Last in 1969 in October Jim Jones called me out and told me of my mom, Pearlona Forney Thomas and my two dogs, Bessy and Sammy. He then said, "Alfred and Alfred. You have twins?" I said, "Yes." He told me that my sister had died of cancer of the uterus. He told me to go to the bathroom and pass a cancerous growth from my uterus. I went to the bathroom and sat down. One of the nurses put some paper towels from the rack in the bathroom under my vagina. I felt this thing moving down from my uterus which felt like I was having a bowel movement. This thing was very black with a bloody mass at the end of it. It smelled terrible. I had just left the hospital a few weeks before. Dr. Calderwood, then the Chief of Staff at Kaiser Hospital in San Francisco, told me when I returned that he never expected to see me again.

Another time Jim Jones called my brother's name although he wasn't there. Later Jones said to tell my brother to be in the next meeting. My brother did not go. Shortly after this my brother was attacked and caused him to sprain his ankle. On his way home he had groceries in his arms. He fell in Union Square Park. People came and took his groceries and left him there.

On one of ^{the Peoples Temple} our trips to Philadelphia some years ago, we were all in church. My mother, Rita Tupper, walked out to use the bathroom, she tripped over her long dress, and fell down the stairs, splitting her head open, and immediately died. One of the nurses ran up to Pastor Jones and told him that she was dead. He said, "bring her to me." They brought her right up to the stage, Pastor Jones touched her on the head and told her to arise. She got right up and started running around the building thanking him for the healing she received.

IN the Summer of 1969 Jim Jones told me of a specific thought that I had experienced. He asked, "What does this mean to you, life is nothing more than a desert wasteland?" I tried to recall what relevance this had to me and it hit me with a shock that the exact words had gone through my mind a week earlier when I had considered suicide. I didn't answer his question but he proceeded to tell me that there were people who cared for me, and assured me of the value of my life. Being a born cynic, sceptic and a critic I have gone over the situation with every consideration and have found no loophole. This was a thought that I expressed to no one. I believe that Jim Jones has supernatural abilities that I cannot logically explain but I cannot disclaim with that same logic.

In December of 1976 Jim Jones warned me about being with a close friend, Beatrice Bell. He said that for the time being he felt that I should not be around her. Two days later I went to meet Beatrice Bell and was arrested by the San Francisco police department. Charges were filed against me for armed robbery. I had nothing to do with the armed robbery, but I was framed to the point that there was clearly no way out. Pastor Jim Jones told me that he was sure that I was not guilty. I am sure that if I would have listened to what Jim Jones said about not being around Beatrice Bell for a while, I would not have been at the place I was arrested. Jim Jones said that even though there were 3 or 4 eyewitnesses saying that I was guilty, he knew that I was innocent. He told me not to worry that I would not go to jail. Jim Jones then got me a very good lawyer and the charges ended up being dropped. If not for Jim Jones I know that I would have spent at least 5 years in prison.

In 1975, Mrs Virginia Taylor, was going blind because she had cataracts in both eyes. Pastor Jones told her to go ahead and have surgery to correct her failing vision. The surgery was not as effective as it should have been and her recovery was further complicated by a clot in her eye.

Her eyesight was so bad that during spring and summer, she had to be assisted where ever she went. Also she was terribly anxious and afraid. She is 87 and very independent, and hated the thought of becoming helpless and totally dependent on someone else.

Pastor Jones knew of her fear. He spoke very lovingly of her and the many things she had done since she had joined the church. He spoke of her during service one evening, and said "I will not let her go blind!" Later she underwent further surgery on the other eye.

When next I saw her, she called me by name from across the room. She laughed when she saw my amazement. "Ah yes, I can see perfectly now." She has had excellent vision since.

That day I went to see the doctor about my hearing I was supposed to get fitted for a hearing apparatus. They gave me another hearing test and told my mom my hearing was ^{completely} completely alright, and that it defied medical science, and conflicted with all his medical records.

I, Russell DeAndrea Moton duly sworn and declare
During the spring of (1973) one nine seven
three, I received a long distance phone call
from my father Glen Moton. I was staying
in Redwood Valley, California at the time.

