June 16

At 8:15 rd news on the bond, so
as to be prepared for talking at the kid off
at the warehouse for some soap & a
piece of string on which to put my keys
to my crates so that they'll be safe
from pickpockets & from loss.

Did some more research in the lib-
in books to be used in teaching metaphors
to my second hr class.

Had an good dinner.

We had a heavy lunch: greens, soup & a
peanut butter sandwich - I was not very
hungry today, so I took the p. b. s. home,
kept it in plastic.

At my shower - had to hurry to get to
the kid off in time for my usual Th
talk, at 2:00.

They were so busy that instead of my
talking to the group I ran through the
items for Sylvia Abbott & she took notes
to distribute to the others.

I rode to the college to get my material
for my classes.

The first period class was late in assembling.
The news was being given on the p. c. system,
and that Tracy could not make an announcement -
some were late which Tr noted - I gave the
class a spelling lesson - I thought it was time
to demand better behavior from this group of
students - their demeanor in class has

(over)

C-2-A-4(2)

improved, but they still interrupt me w/
raising their hands, talk to each other
during class, play w/ objects during class, and
pass over my books & w/ out of cell
ask irrelevant questions continually -
told them this behavior had to stop - a few
did well in the spelling test, the others did
badly

In the second period class I told the students
I was going to have them do the metaphor project
on a class rather than individ. basis - I
put the thrs & mags I had got from the lib
on the table & told them to share them &
help each other - most of the class wh'd heard;
I got questions from some, a few didn't try -
occasionally a teenage sense of humor was
displayed at a poetic metaphor

At dinner we again had a good meal:
rice w/ gravy & chicken giblets, sweet potatoes,
a veg. I didn't take a bun

I missed the Tchrs' mtg - went home

At 7:30 the soc. Tchrs. met w/ instructs. to
prepare a text for pos. use - Rob Christian
was not there, nor Vernetta - Dan Jackson
presided - Betty Jensen had info on points
I wanted included - we kept our voices
low & watched secur. over the test questions
diligently - we each made suggestions &
turned them over to Trish to type up - we then
discussed teaching methods w/ respect to seniors
particularly, tho we did not know how the ltr
classes were to be handled - Joan who was

Teaching a sp. class & 8 or 9 sent out asking
for help - 3 of us volunteered

Her people were in the cottage when I
arrived - Ellie was "pressing" Ann's hair up
a hot iron - Inez was making & putting up
her curtains - Inez was with wife & kids
perhaps which a lot of people have had -
Estelle M. Cell visited us - she & Inez are
close - she may move in - she hadn't
moved to 1029 Perry - she sd Jossie Chambers
had her finger & A. Michel Johnson was expect-
ing to come & her son's baby arrives

Betty Dennis has been invited to a dinner

I finished Man Creek but went through
the book for history, went to read the ending
again

Went to bed at 11:00

2 June - F

I corrected the first period spelling tests
& made plans for today - read the papers &
metaphors from the second period class - they
had done well on the whole

Made notes for girl entries

Went to lunch

Stopped at the library, looked up more
meter for the second period class

At 1, met the adult class - we had a
phonics lesson - I then discussed a few
news events to help the class pass the test
if there was to be one too

Th my shower

During the first period spent the time on
definitions of Marxist - Leninist terms

I read papers to the second period class
told them I wd be turning the class over
to Peter - I read some of the metaphors from
some of the papers - did not have time to
give any of the meter which I had planned -
I talked to a few studs who did not have
the idea - to those who hadnt turned
papers in: Sha Joanne Harris (Constance
Jones' daughter) & Harry Jones - they never
show much int. in lang. arts - they had
exposers, not very good, saying they hadnt
had time to work with, implying discon-
tinuation on the pt of others. - this may be true

of this class but they could have asked
me for help.

Had dinner

We had Thurs' mtng - Dick th down
absences - we discussed students' behavior
& recommended some for praises - I was
Peter of the studs who didn't get their work
in - Tracy mentioned that Jerome plans
had been suggested - it was agreed that by
with Thurs we meet & work cooperatively on
them a 5 @ 3⁰⁰ to 5⁰⁰

I went home

Swedish dinner met in the pavilion - I
located a seat but had to give it up, as the
socialist Thurs had to monitor the test - I
asked the questions, all of which were
essay type - Jerome Anderson asked me to
write his answers as he can't write
well enough - the test was difficult &
given very fast, the people were allowed
to go back over it - Jerome did only fair -
I, at the papers were collected, had the
answers given on the pass system - he said
the Thurs we take the test time at the
rely

Jann was assigned to teach the after class
to be given to those who had failed pre-
vious tests - I asked her if she needed
help, as I had volunteered that night - she
obviously didn't want me - Pauline Simon taught

The entire class

A large group from Jonestown is going on one of the tours in the Northwest Region to Ken Burnham's tomb - Venice & I were named - they needed their clothing & packed - then I was told Tom Griffith, who has been overworked, was told not to come to the tomb, & the prob of becoming the Sch. of came up

I had borrowed 2 of my (former) bks from the library: Collected Poems by W.B. Yeats & The Identity of Yeats by Richard Ellman & I put them for now and he while waiting for Venice & I to finish them up

Went to bed at 130, very tired from the days' events, esp. being on my feet so long during the heat

3 June - 5

Had Bkfst

Find that they didn't go to the P.N.C. mtg, as Tom was out

Borrowed a pail from they & did my laundry, hanging it over on the toilet area, as our line was filled up - the weather was clear in the morn but rain fell every now & then in the aft, & my clothes did not get dry. Had a little work on my quilt. Had lunch.

Betty Beikman had had plans to meet in the pavilion - she wanted some help on the news - the Eng Techs were to meet at 3 or 4 with her on lesson plans - neither Betty nor the Techs came, prob because of very heavy rain - I didn't have anything to read, so just watched the rain for some time.

I was very tired from last night & didn't feel well all day. Went to dinner.

I decided not to have a rally ton as a lge no of people were out at Papaya for the P.N.C. mtg.

