

Analysis of those close in:

TOS- he is the first to come to mind because of the recent issue on the floor. Not only do I hold him directly responsible for the trouble CL was in- thus resulting in the "little" product//... but I also hold him directly responsible for the situation with G and the product of that. Both of which I knew for certain- are the 2 most painful areas of your life. And I also hold him responsible for you having the go into the area of 'men'- since he was the first- and he would have pursued it if he hadn't been caught.

And I feel that what he did the other night was anakin to put it mildly... I felt like killing him. He showed absolutely no socialist awareness and was talking very much like a white Conservative capitalist.

I know you have to trust some people- and he has had a lot of trust put in him. But he doesn't know himself worth beans- and for that reason alone- I do not trust him. I wanted to bring up the fact that he told me in no uncertain terms that he very much enjoyed that relationship etc. (that night I told you about)- but I don't know how much people can take- and I felt not free to unload all of this on him that night.

I did not see the final conclusion- I doubt that it would matter in my opinion. The damage was done- and in some ass-y cases- I hope it wasn't irreparable.

When you are gone- I don't trust him to rely on women's opinions- I think he has a 'healthy' fear of you and that it must remain that way- since he is indeed very much like a child in many ways. I would hope he would also have a "healthy" fear that if he betrayed this cause- I or someone else would not hesitate to do him in.

I am appalled at his treatment of you and all you have done. I never liked him- and do even less now- I spoke the truth the other night- the only respect I have for him is in terms of the work he does for this cause- but when I see his responses the other night- I ask- why does he do it? What is in it for him? For I don't trust his knowledge of himself at all. And he showed the Socialist mentality at that time -on a very basic issue. I shall continue to watch him carefully- (as I have most of my dealings with him from the start).

Mike P.:

I trust him probably more than TOS- atleast in most areas- but I also feel that he has an 'emotional' lag- of some sort- he doesn't empathize with people or things enough- he is cold- and insensitive many times. And def. lacks tact. I do think he would probably follow a woman's advice quicker than TOS- but I still would question how much he would in a pinch. I also question his tenacity- he hasn't been here that long- and in one PG. he sd. he wouldn't like to be doing this for 5 yrs.

more- I think he relates to you more as a child- and finds a certain 'comfort' in being close to you in the work. I wonder how he could carry on without you. He once said that he was relieved when you were not around- or out of town- or whatever- because it meant less pressure- or some such thing- which I felt was just the opposite of the way it actually is.

It is much worse for those in authority when you are not around- and I felt that his statement showed at that time atleast- that he was relating as one not left holding the bag- but rather as one who could let up while you were gone.

I basically like him- and feel he has some good qualities- (such as when he was stepping forward to tell the general congregation that he had been fucked etc.) I feel he does have more honesty than the usual (esp. for a 'man')- but I feel he needs the balance of a woman's decision- and also needs to become more realistic in some of his dealings. (and more sensitive)

Mike C.

I basically like him- tho there is a streak of chauvenism that I think runs there- that has to be dealt with- when taking instructions from a woman. That plus the aura of being a "lawyer"- I feel will have to be handled- if you are not around. I don't question his loyalty. But I have my doubts that he would effectively function as a leader 'front'- with directions coming from women- if he had to. He also I feel needs to develop more sensitivity and tact.

Terry B.

I feel she is loyal. I do think she is high strung- and over-reacts at times. She makes me nervous to be around her- she is so paranoid. I wonder about her health- and stamina. And I feel she needs a certain amount of feedback and positive strokes from you- that may determine her functioning in a time when you are not here. I originally thought she was neasey- (and she was at the time) and I didn't like the way she put the N.Y. City situation with CRL and PG to you- like she knew that was what was going on- and that you actually had to affirm or deny it to her. I didn't like that. I also feel that now that she kind of knows what we are doing- she backs off somewhat- but I still feel that if she didn't know- she would still be inquisitive. But I think I basically trust her- I think she has the principles at heart. I like her- but her paranoid is difficult for me to always deal with- I can't relate to it in such a degree.

BB 4-B

3/

L.A.- I have no doubts about her// we have had our differences- but not in a long time- she is loyal- and I feel that she is one of the few who will be here come hell or high water. She does have her patterns tho- and I feel she functions best with a balancing opinion (as we all do). But she can tend to get bogged down in details and miss the over-all point if.

I like her very much- and feel she is very reliable (if she is not in that ever so slightly insane streak that has come up once in a great great while).

CL.-

You know my feelings about her- I also feel she will be here until the end. We don't talk much about our deep feelings to each other- mainly no time.. but so many of our feelings go unspoken- seems no need to verbalize them. I do wonder how to ans. her tho when she makes the statement that the little one is just pain to you. How do I counter that one? We don't talk of him or you in much detail.

Grace-

She is much more balanced than she used to be. I find her reliable even. My trust of her is not that deep- nor do I still like her very much. (but more so than before her recent growth..) I def. cannot at all be objective about her.

