't listen - she's a child - I say "don't talk, just listen" - we won't be as good as I had other - I say "understatement of the year" - to take care of you + those back there - others such as Regi. + Huey (over) C-2-A2(4)

Kenner - have to remain an internationalist -
Angie Davis - never entered her mind soc:
chase - "the day I die people will forget me"
I spent up my life so you'll open up yourself -
Don't go into by camp - he can't stand
miles - all they can say - U.S. Ambassadors
people - U.S. wanted break Bay of Pigs to
get in here & do some kidnapping - "you
cut off your channel & I can't reach you"
John Burt's brigade - wanted to have room
didn't have time for water brigade - had to
listen to speeches to be given tonight - caught
one statement that we have committed a crime
might - guilt I felt - no records being
collected - microphones they had, they had
be collected

I concerned about trying meeting - wanted
this time - Don can't do for - for example
of criticism - were the talk of long a theme
people made it in the Sov. Union, persecuted
used the to bring atheism - persons
fact a capital people - it engages me
Boris Yeltsin - towards us, more -
thous - can run over her, not much
ing - C. David, others, then English
Tom Adams, Larry Layton, Andy Silver, Lewis
Collier - work he can have been there -
why don't people care? "he's getting s'thing"
In not getting s'thing - no joy, doesn't want
enjoy his - strong but ugly - want to

hold you - wasn't - no, no, no, no - my
other way you come back

In a l.c. have built up such hostility -
in a l.c. - someone muzzling now -
but like shit, I like flowers I have. Take
care of him (Tim Stone, take care of his wife)
his wife) - she has concealed him from age -
will him - deny, with the good for him -
didn't see him - he's tried everything -
US Consul told him now, he's no different -

J. & children some - I don't see
This kind of goodness, because must have to
be like him

Let's fly - she's dead - I don't see
wasn't - I don't see in & save her from dying -
died how far above to our water - but her
just as good being me - with all the capital in
death

In the same P.M. going to see left - your
kids will have more freedom of movement.

Be tough against class enemy - I don't know how he
got all else dropped & what revolution
will do for you - a Thomas like you - we can
only be hurt from within. There have been
many people were watching him - I don't know
on these sons of bitches (Communists). It
is immoral to destroy a man like this.

It's a damn good thing that he's gone -
role for it. I don't see it. I don't see it.
hastening to take me good - what's his worth?

x The 2 child, Mark Rhodes x

were part in of having been taken "to see
the tiger" - they were terrified, claimed
they had actually seen him - they had
been ungraind of being tied up, had managed
to climb out a window, they weren't afraid
of wandering in the jungle alone but the
tiger for some reason terrified them - I
admired their courage, tried to show them how
their actions hurt us, why they shd cooperate

I went into detail about the phys. & mental
pain he suffered & how much he cared
for each one of us - he asked for people to
tell him they had been effected by his
actions & ayno. did Irene Mason, a
poor & blind, sh when she was offered 3
 biscuits, she felt she shd take only 2 - I
told her to take 3 as she needed to gain

Only Gray was home - we went to bed
about 10:00 - at 1:30 Shirley Ann & Annette
woke me up w/ the light & their talking -
I protested - at 4:00 I was again awakened
by a no of people yking in loud voices
outside our cottage - I got up to go to the
bathroom & protested this too - when I ret'd
I was told that had been heard & lights
were on - "you're near the bush here &
strange things are going on" - they had
called SAT

11/13 While I was in the pavilion w/ Irene, Minnie
(formerly Buckley) Morrill asked me to correct
a letter she had written to a friend in the
States - she told of "kine with Jim Bogue" (Mrs
Morrill) which I had gathered 11

For breakfast this morn. we had cinnamon bread, a hard boiled egg & coffee

John Harris approached me about typing a statement on his work, pathology, to submit to the steering com. Tom - he said I wanted it done & Dick Tripp suggested he ask me - it will consist of about 10-15 pp. of typing - I told him I had little time but under the circumstances I'd do it - he could find me in the dining room between 7:30 & 8:30 Tom or see me elsewhere

John the resident told a serious accident to a 5-yr - old, Isaac, who is the son of Shirley Ann Edwards (I didn't know the identity of the child until later) - he was hit by a ball hit thrown by Ray Mc Knight, husband of the former Rose Pearson - child was standing in the place where the young men were playing ball - I blamed lack of supervision of the child, carelessness of the players, & bad vibrations caused by the attit. of some of the people involved - The child should not have lived, was bleeding in the head, should have been blind - I was calling the San Defense Forces to get the plane to pick up the boy & take him to New Town - he was not going with to get the best of medical help & I made up my mind to act as a nurse, then I was spending a good part of the day catching up on papers etc.

Typed the list of studs in my soc. class,
suggesting which should remain in the class &
which transferred to a slow learners' grp,
th the list to Bob Christensen's cottage

This is the first time I have seen married
people's quarters - about 3 couples live in the
cottage, are screened off w/ curtains - Christensen
also have off space where Vernette types &
Bob does his engineering wk - he is now
making a big map of Africa which, by his
direction, will be put up in the pavilion

I made yesterday's entry

The field workers had come in for their
half day off - I th my shower, not soon
enough to get ahead of a no. of child.

I finished the letter to my sisters & th.
it over to Rita to check it out

Went next door to see Esther Duckler's
kittens - there are three but only 2 were
in her cottage - she complained because
she says the people across from her keep
the kittens but do not feed them - she
wanted to give me a kitten but I think
I was a bit too much trouble, esp. since
both Verie & Ann do not like cats

I skimmed through Subversive, making
notes of a few items I want to remember

Went to dinner about 4³⁰ - we had
rice w/ pork (more meat than we had
formerly had when we had this dish) -
sweet potatoes

I went to the pavilion hoping to see Jenn, as she had suggested we meet at 6⁰⁰ to disc the classes which we are implementing on M. - while I waited, I started to read Introduction to African Civilizations by John M. Jackson, w/ an introduction & additional bibliographical notes by John Henrik Clarke

Not seeing Jenn in the pavilion, I left for & found her in the dining area - I briefly explained to her what I had been doing in the advanced class & she told me of her activities in the intermediate grp I will take over from her

During the dinner hr Isaac on a stretcher was loaded by the medical team on the tractor trailer & w/ attendants taken to Port Kaituma to be flown to Har' town - I kept us posted on details during the day - since the plane was coming in, it wd bring about 7 people who were waiting for transportation to Jonestown

I sd some of the people coming in, one in partic, had already given trouble in Har' town & it was nec to have a sp meeting tm to confront them

I went home & changed clothes, came back for the mtg which started at 7³⁰ - altho we have new benches which have been constructed, I had diff in finding a seat

Rally

Victor Jara's records played while crowd assembled
our entertainers last night won the audience -
J. had him on there to emphasize soc. content - U.S.
int. officials there

J. had to charter plane for the taken to New York,
J.B. plane was on maneuvers, neurologist wait-
ing in New York, another in States - had to get
sp. clearances to go to Cuba - cost may come to
\$25,000 - J. promised for efforts to make money.

Gov. has released some of our money, they
are still holding \$50,000 - this put on bed checks

for atmosphere surrounding accident today -
capitalist spirit - like him - caught up in game -
someone who had taken care of child, not there

Questions on music - Jara objects to working
with - J. expressed his opinion on music & very soon
by J. - the beat of rock rhythm, of brain cells possibly

New people enter - J. denounced himself as going
on, people expecting to see J. on Hollywood -
creature comforts

Robert Paul called me down - J. was woman pregnant -
she's bothering the ch because he gave her his
destination - J. had trouble getting him down -
he had a wife here - he admitted to have
sex w/ the woman - J. asked him what trouble
he caused in New York - he denied it - Lee
says he wanted a record of his life, & take
it here - Paul is shipping - J. is convinced that
this is not a "my" in the music - he is not

Jabrid music says people who want this bourgeois shit to prove you can't find any singers who haven't sold out - gives a Christine Lucientes - she said she knew tape recorders were 3

Paul the son of one of entertainers, 70 yr old Mon Tobley - his wife attacks him - playing 1/3 the time away - she says she wrote him a card while she tried to support her babies
Note - she cleared for a day she the others' clothes
Jerry Parks said he didn't like the food - he was going to test his bef a guy handicapped man he sponsored she came - he said he wanted to talk to her - he says he only could eat highly seasoned food - his people in the way - his daughter coming too - Jerry says Johnny Jones told him better to shut the set is - guy man has epileptic - J says everybody adjusts - everybody who talked about going back to straighten things out turned traitor - e.g. - Tim Sten, Rosemary Williams

J talks to Parks on collapse of states, dying nation - floods, nuclear war, econ. collapse - think of yr child - what does it matter what happens to you? - yr child will grow up here - J says of his healing power - I shd not have to do that because someone is careless.

J released Marvin Jones, Laure Johnson - Jeff Carey from L.A. - Hunter Williams doesn't like to take orders - J says he willingly took orders when his life was being saved -

more to be said about what Rita Levin had mentioned to me: that she & others in that college th. advs., had roommates & cogen which are furnished for night wh. that act involved talking & typed later at night when it disturbed her sleep - these chgs were not aired - prob the matter is being taken care of in another way!

11⁵ The disc on music was carried on for a short time thru other matters - I was quite firm that we shd not have music of any person who was not a supporter of socialism & minority it's & if this meant listening only to Victor Gars, then that is all we shd listen to - he sd he knew many people didn't agree w/ him on this, but it wasn't the best thing for the world if all were like him!!

Ref. she left this morn they told me Ann & 2 of her men friends come in the cottage late about 1³⁰ & then talking to her - she complained but they persisted for five mins - Ann did not seem partic. concerned about the accident which w/o I wd have taken the life of her child now of the enorm expense his treatment wd entail - like me, she thinks Ann is very shallow & does not care much for the boy.

Went to hospital & followed the usual morn. routine - I had to wait an interminable time for my medication & had forgotten to bring any w/ me.

John Harris did not come to give me the meter. he wanted typed - Somebody told me they thought he had told w/ this back.

