

Dear Tommy,

ACCT. SUPT.  
OF WILSON

26/1/79

I am all right. I think about you all the time and every body else there, Dad, Brothers, Sisters and other relatives. Tell them that I don't think that they have it as a disgrace for what I was charged and locked up with. Because I know that the state paper is going to play it up big in the News Papers and Television. You said that they all respected me home, that all of them were waiting for me to be home with all of them and time would tell by the way they act towards me. Because I am very sensitive in picking up bad vibrations. Cause if not I would rather not be there, which I know there is some who do care, if not they would not be trying to get money for my Lawyer. Find out if my brother Jim is still ining away from Beach Grove. The case is running along all right. By the time you get this letter you should hear some news on the radio about the case. Tell every body to keep listening out, so even if you don't some body might hear and tell you. I would talk to you about other things I would not say now. Write me nothing except about how you are getting along, your job, just keep me informed about the good things. Stephen joins when we go to school we talk a lot together. Steve is very sensitive and very wise. He told me some things that he told you. Steve and I get along very well. I have seen Charlie Fushett and Mike Fushett and Deborah Fushett. Charlie is looking very healthy. Paula Adams is still here. She can go if she wants to but she is staying here to help sell stuff so that we can pay the Lawyer. Lee Ingram is still here. Walter is still here, Philip Blakey is still operating the boat making money. Joan went back to the States but I am not sure about Robin Staw. The fellow that drives the tractor is still here. I know I haven't get any reply on how much money was raised for the Lawyer.

check on it and let me know. I will also like to get a reply from Billy Creamer and Lutude Creamer which I haven't got yet. I got hold of Becky's Grand Mother <sup>my dad a kiss on his forehead.</sup> Becky always wanted to know how she was getting on. If she is still alive tell her Becky used to think a whole lot about her. I send you all my love and I care for you just as if you were still a baby but now I realize you are not a baby no more but you are old enough to think for yourself. I had several people here to tell me, that you are a fine outstanding fellow. <sup>Charles Beckman</sup> written by me as dictated by <sup>Ernest L. Beckman</sup> Austin #550.