4 June - Su

For today we had detergent & soap

Washed my hair

Started typing in my journal for the first time -
went off, as I didn't get much done

When the wind died, most of the residents were in the cottage - they have been particularly agitated since the young people who lived in here are not very neat - leave their clothes on the empty bed, some do not make their bed and take off their muddy shoes inside - then tried to find a house where Vernie had not been present - there were some complaints anyway - I mentioned leaving dirty dishes around - for some reason, Ellie Wilson became especially intolerant towards me, remarked on my keeping my bed dishevelled - then said that it was the result of my coming to her at the time of the other day's starting of moving to the new place - no improvements?

I spent some time this afternoon in the garden - we were joined by a garden
I ate about 5³⁰ - tried to trade w/ Bertie Smith bread for a leg, but he decided his leg was

biggie & keep it - got some hot sauce from
Peter Wetherington - sev individuals make this
from some wild peppers they find growing, but
I suspect they get vinegar & other ingredients from
the kitchen - it is espec. good on beans &
rice as well as chicken - I'd find no
place to sit - Joyce Lund took me into one
of the med. facs where there was a spare
chair - sitting of the news, which was on
everybody's mind these days, she saw a lot
of people were sitting in the quarters of
Ruth Lowrie, who is crippled & finds it
hard to get to a place where she can
hear the news - she invited me

I sat in the parlor until time to go to
Ruth's - invited Joyce Clark & Dicky
Castillo to accompany me - among those
assembled were sev who were well
informed & as a result I learned more
than I was able to give - they had heard ↓

We went to the rally at 7:30

I began w/ comments on the news & I
made notes

A group from Preston is going to Caracas,
Venezuela for a mtg - we will be able
to get some supplies, such as agric. &
medical, which we have not been able to
obtain - I asked the depts. to list any
such & turn the lists in

Betty Cartmell described her latest trip up the river w/ Phewnee, Tommy Johnson, & Chuck Berkman

Volunteers to give individ. attention to the yz people on the New Brigade were requested.

J. that the no of prizes he had read this wk was absurd - people were being praised (on work crews) for just doing their jobs - these will not be accepted - he did approve of praising students for excellent school work
11¹ Today's mass costs, which I hadn't

11² I read through again the last pt of The Man Who Cried I Am by John A. Williams & finished it

Treats were distributed during the meeting
The agave rfts were heated - those working in the herbal garden & the herbal kitchen had missed a bottle containing an experimental alcoholic substance - someone drank it & Rickman still had had alcohol on his breath - he was called on the floor - he sd he had got some pineapple rind, put sugar on it and it fermented - I told him co. 2 former alcoholic that socialist or, & this stage has

knew nothing of the bottle missed by
the herbal experimenters

Louise Jean Lucas, Oren Poplin &
another woman were called on the floor
for expressing discontent w/ life in Jones-
town & were given severe warnings -
Louise Jean is to be restricted in her
conversation to a few people - one
named by J was Esther Mohrer^S

Reprimands and praises were given
J stated that P.M. Burnham had
intended to fly into Jonestown c/o the PNC
mtg at Papaya but his plane had trouble
& he can't come

The mtg ended about 1st o'clock

Rising & breakfast time 2 hrs late
this morn.

Worked on lesson plans for adult class
(Chris) & remedial class - in gen. for
the adults I am planning to spend a
pt of each hr on phonics or reading &
pt on news items - today I want to try
w/ the news some time on disc & writing
(for those who are able to write) - w/ the
remedial I am givg a much that I intend
to be a strict behav. demands &
make a determined effort to teach the stud-
ents to read & write - at least those who
have the intell.

On my way to classroom saw Christine
Young who has been sick for sev days but
is well. It was - I gave her my latest
attends lists for the adult class, asked her
to draw up an alph. abetical list - we
will add to it during the wk & then
put it in perm. form - I told Christine
my plans for the class today & suggested
she might like to take the writing gyp

Got a new supply of pencils from Day
The adult class had assembled - how-
ever a lge no of chickens had been
brought up for cleaning & most of my class
members usually do this wh I since
it was nice, to save the chickens from
spoiling, I had to dismiss the class

Th a shower

Made notes for my girl & which and
long arts class records so as to be
able to turn them over to Jenn & Peter

Rested a little - I have not been feeling
very well for several days - had little
appetite, my stomach felt uneasy, & I was
very tired, esp in my legs - I may have
just been feeling the effects of standing on
my feet so long IF night - today I felt better
but still don't have much energy

I was taking roll in the long arts class -
some were late as usual - Shirley Hahn
as an observer approached, noted the
tardiness sit & also a few samples of
unacceptable behavior - she spoke sharply
to the students & I followed w/ my
already planned demands for better order
& attitude & explanation of what we were going to
do this week - told the students we had
start diagnostic testing tomorrow - I then
divided w/ them the student team & Kimpochie
& had them begin a written summary
of it when the period ended - at the end
of the period Fropp came around to suggest
more activity for this class - I told him of
my present plans

Went home & got what I needed for the
evening.

Had my dinner - we were to have
teachers meeting in the pavilion, but a

(Cont)

heavy downpour came which prevented us from moving for some time - Becky Beisman was discussing insect life - she says more dif. kinds of insects in Guy than anywhere else in the world - she described the early days of the proj. - I hadn't realized the first contingent had lived in Govt housing on Pt Kaituma for 8 to 10 mos while the road was built & a clearing made - the Te had to borrow a Bulldozer from the Govt - Becky showed me where the first clearing & the first bldgs were: very near to where we were standing in the dining pavilion

When there was a slight lull in the rain I went to the pavilion & loaned a seat - re The Identity of Yeats until the movie was shown & we saw "9" again - it is still interesting to me, altho I have seen it sev'l times - all were required to attend - I commented on it throughout
11 ↓ The community, w/ urging from J, is showing much concern for the news, as he warned we might have more testing too - people listen to tapes of his

I got home off the phone at 1130 &

Versie & Gray were not home yet -
They might have both gone to Steering

Had blp

Made notes for my girl & girl entered
made preparations to give diagnostic
reading tests to my 1st period class - Tom
had collected these for me a time ago -
most are for child finishing the second
grade & have consid. phoned - there is
one copy of sixth grade test

Had lunch

Had my adult class from 12⁰⁰ to 2⁰⁰ -
I opened w/ a phonics lesson, then tried
to explain a talk by J on the subj. of
relig, mysticism & related topics, tying in
the major histor. event developments w/ the
prevailing faith, going on to the danger of
being caught up in either tradit. relig. or
such obsessions as space travel & space
wars & other modern manifestations of the
superst mentalities - it was very diffic.
presentation & I expected most of the seniors
to have trouble w/ most of the ideas - however
I have the topic phoned several times & the
topic will undoubtedly appear on the next
test

Th my shower

Made prep for my 4⁰⁰ o'clock class -
at its beginning Th told me he was
putting all the Lang into class for

of instructors in "Z" - they all gathered
in the set tent w/ the teachers - a short
section of the film was shown & discussed
in detail - students were expected to take
notes - most of the studs were intensely
interested & showed keen observation but
many of their comments revealed little
understanding of the polit. sit.

