Dear Commissioner Barker:

The People's Temple Project would like permission to import and licence a .357 magnum revolver to one of our members, Timothy Jones.

Due to a number of recent incidents at the farm in the North West Region we feel it necessary to secure our supplies warehouse and to maintain an on-duty guard for the protection of our children who have been threatened with kidnapping. The kidnapping threats are not mere heresay but were witnessed first-hand and because of the possibility of this occurring undetected until after the fact, runs a high risk.

Timothy Jones, whom we wish to become our security person, has been employed as a security guard in the U.S. and has proven to be of fine character and demonstrates controlled reactions to crises. We therefore feel that he would be well suited to the urgently needed appointment.

The Peoples Temple Agricultural Project has always been a peace loving group but because of the organized conspiracy and the lengths gone to harass, we feel a protection weapon of this calibre to be an urgent necessity.

Our appreciation to the fine leadership of Guyana can never be stated enough, and—always sharing good relations with police authorities—we hope you will consider this request expeditiously. Our regard for you and your department has always been with great respect. Thank you.

Cooperatively yours,

Paula Adams, Coordinator

Dear Comrade,

Application for firearm licence  
- Timothy Jones

I refer to your letter dated 5th October, 1977, in connection with the above subject and wish to inform you that the application for Cde Timothy Jones to be licensed to use a .357 magnum revolver, is refused.

I wish to point out that it is not the practice to issue firearm licences to persons who are as young as Cde Jones.

Yours co-operatively,

*H. Martin*