MJ-

You know my feelings about her- I think- or rather- I know she will stand when you are gone. She is tried and true.- I don't know how much she drains you these days.. but I have no question of her loyalty or that she will be here. She does tend to be overly optimistic in my opinion- but then I am a terrible pessimist.

Jack B.

don't like or trust at all.

A.J.

ditto- another ego-maniac.

PC-

limited trust- I don't feel she has proven that much that wasn't an ego investment for her.. you know my feelings there.

CRL-

not at all- traitor ready to happen.

KL-

loyal- and I basically like her- but she does not function on all batteries- has to be double checked and supervised.

BB-4-B3

4/

Paul F.- don't trust him- he told me once- he stayed because he was afraid of you. I don't think he trusts anyone and feel he has lost some perspective- with the things that he has done in Bks.- telling people messages from F. etc.- I think that has gone to his head- and minimized his awe of you. I feel he has to be constantly watched- as illustrated by that story of letting someone fuck him for money etc.

Johnny- - I feel he wants to do right- but is limited in creativity. I still wonder where he and Ava are in their relationship- as they spend the night together in John's room when we are down in L.A. (makes me suspicious)- I feel that both he and Ava hold themselves off a bit from the rest of us. But I think he has a basic loyalty to the office- and relates in a child-like manner- but yet he has had difficulty calling the office F. instead of J. (which may or may not denote less humility than is first apparent)

Jean B.- I like her very much- she is very self-analytical// I would trust her to follow thru on most anything- and would trust her likewise on most anything. She doesn't come up to LA or CL or MJ in my trust level- but I haven't figured out why- or if its just cause I don't have that much contact with her- but I trust her next in line to them- (and that's alot)

PJ- If she doesn't freak out someday- I trust her to stick- but I think in many ways she is an unknown- and PC had to have had a 'crazy' affect on anyone for that many formative yrs. I don't think she knows herself very well- and is limited in her ability to analyze things to the utmost. But she is very trustworthy if not under a great deal of emotional pressure- and if she is away from PC.

Sue C.- trust her to stick to principle and uphold you. But wonder if you were gone- and the organization floating- if she would leave to try to work in some other area for socialism. I wouldn't blame her if she did- with the pain of seeing you suffer all those yrs.- but her attitude has been very positive recently- and she is a rock when you are gone on brief trips.

Leena- where is Leena ? Too wrapped up in herself- only works within her area- (but that is very good for the total)- but must be treated carefully.

Fish- no- too ego involved. Where is her head??

basically you have a crew of shit-heads to work with in my view..

Report on conversation with TS secretary:

TS asked me to talk to her about the church etc. and mentioned that JJ wanted us to try to get her in. He (TS sd.) she had been loyal and has helped him with church work (don't know what kind). And that she has always been closed mouth etc.

So I went to coffee with her and TS- he had obviously talked with her about S- she was well acquainted with our stand. He spoke of the necessary dedication and all // when ever SB asked her a question she would look over at TS and they would kind of giggle- and she would say to TS- "we went over this"-or some acknowledging remark of familiarity to TS. (SB thought it was sickening -it looked like a mutual admiration society of 2)

- anyway- SB asked her to go to lunch sometime after that- and during the lunch conversation- the following points were made:

- ① SB mentioned her own art experience (the secretary is interested in her art work (which in itself is extremely self-oriented) SB sd. her work had not related to the problems around her etc. (no response from Martha)
- ② SB asked what Martha's phil. was- or idea of God- we finally named it as 'Love'- and she felt that not many people felt it or practised it and she felt alienated in that way. I asked her if she thought that people had the ability (used as it was) to express love- or did just a few people like herself know how? She sd. that she thought everybody could feel it if they tried.
- ③ then SB asked what her idea of love was. What it would be like if everybody loved each other.
- ④ then SB equated her idea (Martha's idea) of 'love' with S- and that S was a way of reorientating peoples minds and feelings to a more loving way of living. She thought about this awhile and it finally came out that she was afraid of S because she thought she would have to give up too much of herself and she did not want to do that- she did not want to give up her sleep or her free time or her artwork

she was afraid she would be doing things she did not want to do- I told her I did nothing I did not want to do- I was not made to do anything I did not in actuality want to do. No one force you to do anything under S- you wanted to do it/ She could not relate to this at all- she obviously did not believe there would be that degree of freedom under S-

I do not feel she has a positive opinion of S- and I feel that TS should back off what he had told her about extreme dedication under S and what ever- she has a fear of it- and I believe she is too self-oriented at the moment- she is extremely naive about the world situation doesn't believe about prejudice and the suffering of others that she might help alleviate. She is not ready to actively participate- she made that very clear.

And I question what TS gets in the way of ego boasting from her- she obviously idealizes TS. (SB)

BB-6-C

L- the work of SA's that she thought she found was the "waste" piles I had- when he writes up a summary of an OT- and it is just a Donation- I don't bother filing the card and typing that- I just put the card bottom side up and use the opposite side.

