apt bhd I went to the pub & copied news from the paper for terms by Ben Crowl - they had told me about them

* Did a little on my girl - I had gotten behind the last few days - I am not up to date yet

Had lunch

Met w/ the adult class, a lge grp concerned w/ passing the second news events test & many were afraid they failed the first one - I tried to show them the line - up of socialist vs. capitalist - fascist countries in Africa & so, & Central Amer.

Had a shower

Prepared for my afternoon class (I expected to observe Shirley in class she shares w/ Tropp) - I was concerned about the talk Tropp was to have w/ the Intern. class & what decisions wd be made about my teaching relationship w/ class members & so on

The first period I spent on news events & Dr. Billy James wrote at the board. Items given by the others - some participated & others had other bks or stories recently but did not give any title

I had not thought of the class switch each wk between Joan & me - Tropp told me

To take the Adv. class - he & Jenn
counselled the other gyp - I gave the
adv. of the blind and sojourn align -
in the world - attention was good -
Had my dinner - Jenn, Dick & I met
in the old tent - To get the usual rpts.
from Jenn & me - then Jenn suggested the
results of the screen of the afternoon, gyp to
give me & she started - the way I presented
material came in for some criticism - my
impatience was mentioned - they had brot up
to my detrim the episode involving moving the
benches - however criticism seems to have
been muted - To proceed on Jenn's using
more items as much as possible, session the
the soc. & polit. events of the world, ed & what
to be the basis for teaching many skills - he also
was quite open to reactivity in our class
proceed.

I went to the bakery to get my bread,
peanut butter, fudge

Went home - ad a few mins & ate
my candy

Went to the women's meeting at 8:00

Woman's History

Marice pointed out that some younger people were sitting while older people were standing - women were taken of those who are willing to spend a time w/ a child - supervisors & parents who needed some help w/ child, in their care were asked to raise their hands

Ellen Klingman chg of neglecting Apr when she was spk to be w/ her - Ellen says she's doing a hr now on relating to child. - much instances of Ellen's neglecting April - Ellen was evasive - Marice insisted that Ellen pick her up on time or get someone to do it for her - Carolyn Lozman says Ellen's boys need her attention too - Kim Dye will pick up April when mom - Ellen is to help w/ William & Chris (Teds) pick words

In Ann (another) neglecting Richard, doesn't pick him up - Anne (his sister) said in front of him that she didn't have time to take care of him - Marice sd some mothers give child care reports, & older child. - Marice asked her if she wanted to keep Richard - if not someone else wd take him - give him the love he needs - Marice simr on floor - she sd she can wait a long time & her child wd be happy - she still not picking her up - Emmill her child - Marice says they're her through this boy - talking about her delmanto one specific fault

Commented on people on flr last time - Vermetta wanted to know if Judy had stopped for by the Wilson's college - Judy says she'll call & send for her - flr can have take Jaccari

2 May - T

At 8:30 went over the news items
in the set off

Made plans for my classes, trying in each
case to have a really organized approach

Made a little in my journal

Went to lunch

Alice did not attend my adult class. My
plans went smoothly

John on the p.a. system spoke extremely
seriously about everyone's effort & attitude
in order to build up our community - he
also spoke bitterly about the crimes of
our enemies - He alluded to his own
health - high blood pressure & low blood
sugar - as he has been doing often

When I got to the college, Gerri Buford,
just getting up, inquired what I had said,
& specifically about his own condition -
I did not realize that he had had any
different emphasis than he, but I did see
that she was worried.

Visitors were expected today & so pro-
visions made, but heavy rain fell, &
the visitors didn't come

After my shower, I wrote out my journal
using my lesson plan which went very
effectively w/ the first period group & per
(over) (2-1-3 (1))

showed an increase in understanding world events, particularly Hitler - I told ↓

In the second period class, I had fairly good luck, was able to go farther w/ the same meter than w/ the adults on the remedial grp, as a basis for an essay to be written tom - some were talkative though - I was on the pic. system the entire time, & the deans do not have to pay attention, it is hard to make ones self heard over his voice - I unexpectedly announced a rally for tom

I rptd on my classes to Trapp, recommended prizes for them

11/1 then I was flid w/ them & wa recommend them for prizes

I had started to rd and acct of a man who had been in a Chilean concentration camp after Allende's overthrow - he rd sev chapters while I ~~the summer~~ & wa home to change clothes for the rally

The rally was at 7¹⁵ - the tape I had just made was played again while all were to listen & pass a test on it

on child

I had just put on tape pt. of a rpt. from
a former pilot prisoner Cerasio in
Chile when Allende was overthrown - he had it
played again at the beginning of the rally, told
us we wd have to write out the notes -
and wd be had read song by Victor Jara
played - Peter Motherjohn translated them

I spoke of gaining sensitivity & knowl. - his
condition - grows up! - you to go w/ him - rejected
etc - I'd help him to be named; learn -
combat your own - believe problems - Jerry Brady
someone read for him? - am. possibly but must
dont have that sensitivity - show supp. feeling

The worst thing that it happen to me wd be
to see my mben come to an end

Conspiracy - prob best there - we have some
evidence of the killing Chris Lewis - names
3 given last night. I tried in

"T. child who doesnt know anything "you people
like you are killing me" - this other resp.
for my death - Robert says she combos her hair
in class never listens - Mary says deal w/ all
students who dont pay attention in class - I
informed w/ her - both her on l.c.

1: People not taking enough respons. running
the place - mentions Steering Com.

ought to deal severely w/ those who cause
trouble any place - in classrooms, everywhere - put
them in jail, not therapy

Henry Mauer thinks all shd. have respons.
for learning - says he does better w/o right

malignant, the prognosis is very gloomy -
even at best, he is in need of surgery -
The hospital may not have the tech
developed here to perform such a operation,
having it done in the capitalist world
poses extreme difficulties - Yes, I cannot

At during I had a proj. had been developed that wd help communism - people's soc. sec. identity cards & any other papers, docs, keys they held in connection w/ their former jobs were requested - turn them in to Terri Buford

The rally ended at 12:15 - I spoke to Trapp about prizes for my class - he said they wd have to have a good record for an entire wk & wd be put on the list next wk

I went home & searched my crates for my soc. sec. card & any other docs I had which might be useful - I didn't find my soc. sec. card, may have turned it over in Geo's town - I took out my library card - I have never reveal my driving lic. aft reporting loss of my old one & driving a temp. lic. - I th what I had up to Terri in the Radio Room

I went to bed at 1:30

3 May - W

Spent a good part of the morning & turning day
At 10:30 during the morning I had to
make 2 extra trips to & from the central area
the first time to turn in to Terri Bayford
in the Bedouin Room a sum see cd given to me
by the sum

Wrote a note to J making a suggestion on
his mind. Later I wrote another note
asking to be considered for editing the news
& other material in the rally last night it
had been suggested that someone who sets well
cd help send for voice by helping w/ this on the
pic system (to be read the what consent to having
try - onto)

Did a little with my girl

Went to lunch

The adult class, come to hear news items
applied, was overflowing - when I arrived I find
some have organized as much as they had
got the out for people to write on & started
the roll call & the class went well

Th a shower

Prep'd for my classes

at 3:00 I had an appointment w/ Showonda James
to have my teeth cleaned - she took me to
the guest cottage, which is near Harry's cottage,
& some of the med. units - the dental chair
was there as the dentist who was here on
the weekend had used the cottage - S. exam-
ined my teeth, find them & the gums in good
cond., that they are receding, showed me how
to massage them - she cd not clean them as
an electric cord she needed was either

broken or missing - she has to wait a the
electricians to supply her w/ one - I'll have
to have another appointment when she gets it
went up to the President to wait for my
first period class - we had had some
rain & there was an atmosphere of unrest -
I had expected great seriousness aft. Tonight's
announcement on J's health & last night's news on
attempts to kill J - there was ~~not~~ the usual
announcement about the start of classes, as
I was reading more from Chilean Prisoners of
War - some of the members of the first class
gathered - I went to the school to get the
compositions that my pencils were all
missing when I got back - I had planned to
give the class practice in writing news vents -
I had to have them write - the performance
was disappointing - Henry & Ronald had been
writing at the school, came in late, as did
Willie, who had been in a car w/ Horace
H/T & so I was late starting the class!

The second period class came in morning,
their restlessness increased as they realized
they had to do written work - there was a
mix-up of the compos. hrs - I had some of
Jenny's & I did not find Julie Brewer's at
all - she class did not have a pencil - I
borrowed one from Jenny - I gave the class
a choice of 2 themes on which to write &
they finally got down to work but most of them
will need another day

Jenny & I filed our absences to Tr - he
wanted to have a Thurs' meeting but we
persuaded him not to, as the pol. enlightenment

Tehrs had 6 mid 2 1/2

I went to the office & got my file, insight -
ann folder, notes to the acting spec. teachers
& col-tehrs were drawn, incl. Jennie

We drafted the tests for the rooms & those
under 65 - we made the tests harder
than last time, giving each gyp 10 ques-
tions w/c short ans, 5 essay questions, &
5 review questions from the last test -
Mahe Touchette & Pat Christ conducted the
entry, which was disorderly w/ people speaking
at the same time - I had decided
we wd have the spec class for those who
failed the first test imm'd. aft. the second
test that some felt it was a bad time
for sins to have to think - no other time
is available - those who have to take the
second class are to be divided into gyps &
volunteers were asked to teach the gyps -
I was relieved I did not have to teach them
all, altho Teresa King thought it wd be better
if I did - I was also glad that at the
moment at least it seems there will be
only one session, possibly a hour to teach
these gyps in a spec. session every wk -
I was the first to volunteer - the final
decis. was that all Tehrs who did not
have another apt ment wd take a spec. gyp

I got home aft this entry about 10¹⁵

argued when I told them to stop - then
I have studied in the library or dining
room - I started to cry & I think they
11³⁰ Jessie had gone to the library to study
for tomorrow's test

went out - I got up & went to the bathroom,
saw Ellie Bean making her security rounds.
I did not mention Ann & Anita to her but
did speak to her about the noise at 11⁰⁰ -
she is very loud here.