I stayed to watch the same procedure
w/ the 445 classes - some of them were
more astute but on the whole they displayed
more boredom.

Had dinner & attended Tehrs mtg.
to in the pavilion & set the identity
of spots
At 7:30 the elem & jr high sch studs
had an open house to show their sch
wk & actv's to their parents & other
members of the communit. - there was
much very attractive hand-made
material.

The film "Far from the Madding Crowd"
from the bk by Thomas Hardy was shown -
the chief actors were Peter Finch, Celia
Bates & Julie Christie - altho it had
some fascinating local color & spectacular
scenes, the human relations seemed
absurd, esp. to socialists - the action
was jerky - J. who gave the communit.
made fun of the sit., pointing out the

mole chauvinism & lack of class consciousness -
ness on the part of the workers - everybody
was thoroughly bored by the end of the
first.

While the film was being shown, the
medical staff dealt w/ an emergency which
had developed - the baby of a Guy official
was born w/ a throat obstruction - the
given all for med. when the child wd have
died w/o J's intervention.

Ollie & Eugene Smith's baby was also born
twice - as later noted to us by J, the cord was
wrapped around the baby who also wd have
died but for J's healing power.

I was a little late for church & there was a long line of some newly prepared fruit preserves, after being approved by Jan a relay was served & I surprised this drew more people than usual or, perhaps people the larger helpings. The kitchen had run out of biscuits & had to make more & there were no preserves by the time I got to the window.

I typed in my front porch for a half - Ellie Beane, who sleeps in the daytime, afterwards asked me if I typed every day - I did not but every week or there, as I intended to try to make more progress on my girl - she said it disturbed her & I later told Greg about the incident, who said the housing corp. she was for day sleepers in cottages of day workers - I was upset about the matter, because Ellie either has an effect to have consid. w/ Preston or another because of her death. Jack Beane.

Had lunch.

In my adult class, after a brief phonics drill, I asked the members to write a composition based on yesterdays disc on relig. I put some of the vocab. on the board to help w/ spelling & outlined the main points.

Young came & I asked her to supervise
the reading aloud of a story from a book -
she did that, asking the names of those
who read, so that we can all get to
know each other - I was glad for this as
I know personally only a few

In my shower - Jerry Clark told me
Raney Clay is the great grandmother of
the Mrs. Smith baby - I didn't know she
is the mother of Helen Wideman, Olles'
mother, who left the Ta in SF

Truff cut & showing "2" to the Langarts

11² Our college was scheduled for
counseling at 6¹⁵ but no people did
not come & our case was dismissed.
I suspect the session was initiated by
Mrs. who has been much disturbed at
the appearance of the college - I had
given instructions that our living
quarters be beautified so that they
can be shown to guests - Mrs. &
Dey also, have been partic'ly distressed
at Laura who leaves her belongings at
the spare bed, & at Ellie & Sophie who
don't keep theirs in good order.

The pub. ltr. techs were to meet at
7⁰⁰ to grade papers but this was not
rec. I find, as most of the techs had
taken papers last night - I now had
dressed a scale to give an adv. to
very young people & to snrs - a cell was
issued for people to help snrs who
hadn't taken the test last night & were
taking it now - I went to the rice tent
to help - Bob Christian was giving the
test - he went very fast & was
impatient - there were few to help
the snrs who needed help - I was
w/2 in partic' - from the ones I talked to
I judged ignorance of the topics was
widespread among them.

I went home, for a while, went to bed 11⁰⁰

ones who can't write - I went to the

in writing the answers but the miss
for the miss did not understand the
questions. I tried to help Mary
Castillo, the hump backed woman, & another
elderly woman. But the questions
were fast & were important.

At home I read Igata a while.

Mary Lou Perry & Christine Lucientes
arrived in our cottage last tonight. Laura
moved to the upper bunk. I went

have been concerned that Christine is the

Had lunch

In my adult class I gave spelling words, phonics, & then told them of my effort to help improve the testing set for sure & to do this I want to learn how well my class members write and also whether they can disc news items clearly - We then had class disc on "Z" - I wrote proper names on the board & asked all who could to write a paragraph on what "Z" shows - Christine came during the last 1/4 of the period - she had made an alph abetical list for the class roll

Took a shower

Made a lesson plan for my adult class

In the adult class, we had a phonics
lesson. - then I opened a disc on stealing
first hearing complaints from people who
had mislaid items of clothing & other
articles. - then I asked if class members
had observed or suspected the theft of
food from the kitchen area or spec.
favors given to the staff relatives or
friends - there were many complaints but
they were good in character - Belcher^S ↓
was in attendance & participated - she
11/ Bourdon^S, who rpts on the sun gardens
in reliefs & also is head of inspectors
supported my request to the gp to gather
evidence & submit it w/ names & details -
the class session aroused a gr deal of
interest

I th my shower

Had intended to start diagnostic reading
tests in 1st period class today but as Willie
was not present I did not - I brt diag reading
tests & let the students choose what they

wanted to read - I carried to Annie and so thing
too - which they seemed to enjoy very much -
Jerome showed no interest in riding - Billy
made a pretense of riding intently, so thing by
Linn which he has been in previously but his
attention wandered & he stared blankly - Lor-
eatha found nothing she cared about - Aglander
& Alice did fairly well

I helped Annie B. Washington w/c rpt on
articles she has had beginning when she
lived in our cottage. Thinks and to steal
some of her most articles of clothing from the
apt where she lives now - Joyce Touchette had
advised her to give a description of the
articles so that the inspectors can be on the
look-out for them in getting her descriptions &
writing them down the whole night
period until dinner