(but these should probably be locked up any way as they have names and addresses on)

2- I think I figured out what ~~my~~ work PC was talking about- I think it is the very old work that she had done that S L.A. had- and had given to me ~~and~~ to add. It was on big cards- (from when she used to do it alone)- and I haven't had time to add that on - since I glanced at it- and didn't see anything that really applied to people that come now. ~~BUT~~ *MY fault* ~~BUT- THAT SHOULD HAVE BEEN LOCKED UP~~

I see- that is another aspect- since I know the work and the area- I am pretty much able to pick out people that come- now// KL apparently added that old stuff being ~~xxxx~~ nice doing so- but I feel if that is the case- it was a waste of time since those people don't come anymore. For the most part- there is little other than straight typing and filing that others can do- since it is easier for the person doing it all the time to recognize these things.

3- the tapes- there were some old small cassettes laying in back of my desk- I knew they were there- from what I know- they are nothing- but I ~~am~~ had completely forgotten about the big tapes in my filing cabinet- as I was not considering those. I remember- when I got them- (I think from PC??)- thinking that they were "special" due to their age etc. and felt that something should be arranged to preserve them etc. and felt not to give them to Mike P. at the time- and I forgot to mention having them.

4- also on the subject of old L's of SA's- L.S. left tons- and I mean literally tons of old L's not filed- and the big one knows that as I told her I was slowly digging them thru and filing them- but that has been low on the priority list as it is so ~~time consuming~~ consuming. - I'm sure she was referring to them now

that I think of it.

Pam would like to move back into my house since she is in town most of the time - for school and working at the hospital.

I could use her at my house to help with the animals etc. since Steve A. has gone back to work & Jeff is no longer there.

The whole reason she moved out of my house in the 1st place was that I could not supervise her - and she was totally undisciplined. Now - I feel she is more responsible and could be OK at my house.

She could also bring some added money to my household -

I told her I would not make the decision - so I'll do what others think.

Introduction: Chap. 1

1st step of Dictatorship take over - the private ownership of the means of production. A few large companies make decisions affecting thousands of people & even the country as a whole - without consulting large monopolies make the poor poorer & the rich richer - and are run by a very small number of people.

66 million Americans live in poverty or want.
(56 million people have not finished high school)

In slave society - the state power was used to keep slaves down - in capitalist society the state is used in the interest of the capitalists. The class that owns the means of production - rules politically - the form of government in the country makes

BB-6-P1

no difference. Government will always adapt its policy in the interest of control for the ruling class. Capitalists pay for campaign funds & control elections. Woodrow Wilson wrote in New Freedom that the people who ran the government of the U.S. were the combined capitalists & manufacturers of the U.S. i.e. laws are designed so the rich pay no income tax.

The State uses Armed force to control its interests in other countries. - military strength. 70 % of our National Budget.

The State sometimes makes small concessions to non-owners to keep revolutions from happening. "Freedom of the Press" is run by the State.

"Freedom" means more than the absence of restraint. What good is the right to do something if you are unable to do it? In Capitalism - only the rich are "free". Socialism - planned production for use & democratically controlled

BB-6-P2

Sandy Bradshaw

Intro - chap. 2

- Socialism is already a way of life for 200,000,000. Karl Marx & Friedrich Engels.

- Class struggle - whether or not you own property determines your position in society. One class lives by owning - the other lives by working.

- 1st step to high profits is to reduce expenses. Pay low wages & get as much work out of laborers.

- In Capitalist society - there is always conflict between the two classes. There can be no harmony - what is good for one class is bad for the other.

- The worker sells his labor - often creates "surplus value" - goes for profit to capitalist.

- Division of labor - allows capitalist to exploit & accumulate more capital.

- free enterprise - a farce - monopoly because competition is reserved for the while combination increased profits.

- Monopolists can fix prices - always can make a profit.

- Monopolists fail to pay wages equal to their productivity.

BB-6-P,

- Distribution of goods in U.S. - most Americans living miserably - wealth is in the hands of a few large corporation owners.

- the maldistribution of income is a basic weakness of capitalist system

- most people don't have the \$ to buy the goods -

- Insoluble contradiction - periodic breakdowns - crisis & depression

- low wages make high profits possible but they reduce the ability of people to buy things.

- Capitalism - must have depressions - underconsumption & over production

- Wars are necessary to maintain capitalism. Colonies - Imperialism -

- Monopoly - Seminal relationships. Backed by the state - the class that owns the means of production - rules politically.

- State exists to enforce the decisions of the class that controls the gov. of the class that controls

Re: Melinda B.

Mike & I agree that we should not report Melinda until we find out if she is at the teacher's house in Ukiah - TOS told Tim C. only to drive by - so we don't know if she is there or not.

And she very well could be there - and if we made out an elaborate story & then she turned up under the authentic roses - it would be good. Maybe we should

BB-6-WW,

have Rita and/or Mary stake out the house -

She apparently liked this teacher & she knew where he lived.

I suggest a vague short "Missing Persons" report - stating - she has on occasion acted somewhat on "impulse" in the past (maybe implying she took off on a lark) of the 5/0 handling of missing persons reports of adults - like

RE: SB going to PL. in 2 wks.

