

Analysis of PC members:

- Judy Ijames: weak- will probably accomplish something - i.e. nursing- but everything she does will be as a result of being pushed by the office. Slave mentality// self righteous- lets others do the talking to that ass-hole- and he senses the weakness. I will try to spend some time talking with her but... I'm afraid she will have a long term dependancy on the office. Doesn't face herself.
- Norman Ijames: Ass-hole deluxe// will never change- only modify to suit our expectations- ie. Lee I. Hostile- infantile self examination. Prognosis: poor- will have to get him in an extremely controlled environment.
- Sandy Parks: Needs to be related to- slave mentality- limited ability at self examination- but very able to function in a structured routine. I'm spending some time with her- but am afraid it will take the ultimate to help her. Fairly stable and faithful I think.
- Joyce P.: Superficial- but I like her. Self motivated as to her own ambitions but in her areas- she is good.
- Dale P.: naive// purist appearing// limited self awareness- but I feel is faithful to the office basically.
- Ben B.: limited self awareness- and doesn't care to either- very intelligent- but doesn't use it- very dependant type- I feel he must be programmed but can be productive if sat on constantly- needs structure.. basically ok.- but has some sick inconsistencies in his personality I feel.
- Jim R.: very dependant// passive hostile type// always must deal with him- demanding. do not trust him very much. Must be treated carefully or explosive reaction- little self-awareness- and doesn't care to.
- Jackie: knows nothing about herself or most of what is going on- has checked out on us. very hostile I feel- and not in touch with any of her feelings. ~~maxs~~ don't know what will help her- she may function empirically until the times comes to do otherwise- then may not have sufficient grasp of theory.
- Eva: trust her with money- but wonder about her grasp of theory also- is clannish with those she esp. likes- still feel she is too capitalistic.
- Helen: basically like her- and trust all except that family oriented and pride part of her.- image is important with her too.-
- Lee I.: do not trust him at all- he must be constantly kept in check- very hostile and could get out of control ie. ego- hasn't changed much over the yrs. except as his wife has forced him- and then not much sinks in. No self awareness or denies all such knowledge-
- Mike P. : basically trust him and even like him somewhat- I feel he is probably a fairly decent person- gets pissy at times- with staff women in authority and pushy until relents. Feel he is loyal-
- Tim S.: basically trust him- but as with all men- must counter his deviations with the balance of a woman. Devoted to the cause and somewhat more aware of himself. Personally don't care for him tho.

BB-6-00000

Mike C. E of the ~~XXXXX~~ three men I trust mentioned above- I feel that I probably like him the best- tho it is probably because I haven't worked with him that much. I have seen him be ass-y but also he has humbled himself to the principle- but now as I think about it- it has seemed that he has done so not without much difficulty. I feel he is dedicated to the principle- but also that he is still chauvinistic. Actually as I think about it- I would put all 3 of them probably in the same catagory. And also as I think about it again- probably Mike P. is the least chauvinistic. I guess I was thinking more of years of service in the instance of Mike C.

Tish. : do not trust her// she is jealous/ petty woman/ of the old school. Don't feel she knows herself- or cares too/ Is condescending to all. Is also chauvinistic. Too white. Bourgeois intellectual.

Grace : I am beginning to think more of her butk.. still have a definite ways to go before I like her- appreciate the changes she has made- but cannot forget the price involved- and the knowledge she had all along and her selfishness.

Richard J: child-like// but basically I trust him- tho he is seemingly inconsistent in his discipline and principle first theory. Becomes too self- oriented. Condescending and chauvenistic.

Claire : whinney person// selfish// becomes flustered// do not trust her to keep her head on any desision making matters. Too dependent. weak person. no gumption.

Don B.- basically like him and trust him. Chauvenistic- and at times- respector of persons- ie.- he wouldn't talk to me the way he would to Bonnie, etc. (not because he related any better- just status) works hard.

Danny K.- do not trust him at all. child. selfish/ stunted emotionally- no hope at this time- only to programe and control him until. I did used to trust him in the working area- but not even that now.

Edie: basically like her- also stunted in social developement- sometimes very short and argumentative with others- comes off self righteous because of this. basically trust her devotion to cause.

Archie: no

Rosie: no

Beckie: careful there// weak areas- lots of needs- has shown charatter and worthiness.

Phyllis C; : do not trust her- she is too weak// crazy// I feel she plays games on herself and others- too smart to be doing this. dependant type- doesn't learn from her experiences. no hope this time around in terms of ultimate ammancipation and independance etc. selfish/ childish.

Bonnie: carefully trust her- feel she must be closely checked up on in the way you would a bright, lazy child. not in touch with herself- too smart to be playing such games.

Carol S.: trust her- but see her as dependant type. And unmotivated at times- slow. Good person tho- and very dedicated to the office.

Jim M.: do not trust him- sorry. I feel he is too repressed- too controlled for our own good. Passive hostile type.

Rick C.- : do not trust him- ego maniac as most of the men- goody-goody creepy type. ugh!

BarbC: do not trust her- they deserved each other- too ingrown

BB-6-00000 2

June C: basically like her- and would like to trust her- but not any independent decision making- she needs to become more aware of her hostility and other emotions and work with and around them. Too quiet. and passive.

Laura J.: opens mouth before thinking- but basically a good person. devoted to cause- but dependent, insecure type. spends too much time it seems on intellectualizing the revelation - as do most whites- and assessing their role in it. (all self involved to a bad extent) manipulating type- as a child would do. Irritating at times- but likable person.

Laurie E.: irritating a good deal of the time. Whinney woman- flighty at times. Too intellectually in a self oriented way. Basically trust her desire to work for the R.

Mert and Deana: do not trust either of them.