Date - some of us got together for Tish's mtny
but I rpg did not come

At 700 we had the sp. socialism class for
all those who had failed to pass the test -
3 teams of 2 teachers each had been chosen -
there was here for enough takes w/o me -
Chr wd have expected me - however, one
young woman wanted to go home & care for
her baby, so I th her place - besides, I was

I borrowed Rita's little tub to do some

she said Mary Lou & Kern Taylor were
called to the Radio-Room during the night -
Rita & I talked about the possibility of food they
from the kitchen - she does not bel. there
are many instances of doing favors for
scraps of cloth which they are going to
use to make other clothes for themselves -
she thought I should mention this to Betty
Carroll - Betty is a sewer & helps sew
food to give to her for clothes to wear
compared with the other girls.
I washed my clothes & hung them up -
a little rain fell & it was during the
day but most of my clothes got dry.
That was my last floor & I did a little
work on my girl - I am still bel.

they seemed to enjoy the exercise - I was
on the front gate & Willie is still not
back in class

The pre-test met at 6:30. At that
in Chicago we each wrote 2 suggested
questions for the pre-test & discussed
arrangements for giving & grading the
test - the questions were presented on the
list and some of them told their friends
their grades for final decisions were
made - we decided to begin that
even. Teachers gave papers for their own
decisions. Those taking the test who
cannot write will be taken out &
given help in the rice tent.

People who had to take the extra
class time (those had already been
chosen) were assembling - I announced
they could see the movies being shown
& write a report on them.

I went home instead of seeing the
films - I learned later they were "The
Barclay's View" & a film on the
Rosenbergs - I think they were shown
on videotape - the machine has been
repaired.

Visitors were in Jonestown today

Aft. 1st I made girl entries, also
wrote lesson plans for my class &

first period class

Had lunch

In the adult class we had a phonics
drill first - we then discussed news items
suggested by dif. class members - Vernetta
came by & gave me a sheet w/ J's remarks
last night & Christine did not come today
"I put the main details in the board"

Had my shower

During the 1st period class we had dis-
cussion around the table on "2" - the
students displayed occas. insights but also had
a number of misconceptions

I waited in the pavilion for a son who
wanted me to write something for her, but she
didn't come - I wrote girl entries

Aft. dinner I went home, then came
back for soc. tech. mtg. - Chr. presided -
we were to draft questions for the next test
if I decided to give one this wk - we
each wrote down 2 questions & a con of
3 was to select the ones to pass on to J. as
our selections - we heard some comments

(over)

C-2A-4(52)

on the grading of the last test - Chr was
very disappointed of Dick Trapp's criticism - from
now on he will never supervise such a test
again.

He broke up the phil. enlightenment classes
and - Chr. got the test questions - I was
exhausted - I wrote the questions on paper, &
Don Jackson wrote them on the board -
Stubs wrote the questions down, and I them
later - I offered to stay to help people who
didn't write - this proved to be a tiring
chore, as I had to move to each one to
hear the answers privately & write it down -
There were about eight men & 2 children

A reg'd movie on the Nazis was being
shown in the pavilion but when I fin-
ished the test I didn't stay for it - I went
home & got to bed.

The other cottage residents came home -
There was talk of the rat who had been
found in the cottage - some saw him -
he had apparently eaten a hole in my
plastic bag & on some of Iris's fabric
scraps - Iris & I were particularly
upset - Christine Lucientes went right down
to sleep - I didn't get to sleep until
midnight because people heard or saw the
rat - he ran around the logs & over the
beds

At 7:30 dressed & went to school.

The answers to the polit. enlightenment test were put on the chalkboard in the back test last night for the teachers to read had been erased. I talked to Verne about the papers about grading the papers - went by Christens' house & got the answers from R. H.

Borrowed Rita's tub & did the laundry that had accumulated since I did it. Had a conversation w/ Don Fields - he was asking what I thought about the Day, referendum to be held in July - we talked about Day politics in gen. I told him I had very little knowledge not even being acquainted w/ the personalities nor issues involved even through the mags.

Conversed w/ Rita - she is still urging me to tell Ruby Carroll that Day & I have had taken loads of fabric scraps to make clothes for themselves - we both believe this is impossible as money can be made for the commons by making articles to sell - Rita furthermore has pers int - When I told her they was talking of making a quilt for Mark & his companion she had a big frown (Ruth) does not even have a blanket & I graded half of the polit. enlightenment tests.

orange butter was given to each and an experi-
mental basis - we also had coffee

Typed in my journal from 9⁰⁰ until 12⁰⁰ fin-
ishing 5⁰⁰ again - I th. another half hr or
so to write a 2-page memo to J proposing
a teaching unit of a testing program in
polit. enlighten in the case of those who
cannot write based on my offer of the
first few who - Ellie is still at the Public
Serv. Unit & the other residents were
putting in their half day

After some of them began to get home I
took my shower & washed my hair

Inez & Ina did some work in the yard &
cleaned up the cottage - they did a good
job of the apt decorating their areas - they
cont'd to disc the sewing they planned for
the fabric scraps they have obtained - they
spoke of making a quilt for her son, w/ whom
she seems to be on good terms again, &
his companion

I spent most of the apt sewing on the
bags I am making

I went to dinner at 4³⁰ - we had a grilled
chese sandwich, sweet potatoes, mixed vegs,
& a mango

After dinner "Jerome Street" was put on the

audiotape machine for children - then
the documentary on Castro was to be shown
& later a comedy film

I sat at the college - I left my clipboard in the toilet - went back for it & learned someone th. it to turn into the Redin Rm - I made notes for my journal

During an announcement that I had made the Castro film mandatory, I went to the pavilion, - stopped at the Redin Rm but didn't get the clipboard - had trouble finding a seat for the film but finally got one right to the front - treats were being given out, today popcorn balls made w/ fudge

The film was an interview w/ Fidel Castro by Barbara Walters - I conducted a disc apt' wds - he had been obviously disturbed by the lack of seriousness he had seen, making me the mandatory showing & his remarks following it - some people had been dis'g'd that he wdnt allow them to dance on the dirt floor which kicks up dirt bad for their lungs - also someone close to him in his step had demanded self retention w/ him - he made references to a person, white, given and ed. by him & connected these characteristics w/ sev. who had become traitors, incl. Debbie - he thot white educated people, unless they had suffered unusually,

were particularly vulnerable to Treason - Debbie
Blackley had not wanted to study Marxism -
Leninism - he dwelt upon the unwilling-
ness of many to make sacrifices - Then
all our people are safe here, we will
have more freedom

I made comments & answered questions
on the Castro interview - Though he had
questionable some Castro practices, such
as wearing an offensive watch, he admired
him for his devotion to & promotion of
communism

When he dismissed us, the gyp voted to
get up & eat at the normal time, but he
wanted people to see the comedy film,
which had been scheduled, if they wished,
so he decreed a 2-hr delay tonight

A particularly heavy rain fell during the night, awakening both Doug & myself - water was coming in the window & the wind jerked the latch off when I tried to close it.