I had a short time on my girl
Went to lunch at 11³⁰

Only a few people came to the adult reading class & I was on the p.a. system w/ the news for a good part of the time during which the class practiced writing & printing - I spoke to them about reading books & writing to them & on the class. she thought we have some in partic. has good selections & the overall level is about what the class can manage -

hastily hung them up after one rinse

The rain came down heavily & would
not let up all day - the it was so hard
to get to sleep, it was a real pain &
the effect seemed to be soothing on the
students in my classes

X In the first class, Jerome was on the
front gate, Bonnie was absent, Perry
was back from D.C., Willie is on D.C. -
the others did fairly well studying the
map of Africa

In the second class (which I now had
100 h) I used the atlas & map &
had them write on the continents of
Africa - I had no time to spare in
spite of Jimmie's warnings about the rain

Emma Hill reported to me about the
test in my class - she said she was
using the atlas & a compass, but was
not understanding of what was
going on - the same was true of

I described what he is doing in Shirley's

so far - he is keeping very close track
of problems other than those having particu-
lar attendance & behavior //

had wanted the typing, wasn't meeting

Had brief & pursued usual morn. routine
Made final entries

Looked over class papers - didn't make much
of what recent class did & decided to start over
w/ lists of African types

Went for lunch at 11:30

Attendance at my adult reading class was good -
the students seem to be making prog.

I made an announcement that the U.S. has
adopted a boycott pol., denying oil to Iraq - Iraq
town is w/o power - our oil supplies will be
affected & stringent measures will have to be
taken to cope w/ the shortage; one of these will
be cutting down the use of lights

alphabetically, using the recent atlas

she had not been able to get by herself, but
for some reason she cd not & I told her
to see me when I had my night class

I ate dinner - rode to the cottage & prepared
for my eve class

The attendance was good at the eve class -
we listened to J as he gave the news - then
I explained the plan to have a class out 5 or
6 noon - I then started to review metaphors

The steering com had just begun its mtg
in the vic that night to us when we heard
J's voice calling on a traitor named
Richardel Perkins to come to the vic tent
for a confrontation - the place was soon
changed to the pavilion & all the membership
was called to attend, so we broke off the
class meeting

Richardel turned out to be a woman,
mother of sev boys & a girl - 2 of the boys,
Jerome & Maurice Anderson, I have in

is liked by most people & often does

dull, & somebody had told me he was

suffered badly from drugs - the complaint after R. was that she had said she wouldn't have come to Jonestown if she had known we'd have to do w/o lights; she sd. she knew "they" wd take yr (Jerome's apparently) mile away from you - it seemed as if Jerome had rptd the remarks - in the ensuing discussion it was developed that she had deprived the children of basic needs - they had to come to the T4 for a meal - in favor of her husband, who had even had sex w/ her when she was recovering from a hysterectomy - she also had sex w/ her husband's brother, & she claimed unconvincingly that she was raped - her husband is now serving time on a murder charge but she had been urging T4 efforts to get him out of jail & bring him to Jonestown - she had slept w/ other boys tho denying she had sex relations w/ them

Her other, was Ted & Rose Shetter, angered by the pain caused to J. by the rape followed by others - I told them to limit those getting through to him to nurses & to control the attacks carefully - I said R. a L.C.

she is the mother of Morris Ross, companion

angry & having our activities, incl. his own,
interrupted by the means of consistently
dealing w/ offenders - he explained the serious

a restriction on use of electricity was
announced - our efforts shd be directed at
sending some of our people to Africa to help
the negs there obtain their freedom - this
is the first time I have heard of a refer to

"white night" proposing our neg people shd
help socialists in Africa.

So that the Steering Com. will not have to
suffer from not being able to take care of its
agenda, I went through the items, seeking
info & making quick decisions on the basis
of cost.

The meeting was ended at 12¹⁵

Ind for a few mins. after getting in (25)
(over) C-2-A-2

waiting for others to come in - they were in -
Ann was talking to men friends outside -
Verna & Anita had not come in - I
turned off the light - Verna arrived &
turned on the light & Ann came in -
they began to talk - I knew they who had
gone to bed, wished for quiet - I made a
demand that the light be turned off &
convers. cease - it was 12 o'clock if
there was an instance of such incon-
sideration again I was going to write it
up & we all go to counseling on it - I
referred to Ann's neglect of her child -
she reacted hostility

11³ They told me in the morn that Anita
had been present too altho I didn't know
it at the time!!

- I was a long time going to sleep

5 Apr - W

Woz that I made a mist. apkin to our
cottage mates as I did last night - she thid
they wd bullheadly behave worse than bef -
later in the eve. of she told me she had
heard counseling was sched'd for our house -
hold too but I heard nothing more about
this all day

At 10:30 I waited for my medication on the
a half - the med. is dispensing medications
in the dining rm area, & today they gave me
numbered slips, but they got the nos. mixed
up - I usually write while waiting for med.
but in this sitting up. people set down &
waited for me, & I did get a chance to
rd the news items which are posted on the
wall of one of the bldgs.

My watch went. run. at all today - I have
been having little w/it

I have made Jests' girl entry

We didn't have lunch today since the
community was too late tho I had
got up but much later than usual

Went to my riding class at 12:15 - a lge
no. came & did well - I rd a few
phonetic rhymes to the class at the end

Took my shower

Finished my girl entry - then prep'd for
my classes - I had having little black. The
books in order - in addition to my records of
each h.s. & adult class, I had time material

(over)

C-2-A-2 (27)

all students have prepared, as they have no
place to keep it - these & all supplies (paper,
pencils, chalkboard eraser, chalk & so on)
are in my top crate

In my first period class I talked w/ them
about my reasons for concentrating on Africa
at the present time, reminding them of Jo's
remarks on the possibil. we might send some
young people there to help in liberation move-
ments - it seemed to me Jerome was depressed
over last night's conversation w/ his mother -
Dorice reacts badly to all stimuli, so I
didn't tell about his mood - Jerome questioned
me about last night's altercation w/ my
cottage mother - he is, I think, a friend of
Antrab's - he sd I shant have charged
him w/ "dumping" her child - I replied
merely that it was true - I had the class
list all the African Cyps they cd remember!
Ronnie Dennis, who had been absent, came
at the end of the class & told me he had
had to go ready to unload the boat

I started the 2nd period class w/ news
items - ~~and~~ did not have any but Mary
Briffeth astonished me by explaining an item
in detail & information I then let the students
choose sides in the two teams. The teams putting
the names of African countries on the board -
they seemed to be enjoying the contest - some-
where half way through the class a rumor
spread through the sch. tent that the class
period was over & most of my students left

like a flash - Andre, who is in the class, did $\frac{2}{2}$

Tripp announced a h.s. tech's mtg for
6~ - I quickly got my dinner & ate it

Tripp wants a whly going in all classes
desirable - we are to be firm w/ students
w/ regard to behav. & class wh - the techs
got any unusual behav - I mistakenly thought
it had been Kenny Reed who had taken of
to prep. for going to the bank & so reported
studs; when we were sub. to questioning, he
one by one, & Kenny was one of them - he
could not it had been Ronnie - Tripp warned
me not to make such errors

I well & seemed to show no resentment
toward me //

I ret'd to the college & and sorted out for
attending the soc. tech's mtg

The techs & co-techs attended the
mtg, along w/ sev visitors - we th notes
as various people volunteered news items -
questions, explanations, & comments were
given - we then volunteered items on
the general topic of 'guilt' as raised by
Jon S - he had asked us to ascertain
the understanding of what he is asking -
then we had cons. discuss about mtg

& The Introduction to Soc by

it was nec to give - consensus was that
some theoretical basis

for understanding soc but that some
imaginative techniques must be used to
supplement the bh - the class lasted from
7⁰⁰ to about 1³⁰ - I spent 15 more mins
explaining to Vern Gosney the conflict involv-
ing Ethiopia & Somalia

I just had time to get to bed by 11⁰⁰
when I expected the lights to be put off -
I don't know whether they were or not -
only I was home

When the others came home earlier or
so later I was aware of them, but they did
not turn on the light nor talk loudly

6 Apr - Th

Had breakfast & followed morn. routine
Made gerts' final entry

Got some file folders (used) from the sch. off. -
labeled big folders w/ names of my classes
incl. the soc. class & sorted out all the
notes I have collected, both studs' & my
own - all has been in a state of gr
disorganization, making teaching more
difficult

~~Went to lunch~~

Had good attendance in the adult rdng class -
aft. practicing writing & sending the letters we
have had rd for I had the V class play a little
game, taking turns using words w/ each initial
said - they enjoyed this very much

Took my shower

Did my hand laundry, using a pail in
which one of our college members has been
soaking dirty socks for a couple of weeks &
another I find at the water outlet, where there
are benches

Red African for help on his

Stopped at the sch. off to get a recent
almanac (Troy ordered sev for our present
concentration on geo & world politics &
econ) - all had been already checked out

A heavy rainstorm came up & I was stranded
for at least 15 mins, unable to get to class -
When I did venture out, I find that both Kenny
Reed & Ronnie Dennis were on the lock pre-

ably, Belle's father was helping w/ incoming supplies in the tent - I liked the atlas we had been using - it was just in use - tried to find else gyps but there don't seem to be any - I did find some photos recent events in Africa, but as short notice I didn't know how to use them in this remedial gyp - consequently I just allowed them to converse - Deborah the Barnes has been taking an int. in this class (it seems) so she liked to learn about Africa, so I told her she cd stay - for medical reasons she is not attending sch.

Rain started up again as the second hr class began - class members who had been in the town were present today - the class was consequently big & somewhat unruly - I had to speak sharply to them again - I told them they wd have a writing lesson on current events. Tom & each was to bring in one they understood or one they did not understand - we then played the game they had yest., naming all the countries of Africa - as a class they did quite well, even those who had missed prev. wk on Africa

Troop arrived & talked mting for 6⁰⁰ - I got my dinner & ate it

The rain was still coming down - I went to the pavilion - I was afraid Troop was going to remark adversely on my being late to my first class, but he said nothing -

I rode Apric in the pavilion for a time,
hoping for the rain to let up - my hair &
clothes were wet - I was sitting on Lisa
Layton & another woman who agreed to serve
my seed & I went home - as I had washed
all the clothes I am currently using, I had
to get into my bottom bucket & find some
others into which to change & of course I
wore my rain coat back

Because we were late last night, this
morn's sched. allowed for a 2 hr. delay,
but got up only one hr later than usual.

