

Report with Timoveyfv

August 30, 1978 Wednesday

Marcy Debbie Terry

We went in and gave him the letter, he said he was sorry that ~~he~~ didnt' know when their Dr. would be back or why he was detained, he said his wife was trying to contact him today. Marcy mentioned we had taken in some blood for testing and he said there had been a Cuban Dr. who had worked with their Dr. that was very good but he didnt know if he was still here as the Cuban Drs. trade every year and that was last year.

We mentioned the visit with Jagan and he said that Jagan had approached him at this reception asking about us. He said he was curious and hadn't really had time to read about us, and as Timoveyfv explained it, he assumed we were something to watch out for being an American group. But Timoveyfv explained a little about us he said and that we had close relations with him, and that he felt very good about us. He said ~~hex~~ didnt' push the issue with the clothes but did explain that,werent making a profit.

We then showed him the paper, he nodded and his exyebrows~~xxx~~ went up in differnt places. He smiled when reading the part about the part of what Jim expalined to Freed about Thayer. After reading it he wanted to keep it, not for the part about Jagan he said he understood this would be delicat~~e~~ ~~xx~~ for us. (he also immediately turned the radio <sup>on</sup>) but he wanted Roberts interpretation of the Political scene he said it would <sup>help</sup> others understand his ideology and his political brilliance ~~xx~~ (that is exactly what he said) He said he would be very interested in having it Marcy said we would check but that maybe with the statistcis they needed we could send a copy in, he said ~~xx~~ he would like to have it sooner. He pointed to the part and asked who we felt who was the Most Marxist, he said he would be curious and aslo they would want to know also, that ~~they might not have had much contact with this person and should.~~ When we were ~~xxxxx~~ discussing, some one came in and when he left. He said that they were making arrangements for Dr. Reids-visa, we asked if eh was going there, he said he was traveling and would be stopping there before coming home. ~~xx~~ We asked him again if it was he that approached Jagan or ~~xx~~ vice-versa. He said Jagan approaced him, he was friendly he just hadn't known much about us before, He did say again though he didn't think it was too good of an idea to keep contacting him or try to push to be in the paper, sicne we needed first to secure our position here. (Meaning the part where we said we would be kicked out) He said this is why he suggested this in the first place because of this, He said Jagan did ask one thing that he couldnt' answer and that was about the Parlimentaty Bill that granded our lease of land. He asked if eh could have a copy of that to understand exactly what our status was here. Marcy mentioned that Jagan had asked the same thihng to her but she really didn't know she~~xxxx~~ she mentioned we would ask. He asked how we did communicate if it was by radio, because he had freind w he said that told him that US Embassy monitors the radio. He asked us to please be careful and not say anything. He said not that we have anything to hide but they could use something. We assured him that we didn't discuss those kind of things sver the radio.

We mentioned as we were leaving that our children were learning Russian and that Jim was hhe teacher, he said that he had about 6 tapes that he could lend us <sup>for learning Russian</sup> he said for not more than about a month because the Govt might want to use them and they would have some priority. He said if when we brogght in that part about Roberts political interpretation he could give us the tapes, it would only take him one day. He was very friendly and said he looked froward to being able to meet~~xxxx~~ Jim in person.