I went to sleep some time after 12⁰⁰

Thursday
There was heavy rain during the
night & continued rain during the day
Had breakfast
Wrote on my journal
Went to lunch

At my adult class not as many as usual
attended & I gave a review, asking the class
members the entire questions. Knowing the
test questions, I didn't want to be in a
position to reveal any. I had arranged for
Jann to come in & explain the Chinese
Third World Doctrine which studied - I
wanted her to do it for me for my sake, as
I was not sure I understood what J has
been telling us - Jann gave her usual full
treatment to the matter, faster & with more
diff. vocab than I would have used

Took my shower
Went to the track dog show & friends
talked to them for an hour about the who's news,
again asking for questions so as not to breach
confidence.

Prepared for classes
In the first period class I gave them a review
of the mind inputs in the who's news
Jann suggested we put our second period
classes by for a review of the news, which she
conducted very competently - I expanded on
a few of the letters

I had dinner

The h.o.s. Texas met - students who had been causing trouble were called to appear & be questioned

We expected to give the test prepared last night to our point, enlightenment classes at 7:30 - but instead I announced that a rally was near, & that he would give the test in the rally

I questioned Ronnie Deane, companion - X

Deane refused to go to them when he was
removing it & when he asked, we said we were
refuse to eat & they didn't do it - reason for
this is my & Elsie's Research Leave, a Com - X

Old Dick offered in help try of Ronnie Deane -
Shirley also the balance of the test - got from
Esterle Ralbach - both Deane & Dick doing anything
going on - Ronnie's company in the field

on 18th - the terrible - stress - terrible
spend all their time try - hate each other -
then always hated by Deane & was all
these people are in close contact

Polit. end of the test called over to
rice tent where people who had work during
test had to take it - Dick was handling the
tests & Debbie Jenkins was giving the tests - they
didn't need my help & I read

The test was in progress. The entertainers
were finishing on side of their performances

Disc then moved to problems of off loading
the boat - trailers were blamed for cond.
of musical instruments & for damage to fruit -
boat workers say the damage is caused by
having to carry everything in the trailer & the
condition of the fruits when loaded in Georgetown -

(Cont) C-2-A3 (2)

the lesson was made to make crates to carry things - Betty Lestell - Jack Bea were criticized for method of getting orders - I said Betty was very loyal - if she were in US she wd get to the bottom of the conspiracy & wrap it up - but she makes out those orders & whips in Hong.

Disc of a young Mayanese who had written some songs, said he was a revolutionary, wanted to visit Ineston - I questioned him one who had met him to give their impressions - I concerned he may be a spy - seems to be a musician & has connections w/ a mob - I gives instructions on how to treat would be visitors & get rid of them.

I inquires about Michaelen Brady - she in prison (boy) - acting badly - Mary has given her many med. tests but no results - Chris Kelly ^{her father} says she has to be treated very firmly - I wants her white to death too - "but don't give her a catfish - shall kill you" - keep her up all night & search.

I reviewed people on l.i.c., questioning some of them, the fact that they didn't do well on the news, lacking in skills.

Michaelen, bit in - she was rftd as having cried when she heard J's life in danger - he inquired why she was so hostile when Pat Peteran arrived - she

she says they were very careless - I says she
is a midget & doesn't give enough credits
Betty all said was slow in getting Helen out
treator - I says they should not be in
public & that each individual would
believe better - Stanley Wright gets remonstrances
galore for making a recent statement in public

says Stanley went with his belief not bad
that he was asked not to sit to town - he
never smiles - I put him on his feet told him to
smile - he did smile, but in learning
until he does - I: any pers who makes
any insulting remarks on any pers or

We got up a bit late
Had breakfast in the morning and left
lately I drank a cup of hot water, brush
my teeth, got the job off and any news
written up for the tabes, sometimes talk to
people for one person or giving or getting
info then with my hand get to the
bottom - my board movements are fairly
reg.

the since I do not have to wait for medicine -
this is my interest

Started with the pleurisy test for
tabes - I typed it - I think 4/5 on one side
will be enough as a single piece of paper holds
a good deal - I think the way the news items
into and essay on pleurisy, focus in the world
leading to a solution of Capitalism & perhaps
nuclear war

to be on the adult class today -
The I had made the curriculum - I presented
what I had done, I think you saw to the care of
3 categories of those I had sent out & write
those who are in the class - those who read
family well but not more - for this
lesson I tried to give notes which might
interest all 3 groups - at the end of the class
period I found that Lina Harris had been in
the group - she really said I was going to
need help & agreed to give her services -
she uses very innovative methods in the
gym high & I hope she can help with me
The church

Typed more on my exams - as Anita
was using the stool which I usually use, as
top of seats, for a t.w. stand, I had to pull
out both of my seats & type on them - I
finished a 2nd page

In my first period class I had the studs
and found a teftbn of what there were
enough as w/ the studs shering - bh -
Jerome was on the front gate, Ronnie & Kenny
were whing on the boat - I have 2 new
studs, Alde Santiago & Maurice Anderson -
the class behaved fairly well, but not badly
what was prob the fourth or fifth grade
level - ~~Ylinda Brown~~ read the best - Willie
is doing better, I think

That the 2nd period class had not finish-
ed their papers started earlier in the wk, &
as they have their Fri reading period -
I was not sure most of them used it for
reading, as few followed my instrues to turn
that the best to me at the end

Had dinner & th my plate to the sch tent
where the h. or teachers met w/ Dick Tropp -
we had a long mtng - he emphasized striving
for rdng ab. Based on J's literacy drive I
he made it plain that the instrues. can
be based on news, it shd not be a mere
dict. & writing down of news items - when
disc turned to behav probls & class unatten-

am not sure that will have time to help
me w/ the adults - we spent a good while
talking to students one by one who had mis-
behaved in classes - we are authorized to be
very strict, even to the pt of calling S.A.T. to
deal w/ an obstreperous student - Most of the com-
plaints come from Betty Finch in her math
classes.

I was home at 7⁰⁰

Went to shop

Did a lot of errands & tasks - checked the
grocery lists in the shop, consulted Mr. Miller
on various things for standardized as Betty
Calkins had told me we would have a
big party to go over in - went to the
warehouse to get a few bits in order to
be ready for the rainy system - I had to go
to the bus stop just to take care of the
supplies from the grocery - it was in
the rainy man named Charlie who
displayed I was trying to choose out
Vincent Lopez who was leaving around,
undoubtedly trying to move unobserved
& seize something of value - I told Charlie
I had been him up on the floor of Vincent
caused him any trouble

I gave up a flood of news all day -
I did times tips will be played by
press readings in the college I don't hear
very well, & I find I missed some details
while being on my tasks - I did gather
that South Island invaded Angola 3 times -
Lopez had been rep. for a strike in
Tennessee - it seems as was my thesis
in the paper I wrote for my text that the
pace of conflict thru the capitalist &
communist world is increasingly rapidly - the

Thurstonian news touched me personally, as
Ryn de la Fuente may still be in the
Peace Corps there. - I know that if she
is Lov will be frantic - I had told her
Thurstonia was a quiet pt of the world &
Ryn wd be perfectly safe -

Another item of news concerning our own
people was a statement that Oliver, father
of Bruce & Billy had discovered when
Bruce was 9 that he had been raped by
a man - he wanted to kill the child
who he thought wd be homosexual as a
result of the incident

I washed clothes, having borrowed a

another test in some class - I think that
it might be an oral sample of the
questions of each - he had had less of
child & reminds & also there he decided
partly on the basis of how the former
had done on the written test - one
woman who seems to be Mrs. Bridge-
water's companion had around of
anger first by answering out questions
etc that the her mouth had been
traction camp - it turned out that she
was so jealous of Bridgewater that she
could not concentrate on anything else -

Dennis has had to move back to the top -
Laura Johnston consulted me as to whether
I knew anything about what was her
superior mind - I said I knew nothing
about it & she had read a
little report from Aunt - since the
episode the other night I have ignored
both Lennin & Patricia in the cottage &
they ignore me that to continue to
bother my mind.

We had a normal schedule today
for lunch we had biscuits & either gravy

I filled out my sheet of activities for the

Wrote a letter in my journal, on which I
have been somewhat stuck

Troop requested to see the h.s. Tesh in
the school for a meeting but give instruc-

attendance & course meter, covered for
the night of Ed - we have to have these
turn for the inspectors who are coming

I stopped at the library - Teresa King has
in reserve the film which I has been
reading, Chickens Prisoners of War by Penelope
Cadman - there has been a big demand

I don't think I have a printed matter
all the papers & teaching matter in my care
& made a more orderly arrangement - several
papers that can be used for studies for notes,
or even for tests.

Nothing had yet been heard from the school
inspectors but we had to be prepared in
case they did give us a more or less
formal class of a more formal structure
reported for the year but a job that which
I thought would be done during the period
I also had that the one and the
loud paper the one and the
had the study and identify the lesson they had
F, intending off now to concentrate on who
they find things - however, I came on the
p.c. system of more info on Currier Research

men in to attack Jorastoken, & info on what
the same gap had plotted against Celen - I had the
study lesson & write some of the material
sent on the board for use then

The 2nd period class still showed a lack
of interest in the subject of the lesson
and a very poor time in getting to know
the lesson more to the point for me to
write home. I gave the class a spelling
test with the help of the book during their
last period of the day. I gave a few direc-
tions about a written assignment for Tom -
he planned to do more on it.

