① What are 4 enemies of communism
① Revisionism ② Anarchism
③ Trotskyism ④ Social-Democracy
R means peaceful legal democratic gradual change.
② Prop. 13 cuts property taxes (which the rich pay - one of the few taxes that hits rich harder than poor.) Prop. 13 cuts all welfare, special education, everything that would help the poor. Younger nominated for Governor over Davis because Younger supported this shit.
③ Explain armed struggle & revisionist concept of terrorism. Tell what I think would be terrorist. Armed struggle - planned organized struggle with all weapons to overthrow capitalists. Capitalists & revisionists call it terrorism because they're scared. Real terrorism is Nazi, KKK & police tactics - random killing & shit.
④ Name 7 items on SB 1437:
no picketing, no passing out leaflets, no 5th amendment, no freedom of press (especially publishing govt secrets like Pentagon Papers and Watergate). no strikes, no abortions, jail on suspicion, conspiracy laws very sweeping & loose construction of all laws - & much more. POLICE STATE

EE-1-G-2

⑤ What African country has Cholera broken out? Zaire

⑥ What did Joshua Nkomo say to Carter? Carter could kiss his big black ass. He said it because Carter has been steady meddling in Zimbabwe, such as trying to get Cubans out & Carter medding in Zaire & rest of Africa.

⑦ How does SF, religion, occultism, mysticism oppress people? ① Gets peoples mind off real world so they can be pushed around & hardly notice it. ② Get people to feel helpless like their fate in somebody else's hands so they won't struggle. ③ Subliminal propaganda - hold up white males to be admired. Use "White" as meaning "good." ④ If people blame devil for all the trouble they won't blame capitalists.

⑧ How is Z like the US? Police encourage thugs to beat up demonstrators. Plots to kill liberal leaders and police coverup & protection to the murderers. Appearance of democracy but no reality of it. People scared to talk. Threats & bribes to witnesses, prosecutor. Killing witnesses. And the police state will come in USA soon enough.

Pauline Groot EE-1-G-3

(9) Why didn't police help deputy in 2? They were part of the plot to kill him.

(10) Robert Mugabe & Joshua Nkomo are leaders of Patriotic Front trying to liberate Zimbabwe (the whites call it Rhodesia).

(11) Why did Carter stop SALT? Excuse was Russia in Africa, stirring up trouble. Probable real reason was Carter under pressure by Military-Industrial Complex to hold arms race, also shoring up his popularity with this cold war stuff.

(12) Explain @ Camphochia vs Vietnam. Camphochia making trouble for Vietnam over border. Vietnam wanted fair settlement, wanted federation of Vietnam + Cambodia + Laos. Camphochia paranoid about that federation - thinks Vietnam trying to take over. Khmer people in Camphochia are also racist.

(13) Tell about Chilean ship. It's the Esmerelda, used as torture ship - concentration camp. Women were raped to death, about 1000 raped, many thrown off. That bastard Moscone had nerve to welcome it!

EE-1-G-3

(14) Explain what Carter demanded of USSR. Wanted USSR out of Africa & USSR to get Cuba out of Africa. & Wanted USSR to give up laser satellite (misnamed killer satellite.) Dumbass demands - should've known USSR wouldn't do any of it.

(15) What country threatening to withdraw from NATO & why? Turkey, because US had arms embargo against Turkey, & USSR offered weapons!

(16) Who's threatening to go to war with Russia? China made threats, Carter made threats

(17) What should you do if arrested by police? Say nothing, sign nothing, ask charges, say you want to phone lawyer, called People's Temple & tell all about it.

(18) Name a black leader in the US who's a revisionist - why? Martin Luther King for one - believed in peaceful change. Shirley Chisolm, same reason. Huey Newton thought system could change and had changed. That asshole with his "Do your do" and "Say your say" would be a revisionist leader if he was a leader.

Sadat - Egypt
Begin - Israel
Castro - Cuba
Ian Smith - Zimbabwe (Rhodesia)
Vorster - South Africa
Brezhnev - USSR (Soviet Union)

(20) What magazine was being read in beginning of Z?
I don't know.

(21) Z stands for "He is alive."

(22) Johnny Harris - prisoner who took part in protest about prison conditions. A guard shot another at the protest. Johnny was tried and convicted of murder on excuse ~~that~~ protest caused death of guard. Smuggled out - letter describing horrible conditions on death row. Filthy food, no letters or visits from family, no toilet paper, no news or library, letters from lawyer

(23) ~~Joann~~ Little read and often destroyed outside prisoner's presence, water cut off, no way to clean cell, guards humiliate beat rape torture prisoners, guards racist, etc.

(23) Joann Little - black woman who killed white Jailor who was

trying to rape her - escaped jail and her boyfriend turned her in - now in jail and about to be shipped back to North Carolina where she will probably be killed.

TO: DAD
FROM: TOM GRUBBS
SUBJECT: SCHOOL RESPONSIBILITIES AND SILENT WEAPONS TRAINING PRIORITY.

IN VIEW OF THE RECENT PRIORITY STATED BY YOU FOR TRAINING OF SILENT WEAPONS, IT WILL BE NECESSARY FOR ME TO ALLOT A TIME DURING THE DAY IN ORDER TO GET THIS ACCOMPLISHED, HOWEVER, IT WILL MEAN THAT I WILL HAVE TO BE ABSENT FROM TEACHERS MEETING (ELEMENTARY SCHOOL) FROM 5:00 - 6:00 AND SOMETIMES 6:30 OR 6:45 P.M. I WILL SPEAK TO PAT GRUNNET TODAY TO INQUIRE AS TO THE POSSIBILITY OF HER REARRANGING HER SUPERVISION OF CHILDREN AT THE COTTAGE IN ORDER THAT SHE MIGHT TAKE OVER THE LEADERSHIP IN TEACHERS MEETING, EXCEPT FOR TUESDAYS AND SATURDAYS WHICH ARE PEOPLE'S RALLY NIGHTS AND THE STUDENTS WHO ARE RECOMMENDED FOR LEARNING CREW ARE DISCUSSED ON THOSE NIGHTS. IT IS THE GENERAL OPINION OF THE TEACHERS THAT MY PRESENCE IS GREATLY NEEDED IN TEACHERS MEETING, HOWEVER, WE ALSO REALIZE THE PRIORITY OF PROPER TRAINING FOR SILENT WEAPONS FOR SECURITY PURPOSES.

OTHER RELATED INFORMATION:

I HOPE THAT KEN NORTON IS DESIGNATED TO PURCHASE THE NEW ARCHERY EQUIPMENT. FURTHER, KEN IS ALSO AN ARCHER, HAS ALSO TAUGHT ARCHERY AS AN OCCUPATION AND HAS SHOT TOURNAMENT AND HUNTED. He ALSO HAS EXPERIENCE WITH BLOW GUN AND SLINGSHOT THOUGH NOT CROSS BOW.

IT IS MY BELIEF THAT HE WOULD BE A REAL ASSET TO THE TRAINING OF THE SILENT WEAPONS TEAM. HOWEVER, KEN HAS A PASSPORT PROBLEM. HE STOLE THOUSANDS OF DOLLARS WORTH OF SUPPLIES FROM THE USN (U.S. NAVY). THEY HAVE NO STATUTE OF LIMITATIONS AND HE BELIEVES THEY HAVE BEEN TRYING TO FIND HIM. FOR THIS REASON, HE HAS NOTHING REGISTERED IN HIS NAME AND HAS NO DRIVER'S LICENSE. HE IS WARRY OF TRYING TO GET A PASSPORT THINKING THAT WOULD BE ONE WAY HE COULD BE LOCATED.

MY STATEMENT:

I ENJOY ARCHERY, ENJOY TEACHING IT, BELIEVE WE CAN TRAIN A "CRACKSHOT" TEAM FOR SECURITY, HUNTING AND AS A COMPETITIVE SPORT PERHAPS. BESIDES TOURNAMENT ARCHERY, I HAVE DONE TRICK ARCHERY. BOTH KEN AND I HAVE BEEN FILMED SEVERAL TIMES DOING TRICK ARCHERY. AT SOME FUTURE DATE, AN EXHIBITION MAY SERVE OUR PURPOSES.

OF COURSE, MEAT ON THE TABLE IS THE MOST IMMEDIATE AND PRATICAL CONSIDERATION, IF I COULD ARRANGE PRACTICE SESSIONS FROM 5:00 - 6:00 NIGHTLY AND HUNT FROM 6:00 TIL DARK ALONG THE WINDROWS AND TRAILS I BELIEVE WE COULD BRING IN GAME. PERHAPS SUNDAY COULD BE ALLOCATED TO HUNTING OR BOW FISHING FOR THE FULL DAY AND FURTHER FROM OUR CLEARING.

WE CAN BEGIN CROSS BOW TRAINING AS SOON AS WE CAN BUILD A TARGET MATT PACKED DENSE ENOUGH TO STOP THE CROSS BOW BOLTS. WE WILL BEGIN WORKING ON IT TOMORROW, TUESLAY,

Jim Jones from Pauline Groot

Nothing like a crisis to make me face things. In this case, it's the fact that my so-called "dad" makes atomic bombs for a living. All my honky "relatives" are directly useful to the fascist conspiracy. I'm an accomplice to atomic bombs. I've dodged facing that guilt for years - now it's getting home.

I also feel guilty in the opposite direction - if I weren't Socialist, none of my honky "relatives" would be in any danger of concentration camps. Because of me, they may be in camps yet. I don't know how great the risk is. I don't love them, but they did condition me to feel guilt over harming them. I worry sometimes.

The only protection for my honky "relatives" is for me to denounce them over the microphone, and hope the CIA knows which side they're on. For maximum effect I should change my name, too. If you want to teach the audience about the danger, I will ~~cheerfu~~ be glad to answer questions about scientists. I want to convince people (if anybody will listen) that those motherfuckers actually will push that button to start nuclear war. Is this OK? Please answer.

(OVER)

EE-1-6-30

(continued from other side)

I also find that I need to change several of my own patterns. For instance, I often think people are hostile and trying to put me down, and get defensive, resentful and hostile. Back there this made sense but here it's counter-productive, paranoid, and interferes with me making friends. I hate and fear situations where I don't know what's going on, even if my instructors are gentle and kind. I resist either by passive withdrawal and sleepiness, or active loud mouthing, questions, delays and tactics to get attention.

I have a lot of trouble with the idea of People's Temple committing group suicide to help the cause of international socialism, or to avoid fighting the Guyanese. The idea itself bothers me, and so does the fact that you gave it such serious consideration. I guess it want your loyalty to be a personal loyalty to People's Temple, more than a commitment to Socialism. Maybe I won't that because that's where I'm at. I'm not sure. It bothers me - I should have asked in the last people's rally. I chickened out. Can this be discussed?

EE-1-G-31

Jim Jones from Pauline Groot

Im nervous about Tom Partak-his patterns are a lot like mine and what happens to him could happen to me. Or if you don't understand his patterns, you won't understand mine when I need you. The biggest difference between us is that I write myself up. Also that I truly believe in the viciousness of the CIA, I'd rather face death here than go back there.

Anyway, I think you're barking up the wrong tree. You assume that he's isolated because he feels "better" than us niggers, you look for the prejudice and you resent his attitude. I don't believe that's where his head is at. I think that in his confusion, he thinks us niggers feel we're "better" than he is. Most of his actions and confusion are direct results of this idea.

You probably don't think it's possible that anybody could even think such an idea. I'll try to explain.

In many European nations, children are not supposed to speak until spoken to. If the adult does not speak, the child must not speak. For the younger person to speak first is considered an intrusion and an insult. I think Partak's dad demanded that.

In most black cultures, the younger person is supposed to speak first. Among blacks, not speaking is the insult and speaking first is the sign of respect.

The result is that when he's trying hardest to be respectful, it comes across insulting. So he's resented by the seniors and doesn't know why. So he probably figures, 'Well, "these people" don't like me and never will, there's no way he'd feel like part of the family in that situation.

You don't believe it can happen? Jim, I was in that pattern; it took me 3 years to figure out what was wrong and retrain myself to say "Hello" without being afraid to an senior. And I like seniors, too.

With the young people there is another pattern, but the same results. The problem is over "sapping on."

In many European cultures, including my own Dutch pattern, this is considered extremely insulting. The belief is that whoever caps is acting like he's better than the one being capped on, and that any

form of capping is insult, mockery, ridicule and put-down, and should not be tolerated by anybody with any self-respect. Many of our young people here feel that capping is normal friendly conversation and that anybody who doesn't like it is some sort of "superior" prick, or just doesn't want to talk to them at all. So in this clash of cultures, both sides feel rejected, scorned, and hurt.

To repeat my main point, Tom believes us niggers feel we're better than he is. He thinks we aren't even speaking to him. And we aren't.

I watched this on cassava crew. People gave him orders every day: Hoe here, pitchfork there, stop picking at your athlete's foot you filthy motherfucker, and so on. Danny Moton talks to him, but Danny's assigned to guard him. Aside from that, you know how much friendly human conversation he gets in an average day? NONE - not even "hello." I may be exaggerating, I get emotional on this subject because I've been in that situation and it nearly destroyed me, but that's the pattern I saw. It upsets me.

I told Penny. She said he isolates himself. I didn't fully believe it but it was possible. We agreed I should talk to him on breaks and try to bring him out of it. You know what happened? In 3 days I was hearing jokes about "Pauline Partak." They weren't funny jokes, either, they were real putdowns. A couple days later Joyce accused me of sucking up to Tom. I denied it angrily, Joyce repeated the accusation and I yelled "Fuck you!" Joyce said I'd be on learning crew for that, because in Rob's absence she was acting crew supervisor and I had yelled "Fuck you!" at a crew supervisor. I shut up but I was still mad.

So from Tom's point of view, not only would the cassava crew wasn't speaking to him, they'd ridicule anyone else who did and try to prevent any friendship or even conversation.

Then when he tries to tell you he feels isolated, you get mad at him and assume that he feels superior. If even you don't understand what hope has he got?

Please don't believe People's Temple never rejects anybody. Us niggers aren't that perfect yet.

I don't think cassava crew meant anything serious in their teasing about "Pauline Partek", and I don't think they really intended to reject or isolate Tom, I think they don't know what they're doing to him. But the results are just as bad as if they knew.

Tuesday the arguement with Joyce, and Tuesday night he was talking about going home; Wednesday a break in the pattern, 5 minutes friendly, human conversation with Odell. Wednesday night he was talking about being willing to stay and die with us. The correlation is exact.

If you once believe that he feels we are rejecting him, that we aren't speaking to him, all his other actions make a single consistent pattern. For instance, moving to the piggery, wanting to leave, trying to commit suicide; the situation is so bad, if I were in it, I'd be desperate for any way out. The bad attitude and feeling of being separate from "these people" is normal for that situation. The voices in the head are something that happens to people who are too isolated, too long; the cure is enough real people talking to him in the real world. The wish for his mama, well, she may not have loved him but I bet she spoke to him. The work pattern, well, if people only spoke to me to give me orders, my attitude would be "Fuck you and your cassava too!" His resistance is passive, he's outnumbered and surrounded. And the mental confusion, well, if you act loving to him in some ways and then get mad every time he speaks of isolation, desperation, and loneliness which to him is his heart's core - well, it would certainly confuse me. In fact, when I was in the same situation, it confused me a great deal. You acted so kind in some ways and so cruel other ways I guess you just didn't know where my head was at.

I don't see Tom as racist or arrogant. He is isolated, he insulates himself with pride from the worst of the pain. He doesn't love us but he doesn't believe we love him either in his mind. Probably

EE-1-6-34

thinks that what he is doing to us is exactly what we're doing to him.

Why doesn't he leave and stay gone? Because all his life he's been treated the same way, he hasn't anything better than rejection and isolation, ~~[illegible]~~ nowhere in the world and maybe never in his life. If you don't believe that, you don't know the middle-class mind, ~~[illegible]~~. If they don't have any niggers to pick on, they don't suddenly turn loving and kind; they go after Jews and foreigners. And Tom was a foreigner's child. He took the hate that a nigger would have taken if any niggers had been there. He's unloving because he's never felt loved or accepted in his life (except maybe by his mama - that's her hold on him.) His indifference is the apathy of despair - he's given up hope of ever having friends; he no longer even tries. There's enough pain and enough niggerization in that consciousness, that you could reach him through his loneliness.

If I had your authority, I'd appoint people to show warmth and kindness to him; people with black skins, outgoing personalities and good hearts. Russell Moton, Henry Mercer, Helen Snell come to my mind as examples. Odell would be good if he understood the problem. I'd pick a couple of dozen; both to give Tom more friends, and to lighten the load on each friend. I'd let Tom talk about his isolation without getting mad, I'd tell the audience to not get mad because he's being honest. I'd draw him out and try to let the audience see where his head is actually at. (He draws quite easily if I use a very gentle tone of voice - he's quite sensitive to tones of voice.) I'd also either instruct Cassara crew to talk to him kindly and gently without capping, or move him to another crew that didn't cap so much, and instruct that crew to go out of their way to show warmth. I'd move Danny Moton with him; Danny's a responsible guard and has shown more kindness to him than most people would show.

It's a low plane of consciousness that I'm writing from, feeling emotionally "with" a classic enemy. One's hating has been accepted on a visceral level. That's probably the difference between it and thinking about it.

Very Personal from Rob Gray (1)

To Dad

My feelings towards death have changed since being in Jamestown. Before I got here I would have said death for any reason would be welcomed. Now for the first time in my life I feel like life has meaning because I think that the work I am doing with benefit someone sometime. I don't feel afraid of death and when I drank that potion during the white night I was disappointed when I learned it was not real. My feeling now is that if possible I should stay alive as long as I can work towards communism. If I can better support world communism by dying then that is the course I should like to take and would take proudly. I don't feel like death is that since would be a cowardly way out.

I am afraid of the dark at night. There is something about not knowing what is going that frightens me. If I knew what's ahead I can prepare myself and then not be afraid.

I sometimes think that when a strategy is planned ahead of

EE-1-C-41

time it becomes easier for someone to leak information and then cause the plan to fail. In dealing with the enemy I think to face them head on and to do in as many as possible is the best way. I want those fuckers that were once a part of me to know exactly who is killing them. I would like to face Cobb or Cartmell or Stoen or any one of the Bastards face to face and let them see me pull the trigger on their asses. I could assure that the only way I could be stopped by any mother-fucker would be to kill me. I would force them to kill me so they couldn't take me to jail where I could be tortured and possibly put this cause in jipardy. I feel like I couldn't talk but I must be realistic in that I have never been tortured and can not really be aware of my reaction. If any thing happened to you Dad my first reaction would be to take revenge. I feel if it was the consensus of the body to continue the operation here

I could stay on the job and continue as now. My belief in this project is strong enough that I could carry on your work. I would however want to know that if I didn't personally get chosen to avenge your death that someone else was doing it or else I would take it upon myself to avenge your death.

I am prepared to kill Shirley or Juan or Reinaldo were they to become traitorous. I have known for a long time that in guerilla warfare it might become necessary to kill some one close to you, (myself) if they were to put the entire groups lives in jeopardy. I have prepared myself for that. I am not so loving that I cannot kill.

I can think of nothing that I miss so much from the states that I would want to give up the communist life to get it.

Sexually I consider myself able to go either way. I have had my share of homosexual relationships but they seem more superficial than

heterosexual relationships. In one a homosexual relationship has only one purpose and that is for sex acts. At one point in my life that would have been sufficient but not anymore. I want to learn to be able to care about someone and feel too much guilt when I'm involved in a homosexual relationship to really put my mind and heart into it. But I want to stress that for quiet sex it's immaterial which way I go.

On occasion I have carried a gun to work. I don't like being young and white and carrying a gun when the other two workers are black seniors here. Having a white night I would rather be in the pavillion with the family so I know what's happining than to be out some where with a gun. I don't feel so dicisive of guns. I feel competant with a gun because I don't get my nuts by carrying one.

The amount of news I hear you give readers every

minimal. I am in so many meetings that when I come in for dinner and shower I'm rushing like hell to get somewhere. The only way I can absorb the news is to sit down somewhere and concentrate only on what you're saying. It is discouraging to me the condition of my memory. I don't know if it's from past drug use or what but it seems like my memory is extremely poor.

I do remember about Bangla Desh. It gives me hope for this country when you tell us about another small country that has had a successful overthrow to socialism. One of the things that brought me into this cause was a talk you gave about Cuba and the advancements Castro had made in such a short time.

I remember the mine workers strike and most workers going back to work without getting any demands met. Which goes to show how the labor unions no longer support the workers but they are, like George Meany, extensions of the capitalist business owners. Also a CIA representative.

Russia and China has been
clashing over Mongolia. Russia
says China has gone imperialist.
I remember also about Japan
and West Germany to repair
& help the capitalist United States
out of this economic crisis by
stimulating there own economies
by 5%.

To me socialism means
freedom for Jason. The unloading
of the burden from my own
shoulders of trying to make
ends meet in America has
meant a great deal to me.
I know I never would have
taken the proper responsibility
for Jason back there. In the
society like we have here socialism
means to me that all of my
basic needs are met so that I
can work to built socialism
and liberation on a much
larger scale. World wide, hopefully.
I would have great satisfaction
knowing that I help to bring
freedom and justice to a world
that is so badly lacking.

When I say freedom for Jason
I mean all children. I use Jason

to fall back on when I get bogged down. I can say I'm living and working like this to benefit Jason or Hayley or Ronald or whomever. Sometimes I have to bring it down to a personal level. I think generally though I'm concerned with the entire collective.

With the people left back in the States I feel the major threat is that they might, out of frustration get caught up in that shit. I know my own problem were drugs and alcohol. At least when I was there we didn't feel the danger was so close at hand. I sometimes wonder if the folks there now feel it because I know when they get here they're all way over weight like most of the recent arrivals anyway haven't been working too awful hard. I feel there is more danger back there whether our people know it or not. Accidents can be staged too easily back there.

Here at least if the shit gets too bad. We can retaliate, we've got arms if necessary or we can do revolutionary suicide or something. Back in the states we

had no recourse for actions like the murder of Comrade Chris. Unless if we just go back and raise hell with the mother fuckers.

I feel like we are not in any real danger from with out. We are too sticky for the States and I feel we are too beneficial to Guyana.

Dad you asked me to write out some other things concerning first Shirley Hicks and then Jon Jelly.

First off about Shirley. I said to you and Johnny I wondered why Jon was trying so hard to get to go to Georgetown. I said that I had questioned it to Shirley and Johnny made the point that Shirley was one of the people pressing hardest to get him to go.

He said the original plan was for him to go so they could have their normal S.F. Teams. Shirley, Ron, Patsy, Clifford That was going to fit right in with using him for the comedy

scenes in the program. She said as soon as Jack told her that Ron was not to leave Jonestown and that as far as he was to know the comedy was going to be cancelled, then she dropped it. She said that I approached her and said what I did about questioning Rons motives after Jack had talked to her and she was not pursuing it after that. She said her motivation behind taking him was to go as a S.A.T. security force.

You asked me Evie does Ron Talley relate to, or care for. He is involved in no romance and says he's not interested. Says by the end of the day he hasn't got any time or energy for anything but to eat and sleep.

I said that I can always think of someone that I do this work for and I wondered how he keeps going when he sometimes is down and out. He said he loves the toddlers and the toddler program. I said that there was a whole lot of children like Jason that really needed more personal attention than they get. However I feel now by

taking Jason to work with me he gets more attention than most. He wouldn't give me any one person that he relates to in a special way.

About the situation with Chris and his (Ford) car. Apparently, as he said that he didn't know all the details about Chris being involved with a shoot-out with police in his car. He said he didn't think that situation was ever resolved. About not being able to go back when I mentioned that no where else would he be safe from arrest since Jim Stoen is stirring the shit up again he seemed mostly indifferent. He did say they'd have to kill him before they'd ever arrest him. He said however he'd already resigned himself to knowing that he could never go back.

The other question you asked me about Rob was any negative comments that he'd made. The first thing that comes to mind is a comment he made about Tish and the paperwork she requires or coordinates for us to turn in

He said the print shop had to be shut down on account of her paperwork and forms. I felt he was trying to get me dissatisfied with the structure I come under.

Another comment was on the breakdown of S.A.T. He said that when people found out that SAT month meant no more than ushering and tearing down the partition after meetings that many people wanted out. He said there is no S.A.T. no more.

He commented that somehow no matter how he gets in the dinner line when we have chicken he always manages to ~~to~~ get a small piece.

He said he felt he might be watched after being probed in the first security meeting. And followed.

He also grumble something to me on the short not being able to go anywhere. We told him you said after these crisises there won't be not needed for security he could maybe go to the ridge with me. He grumbled and said the white nights will never cease.

He told me that he hates to organize his life. He was talking about

organizing my time here for the most efficeancy and he made the before mentioned response. Don talking about my time at chickery.

Dad, I think that I need to look at myself and answer the question about why would I like someone that is so negative and even almost to the point of being subversive to this movement with his pattern of sexing division.

I never really looked that deeply at him and totaled all the negative shit prior to this time. Its true that just the way he fucked Renée while I was working out of town should have been enough for me to see what a deviate person he is.

You have put me in a position of a lot of responsibility. Its been hard for me at times to accept that I have straightened up. I have never learned to get along completely on my own, though I think that after probing myself like this it'll be easier.

I've always kept a few negative persons around just to

To reinforce ~~his~~ my own shit.
Ron was not always in trouble
so it was easy to overlook his
subtle undermining. I really
think that these security meetings can
motivate me into standing up
for communism tall and strong.
And alone if necessary.