Had lunch & followed my usual morn.
routine & read my medication apt letter
waiting - the med. box has a new procedure
designed to simplify its operation & its
medication & I presume, seeing those in need
of treatment.

At home made yest's girl entry
made some prep for my classes - I had
checked out a 1978 almanac early - the other
teachers, esp. Tropp, have been getting them
first, also the recent atlas, w/ the results
that I have nothing from which to teach
my remedial class.

No lunch was served - at 12:15 I met
the adult riding class - some were late as
Barbara ^{Walker} was coordinating her adult exer-
cise class at the beginning of our second -
The class members have been hard, some
apt consid odds, esp. in writing

people were sleepy - I used the almanac & we started learning some facts on the dif. African countries - some members of the class showed an interest & learned

I moved the second period class to the pavilion where I had them write on a news item - I gave them a choice on giving details on one they understood or asking questions on one they didn't understand - some students finished early & I had them go to the library & read.

It had no rain today

I read African a short while

Political Enlightenment classes were at 7:15 - Don Johnson, etc for taking roll & votes & soon, let me conduct the class - we intended to spend the first half having the class members discuss individually the Telh. I gave on 5 night on guilt & responsibility, & the second half on news items - however, by the time each pers. spoke we had no more time left - The class was good - we were out at 8:25 - I handed back the class's papers & gave the correct answers //

I climbed on my bed & read African on hr - Jim, his news broadcasts has been emphasizing the study of Africa, as in his Telh. at the rallies, & has even touched on early African history - Day was asleep - I went to bed at 10:30 - when the others came in at 11:00 there was a little commotion - at 1:00 the p.c. system woke me calling Anna

I had invited Shirley Fields, as she
had stated that she felt now was a
time she should become involved in
some other activity - she kept moving in

On Sundays Mr. Schacht sees patients from Pt. Kaituma - we were told that 10 were here today - they were served dinner & some did not eat much - their plates were left on the table & Jerry Ray & others ate the chicken from them. Joyce Touchette warned them they were risking diseases we don't have

I went to the pavilion to wait for Jenn, whom I was supposed to see at 6⁰⁰ - the band was playing & I can't concentrate on my riding, so I walked to the library which was almost deserted - I sat apace for an hr or so.

I thought I saw Jenn going to her living quarters & tried to find her - someone told me she had gone up river w/ Patty Cartmell & party - I knew she had seen that Job Change Com

Not finding Jenn, I went to my cottage - talked a while w/ Inez who was there alone - she referred to Michelle who is still in the States - she sd Michelle was very eager not "to lose" her second baby, as she did her first, Danielle - B., her child by Ron Ditch, was raised by Barbara Corbett - I don't know whether they meant that Michelle wd object to the nursery prog - the parents have the child in the eve. & on Sun. afternoons. I rode to the central area where I stood in

a long line for my treat (Judge today) - then
I saw the movie being shown, Children
of the Damned, in old English - made sci.
fiction one - Dick Tracy commented & J.
came in at the end, both on the soc. compli-
cations of the film

I went home a little after 10⁰⁰ - my mirror
had been removed from my side of the
rm for the use of our other residents -
"that takes brass," they remarked
I sat afire until I went to bed at 11⁰⁰

Had a disastrous day

At last endured a 12 hr wait for my
medications

As a result of my oiled rpt to Harry about
what Helen Love had told me concerning a
woman in her dorm who gave handouts of
ripe peaches, I find that Harry had conduct-
ed an investigation. - both Helen & the accused
woman, who I may add at the very start, were
angry w/ me. - Apparently the peach was
given to only one other person, Eulene &
who also spoke to me. - The latter how-
ever was not upset, as she was constipated
& needed it - Bro. Bridgewater, when I
went to get my usual plantain, asked me if
I had a right to it, revealing that Harry
may have gone into the rule of the veg.
shed in the matter - I decided that unless
the incident was brot on the floor too as
an instance of upris, I wd write a rpt
to Harry confessing my own procurement of
plantains

I obtained an almanac from the sch off &
contd w/ an notes on African days

Ate lunch

At my adult class I had increased atten-
dance, I think partly because we so seldom
have adult eve. classes & partly because
Barbara has discontinued her adult classes,
or some of them, & a few of her students

have come over to my class - I decided be-
cause of J's emphasis on polit. & econ. study
& because some of these new students have
at least a basic knowl of reading & writing,
to give a little of such information each
day - the students liked that

Wd. some more w/ the almones until
class time

At the beginning of my first class I
began a broadcast - I had had some signifi-
cant comments on our agric. produce, which
is lower than ^{that of} farmers raising the
same crops. Although we have advantages
such as fertilizer & machinery - most of
the blame I put on our pulling out agric.
superiority by they have had time to
get off & wanted this to end - he
then made some remarks on details concern-
ing our power sit - I insisted the class
"He told most of my memo on music,
adding a few comments of his own"
remain quiet during the broadcast - they put
their heads down on the table & put sleep

During my second class I cont'd w/ the
broadcast but we went ahead w/ the material
on econ I had prepared - I had left beh the
pencils to give the studs so I wrote the
info on the board & discussed it - some were
interested but others were inattentive

I had dinner, then went to the cottage &
changed clothes for the rally - I try to wear

pants & socks to all eve mtgs, esp. in the pavilion where the floor is dusty, to protect my legs & feet from insects

J's broadcast on the news, agric. produce. & so on had been taped & was played as many of the gathering and. stood in front of the maps of Africa, Guyana & So. Amer. looking at the places he mentioned

J, when he entered, was distressed at the inattention he had observed, esp. of the leadership - many had been late, many were playing & joking - his own health is in a precarious state - his blood pressure was very high & he had an excruciating pain in his head - the doctor says he had small strokes in his head - he mispronounces some words

I named sev who held positions of trust & had not pd attention during the news - Carol Kerns & Jocelyn Brown were among them - I ascertained their lack of knowl. about current events - he questioned Jocelyn on her behavior in the town where she had not followed instructions & was resp. for an accident - I conducted an oral examination on the news - some, incl. child, had followed his broadcasts carefully - Joe Bean was one who read freely for his knowl, altho he cannot walk & his body is wracked w/ pain - Joe said he, me and (over)

a wooden bench during the rally & was very uncomfortable.

I remarked that another man was interested in Jamie Johnson, but he came up & he told her who it was - in a few mins he revealed to the crowd that it was the doctor - I called upon Stanley asking whether he was surprised that Jamie no longer felt bound to him - he admitted that he was - I sd, "You have learned what life is like."

A young woman ^{freed} who had been placed recently in the secure force had participated in a meeting discussing what should be done in cent. Emergency Units - she had disclosed the info w/ other people - recom. of the individual to the post was at fault - I allowed the capt. snr, and myself, to summon her.

A young man, of age, had violated a 12 yr old girl & she had screamed - counselors had exercised gr. care to ensure she was not psychologically damaged - I permitted her to speak with moderator.

Laurie Johnson was put back as l.c. - she who slowly & talks too much - Willie Malone was on the floor for serious flaunting of authority & had even argued w/ mother - aft he was firmly reprimanded by J. Johnson Jones & others, an effort was made to convince him.

that his method of resp. to his problems is in approp. - I recall the impression that Kildie has not heard from Beulah & that she may have left the Te, but I could not learn the facts

Michaelson Brady is back "in the box" - Barbara Walker is also in the box - no details were given about the letter - I had heard that one of her classes was discontented

Jed Tom Partack wanted to change his name to Tom Smith & he never wanted to stay here

At about this point one of the guards asked to see what I was writing - I gave him the notes I had been taking - I don't know whether this was because of the unusual sensitivity of the matter involving the secur. breach, or whether because J. had directed it be done - I heard nothing more about it

The mtg was dismissed at 2:15

When I got home I heard Ann Edwards let the curtain talking w/a man - I don't know whether Anita was in bed, nor whether Paddy was home - both might have been asleep - Liz was aware of the situation too - she sd "This shd be written up" - I agreed - at 2:45 as Ann & her friend were still talking, I asked her to send Karen

did not hear Anne come -

Had bhs & followed my mom. routine
When I ret'd to the cottage, I typed the
memo on Ann's behalf, not only that she
entertained men in the cottage but that
she & others talked late w/ a cons. for others 1/2

Date lunch - I turned in the memo on
the paper & Mary's cottage which is near
the medical & kitchen area - she was not
there

11 ↓ I also wrote an add on the paper & incident,
telling of my own acceptance of plantain &
shelling them w/ Helen Love

A cons. mtg of people attended the adult
riding class today & were grateful for the
instruction

I had a shower

Made yesterday's final entry

I have had trouble lately keeping the
correct time, as my watch doesn't work
well, & the dining area clock is erratic -
today, because my clock was slow I was
late to my first period class - I was
firm w/ the students however, gave them
some meter on Africa which I put on the
board for them to copy

I talked to the second period class
regarding their respons. & mine, consider -
the our leader's state of health, the point -
we have in being permitted to study

and attend classes - They all listened
+ were well - behaved for the rest of the
period

We had a Tchris' mtg after ^{while eating} classes -
Jain told me about it but did not
come - people in the pavilion were
clustered around the map while a tape
of the first pt of last night's rally was
played - Dick said he planned a Tchris
mtg on the - students were to send in
their project cases - the objct is a serious
eval. of all the studs.

I took all the plates back to the kitchen -
ret'd to my cottage

Ton we had a mandatory mtg of
all women 12 and over from 7 or 8 or - 3
Moray & Anita Kelly presided - Debbie
Jensen told about a few famous women in
U.S. hist, both white & bl & the Jr High
girls sang "Rebel Girl" by Joe Hill - there

is to give all our women a sense of their
own worth so that they won't measure
themselves by their relationship to a man -

were asked to turn them in to certain

12 Apr - W

Had lunch & went through my morning routine - it was time for me to get my medication.

