

This is my formal
request to be assigned
to take care of
Grace Stoen - in
light of my long-
standing emotional
involvement with her.
Due to the intensity
of the relationship -
I feel I must
stay with her til
the end !!

Dear Pastor,

I have to confess
what I have done on
my job as a Deputy
Probation Officer. I have
taken people's records and
altered forms and taken
people's money when they
have paid prostitution.

I also have stolen
from the secretaries purses
when they have left the
room for a moment.

I am really sorry -
I know you would not
approve of my actions.
Please ask God to
forgive me.

I have had sex
with Jim Jones at my
request. I thoroughly
enjoyed every minute
of it. It was against
his will. I was
desperate and begged
him to or I told
him I would kill
myself.

Jim Jones saved
my life by having
sex with me.

I am a Communist
terrorist. I have done
violent acts to destroy
people & property in the
past - In spite of my
Pastor's teachings that I
be a pacifist.

I have this compulsion
to destroy this system
by violent means.

(first - I used to masturbate by touching on the arm of a chair)
at about the age of six - homosexual activities
at school - in the bathroom

also - about 8 or 9 - with a neighbor ^{my sister} & also
me with my cousin - homosexual
at about the same time a little boy picked
at me -

now for the big stuff:

18 - heterosexual - Bob Timmerman - love

20 - Gary Ford - he was still a virgin at 22 -
it was a challenge

21 - one night stand - John something - I was drunk

22 - Ivan Luvador - my Italian lover

22 - Alvin Canfield - one of my professors - I
thought I was "Candy" rescuing "old" men

22 - my aunt's husband - ditto above - I was
way off base on these

23 - Steve somebody - some bastard I picked
up with - (masturbic time)

* 20 - 24 & up - Mickey Ingram - you see - I
got around even then - he was always my anchor

22 - Wesley Brown - my black panther I
taught about love - he taught me many other
things - this one was very rewarding

20 - Jim something - he was a crazy artist

in pretty June 1965 - 5

It's amazing how
Pastors love David's protective
guidance has kept me
alive all these years.
I have not kept his
teachings - I never meditate
before I drive for example
There are many things
I don't do that I should.
I have always had
a terrible death wish -
in many areas - especially
driving. I am so sorry - I
can't take this life any
longer -

To call SB at work -
968-4271 - make free call -
leave phone # off phone
booth SB can then return
call from work phone to
booth - (can't however - keep
calling church # as I have
to record all LD-C's & it
would be too noticeable)

Plan: from SB

If I am stuck in the Valley when things happen - I plan on doing what I can to infiltrate the Nazi party - and do what I can to kill as many as possible - right up to the top - to Bill Wilkerson in Denver, Co.

I also plan on getting some of our own traitors along the way -

This is my contingency plan - SB.

Meanwhile I will study what I can on these fuckers - I could possibly infiltrate the organization anyway - & would be very willing to -

I can only have an orgasm when I am
in the top position. I guess this is an
old story. In the days when I used to
masturbate by standing over the arm of a
chair I was very rarely have intercourse
unless it's a great occasion &
I had had a lot of trouble with various
yeast infections which intercourse worsens
also. The dreaded fear of pregnancy has
cut down on my enjoyment of sex when
I was taking birth control pills I enjoyed
it more.

I can't really think of particular
fantasies except when I have an orgasm
I feel like I am riding a wave & it
suddenly rushes over me. In order to have
one I have to think of what Mickey means
to me & how much I love him & I told
him as close as I can & I want to
please him but I am not usually a very
good sex partner - I can be if I want -
but it just doesn't interest me that much
- I am so I don't put too much on sex that
much intense I do. I guess it's to feed
my ego about how "desirable" I am etc.

BBB-BBBB, BBBB-188

I also fantasize about him being able to see
me in a mirror overhead
also of me doing exotic dances for him

Also, I like him to rub my breasts with some bice
2- One of the most dissatisfying things - usually
is Mickey wants to "eat" me all the time
that is - when we are not in the process of
making love - & nothing turns me off more than
to be held asleep & have him "pawing" at
me & it gives me all kinds of guilt feelings.
I have to squash him.

There are many "good" things about him -
he is gentle & he cares so much for me &
is always concerned - maybe most of all - I
know he really respects me & that's awfully
important.

3- I have not yet felt particularly hostile
toward my pastor - probably just because I
haven't been here all that long & if he
stopped I might feel really bad I guess
I'd been waiting for it.

4- I follow my pastor because I know he is
right & what he speaks is the truth. In
the beginning it was a fear about survival
and a "what will we do" attitude. Now I
know there is no other way to be "real" - to
have my life mean anything - sometimes I slip
back into a "I wish my life was my own"
attitude - but those patterns will be broken

BB-G-BBBBBBBB2

to hit home to me - like the hit can't be one -
I have no idea who Jim is or what power
flows through him - I'm completely baffled -
This is a time in my life when I'm emptying
itself of things - I have not yet begun to fill
with new - I have great anticipation &
a sense of trust and comfort in knowing
something very beautiful & good awaits.

6 - This ties in with the previous question - I
did believe in God - I used to - but I was
never really involved with ritual etc. I tried
it somewhat - even went to the high Episcopal
Church - but then left all that - for a personal
philosophy of "living my life as best I can" &
not worrying further - I have always thought
that that Jesus was a truly good man - but
couldn't fit all in to beyond this world -

I do believe & always have believed in
a universal life force - I do - I think it's
called & I believe all things to be part of
this universal flow - not dead - just parts of
everything - didn't think too much about evolving
and anything at first but I believe
all these things - who ever you are if
you must be reminded of the fact you're being
so concerned about the little people like Sandy

in time. This is not an easy way - but
for me there is no other way worth anything -
- but it seems I've been looking all my life for
something like this for people who really care
about each other & not just talk & with
no real leaders. But it would be false to say that Jim
is not somewhat of a father figure to me -
he is - I look up to him for love & guidance
& wisdom - like I would expect a child to
do to his father. I also would be lying
if I said there was no sexual aspect
involved - Jim is very appealing & represents
a source of strength and stability to me -
but I do not fantasize about him sexually
- rather than the strength of the circle of
this and sort of thing - when I have
dreamed about him - he has been as a source
of guidance & gives me courage - never sexually
- but I hope this brother - (Blowing up several)
was preparing to blow it up before I came
to this church - I called them 'pigs' &
still find it hard not to feel
- I just do not know about this
whole thing - being here is so new & baffling
& only slowly getting things are starting

My highest ambition is to die
usefully in an effort to destroy
Fascist America & our enemies
(particularly those that have gone
out.)

I have no use for any of
my so-called relatives. None of them
has any character or principle at all.
They are Fascist bigotted little
people - I hate them and all
they stand for - I would kill
them in a minute for their
insurance money.

I hate this Amerikkkan
Government and the pig-faced mother
fucker the president - that says he
leads it. I will do all I can
to see that it comes down. I will
not live in this country except to
work towards its destruction!

Believe these words - ~~and~~
they are written in truth -
