① When I told him that we'd been assured by people I high up that our people won't be extradited for either civil or criminal charges, he sd we don't have any extradition treaty with the U.S.

② When I questioned about the comment Dwyer made abt the money, he sd Dwyer was talking abt his opinion that the farm would not support itself, we are having to send people door to door to collect money he heard, and he wondered how we would make it when our money ran out.

③ When I asked about the 1200 on the doortop <sup>comment Dwyer made</sup> and if it was connected to John, he sd, "how sd that he connected to John." I sd, "maybe he has new information." He sd, "He was talking about all of the correspondence he's been getting from both sides and the only thing worse would be 1200 on his doortop."

④ He sd what I wanted Dwyer to talk about, <sup>Dwyer</sup> wouldn't discuss.

⑤ These are the relevant responses. The actual conversation was surrounded with such comments as, "why are you ~~asking~~ cross-examining me at 6 a.m. Can't you tell

I'm sleepy (he played poker from 4:00 p.m. Sat afternoon until 5:45 a.m. Sun. morning).

6 I am maintaining a posture of anger for telling me we were going out Sat night and then playing poker all night. My only conversation with him were these questions. (I told him he played poker all night after telling me we were going out and didn't even show me enough concern to put my mind at ease about Dwyer's comments. It was not exactly a high moment... but I didn't know ~~that~~ I should drop the anger posture without gaining some ground first.)

7 He kept calling me "white woman" who wouldn't even talk to "us niggers" when I went downstairs and passed the table without speaking. He knows that pisses me which is why he does it. However, I didn't react with a defensive answer, for a charge and countered with my questions about Dwyer.