Aft breakfast I wrote a lesson plan for my classes.

Upon further convers w/ Pete on the big bags of material which Doug & I are planning to make up for their pers. use, I saw Ruby Carroll about the matter - she sd she was thd it, but ~~she~~ ^{she} ~~had~~ ^{had} ~~to~~ ^{to} wait for Subiker, as she had to have an inspector w/ her - later on the p.a system we were informed some Amer. newspapermen wd be visiting, & the inspectors had to see that all was in order, so Ruby apparently had to postpone her investigation.

I then turned over to Ruby my iron, which Harriet had given back to me - everyone in the cottage had been borrowing it for pers use - I was dismayed to find that it had been used too hot and material which melted on the ~~swing~~ ^{swing} of the iron.

Heavy rain started up during my class, & we had to move further in - the number was small today - I sd some stories from 3 bks of African folk tales - some class members went to sleep I th a shower.

Going to my first period class, I met
Bernie Dennis & Billie Jones who said they
were going to take a shower after their
periods - they were at least 15 mins
late - the class I met in the pavilion -
I was viewing a film & conversing w/ members
of his staff as they came up to Ann's Harriet,
Terri & others I we did not have a table -
w/ 3 of my class absent (Willie is still not
attending as his school had not been
adjusted to the danger of disturbing J, I
decided to watch w/ the class the TV
prog, which was a documentary on the
Palestinian Arab refugees - Bernie & Billie
had come in - Rich Trapp came by,
was annoyed, finding Bernie asleep &
hearing that he & Billie were late - he
said it was a warning that I was
have preferred they come to Techs meeting so
that we could get the whole prob worked
out - I told the class we would find
another place to meet soon

For dinner we had fish cake, rice, sweet
potatoes & vegs

There was no Techs meeting

I went home - worked on grant entries

Then sat guests - most of the other
residents were out - I had gone to see
"Day of the Condor" (being shown again)
and the machine to breaking down bed

We have a couple of cats wandering in & out of the cottage & either the cat has been freed from prison as far as I know & has not been caught in the trap & they say she saw him last night, some of the commotion has subsided

After breakfast I spent some time gathering news, which I needed for my adult class, because the community may be tested tomorrow at the rally - I intended first to read the meter, typed up by Vermetta for Jo's p.c. accounts but it had been stolen - I wrote down some details from what she had said on the chalkboard & from the meter prepared by Vermetta, now posted at the cottage - this letter is hard to read & it is uncomfortable to stand in the sun to get it

Made some good entries & did lesson plans

The lines for lunch were very long - the servers were out of dishes & we had to wait - 2 young men got dishes from people who had been waiting & tried to get served at the window ahead of us but we did not let them - when we finally did get lunch, we had a very good bean soup, but they must have run out of it because those lost in line got bread pudding - I was told

I was 40 minutes to my adult class - I didn't do any phone but spent all the

I brought my approach in my memo
to it on the testing plan, thinking I had not
noted what a remarkable achievement had
already been made in teaching a huge
community to pay attention to intellectual
matter. - alas, my memo was too long, so
I intend to rewrite it

All my students in the h.s. class were
present today - I moved them from the
pavilion to the ash tent where we find
an empty space w/ table - I gave them
the form of the diagnostic reading tests I
had been planning - they did not have
much diffc w/ it w/ what I heard

Went home of my class & noted w/ what
I needed this week

Ate dinner

Went to the pavilion where the h.s. sec.
classes were viewing a TV prog on the Rosen-
berg spy case which I watched

A no of sons were gathering as usual in
the pavilion to claim seats for the rally -
they did not sit the benches where they had been
placed for the TV showing, but the crew,
arranging them for the rally, insisted on every-
one's getting up until they were through &
this is the common procedure before every
rally & is expected to all concerned & I
was disturbed that my wh was interrupted

I came in - enquired if we listened to the news as it was played in the pavilion - dismayed when told we could not for because of the noise, and we should have protested - had it played again - stopped in middle to reveal this intell. as members of Comm who talk favorably of USA or fail to speak of princ. of Communism

in moments notice to provide med. help

Sen. Brooks who afraid to say anything

I borrowed notes from Marie Rendon, as the

gave the news from last 2 days

Mary made announcement on milk supply for
traders who weren't getting any - she would
cutbacks - many receiving trucks will also be
cut back - many adults had been receiving

money

Johnny Jones - shall we have to have for

Stopped at the Coordinator's off & saw Joyce Touchette, speaking to her about the scraps of material that Iry & I have, as I don't know when Ruby is going to be interested - Since Mary left this morn., I also mentioned the question of food theft from the kitchen - she did not want it to reach the floor, as I was go w/o eating, as he has in the past - she said she wd be into any chgs I rec'd

I whd on grad entries & lesson plans in view of the announcement last night on testing & evaluation instrs. - since I abandoned my plan to write a memo to J on the subj - I will save my notes & see whether I will have comments later

Women's Lib. Meeting

Demerol of bread & jam. Bread & jam
were done in the back by med. staff during
mtg.

Christa Smith says in high girls show dis-
respect for women teachers. All the girls came
up to explain why they do it, they say they try
to see what they can get by with. They do hit the
men teachers for it. Shirley Hicks takes them to
task for bringing capitalist behavior to High
school discipline. It will be used - all in high
girls' names were taken; their behavior will be
reported next week.

Shirley Hicks turned in for getting a plate for
a meeting.

Kim (Korean) entering stage, says things she does
with boys - washing the car home this. They
are 12 yrs old & doesn't show them enough
affection - gives more attention to Lowell,
her - headed boy man.

