

*Dropped off at USSR Embassy.*

Information for Nikolai re ardin: Jim Jones' present health.

His temperature yesterday was 99. He doesn't feel too bad. Has been laying down 7 hours. He can't sleep too much but is taking 7 hours rest. Reads and rests mostly is laying down. He isn't involved in too much activity. His metabolism is usually 14-16 but yesterday it was 13.5.

15. Airplane tickets

We wanted to find out what happened with the airplane tickets for the return flight. He doesn't care but just went to know. Don't have to tell them. He didn't want them to get into the wrong hands. He wants the organs to take care of but he is worried as long as we have them.

16. Planning

We do have a plan we can show you. Our astronomist and our farm manager do have a plan with all the details of the work and the plan to you.

Note dropped by USSR Embassy

Fedor:

Nicolai was going to confer about Johnny Brown's wife, Marianita Langston Jones and see if he could get some answers about her condition. He was going to talk to a Cuban doctor about it, so if you have any feed-back on that, let me know next week when you see me. Thanks.

Also, when we see you next week, we'd like to know if you have anybody at your Embassy who can do Morse code.

Sharon