Had my dinner & went up to take
a walk.
As there was no government taking place
I had that of college at the building of the
place down for their school committee and
didn't come at 12:30. However, we were
notified that college was scheduled for
counseling at 11:00. I think this might
concern the apt of the inspectors and our
plans to make an appointment of former com-
mittee. I think the committee were just getting
word to however, when counseling started.
I find that Ann & Linette had returned in a
request for counseling about the incident
on last F night when I had objected to
their studying news stories by apt 11:00 -

The conditions expected to be upheld in
the new school have been increasingly
discouraged when the committee delved
into the past history of the whole matter - the
chairs of the girls' house, Johnston & there
were four boys of John Clark who were sym-
pathetic to and in the winter not only require
lights and no more of 11th but that all be
home & in bed at 11th unless they have an
authorized reason - Inq. who had some
other matter to take care of attended only
briefly & made a statement intended to be
an obituary - The students of the college were
told to have a house party on the night of
evening.

Admission prevented Inq. & me from going
home at night - we waited on the sewing
stand at the end of the rice tent until the
rain had started somewhat, then walked
home to

I intended to hold a 1st - o'clock class
at my house 12th o'clock adult reading
class, but I was on the p.c. system so
that I did not make an announcement -
a few people came - one was a young
woman, (37) ^{Alison} who had been told by
J to come to one of my classes - I
sat down w/ her & evaluated her knowl.
of both news events & of writing - she
had very poor abil. in both; wrote on
a 2nd grade level & that - an attractive
pers. she had grown up in Miss., went
as far as 9th grade in L.A.

I worked on understanding of their
reading (w/ the 1st period class) & gave them
vocab & spelling drill - they behaved well

The 1st period class came to the
new facilities rather quietly - it started to rain
after I had spread the papers they were
expected to write on news events - we all
retreated to the sch tent where they finished
their papers next to a class taught by Dick
Trupp, which may be the reason they gave
no talk - the rain poured down furiously -
I had no rain gear ^{etc a rain hat} - went to the sch
to put away my materials & was stranded

When I got home for the night I found Mrs
sweeping out the cottage - she had gone to
bed early last night, but she was annoyed
because people had not picked up all their
belongings. Mrs swept under all the beds -
she had the clothing lying around to the warehouse
altho some belonged to Ruth Lenin, who
left it neatly folded on a spare bed.

I climbed up on my bed & asked our class
prep - some of the high school were sent around to
see whether beds were picked out for enough
for the sprayers - some of them, w/ Betty Dennis,
entered and came up to see the sprayers. They
set the sprayers down within the cottages then -
I abandoned the cottage & went to the library,
trying to write in my girl but too many
people came up & asked questions, so I accom-
plished little or nothing.

In my class I gave a phonetic
lesson, looking for examples of the various
sounds.

Back to the cottage - there was no evidence
it had been sprayed, but I was told the
sprayers had finished w/ the cottages - I had
only time to get needed meter. I go to the
hall. Off to give my weekly presentation on
the news - they were not quite ready & had
to finish lecture on the people still in the

class - I was not very well organized myself
& spent too much time on peripheral matters - I
later read a criticism from Lisa that I
had not spent enough time on imp. news
events

To my shower & had to go in to
my h.s. classes

In the first period we were late - Penny
Reed & Roseanne Dennis often are when at the
food & do not come at all - when they do come
they are usually late, saying they don't get off
early enough to be on time - Billie Jones
is often late, using some excuse about having
to see the nurse or having what I might
overlook - we finished the office station story

In the second period there was minor dis-
order but the set was better than usual - I
gave them some info on subordinate clauses,
some examples, & using them on Saudi
Arabia suggested by the class, we started writing
cooperatively on an essay

For dinner we had a watermelon & pine-
apple salad

The teens met & talked to for 3 studs
chgd with unruly behavior.

No event was scheduled for commu-
nication - we had been told by the
counselors to hold a home meeting in the
first free eve., but Vornie had some obli-
gation - I would have liked to hold an
advanced adult lang arts class but felt
I needed to rest instead - I lay down for an
hr, tried to listen to J who was riding
from the Chilean bk, but the transmission

12 May - F

Had a very hot day at the end of
which I felt completely demoralized

Jonathan was in readiness for visitors -
arr'd 12 or 1 o'clock the parents of Carolyn
Lyster & Annie Moore (he is I think mini-
ster) arrived for a few days' stay

In the morn. I did as my girl & did some
class prep

Had lunch

When I started my adult class I was asked
if I could please take the chairs when the visitors
arrived, as it is usual for them to be exer-
cising in front of the pavilion area - I had
intended to wait, but more people came than
of current memory could be sitting abt. but
decided just to have the members rd - we
rd a story in the 1st testbk - saw elderly
women rd very well - among them was
Honey Day who as I remember don't rd
a lot when she started in my class (Dick
Trop says she first once rd her & Fred) -
then it came back to her - she said she
had been practicing at home - we were
interrupted by the arrival of the visitors' half
way through the class & resumed ten mins
or so aft wds - I was held up for a time
answering questions on wds I had written
on the board & other matters

Th c showers

Put in a little more time on class prep -

The to class before my class & also a fellow,
and that I might like to go to see.
This class of English class

The first period class was well behaved etc
the other was late & Kenny was not to be on,
the book; I later find this was not true - we

Liane Harris, who has been assigned to
monitor the h.s. classes, was present at
the beginning of the second period - they
entered in a rowdy mood - that I had
come early & put material on the board,
which we had prepared yesterday, some acted
as if they had no idea what to do w/ it &
wanted to give me a chance to explain - they
were bored & inattentive - while Liane was
still there I, very embarrassed, spoke
indignantly of their attitude, - some, perhaps a
majority, quietly tried to do the work but
the rest were uncooperative - I was very
distressed, knowing the sit. wd be presented
bef. Tr & the Teachers

Got to my master to the school & got my
dinner plate - we had watermelon

At 1:30 pm Liane called, in not too
caustic terms, her impression of my class -
Tr sd they were testing to see who was
going to control the class, a common sit.
held - when he faced the probl, he shouted
at them until they quieted down - I studied

from Shirley's class. The more of our time,
we had to wait for Shirley, who takes
care of toddlers in addition to her respon-
sibilities.

I got away only at 9⁰⁰ - find that I had
not seen the announcement that there
was a soc. tech. mtg at 6³⁰ - retr'd to
the cottage & was barely able to make the
soc. class on time.

Am Johnson took the first pt of the class &
I took the second.

I had not seen that there would be the
after soc. classes this wk because of the
visitors - however, Bob Penkin informed
me that he & I were to meet w/ them,
assigned to the after class in the dining
hall - we moved to the second sch
tent & from there to the first sch tent -
X some - people attended, mostly adults,
many smart ones, plus high school - we
listened to the diffies they had in learning
the news & made suggestions - someone
felt I lost the list of those who were
required to attend - Willie Malone & a
few others attended who were not requ'd
to do so - we dismissed the class
about 10¹⁵

When I got home, I find I did not have
either my clock or my pillow which I

had taken upme in the aft. - I pd
sure I had forgotten both of them in
the set tent & wd have small chance
of getting them back - I was very tired &
also concerned about my disciplinary
probl

Ra Man Cried but fell asleep & dropped
the bk - went to bed about 12³⁰

13 May - 5

Today was Jo's birthday - Steering Com.
had made plans for the crew to get in an
after half day's work as a trib. to him &
for Mother's Day - I had planned to work
on resumes so I wd be undisturbed in
the cottage

Had ~~lunch~~

Went on my girl

Went to lunch & noticed there were
larger no. of people than usual - I had not
heard any announcement but Mary Casanova
told me all the field workers had been
told to come in for lunch, which she sd
was a signal that there wd be a clark -
discussed this w/ Pete who didn't confirm
it, but other people that this was the
case

That I might have time to do my laundry
so I started to go but to stop by Orin's
when the clark came about 2⁰⁰

I changed clothes, took w/ me water bottle,
sacks, the ~~tea~~ butter, sandwich I had
food

To the pavilion
Perception that in attendance was checked -
we had a long wait for J who was con-
fering w/ his staff - I was sitting bes
Parker & her little daughter who were having
their first offer of a White Night

When I did arry, he sd one of our people
from Geo Town had defected; though the Te
had his passport he had gone to the Emb for
another, stolen some official Te money &
which he had access - he sd he was
going either to the U.S. or Sao Paul. - his prot.
was ref & an impotence w/ an strict
regs (apparently regarded as an intery w/ his
Civil Liberties) & a long-time member, he
// name & ref not indicated //
knew a gr deal about our finan resources &
secur arrangements, cd do more harm
than Tim Steven - some radio codes were
known to him - tho his intentions are
not clear, he will inevit ably be debriefed
when he goes through customs - he will prob.
establ contact w/ Steven - he has relatives in
Jonestown, & in & out of the Te in the
U.S.