After I got home I decided to spend all available free time typing my journal - I want to have a copy shortly of Carolyn Layton on the subj of my journal the security aspect plus pos. storage by the TC & I'd like to get some of it in final form - yes, if I am going to do it, I want to begin to catch up - this section on which I have notes begins on 14th Aug 1977 - I pushed out my 2 notes, using them for a desk & typed until I went to lunch.

For my adult riding class - because of the increased size of the group, the fact that most of them already can write, & the desirabil. of giving them some polit. & geographical knowl. leads to better understanding of talks, I have decided to drop the teaching of writing; give half the time to riding & the other half to politics & geog. - the class was agreeable to this arrangement.

I rode to the cottage & continued typing in my journal - I had some difficulties - the left hand margins were not uniform & I made mistakes in indentation - I decided not to try to correct such details.

About 3³⁰ as I was preparing to put
my equipment away & go for class an
old com. over the p.c. system - I put
on pants & socks, the water, my clipboard
& clock, & my pillow & went to the pavilion.
I was fortunate to get a good seat w/a
back & quite in the front - I th. no
notes

I stated that sev. problems had
arisen - the quest of our doctors &
pharmacists' cert. was still not settled
& they were requested to rpt. for a
heating a cert. date - "they are
not going" - this demand seems to be
linked the a tougher time being followed
by the govt - our sch as a part of the
Sug. system is to be approved as of the
1st of this mo. & this may be en-
dangered

Prime Minis. Burnham w/ser of his
govt. has gone to Sov. Rus. - Reid, who
is our best friend, is seriously ill -
some of Burnham's party, the P.N.C., are
disapproving of the trip to Rus & there is
sath. he an attempt to adopt a new
constit & policies which would be inimical
to our gov. - there was talk of a merger,
which was denied, betw the P.N.C. & the
P.P.P. - the latter's leader is for the
Jama. - J-gov was set to be a - angry at

The U.S. is back of this affair - the

resistance as pos. to any invasion but
we don't have the weapons to prevail in the
end - we regret to have to fight the soldiers,

cized not to follow fascist orders

We have another alternative to resolve -

bases in the jungle, take w/ us medical
supplies, food & equipment as long as our

refuge, such as Peru - I ordered wh to

forcibly read by Hue Fortson - prac-
tically all of those known to be our

11³ Apr an effort to surr to take the pressure off dedicated, gifted young people like Terrell Buford, I sent up a note to J //

11⁴ one of the first matters taken care of was calling of Jennie Johnson & Stanley Clayton on the floor - Jennie had gone to J to tell him that she "felt sorry for" Stanley - it developed that Stanley had come to her begging her to give him another chance. It also seemed that she had not admired Larry Schecht's phys. type, apparently thinking highly of Stanley's - I was amazed at her traditional female attitude - he tested Stanley's intellectual interests by asking him questions on current events - Stanley's mind was vacant on these subjects - I wondered what he & Jennie found to talk about //

The mtg was dismissed at 5⁰⁰ a.m.

I was up at 10⁰⁰

I did some laundry & hung it up
then for sleep

The mtg in the pavilion was resumed
at 12⁰⁰ - Again had a good seat

I saw the sit. had improved - the
doctor's certif. had been approved - Cuba
had agreed to our gov. settling there if
necc. - I had formerly approved purch.
of a boat which would go that far & it
would hold all our people & provisions
necc.

The Sov. Union stated that they did not
bel. the U.S. govt. will go to the right - they
are cautious in their support for us,
because they fear the outbreak of nuclear
war - The Tass (Sov. news org) up in
this area of the world will be coming &
visit us

As it developed, time on the floor was
divided thus: those who spoke on the
question of going to Cuba and those who
made proposals about what to do about our
enemies - I started by asking the aud. to
vote on whether they think we should accept
the Cuban invitation - he offered that
they might interview us & not take every
individual, for instance those w/ a crimin.
record, sure who blood in God - they do
not lk w/ favor on the pred. of homosex -

uality this it is no longer treated as a crime (in the S. Union it is not tolerated) - I himself wd not enter Cuba unless all our members are admitted - however, we cd not expect to remain as a grp w/ him as a leader; we wd have to assimilate - I described the city in detail as he had observed it - there is some elitism there but no racism - they are 10 yrs ahead of us in amenities.

As for taking measures against our enemies in the States, I saw he had rec'd few volunteers - he did receive more in the course of the meeting.

Planning cont'd on counteracting the demonstration planned in L.A. by relatives of the members - the loyalty & talents of our members in L.A. were commented on - I sent up a note about Beulah Pendleton, as I did not want to upset Willie Indone in case she has lost int. in coming to Bay - Michelle Davis, Fritz Wagner's daughter, was mentioned - she is the compen. of L.C. Davis & has a baby - sev people thought she may not come, as she has a liking for bourgeois comforts - L.C. was quoted as saying that he wd come only if he cd get for an airline in Georgetown - Michelle is supposed to come in 2 wks but her departure may be speeded up to ensure getting her here - Fritz was questioned & that she admitted Michelle's shortcomings, she was rather defensive (cont)

Braking up the opponents' demonstr., physically seemed to be contemplated, tho the lawyers warned of the risks of all of them.

We had a brk at 6⁰⁰ for dinner & rest, were told not to go to the college area - dinner was good, w/ some excel. greens & a fruit salad of bananas, pine-apple & papaya - aft eating, I offered to relieve Theresa King in the library where she watched to see that people did not walk off w/ the bks nor child. got out of order the bks on the shelves - when Teresa ret'd I rd Agnes, sitting at a table at the end of the pavilion - the sunset was partic. beautiful this eve.

We reassembled at 7³⁰ - I had the same seat but on one side was Charlotte Butler, who is fussy about every thing & she was discontented all through the mtg about the rm I was taking, altho she had a bag bes her

The discussion cont'd on the points taken up this morn. - I waited for a long time to spk - I was preceded by Carrie Langston whom I questioned on her att't to him - she said she was not grateful to him she would do any thing for him, she blvd she was God's child

didn't want to go anywhere where he would not be the leader - he told the members that it was because of such snobs as she that he would not go to Cuba unless they could go, but it was the very answers she gave which might exclude her - he stated that if one of his snobs was excluded he would not accept residence in Cuba that others could enter; he & the excluded ones would sail on the boat until they died.

Realizing that his remarks would be overwhelmingly influential in persuading the crowd not to favor Cuba at all I stated that we should nego. for admittance of all, but that I feared there were certain advs. of going to Cuba: ① our leader would have more scope for his tremendous talents in the field of intern. Communism; our young people would have more oppor. to serve in some of the struggles for freedom in Africa, as an example - I mentioned that the necessity of learning Spanish might be heard at some time. I did not hear my complete statement as he was conversing w/ somebody - James Garvey had apparently not listened to me - aptly wisely pointing out there would be nationalistic & jealousy to prevent from using his skills, she argued as if I

had spoken of educ. & profes. efforts for the youth - I th another vote & a very few favored going to Cuba - it was not pointed out then that the alternative might be the putting to sleep of all of our child. w/ concomitant damage to world communism.

With regard to our action on the Te demon- stration, all methods of breaking it up seemed to have been rejected - there had been much talk about the crimes & devic- tions of various "concerned" servants & relatives - for inst., Marie Katsaris had been freely molested by her father; Mark Wagner had photo of his father w/ nude women; Liz Forman had had sex w/ a minor in her custody; Tim Strom is a transvestite; Vicki Moore had had sex w/ her son as seen by her other son.

I sent up a suggestion that a leaflet be printed listing these crimes & devictions to be distributed at the mtg & made available to the TV cameras - making use of this type of matter had obviously already been considered as I sd there was of course be placards - a decis. as to any other kind of action was not made.

I called on all those whose relatives were on the steps (of the SF Te) to

Recommend what should be done w/ them -
all said "kill them" usually offering to
do it by various colorful means - the
only one to arouse any protest was a
proposal by Larry Jones (Tupper) that Mr.
Tupper & all the others should be put in
a big white church and that we burn
the ch down - one man objected, seem-
ingly because of concern for the ch,
not Mr. Tupper.

Those who had testified to the misdeeds
of their relatives were asked by the Radio
Man to give in the info, so I presume
these were to be made use of.

the time I continued w/ the phonetic
riding exercises - then I talked to them
about the polit. crisis in Guyanese
politics, explaining how we were involved
w/ relations thru Guyana, the U.S., & the
Sov. Union

Socialist techs met for an hr & a half, beginning at 7⁰⁰ - Bob Chr. presided w/ Dick Jann giving demonstrations of particle portions - I gave instructions to concentrate on the Sov Union w/ the expectation that the Tass repr will visit the classes - Trapp gave info on the hist. & development of the Sov Union w/ contributions from various class members - we then turned to the role of the Sov. Union in various liberation struggles in Cuba & Africa - Jann gave a summary of some of these at the board

While we were meeting we were informed on the P.A. system that some of the relatives of members here were organizing an invasion by mercenaries to "take" these members dead or alive - Donna Ponte's father & the parents of the Obivers were specifically named - the ^{entire} area was put under strict security controls, some of the sons were gathering in the pavilion & Vern Doney, w/ whom I walked home, sd it was a fire - alert, sit - I expected that we might have an alert tonight

After breakfast & my morn. routine, I spent the morn. making out my inventory - went through all my possessions & listed them - then got out my typewriter & typed the list up - Versnel & Joz had done theirs last night - I don't know if & when the others did theirs - I turned mine in on the way to lunch at 12:15 & was complimented by Bev Livingstone for its good appearance.

I had lunch - did not attempt to hold my class, as preparations were being made for the visit of the Tass repr.

Worked on my quilt - I had fallen beh on it during the crisis.

During the day I learned that when our board lvs, Tom Carolyn Layton, Dick Trapp, Tom Stubbs, & Harriet Trapp are going in for an educational seminar in connection w/ our sch's acceptance as part of the Guy. sch. system.

The news over the p.c. system was good - the Guyanese govt. will repel any kind of attack by mercenaries, is authorizing us additional ammunition for our use, & is appealing for our partic. in the coming

when Burnham has arrived, will give
him assistance to stay - they have already
a generator so that the lights & water
crisis in New Town is over.

I tried to take on his map but only
succeeded in doing a bit.

