TRIP^L STRATEGY AND PROBLEMS

"
-to formulate a second list, we k have to know whether people would actually go or not/ we were holding off asking them because it was a group decision of the planning group not to ask them because people were talking like Mary Griffith outside the church family and because of those instances of people who did, we were afraid if a person was asked if they would go if asked, they might assume they were due to go and contact relatives/ but if x we don't ask them we have no way of making up a list from the hundreds of people x who attend without having x a huge list which you would then have to glean people from. I don't think we can get you an adequate second list yet/ it takes hours of interviewing people just to get through all that number of people / we have been focusing totally on the first list/ emergency burning of staff material, moving staff room, PR contacts because of the newspaper article - we have been making up cards for people as possibilities but the interviews will take time/ we can send a quick list of people based on the fact only that they aren't on the first list and that they come to services/ that we could get together somewhat fast, in a couple of days but if you want an in depth thing with lots o info that includes good occupation info, it will take time/ with the rush jobs on the former list you didn't get good occupation info as we often only had an hour to guess at people occupation and Tim got the info that we shouldⁿ go too far from the truth.

-do you want seniors on the first list/ we added a few that seemed functional/ can you take all of the rest on the 2nd list? Any problem with people leaving jobs/ some on the first list and the additions have job income that is non-transferrable

STRATEGY FOR LEAVING

- we've selected several people (about 71) who will be "Special Aids" to help people pack and get out quickly
- we have cars set up to go out to each commune - with one person to help every 3 people pack (may have to be 1 to 5 in some cases depending on the amount of aids that will go around - Page St doesn't need aids much as they are all packed and only need someone to go help Pat Grunnet deal with special problems)
- along with the packers will go a coordinator for every commune to stay by the phone (or phones) to see no-one calls out and gather all material after the commune is vacated
- along with the above goes a reassurer for each commune to talk to people who aren't going if they are upset and deal with problems such as this (this person will use the strategy of people being trickled out little by little so that people don't realize at once that this is a large exodus)
- at the church will be 8 runners (trouble-shooters) who can be sent out if a great problem develops - to deal with panic etc. They wilol each be assigned a car
- a packet will go out with each coordinator with a check out list/ I've already made out the check out list - they are printed and have each person's name and bus number on it/ as the packer helps them pack, they ask the person about pink slips etc, (the area like pinkslip is already circled when they go out so the packer knows what is needed to collect) - they check off if the person has taken their medicine with them, if they need to notify welfare, Social Security etc.

C-7-a-1a

-if people are worried about not taking property, the packer brings with them file ^{Labels} ~~boxes~~ that can be put on property with their name on it and we tell them we will ~~try to~~ send it later ~~if we can~~ ~~(as promised tho)~~
(this goes for sewing machines etc)

-no-one will be pushed to go, if they give a rationalization, we will accept it rather than make them hostile so that they will call relatives/ we will tell them they can go later, or can visit if they would rather some time (if they wish to pay for it) - if we are worried tho a person who decides not to go could contact people we will send a trouble shooter from the church to stay with them kindly but so they won't do something irrational

-after the check off list is filled out, the coordinator collects them, and people are driven to church in cars we already have organized

-when they get there, they are immediately taken to the bus where they already have an assigned bus, a hostess will be there to meet them and help them put their luggage on the bus and they can get settled without wandering around/ we will encourage them to go to the bathroom before they leave home

-only those people who have been checked to have special situations will go to tables set up in the main dining area/ so they can deal with these problems/ a legal table will be set up/ a passport table for any papers that need to be signed at the last minute/ a freak out table with people who can answer last minute questions or deal with anxieties, social security and welfare table, job table for people who have info to give or get about terminating jobs, luggage check table for anyone with the wrong size luggage etc, car table for Ellen Klingman to check pink slips, medical table to deal with any medical problems, financial table for financial questions or problems

-Bonnie thought people should only go in and out of the church if they have passes

-the aids - there is some question about when to orient them to their job/ we thought if the meeting was let out at 10:00 that eve (if it is a weekend night) the aids could be called to the gold room at 9 so that they don't leave after the meeting and meet until 1:00/ they they would be deployed at 1:30 to their assignments without leaving the area/ the problem is that we need so much personnel for an immediate departure given an 1 and a half to do it all that we need to use some people for aids that are also going on the trip and they won't have time to pack unless we either tell them in advance of the regular group or not orient them at all until after they pack like the others, but then we won't have their help until late and we will be needing every one we can get *Can Aids know this ahead & pack so can be better used*

-on the busses we thought Marcie could make a speech to all as they get ready to go, so they know they will be well taken care of/ perhaps play a tape of your voice

-a plan to have a very nice dinner the next day for people not going and perhaps rent a nice movie/ a big pep talk from Marcie and maybe a taped message from you reassuring them it will be soon for them (not too much push for money that day unless its put in the light of their getting over sooner if they help???)

-bus lists are already made out with hostesses chosen (but we'll have to add the additions) and add another bus for the additions/ we have 8 busses now so that would make it 9

Judy Flowers said she's not going this trip(?)

Some question about Luggage - at this point its small suitcases or plastic bags - ~~that's~~ C-7-a-16

STRATEGIES AND PROBLEMS SINCE JJ LEFT

- Christine Lucientes/ has some doubts about going to PL tho will go/ doesn't think she'd like it there - doesn't want to live with other people (*feels very left out of PLANNING etc*)
See Continuation continuation pg 3
- Lois Ponce willing now to wait on JJ's instructions/ I told her that it could save her from an airplane crash/ that JJ knows that kind of thing and she bought it - a message from JJ might be helpful
- Bessie Johnson/ ~~her~~ welfare investigator came by - but we called and he said it was routine now, to do that for any person transferring in from another county - she turned him away
- Social Security - ~~is~~ seems to be going smoothly, routine processing with no hitch
- Brenda Jones - outside boyfriend, staying out at nights
- Leslie Wagner Wilson, passing bad checks - marginal attendance but saw her around today
- Becky ~~xxxxxxxx~~ Flowers - outside boyfriend but ~~is~~ willing to get her shots for passport
- Maria McCann, Rosie Ruggerio were on the list to go (with Maria's son Michael) - It was decided to call the mother who is marginal attender in LA (Marcie thought~~xxxx~~ it would be better that way) - and her mother said she could cover for 1 of her daughters but not two or three (with the father) - *Decision now is to send them but thought you should know the mother's reaction.*
- Toby Stone has a 14 year old daughter/ she's going to try to get custody back from her mom/ will send her other two children on ahead
- Dale isn't ~~sure~~ sure how to proceed on the dialysis machine/ it was requested by the office but we were told we could only do it on a prescription basis/ possible member who used to use such a machine Mary Darnell - otherwise needs govt. clearance
- Sharon Kislingberry was felt to be a high risk to go ~~because~~ because of her family having much contact with her during the week, because she is ~~xxxxxx~~ messing around a lot (love affairs) - but she is also a possible conservatorship problem
- ?*
- ~~also Sharon Kislingberry came into contact/ she had an emotional attachment to her mother/ her mother is in LA/ but she is going to see her at some time when she is supposed to go to PL/ the ~~xxxxxx~~ parents will eventually ~~xxxxxx~~ other ~~xxxxxx~~ children have left~~
- Mary Lou Clancy was going to drop it in about the Mission Field, that she might be chosen to go/ her mother likes the idea, when heard about it some time ago - so they won't be totally shocked and call the police etc. - make it 6 mos. trip or something like that (they have liked the idea in the ~~x~~ past that Mary Lou got an opportunity to ~~x~~ travel

~~xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx~~

- RE: Last day ~~xxxxxxxxxxxx~~ pick-up of trip people
- ~~plan~~ plan is for simultaneous pickup
 - 1:30 AM packers, reassurers, and coordinators leave for the ~~x~~ various communes/ people not forced if they don't want to go trouble shooters standing by if any panic or emotional problems
 - tables set up at church for last minute problems (legal, financial, etc)
- MASSIVE*
C-7-a-2a

-food loaded same nite after ~~arriving~~ from 12-2
-people told that in the ~~communes~~ that people are ~~being~~ ~~trickled~~ out
(so they that are left don't realize at first that so many are leaving)

-John Maher of Delancy St, very willing to call the SF Newspaper tho at first he felt that we tend to overreact, you have to expect this kind of thing if you are powerful - thought it would be better to * ~~xxx~~ hit the advertizers than call the editor, he would send one of his people with us to advertizers, also suggested that we have someone influential go, like * Pat Monteden (as * she comes from that backgrnd) or a wealth Gay Group like the Advocate - he said few people read that magazine, its' poorly written - but the people who do read it are well-to-d

-Bob Ganazda said he felt ~~xxx~~ a direct call to stop the article might stop the ~~xx~~ article but create more hostility in the long run/ he ~~xxx~~ also suggested influential people he knew like a very influential friend/ this friend will write a letter

-very positive response to the slides, especially to such things as pictures of the bed and room, Debbie with a little ~~xxxxx~~ puppy, the picture of sinks with the nice wood around them (such slides would be helpful, even more of them with shots like this) - the faces of individual ~~xxxxx~~ children, how all look so happy

He may know all this already

-Kay Henderson met ~~xx~~ Phillip Lacy / told him a bunch of stuff about PC, how PC ~~x~~people live higher than others etc. He left the church Georgia's very concerned about getting her foster children to the PL
-Marcie and others went to visit her, but * she's still concerned

RUMORS

-the number 360 people leaving got out and people thought they were leaving right away/ we spread rumors that 36 people were leaving in a few months and people seem to be believing that so now they aren't sure.

-the slides raised the morale a lot/ don't seem to be too much morale loss because of the expectation of going tho the money is probably falling down a lot

-a message from JJ ~~xx~~ now might help telling of ~~xxxxxx~~ interesting ~~xxxx~~ things happening (as if he had just visited there, don't * need to say he's staying there) will help

-we thought a taped message from JJ would help also to play to people as they leave for the PL, to keep them calm and aware that they will be well taken care of there.

-Tim and I aren't always given clear indications of what criteria you want for people to go/ first told to put on all people with hostile relatives, and conserveratorship ~~x~~possibilities, then told to watch for any problems that would fuck us up when coming in to the govt. - ~~xxx~~ so we don't always ~~xxx~~ know and take people off lists and put them on again as ~~xxx~~ all aren't sure what is best

of us

-Maureen Fitch is very paranoid/ was * paranoid about being put on the list to go/ thought she wasn't trusted or she'd be kept back/ when told she was a conserveratorship problem, she approached Pat Hess and said "why aren't you going" you are a conserveratorshpp problem too. ~~xxxxxx~~ very upset and hostile about not being included in planning but frustrated when you talk to her about how to work out things.

C-7-a-26

-Laurie Efrein cried because she isn't in planning meetings, feels we need input on social security/ we have so many people ~~involved~~ involved as it is, and the process is often slow so she was told ~~xxxxxx~~ we'd contact her about social ~~xxxx~~ security problems when x we have them/ she is very excited about going'

ANIMALS:

- Edie Kutulas asking about transporting quite a few animals, seems to feel you will arrange it for a compound on ~~h~~ our property
- Dorothy Worley asking with some concern about her cat
- Emma Jurardo doesn't want to travel without her birds
- Johnnie Mae Yates expects to take her dog/ knows Eva took Cats & Edwards took dog(s)

-children are still going to diversion schools - will have to continue a few more weeks until ~~xx~~ they leave/ should some more children be diverted towards the end or leave it this way. The school questioned at first but we told them people were being ~~xxx~~ relocated because of employment opportunities

-we haven't contacted Evonne Golden about the plank to leave/ thought we should contact her after they are gone/ will this make her hostile, or should we tell her in advance that some might be going there???

Chris Lucientes - separate travel

-since Christine Lucientes is so potentially volatile and could get people hostile on the busses and maybe even ~~xxx~~ dissuade some from going to the PL (she mouths off a ~~xx~~ pilot, spoke in front of Christa Amos when I wouldn't loan her my car one eve because of possible ~~xxxxxx~~ need ~~xx~~ due to the contacts we were making), said I'm tired of ~~xxxx~~ fucking capitalists around here. Talked to Joan Pursley in front of Christa about Kay ~~xx~~ Henderson and how she got in PC etc. Should she go separate travel with one other person as she ~~xxxxxx~~ is a terrible disturber on trips especially one like this that ~~xxxx~~ is final and when people even tho they want to go might have anxieties.

-there has been some question about whether to notify people or ^{not} about their children going/ Marcie thought we should ask Michelle Fitch about Daniell going with Don and get her permission. Is this generally better if one of the parents ~~x~~ is a member ~~xx~~ even if they are potentially hostile - problem with Michelle and Leslie Fitch having a father ~~xxxx~~ who knows Kinsolving/ both were contacted about their children going. ~~xxx~~

from SB -

I feel we should tell people that their animals will be taken care of (in RV on the ranch) until the arrangements can be made for them to come over ^{all} once - have people expect to see them later.

then go ahead according to the plan SB submitted before (graduation -) there seems to be no other feasible way. (I can tell people I will take responsibility for the animals to care for them since I will be here to the ~~xxxx~~ c15-222c

REPORT - from Dick Tropp

TV taping: going well, we have crated up a TV set, player, and a box of tapes. Many, many more will follow. Would appreciate any suggestions for programs that they might want. I am enclosing a recent copy of TV guide for suggestions.

Library: Collecting and weeding out books. Trying to select a good general collection, some of everything, good books, all age levels, etc. Any suggestions would be welcome.

Records: Will be taking down a few boxes of records.

Magazine subscriptions: Are there any magazines/newspapers that you would like to receive. I will have them transferred to Guyana when we pull out. Here are some to consider:

Time
Newsweek
New Times
New West
Progressive
Nation
Psychology Today
SF Chronicle
Militant
Sevendays
Ebony
Jet
N Y Times
Christian Science Monitor

Any particular types of books, information, manuals, etc.?
Will be checking on diamond mining and gold-mining next week.

I can bring or mail down boxes of recent magazines (last few months) if people want them for general reading, though they're dated. Have lots of back issues of New Times that have lots of good articles.

I have sent along with Rose a bunch of newspapers and clippings of last few days that Jim might want to look through. Most important news is Nazis in SF. This shows quite well how bad it's getting. Note especially that the store they set up was doing brisk business selling literature before they got burned down.

SUGGESTIONS AND IMPRESSIONS

Might be good (since Father is going to be gone so long, and the tapes we have can only keep up the impression that he is "in and out" for a limited time, if at all among some members) might be good for Jim to read over the radio a message to the congregation about how he his making preparations, etc.

Should final "press release" go to all of our friends (extensive list: politicians, ministers, community leaders, etc.) as well as to the media? Or should this be in the form of a separate letter?

C-7-a-3

PUBLICATIONS -

4-8-77

Publications is at a standstill in terms of production at the moment. Though the presses and darkroom are both operational we have begun to crate some of the equipment and pack up supplies already. We are waiting on clearance from the finance committee to purchase the rest of the materials we need. This should amount to approximately \$3500.00. When we get these supplies in we can finish the crating.

What to do with our paper stock here is a major consideration at the moment. We have a large stock on hand. If we crate it and ship it ourselves it would be cheaper than buying the same amount from a paper company at today's prices and having them ship it for us. What we need to know is what the cost of paper and envelopes is in bulk quantities in Guyana? From what I have been told it is very expensive because it has to be imported. If someone could check this out for us in Georgetown by asking some of the local printers we could make a decision.

Another consideration is where we are going to put this equipment when we arrive. Paper, film, and plates need to be kept under cool and dry conditions. Press equipment also requires adequate temperature control to operate properly, especially in a humid climate. We had a question as to whether or not we should think about purchasing a dehumidifier or airconditioner here to ship over there. (Possibly a refrigerator could be sent over from here from one of our homes to store the film in if there is nothing available over there.)

