

Dear Lisa,  
Hi, how are you doing? I'm not too good at writing letters-  
I guess that is quite obvious. But it doesn't mean that I  
haven't thought about you alot. I always enjoyed talking with  
you. And you know me... I would usually rather sit alone than  
talk to someone, but you were always one of my favorite people.

You could fill me in on all the good books that you had read,  
so I didn't have to even read them! There are some good ones  
on the shelf waiting to be sent over, but there has not been  
alot of room in bags to get them out. Mike Klingman picked out  
some good used pocketbooks, and I know they are needed there.  
It is difficult to get enough supplies out with people that go  
because their baggage allotment is limited by the airlines, and  
that is the only way we have of getting everything there, except  
for surface shipments, and they take a long time.

I am hoping to be able to get over there sometime in the near  
future, but there are a couple of things that I have to finish  
up here first. I am looking forward to seeing you again, and  
all the beauty of Jonestown. I have loved it since I first saw  
it several years ago. I was astonished from the first trip to  
the second, I know I will not be able to believe what I see  
this time. Pam has told me about some of the new additions add  
hanging plants and all. Tell her I said hello if you see her,  
I hear she is doing well. I am glad, after all her growing pains  
she finally got responsible.

The people that come back here that have visited are really very  
impressed. They just don't believe that anything like that could  
be done. Lots of people have requested to go (not members) so  
we already have a waiting list of people to come by.

Mark Lane and Daniel Ellsberg talked here at church last Sunday.  
It was really good for our people to hear about the conspiracy  
and that finally things are going to be turned around a bit.  
And of course, people were so happy to see Marciel Her coming  
back was a surprise, and they were thrilled. We still have a  
considerable crowd here in S.F. and 2 busses came up from L.A.  
for the occasion.

It seems funny to have Paula here again. She'll be around for  
a short time. Always glad to have her, tho I know that she would  
rather be elsewhere! And Terry Buford too. Guess Jean will be  
coming back soon. I know she enjoyed herself, too bad she couldn't  
have stayed longer. June hated to come back, but she is badly  
needed for our 'legal dept.' here. And Leona and Frances will be  
working on faising money for the peoples needs.

Well, there is not alot of worth to mention that is going on here.  
Just trying to get supplies and keep the front together. Things  
are ok. here and people are anxious to get over there. We really  
miss our leader, and everybody there.  
Take care and I do hope to get in the neighborhood to see you soon.  
Much love to you Lisa,

Sandy