Went for dinner at 6⁰⁰ - the school, for
the Tassie's visit & evening activities had
not been clear - finally I learned that
on the arrival of the guests was
announced we would have our pol. enlighten-
ment classes - by that the band was
give a concert - if the guests had not
arrived by 9⁰⁰, pol. enlightenment classes would
be held then.

I went to the pavilion - Jerry Brady, who
has some authority over seating, asked me
to help integrate in the rows behind the ones
reserved for guests - I went home for
my socialist class material, then sat in
the spot assigned to me next to Joan
Luce & old Africa which Marian had
given back to me.

The band rehearsal was interesting,
but I did not care for the concert itself,
which started when the guests arrived -
it was an hour or so before they were first

At the pavilion - then dinner was served to them at the back & they moved back occupy the seats in front - J. & his staff conferred w/ them over dinner - J later complained the band music was so loud they could hear each other

At the end of the concert we were told to go home quietly - directly thereafter we read we not to go to bed but to be prepared to get.

11/2 Movies were also shown in the dining tent & I went down for a while to see a film showing African animals, but it had not started when the guests arrived //

I lay down - at about an hour we had to get to the pavilion - we were cautioned to get

this was agreed upon

The regulations regarding sex came up

quarters she occupied w/Bobby Stroud, altho
they are continuing sex. relations - she may
be pregnant - J was dubious whether such an
arrangement was conducive to good child
rearing - tho, ideally, complete freedom of sex
actn should be allowed, the Russians reported
that when they experimented w/it, it disrupted
family life

The subject was open to debate & sev argu-
ments for allowing relationships tho the
parties lived in different quarters were
heard - the diffic. of enforcing birth con-
trol measures was an issue - sd J: "we
simply cannot afford any more babies now" -

the desirability of talking & learning what each other's ideas & principles are was continually emphasized by J. - the final vote was to let the regulations as they are

I asked all those who had been violating the three-month ban or say to confess & receive amnesty; if they did not, they would suffer a severe penalty when found out - as far as I can see, no one confessed etc Shirley Ann Edwards & Amanda Griffith, who were already known

The mtg ended at 3 - & I was in bed by 3:30

We were on a 2-hr late sched. - I
had bread arnd 10⁰⁰; 2 doughnuts w/cond-
ing, milk mixed w/egg, & coffee

I made out my sched: of actors
& wrote in my journal

X I & the staff conferred in the pavilion
w/ the Tass report made of the day - they
seemed to do very little touring of it
facilities but I heard he the picture
type which was not in our program
I heard him described as a "nice man" by
Sharon Amos told me we were just
ahead of the Russians in social de-
velopm - I bel she meant in personality
type - he himself appears to be an exemplar
of elitism - he was not a late learner
asked at our lack of refinements - he asked
where was our TV

Harriet is not going to the tour
not think it wise to replace the staff too
much

The day ... I ...
the dining pavilion - I did not know what
the sched. was & I waited
when dinner was served ...
while I waited

Talked to Edith Park
last w/ the Russian ...
Jerry Park & ... mother of ...

(over)

(-2-A-2 (79))

she had been quite ill since her arrival - her blood pressure dropped drastically - she blames the bed - she sd the Russian was seasick on the boat - Edith Cordell was in the dining tent too w/ Mark waiting for dinner - she lives in a cottage w/ 2 young women, a nursery sch. teacher & a medical worker - They stalk & turn the lights on late at night, disapprove of her disapproval of Mark, make remarks such as "What can you expect of an old woman?" One, while menstruating, sat on her bed & bled all over it - I told her to write it up

Dinner was served at 6⁰⁰ - we had cassava curried w/ pieces of chicken & other

Socialist classes were at 7³⁰ - word was passed around that the Russian visitors were resting but that he wd give us a signal within a few mins. of closing time which wd warn us the guests were starting and to observe classes

Mr Jackson obviously wanted to be the one who was teaching while we were visited by the Russians - I therefore offered to start w/ the news items & he taught the material on the Sov. Union - I however volunteered w/ items news & then - I arrived when we were within 15 mins of closing - !. & This guest came through but I did not stop to hear what we were doing - I was told he

was taken to observe a demonstr. class
taught by Harriet Trapp

The classes ended about 9 or 10 o'clock -
it was announced that a film on the Oct
Revolution would be shown in the dining
room pavilion & then 2 other films, "The
Child of the Damned" & the one on
Africa - treats would be passed out
there too - I noticed that J. & his staff & the
guests resumed talking in the pavilion
while the band played there

I wanted to see the Sw. film but
after standing in line for treats =
cookies this wh = I decided not to
wait

I retr'd to the cottage, rd African -
Jez came home too - we went to bed
at 11 or

I was awakened by talking & laughing
outside our door - I waited some time
for this to stop but it went on - I
got up, saw Shirley Ann Edwards &
her young man friend whose name I
did not even know yet - I protested
the noise - they denied being loud -
I told them they woke me up & I was
writing them up - the young man
retaliated w/ obscenities; his own very
remark being to call me a "bitch"

came up & I told them what was the
trouble & they did nothing (I think Ann's
friend is a member of SAT) - I went to
the toilet - when I ret'd the four were
still there - I repeated my complaint -
the young man said I was a "filthy bitch,"
very angrily - I don't remember Ann
saying anything

It took me a long time to go to sleep -
at about 1⁰⁰ someone came w/ flashlight
11³⁰ it was 12³⁰

Looking for Laure Johnston to do her second
shift - she was off l.c. but wasn't home -
she told me later she was cutting up
fish which came on the boat

The staff mess door was moving too - they
were making arrangements for people &
materials to go on the boat which was
lying at 4⁰⁰ - I went to the toilet a
second time & asked them if they wd
be quiet - They were pleasant about it

11³⁰ over the p.c. I released all or most
of the people on l.c. outside the usual
routine - The sound was not loud
so as not to attract the attention of the
Tass men & I cd not hear whether
those on l.c. have to go back and when
the Tass visit is over //

17 Apr - M

We were on the normal sched.
today except that I learned in the
p.m. that h.s. classes would not meet
& students were to go to their work
proj. - everyone was quite tense from
the strain of the past few days.

I had bkfst & got my medication
w/o much delay.

The Russian & his wife ret'd to
Georgetown by plane - on sev. sides
I heard he was not used to roughing
it - Lisa Layton who I knew had
been introduced to the couple told
me the wife spoke no English which
surprised her - I think Lisa was
to be used as an interpreter in German,
but she said the woman spoke only h.s.
German.

I washed clothes

Ate lunch ^{riding}

Met my adult class - I announced
the class on the p.c. system & the largest
no I have had yet come - I had just
the 1st. no. of bks - I started with a
phonetic review of the sounds we have

had so far, drilled on the newest one =
"R", then went on to start a lesson on
Mozambique

Took my shower - as the athlete's foot
fungus has broken out again on my
toes, I went to the pavilion for treat-
ment from Margaret James - she told me
that the Medical Off. had asked her to
send people w/ blisters to the clinic, as it
is held that this is a diff. kind of
fungus. - I was told to go at 4 or

I wrote a rpt on the incident last night
involving Ann Edwards & her friend whose
name I think is Amanda Shipforth - I
had been told to turn it in to the
Radio Rm but Paula told me none of
the councillors was there - I got turn the
rpt in to Christine Lucientes, which I
did

3/ I hid on my quilt during the apt

^ Went to dinner at 6 or - it was very
good - we had fried fish, rice, okra,
a fritter made of cassava meal, & a
fruit salad with pineapple & papaya

Changed clothes for the rally at 7:30
too late to get a good seat in the front
section

Dale Park made announcements - I
announced a meeting of the adult class then left
the women's meeting

A press conf. was to be held at about
10⁰⁰ our time in SF at Chas Barry's apt.
in which the Te planned statements to
retut the accusations being made by the
so-called "Concerned Relatives" - we heard
a rehearsal of the statements to be sent
on radio by our people whose relatives were
making charges. Harriet Tapp made the
opening statement - Those giving damaging
testimony were: Mark Wagner, Hani Khar-
saris, Stealey Breidenbach, Elaine Harris,
Donna Parks, Billy Jackson (Oliver), Chris
Rozynko, Magnolia Harris, Al Touchette,
Mary Griffith (concerning her grand daughter,
Dana Truss), Carl Kerns, Bob Davis (re Liz
Forman), Barbara Simon, Cassandra Brown,
Christine Young (Cobb) + Marceline Jones who
sd she was going to sue for defamation of
character of Jim Jones - sev. corrections &
changes were made - Those involved retired
to rehearse the final version - the conf. was
to start in about an hr

Mary sd that some mothers were

the story of the murders of their babies by -

C-2-A-2 (85)

if the mothers didn't care any more than that about their babies, perh. their babies shd be given to someone who will love them

Another incident concerning the young man, Jerry H. Olson, recently involved in the rape case was heard - I ordered him not to even be like he was interested in sex until his wife is proven

I sd he was sorely displ'd by the piggery area during the Tass rep's visit - there was disorder, guin & mudholes - the pig areas were dirty - the chicken l'd good - there was further testimony on offensive compost pits, flies swarming - the hogs & cows were not shown to good effect - the Tass man was not impressed - he was, however, overwhelmed by the medical services, partic. by "all those Guyanese getting treated" - I wanted an inspection com. to go over the piggery

I sd also that the staff kept him high & dry & a cruel pt. in the talks w/ the Tass men on the black plight in the U.S. - I brot up their int. in self - "many of your guys want sex w/o responsibility."

At this time I went to observe the press conf - the mtg was then conducted w/o microphones, prob. so as not to interfere w/ the radio transmission - Johnny Jones presided, Agricultural rpts were heard: imm. action

told of a disease in the kidney beans - the crop rotation plan starts this week - Beatty Flowers is working in soil analysis, is doing very well

Ernestine Blair said that all who handle insecticides must take Vit. C

Jay Mitchell on the piggery, said disease in the pigs was caused by the commercial feed - an additional holding pen is being built - he needs hay for feed as the rainy season is approaching & there was a disc about fuel for burning to control maggots - a new disease caused by the hogs having their feet in water was giving trouble - rats are eating bags of sugar, rice & cassava stored in the area - Johnny Jones will look at the site.