If I go now.. I will not be able to get away again until I quit my job- which may be I suppose atleast Sept. since TOS is leaving the area. I should stay until the very last. Also, I think I should be reserved until CET acts up- and go then if necessary. If the only problem now is Mike, Debbie and Paula, and taking Vince over- I think someone else could do that. But I don't know who to suggest. Also- TOS will be leaving his job at approx. the time I would be leaving to go to P.L.- that may not look very good in terms of our staying in the area.

I don't mind going now- but since Helen just got back and you will be going soon- I don't know if this is the most advantageous time for me to go. I do feel that I should go eventually, and maybe take PJ with me (it might help her faith level and commitment)- but with her do stop-by's in G-town for the people on Paula's mailing list- and get something more started in the way of build up there in case we need it. If I just went with Paula- I would not be able to keep what I was doing from her... these are just points for consideration.

He mentioned about the dream he had of a man- who looked like I - who had died and was in the coffin - and was in the graveyard- the man got up- and begged me to let him live- he had formaldehyde in his veins. - a- the physical liquidation of the chiefs and assistants of the armed forces and of the police
- b- the expropriation of government resources and those belonging to the big capitalists... with small expropriations used for the maintenance of individual urban guerrillas and large ones for the sustenance of the revolution"

Marighella has strongly influence the BLA and panthers // "The urban guerrillas theory of revolution is to demonstrate that the government is incapable of fulfilling its primary purpose, that of providing a stable and ordered society/ If this basis function of government is eroded in practice, then the masses will reject the government in power. Rejection will come about thru revolution

Mentions the Minimanual of the Urban Guerrilla.// Marighella sd. kidnapping must be handled so that the public sympathizes with it- and accepts it. (i.e. SLA food relief program)...

but the black revolutionaries seems to accept Marighella's ideas more than say the Weatherman The Weathermen do not present specific ideologies to replace the structures of government they would topple.

They say none of the urban guerrilla's in U.S. have any strategy much beyond revolution for its own sake. antecedents for New Left- Che, Debray, Stalin, Lenin.

Che- sd. that ~~ix~~ it is not necessary to wait until all conditions for making revolution exist, the insurrection can create them. this "foco" theory was adopted by the New Left- instead of organizing the masses, as a whole, per Marxist dictates, they decided that "a small group of armed insurgents... can act as a focus for the various discontented elements.

Armed propaganda-// Castro used foco theory- in the last 2 yr. period of his warfare- he did not have any political rallies in his zone of operations. Action would replace the sterility of revolutionary oratory."

(they mention a number of "how to" books on revolution- all familiar..)

the writer says it appears we have these "wars of the flea"- in urban settings/- in the U.S. we have just the embryo of such a war- and an unorganized embryo- thought deadly to Marighella's first target- the Policeman/ it could be argued that even if not successful- these disruptions of even embryonic urban guerrilla warfare- may be a self-generating catalyst, leading to further serious revolutionary activity. The irregular pulsation of urban guerrilla activity in America during the past half decade almost defies anything better than ~~if~~ an "if, then" prognosis, tempered by a multitude of economic and social factors.

WHAT SOCIALISM MEANS TO ME... AND WHAT I WOULD DO TO SEE IT BROUGHT ABOUT.

Socialism to me- means total equality eventually. Not now, not in the beginning- now it means- some people have to work harder to be examples to others to lure them away from the trappings of capitalism- to the ideals of socialism. To just say to people that under socialism, there will be no more hungry babies, etc.- doesn't seem to make it. Most people don't get grabbed close enough to make them work hard, to give up things to make socialism work.

It is an ideal to work for- not something we have now- or can probably even hope to have so that we- the workers- can reap the glories and benefits of a socialistic way of life. I feel we are, for the most part much too corrupted by capitalism, to become engrossed in socialism as a replacement. Most of us have not suffered enough, or even if we have, there are still remnants of wanting something that someone else has etc, - it looking appealing in some way or other- an intisement (Sp?).

Anyway, I can see that we are going to have a hell of a problem getting most of the people we have now to work and live under socialism. There will always be petty jealousies and comparisons as has been set up by the capitalists. How to get rid of them? When will the big purge come?? When we are all hungry-? or on the way to jail?? Somehow, I don't think so.

Socialism is an ideal... and some of us are idealist in one sense and dreadful realists in another sense. But just because we ourselves cannot be in the new established order that is to come- does not detract from the beauty or righteousness of it.

Socialism + (Communism) is a total re-orientation of our previous way of thinking. A new outlook on not only ourselves as individuals, our work habits, our attitude towards work, our feelings for others, relationships etc. but it is also a complete dying of our present thoughts and ideas, things we have been brought up with- things that seem to be habits, even thought J example has shown us higher ideals- we are still for the most part in a capitalistic groove.

From the P.L., I can see how just and beautiful a complete Socialist way of life would be. To be able to get up in the morning feeling clean, to go to work in any area- that is obviously useful and of value to the collective- even if it is cleaning the latrines. To be doing something worthwhile.. to be living for and in something workthwhile...