We planned to send the mailing list, testimony files, and picture and negative files over locked up in their respective filing cabinets by air freight for security reasons. A copy of the mailing list can be sent too so that people can use it to write letters from until we get set up overseas. We also planned on sending three pieces of delicate equipment airfreight: the letters office memory typewriter, the composer, and the addressing machine. The rest of the equipment should make it alright by sea.

The people here are in good spirits and looking forward to going, and having a chance to earn some money to support us through commercial printing.

PHONES REPORT' received from Jane Mutschman
written up by Kathy Tropp

A lot of calls have come in requesting our support for the demonstration being staged by handicapped downtown. The 504 Committee, representing the handicapped, Mike Fultz, has called as well as the SF Council of Churches, Norman Leach. ~~MEX~~ Mike Prokes has been handling calls.

No suspicious people at door.

Many calls have come in about the Bay Guardian article, all favorable; from intellectuals, whites.

The Golden Gate Democratic Club wants Jim to be Guest of Honor at luncheon, along with Sheriff Hongisto, Gaines, and Freitas. Prokes talked to them.

Will Battle (SF Police Dept.) called wanting to know if Johnny Brown was still in the church. Did Johnny leave some loose ends...

No calls from schools, after Sharon Amos talked to all the attendance people explaining the transfers.

Several individuals have called with requests of Jim re: housing problems. Apparently not affiliated with any groups, just wanting help from Housing Authority.

C-7-a-7a

PHONES cont',
defense committee for
Asalam Shakur called (Muslims) and wanted to put an article in the paper, but it was too late.

As far as out people on the phones, Jane thinks Vernell should not be on the phones if she can be gotten off. She doesn't write up anything on her shift, Jane is apprehensive about what might be coming in when she is on the phones.

Paul F. got arrested on an unspecified charge. His P.D. wouldnt tell Hue what it was, but Paul got the P.D. to issue supoenas for J and Hue as character witness witnesses. J is o.k. since ou out of jurisdiction and doesnt have to show. Hue is going to call P.D. and tell him that, although he doesnt want to hurt Paul because he thinks he has problems, he will naturally have to tell the truth if he testifies, and that will not reflect well on Paul, since he left our church because he stole money from senior citizens. Hopefully, the P.D. will see that Hue will not be a positive character witness for Paul, and will drop him.

Jim,

Some concerns that come to mind:

1. Need guidelines for purchasing and packing of medical supplies. Georgetown has a list of supplies but to my knowledge has not told us what we can and what we cannot bring in or how.

Also, Rheaviana may be doing some purchasing that is not cleared. She says things are cleared when they are not.

2. Need guidelines for items that departments and individuals want to ship over:
 - animals
 - sewing machines
 - tools
 - sporting gear like diving equipment
 - stereos
 - books
3. Worried that changes in schedules and in selection of people might result in having too little time to accomplish everything that needs to be done to document them properly. We will try to work ahead now to counter that.
4. Too little supervision of youngsters in the Temple.

Overall things could be much worse.

We have about 1215 passports now. People are getting passports and shots daily now like they are finally taking our move seriously. Unfortunately getting passports from scratch in a hurry sometimes requires telephoning departments and wiring money which never would have been necessary if people had acted long ago.

Files are virtually complete on the first list of people. We should begin on the second list tonight or tomorrow.

THANK YOU.

REPORT TO FATHER

RE: ACCOUNTING DEPARTMENT

April 8, 1977

from Fish

All of the short form tax returns are completed and sent in with the exception of a very few who have not yet received their W-2's. *\$44,616.69 due in refunds — about \$10,000 going out...*

Care Homes Taxes are done on all but Janaro's which will likely be finished Saturday night.

Chaikin His taxes are moving along. The tax people requested some additional information which only Gene could supply, and so we had to await his return. I would have put it through on the message if he had been staying there -- but we don't need that sort of discussion on the cia lines... He should not be owing too much on the prior years, but the 1976 year "may" be a little different with the sale of his stock, though he said not. (Chaikin said not -- I am not so sure...) At this point his tax people are giving us extremely "kind" cooperation, and think they know their business.

Bills on accounts They are running about what we expected, per my last report to you on the various amounts. We had a \$5000 bill on Four Star Lumber, which was expected. Jack is making the large crates at this point. Ron Sines is down from valley and is making most of the crates, Jack says.

Communal bills It was the decision of the reference group you appointed to pay all communal bills if folks know they are Peoples Temple -- that means we pay most of the bills. I did not understand paying Tim Stoen's bills at \$25 installments on his medical (as I recall), and sent it back twice and each time was told that was right... so that is how we handled it. His checks are coming in 1st and 15th at this time from DA's office.

C-7-a-12a

He had them sent to my attention, I suppose because I had been handling his bills directly before he left because of the PR problems of any delinquencies. I have to assume we do not anticipate a PR problem now.

Wind down book Am preparing instruction on all of the accounts and departments for June Crym and Jean Brown on the finances after we leave, keeping in mind the various tax situations, etc.

Relics Selling out fast! Even the cases are sold. Beverly is VERY positive about it all.

Cars Lee and Jack are getting these sold as the insurance runs out. They are wholesaling them as I understand it. As yet, they are not moving too fast on this -- but a few have been sold. Tommy Kutulas is down from Valley as of today, and will be helping Al Bell on the cars which is much needed.

Vitamins We have closed the stand down and are packing the excess to go over to the F. L.

Food The procurement people are doing well on their foods... Maxine is pretty well stocked. I understand Delancey sent us some other seafood dishes they got -- and they did give us "some" needs. For the rest, we just bought soap, kotex and the real essentials.

Passport people Have been working out of our office. Phyllis Houston and Jim Randolph have shown persistent dedication in getting this all completed. The place has been noisy beyond imagination -- very hard to work in for accounting, and it has caused some serious mistakes...but hope we have caught them. Lisa Layton also has worked very steadily. *We are managing okay because it is needed*

Should be commended!

Credit Union

Jean Newson is moving along with closing it down. We are deliberately breaking a few rules -- Chaikin and I are pretty much agreed on this. Jean Newson is going along and trying to cooperate. She is working steadily on it. It does take time.

American Express

We are running behind in our deposits and in our reports. I mentioned this to Chaikin on his return today. The folks upstairs do not understand the seriousness of this. We are behind in our deposits and ^{Amer. Express} they may give us a bad time over this -- perhaps not. Perhaps we can hold out till we are ready to close out that phase. Certainly after the first wave of people go over, it will be less difficult in many ways...the sheer volume we handle is trouble.

Rents

The rental situation was not correctly handled and we had to pay another month's rent on all premises. We should have issued written notices on the 1st and this did not get done. Someone made a phone call instead -- don't know who decided on that as I just heard about it after the fact. I trust Maria will give you a more complete run down on that. Then Rheavianna talked on the phone and some were upset.. (I don't know.) Rheav. said that when the call was made to Joel Williams (former reporter for Goodlett) that Joel called our other landlords...I do not know if this is accurate, either... it is all rather confusing. Anyway, I know we got an order to prepare the rent money orders again for April. Pat Hess was to take them out individually around the 6th along with written notice...I recommended our P. R. people go with her on the ones at 998 Divisadero where the lease does not run out till October 10th..or thereabouts... Pat Hess and June Crym were handling and I got no feedback on it subsequently.

Bus Insurance

It looks like we will be keeping the busses after 24th, so this means paying the \$35-40,000 then getting it short-rated, with a refund. it is likely to cost us at least a month's extra in fees -- but they will not insure on a month to month basis. Also, since it is so hard to get -- we would be chancing losing our carrier if we did not reinstate. The other thing is we can give ~~him~~^{mayfield} a "verbal" go ahead, and a "deposit" of say \$5,000... and then be a little late with our payment...holding off till the buses are not needed any more... then pro-rate it ourselves, and send in what we think ... he will then give us "THEIR" calculations and probably an additional bill which we will be obliged to pay..but at least it would not keep so much of our cash tied up.

Bolling was dropped after the second ballot. Conventional wisdom says the fault lies with Burton's personality—too tough, too much the uncompromising politician at times, too many scars from the past. For instance, he supported Chairman Wayne Hays (D., Ohio) of House Administration over Thompson two years ago. But one may also wonder whether the image that was an asset in 1974, when confrontation and reform were in the air, had become a handicap in the first week of December because the mood had so radically changed.

The caucus also shunted aside chances to get on with the process of democratization at the expense of the Speaker's powers. A motion by Rep. Richard Ottinger (D., N.Y.) to make the Majority Whip's post elective was shouted down when O'Neill objected. If that had carried, Burton would have had a second shot at a post of leadership. Ottinger's next motion—to give the caucus power to elect the subcommittee chairman of Ways and Means—lost overwhelmingly. It's interesting that the caucus voted itself the power to name the subcommittee chairman of Appropriations two years ago.

There were some minor gains. The Ethics Committee was stripped of its legislative powers and the industry-oriented Joint Committee on Atomic Energy was stripped

of its jurisdiction. It was scattered among four standing committees, with jurisdiction over regulatory matters (safety standards, etc.) going to Interior and Insular Affairs. If that change is approved by the full House, Rep. Morris K. Udall (D., Ariz.) will oversee nuclear regulation as chairman of the Energy and Environment Subcommittee.

There was a bonus or two to be found in the fallout from the Majority Leader's race. Wright had been slated to move up to the chairmanship of Public Works, a post he must now forgo as Majority Leader. Rep. Harold Johnson (D., Calif.) is next in line and is expected to give up Interior and Insular Affairs for Public Works, the biggest pork barrel committee in Congress. This puts Udall in line for the chairmanship of Interior. "It's the first break I've ever gotten around here," Udall told me. Still, he hadn't tried to produce that break. He struck with his ideological convictions and voted for Burton.

Burton will be replaced as caucus chairman by Rep. Thomas Foley (D., Wash.), an ally in the long fight to put some life into the House leadership and to close the gap between urban and rural liberals, a gap which has cost both groups dearly in the past. Foley will double as chairman of the House Agriculture Committee. □

EVEN TAXPAYERS HAVE RIGHTS

'Intelligence' Abuses by the IRS

JASON BERRY

In 1972, George Williams, a 45-year-old black, self-made businessman, was running the Metro Income Tax Co-Operative in Atlanta. His 400 clients were mostly low-income, semi-literate people, bewildered by byzantine tax forms. For a small fee, Williams's office helped them prepare tax returns. As part of a national program investigating tax preparers, the Internal Revenue Service began looking into Williams's business.

His first step was to send agents into Metro offices, posing as clients. Had Williams received a fair trial, his attorney might well have demonstrated that this was legal entrapment. On the basis of these posed interviews, the IRS decided to audit 300 of Williams's clients, who soon complained to him. George Williams is nobody's fool. Armed with a tape recorder, he accompanied several clients to sessions with IRS auditors, and demanded that the client be informed of legal rights, and the conference be recorded. IRS agents balked; Williams was tagged as a troublemaker.

Since Williams worked for fees and not on a percent-

age of his clients' tax rebates, the auditing agents well knew that he could not have gained by preparing fraudulent returns. And Williams put up a good fight before the IRS destroyed his modest business.

IRS agents threatened his clients with legal action if they didn't testify against him; those whom the IRS managed to intimidate became key witnesses. Williams contended that his clients were denied recourse to the normal IRS appeals process to determine the legitimacy of deductions. But the IRS managed to pin twenty-eight indictments on Williams for "aiding and abetting fraudulent returns." However, by the time of the trial, the government had dropped half of the indictments.

Williams was ably defended by Benjamin Spaulding, a black attorney prominent in Atlanta school desegregation cases of the late 1960s, who took the case for almost nothing. Despite persistent attempts, Spaulding was unable to prevent the court from forcing Williams to submit to two separate pretrial psychiatric examinations, the second conducted over a thirty-day period in a Missouri prison, where Williams claims he was forced to take behavior modification drugs. Officials from the institution testified he was "paranoid," but the testimony was ruled inadmissible when the chief physician, who wrote the report by proxy for the state of Georgia, did not show up. During the peak tax season period, when he was in Missouri, Williams's Tax Co-Op went out of business.

The judge refused to let Spaulding call intimidated clients as defense witnesses. Williams drew a probed

The jurors in the George Williams case are like most Americans in their ignorance of how the IRS operates. They weren't told of the massive campaign to get one small man, of the thousands of taxpayers' dollars spent to break him and his small business; they knew nothing about the tactics used to elicit questionable evidence from the street people whose returns he helped prepare.

Constitutional and legal questions raised by the Williams case indicate the critical state of decay within the IRS today. What tools are proper for tax agents to use when pursuing people who try to defraud the government? Where should the IRS draw the line between tax collection and intelligence politics, police surveillance tactics and programs made infamous by the CIA and FBI? Why have so many abuses occurred in the last ten years? How can they be stopped?

The IRS unquestionably needs to ferret out citizens who evade taxes and defraud the government, but the history of the IRS Intelligence Division—an investigative branch that builds cases for the Justice Department to use in its prosecutions—shows how far the tax agency has strayed from the original purpose. Created in 1913, the Intelligence Division was patterned after a program in the Postal Service, whose inspectors investigated mail fraud and the corruption of employees. During Prohibition, law-enforcement agents called on the IRS for aid. New legislation gave IRS agents the power to search any citizen's bank records; if assessed taxes were not paid, agents could use lien powers to seize money directly from the bank. Al Capone, the most celebrated mobster of the 1930s, was finally convicted for income tax evasion. Search and seizure remain two of IRS's most powerful tools.

The expansion of the federal bureaucracy, the proliferation of intelligence technology after World War II, and the national propaganda campaign against Communists in the 1950s drew the IRS into many areas where it had no right to be. The American system of taxation rests on a precious principle—voluntary self-assessment by the taxpayer. During postwar years, the partnership of the IRS in this enterprise had become tainted; the agency was growing political. In the 1950s, its agents used tax audits to harass members of the Communist Party. Early in his administration, President Kennedy felt free to request tax audits of ideologists on the Right and Left. By 1972, when John Dean drew up a White House enemies list for President Nixon, the circle had been closed: the IRS tax audit was viewed as a standard way to create political problems for opponents of the resident administration.

Still more serious was the deepening involvement of tax intelligence agents in police activities. The IRS founded a National Office of Coordinator for Organized Crime and in 1966, at hearings chaired by then Sen. Edward Long (D., Mo.), the service confessed to many intrusions of surveillance laws in attempts to build tax evasion and fraud cases against mobsters and corporate criminals. A special school was set up in Florida in the mid-1960s

to teach tax agents wiretap and other intelligence techniques.

Not until Watergate did the national press discover intelligence politics as an issue. But in the 1960s, while reporters were portraying the federal government as a liberal ally of the civil rights movement, Southern IRS offices adopted a semi-official policy of auditing and otherwise harassing activists and their lawyers, a practice that increased dramatically into the 1970s as biracial political coalitions emerged in the South. In 1968, the FBI worked out a scheme whereby it could receive tax returns for its political purposes, and in 1969, Sen. John McClellan of Arkansas, in a legally questionable move, requested tax information on radical groups under investigation by a subcommittee of which he was chairman.

The IRS's response to domestic struggles of the recent past was twofold. First, with no questions asked, it handed over tax information about private citizens to the FBI, CIA and Justice Department. At the time of Nixon's resignation in August 1974, at least fifteen Washington agencies were making use of taxpayers' private returns. Under a federal arrangement with forty-eight states, more than 32 million tax returns were being passed back and forth, as though they were routine interagency correspondence. In Florida, returns were made available even to county tax assessors.