But they, working on the chicken, gave a report on recent mortality - Jack is in charge - town to help w/ problems - the first batch of chickens are getting weak, one wk from slaughter time - they should be brot up & killed so that they don't lose wt

John Harris is establishing a bacteriology laboratory, intended to do all the lab work for diff. depts such as agric & med. He will ask Steering Com for a site

!! I was not able to hear everything & missed some details!!

Praises were not; Janet Lenin organized for watering the kidney beans - some brothers were in the kitchen so that the sisters could attend the women's meeting - Chris O'Real, a new bro., who 18 hrs straight on the fish boat in on the boat - (I had been introduced to Chris - Edith Parkie told me he had been in the Te only about 4 mos - he lived in Black - he suffers from grand mal epilepsy & lost a lot of many jobs because of this - he is a friend of Brenda, Edith Parkie's sister.

Rose, Mrs. Night (formerly Pearson) gained 10 lbs while on the crash diet - she ate extra food from people & put sugar in her tea - Rose & the persons who gave her food were on the floor - she is a compulsive eater - it was reiterated: do not give extra food to people who have a wt probl.

Ellen Klingman does not get along with fellow workers in the bakery - Stanley Chigton has infractions for being late & taking liberties at hrs.

I had returned off the press conf - he reported that the reporters did not even take notes - as he had predicted, the capitalist press would not print any of the press conf mater - the press was silent on the issue of sending mercenaries to

May, an indep city where they were going to use viol. - they can't say anything because they're guilty of conspiring to commit a crime - it was a ST. Peter, the Chron which announced the intention to hire & send mercenaries to kill & kidnap

I remarked on the relationship matter which was to be voted on again & decided that there has to be a unit somewhere which can spread to the larger community, a family - it was common knowledge that some are cheating on the regulations - men are getting a cocky attitude - as for the women who encourage the attitude, "you bitches, I'm going to come down on you hard" - we're running out of birth control pills - we just can't have any more babies - Mr. Strut-Ass walks up & down doing nothing while you do all the work

I had to call out the East IL leader he had in the States, Huei Johnson who can't choose between two women - he was married - his worried about Phoenix & now - she is now interested in Eric Spokan - Betty Moore was set to be Eric's girl friend before - Eric when told Betty was pregnant, sd, "hell, no, I won't marry her" - he didn't feel it was his baby -

Rhonda is in the town - the color
collected from SF

Christa comes back up on L.C. on recom-
mendation of the teachers - she had a fight
w/ Mr. Klingman - I reviewed the case -
Christa feels jealous of her brother Martin
who receives praise all the time - I sd
she was in no way inferior to Martin -
they are both geniuses - people shd stop
giving Martin so much attention - I
sd the details of the fight Mr. Sta had
w/ Mr. who has a foot pattern - Mr.
had taken her shoe, which was itself
an act of violence as all are required
to wear shoes - where was the teacher
supervision when this happened? I
pointed out that Mr. & Mrs. Christa
lives w/ her mother who is serving
the cause in Georgetown - I decided
Christa is released from L.C. - Mr.
stays on

Mary insisted on Stanley telling
what happened to him - he was described
by an electric drill; his hair was torn
off but because of it the bit didn't go
into his head - this happened Th & he
hasn't testified about it - I spoke of the
danger of not giving thanks for miracles -
we need a sp. period for gratitude.

on the p.a. system

I sd any woman coming in on a relationship is going to be severely disciplined - he requested that Betty Moore's case be the first heard at the women's mtg tomorrow

X The mtg was dismissed about 10

I went to bed at 12

11² Marie Ketsaris brot to me to sign the first Social Secur. checks I have recd - there were 2 checks & I bel they must cover payments for 3 months, which would make them up to date //

11³ ~~High school classes did not meet today - students went to their work projects~~

11³ I went to the clinic at 4 for to have the nurses lk at the fungus on my toes - Judy James put some disinfectant & ointment on it & bandaged it - I have to have treatm twice a day //

11⁴ Another vote was taken on relation-ship regulations - many seemed to bel, I sd, that if they don't vote for the regula-tion, they don't have to abide by it; they can do as they please - this is not true - what the majority vote for will be enforced on all - the vote was unan- imous for the present regulation //

Had dinner early - we had tamales pie
Registered for treatment at 6⁰⁰ - was
not admitted to the clinic until nearly
7⁰⁰ - had to stand most of the time as
people eating dinner occupied the benches -
talked to Rita & some length

Emmy Hill had spoken to me last
night at the rally about getting another
assignment - she didn't know how to
complete the first one - I gave her
some hints & told her to see me
today either at my class or while I
waited at the clinic - I am still very
unimpressed about the women - May
told me she had walked off from the

told her she told me half-truths -
she also revealed she had discussed
her college plans w/ J & maneuvered to
get his blessing on them, which I fear
she will attempt to use in some way -
I told her what to do on my first
assignment & gave her specific directions
on riding about Africa - she seemed
rather disinterested about the amt. of work
expected

Sue Kopon treated & bandaged my foot
at 7th was the women's movement - a
film from the Sov Union first by the Tass
rpt was shown first - it was a the
Sov woman & had some romantic aspects,
criticized by our female leaders as an
attempt to appeal to a wider audience
as signs that the Soviets, the founders
of Communism, were not as advanced
as later gyps such as ours

There was disc about male chauvinism
& women's concept of themselves, Betty Morris
being used as an object lesson - it was
agreed that very severe treatment would be
accorded to a woman who moved in on
another woman's man - the meeting ended
at 8:30

I wrote in my journal

Bitia brought me a letter from Patti Chestain
which had no doubt come w/c passenger -
she gave no partic' news except to say they
were all waiting eagerly to come over

I had lunch

Then taught my adult class - I had a new
stud who already has some ed - I reviewed
the sounds we have had already - spent
the second half of the period telling the class
of recent polit. events in Mozambique

Had my shower

Worked on my journal again

Went for dinner at 5:30 - we had chicken
(these were the ones I had killed early as
they were failing & I had lost wt) greens,
pineapple - (no starch was served w/ this
meal - I bel I heard I say on the p.c.
system that he wanted more variety in the
menus & in recent days we have had it

Had my foot treated - Nanda took care of
me this time - on Lisa Layton's advice I
spoke to Joyce Parks on the guest of being
taken off Premarin, as Larry Schacht has
never had the time to give me an appt. in-
Joyce sd she didn't see any reason why

I was giving the news & having people
in the pavilion lk up the places mentioned
on the maps

At about 7³⁰ I announced a meeting of my
adult riding class; however, there were sev.
events proceeding at the same time: steering
com., counseling (Ann & her friend were not
mentioned), quizzes, incl. a Russian short
which I wanted every body to see - sev. of
my class members told me of their
intention to attend one of the other activities &
I was sure I wd not have any sizable
no, so I told the few who were there
that I was cancelling the class

11/ I had already told h.s. students he wanted
a 2-page summary of the news from them -
he now added that he wanted every other
member to turn in one page - I felt very
discouraged as I thot I might as well
give up on my adult class

I watched the Russian short on "Red
Square" - the inept plot was a Spencer
Tracy gangster film, so I decided to go
home

I rd African until I went to bed at

apt. bkpt I decided not to go, treatm
for my foot, as it seems to be getting
better, and one has to wait so long at
the Medical Off.

Did my washing - Esther lent me 2
buckets & I used them at the benches
on the fence at the end of our row
2/2 cottages

X Went for lunch at 11:30 - stopped at
Christian's cottage to see Vernetta, as
she had sd I sd have a list of the
news items which she has been writing
up for posting - But sd, however, she
was helping with inspections, & I did
not see her

At lunch I met with the adult ed.
class - I asked them if they wd appreciate
using the entire period for studying news
items, as I is ^{now} requiring 3 pp on news &
the Russian movies from h.s. students &
2 pp from everyone else. They wd be
favor of this & I handed 3 directions -

as usual - got a plate & ate dinner & waited
again - then found that my name for some
reason had been passed up - I had Sue
Jarvis again to treat me & she was short
& clumsy - I did not get out of the clinic
until 6⁴⁰

I had to put on socks & get my pillow so
I went home

When I came back there were only about

This was an extremely hard day for me

We were on a 2 hrs tele schedule, went straight through until 7 or w/o lunch

I waited again a long time after lunch waiting for my first treatment - Magnolia finally realized I should have priority as a teacher of field workers & by seniors - I was on my feet while waiting but had diff. because people are so concerned about their assigned news item paper that they sought all kinds of help: the writing itself, paper, pencils

For the second time someone stole the news items which had been typed up & posted on one of the dining area tables - when I left the area I went to Christians' college to see whether I can get a copy or had a copy of the news which she types - she was not home but I saw her on the path - she told me they had a copy & was making more - I went to the Bible Depository & read the copy they had, making notes for use in my adult class - arrangements were made for paper to be obtained from the agric. office

A lge no of people attended the adult reading class - I planned to spend, as yesterday, the whole hr on news events but ended by teaching for 2 hrs - I had to

(over)

get the for people to write a, hand out
paper & pencils, deal w/ problems such
as those who have troubles w/ their eyes, &
questions of all kinds - I offered sev-
ing news events & wrote short summaries
at the board, hoping that they wd be put
into people's own books

Ruby Bro. in chicken Bored to participate
& the U.C. on which Willie Malone, is
now a coordinator approved his sitting
in on the class, but I am not sure how
much either are benefitted

I scrubbed the cottage floor, having
borrowed a bucket from Ruby Carroll's
housekeeping unit - I used soap & then
rinsed

Took a shower, washed my hair &
put it up

Typed up my own paper to turn in to
the polit. enlightenment class - as a
teacher I may not have had to write
one, but I wanted to - as required, I
included as well as a page of news
items w/ comments, a page on the Soviet
movies & a page on what I want to do
for the cause - in the letter I emphasized
teaching Eng to young & old, writing my own
memoirs & other material, for sale &
a few other acts, & expressed a willingness
to die for the cause should it prove me

Dinner was excellent - we had curried
chick w/ chicken's necks & pork bones, rice,
pumpkin as a veg, w/ a roll - the meals
are ~~totally~~ much more varied