He told me that my mother, Viola Mae Moton
was dying and the doctors felt that she
would pass at anytime.

Upon hearing this, I contacted Pastor Jim
Jones, and informed him of the situation
and requested that he pray and meditate
on her behalf. He said that he would
do that very evening while services ^{at Peoples Temple} were
on in San Francisco California, my mother
Viola Mae Moton, started vomiting blood
clots. After she had vomited up all of
these clots, she recovered in a week.

The doctors stated to my dad, Glen Moton
after she had recovered, that it was a
miracle that she had recovered because they
didn't know what was wrong with her. In the
following four years, there has never been
a relapse of this illness. My dad,
Glen Moton, tends to be a sceptic on
such matters, but he was ^{so impressed}

ing what had happened to my mother, Viola
Moton, that he joined the church.

Affidavit of
Ann Elizabeth Moore
Ann Elizabeth Moore

I, Ann Elizabeth Moore duly sworn declare that in
of → Jim Jones told Patricia Cartmell and I to
please be very careful driving home from San Francisco
back to Redwood Valley. Faith Kice rode with us. The road
was wet and as we neared San Rafael on 101, a car
was coming onto the freeway from a ramp into our lane -
the right lane. There was another car in the lane next
to us on the left. We were joking and listening to
the radio and I saw the car coming into our lane.
I said "Patricia, watch out for that car!" She put on
the power brakes, skidded and swerved into the car
next to us on the left which pushed us over into
the middle barrier, then after hitting this the car
went into the middle lane and was spinning rapidly.
There were cars on the freeway behind us traveling
at high speeds around 60-70 MPH, which should have
been hitting us. As we were spinning it was as if
the cars were further behind us yet coming towards
us, I yelled Jim's name twice and the car stopped
spinning, facing the cars coming at us head on.
Almost all the cars were stopped and a few drove
around us at about 5 MPH.

When we were pulled over with the policeman,
about 15 minutes later another car, alone, with no
cars behind or in front of it went past the same
wet spot where we slipped and spun. It seemed for
no reason that it lost control swerved back and forth

FF-3-162A

for about 1/4 mile up the road and finally it hit the center island and spun in the middle of the freeway. There were no cars behind it for at least 1/4 to 1/2 a mile but as we watched cars pass us, when they got to the spinning cars about 6 cars smashed into this car which was in the same predicament as we had been only with more chance of avoiding the accident than we ever had. I know that because I called on Jim Jones that the three of us were saved from death or terrible injuries because we should have been smashed from all sides as the car was that passed this slick area 15 minutes later.

BARBARA JEAN WALKER

I, Barbara Jean Walker, duly sworn, declare:
that in Dec. 1975 in S.H. Calif, Pastor Gene Jones
stopped me after I had touched the altar with
my 1 year old son Marlon District Porter, and told
me that he had a heart defect that would cost
him his life at an early age if not taken care of.
After being given a cloth by Pastor Jones (that
he had touched) for Marlon to wear, I was told
to take him to the doctor and have his heart
checked out. Two days later I took Marlon to
Medical Consolidated Health Clinic of 38th Vermont
in Los Angeles, and insisted they check his heart
thoroughly. After being given a series of tests, it
was discovered that my son's heart suffered a
defect on one side, which caused it to be larger.
No treatment was given because reason for
defect was not established. I was told to bring
him back for more tests in a week

(Continued)

FF-3-165A

In the meantime the cloth was being
worn by Marlon as Pastor Jones had instructed.
When taken to the doctor a week later, and tests
were done again, Marlon's heart was normal
and the doctor stated he only needed more iron
in his diet to finish regulating his heart before
it would be normal.

I (Geraldine H. Bailey) duly sworn declare:
that in January of the year 1973 I was
called out by Pastor Jim Jones, in the
Los Angeles Temple, 1365 Hoover Street,
and received a miraculous healing.