Second, for its own purposes, the IRS in 1969 put two programs into operation. The political program was under the jurisdiction of Nixon aide Tom Huston, to gather information on "ideological groups." Thus, activists came under observation as criminals had earlier. And to fight tax evasion, the IRS conceived the Information Gathering and Retrieval System (IGRS), a broad-ranging attempt to seek and store data for potential criminal cases, which did a great deal of damage and in the end proved useless. Not only was this program totally outside the scope of traditional IRS intelligence work, it was a "general" operation, with files on more than 450,000 people. The temptation for IRS agents to break the law seemed almost built into the IGRS.

In January 1975, the *Philadelphia Bulletin* broke a story that, under the IGRS program, the Jacksonville, Fla. Intelligence Division of the IRS had been collecting personal information about potential tax evaders, many of them well-known citizens and politicians. Congress became interested, and on March 13, IRS Com. Donald Alexander appeared before the House Subcommittee on Government Operations and Individual Rights, chaired by then Rep. Bella Abzug of New York. Alexander and other IRS officials assured the subcommittee that the Internal Security Division of IRS was making a full in-house study of the project and that IGRS in Jacksonville had been immediately suspended.

The very next day, to the Commissioner's chagrin, the *Miami News* broke a sensational story about one Elias Gutierrez, an informant for IRS agent Tom Harrison. She confessed to having spied on IRS suspects in order to gain information on such matters as their sex lives and drinking habits. Some thirty suspects were included in Gutierrez's investigations, which Harrison had coded

named "Operation Leprechaun." The Leprechaun story, quickly picked up by the national media, made Abzug angry. She fired off a testy letter to Alexander and denounced the IRS high command on the House floor for giving "misleading, incomplete, inaccurate, and deceptive testimony, covering up illegal spying. . . ."

Alexander moved quickly, first assuring Abzug that he had been unaware of Harrison's activities when he testified. Indeed, it soon became known that Harrison had not told his Miami superiors about Gutierrez's unethical methods. Alexander ordered Harrison suspended and forced three of his superiors into early retirement. An IRS Inspection Division report, published June 23, 1975, analyzed flaws of the IGRS program and condemned Harrison for ignoring guidelines, while only hinting at the root problem, manic overzealousness.

Gutierrez's sordid work was part of a larger IRS intelligence drive, known as Operation Tradewinds and started in 1965 by agent Richard Jaffe, who created a network of confidential informants in the Miami area. Tradewinds agents were after a wide circle of mobsters and upper-bracket tax evaders who were stashing money, often illegally earned, in bank accounts outside the United States and particularly in the Bahamas, where a friendly bank secrecy law protected them.

The turning point in Tradewinds occurred in 1973, when Michael Wolstencroft, an official of Castle-Bank and Trust Co. Ltd., in the Bahamas, arrived in Miami with a briefcase containing vital information on Americans who used the bank as a tax haven. Through an informant, Jaffe fixed Wolstencroft up with an evening date. He left his briefcase in the woman's apartment while they went to dinner, and during their absence Jaffe's informant took the briefcase to the IRS agent, who photostated the records. The briefcase was then replaced before the couple returned. (It is hard to believe Wolstencroft was unknowing; the information was conveniently intercepted on American soil, thus absolving him of breaking Bahamian law.) A spin-off program began, appropriately dubbed "Operation Haven."

The surreptitious procurement of the briefcase information did not dismay Justice attorneys; in private counsel with IRS agents, they ruled that the information could be used. But then Gutierrez's confession blew the cover off the larger operation. Commissioner Alexander's office finally suspended Tradewinds, thus incurring the anger of the intelligence agents who had helped build it.

In March 1976, agent Jaffe faced a criminal grand jury in Miami but was not indicted. Agent Harrison miraculously escaped prosecution. A confidential in-house review of the affair by IRS conceded that Harrison could be charged with possession of stolen documents and improper use of informants, but the memo recommended against prosecution—since that would mean revealing the identities of other informants!

Commissioner Alexander, recognizing the need to shore up the agency's image, has instituted certain reforms during his three-year tenure. In October 1973, he disbanded the Special Services Staff—the Nixon harassment outfit created before Alexander took over the helm at IRS—

whereupon the Tax Reform Research Group, an arm of Ralph Nader's Public Citizen, requested SSS files under the Freedom of Information Act. The IRS stalled for a year, but finally, faced with an embarrassing lawsuit, it released the documents. During this same period, then Sen. Sam Ervin's Subcommittee on Constitutional Rights pressed Alexander for the same information and, after nine months, resorted to subpoena to get it.

One of Alexander's opponents in 1973 was Louise Brown, a tax expert for Nader's outfit. Today she gives the Commissioner credit for his budget cuts in the Intelligence Division (from \$12 million in 1974 to \$4 million in 1975), and for withdrawing IRS agents from organized crime strike forces.

"I don't think Donald Alexander wants to go down in history with Nixon," Mrs. Brown explains. "I've watched the crescendo of criticism; I've taken part in it myself. But all problems regarding civil liberties have come out of IRS involvement in those affairs (intelligence activities like Leprechaun and strike forces with Justice). Alexander, like Leprechaun and strike forces with Justice). Alexander, a defense attorney, came to IRS and began to defend it. . . . After constant battering during Watergate about IRS, he became stentorian; from the moment he has been in office, week after week, an enormous amount of criticism has come from the press and Congress."

The Commissioner's reforms have angered many career investigative agents and even drawn criticism from the Justice Department. Early last year, Attorney General Levi, annoyed by Alexander's recall of tax men from organized crime strike forces, said that an "absurd situation" had developed, crippling the effectiveness of the police work. Strike forces have received favorable news coverage because they are out to catch criminals, but the means they use to catch them also deserve scrutiny.

A former Justice Department attorney who worked on a strike force explains how crucial IRS agents are to these teams. "On each force [before Alexander pulled his people out], we had an IRS intelligence agent, who served as a criminal investigator, and an IRS auditor, who served as an accountant. After the cutbacks, the strike forces had to get IRS men from district offices, regular street agents working extra duty. IRS district directors had their own projects and weren't interested in ours."

In addition to IRS agents, a strike force brings together FBI agents and Justice Department lawyers and investigators; it then moves on individuals suspected of criminal activities, and tries to build a case. According to a prominent Southern criminal attorney, who worked in the Justice Department for several years, "The problem with the strike forces is that they're too often fishing expeditions. They go see what, if any, crimes the suspects may have committed. For one thing, many of the cases built that way don't stand up in court."

Recent statistics from the Justice Department suggest that the IRS cutbacks hampered crime fighting. In 1974, 331 organized crime cases were referred by IRS to the Tax Division of the department; in 1975, the figure was 246, a drop of 30 per cent. In fiscal 1975, \$4.4 million was collected out of racketeering convictions; in 1976, it was \$260,000, mostly from excise taxes, and "not likely to increase, given the cutbacks," according to a Justice Department official. Although Alexander's stated

Intention was to remove all agents from strike forces, by January of 1976 he had backed down somewhat, after long negotiations with Justice Department officials as to the degree of IRS involvement. As the Ford administration draws to a close, the situation is pretty much in limbo.

Civil libertarians applauded Alexander's initial cutbacks and strongly advocate the removal of IRS agents from strike forces. Their argument is that the IRS auditors and intelligence agents, with their extraordinary powers of search and seizure, work in effect as pretrial prosecutors. George Williams of Atlanta is an evident victim of pretrial prosecution by the IRS.

An informal statement bearing on this conflict between the interest of a tax collection agency and the Justice Department appeared in an article published in the *American Bar Association Journal* of July 1976. The author, Mortimer Caplin, was IRS Commissioner from 1961 to 1964. He writes:

The Internal Revenue Service should cooperate with the Department of Justice in its general federal law enforcement efforts. In doing so, the IRS should limit its activities solely to the tax aspects of these joint investigations.

The IRS must be sure to maintain a balanced investigative program, so that it fulfills its total responsibilities for all types of tax fraud violations. It must exercise a high degree of selectivity in investigating non-retroactive cases and hold an extremely tight rein on the use of its manpower.

The IRS must determine its own proper workload, and, after consulting with the Justice Department, must be the final voice in selecting the tax returns and types of activities to be investigated by it in these joint projects.

The IRS must maintain complete supervisory control over its special agents.

The IRS must continuously maintain a proper balance between respect for the rights of private citizens and zeal in the detection of lawbreakers.

Theoretically, Mr. Caplin's diagnosis of how the IRS should work with the agencies of law enforcement is correct, but the problem, in an increasingly political and partisan federal bureaucracy, is how to enforce such a theory, how to balance respect for civil liberties with the necessary tools of tax enforcement.

The Tax Reform Act of 1976, while criticized by many progressives for not shifting more of the tax burden to the wealthy and to corporations, nevertheless includes a number of reforms which benefit the individual taxpayer. Tax returns are now nonpublic documents, and can be divulged only when a request is submitted to the IRS in writing by the agency concerned—a formality designed to protect ideological dissidents from having their returns used against them by the intelligence agencies. In 1975, the Justice Department alone used 30,000 tax returns for nontax purposes.

To protect the taxpayer from full vulnerability to the IRS's search and seizure of bank accounts, the new legislation exempts from IRS seizure \$50 of a worker's weekly salary, plus \$15 per dependent. Moreover, the bill stipulates that the IRS must tell the taxpayer within

five days how it reached a jeopardy assessment; the taxpayer is then given thirty days to apply to the agency for an administrative review. That is a significant provision, for it curtails the power of individual IRS agents in making arbitrary decisions. If the IRS seeks information from a taxpayer's bank account, the taxpayer now has the opportunity to contest the move in court. Finally, the IRS is required to make public the rulings it gives to corporations and high-income taxpayers. In the past these have been kept private.

If the 1976 Tax Reform Act shows some respect for certain civil liberties of the individual taxpayer, Congress as a body has barely penetrated other deep areas where fundamental changes must be made to remove the IRS from the government's police work. The Senate Subcommittee on Constitutional Rights, once an energetic force under Sam Ervin, lay dormant for nearly a year while its present chairman, John Tunney, ran for re-election in California. The Church Select Committee on Intelligence, which assigned more than 100 staff members to work on the FBI and CIA report, used only two full-time staffers for its IRS study, and ignored certain critical problems raised in this article.

While the Church committee report recited the developments that led to IRS intelligence abuses (much of it was a rehash of the Ervin study of SSS in 1973), it did not even consider the striking pattern of harassment of Southern civil rights workers. (See Jason Berry: "The IRS Bullies the New South," *The Nation*, March 6, 1976.) This development of the early 1970s was unrelated to IRS collusion with the Nixon administration. In April 1976, at the very time when the Church committee IRS report was being written, Rep. Charles Rangel, the Harlem Democrat, was pressing Commissioner Alexander for information on twenty-seven civil rights activists from Mississippi who were allies of Charles Evers and who had been audited in the two years following the IRS investigation of Evers. Rangel received an extraordinary letter from Alexander, with a 3-page "statistical breakdown" which indicated that roughly half of these Mississippi activists were in fact *not audited* in 1974—this, against the activists' own statements. Commissioner Alexander maintains the returns which were audited had been selected at random by the Discriminate Function computer program used nationwide in IRS regional offices. The "statistical breakdown" in the Commissioner's letter does not list names. Instead, the supportive information lists Taxpayer 1, Taxpayer 2, etc., with the years audited and assessments made. Thus, there is no way to correlate the activists quoted in news reports in 1975 with the supposed taxpayers listed numerically in the letter.

The disturbing internal developments of the IRS in recent years are less the results of Watergate activities than of a larger breakdown of the bureaucratic process. With 88,000 national employees, most of them in regional and district offices across the country, the IRS is a huge federal agency which must be administered with great care. Government agencies are patterned after corporations, function like them, and too often serve the interests of American firms, at home and abroad. The Tax Reform Act of 1976 is a beginning toward needed reform, but it cannot of itself alter the attitude that has pervaded the

IRS, and the intelligence agencies, during the growth years of surveillance politics. The morning after his victory, Cartrig replied to an NBC reporter who had asked the President-elect what sort of America he envisioned for the future, that he did not want a situation "resembling the world in the novel, 1984." One large step away from

THE QUEBEC CHALLENGE

IS CANADA FALLING APART?

C. W. GONICK

For more than a year Canada has been embroiled in a bitter economic struggle that is novel for this country and has endangered the government of Prime Minister Elliott Trudeau. But on November 15, the day the Parti Québécois was elected to office, attention reverted to the question that has haunted Canada from its very beginning—"national unity." The development in Quebec was a godsend to Trudeau. His personal popularity has declined remarkably over the past six months and the signs that his government is disintegrating have been evident. It was the "national unity" question that catapulted him to office eight years ago. He was the man of the hour six years ago when he instituted the War Measures Act that brought in the national army to do battle with the few dozen terrorists of the Front de Libération du Québec. Now he can be the savior once again—or such is his thinking.

The main reason for Trudeau's fallen popularity is the disastrous state of the Canadian economy with 700,000 workers unemployed (7.3 per cent of the labor force) and an inflation rate of about 8 per cent. On October 14, more than a million workers left their jobs on a national day of protest, a demonstration unprecedented in Canadian history. Their target was the government's Anti-Inflation Board set up a year earlier to control wages and prices. Over the period negotiated, wage increases of a million workers were rolled back, returning several hundreds of millions of dollars to corporate coffers. But in that same time there have been only a few trivial price cuts. In addition, governments at all levels have begun to reduce social services. October 14 was no direct challenge to the state but it did express, by direct action, the overwhelming opposition of organized labor to state policy. Prominent members of Canada's corporate elite had also voiced displeasure with Trudeau. Not that they are ungrateful for the bonuses they are getting at a time of falling profits; what they fear is that the controls may become a permanent feature of the Canadian economy.

Despite what all the polls showed, the victory of the Parti Québécois was unexpected outside of Quebec; it came as a national shock to English Canada. The P.Q. was founded only in 1968. It won 24 per cent of the

Orwell's imagined tyranny would be legislation making it a crime for agents of the IRS (or any government agency) to conduct politically motivated audits or investigations, deprive taxpayers of their civil liberties, or engage in nontax intelligence work for the IRS. The penalty should be stiff.

popular vote in the 1970 Quebec elections and 30 per cent in the 1973 election. On November 15 it won 41 per cent of the vote, enough to assure the party of René Lévesque a large majority of seats in the provincial legislature.

As Trudeau and all the leaders of federal political parties stress, the P.Q. has been given no mandate to initiate separation proceedings, and Lévesque would agree. In view of the gross unpopularity of the current and recent Liberal government of Premier Bourassa, the P.Q. had made a tactical decision to run on a "good government" campaign. On the question of independence, it did no more than promise the electorate a referendum on the issue within two years of a P.Q. victory. Only that referendum or some subsequent one were to come out on the side of separation would a P.Q. government initiate proceedings to establish an independent republic.

Since the evening of November 15, English Canada has been told to stay calm. No need for panic. The vast majority of Québécois, including French-Canadian, have been reassured, oppose separation. The prospect of a referendum is bound to fall. There is some evidence to this confidence; recent polls indicate that only 10 per cent of Québécois now favor separation. But that can happen over the next two or three years.

In the first place, there is wider support for independence than superficial polls show. Two-thirds of the quarters of the P.Q. constituency want independence, according to studies conducted since the establishment of the party. And while only 10 to 20 per cent of the province's population support outright separation, more than a third have already indicated support for "une séparation politique du Québec moyennant une association économique avec Canada." It is this formula of political independence from, but economic association with, the rest of Canada that defines the P.Q. policy.