I was given bread & jam.

A young woman was being confronted about
her little sister for the job man - didn't
know her name - she is one of those 3/4

When joined women at the mtg. in
the kitchen. LaDyan presided.

Respect for sons was emphasized - based
on apt from Catherine Domingue that
child curse her when they don't get what
they want.

Had bkpts

Because I had to give a summary of the news by the Med Day, a day before the next socialism test, I spent time in or two catching up on news of the wh - I read the blackbills one which Teresa had written some of the news items, borrowed her notebooks in which she keeps news from the tapes, & went up to the cottage area to look at the taped news on the board.

Did a little work on my job & wrote lesson plans.

Had lunch

In my child class I tried some measures to promote concentration on sound, as my beginning students seem slow to learn to associate the right sound w/ a letter - I used Cydon Nash's "The Turtle" for the "t" and, also a verse from Phonics by W.J. devoted the rest of the period to an item about the problem of a man by H.E.B. Lin Bois - gave the class a few more items.

I was late to the Med. Day & they were even later in getting organized - when I started, there were few to listen & the atmosphere was confused, so I felt the whole period was wasted.

The polit. enlightenment Tchrs met

Mike is going to New York & it ^{was} neces. to
elect a new co-chairman - aft. nomin-
tions were made it was the feeling of the
grp that a woman shd be elected & Debby
Jensen was elected - Chr. applied the new
procedures were using - there were disc.
& discussions on some matters - we all
contributed 3 suggestions for items on the
test - Tchrs volunteered to teach Tchrs
soc classes for those who failed the test -
Nancy Nelson, Norma Jackson & I selected
items from suggestions & made up the test -
we finished about 9⁴⁵

Worked on lesson plans for my classes

Went to lunch

In my adult class I had a drill on
phonics & then spent the remainder of
the two periods on the news, putting the
most significant items on the chalkboard -
the others were as far as I expected
on the day of an expected test - I think
many people were preparing chickens
for my shower

In my large high sch class I gave
them a day off from diagnostic tests
& concentrated on news items to help
them w/ their test - Jerome missed today's
class again, on his assignment

Went home & prepared for Tom's event

Had dinner

tions for recommendations & plans - We dis-
cussed the possibility of getting tutors for
some of the h.s. students who are
having diffie w/ riding - he said Chris

which I did not know - Dick, across

personalities to press, but he told me

because of revelation he there given her
as to where our money is - where got \$25,000
instead of \$15,000

I made statement of Marie Kisor's
teaching and instructions of her father &
acts of actions of Debbie

I went on to question about China & people
want to be there is no morality - he used
Debbie as example of convincing them, there
is no moral standard

It began to be apparent I wasn't going
to test the question - he wanted planned
for an easy answer.

I drew out the reasons for China's attitude,
showing discouraged & replies he read,
esp. from the young, he had the sick ethics
for some studies but in the flow & then he
called some words - I guess he was called
for some reason - But Kice admitted he

Tomorrow: want to know class struggle,
Stockwell on CIA, Du Bois - I met him
once - only about 18 people there; 9 members
of J's church -

Arbelle what he didn't like about Jones -
town - freeze - dry school backbiting -
specifically in the Hertel Kitchen, more spe-
cifically thirty fields - he says she doesn't
know what she's doing - I agree she doesn't
follow through - he advised her not to play
go - go with her husband - I says she confides
in, because 14 days people - Eric Jones says
she is indecisive, should make up her mind
whether she wants to go back to Dow -
she agrees: either shit or get off the pot -
I says Dow has come a long way - she
needs to consider her future - though before she
goes back to him & places burden on him

Phyllis Chalkin says when Dow became
an asset to the ~~black~~ ~~movement~~ ~~movement~~ her -
she has been heard to say she can't get
capitalism out of her

press - the capitalist press set on burning
people for 4 days in the grand - they
called us "communist" & that was a
mistake because it caught the attention
of some, such as Harvey Milk, supervisor.

Elmer Dennis made some remark in the
aud. about "her fed cos don't like structure
she's down the river all the time" - his
hostility attacked - say he's in the house
he had to be shield in the states - I see
Elmer hostile all the time - see other
people were on the floor in connection
w/ their remarks on Patricia & structure -

I put the meeting to an end w/ a
statement about the cancellation by the
Federal Commun. Commission of our amateur
radio license - This will make our
communications much more expensive -
we will get a license from the Guy
Govt. But apparently an amateur operator
in the states will be forbidden to communi-
cate w/ us

Whether we have a test in our polit.
enlightenment classes too will depend on how
much concentration on the news I see

I didn't get home to bed until 2 AM

We had a little thing - 2 hrs.
Lip helped I did my laundry - didn't
see Kate the borrow her little tub for washing
my clothes in a small bucket w/o a handle
which has been under our cottage for some
time - rains threatened but did not come -
I was able to get everything dry w/o trouble
I found that 3 lbs. of duffel bag w/a
lot of clothing in it has been sitting in the
rain & mud but the pump & wash benches
near the cottage - she then claimed it,
so I took it home & found it containing one
each item of fur for fur of boys'
winter slacks, 2 pairs of boys' jeans, numerous
T-shirts in good condition (etc. for being
dirty), & many other items - the duffel
bag bore the name of Doris Howard,
some of the clothing bore the name of
Al Smith & some other of J. E. Jones (prob.
John Arthur) I moved it to the cottage and
it has been sitting in a roomy room
people who left their clothing under the
cabinet up & I carried the clothing to the
workbench, looking at it I was told there
that I should take it to the laundry - saw
Joyce Touchette on there & told her about
it - she was to get in touch w/ Salika,
head of the carpenters - no one seemed
very grateful - it just meant extra work
for every body

I presented the spelling words I gave the

their papers in, the majority did very well -
I then presented the algebraic tests given to
the remedial high school class - they did
better than I expected.

Went to dinner, then home to prep for the
evening.

We all gathered in the parlour, expecting
a test.

Mr. [unclear] gave the program upon
announcement that we had to evacuate immed.
all 200 of the people still in the States -
they were all threatened w/ going to jail -
he called all coordinators to meet on
housing plans, which we had to be speeded
up - later he announced that, sur-
prisingly, we would be able to take care of
all the new arrivals in the housing we
had available now.