Now, I am satisfied to have something worthwhile to die for- and hopefully to bring about something more worthy for those to come. It is not important to me that I be able to live under pure Socialism... but more that I have worked to help bring it about- or even to help to destroy the horrible corruption of capitalism. My personal expectations for this life are few. But I do accept my responsibility to work in the PL. if nessecary to build Socialism and Socialist consciousness there- if that is what I should do.

Tho, by choice, I would like to go out of this hell hole world in a blaze.. either of gun fire, getting some (many) mother fucking capitalist... or in one (or several..) big explosions, well placed. That would be my choice. However, I don't expect that- not so easy...

Instead- what I am willing to do for Socialism- is to keep on living... and fighting against capitolsim- and fighting to establish a new Socialist/Communist order- all over the world. I will fight wherever, when ever I get the chance. If something should happen to this cause- I would go on my own- use whatever resources I could muster- and keep fighting- and atleast take a good number of our enemies and fascist pigs with me. I plan to be here and to fight to the glorious end...

NOTES from the L of the 8

- the staff has wiped out progressive & revolutionary thought. the 8 know that some of them were kept out of staff by staff because their ideas were and are too progressive and black/ anyone with an active mind is called queer in a degrading manner.
- they know there is too much on J and he has to rely on staff/ this puts J in a vulnerable position because staff has lied and give him wrong info & support the wrong biases.
- in terms of choice of staff Christine Lucientes, who is suicidal & once walked out of the church because of hostility, & who ~~failed nursing school~~ failed nursing school, was picked for staff, yet Jan Wilsey who stands faithfully at the door was not chosen.
- If J went to jail the staff would let him rot ~~there~~ there but the 8 wouldn't
- the 8 wanted to get the children - the rest of the group wanted to go on if J doesn't meet with them.
- they are mad Chris Cobb wasn't allowed to get a new car.
- said don't believe in religion, reincarnation, God hereafter/ only believe in today, don't look at the future or past/ staff would let J rot in jail but "we won't"/
- they said Mike and Sue were doing ~~their~~ their own thing in Oakland/ that they took money out of the college fund and didn't put any in.

RE: L.A. Visitation and calling

from SB

I don't know if you want to deal with this publically or not- but from going over the L.A. files reports given by Rhonda Fortson- I have found the following:

1- there is ^(appears to be) ~~actually~~ very little actual contact and calling being made- there are a small number of people doing calling- (and probably not all very competent representatives)- it seems that Rhonda does few calls- (even with her other jobs- it would seem she could do atleast 'several' a day- but this is not so.

2- on their calling and visitation- they seem to be going over and over the same people. Follow-up should be done- but they are not reaching enough people.

3- I have found few- or no- listings of visitations or calls from either Johnny or Paul- maybe they don't report them to Rhonda and that committee- but neither do they give me a schedule or any accounting for their time (for possible suggestions of improval etc.)

For example- listed the weeks report of July 11,- (not clear exactly what length of time this entails)- Dorothy Brewer made 1 call on 6/29 and 4 calls on 7/2/

on the Suspension calling for the same date (July 11)- there were .7 calls made by Sheila Cole on 7/1

.8 calls made by Gary Tyler on 7/1

4 calls made by Rhonda F. on 7/1

.6 calls made by Helen Cole on 6/29

listed on the same report was the figure of 158 on the Regular Suspension list (members that have missed 4 meetings)

and 189- of Suspension II- those who have missed 12 or more meetings (there should be MUCH more contact with these people) (these have no phone)

and 533 of Suspension III- missed 12 or more meetings- these people have phones- so def. SHOULD be contacted.

I know for a fact- that there are many, many people who have for 1 reason or another stopped coming- (many OT's don't come anymore)- and I think this should be a ~~major~~ major phase of L.A. leadership.

Re: Jim Cobb

In June of 1972 Jim Cobb ~~approached me~~ ^{said that he thought that} I would make it (meaning a Black militant revolutionary). I knew that was what he meant because the point of all those little catharsis meetings was to bring us all around to this. He emphasized that I was going to be all right and with that he kissed me. I thought that he was so committed at the time but backed out of any kind of an affair because of fear of being brought to council and fear of ~~scarcing~~ ^{scarcing}. He had a manipulative approach about dedication to the cause. He hates me and called me a racist in July '73 for something as trivial as not ~~wanting~~ ^{wanting} to drink out of a coke bottle that he had. One thing which struck me funny is that I always felt uncomfortable saying what an asshole J.C. was around Mickey. She never talked bad about him and when I did ~~never~~ ^{never} commented.

Re: Terri Pietals

Terri told Diane Wilkenson to pretend that she had a gun and to put it to my head and ~~maybe~~ ^{maybe} then I would talk (~ April '72) — Diane did it.

Terri had a hold over Mickey (not that Mickey didn't want it). She came down to see Mickey ~~for~~ ^{for} a few days before they left and stayed out until early in the morning. Mickey drove down to S.F. several times last year before she started working to see Terri.

