Dear Mike and Chris,

I'm writing to you Mike - but I expect that you'll show the letter to Chris, -

Things are changing a little here - Jane, I and Uta are moving to Menlo Park - this is where Uta goes to School (he's 6 yrs old now) and where I work. Finally, it's a place that we're satisfied with and we'll stay there as long as we live in the Bay Area.

I resigned from being Director of the Program last October - what this means is that I work more with people and less with paper - harder work in many ways but so far infinitely more satisfying. I hope to start a part-time private practice as soon as we get to Menlo Park - (around February)

Sandy and I see each other every 6 months or so. - I celebrated my 50th birthday on October 1st, - Half a century - quite a lot of experience - I feel very wise in some ways and very unalike in others - funny - learning never stops - Thank God! At any rate we had a very good time - Perhaps you and Chris will be present on my fifty first birthday -

This letter will reach you via Leo Ryan - a local representative. - I hope it finds you well and feeling good, - Again, remember you are welcome here at any time - both of you - I'll be happy to help you financially - at least temporarily, until you get started - and help you with the plane fare if needed, - Write - let me know what's going on in your life -

EE4AAB

Sincerely
Your Dad