Moreover, the idea of Quebec independence will be forth be invested with all the authority and prestige of the Quebec government. Now the very popular Prime Minister and his Cabinet will be trying to persuade the Québécois that independence is necessary; before, this might have come from an opposition party which held only a few seats in the National Assembly and whose leader had just failed to win a seat for himself.

But I just wanted you to know what I was told when I was told that I was going home & isn't true I refuse to go procure. It bothers me because I always helped if it was needed. I could have done more. But two night I when to a meeting. We got there Wednesday morning. But Dad I don't think it's fair when I was told something different & the report was different. But I was trying hard because I know alot of people have let you down but I wanted to do my best. I. Worker Evaluation

- 1) Joann Johnson: Supervisor-Teacher. Excellent worker. Shows a great deal of commitment in that she works constantly with the children day & night and she doesn't complain, but always tries to give the best of herself to them. She is passive and will not speak up for herself. She will not confront anyone unless forced to. 19 years
- 2) Gloria Walker: Teacher. Very good with children. Is always cooperative, would work well in any department. Needs to assert herself and not be so passive. Shows great potential and has a lot to offer the program. 40 years of age
- 3) Mary Ford: Food Service. Is very hard worker. Relates well to children. Has a tendency to complain but never to the person the complaint should be registered to. Won't confront anyone. Is too passive. Has a lot to offer but is at a standstill because of things previously mentioned. From time to time complains of medical problems which I feel are due to her attitude. Would work well in any department she's in. Age - 48
- 4) Zuretta Langston: Teacher. Good worker. Is new in the program, has requested a job change because I feel she doesn't want to be here. She relates well with the children and they like her so therefore she will not be able to change jobs until we find someone to replace her that is equal in capability. Shows great potential, but she is passive and needs to assert herself more. Does not confront anyone. Likes to play the good girl. Age 18
- 5) Julie Cordell: Teacher. Knows a lot about children, shows great potential, but she's lazy. Could do much more than she does. Always has an attitude when confronted. Acts very immature. I feel that her attitude and immaturity has a great deal to do with her mom, Barbara. They are constantly companions and Julie doesn't associate with her peers, but spends all her time with her mom. Julie is very artistic and creative, but she will never produce to the capacity she can. Age 17
- 6) Patty Houston: Teacher. Relates well to children. For her age, is very responsible. Takes criticism well. Shows potential in the area of early childhood education that needs developing. Is always cooperative. Will not confront people, needs to be more assertive. Age 14
- 7) Diana Marshall: Teacher/Treatment Nurse: Has the qualities necessary to work with children but there seems to be a kind of subtle hostility about her personality that emerges from time to time especially when confronted. She's a difficult person to understand. She's very quiet, and passive. She never confronts anyone or speaks up for herself, but her hostility comes out in small ways like not doing treatments for some children that need them, she was asked to make a change in her regular schedule and she became hostile regarding that. She is immature for her age. Her best friend here is Patty Houston who is 14 years old. She has no problems handling her group, but the children never talk about her or make mention of her the way the other children do. Age 19

C-7-C-13a

Worker Evaluations (Continued)

8) Gail Chaikin: Teacher. Puts forth a lot of effort but lacks in organization. She is very bright and has the capacity to become organized, but because she is so defensive when criticized her progress is not as great. Age 17

9) Diana Smith: Teacher. Has requested a job change, which at this time cannot be honored. Does not have the enthusiasm she once did for working with the children. She does her job and that's about it. Sometimes falls asleep during classes. Has shown a pattern of floating from job to job. Age 21

10) Ruby Bright: Teacher. Has requested a job change also. Just recently switched from food service to present job as teacher, only to find out the grass isn't as green as she thought it was. We intend to honor her request for job change as soon as possible. I don't feel she is trustworthy because she's been caught in too many lies, which by the way she's very good at. She sleeps whenever she sits for a minute. That means class, meals, whenever. I've referred her to the Medical Department to be checked. Her story is (get ready for this) her sleep patterns have been reversed since childhood and she was hospitalized to change them, but nothing could be done so she sleeps during day and is awake at night. I was told by someone studying sleep patterns that there is no such thing. Her past history involves a lot of drugs.

She's a good conartist but she flunks every test we've given. She has had numerous medical complaints especially during her period of work in agriculture. Since being in this program, she got ill when her job change was denied. I would have her under surveillance in any job situation because she has a habit of taking things and not asking. Won't confront anyone, prefers to back stab. Age 31

11) Ronnie Berryman: Sent to this program due to defective spine which prevents lifting. He was born with scoliosis. I think because of this he has led a very sheltered life. He is very immature for his age and has to be prodded to do his job. He is very chauvinistic but refuses to admit to it. This makes our job difficult. I would recommend him for a job change, however, he has not requested one. I think he's using this job as an easy out. He has to be told the same things to do over and over. He started out as a teacher and was changed to the toilet because we weren't getting any cooperation from him, he yells too much, sometimes uses harsh disciplines or shows too much hostility when disciplining. I felt by not having to deal directly with the children all day, his patterns would change, but I find that since being on toilet duty he is the same. He also flunks a lot of tests and has not made an effort to attend day classes as some of the sisters have. Age 26

C-7-C-136

12) Willie Graham: Nap Supervisor. Has been in this program for 6 mos. Started out beautifully, was an asset but I feel the children have worn her out. She no longer has the patience she used to and too many children that she deals with say that she hurts them by jerking and pulling or handling roughly. I recommended a job change to her which didn't want to accept because she felt she was having no problems. She later came to me and said she would rather switch jobs. For someone her age she has a lot of spunk and courage which I admire, because she came into the program when it was at its worst. She always says she feels 16 years old and is the first to volunteer for work. Age 71.

13) Diane Lundquist: Supervisor-Teacher. Has a lot of qualities necessary to educate young children, but is too passive. Has made improvements in this area but still has a long way to go. Because children cannot speak up for themselves they need someone to speak for them and make demands to get what they need. Diane is not good at this, but she could be. She doesn't assert herself and allows others to intimidate her. I feel she has progressed in some areas though because when I first came to the program she was allowing the children to manipulate her to the point of the program consisting of Diane and Kids vs workers. I found it very hard to work under these conditions and Diane and I clashed continually until I saw changes being made. Now I feel we're working together for a common cause. Being the supervisor, she still needs to learn to present herself in a more forceful manner when dealing with people because they walk all over you if they think you're an easy push.

14) Irra Johnson: Co-Supervisor-Pre-School Nurse. When Irra first came to the program we were clashing all the time. She had some very valid criticisms but her delivery was too harsh and intimidating. She has done wonders to organize this program. Because of her organizational abilities and my somewhat limited knowledge of early childhood education things have been going smoothly.

II. Children Evaluation

1) Jay Warren Parks: Acts out from time to time because he can't be with his parents as much as he'd like. He now has a big brother which has helped tremendously. In general, is cooperative. Seems to be progressing well in the program. No other problems noted except he sucks his finger. This is dealt with in a very kind way by a simple reminder or removing them.

III. Program Set-Up

The basic schedule is as follows:

7:00 Children are picked up and brought to nursery.
7:30 Breakfast served
8:00 Sore treatment done and play activities
9:00 Class begins for older children.
Younger children go on outings - snack

10:30 Class begins for young children. Older children
go on outings - snack
12:00 Lunch Served
1:00 Showers
2:00 Naps
4:00 Up for Dinner
5:00 Dinner Served
6:00 To playground to wait on parents

IV. What are the goals for the children?

- 1) Good hygiene and manners
- 2) Cooperation with adults & children as well
- 3) Educate with a sensitivity for all life
- 4) Teach to them the principles Dad has set as an example for us to follow
- 5) To develop a good self-image
- 6) To develop their motor skills
- 7) To develop their creativity
- 8) Self motivation
- 9) Self control

V. What's being taught at present?

The children are making great progress in their manners and are trying hard to cooperate. We've developed a reward system of stars which gives them incentive to do better. It's a slow process, but I do see changes being made. They are not as wild as they once were.

Their cussing is to a bare minimum. The motor skills program is improving, which has to do with the ability to read and do math later. They are all very well versed on who's the capitalist and who's the socialist and why. In these very young children, the sad thing I see is that the male takes on the position of dominance and the little girls are 2nd to him. We try to not promote this attitude, but I feel a lot of it comes from the community. I'm not excusing myself or the workers because I feel if we were continually doing our job to the best of our ability a lot of the problems could be eliminated.

VI. Goals for the adults

- 1) To show affection whenever possible
- 2) Show positive attitude
- 3) Being consistent
- 4) Enforce manners
- 5) Speak in soft tones
- 6) Use eye to eye contact
- 7) Listen to children more

VII. Progress adults are making

I've found very few who show the children the affection they need, which is the most important thing. I feel a lot of the discipline would not be necessary if this were done. They've improved on lowering their voice tone, being consis-

... tent, reminding children to have good manners. One definite thing that is lacking is enthusiasm on the part of almost everyone. Everyone knows their job but have to be reminded from time to time to do it. I think once those who need to get their jobs changed get it done, things will improve.

CONTINUATION-TODDLER PRE-School-Program

- 2) Crystal Simon - at times is rejected by her mom. Was supervised by Shirley Pace, who gave her up to Corlis. These things don't seem to affect her at school, but she does cry a lot in the evenings, when she's with others. Is obese, which is not due to over indulgence, but appears to be hereditary, due to the fact that medical testing has shown no other cause. Crystal is basically quiet, has a very sweet personality. She seems to be progressing well in the program.
- 3) Becky Barrett - progressing well for someone, who has never been in a communal situation. Her mom displays more separation anxieties than the child and is over protective of her.
- 4) Will Gallee - Seems to be progressing at an even normal pace. Is a very well behaved child. Usually speaks up for what he needs or wants. Seems to enjoy the program. Has a very good relationship with Pat, who tries to back us up all the way. Handles the gross motor activities fairly well, but needs to work on balance.
- 5) Detrick Walker - Detrick has made great behavior growth in the past few weeks. He seems more confident in himself. Where as before his self image & self worth were so poor that he had pretty much given up. Really tries to get attention in a positive way. Detrick is a very bright child and can be very manipulative. Seems to be progressing at a fairly good pace with the gross motor activities.
- 6) DeShon Johnson - DeShon is extremely bright and has shown a lot of sensitivity. He has shown a lot of awareness about racism and oppression. His relationship with his mom had been improving until she changed her work hours. He seems happy. Seems to be handling the gross motor activities with no problems. Even though he is overweight.
- 7) Lonnie Newman - Lonnie seems to be a well adjusted person. He seems to have a good relationship with his parent & house parents. Has been prone to sores from time to time. Usually has a very good attitude. Lonnie seems to be handling the gross motor activities well.
- 8) Janeliah Wilhite - This is a very high strung person. I have never known her to take a nap except on rare occasions. She has had a very poor self-image of her self, but seems to be becoming more sure of herself. Absolutely adores her own natural Dad, and is easily devastated by harshness or rejection on his part. She is bright and seems in pretty good control of her body. She handles the gross motor activities very well. Janeliah is very bright. Seems to enjoy the activities of the children. Very verbal.
- 9) Michkell Carroll - Mikie is very bright, very verbal and very tall. Therefore a lot is expected from her, perhaps we expect more from her than she can handle at times. There are gross motor activities that she needs to work on such as balance and hopping on the one foot. Mikie enjoys doing jobs for her super-

visors. She very much likes to please adults. Mikie would benefit from learning activities that would be challenging to her.

- 10) Randel Carroll -Randy is a very friendly happy person, smiles and laughs a lot. Has a somewhat impish personality. Randy is very bright, likes to tease but has calmed down a lot. Used to cry and throw fits constantly, but this now has been cut way down. I don't really have an accurate evaluation of his gross motor - abilities at this time. He can be very stubborn and adjusting.
- 11) Angela Conesero -Angela seems to be a happy well adjusted child. She has a close relationship with her mom. At the present time her mom is out of town. She is handling this separation very well. Angela seems to enjoy the activities at school. No real problems.
- 12) Jamie Guevara -Jamie is somewhat high strung. It is a real chore for her to take a nap in the afternoon. She is very bright. But because she had made the shining star in her nuclear family for a long time, her attitude for a long time was somewhat out of hand. This is better now. Jamie seems to have pretty good control of her body and handles the gross motor activities fairly well.
- 13) Johanna Davis -Johanna is very bright and very and very verbal. She seems to have good control of her body as she handles the gross motor activities well. Because Johanna is pretty and has long black hair people have made too big of an ordeal about this and even at her young age tries to win approval of adults by doing the latest dance or some other "grown up" action. She very often butts into adult conversations or talks loudly over them.
- 14) Ishi Fortson -Ishi is very bright and affectionate. Will go into a baby act at times, but is better about this lately. For quite a while Ishi was wetting on himself uncontrollably and wrys or rather cried constantly. He went to visit his mom for a few weeks and came back a changed person. I think that the one to one relationship was the real order of the day. Ishi has very good control of his body and seems to handle the gross motor skill fairly well.
- 15) Tiffany Garcia -Tiffany is a bright affectionate child. Cries at times for small things, but has improved greatly in this respect. At times she seems to have trouble with the gross motor activities, but this may be due to her visual problem that she has.
- 16) Jason Gieg - Jason is extremely bright, extremely verbal and HYPERACTIVE. It is a real chore to get him to take a nap. His attention span is sparotic, but seems to enjoy the activities at school. Can get a whole group going by his behavior.
- 17) Mark Gosney -Mark has made real strides since he has come to the program. He is very bright. He studded badly when he came, but this has dissappeared. He has a grandma that smothers him, which I feel he resents as it comes out in certain kinds of play. He also tells her to her face that he dislikes her and he is going to kill her. It took Mark a while to come out of his shell, but has done so.