Re: Mickey Touchette

Mickey was always acting like she was a Malcolm X militant. She was always tight with Terri P. and even supported the Fascism that went on at the dormitory ^{in the Spring of '72} when we had a meeting several months after some of the stuff got brought out (like Jeanette getting slapped in the face). We were told by the counselors to just forget about the past so a lot of the hell that went on was never brought up. (Other people that supported that ordeal in this particular college meeting were Sharon Cobb, Lexa Flowers, Vera Biddulph, Diana Wilkinson, and Jan Wilbey ~~the other girls~~). Mickey acted real sulky and moody around the dorms after Jim Cobb told her that all of us were going to Redwood Valley ^{to the P.C.} (she told ~~us~~ that). She slept a lot and when I asked her what was wrong she acted like it was nothing or my imagination. This was about mid-July and it was within a week before vacation that she started acting what I thought was normal.

Mickey always talked about how ~~the~~ sick male-female sexual relationships and said at least homosexual relationships were more honest. When I confronted her with the fact that all relationships were sick she seemed reluctant but did half-heartedly agree which makes me think that Terri was ~~what~~ her motivating factor. I'm sure she had something going with Jim Cobb also because when I came home from school Jim would leave and go upstairs (I figured it was just because of me → I knew already that he hated me so nothing seemed strange because I thought it was Ava and John that he was hanging around.

THIS PAGE IS A SUMMARY OF THE FOLLOWING
KEY POINTS of the L from the 8 PAGES

STAFF HAS TO BE FUCKED TO DO ANYTHING (to be loyal) yet others who are told to keep the standards, Ted Ballard and Dan Pietila are lied about, called fags, their reputation spoiled - yet ted seduced by one of staff
-staff handled easier - Mike & Harriet not talked about publically except in PC
-Grace Stoen not forced to have an abortion
-PC still held in honor tho betrayed

MY J SAID MONEY DOESNT MATTER

yet Helen ~~was~~ treated special/ J told ~~the~~ people "dont talk about Helen unless you bring in as much money as she does" she is ~~the~~ racist/doesnt recognize black people in public. This is capitalistic

NO BLACK LEADERSHIP

-blacks on staff are not revolutionary
-whites are put on staff after 3 or 4 meetings but not blacks except for Lee I & he's a hippy intellectual type.
-Revolutionary blacks are attacked as homosexuals by staff & are castrated & they put up with it because they think J approves or they fear J would slap them down.
-why arent revolutionary blacks coming into the church
-Choicy, AJ, Alice not revolutionary/John Brown used just to take offerings.
-staff ~~choose~~ chooses staff/ have kept out some of the 8 because some of the 8 are more progressive & black in their ideas.
-why arent some of the whites sent to LA, CL, PC, Gene Chaiken, SB (even Lee I was considered to go to LA & he's the one Black put in leadership right away)

HATRED OF STAFF

-many have come to the 8 who hate staff with a passion/ the 8 told them ~~to~~ to write J but they wont because they fear it will be used against them/ these people feel worthless and scared/ they feel the staff is held sacred & aloof from the common people/ the movement will be crippled & destroyed because of the staff dealing with members that have faith in JJ.
-there are no blacks to represent discontent of people with today's evil
-leadership is aloof.

BB-6-DDDDDD

YOUTH GROUP

-used to be united & strong/ loved Communism & hated S. now wont go to choir/hate church meetings/Cathy Stahl and Eliz Godshaw left church.

NOTES FROM L OF THE 8

- have to be fucked in order to be loyal/ they demand J's sensitivity/ this is grossly sick. the following have to be Fucked:
JB SR, Andy Silver, Mike Prokes, CL, SB JP
- Ted Ballard seduced by an older white schitzophrenic woman/ his image was "ruined" in the church/ feels worthless / now he walks the fucking street ~~xxx~~ an outcast.
- Dan Pietilla ~~x~~ tries to follow guidelines set by staff to leave Robin alone especially sexually. Lois Ponce told lies about danny
- Staff is out of public range (protected) while Ted made to look like a fag and a sexual deviate/ what's dan P. to think when he witnesses such unfairness.
- Grace Stoen doesn't know her ass from a hole in the ~~g~~ ground/ was fucked to keep her in PT/ accidentally got pregnant & doesn't have to get an abortion contrary to C law because she's staff.
- Mike C & ~~S~~ Harriett's perversion not talked about in public/ this is double standard ~~xxxx~~ and this is working against loyalty/ temporary secrecy will be kept but not loyalty and not the spirit of S
- J said money doesn't matter but everyone with money is on special projects & on staff/ Helen not to be messed with/ it was said "Don't talk about Helen unless you can bring in as much money as she does" she is racist thru & thru/ ignores black members in public & there are many testimonies of both black & white people of this. In regard to Helen this is a capitalist overtone with no S. Concern/ Helen is condescending.
- Several people have come to different ones of them with doubts of staff & goats & money/ they, the ~~xxxx~~ ones who are complaining, feel worthless & scared. The 8 told them to write J because they, the 8, didn't agree and didn't know how to help them but the ~~2~~ complainers are afraid because they feel staff will use it against them
- many hate staff with a passion. leadership aloof/ sacred from common people/ movement will be crippled & destroyed because of the staff dealing with members that have faith in J
- ~~xxxx~~ J has said whites have no potential but then where is black leadership? Joicy Clark, Alice Inghram & AJ have no awareness/ AJ out of date
- there are no Black people to represent ~~xxxx~~ the discontent for a today's evilness, that will listen to or follow staff/ Black people are being had for money or anything else/ John Brown doesn't know what S is/ he's only used to take offerings.