Next slide, "Photos" was shown for all
those who cared to watch it - some of
the boys have shown on one of the last
few nights, as the present showing started
where the prev. one had broken off.

Tapp called for all the writers to meet
in the new tent - my name was on the
list - Tapp wanted 40 or 50 letters to Thomas
Heming, publisher of the San-Reporter, in SF,
thanking him for his favorable editorial - I
wrote my drop quickly so that I had seen

Ellie scolded Song & told the little girls to
go home

The other residents arrived home - Day but
when Danielle, daughter of Michelle & Don Fitch -
Ira obtained garden tools & worked in the yard -
There was much talk then how they over the
back of crop of others - they paid little attention
to me & I had the feeling they were deliberately
trying not to talk to me - They had found
the Harriet no longer had the iron & may
know that I gave it away

Everybody's plans changed because we didn't
take showers until the water went on again
at 4:00 - I had intended to wash my hair
but started to rain - I got tangled and the
little bag I had made

Went to dinner at 4:30 - we had fried
rice w/ chicken

Then showered & shampooed my hair
Listened to a radio play at the pavilion incl.
dancing by the Soul Sisters

Got my treat - a film "Tom, Tom, Tom"
was shown but I didn't want to see it

Then I took the rest of my letter to Tom
Fleming which I had had to copy by hand

Went home & read facts - they were cool to me all
evening - went to bed at 11:00

26 June - M.

Appt. kept, mailed final entries.

Corrected adults' spelling papers & almost finished correcting my h.s. class diagnostic tests.

Went to lunch. - Mr. B. spoke to me about a crash literacy prog. I want to conduct in Jonestown. - Mr. B. is to head it up & asked me questions about my class - as a start he wants to take 30^{or more} students, finally decided on the non-readers of whom I told him I was not having very good luck - he plans to come tomorrow to my class & take the non-readers.

In my adult class I reviewed news for the sat. test scheduled for tom - many were asking us questions but the attendance was fairly good anyway.

Took a shower.

In the h.s. class I also gave the students some prep for the test - I spent most of the time on W.E.B. Du Bois who has been the only one of the great Negroes.

App. going to the college & getting what I needed for tom, I went to dinner.

Then I went to the pavilion & listened to the news on the p.c. system until the rally started - I got a good seat aft. the benches were arranged.

I, on entering, began the test - ques-
tions were the same for everybody - he
had used a few of the items our class
had prepared from the tutors' suggestions,
but in gen. it was a diff. test - he asked
mainly essay questions, 5 of them & then
5 bonus questions & people named on a
list previously were sped to help those
who can't write (not finishing their own)
tests, but there weren't enough so all the
tutors had to help as well - When the test
was over & as the rally cont'd, those off'd
to grade the papers went to the side of
the pencil & started to work, not finishing
until the rally was nearly over - Trapp
distributed the papers & John gave the
answers - we were to make allowances
for the age of the person - I had per seniors
11 & I was in this group
in my group, some of whom did very well - I
had a fairly good range of expectations plus to
failure - a couple were very poorly pencilled
that my eyes and the poor light were unable to
make them out & I had to ask for help
In the rally going on at the same time,
agric. q's were given first - then a no. of
behav. probs were taken up - I did not follow
them closely while I was grading papers - the
first concerned the relationship of Marylee (Byrne)
Reed w/ her companion Cordell - I had felt
Cordell was imposed upon her & was

altho in the end the facts did not seem to be that bad

Tommy Boque's was then in the floor for a while. I had heard - he is already I think on the PSL for stealing - he remains a source of grief to his family & the Commun.

The case of a young girl accused of stealing a pair of shoes was then the subject of a long conversation - all the evidence seemed conclusively against her - she was 11^{1/2} whose name I do not remember // had been seen scrubbing the shoes vigorously (to get mud off, she claimed), w/ the purpose of rubbing out another girl's name - she persistently denied stealing the shoes & after a long long hearing, I had to believe her, altho she had used her energy to disprove the truth

3/4 As he has done on every occasion lately, I pleaded w/ us to take our performance more seriously, to ~~be more~~ ^{be more} ~~productive~~ ^{productive}, and waste, get our minds off luxuries we enjoyed in the States - the efforts of the conspirators against us become more intensive all the time - they are threatening law suits against us which will tie up the property we still own in the States & we have to move fast to get all our people out

11/3 one amusing item concerned Rose the Knight
(10) 4-A-5 (over) C-2-A-4 (11)

(Pearson) - The other day an unidentified plane flew low over Jonestown - most people came out to observe it - Rose was seen running for cover, afraid it would bomb the area - She was chided^s for taking so much trouble for her pers safety - she said she was protecting child. - "Then, why," she was asked, "was she running ahead of the children?" which brought a good laugh!!

He finished grading the papers & retired to the auditorium by the rally was over
I got to bed at 3⁰⁰

29 June - Th

As I had I spent a couple of hrs or so
was gathering in prep for my appearance
by the Pres. Dept. of Political Science class
It was an interesting day
Made up lesson plans

Th my church by going to lunch
as Th after are always relaxed

After lunch I met w/ my adult class -
I made sure to arrive by 12 as Jerome
was supposed to enter the adult class & I
planned to have a disc w/ him concerning
his goals - he did not come, however
expected to look in while on patrol w/ other
Security - the attendance was quite low -
With the roll call we got to get spelling
of names correct, then the identity of
more of the students, & began to go to
accurate list - I find that some wished
to be counted present while actually
attending Barbara Walker's class left to
mine - I am changing my tactics on
teaching relying on the Bible as the Pastor
approach has now proved very fruitful &
I want to involve all students in doing
improvement - I spent the last pt of the
period on a list of African countries w/
some of the imp facts concerning them - I
started w/ Angola & Chad & was astounded
that no one knew their former relationship
w/ a European country & facts concerning

them now, tho they have been in the
mud for weeks

I was a little late arriving at the house
with the they were later gathering to
hear me & only a few attended the lecture.
I spent the time mostly in a rather scattered
manner of items - I left about 3:30

In my high school class I gave the last
of the diagnostic tests which th the entire
period - most of them seemed to enjoy
the act - & were well behaved, except for
Billie, who was quiet but acted like an
oppressed actor. Willie was absent - I saw
him later - he said he was sick & I gathered
he had had some sort of threat of his
belongings

I went home picked up what I would need
later - on the way back a heavy rain
started up & tho I had on my raincoat
& boots, I got some of my body drenched &
the boots filled w/ water & I didn't get dry
the entire eve.

