Message to give Mark Lane and Don Freed. Tell them that JJ can't rest at all. ~~xxxx~~ he cannot go to sleep. So on night they gave him two high powered sleeping medications, and he laid down and tried to get some rest but it was just like drinking water. It didn't even touch him. Of and on he has tried 5 different pills. And nothing works.

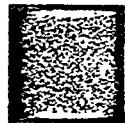

There are two other countries who have offered to take us in. This is very confidential so please do not write or tell anyone about it at all. They want us to be a model everywhere.

Last night he got 25 minutes of sleep ~~xxx~~ from 2 sleeping pills. he dreamed that everyone got out of here except him~~xxx~~ self and John and they had to go and hide in the jungle and were caught. His dreams are reality oriented. He worries about each and every individual equally. His dreams are not like a screw (say jokingly)--he enjoys sex but his wife is gone and he does not like sex with other people because it builds dependant relationships. Then you get someone like Grace Stoen who gets hostile and leaves. That taught him a good leasson. ~~x~~ It relaxes him to read somewhat. He has been reading rush to judgement and breaking it ~~xxx~~ down so that the seniors can understand it. That one doctor is going to send him something that might help him go to sleep. He said that concientious people cannot go to sleep. Lenin had the same thin--of course he is not saying he is like Lenin!

STATES: KAREN

there are no cancer cells now Even though the lab reported they were we had ~~x~~ put them under an assumed name cause we didn't want everybody and the brother knowin about them I don't know if you want us to keep playing like I have them in USA, I dont have them because we have this set of cells but said that I've ~~xx~~ got emphasema due to the fact that my mother started smoking when she was twelve, my dad fifteen and I was born thirteen years thereafter. he said I can live years and years. The only thing about sleeping pills is they don't give me any sleep, they ~~gixxxxxxxx~~ lower my blood pressure. said that unless they have got some new drug, some new ~~x~~ type of wonder drug ~~and even better because we had ~~xxxx~~ under the sun. the Russians~~
The Russians are ~~not~~ sure this will work ~~it works magnificently~~
For some contact Jim Jones said the ~~xxxx~~ said Nobody carries ABT

People like you do, said if they did they'd have the
the same the same problem they don't live long
lives, he said somebody has to put about people
like you do. But I did promise him 8 hours
but it annoys me so much and our doctor thinks I
should get up because what I lay down
and don't do anything I get so annoyed

I have been in USA, I don't know if you want us to keep quiet
I don't have the because we have this sea of belief
I was born fifteen years ago and I was born fifteen years
The only thing about sleeping pills
they don't give me any sleep, they give me lower blood pressure.
they have not some new drug, some new
