HERE IS MY IDEA ~~TRANSLATED~~
How TO HANDLE THE ~~ENEMY~~ NIS E/VIA
ENEMY. NIS J a

I THINK THAT WE COULD KILL ONE OF THE MURKERS ARE SOMEONE OF THEM THAT WAS INVOLVED, HOW I THINK IT COULD BE DONE IS WE COULD GET SOMEONE NOT IN THE CHURCH THAT WOULD DO ANYTHING FOR US AND LET THEM KILL ONE OF THEM FOR US SO WE COULD MAKE THEM SCARED OF US, LET THEM KNOW WE'RE NOT SCARED OF THEM AND ARE WILLING TO DO ANYTHING WE HAVE TO DO TO KEEP OUR PEOPLE AND ARE FREE ON THE PERSON DOWN WITH THE JOB COULD SET IT UP TO LOOK LIKE SOMEONE ELSE DID IT.

DAD I'M WILLING TO GO BACK TO THE STATES JUST TO KILL A FEW OF THEM ESPECIALLY MR. TUPPER, DAD I DON'T WANT TO GO BACK FOR MY OWN

REASON, I HATE THE PLACE
BUT I WOULD LIKE TO SEE THAT
MR. TUPPER AND SOME OTHERS
GET A TASTE OF THEIR OWN
MEDICINE!!

Suggestion

From Don Jackson N1 B 9a

Dear Dad,

Yesterday I turned in a suggestion of a strategy against our enemies. After thinking about this over and over, I realize that the thought was unrealistic, foolish, and far too passive and even ridiculous.

I don't believe that we can keep these snakes away from our door without stomping on them and their organization.

The question is how?

We isolate one of them, say Grace Stone. Follow her, find out where she lives, where she works, where she shops etc.

Follow her at a distance and take enough time to find out who her contacts are and where they meet etc.

Put a large poisonous snake in the front seat of her car. The snake may bite her but not kill her, or it may kill her in either case it will scare her half to death.

Continue following the scary bitch taking note of all people she contacts.

When we find out all those she has contacted we do the same thing to Diana Martin.

NIR 96

This will scare her enough that she will run to someone for help. We follow her taking note of who she contacts.

When we find out all those who they have met with we send them a note of sympathy saying sorry that someone in their family has died.

If we fail to act now they will look at it as a sign of weakness and we have no guarantee that they will not try to kill another one of our people.

Concerning my first suggestion if we could spread that kind of rumor among their own group and have them think that maybe the conspiracy has labor trusts then maybe it will confuse and disunite them and when we make this second move they won't know who to blame.

Also spread the rumor that you have slipped back into the country. This will add to their fears.

I will volunteer my services to be a sniper with a high powered rifle to kill Elmer Mertyl. I know I could do it and get away.

I agree the enemies can not get away with this violence, but we must be sure we don't play into their hands, as I am sure they want to push us into confrontation.

I think we must indeed repay them for this, so they will know we are not afraid, and that we mean business. Perhaps we need to reach out to any outside help we have to handle this repayment, if it's done before all our people get here. Violence happens on the street every day (you understand) it must be done well, and with much for thought.

I agree that our people back there are too vulnerable in the U.S. and it may well mean the difference in getting here if this occurred now. (by their hands)

If Stearns are coming over here maybe they can be met and taken care of (perhaps they could be currently about in the Jungle (deep in the Jungle) (you understand) Perhaps Warner Spence could pilot a plane or probe. Could maybe switch places in mid stream with regular pilot (someone who understood an situation). I have heard of plane doors coming open and people falling out. (Plane trouble and consequently some parachutes did not open.)

Stearns could be invited out and offered free plane ride to see John and never get here. If they were stupid enough to do so.

Of course one of us could just kill one of these Enemies as a retaliation. It really depends on what we want to do. If we want to hold off until such retaliation until all our family get here, then we may just want to scare them very badly until the proper time to make more partners.

Probably our best shot could be taken where we are all together.

N113-116

③ Could take Hostages but we have so many
unavailable here with us one never know when these

they to leave would become neutral or sympathy with
the enemy. If that was done I would think there
of capturing must be kept very secret.

④ Perhaps the place where they are held
stay (I am to have) could get ~~some~~ ~~information~~
up - (Is it they would make my stay - nice?)

⑤ If they come on our property (encouraged) and of course
we never admit to inviting enemies here. This would be grounds
for shooting them. You know how important don't necessarily know
what they look like (we could say) of course they would
not identify themselves - My choice but to shoot them)

⑥ maybe our name could be
clipped from

⑦ Dances of their going after success (if Kelly is
done in U.S. (conally to Congress))

⑧ Maybe it would be better to hit at one of the
lesser enemies first (I don't know if this would mean the
others off a net. I do imagine they will all get theirs
one day, which can would be the most advantageous for
us at this time and point.

⑨ I am willing to do whatever I can at any time
my life belongs to the Revolution

⑩ Also I would like to be one who checks upon
Security to see if they are awake and alert etc. If this
is needed. (one day it - without the enemy it is
day it helped) maybe after regular sect team has made
minds etc.

Pete me I hope

N11312a

Now it is necessary to do something to protect the people up there from the enemys there and we cant continue to wait for our people to come here.

I thought of volunteering to go back and take some of them with me, but thought that you might ~~that~~ think that I was up to something.