Ate dinner

Went to the pavilion to claim a seat -
listened to the speech until the plot,
enlightenment taken place at 9:00 in the rice
tent - Debbie was in charge, but Ann was
present - D. had the scores of those who
th the test - those who failed & perhaps
those who made "Fair" are to meet in
spec. classes, while those who made Excellent
plus to Good "are to be in the pavilion - I

named sev. ~~five~~ which the techs in the previl. were to be chosen - we were to select techs for those needing after help - Techs are to be monitored so that the qual of instrns will be improved - we decided on 7 grps of about 20, w/ 2 Teachers for each class - we got volunteers for the 14 Techs, I among them

My seat had been saved for the showing of "The Battle of Algiers" - I commented on the film - it was required that all see it

At the film I went down to the dining rm area to get water - when I came back I was standing in front of the Presid. Rm talking to the community on the food system - a day or so ago he had requested that depts get in any kind requests they had for supplies from the States & as the conspiracy may tie up our funds in suits & a com was apptd to coordinate the requests - so I had the orders totalled much more than we had available & we had to be pared down - he went ahead to say that in future we will not be able to get anything at all from the U.S. & we shd plan ahead in Soc. Elys or in Eng. we can order what we need

I remarked on the increasing intensity of the lies being told about us & to the edge that 2 black men had attacked Mrs.

Hunter & poured a bottle of liquor down
her throat. They had added the charge that
11 & implying that the Temple was implicated,
& trying to create racial fear in hands -
and they we were going to kill Jim
Cobb's baby - Jim Cobb, a BL man is
one of the main instigators in this plot -
the real aim of all this is to make it
impos for us to sell our properties in the
states - I understand we still own the
ranch in Redwood Valley, the church in the
Valley, the apt's in L.A., & the church in SF
In the eve takes many a no of us cont'd
to disc turn night's gyp mtngs & to wh up a
formal for our after classes
I did not get home until 12 or

30 June - F

Because my feet are usually tired
& sometimes tingled (caused, I suppose, by
my being on my feet so much & by
my varicose veins), Joyce Lund sug-
gested I elevate my feet 2 hrs a day -
as that was feasible w/ my sched. I
am trying to keep my feet up at night
by putting a pile of clothing under my
mattress at the bottom end - this also
serves as a pillow for my head when I
am reading. The system may have
helped, I think the past 2 days I have
used it.

Today I had a girl enter a
lesson plan.

During her announcements I sd w/ ref
to the Odege and Rose McKnight that
she sought stories from a plane - I sd
it was a photograph plane owned by the
"Red Engineers" which was prob. about
come out of a sensational story about the
Ta - by running ahead of some child
she ran the plane to the point, that
Robert Paul "Red" Butler, calling out
"Keep, keep, road-runner" - she protested,
but I thought it was funny.

Went to lunch

That my adult class - it was exceedingly
crowded today - as the day was hot, I
was under considerable strain & as we had
have quite enlightening classes too, I spent
a lot of time.

the time on polit. items - discussed a
little of the hist. of Algeria & then had
a class disc on the film "The Battle of
Algiers" - a few of the class did most of
the talking - one in partic. had a remark-
able understanding of the action of the plot &
ser. drew some revolutionary conclusions -
for the past few days & today. In partic.
I have read complaints from the less
advanced members of my class that they
are being neglected & are not learning to
read & it was also called my
attention what I had noted yesterday on calling
the roll orally that some people attend Ber-
ter's class during my class period but put
their names on my roll - they go back &
forth, apparently w/ the idea of getting as
much "education" as pos. by copying what
I do in my shower.

In my h.s. class, I brt in 2 geog.
books w/ a map of Africa practically
up to date - those who had not finished
their diagnostic test yest did so incl.
Willie who had not been present yest - the
others who did the same thing - Billy
Jones making Willie list of African
ctys - or wd what they think - most
highly busy but Marcus drew a design on his
composition shrt was caught by Tr.

For the second day Jerome did not attend
my adult class as I understand he is
required to do!!

I went home & prepared what I needed
for the eve. - a broken heavy rain came

up, like yesterday. This time I waited it out
but I did not want to be wet all eve.
consequently I was late for dinner & the
family test was very crowded

The announcement seemed to indicate that all
will be present for polit. enlightenment courses in
the pavilion & that aft'wds those who failed
the test will attend 2 hr spec. classes

I went to the pavilion & got a seat - glad
that the early episodes of "Roots" were
being shown for the hrs. spec. class - how-
ever, I find the techs were having a mtg
& I joined them - Betty, Shirley & James had
but a gr. many complaints of students for
various kinds of unruliness - students who
realy are called by the techs. mtg was
the most outrageous of the lot today
was James Buckley who failed to show
any respect for James, but with techs, &
acted disrespectfully to defend her. by all
the techs

As the polit. enlightenment class time approached
to read the names of techs of the sp. classes,
the list of people assigned to each, &
all the folks gathered in the tents w/ their
testers - all others had moved in the
pavilion - I suppose this had clarified
the matter w/ J

Don & I were expected to have 21 studs.
accord. to Vernette who distributed lists,
but consid'ly more people attended - Don
Jackson had set up the overhead projector

W/ a msg of Appt - he opened the
class with a picture of Algerian hist,
lectured for 1 hour in my class -
I had to come through all the visitors &
finally that the house - I managed
to get him to go into the next day -
I gave a paper from the student -
He said the place was a good
understanding of the flat - I kept trying
to encourage study further - almost all
our students were from my adult class
& most are ill

After the class the problem was over
it was decided to start the class again -
The old was over class in school & the all
went with the problem but were sent
back by the program who said we had to
finish our work - he started when I
told I started a class of the problems the
students had with the text - I gave some
complaints about the paper the students having
taken over the beginning of the class I
gave them the problem of a globe
the effort was to have a map of the
we gave some background in Algerian
hist & the coming of the white man
We started the class about 10³⁰ - May
& we were both home - I went to bed
about 11⁰⁰

Honore Briggs, a teacher, has moved
in to occupy the last bunk we had
empty in our cottage.