I sd we take for granted an attack cd
be launched on us at once - I gathered
we had ^{had} plans to move in on our
enemies which the defector cd reveal, &
in the disc I confirmed this - our radio
communications were being interferred w/ & there
may have been no way to cancel the
present instrmts

Long discussions on the microphone follow -
I proposed rev. suicide as the only acceptable

action - some attention was given to putting our people on the road we are per-
checking & trying to go to Cuba but there
are some obstacles & most do not want
to go anyway - there was no enthusiasm
for speaking to the Russ - our brand of com-
munist is too advanced for either of
these etc & we almost certainly will not
and will give under the leadership of J.J.
The Guyanese god is turning to the right -
the trend is toward passage of the proposed
repression which will result in control
rule by the P.N.C. - a sov democ, will
likely be established & will pressure from Guy
& the US this will be all we can expect
in Georgetown, a rejection of the pure communism
we now enforce

statements on tape were made so as to
attempt to reach the world's press, as to the
reasons we resorted to sov. suicide - I
participated in this because I intended
to abide to whatever decision was made,
& I felt it imp to encourage other anti-
facists throughout the world, although
I did not approve of the action

Dinner was served to us

There was continued disc & votes
were taken - at all times those in favor
of sov. suicide were in the major, however

(over)

C-2-A-3 (65)

I felt that these were strongly implied by his advocacy - few young people expressed any opinion - the most of those opposed grew, as thoughtful st'ments were made - one by John Hurvick was outstanding - I mentioned the world it which seemed to be turning in favor of liberation movements, against the U.S. & might result in war, which could be helpful to us

Heavy rain came & it was hard to hear & I had us rest for a while, but I can't get to sleep sitting up

When we resumed, ^{declared - those} oppos. to the proposed suicide is in favor of carrying it out then seemed more determined & I became convinced by the tired eyes of Sharon Amos that I was being wrong to permit - I said he alone was commit suicide

There were only a few more opposed when the question of what to do about our members in New York (a large number have just arrived); down the river & in S.F. was brot up - as for S.F., all were adults & knew what to do - it was at least decided to delay until others outside could be brot in

At first it seemed to be decided that our guests would be sent out earlier than planned while we would be under tight security

We went home & to bed about 6⁰⁰ - we were to get up at 12⁰⁰

C-2-A-3(66)

14 May - Sat

Got up at 12
Finished rinsing the laundry & started god
Went to shop - we didn't have our usual
good bread for \$1.00 - instead we had a bare
loaf consisting of a piece butter sandwich -
I stood in line - they had fries, then field
workers were given precedence & I'd have
had another long wait so I didn't get any

I did more laundry
I on last night, in some related rep, gave
us intel info on experiment - heard she had
stayed w/ CIA only until I arrived - went to
Caracas where there intel report is in Holiday
Inn motel, had not heard of her enemy, who
enjoying him (saying "even our money, no
doubt") - enemy from us was got letters to him -
his relatives had come in New Town - no
immed danger that risk us

Perk this the reason the Taylor - have
relatives still refuse - heard later they living M
as planned

Heavy rain fell at intervals & I didn't get
all my laundry dry

Made up my activ's sched which should have
been turned in this morn.

Had on girl - decided to make brief notes
on yest's events

The work crews were finishing at 6:30 -
I went to get dinner at 6:00 - we had

(over) C-2-A-3 (67)

fried chicken - I traded plates w/ someone
so as to get the leg & dark meat which I
prefer - but sauce had been prepared & I
had some of that

At Joyce Land I went to see the film,
The Hunt is a Lonely Hunter, from the Carson
McCullers bk, w/ Alan Arkin in a leading part -
in addition there was a talented young woman,
whose name I did not catch - Joyce had
made a nice - looking map of Africa by
tracing & so she will make me one if I
bribe her paper - she is studying all the cities
of Africa

During the day I conversed w/ Rita Lemin,
Doc. Brewer & Ben Crowl on yests' events,
getting slightly diff. pts of view, later listened
to a conv. betw. Irving Weyner & Gene Johnson -
from these I got a better idea of what I
may have been trying to do in the white
night

Was home around 10⁰⁰ - rd Man Crowl a
short while

Went to bed at 11⁰⁰ - was not aware
when the light went out

more lesson plans for my classes
11/2 On returning from class, I stopped in the library & the Cop meter on Brett & I shall appear to give the advanced class in language arts.
ate lunch

I am holding my adult reading class on a new subject. One has to accommodate those who don't have a 12th school lunch hr - Jan teaching the class at 1st on M & W & at 12th on T and Th, both 12th & 1st on F. - however people may attend at 12th and 1st if they wish. I used a list of the 465 words most commonly used in Eng lent to me by Mary Castello - she got it from Tom Harbo. I am putting 5 on the board every day for recognition of spelling - I evaluated the abilities in reading & current events of Lore B. Parris, who is very good & helping me w/ dictation of paper, pencils, & this - she, however, reads poorly & doesn't understand the news - she didn't know what the White Night was about; furthermore, I find a good proportion of the rest of the class did not enter, so I applied it to them.

Prepared notes for my 4 classes
In the first period class I used the same
we list, which is arranged alphabetically
having the studs read them what I put
on the board - all studs were present &
fairly orderly

In the 2nd period, all etc perker two
studs were respectful & serious - I did a
poem of Brecht's index - told the story of
novels w/ the same theme & of Brecht's life

The 3rd period - it was mostly about the
behaviour of studs who were called in - I went to
get my dinner as there was to be a rally
then I when I came back the gym was looking
at Suzanne left the gym from which we can
choose

Went home & changed clothes - went to the
pavilion - I got a seat towards the front but
w/ a back

Reilly

Started 9:30 - and singing - 2 mos led by Cynthia Singers

What's in my mind? What am I thinking?

1. Worried about world from the Russ & Chinese. I hope it happens - surprise you? - like to have psychic images of date and can get some good people too - I stand thru you & chaos - Russ & Chinese are not going to avoid it - takes a decade to cut through pedonia - P.M. of Chinese sat nuclear war inevit. like thru China & USSR

2. Big strategies
3. Why - person who says why - I have sat talking to them - they are already dropping false info - Dr. Moore has made a very good speech - some US government communists think they are coming in but they are mistaken

USA is going to die in a nuclear war - has no protection for people - are relying on one shot - 212 - people will die - first 20 mins - in this pt to the world there will be little tribal communities - US is highly nuclear war, take no that for the fact - USSR may lose the war because of less pop but has technical & backing of bombs

4. White flight - we are in a crisis today - we win them all - I first pt

5. getting all the people overseas - I: yes, always

6. and all the people here

7. Jain - prophet in vision of nuclear war - guess 16th - I not

8. agree. Towards you - I: agree. shd be to principle

9. anyone who might bring - Karlene Thacker - I: you hit it - high & low, mostly low - but high there (over)

C-2-A-3 (70)

never to know me - total indep & weapons,
becomes their god - I become their devil - hist.
shows cent effect. almost rels & friends to stay -
nothing wrong w/ pers. of the pres but most
people miss it w/ personality - hard to be sensitive
& administratively skillful - this is ridic being
a gen. fighting w/ friends - it's undesirable for me to
make decisions for other peoples' lives

10. Steve - many anarchists & selfish people who
might see what they think is big & open
blue - inv & hums - people in high positions
can't bear to be told they're wrong - J: Mrs. White
drops by she makes us all equal - she says Mrs.
White more than - Mary & poligized for seeming
to disagree w/ J

11. Martin Lomas - what then might try next - yes -
don't ever say, "Father, you're right!!" - there is a
pt at which yr dead body is worth more than
what you can do alive - magd. release of W. Montgomery
10, friends.

J says defector already refuses to talk to relatives -
but for to pt where he'd give info on our codes,
equip, an approach - he warns against
getting too close

11. Sensensibility - don't know what next to do

12. See Jerome & people in state - how we
don't come up to where we shd be - hope
you had a beautiful day - I never have
that - every day is a little bit

I warns anyone who may be thinking of
leaving - hates to see people going to the front -
must be able to use some still a time -
w/ war coming on, you're not so well off
going to US (as warning)

J and I

C-2-A-3 (72)

15 May AM - 3

13. Caroline - how to take care of this family, see money - J: p'times, not just now
14. Tom James, who didn't show much interest
15. where people's mind & consciousness is - you are creating us w/ knowl - want people to be trained to assume leadership - J: to be honest I don't think anyone will be better than me - I think for a mutation that dropped off some asteroid
16. Marshall Ferris - how to take care of us all - how to make strategy - top people have left - conflict from everybody
17. Chris Cordell - I want to take some of burden off you - wants band
18. Diane Wilburson - the band - J: it wasn't because it's the band - the kitchen we have for the same - feels badly because in New! town they stamp the musicians as U.S. - she finds some resentment agst J & the project because we're so good - she thinks people can be in New! town - she wants agst band members get off to the side & talk to Guyanese - this disband in band meetings - I told to stay by themselves - disc of playing US music vs. reggae - some of themselves w/ merengues - band members upon the floor - which of the band has a tendency to get off to the side - all the Ta reps danced w/ outsiders - last try - all PR reps as well as performers danced - soulsteppers were included in the questioning - decided all will leave the stage & accept no invite -

Virginia Middleton arrived from the States during last few days - she seems in good health

Had class

Had some much thinking during night - serious world events & our own threatened sit, added to danger that we may lose I made me do much pondering - decided to base class activity on what I felt - emphasis on both fight of the oppressed & on death - had up in Barlett's Quotations items from Blake, Keats & Shelley to use in 2nd period

The remainder of my books arrived from Glo. Town - I sorted them out in the library to see what they are - my Pres. books are among them - long pers letters & old girl records which were packed w/ the books I took home; find room for them in a footlocker

Work on my class records

Had lunch

Had my adult class at 12⁰⁰ - covered w/ the 465 most commonly used words - then drilled on phonetics, asking for words, both long & short, which began w/ the particular sound, & discussed the meaning of diff words mentioned

In my first period class, I had decided to recant some of my efforts abroad, as Jerome used freq. to ask me to do - the class, all of whom were present etc for Billy Jones, did not seem very eager, but they became more interested in my tales of guerrilla warfare in Greece - I spent most of the time on Greece, little on the Phil. & India - one handicap was that this class does not know where any of these things is.

The 2nd period class entered in disorderly state - when I had taken the roll, I got their attention & explained I was going to read excerpts from Blake, Keats & Yeats - they had very little int. in these poets - when I told them we wd have Shakespeare too, they protested - if there were any who did not agree, they did not make themselves heard - I agreed to let them rid from the poets Tom

Trop told us we wd not have a tetras meeting if none of us had any profits. He had a big dinner, w/ a piece of roast pork.

