

Bollers

Instruct to: W.C. Oct. 13th - 1978

John who to tell her.

Tell Bollers, tell him very frankly, say that everybody told us that he went loose the child, he would have given the child but she is a trotskyite and then joined a bunch of racists which is a strange marriage, we have witnesses and affidavits that she threw the child and jerked him and said "take him, I don't want him" so it is a means of trying to get us by extreme racist elements. Many of our US govt. friends say, at a high level that its a racist conspiracy, it may include some of them in Govt. but it is not Carter against me (JJ), it has been established, Lt. Gov. Dymally told us that we were victims of conspiracy, he is still standing by us and he is coming in here November. You should tell about ~~xxxx~~ Freed (constantly daily to people and that they will give in to money, say we know this because one person overhears Stoen saying "Im afraid, ~~xx~~ you won't do any harm to me will you and in another case he said that he was afraid when he lied on Peoples Temple. He said that some he had less control of (JJ) like ~~Rxxxxxx~~ Chris Lewis, who was assassinated, he said that he wouldn't give a bit of information unless that man was ~~xxx~~ taken care of, plus they were threatening him with something else, something in his past, he was a transvestite, we dont know what it was. He said to them, you have ~~xx~~ things on me, what can I DO, I have no choice do I, so we ~~xx~~ presume that he didn't do anything illegal in the church that we know of never did we see it but we did know that he was a transv. and we counseled him ~~again~~ and told him that he could no be in the church and live like that, and he was told to quit it and we didnt hear any more reports but we have heard that since he left the church he has gotten back into that sort of life and other sorted things. Say that it would kill him if he had to give the child back. Say that she only once took the child back and had intercourse with a man because I wouldn't marry her. She was told from the beginning that it was not a marriage, She was going to hurt her husbands career by lying on him and she was going to tell a lot of lies and she would have hurt out church ~~xx~~ if she would have gone on about that transvestitism, so he asked me to do it, and a couple of nurses gave precaution and some way or another, the foam and his rubber/prophylactic broke, and we had a baby. She wasnt having any relationship with him (TOS) and ever since that child has been born he has had no relationship with her, unless it has happened since he's gone back to the US because he has preferred men, We just said we don't care what you think, you just are not going to act out here, in the church and he told him that he better think about ~~x~~ his job, family and the church. We dont know how far his homosexuality ~~xx~~, but we do know that he was seen several times in a homosexual area by someone who worked there in a restaurant ~~xxxxxx~~. This will kill him, its not a situation in which he loves the child, it would be different if she did and she did this and the child remembers it to this moment, it was such anguish, she took him and had sex with a man right under his nose and told him that she was going to do it and there he witnessed petting and so forth and went into another room and said, we are going ~~x~~ in to make love and she locked him in the garage and he ~~xx~~ came home and was so up came home ~~xx~~ and was so upset that he ~~xxxx~~ talked about suicide at two years of age. ~~xxxxxxx~~ We talked everything about loving life he but every time that woman got around him it was ~~x~~ poison she had him all torn up, she said cruel things to him, we used to not believe all of the things but ~~xx~~ now we do. She used the child to get back at me. and for JJ to marry her, she told people, But JJ couldn't do that to his wife at 2 years of marriage, because he hadn't had any promises to her. From the beginning it was just a sex thing. Tell the judge that he is so sick that he never did it at, he said that he knew that it is he only struggle since he knows that he ever did. in his life. That has taken years off of his life. It was done on the intention of god, his wife and the board were consulted we thought we had nothing we could do being interracial and communal, that we had to do it. We felt this would keep her from leaving and it did, ~~xx~~ finally demanded ~~5~~ years ~~xxxx~~ and she wanted to know that day

↓ after 5 ~~years~~

she demanded that JJ. ~~try~~ ^{try} her.
if JJ would marry her, He said "I cannot do that & to marcelline, she has
been a faithful wife for all of these years, then she went out with a bunch
of threatenin' things, that JJ couldn't understand, Then a few weeks later
she took John, and naturally I wanted her to be with John even though she was
crazy in some ways, I didn't believe she ~~xxx~~ would do this kind of stuff,
and that is when she took John and performed in front of him with her boyfriend
Now we have closed all of it after opening up his head, it was so painful for
him, she did all kinds of ~~men~~ things to him and called him a little devil and
and she told him that ~~shhe~~ looked like a little devil, said that she always
was going to be a liar and she told him how wonderful it was making love to
this man. JJ says that she made his child familiar with things that should
have waited years and ~~x~~ that would destroy him. Some conspiracy knows that
that is the thing that they can get us through. We will not have a leader be-
cause he will die before he gives that child up. Say it will kill him, it
will kill him, there is no use to talk about it. And it would create a great
_____ out here because all of the 1200 know him and know Grace, and there
would be a lot of others that would be hard to deal with if Jim Jones has a
heart attack over this. JJ didnt ask because you werent the judge of the
case at the time. And ~~we~~ ^{we} were told that ~~x~~ it would work out ~~xxx~~ fine,
but why is it taking so long and is it true that it will work out fine. (Say
we have been told by some ~~x~~ people, ~~xxx~~ dont mention govt. people)

it will work out fine. What evidence is there that it will work out fine,
and how long will it take.

We always praise you in our conversations to Min. Kingo. We don't say what
you say but we do praise you. If it's a point of wisdom we do say it, but
if it is to do with facts we don't. And you seem to be very supportive of
the govt. What's going on a year ago it was ~~xxx~~

... a year ago they said they had no jurisdiction. ^{high officials} ~~high officials~~ told
us that it shouldn't be resolved in the courts. We'd like to know what
changed that. We feel you should give us as much support. You've never
heard us quote you. Somebody else high in the govt said they are going to
just let it rest for five years and then it can't be resolved in the courts
... // he could not money to bring in
... of jurisdiction / they don't have jurisdiction over anybody of ...
... through mean ...

- Did anybody from States call you about offshoot

FOR BOWLERS: *Instructions:*

Tell him that people from different embassies, and a number of our Socialist friends in the PNC, and US officials in the Embassy warned us that if the PPP saw Jim ~~xx~~ in town, he could be arrested and it would put the PNC in a bad position.. We don't understand why permission could not be put in writing. A minister who has been in the government a long time thought the case would go our way, but he wonderd if the health of Reid or Burnham got bad if some other element took control of the government--he wasn't sure what would happen in that case. He feared we might be booted out. One high ranking newsman said almost the same thing that was said by the Cabinet Minister. We have heard from everyone, even that minister said--they have heard nothing but good about us.

Tell him about Mohammed Ali and Dick Gregory coming. Tell him how the most powerful black man, the President of the Black Newspaper publishers Association came out strongly in bold headlines and a long feature story, front page on the beauty of our project---since he recently visited the project.

-ask if JT Clarke said Stoen would drop the case.