CONTINUATION - TODDLER PRE-SCHOOL-PROGRAM

- 18) Richard Jackson -Richard is bright and has combated a lot of sickness that he had in the States. He has matured a lot lately. He seems to enjoy the program and handles the gross motor activities fairly well although he has areas to develop.
- 19) April Klingman -Has made a lot of head-way in the program. She used to cry a lot and was pretty much out of it, but has settled down. Still does sneaky things to hurt other children but she does now do eye to eye contact with adults which we had trouble with before. Has a somewhat unstable opinion of her self. Is progressing fairly well.
- 20) Kimo Jones - Kimo is extremely bright and very inquisitive. He shows lots of affection and has a real sense of humor. Seems to enjoy the childrens program. Is going to be a leader as he can be reasoned with
- 21) Rori Madden -Rori is bright and happy. Her relationship with her parents has improved and she works hard to please adults. She has shown a lot of responsibility. Handles the gross motor activities fairly well. Seems to enjoy each activity that is done daily.
- 22) Danny Berry- Danny used to throw fits several times daily. But this has ceased almost completely. Has become responsible and helpful usually earns more stars than anyone. He has a sense of humor and seems to enjoy the program. His parents have been making a bigger effort to spend quality time with him. Is a real leader, is strong in both body and will and will and yet has a tender side.
- 23) Clarence Moore- Clarence imitates a lot of older males that he is around a lot. For a long time, he was very disruptive to his group and gave his group leader a hard way to go. He has recently changed group leaders and seems to be doing better. Clarence is very sexual and when the opportunity arises he will be hiding in a tire with a little girl gently caressing them. Clarence tries to come off tough, but is easily devistated if talked to harshly. Seems to enjoy the program.
- 24) Raymond McKnight --Is very imature in several areas. His speech is unclear at times, but is slowly making progress. He used to cry constantly. Then with new house parents made vast improvement. But for one reason or another started crying and acting out a lot. Seems to be unsure and insecure. Has changed homes again and seems happy. His visual problems more than likely contribute to his unable to handle Gross Motor Activities very well.
- 25) Neil Touchette -Neal is a very bright happy boy. He seems to be He seems to be enjoying the program. He really presents no real behavior problems, occasionally he will react in a normal 3 yr. old way to problems. Is progressing nicely.
- 26) Lisa Winston- Used to cry and throw fits frequently. Speech is

- improving. Seems happier, rarely cries & throws fits. Has a real sense of humor and always participates in the activities. Seems to handle the Gross Motor Activities fairly well.
- 27) Dante Carroll- Jo^Ann & Dante have a real positive relationship. This has added greatly to his calming down. Used to be a real baby and would cry about everything. Seems to be progressing normally.
 - 28) Dawnyelle Fitch - A very sweet child. Really presents no problems. Used to be quiet and shy but now is more out going. Seems to enjoy the program. Works very hard at what ever activities we may have. Seems to handle the Gross Motor Activities fairly well.
 - 29) Tad Jensen - Tad is very bright. Seems to be very enthusiastic about activities at school. Can be quite stubborn. Used to be a real behavior problem, but has calmed down greatly, very verbal and inquisitive.
 - 30) Yvonne Stankey- She is quite young. Smiles most of the time. She handles herself quite well here in the program. Seems to be progressing normally. At first had very little confidence doing activities, but this has improved.
 - 31) Michael McCann - Michael is quite verbal and seems to be happy. Seems to be progressing normally. Does well inspite of his dominating relatives. Handles gross motor activities fairly well.
 - 32) Michael Felton - Michael used to be hyper all the time. Used to tear his clothes off and scream. Has calmed down. Has moments of craziness, but seems to enjoy the activities. There are certain things that he looks forward to doing, like playing with dolls. Michael is very manipulative and will throw a fit and wet his pants. This child is very funny and can immitate almost anything he sees. Loves to dress up. Prefer to wear head wraps. It seems like it holds his head together.
 - 33) Yolunda Berkely - Is a real pleasure to have around. Seems to enjoy the program. Bright and happy. Seems to have good control of her body. Seems to have the gross motor activities well.
 - 34) Jakari Wilson -- Seems to enjoy the program. Has just recently rejoined us here. No real problem. Occasionally he will throw a fit. But he seems to be quite normal in his progress, and one of the youngest.
 - 35) Samelia Tom - Was very shy and withdrawn before when she first came. Rarely talked and had little or no eye to eye contact with an adult. She has really come out of her shell. She seems happy and is quite verbal and presents no real problem. Is very affectionate and needs lots of progress re-enforcement
 - 36) Monique Bacon - Very verbal, bright child is talking more with her too. Seems to enjoy the program. Is our youngest member of the program.

RE: SEWING FACTORY

The sewing factory would like to expand their staff. Since present space is inadequate to accommodate additional persons it has been suggested that a night shift be established. It would operate on freights for four hours. This would not interfere with the person's present job. However, there are others who have requested full time sewing. The following are persons who have requested to work in the sewing factory:

<u>NAME</u>	<u>PRESENT JOB</u>	<u>REMARKS</u>
RUBY BRIGHE	FOODLER	WANTS PART TIME NIGHT WORK.
KATHY BARRITT	Kitchen	Wants full time sewing factory.
JACKIE ROCHELL	Field	Wants part time night work.
CLAUDIA BOUQUET	ELECTRIC	Wants full time sewing factory.
SUE GRIMM	KITCHEN	Wants part time night.
Shaunterri Jones	Field	Wants part time night.
MARY GRIFFITH	Field	Wants part time night.
Mom Lacy	Rice P.	Wants full time sewing factory.
DOROTHY ROLLINS	FIELD	Wants 4-6:30 daily as secretary.
<i>Willie Graham</i>	<i>NONE</i>	<i>WANTS full Time SEWING AS QUITTER.</i>

Enclosed is a summary of babies in the nursery who have no passports and some of whom are not registered or are registered as only US or Guyanese.

I recommend that we start thinking about getting them registered and about getting them passports. To obtain Guyanese registration (legitimate) the couple has to be married and the baby less than three months of age. If the baby is over three months the couple has to meet with the registrar officially. To obtain US registration the couple has to be married if we want to show the child as legitimate.

The couples who are not married and must be before they can obtain registration include - 1) Tim and Gloria Carter
2) Sandy Jones - if we want to show the twins as belonging to her
3) Eileen and Ted Mcmurry 4) Tiny Solomon and James Turner
5) Shirley Mitchell and Charles Marshall 6) Cassandra Minor
7) Regina Duncan 8) Pat Bowman and Chuckie Henderson.
After the marriage, dual citizenship could be obtained and a passport gotten - perhaps with just one visit into Georgetown.

Kawahskoko Rosa (Kamari James) needs to be registered dually. Santiago and Gloria are married so a passport should be no problem. I sent word to town to pick up the birth certificate.

Montese Cobb could be registered to Darlene Ramey but she will need to get married first.

Shovani Walker has not been legally adopted by Tony and Andrea so I am not sure how this will work unless we get the mother to get a passport for us.

Travis Lang (Jelani Wilkerson) is not legally adopted. Perhaps the mother could be talked into getting a passport for him.

Kamilah Griffith has dual citizenship and her parents need only to pick up a passport.

LaShea Wilhite has US citizenship, needs Guyanese citizenship and a passport. Shouldn't be difficult since they are married. Maybe when Kenny goes in for the band he can take care of that.

Zateese Simon has US citizenship, needs Guyanese citizenship and a passport.

Johnathon Jackson has dual citizenship and needs only a passport. Perhaps Ralph could pick up a passport while in town.

Martin Smith has Guyanese citizenship. Needs US citizenship and a passport. Perhaps Eugene could take care of this while in town.

June 21, 1978

To Carolyn Layton

1. Papers on the Marcelline - attached in the manila envelope are the original bill of sale and other papers on the Cudjoe-Marcelline, which I was asked to send over with the next people out: These turned up from 3 sources: the law office Guyana file, Tish's papers in the 8 file cabinets spread out all over, and Harold's papers he left behind. If Hope they are complete.

2. Marshall Farris divorce - Clarence Wilridge, SF attorney, called Mrs. Farris's attorney and arranged for her default judgment to be set aside so that Marshall could file his response. (THIS IS FOR CHAIKIN/HARRIET or WHOEVER IS WORKING ON THIS CASE - MAYBE JAN G). The wife's attorney realizes the slowness of the mails and that it will be several weeks before a response is received back, signed from Marshall. Attached to this report are forms for Marshall to file out. Please have him fill out one set in pencil, being as specific as possible, and have him sign a blank set in ink. His answers on the pencilled sheets will be typed onto the blank set after we receive it here, then forwarded onto attorney Wilridge.

Wilridge notes it was a 37 year marriage and anticipates the Court will likely award Mrs. Farris some support to be paid by Farris. As he understands it, there is just the home and Marshall's pension. He figured the preferable route would be to sell the home and split the proceeds. However, of course he wants to know exactly how Marshall feels about the situation and what he wants to demand on the response. IT IS IMPORTANT THAT YOU HAVE THESE PAPERS FILLED OUT AS SOON AS POSSIBLE AND ROUTED BACK TO GEORGETOWN FOR MAILING. I would attach a separate note explaining that there is no notary within 300 miles, have him sign it, and have 2 witnesses sign the note also, so that Mr. Wilridge can produce this to the Court should Farris's signature not be acceptable, being out of the State of California.

3. Cynthia Pursley - there's been some question about covering Cynthia legally when she goes over and her mom returns after a visit. I asked Jim Herndon at Garry's office about it because he does a lot of custody stuff; the parents are divorced and there's a question of consent for a mentally incompetent adult. Herndon recommends doing a conservatorship because of the possibility of parents changing their minds once Mrs. Pursley returns, and the father not having been friendly to us at all. But first he suggests we examine the divorce papers to see what are the rights of the father as to Cynthia. Conservatorship would require notice to California relatives up to the third degree. We might be stirring up more waves than necessary. *If the divorce papers are OK, I should think having 2 adult witnesses there would be enough.*

4. Vincent Lopez case: Jim Herndon went into court today (June 19) and got the hearing continued until September 27. He will need an affidavit from Chaikin re what he has done to try to withdraw himself from the case, how long he has been out of the country, that there were no assets of the minor that came into his hands and insofar as he knows the minor has no assets, that he lost contact with the guardian on (date) and that he did make an effort to withdraw as counsel. Herndon will write a letter requesting this formally from Chaikin and he will give it to me to be hand delivered on the next shipment out. The good part about this is that the thing has been delayed; the bad part is that we will receive a bill for Herndon's court appearance, but I don't see that we had any choice under the circumstances. HERNDON'S LETTER MAY BE ATTACHED TO THIS REPORT - IF I GET IT IN TIME. C-7-9-1a

5. Air Compressor at the Office Complex: See law office report #29, item 7 for background. I think everyone over there is pretty well acquainted with this problem by now; well this weekend was the time when our monthly lease of the garage ran out, on the 19th and we would remove the balance of our materials left in the garage and be done with it. The balance included the air compressor; we had cleared it overseas and both Charles Garry and Marshall Bentzman agreed, upon examining the inventory and the lease, that we were in our rights to keep the air compressor. ~~Sxxxx~~ Saturday Irvin and James removed the air compressor and put it back on the church parsonage lot on East Rd. Sunday when ~~we~~ they went to get the rest of the stuff out of the garage, they found that the owner, Snyder, had locked the gate to the driveway and had filed a criminal complaint with the Sheriff's Office against us, saying we had stolen his air compressor. Bonnie called here; we (Jean B and I) called Charles Garry, telling Bonnie to hold on til we could get back to her; Garry advised we break the lock and go in and get what was ours to take and not turn over the air compressor. The ~~Sheriff~~ Deputy Sheriff told them he would have to take the air compressor and hold it in neutral territory, though he said ~~we~~ it sounded like we had a good case of ownership. By the time we got back on the phone to Bonnie, which was about 10 minutes, she told us that the air compressor had already been turned over to the Deputy Sheriff and taken to the County Garage. Later it turned out that they ran a make on Irvin and found he had outstanding traffic warrant on his record (this was an error as he had receipt of fine paid and traffic school attended) and told him they could have taken him in. So he played it low key and turned over the air compressor to them. Doxie told me that the day they removed the air compressor, Snyder was there and watched them do it. But he told the Deputy Sheriff that we had snuck in at night and removed the compressor without his knowledge.

6/20/78: Today Tim C, Jean and I went to see Bentzman and had him call Ukiah Sheriff's office to track down present status of compressor. The trail led to the D.A.'s office and Bentzman ended up talking with one of the assistant D.A.'s, a close friend of TOS and a rightwinger. The guy said he had not made a determination yet whether they were going to file a criminal complaint, none had been filed as yet, but that he figured if it wasn't he would return the compressor to Snyder. Bentzman pointed out that he was making an arbitrary decision when he had no authority, and if anything, the compressor should be returned to the person to whom the Deputy Sheriff had given a receipt when he had confiscated it, which was Irvin. The D.A. said he didn't want to do that, that when it came down to it, it looked like Peoples Temple was leaving and going to Guyana and he'd rather give the compressor to Snyder. Bentzman laid a heavy on him and said he'd keep in touch; tomorrow we will meet with Charles and Bentzman together to see what further can be done. In the Ukiah Daily Journal today there was an item about Snyder's air compressor having been stolen, no mention by whom or any of the extenuating circumstances.

6/21/78: We will be meeting today with Charles & Bentzman about this, but will not get back in time to add to this report so this is all I can write about this case right now.

C-7-9-16

letters that come in back, marked return to sender, unknown here. But the potential p.r. implications of the property status of this case are not good.

5. Jack Barron's pension - please have Jack sign the attached Pension Trust Form and return it to me in the mail.
6. Attached is Los Angeles Channel 2 TV's response to our mailgrams
7. Dolores Wilson - She was supposed to come over this summer. Her sons are over there. She is completing her thesis to get her masters degree in education. She has a little girl, about a year and a half old, unrelated, who she wants to adopt. The child's mother was murdered, the child was found besides the body, in the blood surrounding it. She was so traumatized by the event that for a long time afterwards she would not speak. Her dad realized he could not handle the child and asked Dolores to care for her. Dolores worked with her and now the child speaks and behaves normally. The child stays with Dolores. Charles Garry talked with Dolores and the dad, who insisted on coming to the interview and has been showing reluctance lately for Dolores to adopt the child. Charles said he did not think that the child should be considered for adoption, that it would not be necessary and that instead the dad could just sign a consent, which he had him do. See attached.
However, it appears tht the dad is not too hot on giving up the child for adoption and he ~~ix~~ insists that the child keep his name and not take Wilson for surname. He wants the child to go over with Dolores, thinks maybe someday in the future he could come visit the child. I do not think Dolores would leave this child here.
Under the circumstances, since she is needed there and since she already has sons there, do you think we should rely on the consent already obtained from the dad? Leona and I discussed the possibility of Dolores going to another lawyer and trying for adoption; the problem with that is that the dad was present when Charles said adoption was not necessary. Charles did his usual p.r. job and won over the dad. For Dolores to go to another attorney might cause more dissatisfaction on the dad's part than we would want - and provoke unnecessarily.
8. Berda Johnson - Have received attached regarding bill that is not being paid. Have warned Kris Kice to watch for possible process server at 998 Divisadero, which is where the letter was directed. No one there to tell process server where Berda might be. Though that is not entirely controllable situation, people will say what they want to say. This is for your information; no action necessary unless you think so.
9. ~~REXXE~~ Transfer of property to Pete - apparently we got our directions crossed up or something, because we though (Jeand and I) that we were told this weekend to immediately get the parcels transferred to Pete. He was agreeable and the Alvarado Terrace and Berda's acreage were recorded Monday by Dr. Beford. We now have to wait for Pete to come back from seminar down south where he is speaking for several days before we can go into the process of transferring title back to Tony. This is awkward as he is touchy about fees now already and the transfer offered some credibility; he recognized it as a safety factor and not someting that would be acted on but I do think that there was the practical assumption on his part that if we do not come through with legal fees, they could always retain title and get security that way. C-7-9-2a

Also our backtracking just days after we went to him in a state of frantic panic when we were under the gun from FCC and couldn't get him to agree that his statements about the bibles were corroborating with Olga's to Kelly. He sees us as operating always on a panic level, in defense against Baker and always harps on the need to take the offensive, not be so alarmist about things. He does not realize our basic strategy of acting before the fact, i.e. alerting press, etc. So when we change our instructions like this, it causes him more trouble...and the most important factor--it causes him to lose face with his partnership, with whom he had to discuss the whole issue of accepting title for security. I am not agreeing with him, I am explaining this to you folks; I do understand the necessity for keeping title to the places and just working with Dr. Bedford faster. However, the above ~~xxxxxx~~ is informational.