When I got home, I found that Versie was suggesting we have a house meeting w/ Betty Dennis, who has been giving trouble - she resented being put again under the supervision of Laure Johnston - she is rebellious w/ all the artists in the cottage; is suspected of having stolen corned beef from Ann, food

16 May - 1-2

9 soap from under Vera's mattress, 8 perfume
cosmetics from Hermet; she is hard to get
up in the morning & arrives at school late;
her whereabouts at night is often not known,
she gets in too late for a child of her age -
in Austin it is likely that she is responsible for
hostile acts such as urinating in Laura's
clothing - Vera's went to find Betty - Laura
came in & we discussed the matter w/ her -
however, Betty was not found & it was decided
a rpt for counseling wd be written

About 8:30 I went to the library - the bk
Child's Prisoners of War by Ronald's Larocser⁵
was available & I rd three chapters

Teresa had written news on the bk bds &
I rd them

When I got home, it was already past 11⁰⁰

Two workers brot sheets for a new resi-
dent coming in from West town, Anne⁵ B. Wash-
ington -

I went to bed - a mattress was brot
in aft I was asleep & the boat was there at
3⁰⁰ - I vaguely heard from the landyphr
telling the news arrivals that no one was
to give or receive any mags - then at
4⁰⁰ I awoke when Anne was brot to the
cottage - they got up & the care of her, went
to the Coordinator's off to get her a blanket, ca

17 May - W

X Terri Byford has been gone for several days - no doubt she is one who has been sent to Caracas to talk to the defector.

Had lunch

Brought my girl up to date

Wrote 2 memos for J - one was in reply to a demand that all write on ways of making or saving money - I told of my aim to write many articles if I had some free time, & made a record that people leaving dishes in their residences etc. be punished by sentencing to the h.c. (now to be called the "new brigade"), as people lose time & thus productivity when they have to wait for food & drink - I also wrote a rpt on a conversation w/ Juan Lucas who yesterday told me she was lonely, liked cities, had expected to live independently in New Town, hadn't known when she got her money & jewelry to the T. that she can't get it back or sell it - she is a nurse, seems well educated, is not likely to try to hit the area, but we have orders to get all neg. comments

Went to lunch

In the adult class I evoked the knowl. of a sun on the imp news of the day - it was nil - I spent the period trying to efft the 2

most imp. events: the border conf. betw. China
& the USSR which might erupt into nuclear
war & the war betw. Ethiopia & Eritrea
in which the US is involved because of its
interest in getting oil through the Red Sea from
the Arabian Peninsula & I reminded the
class that a couple of yrs ago I sd he had a
vision of radioactive fell-out over Ethiopia -
I then went into the conf. betw. Israel & the
Arabs

Th a shower

Michael Brady had been rpt'd miss-
ing (see his ltr) & I alerted SAT to make a
thorough search & she was found asleep in
the jungle - 2 people, one Marcus Linderman,
had heard her threaten to run away -
I the while apt. efforted supervisors to rpt
immed when a pers under their supervision
was late & he warned the comm. again
& again of the futil of trying to escape - he
also insisted on rpt'g anyone who makes
negative remarks

For classes, the present regs are to be
enforced more strictly - any pers late to
the first period at 4 hr was to be sent to
the Radio Rm to give an explanation -

During the first period I conducted a
quiz on what I had told the class yest - to
my surprise sev of the students remembered
a good deal of what I had sd - Poline was

17 May W-2

The first bit Martin also had shown
went - some asked intel. questions

The second period class was disappointing -
they had done no planning & were behaviorally
disinterestedly, even eating some seeds or
nuts - some throughout the period while
on homework for other classes - some lks
of black poetry were obtained from the
lib & 5 or 6 of the class took turns reading
& seemed to enjoy it - w/ the noise could
be, it was black & beer

I had dinner

We had a h.s. teachers mtg - the theme
was maintaining interest in the material
presented in the classroom - Liane Ames
as a result of her observ. of the h.s.
classes gave us her conclusions that all
of us need to use more varied methods
to keep the students involved - to agree -
the key should be more student participation
from the teacher - Barbara Walker had crit.
comments about my civics classes - my
students, she says, come to her & complain
they can't understand me - she teaches
2, or also - app. some disc on the extremely
low level of understanding of some of the
adults, I decided I should teach 2 12 w -
to the field to Bert 2 10, that the students
should be told they can join any class they
love

C-2-A3(83)

went (he seemed to feel I had given me
a prestige the nurses were unwilling to flood),
& I am to try to bring my meter to the
level of understanding of the students

X I expected we wd have a rally or
a women's + a men's mtg - we had
neither - instd we went to a counsel-
ing session about Betty Dennis - after
the complaints it was decided she
shd obey rules + much closer super-
vision was to be maintained of her by
Laura

I again rd Chiles' Prisoners of War
in the libr

Got home at 10⁵⁰ - the lights were out
so I went directly to bed

11 ↓ Had some convers ^{during the day} w/ Anne B. Wash-
ton - she is suffering from the effects of
jet lag + the heat + the distance she
has to walk to the showers + so on -
there was an orientation session at

10⁰⁰ for new arrivals - she is going to wh
in the rice tent //

11 ↓ Anne B. was feeling a little better //

18 May - Th

Laura wakes Patty up in the morn. by she has had P. goes back to sleep - I called her again when I got up at 7³⁰ - I left the cottage at 7⁴⁵ & she went up yet - Annie B. told me later she went up to the lift & called her half an hr later but that she left by Patty did - I saw P. eating her breakfast at 8⁴⁵ & told her she was late to Inh which starts at 8³⁰ - she sd "Peter (Wotherpoon) knows where I am" - she sd she had registered for her medication

Had a my good

It's had the biggest rain we have had since my arr - it rained heavily most of the day - I have never had my raincoat - have my rain hat & boots & wore a piece of plastic and my shoulders - if my head & feet are dry, I don't care if I get wet on other pts of my body but clothing is hard to dry in that weather

Had lunch & went to adult class at 12¹⁵ - attendance was down as a result of the weather no doubt - I commented on what I had learned last night, that some are attending my class tho they prefer Barbara's because I told them to go to my class - I told them to attend the one they preferred & that I just wa give my class only at 12⁰⁰, as Barb teaches at 12⁰⁰ - I felt to give them a written unsigned guest welcome too

The remainder of the period we played a board game combining prod. in phonetics
(over) C-2-A-3 (85)

9 fruit. in wa usage - Kaye Popas helped a little. - I had learned Marie & other counselors placed imp on this for her rehab so I put some pressure on her - Lore Paris, who usually helps me pers. hrs, paper & pencils, was not present today - I was late bring the class

Ret'd to the cottage - didn't have time for my shower so went to the head dept & gave them a briefing on the news - they were very busy & not so many attended; but I did make myself heard - I was also better organized & covered only 3 items thoroughly, 3 or 4 others in less depth

Thru my shower - I had lost my plastic, so my clothes got wet

Thru the rain subsided, I did not meet my first period class in the new tent, which leaks - we met in the pavilion - I gave them a spelling test on some of the 465 most frequently used words, aft time for study

I also moved the 2nd period class, the Adv. Lang into app. to the pavilion as I planned to talk w/ them about yest's experiment & it is too noisy in the sub tent - The class & I agreed and those who really enjoyed & participated in yest's bl poetry reading but I did not engender much disc from those who did homework for other classes or paid no attention to the reading - I told the class my

planned to give them greater responsibility in running the class & choosing material - I started to read the objectives for their Term 3 in the Study. curricula which interested them - they asked for an explanation of "figurative language" & I spent considerable time talking about metaphors - they chose Anita March as their chairperson for the effort - to start the work off right, in their taking a more active role in the class

Wrote my dinner plate to Tish's entry - we talked to a few students who had given Tish

we had a meeting of the polit. enlightenment tutors - I had told us to draft another test to include the two films, "The Heart Is a Lonely Hunter" & the news - there was some conflict about the meeting time, the usual arguments & lack of order in drawing up the questions, & intensified bad feeling between Tish & Bob Christian, but we finally succeeded in writing ten questions for those under 65 & modifications of the questions for seniors

I had been trying for several days to get from Veronette Christian another list of those who have to take the second polit. enlightenment class after the reg one, as Bob Rankin & I lost the list we had had when - I accompanied Chr. home to get it

(over)

C-2-A-3 (87)

On arriving home, I had a convers. w/
Doy, Annie & Joe - we just talked
about items we now have but to forewarn
if we had known what was needed - then
I answered questions they & Joe about
partic. news items

17 May - F

Here below

Prepared a questionnaire to give the adult class on what they needed & wanted from the class

Typed, making 2 carbons, the list of the people who are requested to take the afternooon class

Went to lunch

Met the adult class at 12¹⁵ & gave them the questionnaire - all the questions could be answered w/yes or no or a one word ans. etc. the last in which I asked for their criticisms of the class, any improvements they could suggest, etc. - I asked them not to sign their names - Kaye Profas & Lore Parrish helped me

At about 1⁰⁰ when I stopped reading the news I went to the microphone in the Radio Room & read the names of those who had to take the afternooon class - I arrived while I was doing this, & I had the Engres. he was displeas'd, probably because he wanted to use the mic. & was in pain, as he is always

I stayed just 1⁰⁰ to let people finish their papers - some had not finished & I told them they could finish later

Then a shower

Read through the adult class quiz - most of the answers made in ans. to the last quest. were extremely laudatory, though there were some suggestions made

I did my first period Eng class in the pavilion

(over)

C-2-A-3 (89)

on acct of the rain - sev. students were
not there - I brk. see dig riding left the from
which each per. cd choose st' thing to read to
h'self - then I had them rd aloud to me a
few paragraphs so that I cd see how they do -
the brs were approp. of the grade level & all
made many errors. - Marcus had the most table

The third period class was to have a day for
free riding in the libr. - however, James gave
a sp. briefing on the news because of the test
Tom & most attended this session

I ate dinner

There was no Eng Libr. mtg

Went to the cottage & prep'd for polit. enlighten
class at 7:30 - the questions were rd by J -
he made few changes - he rd the questions
very fast & it wd have been hard to write
the answers - I was writing the questions down -
Don Jechon wrote them at the board - I had
to help sev. seniors who cd not write & rd
some of the questions again - at the end of the
test J came on the microphone w/ an accusa-
tion that cases of cheating had been un-
covered - The Libr. went to mtg w/ Johnny -
Jones, Sr & go into these chgs - in the
meantime, J capt'd Lee Ingram & James Lar-
wick to conduct the after soc. class - this
mtg in the rice tent, while the hearing on
the cheating went on in the red tent - I dictated
the letter for a while but decided to
after class - the people accused of cheating
were mostly high sch studs, but it was not

clear to me how they had gotten the questions - I expected to teach a small group of the extra class & many were waiting for me, but scores of persons were attracted by curiosity & the gift was not broken down - Janis, helped by Lee, gave me of her intellectual presentations & I felt sorry for the ones who did not get much help in this way