Went home & changed clothes, wearing
the pants which Albin Thomas fixed for
me

Don Jackson is in Georgetown so I had
to conduct pub. enlightenment class alone -
I collected the required papers very
carefully - using a list of names &
terms about the news events on the board,
the class members discussed the who's
news - participation was excellent - J. at the
end of the period on the p.c. system
expressed disapproval that some had
copied from 'their' papers (I hope he was
not referring to the snobs who copied
what I had written), & sat next week
the teachers will give a written test
in class - class was from 7³⁰ to 9⁰⁰

Went home, very tired - Anita's attitude
to me seems normal, Ann says me no
attention etc to borrow my mirror

I was told J at the end of the class
said he had a dream that there was
radio active fall out over Ethiopia,
& that when he had a dream like
this in the past it proved to come true

At 3⁰⁰ I went to the clinic where I had
an apt. ment w/ Shawanda Jackson to have
my teeth cleaned - she had been very
caval about the apt. ment & I did not
expect her to be there & she wasn't - no one
knew where she was - I waited until 4¹⁵ -
left her a note

Went to dinner at 6⁰⁰ - I tried to check
in at the Dispatch Off but they said I had to
speak to Ellie Beatty who wasn't there - I
saw her later in the dining room pavilion

Went to the pavilion at 7⁰⁰ for the rally

rained in - people started to climb under
benches & were told to keep down - the
lights were put out - the children were
remarkably good - others had to be ad-
monished to stay down & keep still - I
remained in charge for some time, giving
orders & explaining what was happening - he
got down only because he was the leader,
he wasn't frightened - the dense gyps were
at the invaders instantly & I announced
soon that we "got one of them" - no one
on our side was hurt - I remarked that
114 the lights went out - there was some delay
in getting out the light over J's head, of which
he complained as it targeted him!!

I left the pavilion to investigate the action - he wanted to find out if the man we had hit was alive, as he might give us valuable intel.

I drew my pillow down to put my head on & was fairly comfortable - an elderly woman in the back had to crouch, didn't have room to lie down - I was most worried about my clipboard - I find some of my papers. The shooting just started around 9:00 - I thought we might be lying on the ground all night but the emergency ended in about 40 min - fires were lit around the pavilion which I didn't understand, but learned they were a signal the danger was over - I got the man we hit was taken away by his companions - we didn't know whether he was injured or killed, but he didn't get up - the light was put on.

Comments: I.e. heard of those who had tried to save themselves but neglected child, didn't follow instructions, and so on - the greatest now was those who went to sleep - about there I was indignant & put them on LC unless they had a record of extra work.

If our guests did, might action in the future when they go back this or that time, or how to handle them with much care - we will tell them.

Other behavioral complaints were heard - many got an h.c. - prizes were also given

I fully expected we wd be called back to the pavilion Tom morn, if not req'd to stay there all night - Versie did receive instructions that we were to have our clothes ready to put on

I dismissed the mtry at 2³⁰, giving us a 2 hr delay in the morn, working through until 3⁰⁰, the mning wd have preferred to get up as usual at 6⁰⁰ & get off at 12⁰⁰

No alert sounded during the night & I slept peacefully until 8⁰⁰

For breakfast we had sausage & biscuits w/ syrup - we usually have coffee on Su but today we had tea

Had my foot treated

Wrote in my journal

Cont'd w/ all my tote bags - the straps on the Indian one I botched. Coz Plus had become frayed - I covered them w/ plastic taken from the other bag & reinforced the jointure w/ spots

Took my shower

The day was hot & muggy w/ no rain

Dave & Rita the driver of my trip to my sisters & Lor - Rita told me she

staid on the Indian bag until dinner time

Went to dinner at 6⁰⁰ but had to wait a half hr or so b'c service was started - I was bef. Edith Cordell who, asking of how much laundry she does, revealed that Mark still wets the bed - he is 4 1/2 - she didn't seem to worry about emotional problems he may have

For dinner we had rice, okra, fishcake & a bun

I worked on the bag for an hr or so longer & finished it

My friend me her electric hair curler - my hair is getting longer w/ curl only at

her 2 caged child, Donna & Tony Briggs (Linton)
arrived - she had had a good deal of
difficulty in getting the child. here, but w/ J's
help finally succeeded

An entertainment prog was arranged for
the guests, consisting of some of the pieces
presented in New Town - I stayed until
almost the end - cake was handed out,
this was the treat

I went home about 10⁰⁰ - finished reading
Introduction to African Civilizations by John H.
Jackson, w/ an introduction & bibliographical
notes by John Henrik Clarke - I also per
used of The Man Who Cried I Am by John A.

Wrote guests' joint entry

We had visitors to the house, as people
weren't permitted to form lines for lunch,
until they were given - which took lunch first
as they had been waiting since 11⁰⁰ & had to
start at 12⁰⁰ - consequently, it was a
little late to my adult class

As I expected, a lge no came in for instruction
on news events, but sat not unmanageably -
disturb of paper, pencils, tho to write on the time -
I had notes taken at 5:00 p.m. & told them of
3 events, putting main details on board -
they seemed very grateful

Started to read & take notes from Teaching

Over the holidays came a call for a techs
mtg at 3⁰⁰ - Dick Trapp gave us a rpt on the
happenings in Geo'town regarding the acceptance
of our sub into the Guy sys & we are subj
to their requirements which are very precise -
we have to follow the objectives adopted &
present rights as to how they are being imple-
mented - our studs will take Guy Tests -
they will not pass into a new class nor
grad if not successful - attendance rules
are strict - we have to keep careful records -
our arrangement of classes will fit into Guy
forms - a mtg w/ studs was proposed &
adopted

For their first class at 4⁰⁰ studs came to
the pavilion & Dick explained the new sys &
answered questions - some of the techs, starting
w/ Harriet, Shirley & Jenn, spoke, taking a
hard line, which I thought threatening, about
discipline & lofty expectations for the future

The techs then met their second period
classes - I personally moved a heavy bench
w/ no one offering help so as to provide more
seating - then I asked for help in moving
another but no one heard me - the class
was noisy & persisted in its disorder for fif-
teen minutes - I complained about being given no

help - was told (A) I should have asked for help, & (B) when I did I didn't ask loudly enough - of getting pencils & paper distributed. And the class officers' class - offered them - class members gave news items

I forgot that there was to be another meeting at 15 minutes in 15 mins - I put my materials away & went to the bathroom - then found the dinner line was already long, probably because the menu was exceptional

We had as well as rice & chow, a large piece of pineapple & a small mango

X I found the tables & chairs, not in the hall in as arranged now in the school tent, but in the rice tent - the tables were burning in them

1/2 Making my dinner plate w/me, class lists to Dick & then commenting on the state of the class members - I told them mine were unruly, that I thought a meal was made by the tables who had handled the students in the general meeting - he tended to agree w/me

I did not see Versie, was a bit to know how to register my presence - the list of will be in the ... Elie Beem is there - it will be ... in the ...

news, I announced my adult lang. arts
class - in a few mins + people
streamed in - I had to move sev. benches
to take care of them - I suggested that because
of the diff. of finding time for class mtgs,
we adopt a prog. of directed study or
individ. instr. to guide their rdng, that
I wd give advice & help them find bks -
they seemed to like the idea & I then
introduced them to some of the available
ref. bks in the libr.: Fowler's Modern English
Usage, Roget's Thesaurus, & Barrett's
Familiar Quotations - I had them look
up sample words in each & showed
them how to use the bks - they cooperated
enthusiastically & sev. expressed their
enjoyment of the lesson - we stopped at 9:30
11/3 I had them take a spelling test of the
four wd I had given them at the last
mtg //

At home I rd The Man Who Cried I Am
Went to bed at 11:00 - the cottage th a
long while to settle down - then I was
awakened at 4:30 by people checking in w/
Vernie and/or the SAT patrol, didn't
get back to sleep until there was further
commotion at 5:00 & at 5:30 someone's
alarm in the loft went off - I didn't get
back to sleep

J has been indicating in his broadcasts that people who fail the test on news events will be assigned to attend my class - then they will be given another test & if they fail that, they will go to L.C. - of course I have no idea how many people wd be involved, what time of day the class wd be, nor what facilis I wd have

Phyllis Chinkin, who is coordinator of the med. dept., told me the dept wanted me to give a daily talk on current events - she apparently means on a going basis, not just before the exam. is given & I told her I wd come on the 2nd of this wh; any further plans I wd have to disc w/ Dick Tropp - the med people are mostly confined during their working day & wh look hrs, so they have little oppor to hear the news

I whid on my jrnal entry
Had lunch

A lge num of people attended the "news" class -

time to copy them from the boards then & know the teachers wd erase them when classes started //

some of Teresa's news items were still on the board & the class members were copying them - in the time we had left, I added a few more items & put details on the board
The my shower

x Copied the etc to my sisters, made one carbon - will copy it again w/ another carbon

My first hr class behaved well - we whd all news items

The second hr class was unruly - the trouble seemed to be that they resented having me assigned as their teacher, Janni having been assigned in the first place & we got to wh on news items & their attt improved

I got my plate - the main dish was a pastry corolla w/ a filling topped by a pineapple sauce

Janni & I hid for Dick, as we're supposed to have a check-in meeting w/ him every day at 5:45 - we didn't find him - I mentioned the attt of my 2nd period class to Janni - told her they resented being assigned to me but that this was prob an excuse - they are rebellious adolescents seeking an excuse to complain of adults - we agreed that switching classes had not whd well - later I went to the sit off & find Dick there - told him I was having trouble with 2nd period class

Went to my college & changed clothes

back from LC & he was prof. the lesson that
the period opened w/ disorder - I gave my
first class & matters improved - I used
actual news material in the class members -
I used the categories mentioned at
discussing world news events

The 2nd period class was
very distinct that the news
was very different from the C 1
They seemed to give a different
take - it was a handwriting - I gave them the
complete w/ much more being than in

Dick distributed instructions to them - I didn't finish my CIA efforts

Ate my dinner

I was putting great emphasis on news broadcasts - he has been mentioning that those who fail the test will have to attend my class & if they fail a second test then will be put on L.C. - I saw Dick Tropp & turned over my ^{class} attendance to him - went to the college & checked in w/ Hattie

There was a women's meeting at 7:45 - it was good to hear from her, of which steering com. we meet - Harriet Tropp gave a talk on women's role in the discovery (she called it "revolution") of agrib. - I then came in & demanded a hearing & action on the "bitches" who had disrupted his leadership so that he did not have a single bl male he could send to SF. - "you women will not follow a woman, you know you won't" - he withdrew - Ava Jones got on the floor, & w/ Mary, made vehement accusations agt sev women who had led Johnny Jones on to think he was a romantic hero, to neglect his Te x duties & his child. - two of those named were Joanne Hayden &

it was not be given at that time - I
walked down to the dining area w/
Mary Castello & saw that the news items
typed up by Verneette Christen were
posted - It was too dark to read them,
but I intended to look at them in the
morn.