10. Truth E. - this is what I tried to explain on the radio: we have 2 3 problems with Truth. The first is that we've received the attached series of letters from IRS, ending with the latest asking for us to come in and talk, but not saying about what. Walter is in the process of contacting IRS and finding out what it's all about. The second is that when Harold was here, he and Tish apparently had discussed the fact of including the computation of a San Francisco tax figure into the quarterly Board of Equalization reports filed on Truth. This was because the business was conducted primarily in the City; the use permit comes out of Mendocino County; the directions were not to transfer the permit since that would cause problems; Harold said just before he went over to include the SF BART SE tax, which is the add on of ~~xxxxxx~~ 1/2 of 1%, ~~xxxxxx~~ ~~xxxxxx~~, to cover ourselves for the eventuality when the Board might question our operating in SF. Well, this was done, and now they sent us the attached letter asking why we have been figuring this in our quarterly reports. Walter advised us to just answer that some business was conducted in SF and that is why the % was added in. We asked him if this was the Board's way of formally starting an inquiry into whether we were operating full time in SF. He disagreed. ~~xxxxxx~~ Before we write this letter, we are asking your advice whether to do it. Our next quarterly report is due around the first part of July for the past 3 months; we would like to send the letter out with the report.
- Finally, there seems to be an assumption over there on Chet and Tish's part that we've gone ahead and transferred Truth to Tony. We only put the printing equipment on Tony's insurance policy. The phasing out of Truth was not done because we kept getting more income producing, obviously not church related, printing business, and we are still ~~waxx~~ waiting for Walter's analysis re the impact of printing political literature under church corp. As long as we keep the printing corp under Truth, then we understand we can continue printing political posters, books like Mary W.'s, stuff like that. If we lapse Truth and go to Tony, we are restricted by content. Obviously, this may all be ~~xxxxxx~~ irrelevant if we are to move the printing equipment out---but as of now, we've done nothing to transfer the corp to Tony.

11. Childrens Concession Stand bank account - Harold discovered before he went over there had been no activity in this Ukiah account since 1972, but that there was a balance in it of \$354.41; no one here knows the signators on this account. - We can't withdraw til we know who signs the checks. We have the checkbook; ~~XXXXXXXXXX~~ the bank wont tell us who is the signatorx ..any suggestions?
12. Eugenia Gernandt - letter received re her car accident - should we go ahead with this?
13. Medlock suit - copy of complaint. Jean may have already sent you this.
14. Corporate Bylaws - for several weeks we called and talked with Dr. South, who asked for copies of our articles & bylaws - that was when we were worried about Dr. Hargrave being honorary chairman, and attachment of assets, and extent of powers of voting members, etc. Dr. South and assistants examined our papers and produced the attached opinion - giving suggestions to put the bylaws in order, etc. This letter should be read by Cheryl and Chet to see if they think we should authorize Dr. South to go ahead with what he wants to do. He supplied the opinion at our request; the natural order of things would be that he would wait for our request or direction before going into changing the bylaws, etc. I expect we will get another bill now that the work has been put into a final product. NOTE: have found original typed minutes, with handwritten notes added by Dr. Hargrave, which describe how he prepared the original bylaws. We did not know on this end for sure if he had; now we do. Copies go to Pete tomorrow.
15. Attached is copy of letter from our attorney directed to the FCC in re the problems ~~84~~ 8R3 had with net coordinator, which is self explanatory. Also see attached article Tom found re amatuer radio license
16. Please have Gloria Walker write a letter to her bank requesting closing of her account. See attached bank statement. She is being billed for service charges; balance now is \$3.50...
17. We have received attached letter from a Dr. Bonham regarding dental work performed for Selika B. Attached letters to it explain the whole situation in detail. Dr. Bonham appears to be sympathetic to Selika's problem. The awkward part for us is that of course we do not want to pay.
18. Carolyn Thomas left 2 student loan bills: both with Bank of America; one for \$834.59; the other \$1,141.74. We are not paying. Is this OK?
19. Reta Thomas - See law office report #23, item 11. When I last asked about this one, Mildred told me to get more info re the terms of her probation. She is on probation til May 1979; charge is grand theft, as an accomplice, was reduced to misdemeanor. She mails in monthly info slip to probation officer, has to tell him of address changes, any current arrests, and employment standing. Says she has a good probation record; has no arrest since probation started, worked 3

6/30/78

from June

weeks in Dec 77 at Macys; attended Bay City College for 3 months studying to be medical lab assistant; did not complete yet because government grant has not come through yet. Also taking typing and business machine class. One of the terms of her probation is that if she is picked up and charged with anything, she will get automatic 6 months to one year in County jail. She still does not come too regularly; does not work in church projects; has a fairly friendly attitude when you talk to her but doesn't volunteer for anything. Perhaps someone there might talk to Carolyn and find out how she feels about her sister. Whether it's worth the pressure and trouble on the processing over there to try to get her probation assigned to G. Frankly, right now, our p.r. is so lousy, I am hesitant to do that for anyone.

20. Attached is letter from Geraldine Bailey's attorney to her - this should be given to her - and followed through.

The Honorable

Lieutenant Governor
State of California

Sacramento, California 95814

Dear Merv:

Attached are copies of the pertinent outgoing correspondence concerning the Stoen case in Guyana. I can't add anything to this other than to emphasize that the matter is in the hands of the Guyanese courts.

The prospect of launching the Committee's work program is exciting and one I am looking forward to getting started on. With the vision and commitment of Bob West and yourself we are bound to succeed.

I have lined up several board members including Representative Dante Fascell, former Assistant Secretary and Under Secretary for Economic Affairs Bill Rogers, Gus Rimple, Secretary of Commerce for the Virgin Islands (a recommendation of Ambassador Todman), Dr. Berkeley Burrell, President of the National Business League, and Harry Geyelin, President of the Council of the Americas (Advisory Board). I am also well along in putting together the prospectus. This should be to you and Bob in draft by the end of this week.

Warm regards,

Sincerely,

A handwritten signature in dark ink, appearing to read "Peter B. Johnson".

Reports from Jim Carter

w/ Mark Lane

Don't tell about blame - how wild it was - doesn't lie, when you have to talk on the

It can't be stressed enough I feel the impact that Lane obviously had on the people we deal with regularly. Timofeyev seemed to accept things that we have ~~been~~ been saying for months from him that didn't seem to have any impact with us. The same for Mingo. The same for Blackmon. And the good that was done with the media by having that press conference is significant. I would say that we are on good terms with the media, except for that asshole Monty Smith (editor of the Chronicle).

-Mark was incredulous that Garry did not have us suing these different papers for the things that they have been writing. He kept on referring to the statement that Garry made in one of the original press conferences about not having his clients "popping off." He said he wouldn't dream of telling a client a thing like that, especially publically, and if his attorney ever told him that he would tell him to fuck off.

-he really wants us to consider firing him. He said that he felt part of Jim's health problem has been the inability to answer back. He said that this is Garry's pattern ~~though~~ though.

-he loves Jonestown. Said several times, and once with a lot of meaning just before he was ready to leave the first time, that "you have a lot of real nice people up there" and that "Jonestown is a transforming experience." He said more than once that "Jim is a saint" and hearing that from him made quite an impact on people.

-he felt confident that the case could be cracked in 60-90 days. He said they would have a couple of people working above ground and a couple of undercover investigators also.

-he told us of his relationship with Paul Robeson. Apparently they were close enough friends that Robeson would lay on his living room floor and play with his kids. It was kind of touching to hear him talk about Robeson because it was obvious that he had been close to the man at one time. He said that Robeson had one wish, and begged his friends for one favor, and that was that when he died he wanted to be buried in Moscow. His last wish was desecrated. He said that in the last couple of years Robeson suffered a mental breakdown. He told us an interesting story. Somebody wanted Robeson's name in the sidewalk on Hollywood Blvd. The Hollywood city council turned the request down because they said Robeson was not primarily an actor. He said that of all people, Jackie Cooper wrote the city council outraged at their refusal, and listed point by point why they had made a political decision that was biased. The council still refused to place Robeson's name in cement. Cooper was incensed and got a court injunction (something like that) to order the council to have his name torn up from the sidewalk. At this point the council gave in and decided to put his name in cement.

He talked of how Robeson first began to sing. He had a part in a play at Columbia University as a supporting actor. I forget the reason, but for some reason - I think Robeson forgot his line - the director of the play said "hum your part." Robeson started humming, and the place stopped in its tracks, and that was the beginning of Robeson's singing career. Mark said that Paul told people that his voice meant nothing to him, it was something that he used to accomplish his goals. He had told one famous musician that he wished he ~~was~~ (the musician) had been born with his voice because it meant absolutely nothing to him.

-re: the American Embassy. Lane thinks we should stay away from them as much as possible. He said that all we accomplish by seeing them is them taping us, and giving us no information. He said you know that if they could they would napalm Jonestown tonight, and your house too. He said he would like to go up to Byer and grab him by the neck and say "listen you son of a bitch you stay out of our business or we'll bring you into the suit too." He said our relationship should just be on a ~~necessity~~ necessity level, and no more.

-Lane seemed to understand our strategies to a degree that was uncanny. When people would throw questions at him he had the answers that we give at his fingertips, and he was always willing to follow instructions. There was only one he disagreed with, and that was with Mingo. He was to say that Jagan had ~~asked~~ asked him to help him out when he was in the states but now that would be closed up to him (something like that). Anyway, he said he didn't feel it was good that he be associated with ~~the~~ Jagan in Mingo's mind because for him to say that he had helped Jagan in the past he felt would show too much involvement with Cheddi. The way he used the situation with the Mirror and the Chronicle was beautiful.

-it is obvious that Mark likes Terri Buford. When she left he commented on how smart she was, and he liked to spend time with her. That could be used to our advantage I feel.

Order to proceed:

Basic idea: to transform notes, scriblings, letters, various kinds of peices of paper, tape recordings, etc. into a cbherent system of classified documents.

Secondary procedure: To develop from these classified documents a series of publications. Non-strategic documents should be compiled for publication as papers of Peoples Temple - this would be a compilation of the total scope of the work of Peoples Temple, comprising history, reflections, letters, statements, personal memoirs, photographs, news articles, statements, activities, etc.

Tertiary procedure: To develop several publications drawing from the compiled documents and commentaries, as follows:

- A publication centering around the life and struggle of Jim Jones
- A publication built around a series of autobiographical sketches of various people who are part of the Jonestown community, with appropriate supplementary sections.
- A publication centering around the efforts to destroy the Temple and Jim Jones
- A publication centering around the healing ministry of Jim Jones
- A publication centering around reflective and essay-type writing by several people who are part of Peoples Temple.
- A pictorial study of the Jonestown community
- Annotated compilation of materials concerning the ministry of Rev. Jim Jones - involvement, organization, structure of church, etc. etc.

This group will also be a kind of community 'task force' that will be given several assignments:

- 1) To keep negative, erratic people away from guests
- 2) To keep own attitude very positive, friendly
- 3) To be on lookout for debris, litter, eyesores, other potential problems & report them or clean them up.
- 4) To be neatly dressed, to see that others are.
- 5) To troubleshoot: food lines, crowding, noise, inconsiderate behavior, etc.

c-7-h-5

The plan we discussed is to first identify a LARGE group of people who we would feel relatively good about having talk to the guest. These people would meet a few times for a group session to discuss how to handle various things that might come up.

Below is a tentative list of people who would fit into this group. Some emphasis is placed upon nuclear family groups, and we suggest that during the guest time, that husbands, wives and children spend time together perhaps more than usual, come to entertainment in their nuclear family group, etc., so they would be visible as nuclear family groups.

After this group is identified, perhaps we should identify another group who we feel should definitely NOT make contact with any guests -- people who are negative, erratic, unpredictable, or whatever. These would have to be met with and told firmly how to behave and not to behave (basically, how to walk the other way when they see guest, or whatever).

MEMO: Money making, feasibility of a night club in Kumaka

TO: Jim
FROM: Gene

There is a lot of money in the Marahuanna - Mabaruma - Kumaka area. We are seeing how good it is by our store. Probably the best way to make money in the area is to set up and operate a small night club with a bar, dance floor, juke box, a pool table or two, a couple of game machines, and live music on weekends or on special dance nights. There is nothing like it there - and a lot of folks with money and nothing to spend it on. We could also incorporate a general store in the same facility, and, of course, food service.

In order to set this up we would need a building, and land to put the building on. Without commenting on the probability of completing the venture, the first step would be for Patty and Rheavianna to make an application for the use of some land to put the structure on. It should preferably be along the river so that people could come into the area and tie up their boats, and come on in - a sort of aquatic parking lot. Anyway they would have to make an application for the land and it would take at least three months to get it - so I am suggesting that the first step be taken, that they be asked to make an application for enough land to complete the structure - say two acres. It would be in the nature of a permit or lease so that the cost would be nominal.

While the application is pending we can decide whether we want to go through with it, and all of the details. As to earnings I suggested to her we might make at least \$3,000 a night from dances, and she felt that to be a very low figure.

One thing I know for sure - Guyanese love to party and they have lots of money there and no decent facilities to do it. I think that the community would be very appreciative and the project would advance our P.R. in the area because we would be providing them with something that they like and appreciate. I think that a net income of between \$25,000 and \$40,000 per month from a combined store, restaurant, beer parlor and night club would not be unrealistic. It could be likely be operated with four to five persons, plus musicians on weekends.

Pitfalls:

1. dealing with local drunks
2. competition with local merchants
3. keeping our people out of the area
4. personal involvement with local Guyanese

5. Possible burglary
6. Credit?

29 August Rally notes in re Tim Stoen

Chaikin

All the young people in L. A. had to sign powers of attorney for him to go to Los Angeles

Bernice has papers with Tim Stoen's handwriting on it

Tim Stoen gave legal advice given publicly

Signed adoption on Jay Warren

Signed adoption on Sharon Amos Beam, with Jack Beam appear before Broadus..

Day of the riot in Los Angeles --went down to police station with group of our people: Gene, Jack Beam, Carolyn, Joyce Parks, Kay Nelson

Got up and advised the whole congregation

Led and was in the picket line around the Examiner in September 1972

Not sure he was in the Fresno Bee March --Simpson said his pix was in Fresno Bee

Muslim Mosk on fil --TV

Important thing about the picket line was that he gave legal advice on that line.. told people "don't push, don't shout, etc."

Carol Dennis recalls him in the pix

Tim Stoen signed papers in Georgetown for our headquarters as late as 1977 and signed a conveyance document on record in Georgetown

Going into court 1st of October with Tim Stoen

Made public appearances as our lawyer

Going to court for us, as a group

Taking a group into court

With Dick Tropp, Tish, Tim Clancy--group to clear articles and advertisements

Tim handled couple of lawsuits for church

Discussed church business with Frolich in presence of Gene Chaikin

specifically advice on advertising, also in Tish's presence with Frolich

Tim advised to "let Jack A. Beam go to jail" or get him out of the country..

Jim was on side of the law..

He was ordained in our church

SEE THZT THE DISCIPLES GET ALL THE NEWS FROM GOODLETT & MOORES...CAROLYN LAYT OR HARRIET.....

Penny has a lot of recollection she says

Gave legal advice on Truth Enterprises; consulted with Prokes, Chaikin & Tish

Gave legal advice on formation of the two non-used corporations we set up..

Bad

PRELIMINARY ANALYSIS OF BUSINESS VENTURES...

Needed:

Since the economic climate here is so erratic, it was our feeling that whatever the investment -- we should consider that our profits would have to be gotten out fairly fast.. Gene feels within 3 years.. Tish and Kay kind of thought this too optimistic.. However, in looking at their potential sales, based on history -- and figuring that they will be lying somewhat... the following sales would return our money in 4 years and 7 years, respectively..

Basing our profit structure on a 24% markup over costs, we would on 100,000 in annual sales, make our investment back in 7 years.. this would give a 15% net profit.. see attached..

On a profit structure of 35% markup over costs, we would on \$100,000 in annual sales, make our investment back in 4 years, this would give a 25% net profit... see attached.

It was our thinking we will have to consider carefully our profit structure in any business we enter, and base our business push in that direction.

We had two ideas on related and unrelated businesses:

Gene felt should go for the stores -- here and in Kamaca, stores and discos.. with possibly a bond for wholesale products in Kaituma.. for sales to Ridge, etc..

The other idea Tish thought on this, was that we run the same danger Booker did if we get too much control "showing" of our business ventures. Therefore, the contrast of the hotel business might not be so bad..

Kinds of questions we need to be asking..