Thank you Dad

Rob Gray

Dad I'm sorry there is so much for
you to read but the questions were so
involved I don't know any other way
to answer them.

Thank you Dad

Re: A Past Revelation

While in the Navy I attended Damage Control School -- A course to teach shipman how to control or minimize ship structural Damage prevent or control flooding caused by punctured or collapsed bulkheads, or broken water mains.

The course included training in ingenuity to use all available resources while thousands of gallons of water was rushing through walls and hatches.

That course and others I had in the Navy involved fire fighting methods appropriate for class A, B, C fire types, use of straight stream, spray, mist or fog and foam, as well as chemical fire fighting agents.

You had revelation about this about 5 years ago and told me to remind you of this as it would one day be important.

As we are getting a ship, this may be the timing that is important either to train our own crew in Damage Control techniques or for me to be a seaman on the ship for a while.

I would believe we should at least stock the ship with a supply of materials needed in emergencies and teach a crew how to use them.

WHY I VOTED AGAINST JAIR GOING ON LEARNING CREW. from: Jane Curnutt

(1) YOU MADE SOME REFERENCE TO ~~THE~~ PEOPLE COMING LATE TO RALLY. IF THEY ~~COME LATE~~ DO IT ONCE MORE TIME, LEARNING CREW. SO WHEN JAIR CAME UP, I THOUGHT HE WOULD BE GIVEN ONE MORE CHANCE. CLEARLY, I WAS TRYING TO ANTICIPATE YOU AND THAT IS VERY PRESUMPTUOUS ON MY PART. JAIR WILL NEVER EVER MAKE IT WITHOUT TIGHT STRUCTURE. ~~MY VOTED~~ MY VOTING AGAINST IT SHOWS A LACK OF CONCERN FOR MY COMRADE AND A DANGEROUSLY PERMISSIVE ATTITUDE.

(5) JAIR HAS IMPROVED IN SCHOOL RECENTLY. HE NOW COMES TO ASKING FOR PAPER TO WRITE STORIES ON. HE IS STILL UNREALISTIC ABOUT HIS CAPABILITIES BUT HE IS TRYING.

EE-1-6-47

FOR THIS REASON I THOUGHT IN TERMS OF PERMISSIVELESS INSTEAD OF STRUCTURE. I THOUGHT IN TERMS OF BOURGEOIS INDULGENCE AND NOT PROLETARIAT DISCIPLINE.

I HAVE NOT OVERCOME CLASS. IT STILL SHOWS. WHEN PEOPLE TELL ME I HAVE REALLY CHANGED SINCE I'VE BEEN HERE, I THINK NO, I HAVE JUST ADAPTED TO A NEW ENVIRONMENT.

THIS WAS ~~THE~~ SHOWN TO ME. IF I HAD REALLY CHANGED AS MUCH AS SOME GIVE ME CREDIT FOR, I COULDN'T HAVE ACCUSED PERMISSIVE NESS IN TAKE THE PLACE OF DISCIPLINE.

Father,

I feel like I'm about ready to give up on sexual relationships. Obviously I can not hold any kind of thing together based on sex. I've tried male and female relationships. I got very involved with Mike Kelley.

I still like the companionship that goes along with a relationship its just that I know sexualy I ain't shit.

I was in a cottage with Chuck Kirkendall for about a month and a half and became quite attracted to him.

I for companionship and I suppose mothering too, I am attracted to Shirley. We had sex once and certainly there were no singing

bells or flashing lights.

I have been in the middle of so many fucked up settings caused by sex I'm pretty much disallusioned by sex.

Lately I guess I been getting my rocks off by working.

I'm insecure so I guess that's why I like Shirley Hicks when she's nearly ten years older than me.

I can't think of the words to say that would thank you enough for the feelings I thank you for making it part of Emmett's dream come true today. He talked a lot about having corn & horses grown here.

Also Dad he often spoke of planting different types of food in the earth year in and year out for example one year corn then the next year maybe greens in the place where the corn was planted before I think he called it rotating plants. He also said never remove vines from the soil but to turn them under to help support the top soil.

Dad thank you for this home for all of us and I'm so sorry for the way my sons are acting back there in the State.

Re: Behavior Modification

Regarding the physical facility needed for the Value Substitution program.

It should not be too large, rather 7'-8' long, 4'-5' wide, 5'-6' ft high.

It should be dark, light-tight, have very good ventilation, and be located as far from extranious sound or be sound proof. (could be built from a large shipping crate)

The unit should include ~~include~~ a ~~Soft~~ matress (~~preferable~~).

The theme idea is to deprive <u>all sensation</u> as much as possible.

Monitor's Time.

For the first 2 days the monitor needs to keep a check every 3 hrs. on the subject, but no communication. 3rd day the monitor should ~~be~~ keep close check on the subject – hourly to constant but no communication.

By the end of the 3rd day (usually) the second phase is initiated. Short communications disparage all selfish, capitalistic behavior characteristics <u>specifically</u>. Communications should be 10-30 seconds long and not more often than once an hour. Statements need to be carefully thought out

for clearity, brevity emotional and intellectual impact. At this time the monitor does not engage in 2-way conversation at all!

Beginning about 30 hours after the onset of hallucinations, the substitution phase is initiated and with it the first 2-way communication. Exchanges are brief and about once an hour at first becomming more freguent and slightly longer an duration as the program proceeds. but dependent on the progress of the subject.

This is a very heavy responsibility and reguires much intense thought and analysis in the later stages. It is best done by one person though 2 persons may work as well. Much intense time Needed by monitor the last 3 days and Nites

My studies never mentioned any of the subjects as going insane, but that they did pass through disorientation and re-orientation and that it ~~took~~ took nearly a week to appear "normal" after the experience.

I recognize the imparative for success as a failure that escaped back to capitolism could cause considerable difficulty.

In order for me to monitor such a program I should be suspended from other responsibilities for the last 3 days at least. careful ~~note~~ observations, notes and analysis should make important contributions to future programs and aberrent behavior study and rehabilitation programs.

I am sorry that last evening I raised my hand to vote not to send Jair Baker to Learning crew. However, I am more sorry that I earned disaproval and a rebuke.

I deliberated on the choice picking up in why your projection that it was not just an ordinary question. However, you had given him ~~Cr~~ clemency with the warning that if you heard one more ~~to~~ negative report you would send him. I interpreted this to mean if he acted badly again he would be sent. I believed the last charge read to refer to a behavior that occurred before you gave him clemency, ~~there fore~~, ~~there fore~~ chose to "believe" you had stated clemency for that behavior also.

I noted your tone and dropped my hand. Then recalled the discussion of Jair's improved work performance in school & raised my hand again. From High school teachers' meeting

By this time your manner caused me to believe I was making a mistake. I started to drop my hand again when you admonished us to hold them high enough to be clearly seen.

Behind my words – motives

I have for a long time been aprehensive about dicipline ~~to~~ and how it would affect me, – selfish cover my ass. This motive is less applicable now that I coordinate the teachers meeting which recommends students to that type of dicipline.

In fact, many times I have wanted to get on learning crew for a few days so I could follow directions and escape for a while from decission making, and supervising and coordinating.

Generally, however, the motive to give leniency hoping to "get leniency is in my mind, particularly when verbal or physical violence is used or threatened.

Generally — I sometimes am confused on how to respond. In the situation do you want to see how well we have been listening to what you have said, How is our sense of Justice, should I be supportive of the diciplineary firm line at all times.

I do see the principle that you must be the loving one and must have the opportunity to appear the most loving and caring one as you are the only loving one and must assume the stern role so much.

Further, I recognize the firmness, authoritarian Manner as a necessary means in the process to substantially change physical, mental/moral/social conditions so that each will be more in tune to the needs of all humanity and caring will become the norm rather than the singular exception.

I ~~am~~ will be supportive of the more demanding choice and allow you to show what needs to be shown in each situation.

To get Tim Stoen, I suggest we pretend he used a racial slur on one of our congregation. That would give us a way to be suing him; I'm cheerfully ready to commit perjury to get him.

I'm prepared to do considerable for our defense; for instance, a crazy-nigger act stark naked in government chambers (my figure is pretty good though I usually dress to hide it). Or lay down on the road, and if the enemy take me alive, our people

EE-1-6-55

have my permission to shoot to kill - whether I survive or not. If necessary, tell the people I had a terminal illness which you couldn't reach because of my hostility.

I'm still scared of pain - shouldn't be, but I am - I avoid slow painful ways of dying. I don't mind a quick death, knowing what I'm dying for - don't mind it at all.

Has Tim Stoen committed any actionable libel, slander or perjury? He's sure said enough about us. EE-1-6-56

Dad,

In the event of crisis (BATTLE) I would like to take the life of Jason before I saw him taken by the enemy. I would do all I could first to defend the collective but I would like him near enough that I could ~~finish~~ end his life if it came down to the last minute.

I feel that this life is all there is that might make up for being brought into this world. It was selfish on my part that he is even alive. ~~[illegible]~~. I would hate to think that all he had ahead of him was to live the life of a facist if captured and de-programmed, also they might torture and kill him anyway. I would be some kind of asshole to make him pay for my indulgence. After I took his life then the enemy would have to kill me because I would

[redacted]

be one crazy nigger and they wouldn't take me alive.

If I never saw another minute of this life I have seen more than I deserve, because I have seen communism work.

I feel if Jasons life ended now he would die a young communist and that would be far better than letting him grow up in the hands of the enemy to become a fascist.

I thank you Dad for all you have given me.

[redacted]

Dear Jim Jones, from Pauline Groot

My feelings toward you now are strange- fear, hostility, respect, gratitude & liking all mixed up together. Very unreliable. Some sexual feeling too.

Source of hostility - when I was young I got in a bad cycle - didn't make friends, didn't get any practice making friends, didn't know how to make friends, didn't make friends, etc. Other children didn't want to associate with me - maybe they were afraid the unpopularity would rub off on them. People usually didn't speak to me, even to say "Hello," except of course the class bullies found me an easy target. I thought it was normal for people not to speak. I was lonely, though - painfully lonely. I took refuge in pride and intellectual activity - the closest to real work I knew about. Sometimes I got so lonely, I'd make another try at making friends. Then I'd get my feelings hurt again, and go back in my shell. I didn't understand the pattern - I just thought everybody hated me. If somebody tried to cap on me, I thought they were serious and hostile, and tried to drive them away, or leave. The pattern was paranoid, self-centered, without any love for anybody else (except seniors and animals), proud, defensive, hostile, and suspicious.

I did relate to a few liberals, slightly. They knew me as a woman engineer, talked to me, without capping on me, with real or pretended sympathy for the prejudice I faced, & resented much, but and even admired me for facing it. That was the closest to friendship I got - I truly thought that was what the word "accept" meant. The word "free," to me, meant "don't have to be hassled by people all the time," or better yet, "among friends."

So with that pattern, I came to People's Temple. I tried to explain to you that people hated me, and you didn't believe me, and I resented that. Then you strongly encouraged me to get a job in chemical engineering, and you said People's Temple would accept me, engineering and all. So I thought they were all liberals and would treat me as the liberals did. It didn't happen, and I thought you had lied to me.

I still don't know if I actually was accepted or not. Remember I thought not speaking was normal, so most of the time I didn't speak I'm sure they thought I was acting better than them, and resented it. I wouldn't take any criticism or even "capping on," I resented them strongly. I know. I didn't feel accepted.

It was very confusing. You had promised I'd be accepted, and I didn't feel accepted, it looked like you lied, but I couldn't talk about that, you were. "God," God has all

EE-1-6-59

power and all knowledge, I felt you could make people like me anytime you wanted, but you never did, and the loneliness hurt, and surely just wanting friends was a good desire, but you wouldn't give me my good desire. I felt you must hate me to make me suffer in loneliness like that. And yet in other ways you were kind and loving and right. You saved my sisters life, and you smiled at me when I met young and preach women's liberation and were kind to animals, and you had a lot of understanding of people, but you never seemed to understand me. It was very confusing. I remember deciding that since I couldn't even tell right from wrong, I would just have to learn the diference from the beginning, like a child just beginning kindergarten. It wasn't conscious, but I must have also decided to cover my ass in the meantime. Since I thought you wanted to exploit me for my pay by pushing me into a situation of more prejudice than I could stand, knowing that once I had an engineering job I'd be too stubborn to quit, I wouldn't get a job at all. I felt like a coward for not going back into engineering and fighting it out, and yet I felt that I'd rather starve than be hated that much again.

Also, I was partially accepted. Not ever among the young people, but the seniors liked me and mothered me and I ran their errands and they brought me through.

I put this in past tense because here in Jonestown for the first time in my life I am accepted. I'm on Rob Geig's cassava crew; and the people accepted me. I'm still scared they'll disaccept me tomorrow, but aside from that fear and the carryovers of my own bad patterns from capitalism, this is heaven on earth for me, my dream come true and my hearts desire.

I have a few requests yet. Look for this pattern on people coming in, especially from the middle class where it's common, and don't tell them they'll be accepted. Tell them People's Temple is more loving than other places but not completely loving yet. Tell them about speaking, and capping on, and say nevertheless, this is the most loving place you'll ever find. That much is true. Tell them that after a confrontation people are friends again, here.

Also, please tell the people of People's Temple, if somebody has no friends and feels isolated, that doesn't necessarily mean the person feels "better," it doesn't necessarily mean they should be resented and fought and hassled and harassed to bring them down. Mayle they don't know how to make friends.

From Cliff Gieg - Self evaluation

As for as work production I feel my output is unsatisfactory to the cause. At times I am to sluggish and lazy. I don't push myself enough. As fas as working with others I still have problems putting myself above others in the form of knowledge when actualy I dont even deserve the title of a zero infact less than a zero, somewhere around the -3 bracket. I have tendencies to manipulate coordinators at times to get what I want but I believe our coordinators is getting wise to this type of energy, and will eventualy subdue this. I still have proplems with my chauvanism with my fellow commrades and expecialy with sisters working with me. When we took the socialism test on Das capitol I noticed in myself and in others that I was more concerned with getting the right answers instead of getting a better understanding. I hope to overcome the anarcitic acts only by your example will & Change. Thank you Dad!!

Dear Rob and Jason

I'm sorry to be so slow in writing. The time has just slipped away so quickly. We were really glad to get your letter. We got one from Renee, too. Tell her "hi" & I'll write to her separately as soon as I can. I couldn't understand, but the bottom of her letter was cut off, right around the letters of the line above it. Didn't make sense.....

You mentioned about "21 black youths being shot in a riot in Philadelphia." Rob, I don't think that's true. No one we know, including the people I work with, black and white, believes it, either. I don't know where you got that information, but I'm going to write to Aunt Freda in Philadelphia and ask her. She's in social work in Philadelphia, and would know. She lives in a neighborhood with a high percentage of black people, too.

Rob, you didn't mention the camera that Linda and Dianne sent you; you did get it, didn't you? And the film we

EE-HG-64

sent you to use in it. Linda & Duanne haven't heard, if you did. We thought it would be nice to be able to keep track of Jason's growth — how he changes as he grows, etc. He's such a doll. We really miss all three of you.

You know, I'd mentioned the climate sounded similar there, to Hawaii. Well, I looked on the atlas & Georgetown, Guyana is at about the 10th parallel & Honolulu, between the 21st & 22nd = (I guess they're parallels, I'm not really sure that's what they're called, but it gives you an idea that the climate wouldn't be too different.

3/18 Just got back to this — It's been odd, seeing the weather news on TV, and always seeing Honolulu shown in the 80° plus range, and temperatures back east, really low. Ours sort of "in between". Yesterday, our temp was over 80°, too. Really pretty weather! I love it!! Makes me feel good!

Mike has a temporary job 2 weeks straight, $12 per night, doing janitorial work at a hot-dog restaurant, then a couple nights

a week after that. You'd be surprised what it does for his outlook!

You mentioned your not drinking, etc. and that's really good. We have had no alcohol here for over a month. I put my foot down on it & so far, it's worked. Even when Grandma & Grandpa Eby were here for a visit, recently. Things are so much better without it. Who needs it?

We're getting ready, more or less, to redo our bedroom & bath. We bought wallpaper for the bathroom, silver foil with small ferns in a bright & olive shade of green. Really pretty. Will paint the bedroom & dressing room & put up new drapes. We'll paper the ceiling in the bathroom, again, like we did in the ~~hall~~ half-bath.

Dianne called last weekend, and we got a long letter from her, yesterday. I don't think I had told you in our last letter, but she has an apartment of her own in Lansing, but it doesn't have much furniture in it. So, we're taking

the stuff we have, of hers, back there, when we go back for Linda & Stan's wedding the latter part of May. That includes the stereo & 2 big speakers, the two book-shelf units, the wall-hung desk we'd been making for her when she "took off" with Paul a number of years ago. Also, the little platform rocker she gave us when they went to Montana. I recovered it for her in an orange, black, brown & white plaid. It looks cute! Paul's sister, Fran, offered Dianne the two vinyl covered chairs back that Dianne had given her, if we can fit them in. We'll try. It will help us, getting the stuff out of here, too! I was afraid we'd be stuck with it forever. But didn't feel I could just give it away, either.

I figured out our income tax last weekend, and we'll get enough to buy a color TV for the trailer, and a stereo, too. We were pleased. Will get them so they can operate on 12 volt, 110 or battery. That way, we can operate them, wherever

we are. That type of TV apparently only comes with a 9" diagonal screen. Pretty small, but all that seems to be available. I'll have to re-copy the tax forms & send them off, this weekend. Will probably get the refund in time to get them for our trip. Dad bought a 12 volt fan for the bathroom in the trailer, so will eliminate the problem of steam & moisture in there...

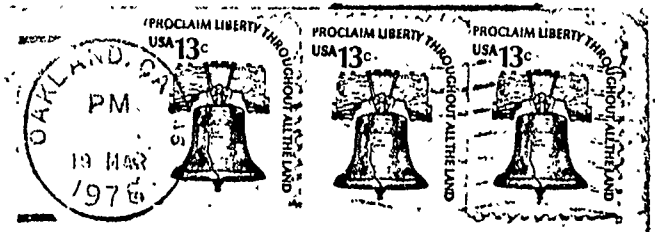

Dad's been working 12 hour shifts at the gas plant this past week & he's really been tired. He said he may work only 8 today & tomorrow. They're not doing anything active, and that's more tiring, really. Our overtime was cut out about 6 weeks ago, for now, and was I overpleased! They'll probably reinstate it, but while it lasts, it's great!!

Rob, I can't tell you how much we really enjoyed your letter! It was sort of like a documentary, in a way. Could almost picture the trolley huts, etc. You know, those sound

much like some of the huts we saw in Mexico, between Acapulco & Taxco, up in the mountains. Of course, their climate is similar, too. I think I'd told you, much of the area we visited there greatly resembled Hawaii. Tropical plants, climate, etc. We really think of you all a lot. Talk about you a lot, also — miss you a lot!!! Whether we write often, or not, you're in our minds, believe me! Writing had been a problem, because I was & am so uptight with work pressures. However it seems to be getting a little better, and I hope it will continue! All the supervisors in our district had gotten very mediocre appraisals due to the district's poor performance on statistics. As hard as we'd been working, it really hurt! However, our "stats" are improving greatly, so we're apparently learning to work smarter! I'll really try to do better. Honest. Will close for now & get this in the mail. Loads & loads of love Tell Jason "Hi!" Tell Jason "Come here, right now!

Re: Sex Interest.

Females I find sexually interesting in order of desireability:
1. Sandy Bradshaw 2. Laura Johnson 3 Carolyn Looman
Each has positive attitude, self assurance is pleasant and gentle in manner. I am not attracted to domineering women or clinging vine dependant women. I noted the above are all white. Probably because I disliked the strangling dependencies that Luna Buckley and Bea Orsot tried to establish. Also the fact of racism that I feel uneasy feeling with the intensity of racial feelings engendered in US.

Males for which I have a fondness, homosexual "kindship" in order of amount of pleasure I derive from a fellowship:
1. Ken Norton 2. Donny Cassanova 3 Richard Janero 4. Daren Janero (Mike Carter) 5 Davis Soloman
Again, mostly white. There are several black brothers I respect alot but do not seek fellowship with: Lee Ingram, Jim McElvane Archie James, Johnie Jones.

I have had many opportunities for homosexual relations with Temple members. While sharing a bed during weekend meeting trips Don Beck, Mrs. Kelley (Anita's X-husband) both made unmistakable Advances. Ed (That stayed with Touchettes) tried for a long time to talk me into a sexual relationship. The only male I have had sexual exchange is Ken Norton when we were children. I have, however contemplated homosexual activity on many occassions and recognize it as a part of my make-up.

EE-1-G-65

My sexuality most of my life has been with animals, largely because of my inferiority complex and fear of rejection. Animals are quite direct with no games - they either will or will not be part of the sexual activity.

Yes, I do occassionally still desire sex. But, I do not want a relationship. If I had a situation in which I could fuck when I desired it but didn't have to play games, committ emotional dependencies, I would enjoy it. But, based on past problems fucken isn't worth the trouble.

I like to screw, like to kiss pussy, enjoy watching others fuck, but I do not enjoy being sucked and don't want anything up my ass. Fantasies that really turn me on are women masturbating, using dildos, women homosexual activity and women having sex with animals - particularly dogs and donkeys or horses.

I enjoy screwing much more when I can see. I find the visual aspect quite stimulating.

from: Vann Gurley
re: feelings & beliefs on socialism

A Frenchman said that socialism aims for "the development of all men and the development of all of man." There is nothing I could say that would better sum up my feelings. Development - opportunities for development - for all people regardless of social class, skin color, sex or ~~caste~~ religion and the chance to develop your intellectual faculties, manual labor skills, etc. in an integrated, un-elitist way are ~~spelled~~ to be provided under the socialist system.

In what are perhaps the last hours of life, I cannot talk about socialism without talking about myself. I cannot elaborate on the theory without going into how the practice of socialism would have could have molded my contemptuous life into something fine and beautiful. It has got to be a 2 fold analysis - an indictment of the class system which so freely doled out privileges to me and an indictment of myself who never overcame the effect of privileges or understood the burden of oppression.

I had the best of education, prosperity, and opportunities based on the most arbitrary of criteria - color and class. Racism was instilled in me from - who knows when - I remember well the words "Do not go out at night without locking the car doors or you will be raped by a black man." "The races should not inter-marry." "I even believe that if you have blond hair and blue eyes you should marry a blond blue-eyed person." These were my mother's words. When I was a teenager, my father told me the ~~quoted~~ quoted to me the words of an Aryan supremist, de Gobineau, from his book Essay on the Inequality

of the Human Races. The book, as I remember it said that whites and those from northern countries had created all the civilization and culture in the world. Those from equatorial climates were by nature inferior and without culture. It was only later that I learned that African chiefs had memorized the equivalent of 12 books of history and passed on learning to their tribes in this way instead of writing it down. Later I learned from the Sanskrit writings of India that writing was considered an inferior form of communicating secondary to memorization. I had only 2 relatives in my immediate family of aunts, uncles and grandparents who was not a confirmed racist. I mention the words of my parents, and etc. to point out the environment I was raised in for over 18 years. This was my socialization process - I learned arrogance and race supremacy from my dad and hypocrisy and more racism from my mom. But the failure, the most grievous grievous error cannot be laid at the feet of my parents or the bourgeois-proletariat caste system. I alone can accept the responsibility of not having reformed my character once I met the greatest revolutionary and the most conscientious egalitarian that ever lived. Jim Jones could not have shown more compassion and patience than he has with me. Instead of taking great leaps forward to overcome the teaching of my parents I have taken only baby steps. Several days ago I resolved to finally take Jim's words to heart and marry a Black woman.

EET 1-6-69

Finally I decided that the most important thing was developing the revolutionary consciousness of oppression and putting behind me notions of compatibility and individualistic choices based on egotistical need. Why did I wait so late to start a process that might have already borne fruit in terms of my being personally touched by the solidarity of black and white together that Jim has always taught?

I really cannot think of any other way to talk about socialism that to explain how my life would have been affected by it if I would have only allowed it.

I too have fear. But I go over in my mind how Victor Jara and Salvador Allende died. September 11, 1973 - the Chilean coup took 40,000 lives. What is my one life to that?

To Dad!

I have no real fear of death, the only fear I have would be myself not being able to defend myself against the enemy. I think it would be a great relief to be able to die because life without everyone being able to be socialists isn't worth living.

As far as actualy being able to kill a relative or wife or someone who you loved it wouldn't be hard for one reason, I really don't have anybody that close to me but you dad.

To be honest about missing anything in the States even while I am writing this I can not think of anything I would want back there. Sure there are things I would like them only if I could have them here. There is one thing I miss and that being able to steal from the capitolists because that is how I got most of what I have. I miss vehicals and other machinery that would make work go faster but as far as food or music we have enough of it here. Also I would like to thank you for buying those drums for me and the other parts of my drum set. I know it was very expesive and that money could have got some people over here so thank you very much.

If you were killed by the enemy I would, first of all do all in my power to seek out our enemies and kill them. And in order not to get caught and rein the movement I would make sure I got kill in the process. And whatever

EE-1-G-54

you put in to replace you I would be loyal to and be willing to die for that person also: And if you got killed before you put someone in your office I am sure there are enough of us who could get the group back under control before everyone could get away and try to sell us out because we would kill anyone who would try to break ranks. We would have to do that in order to get the rest of our work done and that would be to kill our traders. I think that your sudden death would be the only thing that would make people realize your truth and socialism.

