1. A man was ¹⁹⁷⁷ taking pictures of our kids ~~on~~ ^{from} our Divisadero Commune - someone got his van's plate and we traced it down to Palms Springs - a couple who had a college aged son. The woman was in Real Estate they had their names on the plates of their car. (we traced this down the same time as we did the man in Santa Monica to a dummy Corp.)

I think they were German. The KL may have been tripping out as we had just seen "Marathon Man"

We may still have all the info.

- Christine - Patty - Karen - Patricia -

2. My car got stolen while Gene Choiken was driving it - it had a big trash bag full of mailing list letters (returns), the entire outline of the break-in at the Mertles - in my handwriting I think, wigs ect. The stuff was found by Mary Black in an abandoned garage across from Ben Franklin School Mos. later.

3. When David Wise returned he was put in charge of organizing the break-in

of the Mertles - he was so disorganized
and had such poor follow thru that I
took it over. Kay Henderson was also
involved.

4. Chris Lewis was also involved as a
security person in the Conn case -
insignificant I'm sure

5. David W. was involved in wire-tapping
the Muslims I think.

6.
