Re: RYMUR

12/17/92 1048DKM/ndm

Specimens received December 29, 1978

Result of examination: (u)

This report supplements previous report dated
March 6, 1979. (u)

The motion pictures which have been designated
as Q101 through Q122 have been examined as requested. It
was determined that Q101 and Q102 are identical 16mm copies;
Q104 through Q122 are Super 8 and Regular 8 films, noting that
Q118 is unexposed. These films depict JONES and his followers
on bus trips, at the beach, during a visit to a zoo, during
interviews and other general scenes apparently which were all
taken in the United States. (u)

Only Q103, which is a 200 foot reel of 8mm sound
color film with numerous splices, contains scenes of Guyana.
This reel depicts some construction at Jonestown and contains
interviews with some of the individuals there as to why they
like it there, what they do, etc. It appears that this reel
may have been in the process of being edited for documentary
or public relations type promotion of Jonestown. (u)

Q123 through Q126 are 8mm sound color movies which
are undeveloped. Appropriate arrangements are being made to
have these films processed and they will be examined after
completion. They will be subject of a separate report to
follow. (u)

Q101 through Q122 are being returned to San Francisco
under separate cover. (u)

PURPOSE:

The purpose of this memorandum is to request that Engineering Section, Technical Services Division, duplicate approximately 672 audio tapes from Jonestown, Guyana. (u)

DETAILS: (u)

It is anticipated that four cases of audio tape recordings will be arriving at FBIHQ from Georgetown, Guyana, during the week of December 26, 1978. In order to more efficiently review these tapes, they should be duplicated as soon as possible and sent to San Francisco Division. The originals could then be preserved at San Francisco and the San Francisco Agents could work only with the duplicates. It would also be advisable that one copy of each original be maintained at FBIHQ in the event that any of the original and their duplicates were lost or destroyed enroute to San Francisco. (u)

RECOMMENDATION: (u)

That Engineering Section, Technical Services Division, immediately make one copy of each tape recording received from Guyana, and that a master copy of all tapes be maintained by Engineering Section, Technical Services Division. (u)