My sexual attractions are very unstable in that it seems that I keep going from girl to girl and I know it is my homosexuality surfacing. I have a big problem with this because I am always trying to be the opposite thing by playing the big man or big lover role which I certainly am not. It really bothers me sometimes because I feel if my friends knew this it would have them no longer. Maybe by telling you this it will help me get over it. I just want to have a normal relationship with a woman who I can really care for.

When I am carrying or holding a firearm I feel a great responsibility. Especially when in a crisis because I know they are all real and at any time the enemy could come over the hill. And I feel I would have a good chance to defend our land and be one of the first to die. I

EE-1-6-75

will not hesitate to shoot a trader or anyone who would try to break ranks. Again I would like to say it is a great trust and I will not abuse it.

Thank You Dad!!

1. Reformists / Con.
revisionism - change thru peaceful, gradual, legal democratic process. vs Dof P.
Trotskyism - export revolution before establishing it in your own country.
anarchism - no govt.

Social Democracy - e.g. in U.S. - welfare state capitalism. No particular pro-capitalist or pro-socialist agenda.

2. Prop B. - (Prop 13) la Calif. passed which cuts off $7,000,000 (or it is it $7 billion) from welfare benefits, job programs and aid to the poor. Name of man who was proponent was Vaun Gous. This is becoming a trend in US as New Jersey has passed the same thing & it is becoming popular in many areas. Shows impending fascism & goes hand in hand with CB1437.

3. Armed Struggle - revisionist concept of terrorism. Cs of terrorist act, when armed struggle means T begin -
armed struggle - revolutionary reconstitution of society - smashing the state - belief in need to overthrow existing structure.
Revisionists regard armed struggle as terrorism - Italian CP called Red Brigade "terrorists". Real terrorism is SLA & Khmer Rouge in Kampuchea.

(1) Fascism - suppression of civil liberties (right to dissent etc)

(2) POLICE CREATE FALSE SENSE OF SECURITY - promise to safeguard leaders eg. pigs in Chicago did this to Fred Hampton.

(3) PIGS COLLABORATE WITH RIGHT WING - in 2, it was the CORU.; in US pigs + KKK + neo-Nazis collaborate to send "aliens" back to Mexico.

(4) UTTER NEED TO VANQUISH + SILENCE ALL RESISTANCE + DISSENT - in "2" they killed the Deputy, in US killed Malcolm X, M.L. King, George + Jonathan Jackson, etc, etc.

(5) EXTREME PATRIOTISM OF RIGHT WING + PIGS.
Movie pictures of ~~the~~ king + queen in colonel's office - in bizarre idea a black civil servant had pictures of white former colonial rulers. In US Carter, Nixon and other autocrats like Hitler imagine the right wing + the pigs.

9. Why didn't pigs help deputy in Z? Why? - because ~~they~~ according to Marx's theory of class struggle it was in the ~~pig's~~ pigs' interest to associate him. Even his pious words were too much of a threat to the status quo: pigs get their power in the repression of aggression - peace vs. the opposite of aggression - their complete peace + an attitude of disarmament would make the pigs ~~functionally~~ obsolescent! Pigs were collaborators with right wing terrorists they saw themselves not as part of proletariat but had an identity confusion because of guns. They want power they wield - think this is the source of it.

(10) Thus pigs are accepted into being meat eating + ~~torturing~~ torturing as part of Agrarian cult practices of killing they are victims.

10. Shyaker Nkomo head Patriotic Front of Zimbabwe (Rhodesia) (the Black guerrilla movement for independence).

13. ESMERALDA - Chilean torture ship which threw overboard many socialists + communists after the coup. Docked in S.F. with little or no protest.

14. SC's demand of SU - ~~Arms~~ Laser beam + anti-missile missile must be dismantled. This is pre-requisite to successful nuclear non proliferation. (How ridiculous! US isn't going to give up neutron bomb + blast bomb - how could they ask USSR to give up their main weapons?)

Dear Dad:

In view of the fact that I am now a part of a total family were I have lots of family. I have released the idea of the personal family I would rather not have any pictures of myself sent back east because I feel that Mary & Robert Hicks and all of their family had the same opportunity I had, which was to come to freedom and work for the Socialist Cause. I would not want them to feel that I have any involvement with them, other then what they will do for us. I have written and ask for a few things that will help us I have not heard anything from them. My family only acted as if they cared. When I was able to help them financially. Dad that includes all of them. Now that money is not in the game, the true feelings are coming out. I am glad. Dad I want to drop my last name. I don't want to be a Hicks anymore, I want that part of it dropped, and I will drop all my emotional feeling that I have I did think a family was all there was, I do realize from your teaching and from my experience with them that I lived an illusion for so many years. Thanks to you Dad I see the light now in so many ways. Until I find another first name that will help change so many bad vibrations and thoughts that are connected to Marthea I would definitely like to drop Hicks completely.

I have thought of JoAnn Peoples, Joan Temples and Markibu X, I am not positive yet, but Hicks I want to get it off my back as soon as possible.

Thanks for your love and great leadership.

Thank Dad.

Your Socialist Daughter

9 April 1978

Dear Dad:

At this time death is the ultimate feeling. There is nothing more to life except that I feel there is no life without socialism. Socialism is a new way of living to me I don't have to worry about the man next door or the white man coming in taking what he wants even your child if he wants him. Here in Jonestown socialism - one for all and all for one. Most of all to me it means you Dad.

Every white night prepares me for death. It makes me stronger and it makes me feel that life is not worth living if you can't live it here in Jonestown. I am prepared to die at any time. I told my son the second time we were in a white night that whatever you said Dad that's what it is. We came here for socialism and we'll die for socialism. So I feel whatever the reason and whenever the time and wherever the place I'm ready to die. That same day they saw the enemy in the sugarcane field, our S.A.T. team was called to the scene. They pointed out the spot and I ran towards the spot. Sandy stopped me and told me they'll blow my head off. I am prepared to die at any time. What do I fear? I fear the fact that something will happen to me Dad and there will be no one here that will feel equally toward everyone and that everyone should have the same amount of love. I fear the fact they couldn't set the example that you are setting for the children to grow up by.

I think if anything happened to you Dad, I will be strong enough to kill my son and I will take my life by attacking one of my comrades and having them kill me. My second choice would be, I would try and go out and find enemies and kill them in a suicidal way.

Dad I'm not too good in thinking of ways of killing the enemy. A lot of people said they would tie bombs on themselves and blow themselves up and some say they would go as prostitutes and some say they would go with rifles and guns. Whatever way you feel best is the way I would do it.

Now that I'm aware of what socialism is and what the U.S. has been and is doing, I don't miss a damn thing. Sometimes my mind go back to things my so-called family use to do, but besides that there's nothing I miss. You've given me a new life and a new way of living.

A
Anyone who turns traitor deserves to die, not just my companion or son, but even my so-called mom. Yes I might hesitate, but I would do it. I have no experience with guns so I feel I shouldn't carry one, but I would like to learn in case I need it. Sexual feelings I enjoy it here more than in the U.S. You've given a love affair a different than just a love affair. Here its more a relaxed situation. You can overlook the color of skin and in the U.S. it was "That's Hick's sister." Everyone wanted to get the Hick's sisters, simply because my brothers were in to dope dealing and they wanted to be with the big dealers so they wanted to use me to get there.

Thank you Dad for bringing me here to Jonestown. Just to name a few of our major threats (1) the money they are trying to stop us from getting from the U.S. & the other is trying to kidnap one of our children. Thank you for loving me and bring my son to freedom.

EE-1-H-15 Shirley Nicks

I talked to my dad, Sherwin Harris, earlier this week who sounded like a robot and this statement is to this robot and whoever programed him.

My name is Liane Harris, I am a 21 year old adult woman, and I understand that my dad, Sherwin Harris, wants to see me. I have absolutely no desire to see him and I want him to leave me alone. He never was particularly concerned about me. He devorsed my mom before I was born. My mom was the one who reared me and paid my expenses. He never paid child support or helped me financially in years.

Once when I saw him he actually was upset because I didn't drink or smoke. He called me a goody twoshoes and that if I lived with him he'd teach me a few things. That's coming from a man who's got a fiance approx. my age. His former wife was mean- I didn't visit ~~after~~ them often. One time I visited with him and she hit me over the head with a baseball bat, She's locked me in the closet, slamed my head against the wall, slapped me for no reasons. My dad didn't listen or do anything about it when I told him. That woman hated me. He knew it and didn't even care.

EE-1-H-16 over →

I want him to get this straight! Im happy here - happier than Ive ever been in my life and I don't want to see him or have anything to do with him until he is reformed! Thats all I have to say. I hope he gets my message. I don't know how to say it any stonger. He acts so concerned now where was he when I was growing up. The truth about this place is its fantastic. Ive never lived so well. Its really beautiful, A place where children can really grow up in a healthy natural enviornment.

As a teacher here. Ive seen children who were troubled, nervous and into all kinds of trouble in the States - They've bloomed into much more mature, well-adjusted and capable kids.

Anyone who would want to lie about this community, and try to tear it down, as far as Im concerned - is either out of their mind or has some selfish, twisted motive.

I don't know what category my ex-father fits into, but whichever one it is, I am not interested in seeing him - Tell him not to waste ~~him~~ his time trying to see me. I don't trust him or his motives.

Thats all I have to say.

MAGNOLIA HARRIS

Look, I am going to be brief. I have written my daughter several times and have even asked her to come visit. Now she's turned around and gotten nasty, and is joining up with people who are trying to tear down this place, ~~xxxx~~ trying to tear down Jim Jones. [redacted] and she is supposed to [redacted]. My personal belief is that people have gotten to her and told her a lot of lies. As long as she is playing along with people who have been trying to destroy our pastor and our church, I want her to know that she can forget about me -- I don't want to see her or have any communication with her. I am happy here, [redacted] and have never enjoyed ~~xxx~~ life so much. If my daughter cannot respect my choice to live here, ~~xx~~ I am sorry, but she will have to choose her own path in life. I won't interfere with her. But I do want ~~to be left alone and allowed to follow the life of my choice~~. I am not interested in going to the United States, I have a life here that is just wonderful. I also just want to say that I am sick and tired of hearing about the lies that are being told about Jim Jones -- this is to me a conspiracy to destroy a great man, and the people involved in it are just twisted up inside ~~because they couldn't live up to his teachings~~, they were too selfish and probably too racist. If my daughter cannot see through that, it's ~~too bad, but she can forget about seeing me.~~ too bad.

My daughter doesn't have to worry about me on any levels of life. I am physically well, mentally well, eat well and have a good home & live in ~~[redacted]~~ freer than I have ever been in my entire life. I want my daughter and everyone else to know that I don't want to leave here under any circumstances. I can't get over Sylvia's ~~my daughters~~ attitude, as a ~~member of~~ ~~[redacted]~~ ~~What do you recommend for the above~~

Our big, brown, bad revolutionary man-child

But he followed no law but his own

He thought he was a pupper nigger

And could follow no law but your own

Lil' Talkin, finger poppin, wine drinkin Teddy Bear
Our big, bad, brown, beautiful revolutionary man-child
You lingered between two worlds, two systems, two

A world, a people who loved you, and understood that
you were just one of a family of Lil'-Talkin, shit-shootin
finger poppin niggers
Who all had the potential, the guidance of becoming
pupper niggers in reality...
And your Lil' Talkin, finger-poppin, shit-shootin

the anger, of the many unpleasant fucks we've
gotten from the man as he lured us into

his web, even as a spider does its prey
And he rapes us. our bodies our minds so thoroughly

But our jive-talkin, finger-poppin, shit-shootin

right
The time when all of our jive talking finger-popping
tendencies can be used to bring forth the birth of
a peaceful revolution...

And a world that hated you....
Because you were indeed a big, brown, bad, beautiful Teddy Bear
And such a revolutionary man-child
In spite of your weaknesses
In your way you did rebel against the many unpleasant
facts you've gotten from the system
And they hated you, as they hate all of us
Because in spite of your weaknesses
You still represented something good

But you can't win,
The odds are against you
The system won't let you
You can't beat the man at his own game
When you're being sucked, hooked or his fucks
You were not big enough, and bad enough to do it alone
No revolutionary man-child is that strong
Not even a prepper nigga can do it alone
It is following no law but his own

Juice-Talkin', finger-poppin', wine drinkin' Teddy Bear
Our big, brown, beautiful revolutionary man-child
You forced the man to plan for you a sexual fuck
A fuck that would only bring pleasure to a true
(3) revolutionary
A fuck prepared with much planning, great precision
Because even in your weakness
You were a replica of something good
Not a pepper-nigger, but maybe you could have been, maybe
You would have been
If you had followed the law of Yuri Gorad

Those bullets, they had your name on them Teddy Bear
You could have been a pepper-nigger, the greatest
revolutionary man-child
But you followed no law but your own

Don't worry, it's gonna be all right, cause we're gettin' our
shit together
And we'll remember our big, brown, beautiful Teddy Bear
Our revolutionary man, child, in all of his glory
We'll remember the good things, the brave things, the
bold things, the beautiful things
That our revolutionary man-child did to prove that he
did not like the fucks he got from the man
And will think always, and remember that we have to
stand together to beat the man at his own game, to
become pepper niggers...
And we'll remember that a revolutionary man-child
and woman-child, can never grow up when they
follow no law but their own!

(D) 12/11 The Front Line

In Ballad and Thought

It wasn't so long ago, in the heat of the day
That our enemies came to take our freedom away
Shots were fired, so we ran to the front and
formed a line
From right to left, and all around, as far as
the eyes could see
With our weapons in our hand, there we stood,
watching and waiting to greet our enemies

So it was our same old adversaries from the
land of KKK
Who just couldn't seem to leave us alone
They've come all the way from the USA
Thinking they're gonna frighten us into going
back home

Yes our enemies had gathered themselves
together and conspired to take our freedom away
How could they explain our leaving, what would
they say
When it was discovered that this great rain-
bow family, the family of Jim Jones
Had told America good-by, and headed
for a land of their own

EE-1-H-24

We the great Rainbow family of Jones were not satisfied, were sick and tired of being denied freedom, justice and equality and having to endure the racism and rejection and poverty in your capitalistic society

We didn't like your country, we didn't like your laws

We were tired of being treated no better than dogs

We didn't like the conditions in which we had to live. We didn't like having our people tortured and killed

We didn't like your treachery, we didn't trust your lies and we didn't want to see our families be a part of your mass genocide

So we, this great rainbow family of Jones gave you your country, and got a land of our own. We were freed from your shackles by our leader Jim Jones ~~when he~~ When he gave us Jonestown, Guyana as our new found home

It was his desire to give his people a chance to be happy, a chance to be free and to give our children their right to live free of the pain created by your capitalist society

This is ours, we're here to stay, we're committed to this socialist life, because it's the only way

FE-1-H-25

Oh my own land, proud and free. And nobody's
gonna take my freedom from me.
I've come here to learn to love, share and build
And if I can't do this, I don't want to live!

So with cut-leaves in hand we had formed a line
As far as the eyes could see.
Our enemies were out there gazing from afar
Wondering how far we would go to stay free

We won't go back, we won't give in. This is our
home in which we're ready to defend.
We dare you to test us by coming into our nest
We're not afraid, we're pacifists!

We stood on the line on into the night. As the
rain poured down upon us.
We sat staring into the darkening night.
Listening intensely to the faintest of sounds.
The baboons far off in the jungle could feel
the danger around us.
And they gathered themselves together in
song... that took away the stillness.
We sat there and whispered, prayed through
and through. The excitement left little room
for fear or dread. And later the ground
below us became our bed

and in the early morning hours, but while it was not yet day. We were awaken by the sound of photo
And as we stood in readiness we heard our leader say
This country is being overtaken by the CIA
and the leaders of this country cannot be found
and we know very little of what's really going down.

Our enemies have been out there day and night.
And it looks as though we may have to fight
We're gonna have to stand up for what we believe
It's the only way, if we want to stay free

Our leader paused for a moment and began to say
I'm sorry that your new life had to begin this way
I did not bring you here to die. To give
you freedom and happiness was my desire
But the price of these things is never cheap
A true socialist will gladly die for what
he believes

And in the mid-morning hours of the 2nd day
again our leader conveyed his love, his regret,
and the price we all might have to pay
Our enemies were all around us. Our
friends in government could not be found
Had the socialist leaders betrayed us
Is there no one in whom we can trust?

(5) Again and again we heard our leader say,
between his never-ending battles of fighting... fighting
the
his pain, the pressure... the pain of fighting the
enemy for our lives, fighting the enemy to keep
us free
fighting the enemy from all sides... fighting
to give us peace

Had the leaders of this country sold out to the enemy
Why had they picked this time to leave
Did they not care that our leader was fighting
day and night to keep us alive
And on this peculiar land we might have to die

And as we stayed there on the line into the day
Waiting and watching for our enemy to show his face
Our leader demanded we feast there on the land
Eat all that you can, the best of all we have
enjoy these last hours as much as you can
Because at any moment we might have to die

Our enemies were all around us, and our
friends could not be found
Our enemies are coming to try to take us away
But we'll make this land our burying ground

And as we sat there, waiting to die
We looked up and saw our leader dragging
himself down the line
With a smile on his lips and tears in his eyes
one by one he touched us, and bade us what
we knew to be our last good-by

You don't have to worry Father, you don't have to cry
We're not afraid, we're ready to die
If we must die, then let it be. For death is but
a sweet release

You don't have to worry, you don't have to cry
Because it matters not if we should die
You know how it feels to be black and free
Nobody here is looking down on me
For once in my life, I'm not being treated
unjustly. No rapist capitalists running us games
on me
Don't have to pretend to be something I don't
want to be. I can be happy just being me

And we watched our leader drag himself
across the line
To convey his love, sorrow, and hoping
that we might understand that there might
not be a tomorrow. No, tomorrow might
never come

So with a smile on his lips, and tears in his
eyes. One by one, he bade us good-by
Our children lay sleeping, prepared to die
Without the pain, fear, or sorrow. They
would be spared from the torture, the
never ending sorrows
Without their Father where would they be
To die free? Pain would be a sweet
release

(1) And our youth - so courageous, proud
independent and free
They have finally known the joy of being treated
with dignity
Nobody here gets beaten and jailed for stealing
a loaf of bread. Nobody here strips you of your
dignity until you feel you'd be better off dead.

And our seniors - our mothers and fathers who
had suffered as much who had spent their
lives just fighting for survival in a fascist
country
a country that used them, abused them, and
kicked them in the streets to die alone

And as our leader bade them farewell
What were they thinking that made it so easy
for them to not give a damn!
Jim Crow days and the KKK! The lynchings
the mobbings, the killings the starvings
of the poor, the oppressed in the USA

No Father, you don't have to worry, you don't
have to cry
We identify with some of your hurt and we
share your anger
You don't have to worry, we're not afraid to die

And Father, our leader ... He's all we have
the only hope we've ever known

EE-1-H-30

Without him there would be nothing left. To destroy him would be to destroy all hope for mankind

So like a child, I am with you because you have chosen me

For now I am yours and you are mine.

Until I am strong enough to make it on my own forever... or until through death we have to depart

... Until I am strong enough to make it on my own Because I must become as my Father so to his children... but I am not yet ready

Father... the only hope of the world. The only hope of black and poor people in the land of KKK, in Africa, all over the world. Surely he will return. He is the only hope of the world. But it will be too late. There is no time

... We are not yet ready and there is no one to take his place. We must not allow the enemy to deprive the world of the only true revolutionary; We must not allow the enemy to deprive the world of its only hope!

They out number us by far. In all of the universe, is there nothing, no one good?! Is our Father to do it alone? If there were any good forces in the universe, then we would summon you. It is not written in the plans of destiny that this dream that is becoming a reality should cease to be! EE-1-H-31

God.... there is no god, there never was a god,
there never will be a god for people like us!
Three little children in church one Sunday
and as they began to pray
three little children, little poor, black, hungry
children, got blown away
By a racist member of the KKK....
And God never came

Ain't no god, but the god in me... ain't no
freedom but the freedom I take... ain't no
hell but the hell I see... ain't no heaven
but the heaven I make!

And as I saw my leader come down the line
With a smile on his lips, and fear in his eyes
How it must hurt you, to have to tell us good-by
But you don't have to worry, I don't want you
to cry. It's always been my dream to
commit revolutionary suicide
If we must die, then let it be But for you
my enemies, there'll be no victory
We're not afraid, as you'll soon see
Should he die in another minute, we'll die for
you were in death we'll have the victory. We'll
die revolutionary socialist wasting our enemies
How poor is not going to be...

EE-1-H-32

No Father, you don't have to worry, you don't have to cry. We're ready to die now, we're ready to die
The days we've spent here have been good days
We'll have nothing to loose, we're not afraid

Father,.... the beginning of life for us.. A promise
Justice of the universe ... a mighty fortress
Yes. we'll make it ... at least some of us
will ..

... So like a child, I must become as my Father
is to his children
.... but I am not yet ready
Father....
Has he come down through so many generations
... has he suffered so much, undergone so many
trials, so many tests, so many errors to
become a perfected principle... to have
evolved into the most high Has he come all
this way to be defeated now?! He cannot die
when the fate of the world rests on his shoulder
He has yet to shake creation, to turn the
world upside down! He cannot die! They must
not take our Savior away! He's all there is,
the ultimate of all that is good....

And as we stood there watching our leader
drag himself on down the line
During his people a final touch, a last
goodby
Remembering his tears, remembering his pain
angrily we waited, anxiously anticipating

EE-1-H-33

(11)

the pleasure of our Father's suffering being avenged.

And as we sat there waiting ... built by the people's mighty hands.

On our land, our very own land ... the banana trees, the citrus as beautiful as ever ... the never ending fields of cut-cane. Our homes, our buildings.

So beautiful, so blessed to be free.

They've taken away everything I've ever had and destroyed everything that I've ever loved.

How long is it going to last.

Will fighting for what's ours ever be a part of our past?!

Our enemies were all around us, and our friends could not be found.

They would be coming for us any minute, any hour.

And our lives would be spared by no natural power.

So we sat there on the line, watching the day being overtaken by night.

And as we waited for our enemies to come in sight ... who would run, surrender, or fight.

And as the day was overtaken by night.

We paired off in twos ... one was to watch as the other slept.

No one was to surrender, or be taken alive.

And if your comrad should decide to run

Let your cut-lip tell him good-by
Quit thinking of the torture you'll have to
go through. You can't trust your enemy
they'll only use you
We'll take your life comrad, because we love you

Shots were fired throughout the night
But our enemies never came into our sight
Why didn't they show themselves, we're not afraid
We're tired, we're angry, and quite willing
to make this land our grave

But even in those dark, dark, hours
Our Father, our leader never gave up hope
Even when we knew we would be spared by
no earthly power
Our leader... his body was filled with agonizing
pain and emotional stress
His body was tired and weary from emotional
stress... the fighting spirit remained

And in the early morning hours of the 3rd day
We listened intently as we heard our leader say
As he spoke to peculiar countries around
the world
We're in this peculiar country fighting
for our lives
And at any time we might have to die
We heard him beg, we heard him plea
We heard him offer his life, to keep his
people free

EE-1-H-36

(13) To pacifists, communists, friends and strangers
We heard him beg, we heard him plea
And in a fit of rage he cursed in anger
Take me if you will, but let my people be
I did not bring them here to die. To give them
life was my desire

And as we sat there on the line quietly
eating our early morning feast
We heard our leader plea for a little more time
Time to find a refuge for us. Time to
find a safe place for us
A place where we could be at peace

Over and over we heard him cry. I do not
want to see my people die
We're not a poor people, we have much to give
Just give my people a chance to live

Over and over and on into the night. We
heard our leader's tired weary voice, his
body wracked with agonizing pain and
emotional stress
Over and over we heard him beg, we heard
him plea ~~pacifism~~ sanctuary ~~peace~~
Save my people ~~PEACE~~ & give them dignity
The pain in his voice was unbearable
The plea in his voice was unforgettable
His love and devotion to us was incomparable

Our enemies were tightly surrounding us
Our friends had forsaken us
Our leader's plea for the most part remained unheard
And we sat there waiting for the curtain to fall
There was nothing we could do but wait, and do little we could say
But seeing our leader's pain, and remembering his plea
Made us really know and understand that his only reason for living was to set his people free

Our enemies were surrounding us
Our leader's plea for the most part had remained unheard
All of our friends had forsaken us
And we sat there waiting for the curtain to fall

Where were the ones who had proclaimed themselves pacifists? Surely they knew we were out here standing on the line
Waiting to die at any time
Because we had dared to stand, dared to fight for a principle that had been tested and proven to be right
We too had denounced the right for the left and a fight for this cause is a fight to the death!

EE-1-H-37

(15) Where have all the peculiots gone? Have they no principle, have they no back-bone? Are we to stand here and die alone?

Yes, even those who were considered our comrades had decided we should die alone

Did they know so little of our leader Jim Jones His love, loyalty and devotion for his people they obviously understand

How many battles would he have to win, how many obstacles would he have to overcome Before they realized he was no ordinary man

To betray his people, he was offered money, riches and land

But he could have all these things just by a clap of his hands

To all of his people he's ever offered the greatest of material wealth and the highest of power

But he could have the world at his feet in a matter of hours

We'll give you refuge for your family

Why sacrifice their lives to keep others free

You've brought them here to a new home

Protected and cared for them as though they were your own

You've given them a new life in a peaceful land

How much can they expect from just a man?