Took a very few mins before going to
bed - I was very tired

Dr. DeLoate

27 Apr - Th Julius Evans

Had a very difficult day

Typist got my foot treated - Del Parks told me I didn't need to ret. - the blister is healed & the itching has stopped.

Intended to copy the news from the wall but it had been taken away, no doubt stolen for someone's pers adv. - numerous people were handicapped w. -

I didn't get any writing done in my jail - made corrections in my ltr to my sisters & Lou, address'd envelopes

Went for lunch

Had the adults class - a huge no. of people came seeking help for Tom's test - the test had been orig. planned for F but because the dentist is coming, the test had to be taken Tom

I hoped to type up a few cc's of new events to distrib in such a way as to benefit the most people pos. & I got a couple of pieces of carbon paper from Joyce Touchette -

As soon as a heavy rain was over, I took a shower

Rushed to the meet off where I had been asked to give an hrs talk on the news - the bldg is still being repaired & rearranged so the agitational mtg was held in the dining pavilion - it was very hard to talk w/hammering going on & at the same time a heavy rain fell - I pointed out the chief areas of conflict b/w the capitalist & communist forces & reviewed the main events which had happened the past wk or so - the 11 ↓ also, other gyps were talking and wll

(over) C-2-A-2 (134)

response to my talk was good but not as enthusiastic as the adult class

I prepared for my aft classes - I had hoped to do some typing on the news events but didn't get time. Sheronda James (Oliver) asked if she cd use my t.w. so I let her use it in the college

My first period behaved satirically etc for Billy Jones who had to be indulgent. I asked who in the news events

The second period class was again obstreperous - I started on the news at their request because of the test item - I was writing items on the board & going into the Chynard when they saw Janice lecturing on the news & deserted me for her

The high sch classes have their daily soc class at 5:30 & as they gathered for that, I saw Stephanie pummeling her bro, Billy on a table - I told them it was very undignified - I asked them if it wd not be bad if a Guyanese officer walked in at that moment, saying to Billy that he behaved as if he owned the place

I got my dinner

We had Tchris' mtg & discussed probs, incl. mine w/ Steph & Willie - Dick called in Steph to spk to her, possibly because she is a teaching asst. - she shed some light on my class's attit. - she sd Janice gave the

news faster than I did - she indicated the students resented having me for a teacher as they had been scheduled to have James. I went home & made prep for the meeting of the soc tchrs in the lunch tent at 7:00 - w/ Bob Christein as ch' man, questions were drafted for the test on the news - they are to be turned over to J for any revisions he cares to make - in the midst of a gr deal of tumult we suggested 15 questions for those under 65 and 15 for those over 65 - we finished just before 8 o'clock when the socialist things were to start.

I dictated the questions, giving them from the two categories alternately. I he. Cassel to tchrs' questions but revised them slightly & giving explanations that made them clearer. However, he ran them rather fast - people could answer questions from both categories & gain extra credit - those who could not write were to give their answers to the monitors who wrote them down, but I heard later that could not cope w/ the mt who needed help - I wrote the questions into a book. (It was through w/ the soc tchrs, I had to ans. num. inquiries about specific questions.

(over C-2-A-2 (136)

Took the tests over to Christian in the
parlour - there I found Willie Malone who
had not been able to write the answers
nor find anyone willing to do it for
him - he asked either I take the test over
with those who had been working too or
ask me to do it - altho I was very
tired and doubtful how much Willie
knew, I consented to do it - I found that
he did know a surprising amt & under-
stood some events very well.

Went home about 10⁰⁰ walking w/ Lisa
Rd for a few mins - a convers. w/ Mary &
Laura interrupted me
Went to bed at 1130

28 Apr - F.

Had my adult class at noon - a
bye no came

Washed my hair

In the first hr class I gave a spelling
& vocab. lesson from an eighth grade
spelling test - Willie did well on the
meaning of words

The ~~rest~~ of the 2nd hr class was not
good when they entered - the noise of the
band rehearsing for Georgetown appearances
made speaking & hearing extremely diffic. -
I decided to put the terms used in Intel.
on the board - some of the studs questioned
why they were learning these - I remember
particularly an almost hostile tone of Donna
Bonts & Anita Greene - the gen feeling was
not cooperative; others kept silent, but I did
worry - I decided to abandon the CIA topic -
gave the class ^{an assignment} from the spelling th used in
the former class - they consented to this
for my dinner.

The ~~thesis~~ met w/ Dick Tropp - aft determ.
of who was to get praises or reprimands, I
told Tropp that I had had talk w/ the 2nd
period class, that I thought basically they were
upset by being made to feel as second class
citizens when we decided to switch classes -
he decided to go into the class M & find out
what was wrong - he sd. I cd go into his
class

Did my laundry - had a difficult time finding a bucket & also there was no space to hang any clothes in the line in back of the cottage & I had to go over & find empty spaces on the lines in the area near the toilets.

What are my goals

The notes on the news

Troop issued a call for Eng. Techs to meet at 3:00 - he had plans for good writers among jr & sen h. studs to write essays on the Sov. documentary films we have been seeing - the techs are to correct & edit them & after being rewritten, the essays are to be sent to the Sov. Emb. as a public relations gesture & also to help in securing more Sov. films, incl. full-length feature films - a list of names was prepared & requested to meet w/ his turn at 9:00. Some of the high studs have already written such papers - Jean & others have 11:15 to view the films & drop their papers // reservations on the, and of time all this will require

1st Man Cried

At 9:00 we met in the rice tent w/ the

students who had been selected - James did not come - the plan was applied to the studs - we saw some sov films, one I had not viewed prevly on progress in the sov union, which showed sov generations

The community was waiting for a rally to start w/ the arrival of guests from Georgetown - the dentist, Dr Costa, came w/ members of his family - they were fed dinner

I went to bed & slept from 11⁰⁰ to 1⁰⁰

At that time we were awakened to attend the rally

Benchos were moved into the pavilion - the mtg had to be conducted w/o a ld. b/c as the doctor was in the Radio Room

I gave a descrip. of 2 healings: Cassan - ~~and~~ ; Dr Costa's wife had a heart attack & is all at now

I applied the reason for the late mtg - it has proved valuable to confront people right away on arrival - Hugh Fortson arrived then - was put on the floor - he was asked about accepting the petition presented by our enemies on the steps of the Tc - Hugh described the circumstances - Hugh was also requested to talk about his

not attending the mtg of the Comm of Churches,
his sexual involvement w/ another woman while
his wife Rhonda was in Jonestown - his behavior
made it nec to pull him out of SF living
J w/ out the mines in SF

The mtg ended about 3⁰⁰

30 Apr - SW

We had a late day - got up at 8 or 9 or

Bkfst consisted of rice w/ gravy, sweet potatoes & 2 fried doughnuts, etc. - Ben Brund told me there wd be no copies for sev mos.

Teresa had put some news items up on the chalkboards in the library & a no. of people were copying them - I made notes for myself - listened to J's broadcast in the morn. & made more notes

Expected a call from Trapp for the Eng techs to red the themes written by the jr & some high sch studs on the Sov. films but didn't hear from him

I wrote today an resumes of people w/ college and/or teaching exper - I have to by diff. meter from Idres given to me by Clara Johnson which proved time - consuming - typed it & Charkin's which easier

Two or three times rain fell today
I th a shower

Went to the central area to see whether I cd find Trapp but saw no sign of him

Mails were arranged in the pavilion for the dentist, Dr. De Costa, & his family, h'self & other congresses - I learned from Harriet the guests were going to the piggery - I passed J once on the path near the Radio Rm where he was talking to Dr Costa & was introduced - he has been very kind & helpful & lent his car for our use in Sev'town

At dinner, as usual when we have

(over)

guests, we didn't form lines, but were
asked to sit down. - Salike Bourdane
& other women served us - we had rice
w/ stewed chicken & gravy, two pots, & a
tossed green salad w/ lettuce (the first I
have had here) - I had lost my raincoat
w/ me as it felt like more rain & I left
it somewhere - went back to look for it but
didn't find it

Walked around the garden for exercise
looking at vegs we have - saw some cutters
beans & eggplant which look pretty good -
in the field. Through which I take a shortcut
to the central area some string beans are
growing high on stakes

Back to the cottage - Inez was asleep & no
one else was there - I read Man Creek - then
tried to take a nap too but didn't get to
sleep - we were waiting for the guests to
finish their dinner, expecting the usual
Sunday eve. entertainment to begin, but we
heard nothing

At about 5:30 Inez went up to the pavilion -
I followed shortly, hoping to get my treat -
we were promised peanut butter candy - &
go home again

Two films on dental care brought by the
dentist were shown - one was an Amer.
film, the other made in Jamaica, both
promoting Colgate - Palmolive products - I was
sitting by Reg. Ropes - we didn't see that
candy was being passed out in the back -

I suspect no announcement was made because it might seem strange to the dentist that we gave candy to the child, & showing films which emphasized the harmful effects of sweets on the teeth.

Kaye & I sat through the film, *Airport*, w/ Bart Lancaster - it was very long - Helen Hayes had an amusing small role.

I went down to the bakery w/ Kaye to see whether we could get our candy - they didn't have any left out - Kaye who's in the kitchen nights - she told me the young men in secure take up privs getting extra food at night from the kitchen & Pancho (Harry) Johnson is the worst & he has a w/ prob - I suspect this may be true.

I was home at 145