Anyhow, I could easily get in with them, as my patterns of negetivity etc are well known and Tim Stoen was here, I could act disgruntled etc. This is a very difficult job though, you would have to get involved, but not too involved you would have to say negetive things, but nothing the press could use, assuming always that they carry tape recorders. I would have to contact them and play hard to get and let them recruit me themselves, this would take time, but if ~~you~~ I played it right they might hold off other operations and concentrate on me, if they thought they could get ~~to~~ me to do something for them.

Perhaps if I was back there halfway in and halfway out, like if demanded to go back but didnt fully want to leave and had somebody in the church beat me up w/bruises etc that those outside could see.

Merley T. used to always try to get me to fuck her in Santa Rosa (over)

NIB-126

I could let her think that she had a
hold on me, I'm good at playing stupid
and calculating people. Most of the
college student traitors would underestimate
how hard Tim would think I'm crazy and
unstable. If I could get them together
in a strategy session, having been here
since Tim left etc, I would prefer
Potassium Cyanide and Hydrochloric
acid to a bomb, it could be made
to look like the accidental act of conscience
and suicide and if there
were no contacts in prison with the church
or they could pin it on you, especially if
of hell I went to see a shrink up there and
showed some paranoid tendencies, but not
enough to get committed. Even if I
could string them along for a while
I could set them up individually or
even get shot to death in bed with
Tim Stoen, and set ~~Grace up as the~~
~~murderer~~ frame Grace as the killer.

Many things are possible. I wouldn't
get caught up in their shit. I hate
the States, and Chris was a personal

friend, ~~at present of the~~
(two) ~~most~~ ~~of the~~ Jeff C.

My mother told me about how witches give you cat's whiskers cut at
an angle into small granules in the salt shaker or your food. It causes
cysts to form in the intestine, which eventually block the arteries and
kill a person. It looks like a natural death and the autopsy
can't find anything as the granules are absorbed by the flesh and
would be difficult to find. It is also a long, slow, painful
death. I think a person has to eat it several times. However
we need to do something a little more quickly than this
to back the energies of the angels. We must be careful not
to do anything that would display to the hands of the
conspiracy. You really felt that were used to like to go ~~but~~
boating which makes it easy to arrange an accident
of my death. Of the nature of the angels would have to look
like an accident at this time, unless you wanted to play
it off as an act by some of Christ's associates outside
the church and then drop some hint to another of the
traitors that it wasn't. Of course you can always

11/12/9

plant drugs on people, or murder them in compromising circumstances, such as homosexual situations and make sure the press gets in on it. I remember that some of us signed suicide notes and some of these might be used on these people.

General harassment like letters made from cut out newspapers and telephone calls, or breaking in and leaving things in peoples cars and houses can be good. If any of them go to parties where drugs are used then you can dose them and set them up in something irrational on their way home. A heavy dose of some halucogen can cause brain damage, and as long as they can't prove anything and other circumstances look compromising, its hard for people to try to make a case, especially if we get the first press coverage.

Re: Chris murder + conspiracy step up.

Salutation: Something impressive for enemies to put some ~~stumbling~~ stumbling blocks in their plans, also to increase their fear and our mental harassment. They know your goodness + mercy but would get nervous & reconsider if something was to happen.

With our concern for getting our people out I don't feel we can do all we'd like to or completely say fuck our reputation until their safe.

But... we could have particular things happen to make impression on particular lives such as Tim, Grace, Mertes, Farbart & other Cockey Bastards ~~and the whole~~

WIB-176

They have tried everything else & couldn't get to us. Now when their connections ended up dead in the jungle this could be their move.

I don't know what level of fight we want to get into until ^{the} rest of us are safe here —

But I do say hit some particular spots under the belt hard & drastic could

cause slow up & give us people traveling time.

I am willing, available, & desirable for serious action with our enemies - Thank you for giving me principle to make this possible for me. Maryann Casanova

I agree with Tim Carter, I believe
they will take advantage of us if they
get away with Chris murder. We need to
strike back, as soon as our people get
here. There might be a problem. I think
some people here, with planned in-
struction should go back and kill them
People who they wouldn't directly suspect.
No like they expected Chris, that's why they
killed him. Someone who you know would
do the job. I definitely agree they will not
stop at Chris or Mother, they'll keep
going on. They've gotten one they'll think
they can take us one by one.

Dad,

I suggest the following as long as direct
murder is not practical now:
1. do to the conspirators;

- a. ransack house
- b. several near misses in traffic
- c. destroy the car (slash tires, break windshield)
- d. bullet through the front window from an unknown passing car

2. if we can manipulate the newspaper:

- a. print their criminal history
 - b. print the truth about their activities
 - c. print their pictures so that those who might become cooperators can see who they are
 - d. paint splashed car, house
 - e. robbery
- P.S. what can I do?

S. E. Johnson

Dear Jim - Sebastian + I talked it over
this P.M. We would like to set up an
assassination team to go to the U.S. + wipe
out the traitors when our people get here.
Also, Jim, I would like to help investigate
the traitors + check out the details of Chris
death + other things. I can go to work as a
journalist + with my press card get top
police information. It is easy for me to
check people out. I can ~~get~~ go on with
the Oakland Tribune again for Robert
Mendocino Counties - getting a press card +
thus having a big stick in the Bay Area.
Sebastian is on security now but we are
going to work out plans for an assassination
team.

Thank you, Jim