EE-1-N-38

Free yourself of them, and let them be
Think of your wife and family
Leave them now, why should it bother you if
they dont understand
You owe them nothing
And after all, you're only a man

How many times has he heard this way before
How many times have temptation knocked on
his door
Socialists, or communists, or whatever you
may be Why is it so hard to understand his
love for humanity!
How long will you question the principles on
wich he stands
How long before you realize he no ordinary man
His love and loyalty is no mystery
Because he's a communist revolutionary
on the highest degree

He couldn't be bought, and he couldn't be used
He had paid the price, and owed no dues
Though he was pushed.... sell them out, leave
them.. save your family ....
He would not be moved!

And as we sat there on the line
the torture of waiting was a slow form
of dying
The Capitalist dogs from the C.I.A. will send
Socialist youth to blow us away

EE-1-H-39

(17) The capitalists dogs, they were afraid
Why would they send innocent people in
their stead

So in the middle of the night of the 3rd day
We were summoned together to decide
Should be fight them knowing the bood-shed
that will be on both sides?
The enemies were clever, they had the upper
hand. Socialists blacks killing socialists blacks.
We did not want their blood on our hands

Right or wrong, we were going to die
But our choice by far was revolutionary suicide
It was soon going to be over at last
We stood reminiscing about what was soon
to be our past

Our land, our homes, our food. So beautiful
is this land of ours
The only place we've ever been free. The
only place we could ever call home
Is going to be taken and used by our enemy

How many ways can one die. If the choice
is revolutionary suicide
Life has been good here, it's been a good day
But our enemies must not have the victory
They must not have the final say
They will not take my freedom from me
They'll find my body already bleed EE-1-H-40

But the hope and will of our leader never ceased to be
That we would die together was not a certainty
It was not his will, that we should die.
To give us life was his desire

We didn't have to stay here and die
Our leader had found us sanctuary
We would be at peace

And as we prepared again to go it alone
The good people to leaders came back home
This is your land you don't have to go
And your enemies will not harass you any more
Stay here and work, grow, and build
And this land can be yours, for as long as God lives

How long would this promise last
How long before the fighting became a
thing of our past
We'll always have to fight if we expect to
stay free. The price of freedom is never cheap
Until our leader has turned the world
upside down.

Until the poor and oppressed are no
longer on the Ground
This never-ending fight will begin at any
time. Shots will be fired and we'll run to
the line. Wether it be morning, noon, day or
night
We'll be forever united in greatest armies
standing together, ready to fight!

Dad,

I don't know the words for my visit tonight. I guess subconsciously I'm still a little bit of a moralist. ~~But~~ Plus I wasn't paying attention to what you were saying.

Dad please allow me another push up. I will be more attentive while you are speaking. I know every time you speak there's a lesson to be learned.

Dad I'm trying very hard to change. I know that at times I'm negative. But when I think of what you have done for my Socialist family my negative thoughts become positive.

Dad I will continue to say my ~~pra~~ gratitude every Day, and work twice as hard to become a True Socialist.

Dad I would also like to thank you for allowing me to be on Set.

My Feelings and Belief about Socialism

① I fill very strongly that if you intin to be in a socialist movement you have to pledge your whole life to it. Part of being a strong socialist is to fight for your rights until the end and the end is death or if it don't take death, just until you win what you fill is right to not only to help the people yourself but to help serve the people better.

In order to have socialism you have to have a dictator of the proletarian that is benevolet.

② If we were to get a asylum for the whole family I hope it will be a nation that have gain it independence, because if not we can just stay here and fight until the last one is down, and it is totally non-sence to think about going back to the states if they would except us back.

③ If we don't get some kind of asylum within so many hours we will be prepared to go down at any time.

If our people from Georgetown-

EE-1-H-56

or the States I don't get here within so many hours after arriving we should be ready to go down.

If people start disconnecting our cradle so we can not communicate with our people in the States that is working with our asylum, we will also be ready.

EE-1-H-57

TO: Father

I feel that socialism is the way of life. Without socialism a group is no good. Socialism is when you care for someone and is really a friend to someone and not a sale-out. It's when you love a person no matter what he or she does to you. You still love him.

My believe in socialism is when the means of production and the wealth is distributed equally among the people. Everybody has the same amount. no more, nor less. no favors. Every one treated the same.

As far as this revolution goes. If we are able to get a Salon peace. I would take it. not just for me, but I would like to see at least one day Father you at rest. Our seniors ~~can~~ die peacefully and our Childens grow up. So they can finish off where we left. If we can't get a free place I rather stay here, because going back to the states is no good. Even though they may not arrest none of us. In the long run all hell is gonna break loose. Concentration camps and all. It would be worst than here. So we might as well stay here. Peace assurance or not. I am not grateful enough Father and don't deserve nothing. thank you Father for your love.

What do you miss about the state? Would it be worth sacafice (if you could would you?) I miss being able to go and come when ever I want and having a chance to do different places, I know dad it's only my selfishist and I know and I can comprehent the fact that if we didnt have this closest that this family have we would not be as strong as we are.

How do you feel about death? Iam one that would like death to excape the pain of the oppression. I feel that until the time is right I won't allo myself to even think like this.

Any feard you have? I fear falling on a cut-less and taking my life that way, but if it was a order from you to take my own life I would prefer to shoot myself.

I fill that Iam prepare to take the life of my so call one of they turn traiter, because I would see them as if

EE-1-H-59

they was Tim Stone, Merle's, Linda Sweney Tackie & Marvin Swiney ect... because at the point of them turning a traitor only thing they would mean to me would be big trouble Major threats for our people here and there.- CIA. kidnapping one of our lovely babies trying to over take our land. stopping the rest of the family from coming over here

I have sexual feelings for a man and women also. I know there are times I am in the shower room and I have the terries to look over at a custer body that is what I think is nice looking, if there is a brother that I like sexually also and as I look his way I do start having those stupid sexual feeling.

I have not never carry a gun before, but if I look at it right I fill it would be the some what like a male and his penis. I would have some what of an ego and it would be like a virgin symbo.

I feel that if something was to happen to you such as if someone took you life by cross fire ed... than I know I

EE-1-H-60

life would be finish, because what was a group without a strong leader we'll not succeed. Also I feel that these mentre ers... will not disturb us as much as they do because if they can't get you then they will try for one of us.

More on what do I miss about the states: what I had said on the front page was not worth sacrificing for because leaving if I was to return what would happen to me and make more problems for the family. I do know that there's nothing back there but misery.

I feel that it has been an honor and a privilege to be a socialist and work for a Socialist cause. Socialism is worth fighting for. It is the only just society. People cannot and must not be allowed to live in a class society and a few people owning the wealth of the world while others fight and struggle for minimal existance. While still Others are dieing every minute from starvation, from lack of proper medical care. While children are being born every minute deformed and retarded from lack of proper maternal nutrition. A Socialist society is the only means by which these autrocities & insanities can be stopped. Even though the battle for change seems so useless and never ending I feel it is worth it and pledge to do whatever may be necessary, even if it means taking my own childs life, to see that the battle for Socialism is won.

Socialism

Socialism is the road to Communism - which is a totally egalitarian state - where no one prospers at the expense of a poor class - Everyone works together and the benefits and products made are shared - no group works in an elite setting and has special privilege. The result of a group effort (or group control of the means of production) is that the product gradually builds up the standard of living of everyone, and makes benefits available & medical, food, housing, etc that in capitalistic Countries are available to only a select few - based on class, race, ethnic origin etc. or family connections.

Socialism can come about gradually - but the transitional stage is very difficult done peacefully Like in Chile and now Guyana - an elected Socialist government that does not take strong measures to protect itself from Capitalist and CIA intervention - especially in Latin & South America where the US feels more threatened by the presence of Socialist or even non-aligned nations so as determined to attempt to overthrow any such state -

Socialism is a way of saying "if you don't work you don't eat, but if you work you can feed many others as well as yourself" than advanced Socialist or communist state. It is based on an individuals responsibility to contribute to the whole - not an individuals right not to be misused and swallowed up by the elite class like in the

US and in all Capitalistic states where outrageous prices are charged for legal aid, medicine, schooling, housing, and salaries are barely sufficient to cover the most basic needs for the real workers of the society.

I don't want to live in any capitalist nation. I don't want any - not one - child to suffer that life.

Ideas -

If a nation that can't take us in (Cuba - or any other) could provide us safe travel to South Africa or wherever the fight is on we could go there & fight - rather than be here shot down w/out helping in a concrete way with some struggle

or -

Could we somehow get to Cuba and at least bring more public attention to that struggle or Brazil - or wherever

(1) Abby Jensen - Political Enlightenment teacher - Test

Afghanistan was liberated after a 24 hour revolution. This was triggered off when the leader of the Communist Party and his son were assassinated. The Socialist and Communist parties joined along with the Air Force and overthrew the government. Afghanistan was declared a Socialist nation and two hours after the revolution, she announced her allegience to the Warsaw Pact. Iran is upset, because she is now surrounded by Socialist countries. Many Iranians escaped to Afghanistan when they heard about the Revolution. They are being equipped for guerilla warfare. Iran is one of the most fascist countries in the world, headed by one of the most evil men around, the Shah of Iran. It will be a pleasure to see Iran liberated. China is also unhappy with the liberation of Afghanistan. She is not a member of the Warsaw Pact, which is a ~~defense pact made~~ mutual defense pact made up of Socialist countries (except China). China, who thinks she is the vanguard of ~~Socialism~~ the 3rd world, is actually extremely nationalistic. Socialism exists within China but her foreign policy stinks. For example, when the Marxist-Leninist party in Angola, the MPLA (Popular Movement for the Liberation of Angola) was fighting to free Angola, China was on the side of UNITA which was not ~~be~~ Socialist but financed by Capitalists. Actually, the Soviet Union is the real vanguard of 3rd world liberation. Their purpose is to promote liberation to third world countries, and they have proven their dedication to this. They have helped Vietnam in their struggle against the United States. They have helped Angola, Mozambique, Cuba, Ethiopia, ~~SE~~ and the Red Brigade in Italy. What I am explaining is the 3rd world doctrine, which China developed. China says there are three worlds. The first is the United States and Soviet Union. The second ~~ta~~ world is the European Capitalist Powers. The third world is China and other third world countries, China believing she is the vanguard of 3rd world liberation. China says that the ~~US~~ Soviet Union are expansionists, when actually the Soviets give aid to other struggling nations but do not take them over. China also says the Soviets are a weak nation that use the threat of war. China wants a war between the United States and Soviet Union, because she knows she will come out of a war and then be able to take over the world. China feels the real threat to the world is the Soviet Union and

not the United States. The Soviet Union is the mother of Socialism. Vladimir Lenin, the leader of the October Revolution in 1917 put ~~Marxism~~ Marxism into practice. In 60 years, the Soviet Union has come from a feudalistic illiterate backward nation to the ~~most~~ highest industrialized nation in the world. There is no unemployment. All people are guaranteed medical care, an education, and all needs are met. Education is a high ~~priority~~ priority. Reading is widespread and television ~~is~~ consists of ~~educational programs~~ educational and cultural programs. Housing is guaranteed and kept at a high standard. Job safety is incredible. The coal miners in the Soviet Union are highly respected. They receive excellent pay and special consideration is given to their housing and area surrounding. The mines are equipped with safety features that can detect any danger of explosion and the mines are cleaned with water which gets almost every bit of coal dust out of the air. Coal dust causes Black Lung Disease, which is very rare in the Soviet Union. In the United States the mining conditions are terrible. Miners are low paid. Their jobs are very dangerous and Black Lung Disease is common. Often the miners have to crawl along the mine shafts on their stomachs to get to work. The Sunshine Mines in the United States are an example of unconcern of the working people. Officials ~~in~~ knew these mines were unsafe and did nothing to make things safe. An accident killed over one hundred miners, but still mining conditions in the United States are outrageous. The Soviet Union makes heros out of the working people. The people control the government. Common working people ~~are officials in~~ hold government posts. Women are highly respected and their liberation is obvious. We saw a women in the Soviet film who worked in a textile mill as a weaver holding a government position. This is not uncommon. There are more women doctors in the Soviet Union than men. Women drive tractors. Women are construction workers, architects, and even astronauts. The first women astronaut was a women from the Soviet Union. She now holds a government position. The Soviets suffered greatly in their struggle to bring about Socialism. World War II left the Soviet Union destroyed. Because of their determination and dedication to Socialism, the Nazis were never able to take over the

(2)
Libby Jonson

Soviet Union, but 20 million ~~pe~~ Soviets were killed and and millions were left homeless. The Soviets started again and built the USSR back up to what it is today. Nearly every family in the Soviet Union lost loved ones, but they still carried on. We saw a senior women in one of the films who had lost five sons in World War II. Setting up 5 year plans is how the Soviets organized to build their country. Each plan laid the foundation for the next plan. Unlike China (who also came from a feudalistic, illiterate, backward state), the Soviets want to see the rest of the world share in the building of Socialism, and they prove this in their continuous support of 3rd world liberation struggles. China is a disappointment. We hope someday they will wake up and make contributions to the Socialist world rather than go against the building of Socialism. Her agreement with Great Britain was a shock! Her 3rd world doctrine theory is ignorant! We hope the Chinese people will rise up from this ground of stupidity and join the rest of the world Socialist world in the struggle against imperialism.

Chili is a country in South America. In 1970, Salvador Allende was elected President. He was a Marxist. For three years Chileans lived in the beauty of Socialism. The United States couldn't stand it. They were embarressed because in Chile Socialism came about through the vote rather than a revolution. All the United States propaganda trying to make Communists look like "terrorists" was shot down. In Chili, the people voted in Socialism. The CIA went to work. Workers were paid off to strike. The United States put their copper on the world market and sold it cheaper than Chili could and that was no help to Chilis economy. The CIA flooded money into Chili and then paid off the military to overthrow Allende. In 1973 the coup took place. Salvadore Allende bravely stood in the Presidential Palace in Santiago, Chili and refused to surrender. He fought the dirty fascist pigs to the end. He died defending Chili.

11 (over)

What an inspiration Comrade Salvador Allende is to us. The CIA United States CIA sent Green Beret to aid in the coup. Socialists and Communists were rounded up and put in jails and concentration camps. Torture was common and still is today. Our comrades in Chili are ~~still suffering and the fascist Pinochet who is backed~~ by the United States. I spit on his name and ~~the USA~~ !! ~~Your~~ Amerikkka!!! Victor Jara, the famous Chilean poet and folk singer was one of thousands who was tortured by the fascists. Victor was a Socialist. He loved the peasants and working people and wrote songs of their struggles. He traveled the countryside working with and singing to his people. He showed his dedication to Socialism and died never selling out to the fascists even though he was brutally tortured. Victor sang to the people at the Stadium in Santiago Chili. He was rounded up and taken there along with 5000 others of his countrymen. He was told to stop singing and playing his guitar but he kept on. The fascist soldiers began to cut off his fingers. He kept on singing. They cut off his hands. He kept on singing. Then they beat him mercilessly and Victor died after several days of suffering. ~~The~~ His last words, ~~he~~ he couldn't even write himself but he dictated them to a comrade and they were smuggled out for those of us who care to hear. I hope that we can be involved in the overthrow of the Pinochet regime in Chili. ~~It would be~~ It would be an honor! Rolando Carasco ~~was~~ is a Chilean who suffered greatly by the coup d'etat in Chili. He wrote Chilis Prisoners of War and I appreciate the reading of this book by Dad. I feel that consident reminders of the suffering of others ~~helps~~ helps builds sensitivity. Rolando Carasco worked at a radio station in Santiago Chili On the day of the coup he was arrested along with 8 other employees of the radio station. He was also at the same stadium as Victor Jara Rolando Carasco has written a heart-breaking but yet eye opening account of the overthrow of President Allende and the aftermath.

EE-1-IAS-12

(3) Debby Jonsen

The military man in charge at the stadium was called "The Prince". He was a fair-haired sick, evil, fascist pig. When informed that prisoners were fainting from hunger, he took a bowl of dental soap and poured it on the ground and said that anyone still hungry could eat it. The prisoners were only given water, soap and lousy coffee and even then many didn't even get that. He would beat the Chileans with a whip in their genitals. A 50-year old man was sleeping with his leg stretched out and a young soldier tripped over his leg. There were 3 other soldiers and they all began to attack the fifty year old man who was unaware of what he had done to provoke their anger. However the man grabbed for the young soldiers gun and hung on to it. "The Prince" encouraged the soldiers to beat on the old man. The young soldier began beating the man with the butt of his gun until the butt broke. The 50 year old man kept struggling and died with his fists clenched. A young prisoner decided to leap to his death rather than suffer in the stadium. He after shouting "Down with fascism, Long live President Allende" he leaped 30 feet to his death. The viciousness of the fascist soldiers was clearly portrayed when a 9 year old boy was running up the stadium steps and he ran into a soldier. The soldier put his gun to the child's chest and fired. Capitalists are not selective in their murdering of Socialists and Communists. They have proven this over and over again. It's not only Capitalists and Socialists and Communists but any 3rd world people. In Vietnam, 1000's of children were napalmed - anyone suspected of being Vietcong or a Vietcong sympathizer was a potential victim for the Capitalist greed has no limits! Another example of resistance during the Chilean coup was the eating of address on paper by the prisoners. One young man was brought into the ~~radio station~~ building the radio station was in. He had been beaten. The soldiers threw him on the floor. He asked for water and was kicked instead. He threw up some of the paper he had with addresses on it that he had eaten. Nearly unconscious he put it back in his mouth. Before he died, the last word he got out was

13 (over)

"addresses." The Chilean coup was financed by the United States to the amount of over $9 million dollars. A Socialist country in South America was too close for comfort to the United States. Guyana is very brave to ~~be pro-Soviet~~ take the stand of being pro-Soviet. I feel that Prime Minister Forbes ~~Burnham~~ Burnham's visit to the Soviet Union and to East Germany and North Korea will only benefit Guyana.

The Red Brigade is a radical Communist group that believes change comes from the barrel of a gun. They are putting this into practice. They believe that for revolution to take plaed that first there must be a fascist takeover for the people to realize how oppressed they are. Then revolution will result. The Red Brigade kidnapped Aldo Moro, the former Capitalist Prime Minister of Italy. The Red Brigade wanted Political Prisoners freed in exchange for Aldo Moro. The Capitalists tried to trick the Red Brigade on the prisoner exchange but it didn't work and the Red Brigade got away without losing one man. In an attempt to break into a prison to free some of their comrades, one Red Brigade member was caught. He was ingused and taken to a hospital - he killed himself by taking poison so the fascists could get no information from him. The Red Brigade began shooting rich businessmen and government folks in the legs. I think this is an effective tactic. Your nerves these Capitalists pigs must be every time they leave their house or place of business. The Red Brigade has guts and I admire them.

African countries: Mauritania, Chad, Sudan, Niger, Nigeria, Morocco, Spanish Sahara, Ivory Coast, Senegal, Algeria, Libya, Cameroon, Kenya, Ghana, Dahomey, Burundi, Uganda, Mozambique, Ethiopia, Somalia, Tanzania, Gambia, Zaire, Botswana, Upper Volta, Liberia, Ruwanda, Namibia, Zimbabwe, Angola, and South Africa. South Africa's prime minister is John Vorster. Apartheid is the oppressive system that is carried on in South Africa. It is a totally divisive system. Apartheid means to keep apart, separate. The Blacks in South Africa are 3 main racial groups - Black, Asians, and Coloureds. Apartheid has developed a vocabulary to make it look like an official system. Bantustans are areas designated for the removal of Blacks from the cities. Only Blacks that are working are wanted in the cities. Those that can't get

(4) jobs are removed to the Bantustans. Those removed include women, children, seniors, & sick people. Families are separated. Most of the Blacks in the Bantustans must depend on family members working in the cities to send them money in order to survive. Each Black South African ~~must carry~~, 16 years and over must carry a Pass Book. This book contains their name, a picture, address, place of work, etc. If caught without their pass book, Black South Africans are arrested. Their family may never find out about this and often they are never heard from again. The only use South Africa has for her Black population is for work. Wages are extremely low - 1/20th of what whites get. The Bantustan areas are barren land. Starvation is widespread - graves for children are dug before the children dies because it is known that so many will die. Blacks in South Africa must be off the streets before dark and are not allowed to gather in groups of more than 3. The Apartheid system is the most oppressive government in the world. Black South Africans are not even considered human beings. They are considered either productive or non-productive. Those considered non-productive are literally thrown away and sent to live in wastelands.

The Day of the Jackal was a movie about the attempt to ~~assassinate~~ President Charles de Gaulle of France. The OAS was a patriotic organization that felt de Gaulle should be removed. They were extremely displeased with what had happened in Algeria. Algeria was a colony of France. The struggle for Algerian independence was a brutal battle. Many Algerians were tortured & murdered. The French even brought in troops from Vietnam in hope of suppressing the liberation struggle. The first struggle was suppressed but the Algerian people rose again and won their independence. The OAS felt this should not have been allowed to happen because there were many French citizens living in Algeria. The OAS hired a contract killer to assassinate deGaulle. This killer had assassinated a leader in the Dominican Republic. He used the code name Jackal, & set out to use any means possible in order to assassinate deGaulle. He first acquired a birth certificate to get an identity by going to a graveyard & finding a baby that died very young around the time he (Jackal) was born. He stole a passport to keep in reserve. He had a special weapon made (rifle with silencer), and any murder he had to commit along the way, he simply did it. Jackal did get found out. An OAS member was kidnapped & tortured & ~~cattle~~ uttered the word "Jackal". Jackal was informed of his cover being blown but

15 (over)

he still went on with the assassination. He didn't succeed, but came extremely close. His planning strategy can certainly be a lesson to us.

Uganda is under the dictatorship of Idi Amin, who in the past has taken no shit off anyone. The Capitalist world has made a joke of him. Unfortunately he is getting friendly to the US. Algeria was under French rule, but gained their independence in the early 1960's. At one point all the revolutionary leaders were killed but the Algerians rose up again & are now a Socialist country. Mozambique is a newly liberated Socialist country. Ethiopia, formerly under Italian rule, and then under the rule of King Hali Salassi, a Christian & friend of Billy Graham, is now liberated & backed by the USSR and Cuba. Tanzania was formerly under British rule, and gained their independence in the 1960's. Tanzania is under the leadership of Julius K Nyerere, a Socialist. Zaire is headed by Mobuto, a puppet of the United States. Namibia was formerly South West Africa, under the rule of South Africa. Namibia was set up with 2 puppet governments once and both were assassinated. After that no one wanted the job. The liberation organization in Namibia is SWAPO (South West African Peoples Organization). Zimbabwe, was formerly Rhodesia & under the racist pig Ian Smith. The name Rhodesia comes from Cecil Rhodes, a rich diamond mine owner. Zimbabwe is the African name. The Patriotic Front is the liberation organization in Zimbabwe. Joshua Nkomo, a nationalist, and Robert Mugabe, a marxist) are the Patriotic Front leaders. Nkomo was approached in hopes he would sell out but it didn't work. Angola is headed by Augustino Neto. In 1973 Angola won ~~independence~~ her independence from Portugal. Backed by the USSR and Cuba, and with their help the MPLA (Popular Movement for the Liberation of Angola) headed the liberation struggle. Two other organizations, FNLA & UNITA were backed by the CIA and China. These organizations tried to persuade the people to be on their side. However it didn't work and Angola is now a Socialist country.

The PNC is the Peoples National Congress, headed by Forbes Burnham, the Prime Minister of Guyana. The PNC is the party in power. The PPP is the Peoples Progressive Party headed by Cheddi Jagan. It is the opposition party. Both parties are Marxist. Cheddi Jagan received an award from the USSR for his contribution to 3rd world peace. The WPA is the Working Peoples Alliance and is a CIA backed

(B) Party. Guyana has taken a brave stand to show a pro-Soviet stand. After what happened in Chili any country in South America going Socialist is risking interference by the fascist USA.

Shelley Jensen

I want to add that when Chili was overthrown China wouldn't take in any Chilean refugees, but the USSR welcomed them! China is obviously not concerned with 3rd world liberation.

Nationalisation is a situation where the government takes over a means of production. It is not Socialism. Nationalisation does not always benefit the people. Expropriation is when the means of production is taken over entirely by the people. It is a total change - Socialism.

White settlers are trying to leave South ~~America~~ Africa and move to South America. They are nervous in South America because of the revolutionary activity. The two countries that have agreed to take these fascist settlers are Costa Rica and Uruguay. This is too close to us. These people are fascists from the apartheid system in South Africa. Many were pro-Nazi and hate any people of color. We want to see South America liberated, not taken over by fascists.

