Dear Reverend Jones

Since Tom and I came to your People's Temple we have received no fewer than 25 letters - wonderful, moving, human letters from members of your congregation.

They have prompted me to write you this brief message to tell you again how deeply moved I was by the experience that Sunday - the atmosphere, the obvious need you have so remarkably filled in thousands of lives, how humanly, passionately and articulately you have redefined

The role of church, Christ, religion  
I also recommit myself to  
your congregation as an active  
and full participant - not only  
for myself but because I want  
my 2 children to have the  
experience

I am in Colorado making a  
film - that is why you haven't  
see me or Tom. But when we  
get back we will return to the  
Temple

We're real glad to know that  
some of Peoples Temple children  
will attend our Laurel Springs  
Camp this August. Good human  
community - building ways are