Pastor Jones told me that I had been
having trouble with my throat. This was
most definitely true, as I had been to
the doctor for an X-ray of my esophagus
area just the preceding week. The doctor
arranged for me to begin treatment shortly
after the X-rays were returned to him and
stated that he would be able to diagnose
the seriousness of my trouble at that
time. However, before the time for my
first treatment, I experienced the above-
mentioned call. Pastor Jones informed me
that I had applied for a divorce in 1971
and had paid \$300.00 for the service performed
by a law firm in Torrance, California. He
named all four lawyers in the firm, exactly
as they were listed on the letterhead. He
also stated that my mother's maiden
name was Amanda Higgins. all of this

FA-3-166A

was true and nobody else in the building could have known all these things about my life.

Finally, one of the great miracles of my life was performed when Pastor Jones informed me that I had a cancerous growth in my throat and he was about to save me from a horrible tracheostomy that would have left me speechless and that I would have soon died a horrible death. He asked me to step into the aisle and begin to regurgitate. I did as he told me and a nurse came to my side and held kleenex under my mouth. After about the third attempt, I could feel a sensation of membranes ripping across my throat and I spit out the bloody cancer into the kleenex. I was then given a drink of grape juice and for the first time in several months I could swallow without pain. I had not been able to wear a high-necked dress nor a string of beads for several years, but from that moment on I have had no such trouble nor any sign of cancer in my throat.

declare

that during the spring of the year one thousand
nine hundred and seventy two, Pastor Jim Jones
propheied to the congregation during a Wednesday
night service in Redwood Valley California, that
there would be a terrible accident, a head on
collision, in the area, and that we should pause
for at least a two minute prayer so we would
always be in a reduced state of tension while
driving.

Exactly ~~one~~ week later, six members of the
congregation including myself were on our way
to San Francisco, and we were running late
for an important engagement there. In our im-
patience, we forgot the prophery and was
traveling along the freeway when one of our
members reminded us us that we should follow
the advice of our pastor. So we pulled to the side
of the road and did as he had told us. Immediately
upon entering the freeway again, we came
upon an accident which was a head on collison
just as had been described. Everyone perished in

this accident in which ten (10) people were killed.
The Elkhart Daily, said that it was the
worst accident that had happened in the area
in the decade. If we had not passed this
our pastor had told us, we would have been
in the middle of the accident.

I, (Peter Andrew Wotherspoon) duly sworn declare:
Peter Andrew Wotherspoon

In 1971 at the end of February I attended a meeting at the Peoples Temple in Redwood Valley, California. I was called out by Pastor Jim Jones and told about my father's car accident in 1966, his death in 1967 and a siamese cat I had in 1965. No one could have known these facts by any natural means. He then gave me a warning that, like my grandfather and father before me, I would have died as a result of a terrible car accident in which my wife and child would have also been killed. Pastor Jones assured me that everything would be all right. Only a few days later while driving down the California coast with my wife and child a car coming in the opposite direction swerved straight in front of us. Suddenly a force ^{grabbed} ~~grappled~~ the VW ^{BUS} we were driving and pulled it out of the way of the other car. The cars passed within ^{inches} of each other but miraculously no damage occurred. The circumstances were just what Pastor Jim Jones had

prophecised.

I, (Exia Marie Duckett)
EXIA MARIE DUCKETT) duly sworn declare: that
on the 16th day of April 1975 I was saved from dying
of a heart attack in my home at 1664 page St. in San Fran-
cisco Calif. U.S.A.

The details of this incident are as follows: several
weeks before, Rev. Jim Jones had, during a Saturday night
service at Benjamin Franklin School San Francisco Ca. called
me out by Revelation by the address "who's Father died
in 1957, please stand." I stood and Rev. Jones looked
at me a few seconds before declaring, "I'm saving you
from dying of a heart attack on the 16th day of April
this year" which was in 1975. I was given a red cloth
by one of the nurses of the church and told to
wear it. and as all ways when Pastor Jones states some-
thing about a matter its been proven to always be truth.

The Scene: I believe April 16th 12:00 pm was on a Sunday
night-Monday morning. Church service was at Ben Franklin
school on Geary St. San Francisco Ca. and it was the first of
two services that day, near the close. Rev. Jones made the
statement "everyone should go to the Valley (Redwood Valley Ca.)