Jim Stern has hired a CIA front called the Eureka Research association to spy on us, kidnap by sending in mercenaries. Their objective now is to kidnap or murder our Head. Eureka Research specializes in aerial photography and kidnapping. They are stupid to try to infiltrate Jonestown. They underestimate our willingness to die defending ourselves. This leads up to what I am willing to do for our cause. I have a real hate & disgust for the big corporations that cause the misery of millions of people the world over. I would like to blow up buildings, factories, belonging to these multi-national corporations, like Dow Chemical Corporation, United Fruit Company, Chase-Manhatten Bank. I would like to see this type of operation synchronized so it happens to alot of places at the same time. I would also like to be involved in assassinations of owners of these corporations. This would require observation of their schedules, where they live. I feel the best way to do this is shooting. This would require my learning how to use weapons. I have an uneasiness about doing this and get a bit nervous thinking about it, but if it was necessary to do, I

17 (over)

would do it. I'm also willing to stay here in Jonestown & continue on with what I'm doing. I'm glad to be able to work with our children, however I often find teaching difficult. The paper work is tedious. I really like the children but often find myself wishing I was in a field and looking behind and seeing the rows I'd planted or hoed. Teaching leaves me wondering if I've done an adequate job. It's difficult but necessary and I feel a responsibility to our children. It's only because of your teaching and example Dad that I've come to realize this. & Back to revolutionary acts, I don't know the extent of Rick Schroeder's part in the conspiracy, and I do have a personnel vendetta against him. I feel I could easily get close to him & snuff him out if that would be of any benefit. Alot the traitors know me as a passive & weak female. If I could get back to the States, I feel it would be easy to convince them I had left Peoples Temple I'd like to invite them all over for dinner & poison them.

I feel guilt for alot of the shit I pulled back in the states and all the things I didn't do that I was capable of - I spent money on myself that was designated for needs once I had an entire paycheck. I could have pamphleted more. Often I got money from relatives and didn't turn it in. I wasted shampoo, soap, toothpaste, food, paper, and often got things I thought I needed but really didn't. I spent my first 3 years in Peoples Temple doing nothing for the cause. I stayed home & played housewife to a fucker! If I had been strong, maybe Rick Schroeder wouldn't have left and caused so much trouble for Dad. I let him get away with shit & never reported it. I know for sure that I'm better off than ever without Rick Schroeder, but I am to blame for alot of the shit he is doing. I'm grateful to be free of him, but guilty for not reporting him & being too passive. At one point after Rick was gone I was told to move from Page Street for safe and my protection. I got all upset & didn't want to move & caused some hassle over this. I should have moved without question! I feel guilty that we are revolutionaries and yet we eat well, live well, & don't suffer, when ~~others are slaves~~ there are starving, being tortured, and yet still fight the capitalists. It's all only because of Jim Jones that we live in such beauty. Because of this I feel I owe whatever I'm capable of to the Communist cause. I'm glad I decided to follow the Communist way - thank Jim Jones for this. Sably Jensen

So. America (1) Laura Connaton

Test

Guyana - Forbes Burnham, PM, has visited 5 countries - USSR, No. Korea, E. Germany, and 2 others, showing the direction of the PNC is changing to be more openly pro-Soviet. A few weeks ago, Cheddi Jagan threw his desk over in Parliament to appear to be upset about the conservative direction of policies under the PNC - the Soviet Union has made strong supportive statements about Burnham and Guyana. (Cheddi Jagan is married to Rosenberg's daughter of early 1950 Rosenberg case)

Now there is a national strike of all workers to show solidarity within the union. They celebrated May Day — a day marking the "Haymarket Massacre" from the U.S. in 1886 when some communists were framed and executed for a demonstration. It was broken up by police with some lives taken. The unity of labor and the Clerical and office workers union is a great accomplishment since it crosses the racial lines of Guyana. The Guyanese stereotype Blacks as office workers and E. Indians as the rice, sugar, agriculture workers for the most part. In Linden, where Bauxite is mined, there was a large demonstration and police had used tear gas to break it up. Mr. Mingles traveled up to see why the police used the gas. The police chief reportedly is conservative there - Lindeners on the East Bank Demerara and is a liberal community the govt has continued to support and encourage in industry and agricultural communes.

The Guyanese govt has said we could protect ourselves any mercenaries have nerve to come on our land and they approved our use and permits for more guns.

The N. Korean embassy pushed representatives visit our house, also GDF head and other officials

Guyanese govt - an election would be upcoming. The PNC is afraid they'll lose in a popular election since the E. Indian PPP outnumbers the PNC. A referendum to postpone the election

EE-1-I&J-19

being considered - We would do well under either party since they're both Communist or Socialist - tho the PPP is more Marxist than the PNC at this point - Dr Reid is with the PNC, and he has been our closest ally in the govt.

Schools - the govt has licensed our school, says it is best in country. They require all students take a comprehensive test - ours too, so we have to push school to get the students to pass.

U.S. Embassy here - McCoy has agreed to be contacted if any one questions us keeping Maria or anyone here. If one of if any one questions our progress here, also has told us he was contacted to allow mercenaries into Guyana to kidnap or kill - he refused and told us, but we don't know how some rightest members of Venezuelan govt may react to the same plan.

Guyanese people and govt are voicing concern over bringing the white racists from Transkei to So. America - we'll have more but Costa Rica and Uruguay have agreed to take some. We backed this decision, signed a petition to voice our support.

Mexico - has held off any dispute on borders, lines of Nicaragua - which is a good sign since the US wants to stir up conflict and Mexico has been a puppet of the US for years. Still Mexicoes not so overt right - US intervention - they sold out.

Venezuela - an independent capitalist country, member of OPEC, that is now trying to find an alternative standard of exchange besides U.S. currency.

Chile - in Sept, 1973 Allende was overthrown and assassinated. He was an elected President - Socialist, and had just properly safeguarded his govt against the USA - CIA as the army turned on him. The US spent $9 million on his assassination alone. Pinochet regime that then came into power is a torturous, cruel regime that tortures and kills without regard for the UN sanctions and the reports on inspections by humanitarian groups. Deb is reading a book on Chilean prisons and torture now - from the beginning of the coup when the last free radio station was finally broken and the courageous radio broadcasters were arrested, taken to the torture chambers and, like many others, were killed & tortured.

(2) So America — Laura Johnston

Chile - contd - recently some prisoners were released, but still a drop in the bucket. People are still disappearing there. There is some activity growing to oppose Pinochet, but it is slight at this time.

Uruguay - a fascist capitalist country - has agreed to take some of the white racists from Transkei.

Nicaragua - they recently had a revolution and won. The US has been involved in that nation for 120 years - in the past Presidents Pierce and then another President sent in troops to keep "order" and ass kissing. (It is just so of Mexico, so is actually in Latin or Central America). We, P.I., were directly involved in their freedom battle.

Bolivia - six women fasted and caused freedom fighters all over So. and Central America to struggle and unite.

Panama - Central America - Panama treaty was a total sell out by the US - after Carter signed it, Congress amended it to make it worthless - finally after 1999, Panama will be self-governing but always "neutral" - So the US has excuse to interfere if that is not followed.

Grenada - island near here - independent with socialist President Maurice Bishop - but less vocal and, as a possible refuge for us - more shaky because of the closeness to US.

Puerto Rico - US territory - fighting against US domination - fostering vessels held off US naval demonstration.

West Indies - Gr. Britain is trying to send minorities from the West Indies - an area that Gr. Britain controlled and governed for 400 years - back where they came from. Keep them and educate them. The governments of Haiti, the Philippines and Jamaica are especially repressive and murderous. England, that had once had the reputation of being fair to all ethnic races is now retracting that position. Thatcher, in Gr. Britain - Min. of Education, has openly said that minorities should be sent back because of the expense of giving adequate education care, etc. so that - Since they are so close to the US - their struggle for freedom will be more difficult than in the Phillipines where have been struggles against Marcos regime

EE-1-I&J-21

Cuba - island in Latin Amer - just 90 miles so. of Florida, is aiding in the struggles of other 3rd world countries - now in Ethiopia. Their country continues to progress, they have highest literacy rate in Latin + So. America, they have been supportive of Guyana's independence from G. Britain influence and socialist path.

U.S.

- 3 children 3, 4, 7 burned to death in Taylor, Alabama, a goat placed on top
- 80 cities had racial riots
- Police Chief Davis running 2 to 1 against Gov. Brown in poll for next governor. He favors lynchings + violence, is a member of 4 racist clubs -
- Frank Rizzo is mayor of Phila - running on a new party - white Rights party. When he ran years ago - he had on platform that your home is your castle + and no one has the right to interfere - integrate, etc.
- Carter said he'd stop making Nuetron bomb - never planning to do so - then changed his mind 2 weeks later - bull shit. Nuetron bomb is designed for use in US ghettos - they can be made with exact ingredients to destroy a district - within yards. The bomb is being used in So. Africa and Mid East + gave it to France this that is a front for us to continue making it
- Senate Bill 1 - 1437 continues on course
- Chicago - young children are castrated in schools, on streets
- C.P. office in New York was blown up, along w/ other leftist group offices
- most police violence than ever before in US + LA, SF included
- Jodai Keller has rel'd to SF. Killed 3 - now SF is all afraid, deserves it as it was + is unwilling to stand up to injustices
- Malcolm X killed after he went to Ghana and changed from Black nationalist fights for all oppressed - every color. He said policy makers in US has not "President but the ones w/ financial strings. He was still too religious but was getting too close to home, so was killed

Conspiracy

T. Stoen has contracted Eureka Research Assoc. - an aerial photography reconnaisance group, as mercenaries, to come to Guyana - earlier, mercenaries were sent in to kidnap John & Children - Now - the plan is to kill or kidnap Dad. Stoen has collaborated with all class enemies of us to destroy Jim Jones - he set up Chris to be murdered and now Opal meets with Coleman of Texas who was directly involved in the murder. He, Nova and others are stirring up shit with Medlocks in CA - who now say they wish Clara & her children were dead. Stone's dad, enemies of many of us here. We found 2 police using ultraviolet ray cameras outside the SFPT photographing all who come there.

We had a meeting of communists there - SFPT - including Herbert Apthekes - longtime CPUS communist party leader - and others. Dad made strong radio message connecting us all in one struggle, and got standing ovation there. (I met Apthekes 10 yrs ago during college demonstrations - my philosophy professor, Howard Parsons was one of the advisors on Strategies of the C.P. - New York branch)

We're selling the Ukiah church property separately as traitors can't be upon resources.

Stoen was threatened with a few short months in jail and sold out - now he's vicious - as an ex-Catholic Tom policeman who has to show he's white - Stoen is so offensive that he knows he'll never be trusted (Dad said last night - they'll kill Stoen and then blame us - so obvious but I hadn't thought of it) -

KKK organizing - uniting with Nazis more and more.

Nova Mettler, Stoen live as neighbors - probably for "security" and have no idea how closely they're observed.

2 Police Killed Chris - SWAT teams Red Squads are being surfaced all over US - in SF and other cities

Africa - Europe

- So Africa - apartheid still reign supreme - Vorster tried to set up 2 puppet states to show how well he treats Blacks - in Transkei and Botswana - they both rebelled from So. Africa to set up indep. states So. Africa is attacking Angola a free nation - and sent troops in 3 times in 36 hours - The So African govt is a US. puppet - US control the capital, the industries, etc and financially (and therefore completely) control the country. Under apartheid
- Unemployed Blacks (of 180 days) are sent to the Bantustan - a desert area of concentration camps.
- wives and children are sent to the interior, pregnant mothers to
- stamps are put on arms of workers for identity, harassment
- all workers must be in by dark, have miles to walk to job
- 40 Blacks to 1 white, pay scale 1/10 to 1 invested.
- workers w/out passes are arrested
- workers living in Johannesburg are in concentration type housing
- family life is destroyed
- people are beaten, abused with no recourse for justice
- worst racist, most oppressive fascist govt in world - as all
puppets, we see what takes U.S. So. Africa is rich in resource
So U.S. is keeping tight control
Zimbawe (Rhodesia) under Ian Smith runs close. Second to
So. Africa - puppet for the capitalist superpowers. Huge
rates of Black to white, yet no right to Blacks.
Transkei - new govt wants to send racist whites to other countries
in So America or anywhere - to get them out - we disapprove
of any in this continent.
Red Brigade - Continue to work in France, Italy, Germany, Japan - execute
officials and financial leaders have been shot in the legs are
kidnapped. Aldo Moro, former PM of Italy, wrote his final note to
wife to family etc - stating capitalists had sold him out - his
life for just prisoners - still refused. In US - over 2 million
has been robbed from banks by leftists for freedom fighters, USSR
supports Red Brigade

(4) Africa - Europe (contd) - Laura Johnston

Ethiopia + Somalia - fight continues over boundary and rights to Horn of Africa. Capitalist forces pour money, troops to work from Somalia causing border disputes. This area could easily be pretense for nuclear holocaust. Somalia thinks Ogaden white - Black Arabic - so divided from Ethiopia

Zambia - turn to agriculture. US tried to manipulate copper payments and ruin economy

Yemen - offered sanctuary to Red Brigade members. Socialist Arab State, important location - helps Soviet soldiers in N. Africa

Italy - they think Aldo Moro may have been smuggled back in, so. They set up martial law, went house to house, found nothing. He wrote final note - saying his death soon - solved by fellow capitalists

Ghana - where Patrice Lamumba killed - formerly Belgium Congo. Malcolm X changed policy when visiting here - to tribal & pro-African

SWAPO - So. West Africa Peoples Organization set up in Botswana as the Socialist group - freedom fighters.

OPEC - Oil producing countries. Saudi Arabia, Nigeria, Venezuela, Iran, _____ are meeting to discuss oil prices. They are discussing changing off of U.S. currency as exchange figure

~~Middle~~ Arab and Middle East Africa

Libya - leader is Khadafi who is very friendly to PT - an indep. Socialist state - Arabic, but support the false separation that some Arabic Socialist States have - (i.e. Somalia) pro-Soviet nation

Uganda - Idi Amin purged his govt to get rid of opposition

Israel - Begin P.M. is visiting U.S. as Carter wanted Zionists in U.S. to be assured of U.S. support since Carter has been meeting with other Middle Eastern countries for oil negotiations. Israel is artificial state set up when other nations refused to accept Jews when Hitler tried to sell them internationally. So Israel was set up by UN - puppet move - on a dead date put in Middle East - but on Lebanon's territory

Palestine - PLO - Palestine Liberation Org. is still fighting guerilla warfare from the Arabic section of Palestine, trying to free former territory.

Sudan - pro Soviet area, important resources, location in Near East politics

EE-1-IAJ-25

Middle East, Asia

Afghanistan - leader and his son were killed, then other officials, 24 hour revolution won socialist state

Pakistan - P.M. Bhutto awaits his execution on June 1 in a cold prison cell w/out a lover. Army took over. Within nuclear device exploded in Himalayas - US lost position in most East Middle East countries

Japan - Youth killed 1000 porpoises - quiet, intelligent creatures by stabbing them - in U.S. 375 thousand are killed yearly - Capitalist infection is deep in minds only Socialist compassion can re-educate us away from such tragic sickness

China - growing dissent to present "Nationalist" policy. While all in one neighborhood were at a communist rally, homes were blown up by dissidents who supported the internationalist policy of Mao's wife and the 3 who were ousted with her. They have fantastic domestic policy - terrible foreign policy. They figure w/ their 1 billion - they'd lose 1/3 in a nuclear exchange and still have enough to control the world. They entered in an alliance with England against USSR - tragedy to fight another Communist state with such unholy alliance! China supports white Arabic Somalia against Socialist Ethiopia - on the same side as fascists - US & Great Britain. China had refused to admit Cuban refugees after the 1959 Coup.

Chad - US has sent French troops to fight and Moroccan troops to keep down Socialism (African country). In USSR, the students have occupied the Chad Embassy to show solidarity with the struggle Chad is going thru - more fighters of the fascists on several borders. USSR is showing support by not interfering with the students (many of Patrice Lamumba University) the students want foreign forces out of Chad, want freedom

Viet Nam - China now involved in borders disputes - a shame China is on wrong side in every controversy between capitalist states & communist states - now fighting communist against communist (here and W. Soviet Union)

Turkey - has had US money and military bases for years, now strife going in - pro Soviet attitude of some in country, on its borders USSR has had recent history of fighting w another fascist state Greece, over Cyprus.

EE-1-IIJ-26

(5) (5) Laura Johnston

Third World Doctrine - China's foreign policy - world is divided into 3 worlds

1. USA, USSR
2. Nato - northern European nations
3. China, 3rd world undeveloped nation

China includes herself in 3 - but on international politics is inevitably on the side of the capitalist, against the oppressed. Until '69 - US was #1 enemy, but in '69, US failed in Viet Nam, lost face as US army rebelled and Albania switched camps from China to Soviet Union - so USSR was moved from 2nd group enemy up to #1 group and #1 enemy. China now has only one nation in her camp.

Guilt - (I wrote on note about 3 mos ago)

I feel guilt that in the US, I had my mind or my ass so much - just fantasies then but they kept me from knowing myself as I should by now. I'm sorry I couldn't be one of the ones who had earned your trust enough to stay to the bitter end - so someone else could be here not there. I'm sorry I always have had food as such a big part of my thoughts - I'm just working through it now. I'm guilty I didn't help more while I was there, on letters or at the Coral Stand or visiting people who needed attention. I'm sorry I wasn't around when Melinda Breidenbeck left - I maybe could have talked to her, or Ben Bowers - you mentioned one that he'd left - he was always strange but if I'd written to you maybe I could have helped by getting him more involved someway - trying might have at least been better than not trying at all - I don't know.

Revolutionary Death or action

I would gladly take some of those assholes with me to a death - some ways I thought of - jealous wife - kill Steer for trying to make it with - say - Andrea, as my fiance, or grace, or Deanna - maybe I just found out EE-1-T&T-27

For long term - harassment - get some tie in to the community where they live - a neighbor etc - where rumors could be started about them - either Steven's Marties sexual abuse children - or whatever - to their comfort and stability would be shaken up - those are groups they involve themselves in * that is a small scale idea - probably too time consuming for results.

Some easy things to harass:
- send in their phone # to sex magazines so they get lots of calls.
- put them on mailing list for porno literature - they might have to explain that in the future.
- divide and divert attentions so Mert + Deanna think each has someone else, Tim + Grace are lost causes to this myth already - maybe have Mert think Deanna + Grace have something going - or Deanna and Liz -

to kill any of them - without lots of questions or ~~lots~~ some living thru it - all I can see is going into a house where a lot of them are gathered - and go in with explosives that I got - lots of them and blowing the whole house explode.

Maybe the Red Brigade act - shooting one in the knee would quieten the rest somewhat - say Tim, he'll be less likely to get around to do his duty work - maybe it could look like the Zodiac or a Zodiac protege did it.

Also - maybe the traitors could get the word that the Zodiac is after their asses -

Thank you dad for teaching us with your sensitivity and love - thanks for insisting that we learn the news so we can better relate to all who are struggling for freedom

Dear Dad,

I know this is letter is long overdue. I just keep busy and the time passes so quickly. :) Thankyou for the Mothers Day Card it was very sweet. It certainly made me feel good. Speaking of that all your Grandchildren are just fine. I have some recent pictures and as soon as they get developed I'll send you some.

You asked how they decide who goes to GI Town. well we have teams or groups of people who perform different functions. It just so happens Mike Jim & I sometimes land there at the same time. Mike does radio maintenance & purchasing. Jim Public Relations and I probably won't be going as often now that I'm training, but I will be going. I run errands and coordinated the household. You asked me if the school is accredited, no not yet.

Re: Hostilities

My hostilities are, I'm hostile at times, when I have to follow structure when I don't want to. I'm hostile when you make me face reality when I still try to hold on to illusions. I'm hostile at times when people I don't like get more time w/you than I do and they don't even appreciate it & learn from it. (I'm speaking of Harriet) I know you do this .. for our own good. I know myself I need structure, this doesn't bother me all the time only when I'm not trying to become O.

Sexual feelings toward you. I don't have any. You are my dad I prefer it this way. ~~I~~ You have made me feel I have self worth by just filling my need as a Parent. Honestly sometimes I have felt I was weird because all the people I have more or less been friends with have related to you sexually and I think maybe I'm not looking hard enough at myself. This used to confuse me alot. I doesn't

thought about for it out for a long time.

I love hearing about the experiences of the early Peoples Temple. To me its fascinating it also shows your character how you have sacrificed your whole life for this movement. The old timers of the church are also proof that you have done all these things that are said to have been done. I think their stories & testimonies should definitely be in part of the book.

I just want to thank you for all you have done for my life. No doubt I would have been dead on drugs. (I always took to much) What touched me when I came was that I was given food a bed and a real family structure (the ranch) I had no home or a house. I stayed w/ so called friends who resented me. For the first time I felt secure. and needed. Thankyou for saving me & giving me a purpose I certainly didn't deserve it.

Then she said she felt much better talking to me. That she had just needed someone to talk to. That she knew she shouldn't be so weak, and she would overcome this and get stronger. Said she knew I would go and tell you, and she didn't want you to be concerned about her, ### as she felt much better about it all now. She had just needed to talk.

Said she doesn't believe Debbie ### ever really understood Socialism or Marxism. Said she was here because of you, but she doesn't think Debbie ever really understood the philosphy. I agreed with her. Then we talked about the movie "Z" which she was quite interested in.

Dear Thelma:

I am very sorry, I did not receive my mail, in time to get my reply back to you on the date specified in your note. I was involved, with having X-rays which revealed that I will have to be operated. That shook me up considerably, in its turn.

However, I hope this will not prove a great inconvenience to you. I paid, in addition to 1965 tax, a declaration of estimated tax for 1966 non-wage income for the four calendar quarters (1966). I believe this will take care of ~~all~~ the non-wage tax for 1966 -

I certainly had not anticipated gallstones in addition to my other physical problems. 1. I feel very strongly that part of our behavior problems with our children is due to a lack of opportunity for strenuous play activity. I think the children's playground should be a priority. I also believe that organized sports with a non competetive emphasis should be encouraged. Some of these children will never excell in any other area. I do agree that they should only be allowed to participate if they are doing THEIR BEST in school. Also, I think any praise given concerning sports should deal with attitude ie sportsmanship etc.

2. Is it possible for drug expenditures for Guyanese citizens to be cleared through me if you are not available? An unfortunate situation occurred Sunday that was later resolved. I'll tell you about it later. However, I don't think anyone in the radio room should be in a position to make the decision unless they take the time to understand the the entire situation. I would just like to be called if you are not available. I think I do understand the need to conserve and I will be careful. I just know that if certain situations go untreated it would be better if the case never got inside our gate. THE SITUATION SUNDAY WAS HANDLED AND THERE IS NO PROBLEM. DON'T WORRY.

3. We are working on relieving Joyce Parks of some of her responsibilities. She is so over extended that I fear for her health. We had a meeting today and we are going to be able to relieve her of some things. One of the things she does is as P. R. person from the medical department. Since the people in the surrounding area know her, could she just make an appearance at a meal or some thing like that and let someone else take them on rounds? I am glad to be available when I am here.

RED CROSS INFORMATION BULLETIN

The Redwood Empire Chapter of the American Red Cross has appointed Mrs. Lynetta Jones as co-ordinator of the S.S.I. Alert Project for the greater UKIAH area. S.S.I. (Supplemental Security income) is the new Federalized Program for the blind, aged, and disabled that replaces the State Public Assistance Payment.

S.S.I. Alert is an "outreach program" initiated by the Social Security Administration and the Administration on Aging to help locate and assist possible applicants.

Mrs. Jones has had wide experience and is a specialist in the field of aging. She directed "Project Find" and brings a considerable amount of expertise to her present position.

The Success of this program depends to a large degree on the interest and cooperation of community agencies, organizations, and church groups who will inform their members of the new Supplemental Security Income Program.

The Red Cross is asking for volunteers to give a little of their time to help tackle the job of reaching eligable applicants who could benefit from this program. Please Call the Ukiah Service Center for additional information, 462-1818.

1. Today on my rounds alittle boy asked me to please write Dad a note and ask if they could have open house. After further investigation I learned that the school had planned open house Sunday from 7 to 9 P. M. It was then postponed until Monday since Peoples' Rally was held. Because of the movie ~~ZEE~~ it could not be held again. I don't know this child's name but it seemed so important to him that I thought it might be important to other children. Maybe if you could let them know you are sensitive to the problem even if it must wait until next Sunday or indefinitely, it would help.

Tom Grubbs would like to do it tomorrow evening if possible.

2. I know that every person alive has a saturation point. Some have left at that time. Which is unforgivable. But other of us handle those times in less damaging ways such as withdrawing, crying alone, doing exercise and etc. However, I think that if people could be encouraged rather then discouraged to verbalize their frustrations without feeling they are being judged we might be able to head off some of ~~their~~ treason and serious acting out. I saw Tom Grubbs today and he seems extremely pleased with how things are going and I hear you handled it very well. I am proposing, ~~xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx~~ not that you be burdened with handing these situations but that a group of counselors be trained to handle them and that people not feel guilty when they express conflict and frustration. Often, just an explanation as to why a thing must be done will suffice. I know this is ~~xxxx~~ no panacea. I just did some thinking today after Johnny Jones said he wished we could identify people who were having problems before severe acting out occurs.

*3. I talked with Michaeline today about where she would like to function after she gets off the Brigade. She said she would like to work as a supervisor of the Brigade. I think that Sounds good. We need someone. She would be with someone always and I think she will understand the Brigade procedures and will be fair. She wants counseling with Pat before they get together. I talked with John Jones and he is arranging a Pre counseling with Pat before we bring them together in a counseling session if that is alright with you
SHE IS DUE OFF THE BRIGADE TOMORROW IF ALL GOES WELL.

Taken from "Souvenir Program," Centennial Celebration. Ukiah Republican Press: Ukiah, California, 1949.

Magnificent Mendocino! When our eyes light on this beautiful and grand county of California's mighty 58, they echo the feeling of true magnificence that only verdant mountains and peaceful valleys can produce. To the traveller viewing Mendocino for the first time, he can but exclaim in sheer delight at the natural beauty he sees here.