WAREHOUSE IN TOWN--Docking space is at a premium; we have most of what we need to operate it.. Not necessary that we use it ourselves, however, having it will enable us to come in, load and unload at all hours and be on our way almost immediately --should we choose.. Also good for our own boat..

NEED TO KNOW WHARFAGE CHARGES, LOADING AND UNLOADING CHARGES, STORAGE CHARGES--as presently exist in Georgetown. Richard should have this.

Fernandes employees have a profit sharing plan that gives them year end bonus equivalent to 50% of annual income. Get treated so well you can't get anyone to give up their job save by dying. Everybody does a good job.

Could get 1 or 2 front end loaders and crane then can load and offload cargo and store it in our warehouse. Was obviously lucrative for Fernandes.. Is theft aspect to consider --perhaps fencing and dogs???

Would perhaps want to construct small bar or shop for beer and soft drinks, and some food..

NEED TO GET HOLD OF LAWYER AND SEE WHAT TRANSFER DOCUMENTS WE WILL NEED.. Government has regulated many business out of business--vis. poultry, etc.

C-7-h-9a

Mikes place--

Perhaps go in even lower than \$130--gene thinks (Tish not so sure is good, if we demoralize him --he might just give up.. then to go in much higher would let him know we are anxious.. have mixed feelings on going in too low..). Tish thinks \$130-\$140 best plus inventory.

Might sell tickets at ridge, let PNC or police sell them for us and give them a \$3 donation or some such..arrange railroad to deliver at a set fee? Could possibly make up to \$1000 net per night on this.. plus food for sale during week..

In looking at the books he presents -- a good sales point is to set it on a scale of comparative --shelf loss, etc.

Will need particulars on the businesses to give more in depth analyses.

BACKGROUND FOR LETTER TO SCOTT ; PAGE 1

JIM: THEN THERE WAS ANOTHER PASSING COMMENT ... THERE WERE SO MANY PEOPLE COMING AFTER ME WITH DIFFERENT QUESTIONS THAT THIS TENANT PROJECT ... THE ADVISORY COUNCIL DOESN'T REALLY REPRESENT ... THEY SAY THAT MORE OF THE SPEAKERS FROM THE FLOOR WAS RIGHT ... THAT THEY DONT REPRESENT HUNTERS POINT AND IF THAT IS THE CASE AND IF DUKES AND DUKES IS CORRECT ON THE 87% ON GUNS WHICH HE HAD HEARD MY OPINION ... WE SURE DO HAVE PEOPLE TALKING THINGS FAST. SOMEBODY HAD ALREADY TALKED TO THEM ABOUT MY SENTIMENTS IN THAT ROOM. OF COURSE, I DID MENTION/SOMETHING ABOUT HARDWARE - I DID MENTION IT PUBLICLY BUT DIDN'T MENTION IT IN DEPTH THAT THEY ASKED ME QUESTIONS ABOUT IT ... THEY SAID THAT, "I UNDERSTAND THAT UBALDE HOLDS ONE POSITION AND YOU ANOTHER." I SAID, "NO DISAGREEMENT - I TOTALLY AGREE THAT THE FORTRESS CONCEPT IS A BAD ONE; I AM A PACIFIST AT HEART; I AM JUST A LITTLE BIT CONCERNED ABOUT PEOPLE BEING PUT UP THERE WITH THE KIND OF TENSIONS AND THREATS THAT WE HAVE. THAT WAS MY PROTEST - WAS THAT PEOPLE BEING PUT UP THERE WITHOUT BEING PROPERLY TRAINED AS POLICE PEOPLE AND PROPERLY EQUIPPED.

UBALDE: ALL YOU NEED TO SAY JIM, WHICH IS FAIRLY ACCURATE, THAT YOU ARE CONCERNED ABOUT THE LIVES OF THOSE PEOPLE AND I THINK THAT IS THE ONLY THING THAT YOU NEED TO SAY.

JIM: I DID SAY THAT. I SAID THAT WAS MY WHOLE CONCERN IN A NUTSHELL ... THAT I THINK UNDER THE PRESENT PRESSURE, THAT SOMEBODY IS LIABLE TO OFF THEM TO TRY TO MOVE IN THAT HILL FOR SPECIAL DESIGNS. THEY SAID, WELL DO YOU HAVE ANY SPECIFIC SECURITY GROUP IN MIND. I SAID I DONT KNOW A THING ABOUT THESE SECURITY GROUPS BUT I WASN'T GOING TO GET IN THAT BAG BECAUSE I DONT KNOW THESE DIFFERENT SECURITY AGENCIES THAT WE ARE DEALING WITH BUT I KNOW WE ARE DEALING WITH SOME PRETTY SAVORY ELEMENTS UP THERE AND I CAN SEE THAT THEY WILL BUMP/SOME OF THESE CATS FOR AT \$4.76 AN HOUR JUST TO TRY TO SHOW US THAT THAT HOUSING THING WOULDN'T WORK AND I HAVE HEARD A NUMBER OF THINGS ABOUT COMMANDER WITHERSPOON -- THAT'S WHY I TOOK THE LIBERTY, AND I THOUGHT I HAD TO IN GOOD CONSCIOUS TO ASK POINT BLANK DID HE HAVE ANY DESIGNS AFTER HE RETIRED TO BE ENTERING INTO THE SECURITY FIELD BECAUSE INDEED IF HE WERE GOING TO DO SO, HE WOULD HAVE THE IDEAL SITUATION PLACING HIS/^{OWN}MEN; THEY WOULD PROBABLY AUTOMATICALLY QUIT THE HOUSING AUTHORITY AND GO TO WORK WITH HIM BUT HE SAID IT SOUNDED TO ME, IF YOU CAN BELIEVE WHAT ANYONE SAYS, IT SOUNDED LIKE HE HAD NO DESIGNS AFTER HE RETIRES BUT SOMETIMES THOSE STREET PEOPLE UP THERE DO HAVE AN ELEMENT OF FACT THAT YOU CAN GET AT AND I WOULD LIKE TO BE ABLE TO DO MORE SEARCHING ... IF YOU CAN XXXX DO ANY SEARCHING

ON YOUR OWN BECAUSE ONE CAN NEVER BE TOO SURE OF YOUR OWN SOURCES. FEELING IF INDEED THIS ADVISORY COUNCIL SPEAKS VERY EXTENSIVELY ... I GET THE / SOMETIMES IT DOESN'T SPEAK VERY EXTENSIVELY. I GET FAR MORE THAN ONE SAYING THAT TO ME ... MAYBE EVEN A DOZEN, 10-12 PEOPLE ... THAT CLEO HAS GOT HER LITTLE GROUP BUT THEY DONT REALLY REPRESENT ANYBODY. I THINK CLEO DOES SOME IMMENSE THINGS AND ^{DOES IMMENSE} THINGS FOR PEOPLE.

UBALDE:

WELL, I HAVE HEARD OF THAT RUMOR BUT NO ONE HAS GIVEN ME SPECIFIC FACTS AND I HAVE ASKED FOR SOME FACTS BUT I HAVEN'T GOTTEN ANY. I THINK THAT WHAT WE CAN DO AT THIS POINT IS SIMPLY INSTRUCT ... AND WE DEFINITELY HAVE A RIGHT TO DO THIS BECAUSE THE ACCUSATION WAS MADE THAT WE HAVE A RIGHT TO PROTECT THE COMMISSION IS THAT WE HAVE TO INSTRUCT THE DIRECTOR TO COME UP WITH THE LIST, ESPECIALLY IF YOU ARE GOING TO SWEAR THOSE PEOPLE IN ON THURSDAY, ^{THAT YOU} IN GOOD CONSCIOUS, NEED TO KNOW ABOUT BEFORE THAT SWEARING IN TAKES PLACE.

JIM:

I'M NOT SWEARING THEM IN, AM I ?

UBALDE:

WELL, IT SAID THE COMMISSION IS SWEARING THOSE PEOPLE IN.

JIM:

SOME INFORMATION AND

WHAT WOULD YOU SUGGEST THAT WE FURTHER DO TO GET ~~THEM~~ TO PIN SOME OF THESE PEOPLE DOWN?

UBALDE: INSTRUCTION FOR LETTER TO SCOTT:

WE NEED TO GET THE STAFF TO DO THEIR WORK FOR US -- WRITE A LETTER -- A MEMO ON YOUR LETTERHEAD TO SCOTT SAYING THAT THE ACCUSATION MADE BY BEASLEY WAS SUCH AND SUCH; PLEASE FURNISH THE COMMISSION PROOF OF THEIR RESIDENCY ^{AND} REPRESENTATION. NO. 1 -- REPRESENTATION IN THE SENSE WERE THEY DULY ELECTED BY THEIR SPECIFIC TARGET AREAS. THERE ARE 2 THINGS JIM, NO. 1 - WHERE ARE THEY RESIDING. NO. 2 - WERE THEY DULY ELECTED BY THE TARGET AREAS. SEE, THERE WERE SUPPOSED TO BE 2 FROM EACH TARGET AREA, LIKE HUNTERS VIEW, ALICE GRIFFITH, ETC. IF THEIR ANSWER TO THOSE QUESTIONS ARE AFFIRMATIVE, THEN IT PROTECTS YOU, IT PROTECTS THE COMMISSION.

INSTRUCTION FOR LETTER TO SCOTT: (CONTINUED)

JIM: NOW WE NEED TO ALSO KNOW HOW MANY PEOPLE ATTEND THESE MEETINGS.

UBALDE: YES, THAT'S RIGHT. GET AN IDEA HOW MANY PEOPLE ATTEND THE MEETINGS; WHERE ARE THEY HELD; AND WHAT FORM OF NOTICES ARE SENT.

JIM: THAT'S IMPORTANT.

UBALDE: O.K. THAT'S THE STAFF NOW.] NOW, THE OTHER THING, YOU KNOW, ONE REPORT FROM THE STAFF -- THAT'S ONE MATTER. THEN YOU HAVE OTHER WAYS OF FINDING OUT. DO NOT HESITATE TO CHECK THAT OUT.

JIM: YOU TOO.

UBALDE: I WILL BE HAPPY TO.

JIM: THERE WAS A DEAL THIS LADY DOESN'T USUALLY SPEAK WITHOUT KNOWING THE FACTS. SHE SAID IT WAS A DEAL MADE IN THERE TO DROP SOME OF THE QUESTIONS THAT THE ADVISORY COUNCIL HAD SUCH AS THAT I MENTIONED ON PAGE 29 AND ALL OF THESE THINGS WERE JUST SWEEPED UNDER THE CARPET AFTER THE DEAL WAS MADE ABOUT/SOME OF THE MONEY BEING DIVERTED INTO TRAVEL FOR ... DIVERSION OF SOME OF THE MONEY INTO TRAVEL.

UBALDE: POESAN ANTONIO AS ONE AREA.

JIM: THAT WAS ONE OTHER THING .. DIVERTED INTO TRAVEL FOR A NUMBER OF PEOPLE ... THEN THEY GOT SOME DIFFERENT EQUIPMENT THAT THEY WANTED, FURNITURE THAT THEY WANTED, ETC. WHICH I DONT FIND ANY PARTICULARLY SUSPECT OF THAT. WHAT THIS YOUNG WOMAN THOUGHT WAS SUSPICIOUS IS THAT THEY WERE MAKING A LOT OF PROTEST ABOUT

C-7-h-12c

OUT
THE WHOLE GENERAL PROGRAM ... THEN THEY WERE NOT PLACATING ... SHE SAID THAT I WAS DISAPPOINTED WITH THE ADVISORY COUNCIL AND I WAS DISAPPOINTED WITH THE ATTORNEY HERSELF.

UBALDE: LET US ~~SAY~~ ^{SAY} THIS AT THIS POINT.... THOSE ACCUSATIONS MAY BE INACCURATE. BE MINDFUL OF THE FACT THAT WHEN WE VOTED FOR THAT WAS WHEN WE WERE TALKING ABOUT ~~THE~~ ^{THE MONIES} THAT NEED TO BE APPORTIONED TO THAT AREA. COUNCILS CAN COME AND GO BUT THE IMPORTANT THING IS THAT RENOVATION ... THAT MODERNIZATION TAKES ^{PLACE} THAT'S THE MOST IMPORTANT THING AND WE CERTAINLY ARE NOT GOING TO BE SWAYED BY ANY ACCUSATION TO STOP THEIR PROJECT BECAUSE THAT PROJECT IS MORE IMPORTANT THAN ANY OF THOSE COUNCIL MEMBERS OR SECURITY GUARDS.

JIM: I AGREE WHOLEHEARTEDLY. ^{HOME}

UBALDE: NOW WE CAN DO THE KIND OF ^{HOME} WORK THAT WE NEED.

JIM: YOU DO ANY RESEARCH WORK THAT YOU CAN DO IN THAT AREA AND ASK ME IN THE MEETING WHAT SCUTTLE BUTT I HAVE PICKED UP. YOU CAN WEIGH THAT SCUTTLE BUTT ALONG WITH ME AND FIND OUT ... BECAUSE I REALLY, AT TIMES, ^{GET THE} FEELING LIKE IT'S TOO MUCH TO STAY ON TOP OF...IN THAT THERE IS A MARRIAGE THAT GOES ON HERE BETWEEN CLEO AND SCOTT ... THIS IS A FEELING OF SEVERAL PEOPLE OF THE HOUSING STAFF ON LOWER LEVELS ... THAT DEALS ARE MADE WHICH WE KNOW NOT OF AND IT MAY NOT BE A THING TO IT BECAUSE INNUENDO RUNS RAPPANT IN THIS TOWN AND I DO KNOW THAT CLEO --- IN TERMS OF EMBELLISHMENT, I FIND HER ^{????} THAT CAME IN ABOUT THE THREATS. I THINK EACH ONE SAID THEY HAD HAD ONE ... SHE SAID SHE HAD HAD 5 AND I SAID, "5 - WHO WERE THEY ... HOW WERE THEY" ... I COULD TELL THAT CLEO WAS EXAGGERATING HER ^{REALLY} THREATS BECAUSE SHE COULDN'T GIVE ME ANY DETAILS AND I AM ^{REALLY} CONCERNED ABOUT THIS AND BY THE WAY, IF ANYBODY GIVES YOU ANY TROUBLE, I BROUGHT PLENTY OF SECURITY THERE TODAY AND IF THEY GIVE YOU ANY TROUBLE AROUND YOUR HOME ... BECAUSE POLICE WILL GIVE YOU THIS LINE THAT NOTHING CAN BE DONE UNTIL AFTER THE FACT...WELL THAT'S A LITTLE LATE .. SO IF ANYONE STARTS HAZZLING .. DO NOT HESITATE TO CALL ... I KNOW YOUR COMMITMENT TO PEOPLE .. AND SO YOU CALL THIS CHURCH AND WE WILL BE THERE QUICK. .. BUT IT MAY BLOW OVER .. IT MAY BE A _____ IN A TEAPOT, ALTHOUGH WHEN PEOPLE START THREATENING LIKE THIS, YOU HAVE TO CONTINUE WITH A CERTAIN ELEMENT OF SERIOUSNESS.

3.

UBALDE: DID YOU NOTICE THAT WHEN WALTER WENT OVER TO BEASLEY AND KIND OF SOFTENED HIM UP WHILE WE WERE TALKING ... I RESENTED THAT.

JIM: WHICH BEASLEY WAS IT?

UBALDE: SHORTER GUY.

JIM: HE'S A BROTHER AS I GATHER, TO THE ONE THAT IS ON THE SECURITY¹

UBALDE: THE YOUNG GUY, THE HUSKY ONE, WAS THE ONE IMPLICATED WITH RE-DEVELOPMENT AND I AM SURPRISED HE IS OUT.

