On December 6, 1978, [REDACTED] was interviewed at the Port Authority Police Department Headquarters, John F. Kennedy International Airport (JFKIA) Queens, New York (NY), NY by Special Agent (SA) [REDACTED]. Prior to the beginning of the interview, [REDACTED] apprised of the identity of the interviewing agent. She again expressed a concern for her well-being, if information related by her to the Federal Bureau of Investigation (FBI) became known. Thereafter, she provided the following information (u)

[REDACTED] after Reverend JONES went to live to Jonestown, SANDY BRADSHAW had moved into his apartment, in the San Francisco People's Temple (PT). Members of the PT don't seem to know exactly what she is doing there and they have a leary feeling about her. (u)

She advised that the Black Muslims' headquarters is located two buildings away from the PT. As far as she knows, there is no tunnel underground connecting the two buildings. The Muslims and PT would meet together on a few occasions. Only the Planning Commission (PC) members had the privilege to enter and leave through the front and back door of the PT. The other members could only enter and exit through the front door. Everyone, except the PC, were given a body search and a metal detector was also used. Their purses and packages were checked. All the PT members wore security badges, which included their picture. (u)

Members would turn in all their pay checks to the PT. If a member cashed his pay check, he would have to turn in the cash and a stub from his pay statement. (u)

Reverend JONES mandated that all PT members marry out of their race, especially PC members. (u)

b7c [REDACTED] advised that Reverend JONES would administer sodium pentothal or truth serum and/or lie detector tests to members he believed were not telling him the truth. (u)

b7c [REDACTED] stated that STEPHEN JONES has a strong personality much like his father. He also has a bad temper, would speak out a lot about certain matters and couldn't take losing. She described him as being obnoxious and arrogant and she believes that if the PT continued on, STEPHEN would operate it just as his dad had. (u)

(u) She further advised that [REDACTED] JIM and TIM JONES, were very intelligent, easy-going, and could be leaders, if necessary. They both made friends easily. She believes that neither one of them would take over command of the PT, as they both wanted to get out of the PT. (u)