The class was out at 10⁰⁰ - I went home very tired - went to bed - I was disturbed by a severe night of hammering on the windmill & platform being built at the end of the last row of cottages (and now) - it is part of a children's play ground but I hear that it is really a camouflaged watch tower & that child. prob will be allowed there only under supervision and for to impress guests - I went to sleep in spite of the hammering

C2A3 (90)

20 May - S

Went to Dept

Laura told me Betty was being assigned to Room 1 to help w/ child. on the New Brigade
Annie B. Debraught missed some of her belongings yesterday - someone had gone through her luggage - Ann had borrowed her rain-coat w/o saying anything to her about it - she saw some young woman in the cottage visiting Ann - Jay, Verie + I discussed the matter + decided we shd have a house mtg - we set it for Sat night @ 7⁰⁰

X I borrowed Rita's pail and did my laundry - put soap on the line both the cottage - altho there were a few showers during the day, the sun came out sufficiently to dry everything

I made notes for my girl entry

Rd the adult class questionnaires

Ate lunch @ 12⁰⁰

Troop had called for a mtg of the Eng. Techs from 1⁰⁰ to 3⁰⁰ today for curaic. planning - I thot he sd it was to be in the pavilion + I went there @ 1⁰⁰ - find no trace of Tr there, + he not in sch tent or rice tent - inquired @ Radio Plan + they didnt know where he was

Did pers. chores, took a shower + washed my hair

Finished rdng the adult class quiz + tabulated the results - some answers

(over)

C2-A-3 (92)

were not clear, in spite of the simplicity
of the questionnaire but on the whole I
think it gives a useful index of the
state of mind of the class - I typed a
2-page report for J - I also turned in
papers for Lora B. Paris & for Nancy
Clay, who has made much progress in reading
and to dinner

A rally was held at 7³⁰ - I wore boots
but the them off & sat w/ my feet on my feet
bag as the blisters have formed again - hot
& perspiring feet cause the fungus infection to
revive

11 I had earlier told us that some newsman
might be arriving & had even instructed
the child. which answers to give to some
pos. inquiries - This morn. he sd that a
Mrs. Hunter, wife of the publisher of the
Sante Rose Press Democrat, for whom he
had done some imp. favors, had become
a member of the conspiracy - she was so
dangerous that the Guyanese govt. had
issued an expulsion order, an extreme
step - she is to leave by 9⁰⁰ ton but a
present cannot be found

Rally

News on the p.c system which had been
broadcast earlier opened the rally
singing loudly - I saw Mrs. Hunter can't be
found - it would be naive to think she might not
be w/ mercenaries out in the bus - had us sing
loudly

To find in favor for news giving
of news on China - USSR conflict - Russ. has
superior armament - China can't invade Russ if
doesn't bel - won't purs. unless in underground

someone else - think I decided on cucumber.

List of people who missed medications -
read warnings

Long list of prizes

Nothing dismissed - I got home about 1⁰⁰

A dirty plate & fork had been left on top of
Annie's bed - I questioned each person as
they came in but Ann was not in by the
time I went to sleep - it was obvious she had
done it - that & the thievery from people's
belongings were discussed & we decided to
try to hold a home meeting

Went to bed about 1³⁰

21 May - Su

For bkfst today we had biscuits & syrup w/
milk after I was hungry b/c dinner was
served in the aft

Ann had kept a plate & fork in the cottage
since yest. - I saw her bkfst & reminded her
they shd be ret'd to the dining room as I had
been very firm about this last night - I shd
she wasn't in last night's rally

At home I made girl notes

In the p.m. system announced that Mrs. Hunter
had not appeared by the bus set for her appearance
& an order for her arrest had been issued

As I had a free morning w/ everybody else
out, etc. Harriet & Ruth, until 12⁰⁰ noon, I
typed in my girl - I made consid. prog.

When the others arrived for their half day off,
I put the girl away & went through the papers
in my crate - sorted out what I wanted to
keep, read, or use in teaching - the others
cleaned house, dried out beds & mattresses
(which had gotten wet from the rain) & so on -
there was disc. of putting curtains on the beds.
& decorating - I wanted to put up curtains
and her bed & wants me to do the same
to kill the appearance of the room

Rain fell this aft

Went to dinner about 4⁰⁰ - we had boiled
chicken & dumplings

Ret some of the papers I had sorted out,
resp. my articles & so forth - I kept out
some for instructional purposes

There was music in the parlour, movies in
the dining room - at 7⁰⁰ I went for my treat

22 May - M

Heavy rain fell most of the day
Had blood

The fungus on my foot has grown worse
& is blistering - Discovered by the medical
staff was told to get Western at 11⁰⁰ - I had
then must do to come back so early this
morn. & decided to wait until ton.

Had on my feet
Had lunch at 12⁰⁰

Had w/ my adult class both 12⁰⁰ & 1⁰⁰ today -
gave some instric. on phonics for beginning
readers - then talked about intensive farming
listening the main items on the board - the
students pd good attention & copied the meter -
I made a few remarks on the results of the
quiz & announced a few changes I was making -
told them I wd teach the class both at 12⁰⁰ &
1⁰⁰ on M, then alternate thru 12⁰⁰ & 1⁰⁰ the
rest of the week

Got a shower

Prepared for my cjt classes - it was nec
to think by sthng they cd do w/o the
blackbd as the rain prevented us from
using our new creat. I gave the first period
class stng. bho again & had them rd to
themselves - I answered questions about
words - mainly helped Willie who is
making some prog. but guesses at wds
instad of sounding them out - at the begin -
// both classes I held in the pavilion //

ning of the second period, Peter & other gen-
rally to help me, as I had asked - last
wh he was co-teacher w/ Jim in this class &
I that he cd outline the procedures - we
invented a game for the class to play w/ (hopefully)
amusing subj & preds, to prepare them for
wh and subordinate & coordinate clauses -
the class behaved well, altho they were not
very excited about the game

I tried to find out more about the cheating
in the over test - Dick Tripp sd he cd
not know - Peter told me Shawardhe^S
names had been in the area next to the
one in which the techs drew up the test,
copied the questions & presumably distributed
them to friends

I did my dinner & th it to techs' mtg -
Tripp told us he planned to graduate at the
end of this term all studs 18 or over
regardless of their achievement - they can
not attend classes but will not be
listed on Guy. sch rolls - most of these
students are the ones who seperated most
from the H.S. sch sys, dont take learning
seriously & have low abilities - Betty
some of her studs beg the mtg again for
disruptive actv's - one was Keith Wade,
wh seems to take on incident altho

I talked in the pavilion for some time
w/ Peter - we discussed teaching methods -
specifically, he told me how he teaches

23 May - T

Had blood

at home while on trial

The my showers early as I was going to get
my foot treated at the medical clinic & the
fungus infection has resumed on the same foot
at about the same place as before - have a blister
back of my third toe - was told to come at
11⁰⁰ today - Hands treated it - scolded me
for not coming in sooner as earlier it may
have been cured by simpler method - sent
me home, now is offensive & sore

Wearing boots, now, now because of rain,
is the main factor - feet get hot & perspire

Had lunch

Held my adult reading class at 12⁰⁰ - did
the phonics review first - I had all the
begin. readers sit in front, class those who
can't see well - Christine Young (formerly
Cobb) had spoken to me about helping of my
adult class - she who nights, has spare time
during the day - I suggested she visit this
week to see what we are doing - a flurry
of rain drove us inward in the sub tent
where we had her space & not all could
see the chalkboard but we did the best we
could - I skimmed over an article on opti-
cism in S. Africa

busy with the classroom details that I
did not fit them in - the first period
was for a quiz upon tables or desk -
I did a quiz on intensive farming,
giving details on which they took notes,
planning to have the students discuss
it tomorrow - for the second period class we had
a talk - I read a McCall article from the
St. Louis or Telegraph article & asked them to
select sentences of interest and read classes -
the class behaved well because I threatened
to bring that who misbehaves by taking
notes & answering, only a few participated & some
were noticeably inattentive.

At teacher's meeting following classes we merely
noted absences.
I went home & changed clothes for the rally

24 May - W

We rose & had bkd. 2 hrs late
this morn. - heavy rain fell most of
the day

The sched. was changed for the jr high
sch; because they had the space had
not held my adult class

Christine Young had come for the class -
I invited her to walk home w/ me & talk
about the class - I told her my usual pro-
cedure, described the class to her, & showed
her the result of my questionnaire - when
I told her that I had a diggie. Keeping the
roll she offered to do that as one of her
tasks - we agreed she wd attend the rest
of the wk & see what other way she cd
most satisfactorily help - Christine told
me about attending Angela Davis's class &
if that just by she came over here - it
was decided she shd teach "Feminism" as
the most exp topic - her appearance were
beyond cred w/ all kinds of restrictions -
most amazingly there were only 3 black
studs in the class

I wrote in my goal & made prep. for
my classes

For the first period class I managed to get the
space in the period at the chalkboard -
I decided to spend the hr on the definition
of certain terms starting w/ socialism &
communism - I told that class that under
perfect communism there wd be no milit,
no police & no laws but some of the studs

(over)

(-2-A-3 (109))

disagreed w/me - an argument developed
that Jerome & Willie & seeing Lee Ingram,
I called him in to "define" the terms -
he that it unrealistic to expect a soc.
w/no laws & no police

↓, most of the class were passive listeners,
if that, was Billy Jones!!