Begin with Feds

In size the county's extreme length north and south is 84 miles and its greatest width is 64 miles. It has an area of 3,500 square miles or about 2,000,000 acres of land. It has 100 miles of coast line along the Pacific Ocean broken by many beautiful bays affording valuable harbors.

The musical and historic name of Mendocino which was bestowed on the Cape by its discoverer Cabrillo in 1542, in honor of his patron, the viceroy of Mexico, Antonio de Mendoza. 300 years later it became the name of this county.

The first legislature met at San Jose and passed an act on Feb. 18, 1850, which provided for the subdivision of the state into counties and the establishment of seats of justice therein.

It also defined the boundaries of Mendocino County and attached it to Sonoma County for judicial purposes. By an act of the Legislature dated April 25, 1857, Mendocino County was attached to Sonoma County for revenue purposes as well.

Four grants of land were made by Mexico to individuals in this county before the territory was acquired by the United States.

The Del Norte Grant was said to have been given to Rafael Garcia by Manuel Michaeltorena in 1844.

The Albion Grant containing 11 square leagues of land and extending from Big River to the Garcia River was given to Captain William Richardson by the same authority in the same year. Capt. Richardson was an Englishman and named his grant for his native country. The boundaries of the Albion and Garcia Grants overlapped but no trouble arose over that fact as neither of the coast grants were confirmed by the department assembly at Mexico City and the claims of the grantees were rejected.

The Sanel Grant of four square leagues of land covering the entire Sanel Valley was made to Fernando Felez by Manuel Michatorena, Nov. 9, 1844.

The Yokayo Grant of eight square leagues of land covering Ukiah and Redwood Valleys was made to Cayetano Juarez by Pio Pico May 24, 1845. The Yokayo Grant was 18 miles long and one mile wide and contained 35,541.33 acres of land.

In the Indian language, there has been some question as to the exact meaning of the word Yokayo. The most generally accepted version, which present Indians hold to, is "deep valley." The present day word "Ukiah" is merely a corruption of popular pronunciation of Yokayo.

Dearest Jim,

I met with John Mahar along w Sandy and Gene. Sandy has captured the gist of his conversation quite well. He says we'll weather the storm and come out better for it. However, he knows nothing of our threat to move there and our diminishing numbers here. However, I think his idea (Cheard) to make contacts in other communities (Cheard-ete) might not be a bad idea.

It seems that Benny Mann has remarked he might at the press (I got this 3rd hand) at some future date to do a documentary. I would suggest that Rhiannon Cone (She thinks she can finish moving and closing Commune and introduce someone else to her contacts for buying by Sept. 15.) to decorate the dwellings to be ready for such an event. She is very creative. She can do so much with so little.

I gave Edith Roller your message about the possible betrayal of a close friend and claimed

She did say she cared for no one as much
as this Dause - for what it's worth. She
seems in a pretty good place now. I'll
keep my eagle eye out for any signs of wavering.

This is very important!

In the shipment leaving Miami
about now - Pharmacia is sending
Chemicals for making soap - shampoo - etc.
It is important that no one try
to use them until she gets there &
instructions. Also, she has the keys to open them. They are blue plastic containers
and contents are clearly marked on the
outside. She says we can make our
own for a good long time with that stuff.
I'm afraid that it might be ruined & wasted if it's
not handled carefully - Ruby Carol - if she
comes first can also handle it!

I am telling you this to relieve your mind, for I know you are concerned that you can't be here. Of course, she has so many dedicated persons surrounding her as you know. For this I am grateful.

I am so sorry all of this has had to come up. I know it is very hard on you. Many are behind you, tho' - so don't despair

I can't be here for long just now, but, I am so grateful for these few days.

We love you very much and wish we could lift some of the load from your shoulders.

Love Signetta my love - I will try to get a letter written ahead to her so it won't have to be done so hurriedly.

Dearest Jim,

There are a couple points I think important:

#1 We are getting much publicity about Corporal punishment being used. Certainly it is grossly exaggerated. However, while you are there - you, must, I think, impress upon those in charge that they must be careful of the forms of discipline used. Certainly - peer pressure is a good example, and isolation is the best. Now that you have young people there who are not discipline problems - you can use the peer pressure. Before it was near impossible because the only peer pressure there was from young people who had been totally destroyed by this system and had some ~~they~~ bizarre behavior patterns.

EE-1-I&J-69

#2. I had mentioned much earlier to Sarah about getting in touch w Charles Preston. She was hesitant to contact a Newspaper reporter. Should we try to check him out first? Also — if you still want me to contact him - ~~what else~~ where does he live? I found John Preston Ward thru Doris Ward.

[redacted]

Things are O.K. here. When I think of how much more others have suffered for the cause - I cannot find it within myself to complain. The thing that ~~capped~~ it with me is the passing of the death penalty. I am also enclosing a copy of a Bill that is a substitute for Senate Bill #1 I'm so grateful that the children are there to be saved from this oppression.

Love all of you so much -

TO WHOM IT MAY CONCERN:

Having been the wife of Jim Jones for 28 years, I think I have a perspective of his life in which you might be interested.

I met Jim in 1947 when I was a student nurse at Reid Memorial Hospital in Richmond Indiana. He worked full time at night as an orderly while attending Richmond High School. We were married June 12,1949. We moved to Bloomington, Indiana where we both attended Indiana where we both attended Indiana University full time. To pay for his education, Jim worked full time at odd jobs. He was an excellent student, and faced a bright future in any career he chose.

In the 30 years I have known Jim, his primary concern has always been for those fellow human beings who are relentlessly oppressed. I have never known him to make a decision that would benefit him or our family at the expense of anyone else. There has never been an issue involving human rights that Jim thought "too insignificant" to deal with. For example, during his freshman year at college he walked out of a barbershop with one half a hair cut, because the barber stated he would not cut a Black person's hair. On another occasion he was hitchhiking home from Indiana University when the man with whom he was riding made a racist remark. He immediately demanded to be let out of the car, and walked. Another time the police were called because he was supposedly disturbing the peace. The peace was " disturbed" because Jim refused to eat lunch quietly in a restaurant whena Black man was forced to take his lunch out in a paper bag.

In the mid- 1950's, Jim was the associate pastor of a large church in Indianapolis, Indiana. The pastor was near retirement and Jim was to succeed him. However, one day he discovered that Black people were being seated in the back row of the church. He asked that I escort them to the platform. Right after that meeting, a church Board meeting was called. The Board offered him, as an alternative, to build a church that he could pastor-- for Blacks only. He walked away from this position, saying " any church where I pastor will be open to all people." It was then that he established Peoples Temple.

In the early 1960's, Jim was very ill and was to be admitted as a patient to the Methodist Hospital in Indianapolis, Indiana. At that time he was Director of the Mayor's Commission on Human Rights. His physician was Black, and, when it came time to assign Jim a room, the admitting clerk asked him if he was "colored or white." Jim, who was badly in need of medical attention, was

EE-1-I&J-73

incensed a d refusedto go to bed until the hospital was integrated.Black friends who were patients at that time told of being moved in order to integrate the wards. It took several hours, but Jim did not lay down till it was done, although he was in much pain.Jim's concern has always been results, not publicity, and although he was Director of the Mayor's Commission on Human Rights, Jim did not call the press to get "coverage".

I recall vividly the May of 1959 when one of our children was killed in a car accident. The cemetaries were segregated and our daughter was Korean. Blacks and other Third World people were buried in the low lands were water often stood, inches deep. Jim was told that he and I could have our child buried in the " white section". He replied, " I cannot bury our child anyplace where any member of my church cannot be buried." And so, I can picture, these many years later, our five year old being lowered into a grave, half filled with water, in a swamp land. It is a painful memory, but one which I would not erase, nor do I regret it for one moment.

Jim has always had a special tenderness for seniors. I remember visiting one of our members in a convalescent hospital in Indiana. She was dying of cancer, and had been neglected. She whispered to us," get me out of here, please." Jim looked at me, and then turned to her and nodded. He got on one side of her and I on the other, and we carried her out of the hospital, over the protests of the administrator. She stayed in our home, and we cared for her until she died some months later. Yes, I know that technically we did wrong--- but itwas unjust to let her suffer, and I don't regret what we did.Not one iota.

As a result of his strong stands for justice(and I have given just a very few examples of the kind of personal stands he took, almost daily) our family has been greatly harassed . Jim's life has been threatened so much that I feared greatly that our children would be deprived of their father at a young age. However, we both knew that the only way to teach our children worthwhile values was to live our convictions despite the risk. So, despite the risk, Jim has always been very open , and forthright about his belief in economic and social equality.

In 1965 we decided to move to Northern California. We had small children of different racial backgrounds and we thought that California was the most progressive state. The harassment continued. Our children were taunted, animals killed, Jim's life threatened. A bomb was placed under the bus where he and I were sleeeping.on one occasion. Our San Francisco church was destroyed by an arson fire, and rebuilt by our people.

Jim has always lived his life under the close scrutiny of his mmbers. We have alwayslived modestly. Indeed, if we had not worn used clothing, and bought second hand furniture, we would not have been able to adopt our children.

Since coming to California, [redacted]
gruelling schedule. Contrary to my wishes and urging, he will not fly [redacted]
Los Angeles [redacted] rides one of the church owned busses. It was over his protest that a compartment was built in the rear of one [redacted] the busses so he could get some rest. He has never planned a vacation [redacted] without planning for all the people. You will not find him basking on some beach, or in a lavish hotel. At Christmas all the children of the church had the same amount spent on them, so that no child would feel ashamed . When families couldn't afford to buy presents, Jim saw that they got the amount needed to see that all children had an equal Christmas.

This is just a very very brief sketch. I could write a volume of examples of his concern for individuals, animals, and plants. I would like to close by saying that if I were not married to Jim I would still be a member of his congregation. His totally selfless life has been an inspiration to me, and I believe wholeheartedly in what he stands for--- socialism.

Sincerely,

Mrs. Marceline Jones

I have wasted money for clothes food that I didn't need. I have asked for needs money when I didn't need it. I got money from so called relatives and didn't turn it all in. I have got true help from the needs people and spent it. I have spent money on candy and stuff at the concession stand. I have spent money on jewelery and hats, when it could have been all going to the church. If a lot of more people cared here been over here now. I feel bad about it because I have been doing things that I know about not have done like not being Prayerful as I should have, and Wasting food talking back to people, not being kind to people, and demons, and cursing. This I am ashamed.

I'm passive and I don't take enough interest in agriculture meeting or agriculture by its self. And I don't speak up if I see more that something is wrong. I am to different and I don't take criticism well and I get very different when someone tells me that what I'm doing is wrong, and I also cut down people who I have respect for. My reason for living ① my desire is to see all of our people get over fear so that our population can increase so that we can expand our palace to help quite this control. ② My other one is to see the children become better socialist young like my self and others. ③ another one is to save our people from torture I did from 1934 to 1937. How I feel about dieing. I feel that when we die we're not going down for nothing. I feel that you can't never run away from death you always have to die.

Dear Jim,

Jack

I know your very concerned about finances, therefore I feel this should be reported. One day, I had to meet Debbie Touchette in the bank. Debbie was in the middle of Depositing money. She didn't have an accourt (definite) of how much she was depositing. She did not have the money in categories and the teller was highly upset. She was a nervous wreck and could not do simple figuring. My concern is if this is a constant patter we could have been cheated or cheated in the past. Once a teller picks up on an unorganized customer, they take money and the customer gets a bad reputation. I know how tellers are, and how they talk to other merchants. I'm not complaining about Debbie, as a person. Obviously she's very confident. My only fuss, is that she needs to be more organized dealing with money in large sums.

(Shanda Oliver)

Also checks from various business people have been ~~returned~~ returned for "lack of funds" and "lack of I.D. stamp" and Omission of one of two signatures required. I believe that some businesses are scrutinizing our checks more than usual and even shown some reluctance to accept them. Some of the problem is lack of experience of some people given checks and writing them properly — this can be corrected by careful selection and instruction of person given checks. Also record keeping can be better organized preventing errors and omissions.

I would like Debbie to share some of her ~~checking~~ check keeping responsibilities with someone else. I would be willing to help.

Dear Dad

I feel like I should have written weeks ago.

A. I don't like changes - moving, changing plans suddenly or rule changes. I'm getting better about accepting them, though. The worst is the diet rules. It seems that most from the kitchen come down both feet first especially on me personally (Rev. Mac Murray, Karen Harris) and I was losing a lot of weight before any restrictions were started and then after the rules stopped losing so well.

B. I get hostile when you demand things be done immediately which I should have done earlier but haven't done yet or started.

VI. Sexual feelings to leaders

I always confess or assess to having them. I even wrote that I had them ~~[illegible]~~ I think you hit the nail on the head when you said it as a power thing. Once in service you were a role which had huge hangers down the front and you were dancing. I looked at you out of the corner of my eye & thought I saw a woman. It was very embarrassing. I relate to you as teacher or friend, but not as a male person. It's probably a part of my way of coping. As long as we are fighting a war, maybe it's better that way. I have no present memories of relating to male individuals. Here I am able to without feeling ill at ease like I used to.

Dorothy had to go get it & Mary Rochette chewed her out for it. Mary is someone else I feel is hostile & looking for ways to make me feel uncomfortable about eating. 1) How I feel about living?

I would prefer dieing but if I know I could help change the world because I have many years before me. I could also help the younger children grow up and be somebody. To help them to help people change from fascist or Capitalist to socialists or communists. I hate running to the pavillion for white rights.

2) How I feel about dieing?

I would love it. I feel no matter how much shit I go through in pain and suffering such as gun holes, torture etc. It is not as bad as the pain I went through in the past. I know after I die I never have to face responsabilities [redacted]

3) Why I am going to Georgetown?

I don't want to but I know that we are bringing and uniting people together. We would also gain friends which could stop many of our white rights. We would also be able to teach the

Self Evaluation - as Misfit

1. My voice is not ~~strong~~ Loud enough to consider it essential for the Misfits to have a decent sound - so I doubt whether this is necessary as part of the Misfits going to Georgetown -

In any case - in case you do want this anyway, I'll go on -

Bad Points

① My past fuck ups show that I am still rebellious, anarchistic.
② I procrastinate organizing my time and energy.
③ I prefer being a loner so I don't work hard enough at conversation, communication.

Good Points

① I am confident I'll not be led by my ass again.
② I could work on insurance procuring while in town, help w/ any typing.
③ In Misfits - I cut down on feeling around and wasting time.
④ I'm a more determined Socialist than I've ever been.
⑤ I would MUCH rather never go to Georgetown again

Self Evaluation - ANITA I JAMES

1. I THINK I AM STILL MORE IMAGE-CONSCIOUS THAN WHAT IS APPROPRIATE FOR A SOCIALIST. I AM TOO OFTEN HESITANT TO TAKE THE BAD-GUY POSITION.

2. I INDULGE MYSELF WITH PARANOIA WHEN I THINK I AM BEING CIRCUMVENTED. THE LAST TIME I WAS IN G-TOWN, I THINK THERE WAS HESITATION TO VOICE OPINIONS TO ME, AND INSTEAD A MEANS OF CAUTIOUS APPROACH WHICH GAVE VENT TO MY PARANOIA. WHAT I SHOULD HAVE DONE WAS TO DEAL DIRECTLY WITH THE SITUATION MYSELF.

3. I TEND NOT TO FOLLOW SIMPLE STRUCTURES--SUCH AS CHORES. THIS IS AN ~~ELIT~~ ELITEIST PATTERN THAT I WILL WORK ON.

EE-1-I&J-89

4. I HAVE NOT TAKEN AS ACTIVE PARTICIPATION IN THE RESPONSIBILITY OF LEADERSHIP, EVEN THOUGH I KNOW YOU HAVE ENCOURAGED THE BLACK MEMBERS OF OUR COMMUNITY TO TAKE IT ON. I HAVE OFTEN PROMISED TO CHANGE, AND NOT DONE SO BECAUSE IT REQUIRED ME TO BE "DIFFERENT"--OR SO I FELT. THIS REQUIRES MORE SELF ANALYSIS, HOWEVER I HAVE BEEN "DIFFERENT," SO TO SPEAK ALL MY LIFE, SO IT SHOULD NOT HONESTLY BE A PROBLEM.

Dad,

I would like to know if it would be alright for Tim to move away from me. He wants to move and we both think it would be a good idea. It isn't working out even though we both avoid arguments. I don't think it's an issue about anybody liking somebody else and if it was so what I don't expect him or anyone to like me my whole life. I know Tim has a lot of goodness about him I have never doubted that. He has a very loyal committment to you and this cause. But together we just don't make it. Both of us would like to know if he could move. I don't think our break up would harm the adoption process. I wouldn't deny him seeing the baby because it is just as much his as it is mine. We don't hate each other and I'm not going to hold anything against him and I hope he won't hold anything against me. Thank you for all the time you've wasted on us I'm sorry I put you through it.

1.) Go into the Jungle and fight from there.

2.) Cover your body in Washington D.C. San Francisco, or Georgetown.

4.) Hunger

If Jay Lee is not good doing a Socialist Revolution

1.) Every human being must become and an individualist and not be possessed by anyone.

2.) Also your thinking must be clear thinking, Jay Lee distort your thinking. He should have a socialist mind.

Dear Dad

My main guilty is spending money when It could've been used to help buy more materials. ~~Such as~~ Dope, drugs, clothes, jewelry, drinks, so called friends, records, Lps, junk foods, Drive-INS, 10 speed bike which I ~~to~~ sold to my Stepdad & Spent the money on the children and myself. These things I selfishly spent money on & I feel bad. Also I never pamphleted Like I was told, I feel very guilty about that! Many things come to my mind, And tears often come to my eyes. I think about how I felt I wanted to go back home because it was hard for me to face not being around ~~Stories~~, hamburger stands, clothing stories. etc. I gossiped & still do at times is getting better.

My Children I've let down many times by going out and being high. Even though I had children I would still find time to hit the streets. My children don't deserve to be their mom. Guiltness as came when I wanted to commit Suicide because I wasn't a good mother, & besides other things. When I wanted to leave I thought about them and I knew how much or I thought I would know how much they would hate me. Guiltness is there because I brought four bright childern into this mad ~~god~~ dog world. They had to be on welfare dam near go hungry plus be put out doors. At times ~~dieing~~ dying Looks good but It Can't be done because since I've been here I am willing to become the bad

guy when needed. I owe my life to you and the Cause as well as the Seniors and Childern. To Ask for your forgiveness would be out of line. I can only show you how guilty I feel with my deeds & acts. Will work harder.

Everyones morale is high even knowing & experiencing the ups & downs, knowns & unknowns of ranch future.

Cooperativeness is really in full swing. Im exceedingly proud of our young ladies: Kim, Kris, Jakela, & SueEllen. They are all holding themselves together, & working hard. Curtis seems less hostile with his time off at parsonage to do security. Rob is still a spoiled pompous ass but very much needed & appreciated - Bonnie & I are dealing with him quite directly - he's taking it & improving. Im hard on him but he knows I really care for him so he does try & is responding. Ray Goltshalk has fit in perfectly - he is responsible with driving responsibilities & helps keep parsonage, temple, ground & pool in good shape. We really needed him. He does a lot of time at RV temple cutting our fill in times to nights, which has really helped.

Don Beck is really helpful with ranch as well as clients. His mood is excellent & he is taking less units

at Sonoma so we can really count on his help. Carol is fine, willing & able. Now to Mike Kingman. Bonnie & I agree that he is hostile. But disagree to the amount. I don't feel he is anywhere near a breaking point. He definitely needs some emotional & intellectual drain off that we are not able to provide him with. I do agree with Bonnie that long term ranch & job might wear him to a frazzel but I don't see any need to make plans to move him ours as yet. He doesn't interact with the clients as well as she would like, & he has this romantic ~~red~~ revolutionary zeal that bugs ~~her~~ us. I would like some city input before moving him as he does, know routine, is dependable, & brings in a large salary. Besides which I get along with him which makes it easier on me. But it also makes me less objective so please if other reports you get seem more alarming perhaps it's better to give them more consideration. He is struggling with a lot in himself ~~but~~ he is Not negative. He is hostile. Elaine

me-

I'm functioning fine - I feel extremely productive & needed. We stand a chance to make a great deal more money monthly. We have a new client coming in at $xxx per month. If we get our new rates we will certainly produce well & make selling easier. In my head I'm geared for at least 6 months to 1 year time. Much longer than that I don't want to face projections. I'll probably need a visit over for a transfusion / I am at peace with the children & there letters are marvelous. I am very much aware that this long seperation from me has forced them to blossom & grow & I am deeply grateful to you. I must confess I miss Richard much more than I expected. I once again I am looking forward to working with him even though I know the fighting will resume. I'm sure we can be productive together. I'm still a very emotional person. I hope no one is really concerned. I cry, yell, get blue, or sentimental, it all passes quickly. I get paranoid when I feel the city has passed me up & given information through Bonnie. I've talked to them

(2)

Ive talked to them about communicating more with me + I think it will straighten out. Please be patient + accepting of my personality. I can make it through ~~no~~ however how long it takes. There is timeless allegence + stability in my relationship to you + KJ.

Personally I have felt much better since Harold left. It took a great deal of my energy just to keep my temper in control around him. The final blow of his hostility he left to us that has caused a great deal of damage was when he called + told Bonnie that the ranch deal was closed + that the people were comming up for licensing + to meet with us. I just cant figure out his motive when he was already on his way ft FL why he would want to fuck us all over.

Bonnie + I have an excellent working relationship. I accept the fact that in this field she knows more, catches on quicker, + shines on much better than I. I usually dont counter her unless I have strong feelings opposing her views. I take her excessive stratigies + manipulations with a grain

(3) of self unless it is being used on me in regards to PT & then I bristle, get stubborn & find her difficult to believe or trust. So if there is any message I am supposed to get and dont seem to be recieving correctly the better choice is to have Jean Brown deal with me & I get very reasonable. Bonnie is an absolute talent in this field of programing, & dealing with agencies. I see dollar signs as I watch her in action with agencies. She is excellent with our clients. She really cares for them & is doing a fantastic job that shows. She would certainly be capable of setting up any kind of human treatment center. She is helping me overcome a lot of my inadequacies & is an excellent teacher to our staff family.

Between the 2 of us we are a formidible team & can keep this Ranch & Ukiah in control as far as we need to function. Whatever it takes we'll make it!

Always - Elaine

Dad,

I hope that this letter is not long because I know that you don't have that much time and you have to many things to worry about. But I think I should let you know where I am and where I intend to go. I want to thank you for the trust that you put in me last night I hope to prove that your trust was worth it. I know you put a lot of trust in me in P.C. but I let you down by getting caught up in myself. You asked us to write about guilt. First I feel guilty for not taking my part in leadership here in Jonestown. There is no excuse for it just a bunch of rationalization. I know that I can do about 100 times more and I owe it to you. Socialism to do more. I have had a inner instility, frustration actually. It seemed to me if I took leadership people never let you rest, you get in trouble easy, it was a thankless job. But I realized I felt that way because I felt I deserved more, above zero. I also didn't want much to do with leadership because I felt I got in the middle to much of each different leadership group and I'd get pissed and felt better being away then trying to cope with it. I wanted to take a back seat and follow. Then a couple weeks ago I start looking at you and seeing you go on in leadership [redacted], working 32 hours a day for us. I then knew I should do more but I felt like after coping out for so long how did I get back into being a part? Watching you have to do everything for the cause then people just get hostile at you or demand your time I felt bad and even though they do it I know I owe you more for what you've done for black people and my ass included. I know black people haven't taken that leadership yet and you've been asking and pleading for so long. We've let you

EE-1-I&J-105

down this is a family made up mostly for black people and we have taken a back seat. I am willing to do more and be called on. I'll do any job around here the only thing that is hard for me to cope with is the radio room. I wouldn't like to be in leadership in there although I know I will do it if you ask. It's hard for me to relate to set one of my own ups. [redacted] I know it's what you had to do but when I get around the radio room staff and I know what made them follow you then being judgemental like I am when I see them get an attitude or get upset at you or something I get pissed at them because they have got a little bit more out of you. But you go on. But being realistic I have got more of your time then the ordinary worker who works hard because of my self centerness. So I can't come down that hard on any of them. I have stop calling that race thing too. It's a rationalization. At least they are in there doing it and getting the job done. Another reason I felt bad is because Shanda was getting more into leadership. But all black people could do it now. I'm glad that she has gone forth and done it since I waited on my ass while a job needed to be done. I haven't been a good example because I haven't assumed as much responsibility as I know I can. I feel guilty because of the inhumanity done unto all poor peoples of the world and I haven't been helping enough here so that maybe one day their situations will be changed. I don't know if I'm explaining myself or if you understand cause I don't express myself as well as I could. I do feel like you are my Dad and I owe you a lot and I let you down like a dummy and I feel guilty for that. I am writing all I been wanting to say to you but I've been so scared to try to do it. I want to say it all so you know where I am. I should've come to you about me and I'm but I was

Scared I thought I'd get yelled out etc. So I by passed everything and ignored you on that subject and dying inside. The things that went wrong was both of us did things. I know I'm moody and hard to deal with but I guess it got worse as time went on I care about what happens to him and I know he cares about what happens to me but in a relationship we just don't make it. I don't hate him. I can still talk to him and work with him Right now we both realize that we're better off apart being friends has worked out for us. Right now I'm interested as far as relationship wise goes in somebody else. Will it work? I don't know. Seems like I'd be smart enough to realize that I won't get any place in a relationship but like a fool I'm trying. I guess I love myself so much I'd like for somebody else to without arguing constantly. I know I'm not going to get emotionally involved with anybody, at least not like I was. Tim told me he had talked to you I was glad he had but guilty that I didn't and you're my Dad too but his more. I don't think I hurt him a lot by this. I know he agreeded and wanted it just as much. I'm glad he likes somebody else and I think she won't hurt him like I did many times. She's got a lot of good qualities that I lack. And I hope it works out for him. About dying. I feel I could do it whenever necessary cause all the shit, hurts, and pains, trying to do something, and getting no place all of that frustration would be over. I know that's why while I'm living I should work harder to get more done. I never had nothing to really care about fight for, live for, or die for, until I really came to understand what you were talking about and being here in Jonestown it's all more realistic. I'd hate to die of just old age if I'm going to die whenever I want it to be a part of this revolution. No matter how significant it is or not. You saved my life so many times and gave me life so

I do owe it to you. I don't want this just to be a lot of words. I plan to live it more. Study, work harder at my job. At first I didn't understand why the new approach with problems. But I realize you have tried every nice way and people are still stuck in to many capitalistic ways. I know you would tolerate the music and parties more if the people especially the young people worked harder and took more of an interest in Communism. I do understand why you had to assume the D of P role and I see it as being the only way if we are to continue on towards Communism, I am willing to do whatever I can and learn more as far as Security wise. Especially with the traitors that left. I use to look up to them so much when I was little but I'm glad I looked up to you even more. I hate them all for the pain and hell they've put you through. I have had a weak point Mona, I was thinking maybe could let me go back and take care of her if she couldn't come here or Kill her and me so she wouldn't have to get with them. But I'm beginning to realize she's young and she'll enjoy a life that's decent to her no matter who it's with. I think I've dreamed up 1000 ways to Kill them if you need somebody to volunteer my hand is always raised. I appreciate the honesty you had with us in P.C. I'm sorry they were to selfish to face it and used it against you. I'm sorry for all of this off and on times I have had and all the times you had to placate me to get me to do something. I've messed alot of things up and messed up males minds. I just want to be worth something to you and this cause. I want to settle down and work for Communism I'm almost 22 and I've gone through a lot of hell and I'm growing up and I want to continue to do more.