JIM: I DONT WHY HE GAVE ME ALL OF THOSE SORT OF CORDIAL RESPONSES. I GUESS PERHAPS BECAUSE OF ALL MY SECURITRY AROUND THERE. THIS IS A TERRIBLE DAY WE ARE LIVING IN. THERE IS ONLY ONE THING THAT PEOPLE SEEM TO UNDERSTAND IN THE ASPHALT JUNGLE IS FORCE MET WITH MORE FORCE .. IT IS A HORRIBLE WAY TO LIVE .. BECAUSE I DONT EVEN KNOW THIS MAN ... HE TALKED IN SOME SORT OF TERM LIKE, "JIM" ... "BROTHER JIM". THIS WAS THE FIRST TIME THAT HE AND BROTHER JIM EVER MET. ...

I DO CARE ABOUT A NUMBER OF THINGS THAT I DONT HAVE RIGHT BEFORE ME RIGHT NOW ... I WOULD LIKE TO GO OVER WITH YOU BEFORE THE NEXT MEETING^(THE WHOLE TARGET BUSINESS) ABOUT MONIES AND ... BUT TODAY, AGAIN, THIS GUY BROUGHT UP THE QUESTION OF THE 15 MILLION ... I LIKE THE ONE GUY ... I DONT TRUST KILDORPH ANY FURTHER THAN YOU CAN THROW HIM BECAUSE I'VE GOT TOO MANY INSIGHTS ON HIM FROM COLLEAGUES .. ONE OF THEM BUTLER ... OFF THE RECORD ... DONT SAY SHE CALLED HIM A REACTIONARY, ANOTHER HOUSE (?) WHO WORKS IN THE SAME CHRONICLE ... THAT HE IS A DEVIOUS PERSON SO THAT'S ENOUGH FOR ME PLUS WHEN I WOULDNT GO ALONG WITH HIM IN THE LYNCHING OF CLEO, HE HAS BEEN TRYING TO CAUSE AS MUCH DIVISION FROM ME AS HE COULD SINCE THEN BUT CANTER I THINK IS THE MAN WHO IS OF REASONABLE INTEGRITY ... HE SAID NOW THERE IS A LOT OF MONEY REV. ... THAT'S BEEN GONE BY THE LAST BUDGET AND IT IS GOING TO COST FAR MORE THAN WHAT THEY HAVE ON RECORD AND IT IS ANOTHER ONE OF THOSE DEALS ... YOU ARE GOING TO GET FAR MORE EXPENSE THAN THEY ARE PROJECTING SO IT ALMOST JIVED WITH CORROLATING WITH SOME RUMORS THAT^{I HAVE} IF TRUE, WE HAVE GET TO THE BOTTOM OF SOME OF THIS ... I WOULD APPRECIATE IF ~~HE~~ YOU WOULD LET THIS MAYOR'S OFFICE KNOW (I LET THEM KNOW WITH MY GREATEST DISPLEASURE) OF THE WAY THEY HANDLED THAT AFFAIR ... I CAN SEE NO OTHER REASON FOR THE MAYOR DOING WHAT HE DID TO US THAN TO AVOID GETTING INTO A RACIAL SITUATION.

C-7-h-12e

I WOULD APPRECIATE IF YOU LET HIM KNOW BECAUSE I LET HIM KNOW HOW DISPLEASED I WAS THAT THERE WAS NO MENTION TO COLBERT WHOM I AM SURE WOULD HAVE GONE WITH YOU AT A LOT LESS TROUBLE EVEN IF CLEO HAD BEEN TALKED TO ... I THINK WE WOULD HAVE HAD A LOT LESS TROUBLE ... SHE WAS AMBITIOUS AND TOLD ME THAT SHE WAS GOING TO FIGHT ABOUT IT AND I KNEW WE'D HAVE LOTS OF TROUBLE...

UBALDE: SOMETHING BOTHERED ME ABOUT THAT ... IT REALLY PUT YOU IN A SPOT AND PUT ME IN A SPOT. THAT WAS REALLY A SHAME.

JIM: YOU HANDLED IT WITH MAGNAMITY WHICH SAVED THE DAY.

UBALDE: I NEEDED TO DO THAT. YOU KNOW, AFTER WHAT I SAW WHAT WAS GOING ON. NO. 1. 2 OR 3 THINGS I SAW. ONE WAS CLEO .. SHE WOULD DO EVERYTHING TO DO WHAT SHE DID.

JIM: WELL, SHE TOLD ME COMING DOWN THE STAIRS. THAT'S WHAT I WAS TRYING ... BUT I TOLD YOU I WOULD GO ALONG WITH YOU IF YOU WANTED TO TAKE THE FIGHT.

UBALDE: I REALIZE THAT BUT THE FIGHT ISN'T WORTH IT... IF WE ARE GOING TO FIGHT, LETS FIGHT, YOU KNOW ...

JIM: SHE TOLD ME ... "I WILL NOT GO ALONG WITH THIS ... I WILL FIGHT. I AM GOING TO TAKE THIS TO THE FLOOR SO I DO KNOW WE ARE IN FOR TROUBLE.

UBALDE: YES. AND THE OTHER THING IS ... I DIDN'T WANT YOU TO BE SEEN PUBLICLY WHERE YOU SUPPORTED NONBLACK.

JIM: IT WOULD HAVE CREATED DIFFICULTIES FOR ME BECAUSE I KNEW WHAT GOODLETT WAS COMING UP WITH AND I GUESS YOU FOLLOWED GOODLETT'S ...

UBALDE: YES. ..I KNEW HE WOULD.. AND I WAS SENSITIVE TO THAT. I SAW WHAT WAS GOING ON AND SAID, "HELL, I AM NOT GOING TO PUT ALL THE EGGS IN ONE BASKET AT THIS POINT; WE STILL HAVE MANY DAYS AHEAD OF US AND WE DONT KNOW IF THE MAYOR IS GOING TO REAPPOINT CLEO ANYWAY ... AND EVEN IF HE DID...SHE HAS HAD TO SAY;

JIM: WELL, I HOPE THAT HE WOULD TAKE INTO CONSIDERATION/SHE IS ONE OF THE PERSONS THAT GREATLY AFFECTED GOODLETT. SHE TOLD GOODLETT ALL ABOUT THAT BUSINESS AND HAD HIM SO HYSTERICAL -- I THOUGHT GOODLETT WAS GOING TO PRINT IT. SHE TOLD HIM HOW THE MAYOR USED I WOULD FEEL MUCH MORE COMFORTABLE WITH YOU AT MY RIGHT ARM

5.

BECAUSE I KNOW YOUR SENSE OF JUSTICE. CLEO LEAVES ME WITH SOME QUESTION ... AND THEN YOUR KNOWLEDGE ... YOUR COMPREHENSION; YOU KNOW THE FREE ENTERPRIZE IS FAILING ... I WOULDN'T EVEN BE ON THIS THING I DONT THINK I COULD STAND IT IF THERE WASN'T SOMEBODY ELSE RECOGNIZING THAT WE ARE GOING TO HAVE NEW SOLUTIONS BUT I DONT THINK CLEO NOR ANYONE ELSE ON OUR COMMISSION HAS THAT GRASP; PERHAPS COLBERT ... I DONT KNOW. I HAVE NEVER HEARD HIM TALK ABOUT THE SOCIO-ECONOMIC RAMIFICATIONS. IT PUT ME IN A MISERABLE POSITION. WHEN YOU TALK TO CLEO IN TERMS OF PHILOSOPHY, I FEEL LIKE I AM TALKING TO A STONE WALL. SHE KNOWS A LOT OF THINGS ON THE LOCAL LEVEL AND WHAT TO DO FOR PEOPLE ... GUTZY REACTIONS .. I RATHER ADMIRE BUT PHILOSOPHICALLY ... ONE TIME SHE IS TALKING LIKE A PRO-SYSTEM PERSON; THE NEXT TIME SHE IS CRITICIZING. GENERALLY WITH THE CONTEXT THAT MISS/^{HARRIS} IS A GOOD WOMAN AND PRESIDENT CARTER IS A GOOD MAN ... GOING TO DO GOOD THINGS FOR PEOPLE ... WELL I THINK WE ARE ALL DAM FOOLS ... EVEN THE EPISCOPALIAN MAGAZINE ... I HAVE FORGOTTEN WHAT THE NAME OF IT IS ... I READ IT ... A GOOD FRIEND OF MINE, BISHOP MOORE, PROGRESSIVE BISHOP, YOU MAY KNOW OF HIM FROM THE EAST, SAYING THAT CARTER IS COMMITTED TO THE TRI-LATERAL COMMISSION; THAT THE TRI-Lateral COMMISSION HAS GONE ON RECORD AS SAYING THAT THERE IS TOO MUCH DEMOCRACY IN THIS COUNTRY; THAT WE ARE GOING TO HAVE TO REDUCE FREEDOM AND THAT IS A MATTER OF A PUBLIC STATEMENT.

UBALDE: THE TRI-LATERAL COMMISSION SAID THAT.

JIM: YES. CARTER IS A MEMBER.

UBALDE: CARTER IS A MEMBER OF THAT?

JIM: OH YES, HE IS A MEMBER AND THE EPISCALIANS WENT AFTER HIM, HEAVY. IT WAS NOT AN ALTERNATIVE OF THIRD WORLD PRESS BUT RESPECTABLE ... ONE OF THE MAIN ORGANS PORTRAYED TRI-LATERAL COMMISSION DEMOGOGUING AND REACTIONARY AND ALSO CARTER SAID

(SEE TAPE FOR THIS PORTION IF NECESSARY - WENT ON TO EXPLAIN).

C-7-h-12g

6.

UBALDE: DID YOU READ THE SECOND SECTION OF THE CHRONICLE?
JIM: THAT WAS GOOD. SECOND SECTION OF MCCABE ON THE TRI
LATERAL COMMISSION - IN THE ESTABLISHMENT PRESS. THANK
YOU FOR BRINGING THAT TO MY ATTENTION. *

UBALDE: AND WE NEED TO KEEP THAT IN MIND.

JIM: IT IS VERY MUCH THERE. I ADMIRE YOU SO MUCH WHEN YOU
STOOD ON THE FLOOR AND SAID THAT/WE ARE GOING TO HAVE TO FACE
THE ECONOMIC SOLUTION
THAT HAS BEEN PRACTICED IN AMERICA IS AT FAULT. IT HAS BEEN
THE FAULT ALL OVER THE WORLD AND WE HAVE GOT TO REALISTIC
DEAL WITH THAT IN EVERY PROJECTION WE MADE IN HOUSING.
LOT OF PROMISES ARE GOING TO BE THAT AND NOTHING MORE WHEN
IT COMES TO MATERIALIZING ANY REAL MAJOR HELP FOR THE PEOPLE
... I FELT LIKE A HYPOCRIT WHEN I HEARD THAT CONGRESSMAN
FROM MONTANA STAND UP AND SAY WE CANT EXPECT TO GET GOOD
MEDICAL CARE AND HOUSING AND EDUCATION AT THE SAME TIME.
WHAT KIND OF TALK IS THIS COMING FROM THE SERVANTS OF THE
PEOPLE? (SEE TAPE FOR CONTINUATION OF THIS SUBJECT)
OFF THE RECORD, I HOPE THE MAYOR DOESNT APPOINT HER. SURELY
HE CAN FIND SOME OTHER BLACK PERSON. THEN I COULD GET ON TO
HAVING A VICE CHAIRMAN, A CHAIRMAN.

UBALDE: I AM NOT READY FOR CHAIRMAN.

I AM NOT READY TO TAKE ALL THE HEAT YET.

JIM: YOU ARE READY TO TAKE IT.

UBALDE: WHY DONT YOU WRITE A MEMO TO JOAN BYRNES TO GET ON TO THE
WRITING OF THE JOB DESCRIPTION FOR ADMINISTRATIVE ASSISTANT
TO THE COMMISSION. GET THAT ROLLING SO WE CAN GET OUR
COMMISSION OPEN...AND THEN
WRITE A MEMO TO ME AS THE (UBALDE) CHAIRMAN OF THE FINANCE COMMITTEE
TO START DISCUSSING THE BUDGET FOR OCTOBER. (PREPARING A
BUDGET SO THEN I, UBALDE, CAN CALL THE STAFF TO START PRE-
PARING THE BUDGET. (MEMO TO BE ON COMMISSION LETTERHEAD)

(HEAR TAPE FOR BALANCE RE WALKER OUT TO LUNCH WITH KILDORPH - OUR
SECURITY KEEPS EYE ON HIM, ETC.)
END TAPE.

imagines \$800. will cover the cost of the following:

- 1) 2 each 24" X 1/8" plate X 1 1/4 arbor X 36 teeth blades
- 2) 100 each 8 guage 2 1/2" tenons
- 3) 200 each style 2 1/2" 8 guage 7/32 kerf teeth .

Simon's
Brand

Under normal circumstances I would recommend 4 each 24" blades because blades under continuous usage should be rotated TO minimize metal fatigue and failure. He imagines the blade may cost \$200.00 each. If they are under \$200. each we may consider 4 each?? The reason these blades are so expensive is because they are commercial saw mill duty blades. Check first with Acme saw Works on 1012 Brant St. and 2nd with Quality Saw on Bayshore St.

godd' for running out rats, or other pests. Maybe this smoke can be piped down into the shit house to smother flies.

KEN NORTON: (items of interest)

X 1) Magneto telephones - a Carlson- Stromberg telephone requiring no switch board to operate, turn a crank on the phone and a loud ring is heard at the other end. They are capable of loud clear conversation at any distance. These phones could be of value in remote areas when the possibility of intruder reception of our CB system. Cost \$16.95 eac.

2) Mercury Lighting 175 Watt- Mercury lighting is more efficient than incandescent- 175 Watts will give as much light as 800 Watts of incandescent. Mercury bulbs last 25000hrs to 45000 hours. Incandescent are short lived. These units will fit 2" pipe operate on 115 V. Cost \$25 each photo cell \$5 per lite.

X 3) 12V police siren- Sirens re audible for greater distances than are horns. In event of White Night one siren should be audible over the whole project. Everyone responds to a siren. Cost #39.50.

4) 30" rach sewing machine- While at Bonanza in Oakland I found a Singer sewing machine with a 30" reach capable of sewing canvas, tarps, quilts, leather or any other problem material. It is an extra heavy duty machine including table, motor, clutch, legs and machine. This machine new sells for \$5,000. but Jack at Bonanza (phone #534-3030) will sell it to us for \$600., the price he paid for it. The Singer salesman in LA said the price is ridiculously low and said parts for one 30 years old and a new one were exactly the same, parts are not a problem. The machine is currently in operating condition. Ruby Carrol said we could definately use it since we now do not have anything that can be used for the purposes that this machine would. As a matter of fact, she needed one the AM I told her about it. *Find out cost on shipment, & what kind of leather.*

5) Drill bit sets: He understands that we do not have enough drill bit sets. Currently we have only 4 partial sets of alphabet bits and no sets of fractior bits. We can get fractional bit sets from 1/16 to 1/2 by 1/64th graduations for \$24.95. List price is \$9.00 per set less than the best price. They can be gotten in SF. Due to the unstable economic system in the US he suggests getting 10 sets to hold us in supply for some time in the future.

6) SAW BLADES: The shake mill is nearly functional but we lack saw blades of the appropriate size which is 24" in diameter. We decided on 24" steel blade 1/8" plate thickness with 1/32" insert teeth, 36 teeth, 1 1/4" arbor hole, 100 8 guage 2 1/2 tenons & 200 teeth. These blades are not available from Georgetown but are available from SF. He does not know the prices but

Is this the portable sawmill?