Peter Waterhouse came into my second
period class today & rd poetry to them - it
was modern poetry & he whid hard to appeal
to their interests but they showed little
enthus

Yesterday I had been prevented from taking
my place to the podium for the Tribes mtg
because of the new rules, so Dick James &
I ate on the steps of the sub off & discussed
a little business

There was a sisters' mtg at 7³⁰ -
brothers met at 8⁰⁰ in the dining period.
I spent a least half the time at the mtg -
Dorothy Collins was on the floor again for
persisting in her act. two Sebastian &
num. other unemancipated females followed
her inc. Centre there - Ade, who conduct-
ed the session, complained that women were
still building up John Jones' ego - the worst
offenders were put on the n. d. & some were
required to wear an ugly sack dress w/a
sign "I oppress women" - I went into some
detail describing ^{at a} how the homosexual male
goes from woman to woman because he
really hates women, told what he had had

to do the work now except their own home-
refusality

The Jury was finally dismissed at about
12⁰⁰ but before I got out of the yard we were
called back from class.

A crisis of unknown proportions had
occurred because Leon Collier & Jack
Brown in SF had told Albert Kahn, a
pro-law fund guy, about the Guyanese
gotta intention to appeal Cathy Hunter -
Kahn had called the Santa Rosa Press
Democrat which employs her & suggested
they send a more sympathetic reporter -
The result was apparently to embarrass the
Guyanese gov & to alert forces which per-
suaded Guy. officials to ground the plane
which was to visit Mrs. Hunter - moreover,
4 of our people who were conducting a sur-
veillance of Mrs. Hunter - Terry Carter,
Debbie Touchette, Don Casanova & Roxie Lee -
were interrogated by the local Sheriff thru
police & some lawyer - the others held out
and admitted and quit but being signed
a doc & I do not remember what she
had signed - she does not feel any well &
was intimidated - the police threatened to
arrest them all & so they had come back
later too - they had not to get rid of - I
had ordered they all be taken into
custody - he said he would never consent
to have any of our people subjected to court

(over)

press - our money was also removed -
the danger is that police may be
ordered to search our premises in town -
if they try, it will mean war,
for which we must be prepared - a
hunger strike was mentioned as a method
of signifying our commitment to our in-
terest - both Topp & Laidy Loman were
instructed to draw up a statement to this effect,
& when it was ready, all 16 or over, filed
out to sign it.

At one pt in the eve Ocean Poplin arrived -
she was preceded by info that she had
given talk and also in Georgetown but on
arrival in front of her - she wd not eat
the food offered her, wanted a brand of
cereal called "Falls-o-meal" - she wore a
diamond ring and wore a money belt, both
of which she refused to turn over - she was
dressed in the fashion displayed in San Fran-
cisco

I had her up on the floor & much dis-
cussion the first round was lost - mentioned
pieces of property & left cases, argument &
other forms of persuasion she finally
accepted the terms of being more agreeable

As I had worn boots in acct of the
weather, my foot was giving me a great deal
of trouble & I had to sit the latter of during the 2
meetings, I was afraid the latter would
be worse. We were dismissed at about 5:00
with instructions to stay in bed until 11:00, have blood red to the forehead.

C-2-A-3(112)

25 May Th

We got up & had breakfast at 11³⁰ - then we set it to the pavilion for further disc. of our sit.

A new method of res. suicide was tested in case we did not have time to use the piston alone - we wd pack ourselves into piston blades & these blades wd be blown up - the demolition material was tested

The windmill which is being erected as a watchtower was disc'd - it is intended to lk like part of a children's playground, & whether this intention was deemed and was questioned - J. suggested some changes - the device actually generates some electricity - whether the structure could also be taken as a radar device from the air was decid'd but it was decided that no one fam'd. w/ radar wd be so deceived

Many people were put on the floor, but some referred from the women's & men's meetings - some were put on their knees

Mention was made of Norman James, who was going to get a pilot's commission which wd allow him to visit Jonestown occasionally - instead he has turned down a Gen'l town job, has flown other routes & a good salary, we have not seen any of his money, & he is apt to be involved in

romantic affairs.

On the basis of many rpts, incl one written by me, Lovie Jean Lucas was put on the floor - she is a seemingly well-educated, refined black woman whom I had heard declare her loneliness & lack of int. in Jonestown - she is a barber & had hoped to put her profession in Georgetown - she sd she had expected to travel - she didn't know she was turning over her property & jewelry to the Te & I didn't get them back - testimony from many others revealed her regard as a model for movie stars - she had then taken care of an old man whom she neglected - she stole some of his retirement checks & a diamond pin - her house was filthy & her animals neglected, & govt. action was even threatened - she admitted these facts only aft I reminded the questioners she described the same tract to the other senior (Oscar Pophin) had read last night, & it was given to her - it was demanded she use her talents as a barber for the community.

Proposals were made that preparation for jungle warfare begin - there will conduct classes - I asked for anyone who had suggestions to get on the floor - among those who did was Annie B. Washington who had been a follower of Martin Luther King; but

had never been in possession - she had carried a loaded firearm w/ her

In the evening I gave an hr + a half for dinner + food - date and rd the news on the blackboard in the library - I had been sitting during the mtg w/ my boots off, + my feet were much better.

When the mtg was resumed, I told us contact had been made w/ Home Affairs Minister Kings who had been mtg w/ others in the govt. - they had concluded they may have called off the arrests + may inform us in the morn

We were dismissed at 12⁰⁰

Annie C. Washington moved today to a dormitory (called "apartment" now) so that she did not have to walk so far to work, meals, shower & so on.

During my brief trip to the central area, I took care of a row of errands - stopped at the warehouse, got shampoo & a sweater, as I have been a little chilly sitting on my bed in the cottage - at the mending room 11 $\frac{1}{2}$ the only one they had is a little too big for me - I lost the one I got just before I left the US!!

Adna Thomas measured me preparatory to making a rain coat for me out of a plastic bag I brought w/ me from the States.

My foot is healing nicely.

The weather was clear in the early part of the day.

Archibald Ferris made & installed a shoe rack on our cottage porch, which will help keep the porch & consequently the house cleaner.

I took my shower before lunch today, so that I could have my foot treated directly after my adult class.

I had planned to take up some material for my second period class but before I went to lunch there was an announcement that h.s. classes would not meet today - h.s. students were to work on their projects in order to bring produce up.

Had lunch
then my child class at 1:00 - Christine
Young did not come - I gave some phonics
study first - then started to define some of
the terms I had put emphasis on in giving
the new liberty

Went to Margaret James at the pavilion
for treatment of my toes - she used Irish
wine

Wrote a note to J on a strategy matter
I had that of in connection w/ guerrilla
fighting

Had had a techs meeting at 4 or 6:00 w/
Jin high & Alan with Backers - Tom Shubbs
talked to us about lesson plans - Jin high
& Alan with techs here to make them up
weekly for all classes - he showed the
form & discussed it - Tom has ordered
6000 forms from the States - Tr decided
we had begin to use the forms in the
h.s.

We broke for dinner - aft we ate, h.s.
techs met to the pavilion - it was decided
we had send a form to 5 every wk

I announced that we had finally made
connection w/ the Big god - the plan to
arrest our people was rescinded, & those
who had conceived the idea (a small
fascist group in the police) had been
identified & wd be punished - they had

CIA contacts - the plot was definitely that of the CIA & Burnham made a strong denunciation of it & of the U.S. pol. class - he rejected all IMF aid w/ its unacceptable requirements - I told us that meanwhile the sit in the world had become very serious, pointing more & more to nuclear war - the US has concluded an agreement w/ China abandoning its protection of Taiwan, has attempted to force the USSR to desert Cuba - the so-called "free" world is making a concerted attack on Angola, while they continue their efforts to keep control of the assets of Zaire

X I didn't go home as we were to have polit. enlightenment classes in the pavilion at 8:00 - I had my clip board & paper w/ me & had a little of my girl

J. suddenly announced that he was giving out the name of the traitor who had left our ranks - it was Debbie Blekey - she had ^{been} proved to have taken an active roll in the conspiracy - she had five socialist relatives: her mother Lisa Layton, brother Larry Layton (recently arrived), & husband Philip Blekey, all of whom showed an admirable attitude.

John Hurvick conducted the polit. enlight.

class - she wrote notes on the chalkboard
not visible very far back - her material
which was on Communist theory, definitions
& examples of the terms used & examples,
& an audit of the conflict in Greece as it
is related to Communist theory - she
talked very fast which drew some protests -
I circulated through the audit & made com-
ments & there were other remarks & ques-
tions from the floor

The meeting lasted until 11:00

Our college & the area took a long time to
settle down - I did not go to sleep
until aft. 12:00

11/2 I told us the Epaminondas had run a story
that Mrs. Hunter had been held in protec-
tive custody whereas the truth was that
she had been drunk the whole time -
Hayane knew she had entered the city
under false pretences - she sd we threatened
her, whereas she threatened us - Hay did
not bow to U.S. demands - the incident con-
cerning our four people who were detained
were caused by a small recent gap in
the police who have CIA contacts - Mr. Kings,
who is head of Home Affairs & Immigration,
helped us - he sd this was an attack on soc.
& all soc. types - he acknowledged this was
a conspiracy!!

Yest. Patty had asked me to lend her some sewing materials - I had just climbed upon my bench & didn't want to get down & open my crate - I may have later left my crate open w/ the lock & key on it - & when I came home last night, I noticed my sewing materials seemed jumbled, but I thought I may have done it myself - it was late & I was tired - This morning I rearranged my sewing materials & missed my card of needles - I immedi. suspected Patty, went to the lock to investigate - on cursory exam I did not find the needles but did find a spool of thread which was mine - I told Patty, as if she had just noticed it, that I had left my key on the bed - I & I had also both noticed that Patty when she came in yest had inquired "Is it?" as when her curtain is drawn, one cannot see if true or false.

I talked to Patty at lunch & questioned her - she denied taking the needles or the thread - I arranged w/ her to leave to meet w/ them both at the cottage when Patty finished school at 4⁰⁰

I did my hand laundry, using Pat's fail-standing in the damp grass on the benches at the water faucet. Caught another blister to appear on my foot.