I don't want to be in the limelight. If I'm still needed in leadership ~~Tom~~ I'll do it so let me know. Next Wed. the baby goes in the Nursery full time so my schedule will be filled in. I'm trying to go to housing committee to be a house parent and work in Dr. Schachts office. But I'll do whatever. With all of the Lab people here I can easily do something else. I dont really want to get to much education because everyone who has have all used it to get money and get against us. Even though I do like medicine a lot. I'll be the secretary for security if Shanda has to many duties, I'm not going to let things stay inside, I'm not going to bother you and I'm sorry this is so messy and long. You've been honest with me so I can do nothing less. I hope that the people in the meeting don't let your trust down. I don't trust some of them that much but you do so it's our duty to make sure they're responsible. Do all SAT rovers have to be in it? I hope the group stays serious about it and in a couple of months I hope they don't let it fall apart and think it's not real. I hope I prove worthy of your trust. You, the children and a few seniors made me realize I was to self centered. And Leslie told me that we as black people should be ashamed on how we've let you down. Thank-you for your time and understanding.

Thank-You,

The meating last night was about newspaper articles that told about blacks being run out of towns and cities and the KKK members incressing in ~~numbers~~ numbers and that gays marched for their rights but they didn't get them and a lot of other articles. You talked about 450 people coming ~~down~~ down in a week and that we would have to build ~~houses~~ houses and beds faster. You said we would have to save water and make walks and not to wast anything. You said you ~~were~~ were staying up night and day trying to make a place for us. Father we opened the service with song and gratitudes. Father then you told us about the racism in the States and how they putting up signs saying everyone should run a nigger. You also said that Chicago Illinois, Indiana would be some of the worst riot break outs. And along with that sign they should put black people. You also mentioned that some of us wish we were at home back in the states but we don't know whats going on. Then the two brothers asked to get off their hard hats and you did. Then they passed it. Father they didn't really pass it but you were loving enough to answer them questions about the service incase of lack of education taught which that was the captain teachers fault. Then we talk about ideas for the new facilities for the family center. And we had a short meeting afterward. And we did mention something about our initiation.

Thank You Father for loving me here.

I'm willing to do anything for the Cause that is Needed. What I was thinking in the meeting tonight was that, Some years ago, about 4 I think, My So called Mom aka Mae Sellers was on the Summer Vacation trip, I was on the Same bus as She was and You told everyone to give up their Money and their Diamond Rings for Money to fix one of the Buses in the Caravan, and My Mom didn't give her ring up. Also in Chicago Illinois My mom came on the bus crying and she was saying that Someone accused her of being a Spy working for the CIA. Well dad I was thinking this. If My Mom (aka Mae Sellers) was to start Some Shit I would go back and my like I was here for

a Vacation, and that I had to come to work in publications ON the Newspapers. I could take care of some of the traders like going to School w/ some of the traders Children and ~~Pois~~ Poisoning there Children or getting I good w/ their Children and poisoning the traders or tell the Church information about the traders. After that I would ~~Be~~ ~~Back~~ ~~B~~ ~~Back~~ Want to come back har and fight ~~in~~ a Revolution or Stay back in the States and ~~Work~~ do whats Needed.

Jim,

I just wanted to say, of course I agree not to give anything to Tim Stark because I do think he is probably sold out anyway. I think it is another move to try to get you to leave here and go back to the U.S. I'm sure he thinks that telling lyes about our finances & trying up people involved in that to have to stay in the U.S and not be able to leave will cause you back. (I would think you would go back to help them, so I'm trying to think like he would.) I wanted to say also, Tim V. asked me if I thought you were out of danger because of what I said last night. I wanted to clarify if that's what I sounded like I don't think at all your out of danger. I first thought immediately they do want to kill you, because that would end the movement, but not with out alot of us making a loud & bloody protest which would not look good for them. I think now they are trying to tye you up w/problems and they are trying to get you kidnapped or more likely even John or Kimo to get you to go back to the states so they can edite you there, smear your name make you look like a kook who believed in Socialism but also gave chicken guts & cancer etc. etc, Try to destroy your character & what you stand for Communism.

I would also be more than willing to do anything for you & this cause, I would go back, you allowed me to come here first I deserve to go back as anyone. I have lived almost in freedom. I have a responsibility to live now, I have that Ok and I guess if I ever wanted a future to be it would be now so he & other children can live. I just wanted to say if we can not live in Communism as you have trought & been our example. I don't think our children would have a future anyway and I would rather ~~they~~ live go as a group.

I appreciate you talking w/us & giving us facts, I'm interested and want to be helpful. I've never been keen on strategy so I know often I don't verbalize. Others seem to say it much better. I will do as you want Thank you.

I was just going to tell him how I felt about it but in view of the fact that he'll be coming & going I don't know if I should. To be honest I don't feel like killing him or beating him up or anything. I have missed him and will be glad to see him. But I'm hurt and angry with him that he could do this sort of thing when we've been fighting for our existance here. Dear Dad,

The reason I wasn't in agriculture meeting is because I worked until 11:00 that night in dorm with the teaching crew but I have attended all the other meetings but a. But whenever I am not working till 11:00 I will be there.

Dad my feelings about mas suiside. Dad to me mas suiside is a waste because it seems like such a waste of children and seniors. But I think it would be better to kill them than to see the facist take them alive. I think that we should try to use the seniors and Children in the revolution. I am trying think of ways to use them before they go.

Maybe the can start everything a fire and make sure we don't leave the facist any food or good useful properties.

my way to get Jim Stone is two dress as an ant Jane business lady at any business place. Call Jim Stone in acting as a secretary tell him to there then call him in to the deserted office and slit rein in the neck with a peice of bauxite.

An idea: Since we are short on amunition. I was thinking of getting a sharp peice of bauxite and we wouldn't even have buy any just use the scraps that we have laying around here. It is sharp enough to cut a finger and give stiches so it should be sharp enough to slit a throat.

Dear Dad,

I'm very sorry for being so unprecautious as I was last night. It really could have been avoided if I just would have taken my time and watched closer to what I was doing. Not only did I fuck-up the aluminum seat down at the house but people got alarmed for an alert. I'm very sorry and I will be much more careful and cautious from now on. I knew what I was doing but I went into it too fast and did not watch closely to what I was doing with all my fingers because one of my fingers some how touched the trigger (not my trigger finger). I am going to do what I can to help fix the seat too.

Also I wanted to ask you last night but didn't really want to bother you with because you were pretty busy as usual. But what are the possibilities of this asshole (Harold) being watched by a concealed weapon preferably two not because I feel a sort of responsibility in this case and matter. I know how you feel about him of the possibility of him doing some shit anytime. You said that if we had an alert he might try to run. This is one of the reasons for the concealed weapon. I wouldn't want it on him to know I have it until needed be. Or any thing

other ways of handling this. In any case I still feel in a way delegated to pull the trigger at him if he is a spy or an agent part of the conspiracy. All my life I have watched him and wondered when he would try something stupid. Now I am really going to be watching closer now even. I tried oh so hard last night to avoid seeing him but I ran smack right into him on the trail. It made me want to vomit to even have to be near him. But I thought of what you said my dad. Some how someday he's going to get his.

Thank You Dad.

I am tired of this bullshit I never was use to being in the Back lines. I am a vanguard!! I want to be on the front with the ~~stick~~ strict team advance team I've had experience with small weapons such as 22., 32, 38., 9 mm, German luger, and 22 rifles, I would gladly go with just a cutlass.

I believe we can increase our advance units by dividing or fire power depending on the circumstances such as a closed in quarters. 3 people with guns, 2 with molitov cocktails and 3 more with cutlasses. This of course is a very risky operation which means sending a women armed (hand gun) to seek information.

[redacted] over

small teams armed with cutlasses and molotoff cocktails can perform in operations. (1) decoy to lure enemy into ambush (2) back up team for the armed advance units. (3) acting scouts to relay information of on coming adversary units, they can also prepare ambushes for the struck team (4) after ambush they can collect arms off dead and aid of the bodies in preparation for next ambush.

Hi Nancy,

I've been racking my brains trying to help with a solution to the recent problem with Wade. I really don't know what to do. When I talked with Mabel tonight — she was very positive as where her mom is concerned. She knows that not only will I come to her if she needs me, but so with the others. She has a bed in my grandmom's room and seems very contented. The doctor will remove the

(2) stitches from my right foot on Tuesday and I'll get a lighter cast and will be able to move around a little easier then. At this time, however, it takes so much energy to drag the cast around especially since my other foot is so sore. Nevertheless, I have volunteered to help Mabel a little more when she and Grandmom return to the apt. Made recents having to take care of her so I'll help Mabel until something better can be arranged. Until I didn't have to go up and down the stairs — so that is why I think it would be best if I spend several hours per

day there. It would hurt me deeply to give up my apartment and I'll stand firm on that - I'll only help. There are too many other things that I need & want to do right upstairs and besides - I can't stand that much negativity at this time especially.

I got a hormone shot on Thursday night and I feel much better. That was the second one I've had since the hysterectomy, oophorectomy & removal of the one tube. Florida asked me to check with the doctor to check about Premarin because I still feel rather "strange." I'm also still anemic.

[redacted]

[redacted]

D Marcy, under no circumstances do I want anyone of my four children to come back. I believe 100% in the principle that Jim is teaching and I want them there where they belong. However, I'm wondering if perhaps my mom Edna Steed could come back for a while to help Mabel with her mom. I'm against it but I just don't know what will help. I really doubt that she would want to come back and then, there's my aunt who would also have to come back. I'm practically convinced that Mabel will not let her mom return to the condition she was living in in Texas. My aunt, whom lived with my Grandmother said she will be back again

[redacted] Jan January and stay for a month or two — return to Texas and then come back later to stay. Wade has relatives living in Georgetown but he has talked so negatively about our place that it will be a little more difficult to get my two uncles' consent to let Grandmother go even if we're approved.

Mary, I miss the children, my mom, Aunt, Jeri & many others but one thing is certain, I will stay here if I needed and do what is needed. The Children and I had many talks together before they left and I think they would understand.

Please let me know what I can do to help.

I won't lie and say that I'm not lonely - because I really am so much of the time. I met someone I would like to visit our service whenever Guest can come again - but in the meantime, may I have approval to see him occasionally? He took Joyce and me to a movie before she left and has visited only once since then. I think I like him. The children's dad and I've been separated since 1969 and would appreciate some one's companion. He is a teacher, probation officer and vice president of United Teachers Los Angeles. He likes many of the same things but since he lives in another city and

(7)

[redacted] work practically around the clock, I doubt that I'll see very much of him. I haven't seen him since August so I don't think there's the danger of a fling-my romance with marriage although he has since filed for a divorce. His wife doesn't live in California and hasn't for 3 years - he said. He has two children 19 & 23 and at this time they are giving him problems so he is only "going" on the telephone but I do want to do whatever I do with permission.

[redacted] I will be at home except for going to service most of the week-end - in the event you wish to need to contact me.

Thanks, Clara

Re: ① Self-Evaluation
② Sexual feelings towards you
③ Hostility towards you

① I know that I have too good an image of myself. I try to maintain an image - but I'm a "closet" fuck-up, I know. It is difficult for me to admit I'm wrong, defensive, lazy and passive. My self-image gets in my way - like when I had my medical check-up I didn't admit to Lisa Layton that I'd been with anyone - that I could have VD - and I ~~couldn't~~ didn't ask for a pregnancy check when my period was a few weeks late. (it has now been regular for months so no problem there). I know that with my fuck in Georgetown, it wasn't just a one time accident - I don't believe in those either. I know it was my anarchy and treason to be thinking - and then carrying out - such shit. I worry too that I talked too much to the outsiders - about general things it seemed to me - but I wasn't objective in the situation - like I told him we had radio contact hours ~~a~~ day - and night, and he knew which secretaries came in - by picking them up at the airport etc. I know that in every project I've worked on - I have had poor follow thru and general lack of concern. - The only exception possibly - has been keeping my welfare job for so long (thanks to you) and doing visitations in the U.S. I'm involved with Agriculture here - but so far, I haven't gotten that involved.

I just thought when I came out to Jonestown about staying for a year - then going back. I didn't want to have to work - but I didn't want to keep those in the US from coming. Somehow the one-year plan eased me thru ~~the~~ accepting the discipline of daily work - which I thought I was above. I know this is all fucked. More and more I know I couldn't stay in the U.S. I don't have any illusions of being principled or having deep morals - I know I'm selfish and my only

fairness and morality comes from you. I've worked
through that nightmare now and have no plans to return
there. I just don't want to fuckup anymore here. I want to do my
② I'm still sexually attracted to you - I feel for
like I'm not the least bit interested in any
relationship - the routine of having to speak,
relate in an exclusive way. I hope that
continues, even those I listed in the last note as
those I'm sexually attracted to - doesn't apply. You
asked in service I who had no desire for relation-
ships - and said it was because of the heaviness of
the world nowadays. I wish I had that sensitivity
but my own reason is more that:
① I don't trust myself in any relationship
② I don't trust another party
③ relationships are fucked because it requires kissing
ass to be maintained
④ my self-image is single - so unless I had just a
5 minute fuck - I'd have to blow that image to

③ I am hostile because I don't know where I stand.
I know my Georgetown fuck was treasonous and that
alot of my fuck-ups have been serious I don't
know if I'm the exception or if it is a general problem -
I don't know if I should ask to volunteer for things
like procuring on the river or going to PNC meetings
or if I should just sit things out. I know my
own acts are the things that I'm hostile about
and I don't know really how to treat myself
accordingly - and I don't know how you want
me treated. I know I used to clear letters, and that
Rita made it clear that I was no longer needed. I don't
know if that came from you or if that was her
preference. I know you are as direct with each
us as you can be - based on our good as long as the
collective is not harmed - so I assume I couldn't or
can't take it that I'm less trustworthy than Rita or Marlon -
again - I don't know what is paranoia, what is justified - etc

COUNTY OF LOS ANGELES, STATE OF CALIFORNIA

THE PEOPLE OF THE STATE OF CALIFORNIA, Plaintiff, vs. JAMES WARREN JONES, Defendant.	NO. 31464943 POINTS AND AUTHORITIES IN OPPOSITION TO MOTION TO VACATE ORDER SEALING RECORDS

I

THE COURT ACTED WITHIN ITS AUTHORITY IN ORDERING THE RECORDS IN THIS CASE SEALED AND DESTROYED.

> "The principle is well established that a court may order the expungment of records, including arrest records, when that remedy is necessary and appropriate in order to preserve basic legal rights."
>
> Sullivan v. Murphy, 478 F.2d 938 at 968 (C.A.D.C., 1973).

Plaintiff is simply wrong in his assertion that the order sealing these records is void on its face because it does not come within the provisions of Penal Code Sections 851.7 and

1203.45 or Welfare & Institutions Code Section 781.

The Court never claimed to be sealing the records under the authority of the provisions cited by plaintiff, as becomes immediately apparent upon examination of Exhibit 1 to plaintiff's Points and Authorities in Support of the Motion to Vacate. This document, entitled "Disposition of Arrest and Court Action, has a section at the bottom where action subsequent to the dismissal is recorded. Under the category of "record sealed" there are four boxes, three of which indicate that the record was sealed pursuant to the provisions cited by plaintiff. The fourth box, and the one checked on this document, indicates that the record was sealed for other reasons.

There are many cases where records have been sealed for reasons other than the application of a specific legislative provision. The most common situation in which this occurs is when "the continued existence of the records may seriously and unjustifiably serve to impair fundamental rights of the persons to whom they relate." Wilson v. Webster, 467 F.2d 1282 at 1283-1284 (9th Cir. 1972).

In Wilson the Court held that the District Court had been wrong in refusing to hear the plaintiffs' plea to have arrest records sealed, though there was no apparent statutory authority for sealing the records. The Court stated at page 1284.

> "The plaintiffs' allegations, [of violation of their civil rights by the county sheriff and other county officers] in our opinion, were sufficient to tender an issue and to require a full inquiry."

See also Hughes v. Rizzo (E.D. Pa. 1968) 282 F.Supp. 881, 885; Sullivan v. Murphy, supra.

Since the records have been sealed by court order, this Court does not have before it all of the facts and circumstances which Judge Stomwell considered when he ordered the records closed. What we do know is that there was no evidence of any violation of the law. (See Exhibit 4 of plaintifff's memo.) We also know that James Jones is, and was at the time of his arrest, a political and religious leader whose activities have gained him various enemies. But at this point, four years later, the Court can only speculate as to why this man was arrested when there was no evidence of any violation of the law.

Under these circumstances, this Court certainly cannot rule out the possibility that Judge Stomwell found it necessary to seal these records to protect fundamental rights of James Jones. In fact, all indications point to exactly that conclusion. Thus, neither the order itself nor the limited record we have indicate that the Court acted without authority.

The cases cited by plaintiff in support of his argument that the Court is without power to seal records in the absence of statutory authority are inapplicable to this situation. Both cases arose in the context of petitioners seeking a writ of mandate ordering the lower court to seal their records, thus requiring not only authority, but a duty of the lower courts to seal the records. See McMahon v. Municipal Court, 6 Cal.App.3d 194, 85 Cal.Rptr. 782 (1970) and Loder v. Municipal Court, 17 Cal.3d 859, 132 Cal.Rptr.464

553 P.2d 624 (1976).

Furthermore, in Loder, supra. after stating that there was no legislative authority to seal the records, the Court went on to consider the constitutional arguments made by the plaintiff in support of his plea to have the record sealed. Though plaintiff's arguments are ultimately rejected in that case, the Court's consideration thereof makes it clear that the Courts are empowered to seal records for reasons other than specific statutory authority. The Court can only guess as to what these reasons may have been in the case of Mr. Jones's arrest.

II

TO UNSEAL THE RECORDS IN THIS CASE WOULD BE AN UNCONSTITUTIONAL INVASION OF JAMES JONES'S RIGHT TO PRIVACY.

Article 1, Section 1 of the California Constitution guarantees all people the right to privacy. The scope and significance of this right is described in White v. Davis, 13 C.3d 757 at 774, 120 Cal.Rptr. 94, 533 P.2d 222 (1975) as follows:

> "Fundamental to our privacy is the ability to control circulation of personal information. This is essential to social relationships and personal freedom. The prolification of government records over which we have no control limits our ability to control our personal lives."

To unseal the records of Mr. Jones's arrest would be a gross infringement of this right.

The well established test of whether there has been an invasion of the right to privacy is whether or not a person's personal and objectively by reasonable expectation of privacy has

been infringed by unreasonable governmental intrusion. Armenta v. Superior Court of Santa Barbara County, 61 C.A.3d 584, 132 Cal.Rptr 586 (1976); Jacobs v. Superior Court 36 C.A.3d 489 at 493-494, 111 Cal.Rptr. 449 (1973).

In applying this test the Court must take into account the totality of facts and circumstances involved in the context of each case. Jacobs, supra.

In this case, the records were sealed and ordered destroyed by court order on February 1, 1974. It was certainly reasonable for Mr. Jones to assume that the Court acted within its power in making such an order. Thus, his personal and objectively reasonable expectation was that the records would be destroyed or, at the least, would remain sealed.

Nearly four years went by during which Mr. Jones believed himself to be safe from any danger that this matter would be reopened. He had been harassed and maligned by the Los Angeles Police Department and the City Attorney, who arrested and filed a complaint against him though there was no evidence of any violation of the law. (See Exhibit 4 of plaintiff's memo.) He could never be made completely whole for the damage caused by this arrest. But to the extent possible within the judicial system he had, he thought, at least been protected from future harm arising from the same incident. Four years later the Attorney General wishes to destroy that protection by reopening these records.

Any incursion into individual privacy must be justified by a compelling state interest. White v. Davis, supra. In the

plaintiff's memo, he points to no interest of the government, compelling or otherwise, in reopening these records. Under these circumstances, the State in fact has no legitimate interest, compelling or otherwise, in reopening the records.

This case differs from Loder, supra. and the cases on which Loder relies in holding that the government does not violate an arrestee's right to privacy by retaining records of arrest for limited purposes.

None of the various governmental uses of arrest records, which in combination amounted to a substantial governmental interest in that case, apply to the records of Mr. Jones. These legitimate uses of arrest records were to identify a defendant, to facilitate prompt and public reporting of facts, to investigate and solve similar crimes in the future, and to aid various officials in making decisions about exercising discretion with regard to the arrestee in the future. None of these uses would be reasonable or legitimate four years after the arrest where the complaint was dismissed and the records were sealed because there was no evidence of any violation of the law.

Further evidence that there is no compelling state interest in thise case is that Judge Stomwell, who was aware of all of the circumstances of the case when he ordered the records sealed, was obviously convinced that the government had no legitimate and/or compelling interest in these records. Otherwise, he would not have ordered them sealed in the first place. Since the records have been sealed, it is impossible to recreate the precise set of

circumstances with which Judge Stromwell was faced when he made this decision. We must assume, however, that he was aware of the various purposes to which such records are put. Nevertheless, he ordered that the records be sealed and destroyed.

Another distinction between this case and others involving arrest records is that here the arrestee was given governmental assurance, in the form of a court order, that these records would be forever sealed and destroyed. The arrestees in other cases did not have such an order, and thus had no reason to expect that their records would be sealed. In reliance on the court's order Mr. Jones did not pursue the matter further nor try to vindicate himself in any way. He brought no suits charging illegal arrest, false imprisonment, abuse of process, harrassment or malicious prosecution. He made no public charges against any of the city officials involved. He did not insist on a trial which would establish his innocence conclusively. Ironically, had he proceeded to trial, been acquitted and been found factually innocent, he would now be eligible to have his records sealed pursuant to Penal Code Section 851.8. Had he pursued any of these actions, he might now be protected from the damage that could result from the reopening of his record. This failure to further protect himself is an objective manifestation of his personal and objectively reasonable expectation of privacy in this matter.

CONCLUSION

The order sealing the records relating to Mr. Jones's arrest is not void on its face and thuse cannot be vacated now.

There is nothing in the record that indicates that the Judge acted beyond the scope of his authority in ordering the records sealed. Furthermore, to unseal the records at this time would be an unreasonable and unconstitutional invasion of Mr. Jones's right to privacy, protected by Article 1, Section 1 of the California Constitution.

