On November 18, 1978, U.S. Congressman LEO RYAN was assassinated at the Jonestown, Guyana, settlement of People's Temple. The same day, over 900 members of People's Temple, including its founder, JIM JONES, participated in a mass murder at Jonestown. It is publicly known that People's Temple, Disciples of Christ, originated in Indiana during the mid-1950s, traveled to California during the mid-1960s, and established an agricultural mission in Guyana during the early and mid-1970s. People's Temple dissolved during January, 1979, as a result of the assassination of a U.S. Congressman and the mass murders of over 900 people at Jonestown, Guyana.
In March, 1979, during the course of an investigation conducted by the FBI into the assassination of Congressman Ryan, 15 crates of evidence were received from Jonestown. Included in that evidence were two statements from People's Temple member Terri Buford, who returned to the United States prior to the mass murders at Jonestown and is currently residing in this country. Terri Buford was born February 4, 1952, and was a member of the People's Temple planning commission (%)
In the first undated handwritten statement, Buford stated she would like to kill Governor Regan "just as soon as possible". (%)
The second statement is an undated handwritten letter from Terri Buford to last name unknown, which reads as follows: (%)
, Well, I've succeeded in getting enough information out of that I can assure any nation that has the right price that I will be able to give them the complete for the