I did on my part
Had lunch

Took a shower

The elem, jr & sen high school teachers
met at 2:00 in the sch tent - Tom Shubbs
talked about the learning process - it was
abstract tho interesting - I had to be
a little by 4:00 to meet Tw/Patty & Laura

Patty had come home early - she went
through her belongings as Laura & I watched -
she admitted nothing tho I told of the
evidence, pointing out that she cd have
hidden the stolen needles - Laura found another
spool of thread among her belongings - she
remembered seeing the needles & jerks my
key in the loft & Patty cried but denied
guilt - Laura reminded her that Harriet
had also missed blouses which she later
saw Patty wearing

11/2 later in the day I had missed my key,
intended to hunt for it when I got home

I was spsd to talk w/ Annie B. about
articles stl had found from her luggage
but I didn't have time - I went to dinner
& on my ret told the others in the cottage
of the episode involving Patty - Harriet
thot she was suffering from a psychological
illness & when I wrote my report up I
suggested counseling for her - I gave it to
Sharon Amos, and listed the list of the counselors -
she, however, sd she might be going down to Her town

Rain fell almost all day, at times furiously.
After having bled & following my morning
routine, I wrote up lesson plans for the wk for
my 2 Language Arts classes - in the remedial
group I plan to cont. the work on polit. definitions
& intensive Agric & to deal w/ Senate Bill 1437,
interspersed w/ some spelling lessons - in the
advanced grp which I will have this wk, I
plan a wk's work on metaphors of dif. types
Did a little work on my quilt

Went to lunch. - I was a little late & there
was a long line prob because wd had got
around there was some rot' leg over - it was
gone bef I got to the window, but I got some
very good soup

One of the older women told me she had
seen my lost raincoat - a woman who works
in the Price Tent has it - my name & cottage no
was on it but the woman whose name is Marthe
Turner had made no effort to ret it - later
Mary Costello told me that Marthe had told her
she had it & to let me know - she apparently
became concerned I wd know who had it

I held my adult class from 12⁰⁰ to 2⁰⁰ -
the major by students stays for both sessions &
Ith full each time - I wkd on phonics the
first pt of the period & on polit definitions - prob
on acct of the rain, prob on acct of Lore not
being there to help me at first, the class was

to Anita as chairperson - she was to have
the class members give proverbs and explain
them while I recorded & evaluated the pro-
ceedings - the class showed cons. interest but
there gen. att. too me was not good

Ate dinner

Attended h.o. Tchr's mtg in the pavilion -
Troy told me that Peter Hotheryorn wd be
teaching the advanced lang arts class taking

expressed dismtty w/ the studs to Peter - I
shd have argued the case but was really
relieved to be free of the respons. - I thought
the arrangement as I can devote more time
to the adults - Jenn will teach the inter-
mediate gyp - The math classes were also
reorganized - I showed my lesson plans
to Troy & they pleased him - we discussed
the sch comp. the sit. - many are being
lost or stolen - a method of issuing new
books & making tchr's resp. for them who
adopted - Troy had surveyed the list of his

tried to bring the advanced class.

30 May - T

Patty is still living in the cottage - I had thought she was staying in one of the cots to help with the new Brigade - she still fails to get up & go to school on time - this morn we spoke of some hot wds & I told her angrily she had better red my needles - what makes me especially angry is that the card contained my needle - thread & with my weak eyes I find it very difficult to thread a needle w/o it - settlement in the cottage is that Patty needs more supervision & that she should be moved

At 10 AM I went in the library cabinet collecting the w/ samples of metaphors for my second period class - Brenda Parks, one of Teresa's assistants opened the cases and helped me find some of the bks - all bks are locked up now, since there has been so much theft & she saved the bks for me until class time

I saw Martha Turner in the rice tent - I expressed myself rather firmly, that it was ^{my} ^{raincoat} odd of her not to see that I got ~~it~~ back, since my name & cottage no were on it - she thought I was lucky she had saved it & she made no effort to red it when the rainy season came

I stopped at Ruby Cornell's cottage where the seamstresses wh, hoping to get some scraps of meter for curtains & to make some little cloth bags for containers of my cosmetics & sewing materials - I am using nylon

bes which break - I was told my cottage
notes got meter through a "misunderstand-
ing" - Ruby was back & I'd had to ask her

The boat got in early this morn., having
been delayed by the rain - Robin Pochell
& Estelle the Col arrived as it from the
States, plus sev other members from their town!!

Made my final entry
Went to lunch

Taught the adult class at 12⁰⁰ - I gave
some spelling words & had a few people show
their work for public - Nancy Kelly again
astonished me by making out errors - I
then gave the details on SB 1437 which I
sd to emphasize in all classes - Christine Young
of Th & showed

Only a few were present in my first
period class - I again gave them the meter
on SB 1437

In the second period I presented the
material on metaphor, reading to the class
from diff types of lit, & discussing the
metaphors found in them - the class was
interested esp. in revolutionary sources &
pd fairly gd attention, tho not perfect

Had dinner

We were to have a tehrs' mtg but
it never got under way & I went home

Laura had asked if she cd borrow
my tw again - I was reluctant, tho I
told her she cd but shd have to wait
until I got home - by the time I got

3 May 1978 - 2

Went to the rally - got good seat

Top of new stage

Lee Ingram made announcements

Text: (1) Dist of our impersonal statement ³ ✓

Hearing on what was held - up for tractor to
leave - Charlie T. says fixing up the tractor
so that it was suitable - It said it was
going to be costly to make up in presents
for this dis country - I kept asking for
hurry-up, he deserted any response - Dick
Bainath has been busy for getting the tractor
ready but he had to get Haley Brandon back in
stage & go back to his college - it was
11/2 to the college, I must have missed her //

11/3. move by - I had been very sleepy &
tho I heard it, I forgot it - I wrote sth thing
about discrim thru the rail & poor; (2)
main pts of HR 1437 - I wrote all I had
time for; (3) nursing had given today - of
the newsread just gone, I had forgotten,
much but remembered enough to write
with time was called - I had to help
a senior who had table writing //

11/4 All of I kept hearing on the cloud after
about a Guy. Defense Force plane which was
coming in from Matthews Ridge to take 6 of
our people to New Town - some were patients
& ambulances - the Center was going in the take
stage of radio traffic - Harley was going in
to talk to god. Special & apt' mental had
been made for her - later comments from

I, becoming more & more urgent showed
that the tractor was not being made
ready to leave on time, & finally that it
did not leave & the milit plane flew out,
not taking our passengers - I was indig-
nant, as these H&D flights are a favor,
very costly, & no charge made to us!!!
I did not clear to me why Wesley couldn't finish
on time - no body gave him training & the
other passengers any explanation as to what
was wrong - when Nancy came to see what
was the matter Wesley seemed annoyed to her -
Nancy made it clear that she could have
proceeded w/ the org equipm & I emphasized
that he should be kept fully informed at all
times of problems that came up -

11/5 Dick was not present when the matter was
first brot up but appeared later
11/6 did not come today - later I saw her - she
said she had been ill but wd come to work

* Carrie's apt. were given briefly
Praises were given, people taken off &
assigned to the new Brigade

The rally was dismissed at about 1:00
11/7 A rpt. just written by Shirley Hicks, and
1 and offers in the town & 2 other towns was
not - some members had behaved ungracefully -
Shirley spoke of rivalry, lack of coop from
her sister Martha Hicks & Diane Wilkerson -
also that many of band accepted alcoholic
beverage at home of Mary national who enter-
tained them - the girls accepted reluctantly - Ruby
Carnell & Jimmy Jones were sent as waiters but
got weathered, should for them

31 May - W

Rising & shirt were at the usual time
Had her to talk w/ Betty Cornell about
getting cloth for centers - she said those
which had obtained it previously had been
given it w/o authorization, inspectors wd
take it away from them - on my way home
I stopped at the piece tent where the sewing
project is conducted - they gave me small
scraps of material for my little bags

The day was mostly clear

Checked my crate hoping to come across
my needles but didn't find them

Had on a good entry

Went to lunch

Target the adult class of - gave a
phonetic lesson first - then we had a dis-
cussion on the African treatment of blacks,
based on an article about apartheid in the
Atlantic Monthly which I had started reading
to the class the time ago

& the shower - on my rd saw Betty
Cornell - she mentioned Lisa Layton that
she did not know whether to mention
Debbie Blakey's departure - she had an idea
Lisa didn't want to talk about it - she told
me Debbie had acted strangely in New Town &
she should have been suspicious - she had
remarked to Debbie that she seemed to be
gaming out & Debbie's reaction was hostile

I had told us in the rally that Debbie was pregnant - she had been influenced by the attentions of an outsider who probably was assigned to persuade her to leave the cause - I warned all that kind of us, male or female, as to the effects of such a purpose - Patty went through a pain coat & later I made up my mind I'd let her have the one Almie Thomas made for me, but I then can't reach her

11/4 stopped at the nice tent & got my pain coat from Martha Turner - she didn't admit any feeling in others in keeping it so long, but she'd have easily found me!

In the first period class we discussed Marxist - Leninist terms - all were present etc Billie & Willie - they were fairly cooperative.

In the second period, I gave illustrations from the I had assembled of metaphors taken from dig types of lit - the class seemed fairly interested - I explained what we would do then.

Principle was on our dinner plates. Table setting was at 6:00 - Ellie, Peem had asked to make a complaint against Corbin Boute - she can't learn math in her class she sd & wanted to be transferred - see other studs, incl. Coe Ingram, spoke against Ellie who they think causes trouble in the classroom - the tables

had trouble getting to the bottom of her complaint -
she seems to be suffering from head pride -
we advised she get help & stay where she
is

There were injuries and counseling
Tom - Inez + Verica have been offered
counselors.

Cathy ret'd my needles - she had appar-
ently been counseled by Sharon Amos & said
that Sharon was requesting me to say out
more about the incident & I agreed

Inez had borrowed my scissors 2 days
ago & had not yet ret'd them - I had
wanted to sew on my bags