B13-6- DDDDD

L from the 8

- no black person put on PC right away. Lee I is ~~the~~ almost the only exception. Lee was put on after about a year but his ideas are pseudo hippy intellectually oriented
- Black key members have proven themselves thru the years/ yet they still stay in the same capacities yet some come to PC after only 4 or 5 meetings such as Mike Prokes Annie Moore, Gene Chaiken & Terry Buford/ how much ~~xxx~~ do they know about S. New white middle class (upper middleclass) people put in such staff positions & are trusted & treated better than Blacks.
- why aren't some of the whites sent to LA? Why aren't Gene C or Sandy I sent? they have made mistakes and the 8 know for sure about that. & Lee I was considered to be sent to LA (in other words the black one would be the one considered to go)
- PC is brave/ send her/ she's hyper as hell/ exposed the work instead of being quiet or take a pill. yet she's held in supreme respect because she's on staff.
- CL is negative as hell in church when she does show up. she wonders around not doing church work/ this is not just the testimony of the 8 but a lot of people still in PT express this.
- Karen L ~~x~~ walks out like "super pussy"
- Skusan Cartmell talks about people left & right yet her wardrobe is enough to make a rich capitalist jealous. Sue & Mike didn't give any money to the college fund last year but Mike took money from the fund and they had their own ~~xx~~ separate apt.
- the ~~xxx~~ nit picking staff takes advantage of the chance to castrate black men/ this is perverted/ this shows staff is ~~xx~~ threatened.
- staff creates guilt in males/ the blacks take it because they think J approves & because J will slap them in/ staff breaks the spirit of revolution in black males.
- why have no blacks come in with the spirit of revolution.
- staff castrators of people/ in past 6 years call them homosexuals & talk about sex, sex, sex/ why isn't S the top priority. 99% of the ~~xx~~ people in PT know nothing about S/ no Revolutionary teachings like there used to be.
- staff came in the nite to steal books from those who have them but Mike C kept his. ~~xxx~~ Tim Stoen & others were told not to read about S.
- Youth group used to be united & aware of ~~xxxxxx~~ Comm. and opposed to S. now they hate church meetings and don't go to choir/ there is no youth group now.
- when the college people used to run the ~~xxxxxx~~ S meetings all would come/ now its going down hill & Cathy Stahl & Elizabeth Godshaw left the church

Report on CRL work situation:

Last week she and PJ were in L.A. (the week of Feb. 17-21)// they had 108 things to work on- and 5 full days in which to work as they stayed down there after the L.A. weekend. I got back approx. 40 things... and 21 of them were C's that PJ did. My records show they did nothing the 17th- and 4 V's on the 18th// and PJ did 6 C's on the 19th and PJ did 14 's on the 20th and CRL did 5 V's PJ did 1 C on the 21st and together they did 9 V's

PJ typed the above and said that CRL had the rest of the work... I asked CRL about it and she avoided the issue- and finally said she had 12 of something (C's or V's??) somewhere... when I asked her specifically for them last night- she went to get them (supposedly) and left the house... we didn't know where she was (not at the office) until the next day(??)

I had KL tell her again when they went to leave for S.F. together to leave the stuff as I had to get this weeks work together-.. and nothing was left- so I assume that there is nothing to leave.

She acts this way when she is hiding something (i.e. when she stole the \$50 from me in change- she "went to get it" about 5 times- and obviously had no intention of returning it as it had been spent previously)

I gave she and PJ \$120 for the week and got none back- the last time she and PJ were supposed to go to L.A. (PJ. had to fly back) I gave them \$140 plus \$20 apiece for their own spending \$- and again I got nothing back- (and CRL gave me a flimsy accounting for \$140 of it (counting the 20 apiece)- so I think she got atleast \$40 of that \$ if not more.

She was home all day Mon. and slept most of the day- and did not clean out her "stuff" from Sun.- she left it in the back of her car- (I got it out and disposed of it- and LA. brings the new) This is her only "responsibility" and she won't even do that- she still carried the bottle of "B"

around under the bus even tho we have told her countless times not too- and leaves old "stuff" under the bus for week of so between meetings- and that smells so that other people notice it.

I feel she is extremely careless- I find bits of papers all over- (in her car etc.) and I think she would really like to see this work come down. I do not know how to deal with her particular brand of insanity- she has the intellectual capacity to grasp what we are doing- but it so self oriented that she is an obstacle- and possibly a dangerous traitor.