Tim Carter: do not trust him or even like him. I do feel he is sadistic- maybe not much more so than alot of others. Very chauvenistic- needs to suffer in a most definite way. Too white, too intellectual.

Tim C : do not know him- too repressed- too quiet- but he is new.

Steve A.: do not trust him basically- tho he has stuck in there- I think it has been with little awareness. I feel he is lost this time around and will follow thru to the end with programming.

Christine: one side of her is so likeable// the other so selfish and treasonous. Do not basically trust her because of this- tho I think she most definitely knows right from wrong and has a grasp of the therapy but too self-oriented// crazy- scitizophrenic- but seems to be that in a most controlling manner- manipulative-

Rheavianna : do not trust her to be a socialist- she is an ingrained capitalist and self interest seeker- too family oriented

Jack : goes without saying- no

Ava B: don't know her- too quiet- (therefor can't trust her)

Sus : trust her explicitly too this cause- and the office- but not to the people- in particular. she is a stable rock when the office is out of town- very capable- and has been more friendly since the last big trip everyone took to PL.

Sharon A: trust explicitly to stay and work in the cause-// her scatter-mindedness at times causes me concern. It seems to be almost thought pattern interruption.- (doesn't happen often- but does happen)

Sandy B: trust her very much to stay// too moody- melancholy etc.- lets her ~~xxx~~ feelings (irrations etc.) shown too much. Trust her dedication to the office// but she doesn't like the people very much. Basic hostility would be bad if ever let loose- genuine hatred for men- and the system that had the unmitigated gaul to produce such monsters.

Karen L: trust her to stay for good-// she is not the type of woman that I personally like- (too insipid emotionally at times etc.) but I respect her work and co-operation etc. Seems to be a good person.

Carolyn: I miss her very much// she is probably the person I felt the closest with in the work. (now MJ is close to talk to also) but I felt a definite affinity with Carolyn. Respect her very much. And enjoyed talking and planning with her. But I would not want her to have to come back to this mess- if she can be working in other ways- that I know would give her greater satisfaction. We can continue as is- don't feel any pressure that we need her here in this work- we can cont. as is-

BB-6-000003

Leona: respect her// haven't thought of her leaving- as much as checking out emotionally- (with her illness etc.) // trust her with \$ dept. and to her cuunsilling when she is into it. she has such hostility to white people- and in general- too repressed.

Jane M: was disappointed in her recent behavior- but I feel she is a dependant typer person- and not surprised. She is too white- (as I feel alot of people we have are)- and I think she has laziness too- she is kind of pitiful type. Needs definite support- (from women) to feel accepted.

Terry: trust her- but I have seen that frenzied side of her that worries me- when she is not extremely uptight- she is a rock// but I have seen her with that 'crazzness' and feel she needs to be in check- atleast with someone else helping with ultimate desicions// I have also thoggh she has been quick to make judgements on a decision in the past- and possibly had not thought it out well enough.

Wanda J.: don't trust her// but kind of feel sorry for her- her aging and abvious insecurities about her sexuality and individuality etc. are kind of sad/ but she is petty in her felating to women- but still I kind of like her- even tho she is a bitch.

Maureen: don't trust her at all// feels she defin ityle needs to be related to get under control- but she is so untrustworthy- I am not sure that is possible. She is a bitch- doesn't trust anyone I feel. too selfish and self assured- (I don't even think she is attractive- and she seems to feel she is so cursed with these good looks etc.) She is a smart bitch too. I worry about her.- If there is anything I can do there- I'd be glad to help if I can.

David: he is crazy- I think he should be sent away to the jungle maybe. We can surely find a person to replace him to oversee in L.A.- but he is definitely gone. Don't trust him at all - maybe hard work over there can burn it out of him..

Paul: needs to look at himself- feäl he has basic allegiance to office and the cause. But very young. and impulsive. Extremely chauvenistic.

Harold: goes without saying- don't trust him- or even like a marshmallow hair on his head.

DorothyW.: don't trust her// don't know where she is- her 'health' bothers her so muhh and she feels she can check out on us. Don't trust that.

JR. Purifoy: he is so chauvenistic- the type that I feel if we took too much from him- that would be the last we would see of him- (too much I mean in the way of image) he will only face himself piece-meal.

Betty: has improved in facing JR.// but dont' trust her yet- too soon- dependant type etc.

Alice: too quiet- dont trust that/ Too repressed- esp. in hostility to whites (and authority)

Terry C.: like her- basically trust her.

Vicky: basically trust her// but she is no good at decisions- must be strictly controlled.

Anita: don't trust her too much// she did pick Mike Keyley//

Maria: like her- and trust her to be with the cause (as long as she is alive)- am not sure how strong she is// so young and bastard father's influence.

Trisha: trust her emplicitly with the cause- but is very repressed- but

BB-6-000004

unless she really flipp out- she can maintain

Harriet: don't trust her// too intellectual etc.

Tom: don't trust him much// he left once- and he is basicäly is weak person- needs much control and programming.

Dick T.: don't trust him to decisions- an ego maniac// but don't feel he would 'consciously' hurt the cause.

Andy: insipid// weak// naive- but don't feel he either would 'consciously' hurt the cause.- knows nothing about himself.

Jean Brown: trust her emplicity for the cause// like her very much// seems like a good person.

Mary W: too quiet- don't know her too well// kind of like her and trust her dedication (tho I feel it is limited at this point)

Rita: don't trust her// she is too coniving and suspicious type- doubt that she really believes much about the work// weak, picky type pæson-dependent.

Phyllis H.: I guess has shown some character with Danny- I feel she may be somewhat of a problem- but feel there is not choice.

Kathy T.: basically trust her- she means well// but comes across self-righteous at times. Speaks before she ~~speaks~~ thinks and doesn't think things out very well.