I feel so hostile to her- that if she ever did anything to hurt this work- I would kill her. I feel that her kind would deserve no mercy- as she knows exactly what she is doing. I don't think she is any more "crazy" than the rest of us.- its just her type of manipulation.

With the small amount of work she does and the hazards she creates- if we were to send her somewhere else- (the jungle????) we would not really miss her "contribution"/

I feel somewhat limited in how much I can personally deal with her because of other things... and I know everybody else is worried to confront her and she insists on acting so crazy and irrational.

I hate to even mention this to you- but I feel she is a very real source of potential treason- and she is not improving (or it doesn't seem to me) Too bad Mike can't fuck her etc. and get it over with- (too bad for mike but)...

I can really offer no suggestions- and the situation can go on as is - (it has been so for years- or atleast 1 yr.) so we can keep on pulling her along- (it does seem that she is increasing careless with her "stuff" tho-) KL sd. she used "fish" the last L.A. weekend- and it smelled distinctly so- and etc. etc. and so on.

Suggestion Re: C's dad & further
compromise:

The same plan as we suggested for K &
before that for Taylor. SB could try to set
up the situation with him for taping and
photos in a compromise setting.

If he could take that type of com-
on - he has never seen me. I don't feel
we should go the homo sexual route in light
of the circumstances. Sometimes these "do good"
preachers will "help" a "back slider" - (or
"dumb bitch") if the setting is right.

If he would not respond to
anything of the sort - then I would
pursue the plan. Otherwise I will
write down some more of my ideas on
the matter -

I would be glad to do any-
thing that is necessary to "tie up"
that loose end.

REPORT ON L.A. WORK AREA:

from sb

- ① I have a complete list of all the people in my stacks that we have anything at all on... and I have made the list to be given to HUGH FORTSON & RHONDA to see that "special letters" of invitation get sent to these people.

This list should be sent INDEPENDENTLY of any existing mailing that the L.A. people have already done.

We may not have alot on the people- but I figure if we have anything- it could be used at the end for alter call etc.- and atleast we will be getting some more people there and hopefully their \$\$\$ also.

The people who used to come- and don't anymore- I have been giving to PC to give special love to and a revelation. Then if they come- we can try to get an O/V or do a stop-by if necessary to get more info.

I will give you this list to give to RHONDA personally and maybe you can stress the importance of it- since obviously my influence on either Rhonda or Rosie B. is extremely limited (to say the least).

- ② Also- Maybe you could ask publically for a list of all people in L.A. who would like to move to S.F. when we have the available space- and then ask for the list to be given to you.

(then maybe I can see that stop-by's or O/V's get done on these particular people so we will have something on them when they move up.)

(But you will have to ask for it PERSONALLY- cause again they don't listen to my requests.)

- ③ If you would also ask for a CURRENT list of PASSPORTS from MAXINE- I need it- as I am pulling all the charts on the passport list to see that we have adequate info on the people who atleast PLAN on going to P.L.- Since- if we don't get enough info NOW- to maintain the D. of P. in the P.L. etc.- we will never get it.

I have also been making a push for PC to do INVITES with revs. to get people here- and KL/PJ do new peoples

V5 the week they stay down 4 stop bys on Fridays. welcome there.

Information (re: Bibles) (from SB)

Tonight got 7 boxes (50 rounds each) for .38's bibles (hollow-point for defense) and 20 boxes (50 rounds each) of .22's bibles

Both - without signing for them - which is incredible.

They also made financial error around \$15+ - in our favor.

Merry Xmas - !! from the system...

I will get more tomorrow (since I got this break tonight) and unless I hear otherwise - I will purchase some more for "my" husband's Xmas present.

We have - (from memory) - approx. #12-15 .22's hand-type & #17 or so .38's. I feel we should have at least 1 box (50 shots) per gun.

The .38's will be the most effective (the .22's are too light-weight). And I feel the other various assorted

BB-6-HHHHHH,

② ^{approx. 10-15} models (automatic etc.) will be of limited value. The .38's I will be ^{the} most important I feel (plus the rifles).

I will continue getting some periodically until I hear otherwise.

(Plus - there must be more boxes of .38 type that were taken from my room when I was in P.H. I had about 20 boxes & TB does not have that many.) Don't know where they might have ended up.

This is what I've gotten
extra from my job lately -
(mine goes all year round)

It is to be used in
any way needed for our
condemned child, Trish & Annie,
the house or whatever.

Please don't be "fussy" about
it Ms. Layton. Love - SB

Would you mind- if Grace is going to be in
PC- or if we are going to have anything to do with
the Bitch- could I please stay upstairs and work...

I have plenty to do- as Pj/PC and cml are staying
down this week.

I hate the bitch and feel especially not like kissing
her ass right now (and I know you don't either)- but
I would sure like to kill her-
I feel the same about her as I do Linda Swaney...

(Should we stop doing Invites until the Jackson
thing is over- or just invite them in Oc.t?)