Dad, From Saudi

I know that it is the worse time to come to you with this. Especially since it is the same old thing every[redacted] once in a while it's the same old subject. I am sorry to bring this to you because I know that you're not feeling well and the life of this organization is on you alone. Tim and I as far as I see just aren't making it. I know no relationship makes it maybe one day they will but not until we or our children loose all Capitalistic values. Tim doesn't think that's there is any problem and that it's just me going off half cocked. Johnny thinks that he pays more attention to me here than in the states. which I have to agree and add that here he does have a job that requires his time so he is putting forth an effort. I think that the problem is with me. I know that I am paranoid about everything. I know that Tim does care about me just like I care about him but I think his likes have decreased. I think it's because of stupid things that I have done that makes him care less. I know that what I'm feeling now and whatever

the problem is, it's mostly my fault. We have or I have been arguing because I know Tim has changed. I don't think he wants to have a child right now with me at least. I mean he wants to then he doesn't wants to and the part of him that doesn't want to is ruling right now. After my period the first night that we almost had sex he wanted to use a rubber which may no sense to me. So when I wanted to know why he became upset and refused to give me an explanation and he says he had the right to do it and not explain it to me. I have questioned him why the rubbers at all. Which he refuses to answer for and doesn't think that he has to. We had been arguing before the subject came up about me being pregnant. But we worked it out almost. Since the arguement about the rubbers we haven't been talking. I have been but he says I'm inventing a problem. He says he knows and I know that I won't leave him and that if I ever have a baby it will be by him so I might as well stop arguing. True about having a baby, but I feel one reason why you wanted us to have a baby is to help ease the hurt (why he has them)

we exprienced. Yes, I do have some kind of an emotional upset when I think about it which I do and I wish I could have a child. But going through all of these changes have their emotional drawbacks too. This morning we argued because I had hid his rubbers. He ~~gave~~ wanted them back and I asked why did he need them if he wanted a baby, he said that it was none of my buisness what he wanted them for and what he used them for. He puts the attitude out that if I don't have him it's nobody, a baby with him or none. I know it's true but I don't appercuate his attitude. I do know that leaving him is leaving the Jones', my respect as some kind of involvment with leadership, and the people's respect. I don't really care how people think of me because most of them that have come in contact with me anyway portray me or think of me wrongly. I don't hate Tim. He didn't want me to sell him out by writing any personal feelings that I might have. I'm saying the problem is mostly my fault. I have tried to talk to him but he refuses and says that there is no problem. And to drop it. I told him I didn't think it

was right not to talk about it only because he chose not to. I don't really want any counciling or you to go through any heart break over us. There's always been a part of our relationship that was halfway working and the other half wasn't, isn't worth shit! I would like to move into C-29 with Shawntika, Walker and Yvette. And (cottage of school children) take Clarence with me. And as far as having children I had Mona since she was 2 months so that's baby enough for me. Tim is only 18 and I am sorry that I tied him up at such a young age by getting pregnant. I do want him to go on and like, live with himself or somebody else. I have felt like if it hadve been someone else instead of me his relationship couldve worked out. Proably was nobody else better for me but not the same with him.

Self Criticism: I am one of the people who had the misunderstanding of Revolution and I was just ready to die and not think about the children's lives, especially since I have had one. I was ready to die because a fight would have meant it. ~~But I didn't really~~ consider revolution meaning life and Death. EE-1-IIJ-147

Thank-You for your Time and Tolerance level of me.

Father,

I am very sorry to be taking up your time. So I will make this as short as possible. Tim and I have decided that we should break up and forget it. I suggested it after fussing so long. For four years we have always argued a lot and never seem to get anything settled. I know that we got married because I was pregnant. But that is no longer necessary anymore. We don't get along, so this would be best. I have made up my mind that I don't want any children now or later and besides there's always a chance that the child could be born anemic like I was passed down by my mom and if I have any kidney defects the child could. Tim has made up his mind that he does want children later. We have already discussed it and there's nothing that's making our relationship necessary. I did marry him when he was to young for it. There is no need now to drag on something that doesn't work. I'm sorry if I am disappointing you. Tim wants to talk to you so I guess he can say whatever else is necessary. Thank you for your time.

Thank-You Father,
Sandi

To Dad

I was feeling sorry for myself every since you have been here. #1 Because I know that you had heard of the fuck up I made a few weeks ago. and Being my old self I was sure that you were mad with me. So along with my thinking I tried to stay away from around you as much as I could, and so now I am leaving the Dealing with People up to you. Because I can not stand to see People tring to use you and at the same time try to get away with it and think that you don't know what's happening at all times. I was so mad with some people at one time that I could kill anyone at any time. But now I have said to my self that all I am going to do is to Work hard to see this Dream come true. Because I said that if you can work with People and see some thing good in all of us Well I had better follow that which is before me. and the other is about I and Jeff being charged with fucking each other Which is not true but he did run from my Bed when the lights were turn on with out anything on. And we did talk about things that was going on around us. but I feel that it is much more to it then meets the eye. And I did get mad when it was brought up. and right now People keep bring it up as a joke. I get mad about it because I said that I had fucked Men before but as soon as People got down here the first thing they heard about me was the me and & Jeff was fucking and that made me Mad. but from now on I will be the Kind of son that you Want me to be

Father the person I like is Calvin Douglas.

And the reason why, because he is a very neat and clean person.

He don't slack off on his job. He's a very responsible person. he take's his job serious. I think he is a very hard worker. He is the kind of person that will tell you he like and don't like about you, how he feel about you

He's the kind of person that you can talk to if you need a brother to talk to. He will tell you things to your face and not behind your back to other brothers and sisters. And if he does say something behind your back, its something good and not bad. He don't go calling you name. He's not the person that will try to hurt you.

"Chile's Prisoners of War" by Rolando Carrasco

The early part of the book talks about some of the inhuman insane tortures pulling out nails, running splinters between finger nails, electric whipping of + crushing of genitals et. al. There's information given about the U.S. + CIA influence + of Nixon-Allende coup carried by Mr. Kissinger to aid + abet the overthrow of Chile's Allende Govt. The graphic description of tortures + torturers is excellent because it helps me realize how much essential it is to resist which isn't just verbally w/ a bunch of rhetoric. Gets w/ your head. Or the author who agressively admits he's a communist after being beat and knowing full well he'll get his ass beat & tortured more. You can't help but feel fucked up that you contributed heavily to it - but it helps motivate me now in (commitment) decision making and giving up what little I have compared to the shit Chileans have gone through since the 11th of Sept '73.

Dear Dad,

Thank you for such a beautiful New years dinner and thank you for being such a wonderful and loving Dad to all of us here in our new home Guyana.

In your message last evening you told us about some of the miracles that happened early in your ministry, Jimmie Jr was injured in a Car wreck, in fact he was killed, but through your power he was made whole again.

There was an event where you was the pastor of a Methodist Church, and you wanted to take the Church, but they would not let you have it, so you took the Parsonage and later sold it and gave the money to the cause.

There was another miracle where a woman was healed, she had one leg shorter than the other, but when she was called out her leg grew as long as the other leg that was normal.

I tend to criticize others before I really know the whole story of what really happened. Then when I find out that I am wrong it is hard for me to face the individual which I know I must do and apologize.

Margrette Jeffery

Dear Dad,

This is a letter from a comrade that looks up to you as an example and a Dad. Never before in my life have I seen a Dad as loving as well as discipling like you are to all of us. The so-called man that called his self as one of my parents, isn't nothing to me. When I was born he was off fighting a capitalist war. I think I can only remember him for the three years of hardship he placed on Clara, my other mom. He was always getting drunk so he wouldn't have to face family life matters. When he wasn't drunk, he was fighting or fussing with mom. When I was five I happened to walk into the room and saw him beating mom. After this I ran outside hoping that this sort of thing couldn't be happening. Every since then till the age of eight Clara was mom and dad for us. She made sure no of as got into to much trouble and we were kept warm and had enough to eat as well as teaching and putting up with relatives talking about her cause her husband left her. When I was about to turn nine we heard about you and the church and joined. I am glad you taught me to smile and appreciate the good and not always dwell on the bad things. Now you have giving me a reason to live and die for socialism and communism. If something like this were to happen like this back in the states, all of his would of been turned over to the custody of our birth parents. None of us would be able to survive longer than 8 hrs. at the most with our third world minds. I would like to thank you and the members that are in this cause for putting your lives on the line for many people. I never thought it could happen to me, but it did. I wish I was able to write down the right words to emphasize the way I feel. This is the other way I can write it. Thank you Dad for being a Dad to all of us and telling the good side of things like death that a capitalist society wouldn't allow us to know. Thank you for letting our children have a place where they can get the kind of attention that wasn't allowed in other schools. For letting them be able to grow-up with Marxist minds. For letting them get away from muggings, riots, pollution, borgeuosis, cement streets, and racism.

Thank You Dad,
Joyce Johnson

Jimi,

Thanksgiving and I miss Elvyse so much. I look forward to the time when I need never say good-bye again. I'm grateful for the hope and beauty this season - there is more here. Before I can leave here - I must find time to straighten out the mess of charges, address and our entire statement and my retirement. I'm willing to stay as long as necessary. Just back me high in thought - I'm not the woman I used to be.

Please give my love to our children. They were the light of my life and I want them to know it.

Love,
Marceline

DAD —

IT WAS EXTREMELY ARROGANT, AUDACIOUS & BOURGEOIS TO RAISE MY HAND IN A VOTE THAT SHOULD HAVE BEEN OBVIOUS TO ME.

I THINK PARTLY THAT I WAS TRYING TO SECOND GUESS YOU — BECAUSE I KNOW GOD DAMNED WELL THAT I'M ANYTHING BUT MERCIFUL OR COMPASSIONATE. MY OTHER REASON WAS HOW MUCH TIME TEACHING EXPERIENCE WOULD DO FOR JAIL SINCE HE'S BEEN ON IT SEVERAL TIMES —.

I WASN'T LISTENING AFTER YOU SAID "ONE MORE THING"; SO I TOOK THAT TO MEAN ANY INTERJECTION AFTER TONITE.

I THINK MUCH OF YOUR WORDS HAVE BEEN VERY APPLICABLE TO ME. I'VE ALLOWED MYSELF TO LAPSE INTO LETHARGY & A LOT OF SELF INDULGENCE - I'VE NOT ASSUMED THE RESPONSIBILITY OR GIVEN INPUT INTO STRATEGY OR DECISION

Father:

Ive been debating alot with myself whether or not to write this, but since I didn't write my feelings about Socialism during the seige, I shall do it now. In the states I read and heard about Revolution and tried to really imagine what it was All About, but I see now and I really believe that experience is the best teacher. I really didn't think I could come to Jonestown and relax the rest of my life, but I also didn't expect to get A taste of Revolution right here. I have felt that I would learn to fight and learn Socialism better and then go on to help others in the struggle. Through your example and teachings I feel I am A Revolutionary. I've come to realize that service to others is the only way I feel that my existance is justified. I still have never suffered. I feel guilty that I, as A middle class white haven't suffered. I owe it to ~~others~~ the suffering of others to help bring Communism to All people. Father you have brought me this far, and I am so grateful to be A Revolutionary, even though I still have much to learn and much to overcome. Thank you for the greatest opportunity, which I consider ~~to~~ is to be with the greatest Revolutionary ever. Thank you for giving our children this opportunity. As I sat on the battle line Father expecting to die, I was surprised to feel so calm. The time I had spent with this cause ~~was~~ made dying okay. Now I hope to be of more benefit to Socialism / Communism.

Why I left America & came to S. America

I left America to come to S America to help build a new world, third world where we can have a new & complete Equalitarian Government where all people can have & share equally with each other, again I left because of our Government have built Concentration Camps where Black's & other minority's will be prisoned & destroyed as Hitler did with the Jew's in Germany

Again the Neutron Bomb that will will only destroy life & leave every thing else in tact

Again Bill 1427 where the Police can arrest you if he ask you a question & you fail to have as to what he thinks you should this can be done with out any provocation what so ever

Again to avoid racciism & Embrace communism or Socialism a Theory or System where ~~all~~ complete all people will have charge of all production & distribution

I am happy here & would do this again if necessary

Dear Father,

The reasons I am glad to be here in Guyana away the United States are escaping the neutron bomb which can kill all people but not kill plant life or destroy property, escaping the disaster of earthquakes; the ethnic weapons which could kill certain people and not hurt others. Away from Senate Bill 1427 which took the place of Senate Bill I which says you can be arrested for not giving policemen the answers that he wishes you to give. Escaping nuclear war, the buzz bomb and the laser beam. Geometric Theory which deals with making slaves of black people and poor white, Indians and Mexicans, black people because they at one time were slaves in this country. Racism. The nuclear war that might happen because the Shah of Iran thinks he's some God and over the oil dispute with Saud Arabia. Racism - the [redacted] Klu Klux Klan - twenty more chapters started in California. Famine. Concentration camps. The return of the death penalty, young people being tried as adult criminals.

I believe that Socialism is the only answer to the World's problems — in order to build a society that is of the people, by the people and for the people you must first have a dictator of the proletariat or someone who is the voice of the people.

This voice speaks for all, carries out justice completely, distributes the wealth and the land so that a few rich do not own 3/4 of the resources that the people own everything.

Equal sharing of everything is the only way to erradicate hunger, lack of food or shelter, the desire to steal or commit crimes, feelings of rascism or prejudice.

I am quite fortunate to have lived under the teachings of the greatest socialist leader ever to have walked this earth. For the last six years of my life I've been with Jim Jones and his movement working to build a better world for all oppressed people. During this time I've been transformed from a cold, uncaring, selfish person into a warm human being with concern for others. Where I once had no particular goals in life, except those that would benefit myself only, I now am committed to this Socialistic cause. That all people may one day walk on free soil, ~~[illegible]~~ and be equal in every way.

EE-1-IEJ-178

I take this stand, though I am completely non-violent, I will fight off any evil force that would stand in the way of my leader Jim Jones, or my comrades as we work to bring about Socialism in this world.

Today, I would gladly die for my beliefs. Life is not worth living if you don't have a cause to die for.

I believe in Socialism because I've seen it work and I know it is truth. It is the only solution for all of us.

Yvra Johnson

EE-1-I&J-179

I feel that socialism is what the world should be about. There shouldn't be nobody higher than another person. All are equal. Everything is common. In a socialist society there are no big capitalist leaders, like the Rockefellers, Agnews, Rockefellers, Ford, etc.. There is no class system. There is no discrimination of this race, color, belief. Everybody shares the work. There are no jails. No gangs or separation of the people. Everyone has the same amount of clothing, Everybody goes to a communal kitchen and eat food together. There is no age barrier. Young and old are treated the same. Both sexes have jobs. All sexes are equal. Entertainment is based on belief. Capitalism is shut down. No capitalist are allowed to enter the society unless they can prove they want to be a socialist. Socialism deals with the 2nd World. The 2nd world is Capitalist. The 2nd World has Fascist laws for its own people. Genetic testing to get rid of the lower class people. Death penalties like State Bill 1821 which is if you don't tell the truth the answer they want to hear from you, upon lie detector tests, a court where the accused isn't present but sentenced. The 3rd World is what I want to live in if I like great this revolution. Socialism is the light of the world! Father Jim Jones is leading us on.

Gwendolyn Joyce Johnson

If I die it will be for socialism only. I won't sell out to the oppressors. They take one life I have to take all. I thank you Jim for teaching us socialism. Friends don't just happen, they happen just. I am glad I came into this.

EE-1-I&J-180

I pledge my life with total cost, Socialism must be lost.

These are just a few reasons I have to be grateful to you: I don't even pretend to appreciate you enough!

- you saved me from a life, and death, of drugs
- you saved me from the complacency, boredom and compromise of being ~~in~~ a citizen of the U.S. today -
- you saved me from identifying as a white person - which would have meant that I would be a drag on the momentum of the Third World and Communism.
- you saved me from being an oppressed woman - There is no way I could have found happiness without Jim Jones, Peoples Temple and Socialism
- you showed me reality, when I was looking at life with rose colored glasses, I was ~~[illegible]~~ unhappy being alive at all even with those rose colored glasses
- you gave me hope that I could change, and grow into a more committed Communist.
- you proved to me that once I was freed of Capitalist bullshit, that I was the only thing in my way to Principle - I was no longer in bondage to Capitalism and the United States "American Dream"
- you let me see Comraderie that can carry us through the most difficult times, because we gain strength and unity through "Stormy weather."
- you gave me memories of such love that I can never remember ~~them~~ in all-summer trips,

drug rehabilitation projects, living communally, church projects, harvesting grapes, bus driving, animals adopted and cared for, children given homes, security for sweet-and some cranky-seniors, Socialist rallies, marches around..the most fascist US institutions, Winter trips through snow and ice storms, and finally a move to a Socialist Third World nation- No memory could be so full, no life less dull, no work so fullfilling.

- You showed me that you have the patience of the ages - you endured Church, endured Indianapolis, then Ukiah, then endured captivity in San Fran, and now you endure life with daily disappointments and trials which only you can bring us through,
- you gave homes to the most abandoned in the U.S. society - Mae Katherine Griffith and Estelle Railback, Comrade Mercer, Joe Beam, Renée McMurray, Mom Talley, Kay Rosas, Danny Beck, Mark Sly Vincent Lopez, and many, many, many more.
- you gave me the privilege of being a socialist - becoming communist here in Guyana.
- you showed me character and you alone are responsible for any that I've shown or even now develop.
- you showed me that you are concerned about each of us without a price - we have no need to try to sway you or buy you - You are righteous and not partial to us based on any superficiality.

Dad

Im sorry I explain myself wrong.
I wasnt hiding the fact that I missed around
with Richard Ortega. He was a friend
of the family, he was 19 year old and he
knew I been raped before. When I was
ten years old he raped me again because
he knew that if I told my dad would
kill me. It hurted just as bad as the
first time but this time I couldnt even
get medical treatment because I was afraid
my dad would find out and think I wanted

to do it and have me killed. So the only thing I could do was to greave myself and let it heal on its own. You could use Randall Lee name who was the first one but not Richard Ortega the second one. because when I turned 13, I tried to kill him for raping me. I stabbed him twice on 4th + Lake St. and have never seen him since that day. I hope I killed the prick so he wouldn't rape anymore children. The pain I was trying to make so that I couldn't even tell my so-called dad that his pert friend had raped me, for fear that his friend would have said I wanted to do it and my Dad would have killed me. Im sorry I mixed you up.

My Dearest Friend;

Concerning the meetings you instructed us to hold, We have not had another one. Jean Brown thought it was very constructive But Alice did not attend and Sandy had another appointment. However Sandy was very much in opposition to your position and said that in any case she would not attend. I was very disapointed There has been a basic mistrust of Sandy on the part of Alice & Leona Concerning the way (they say) She colors her reporting.

I didnt know Robin was leaving until this morn. so I dont have time to write a full report. There has been no one else going before now I would have trusted to take it. But due to the reactions on the part of the two I mentioned, I almost wished I had not promised you any report. I just didnt want to deal with the results that might follow.

I sure appreciate everything you are doing for the people. Got to get this to Robin.

Thanks,

A. J.

P.S.

Best regards to every one.

To Dad.
From Ronnie my feeling on things discussed
Jones

1. feelings about death and other fears.
death is something I toyed with alot
in the states, ~~suicides~~ like the times
I've have two contracts on my life
at different times instead of hiding
I went out and looked for my contract
killers coming very close several times
to being killed. other times coming close
to death in gang fights, race riots, burglary
~~being shot at~~ shot at and chased by police most
of these I brought on myself because
I was adventurous and I guess part
masochistic because I liked it. When
I came over here into our first
white knight I was kind of nervous
being that I had to wait so long
to die after the third day it
didn't matter to me how it died
just as long as they hurried up.

2. what would happen to ~~you~~ you(me)
if anything happened to dad? It would
be certain death. I would commit ~~suicide~~ revolution-
ary suicide.

FE-1-I&J-191

-any suicide.

3. Would you be prepared to kill your wife & child, relatives? I would kill them even torture them although I may care for them the hurt of them committing a treasonis act will cause hatred.

4. What do I miss about the states? only some of my relatives.

5. Would it be worth the sacrifice if I could go back to the states? Hell No! Only to get killed several traitors and thats who with definit assurance clear passage through customs before mission becomes a failure.

6. What are your sexual feelings - children - men - women? I have both sexual feeling towards male and female

7. Sexual feelings about carrying a gun. they used to be the big Macho Brando type personality (penis symbol) after seeing others I noticed it in them and mentally myself, I found it exhilarating to me. now that I am aware of it I stay away from the responsibility of carrying guns and out of sight.

(Ronnie Jones) EE-1-I&J-192

Socialism is awareness, reality opportunity to endeavor in any academic or occupation, trade you want to. Socialism is learning to care for each other. Concern for people in bondage in other Countries as well. It teaches us to expand our sharing not just between are immediate family but between everyone. Socialism elevates are minds above the animalistic stage of capitalism and fascism.

W. What guilt to you have? I have guilt that I didn't use my mind for the Collective like I did myself in procuring goods and getting cheaper rates like I do for myself. That was my specialty in dealing the white business man and making them look like fools. I could have done this for the cause.

(2) What do you feel about white Knights? Its something that has to be done if one wants freedom and is willing to die for it. It may use stronger everytime.

EE-1-I&J-193

8. What have I heard about the ~~last~~ week that's happening in the world? Congressman Diggs a Black man who was the founder of the Black caucus has been framed with 37 charges against him. Congressman Millbo white of New York outspoken liberal was set-up also with a homosexual charge involving two boys. Elgudge Clever was kicked out of the church meeting held by white Baptist. He was a Baptist preacher but the Blacks don't trust him and the white can't stand him so he joined with Wallace & Mahumad another sell out. also if President Carter doesn't sign the genocide treaty and arms treaty in Black & white Russia will start making a Big American weapon ~~Day~~ next week. the struggle continues in South africa, Rhodesia (Zimbawe) and Namibia.

9. what is socialism to you? when the wealth is distributed equaly by the dictator of the working class.

RE: WRITE-UP FROM SECURITY MTG

DEAR IT HAS BEEN MADE AN EXTREMELY EASY THING TO ACCEPT - ALMOST TOO MUCH SO - THEY'VE MADE IT AS SIMPLE AS DRINKING A CUP of COFFEE - ALL I CAN SAY ABOUT PAIN IS WHEN I WAS YOUNGER AND TRAINED ATHLETICALLY I'D PUSH MYSELF TO ACCEPT PAIN AS PLEASURE - THOUGH A DIFFERENT TYPE OF PAIN THAN TORTURE I DONT THINK I FEAR THAT BUT WHAT'S THAT - YOU DONT REALLY KNOW JACK SHIT UNTIL ITS RIGHT ON YOU - SO I'LL CONTINUE PREPARING MYSELF W/ A PESSIMISTIC OUTLOOK

YES I COULD KILL WIFE OR CHILD OR WHOEVER IF TRAITOR - I KILLED SEVERAL OF MY DOGS AND I WAS QUITE CLOSE TO THEM MORE SO THAN MANY FOOLS I KNOW. - ONE FEAR IS HOW TO DEAL W/ FOLKS IF SOMETHING HAPPENED TO YOU. I'm FAIRLY CERTAIN THERE'D BE A LOT OF SHIT THAT WOULD GO DOWN. IN THAT WE LIVE ON BORROWED TIME NOW

(LIFE) → THINGS WOULD ONLY BE SPED UP. TO BE ~~BANK~~ AWAY W/ US THERE'D BE UNCONTROLLABLE ANARCHY HERE. IF ABLE TO I'D BOLT + PURSUE SOME OF THE PRICKS THAT HAVE TRIED TO DO US IN OVER THE YEARS EVEN IF IT TOOK KAMA-KAZI TACTICS (WHICH I'VE BEEN THINKING ABOUT IN PAST FEW DAYS IN REGARDS TO STOEN). I HAVEN'T POLISHED ANY PLAN TO OFF ANY PIGS.

WHAT I MISS ABOUT STATES IS QUICK FOOD (PLASTIC FOOD), BECAUSE OF MY ORIENTATION TO THE STOMACH - I'M NOT PREOCCUPIED W/ THAT IN THE LEAST. I REALLY MISS HAVING THE ABILITY TO MAKE CONTACT W/ STREET FOLKS TO ENABLE US TO GET BATTLE MATERIAL.

BY THE WAY - I GET MORE THAN ENOUGH FOOD HERE

WHAT I TRIP OFF ABOUT A GUN IS HOW ACCURATE WILL I BE WHEN I HAVE TO USE IT. AS FAR AS SEX RELATED TO GUN I CAN JERK OFF W/ MORE ACCURACY (IN MY HAND) + PREDICTABILITY.

THINGS I'VE PICKED UP ON IN NEWS IS THE CLONING + HOW CLOSE WE'RE COMING TO A REAL 1984 SITUATION GLOBALLY - I'VE BEEN IMPRESSED W/ THE RED BRIGADES ORGANIZED EFFORTS IN JAPAN + ITALY.

FEARS FOR FOLKS THERE (U.S) IS ALWAYS NUCLEAR HOLOCAUST OR CAMPS - HERE IT'S FOLKS IN THIS GOV'T. THEY'LL RELATE TO BURNHAM HOOKING UP W/ RUSSIA + PPP WHICH SEEMS INEVITABLE IF THINGS GO WELL IN USSR. SOCIALISM - NO GOVT. TOTAL CONTROL OF PRODUCTIVE RESOURCE ECONOMICS BY THE PEOPLE + APPRECIABLE AMOUNT OF KINDNESS, COOPERATIVENESS + WARMTH SHALL EXIST

To: Dad

First I want to start off by saying what I miss about the U.S. I really should not be missing anything to tell the truth, but also to tell the truth I still have want for different foods such as Soda pop, and chewing gum. We've had them two here but I just used to drink alot of sodas and chew alot of Double mint gum. This is about all I miss, I feel besides going to movies of my choice - which mostly have something scary in them, or killing, or alot of sex. Most especially I watched movies in the U.S. that were sexual movies, ie. X rated. Which is alot of my problem today because of this. Since I am on the subject I might as well go on with my sexual attractions. I have some attractions for — Michelle Touchette, Terry Jones, Debby Blakey, Stephany Chacon and Joan Pursley. I know maybe this might be ridiculous but there are times that I have attractions for all 5 of these sometimes I think about one, sometimes I think about all of them. And all 5 of these ladies I know I could not have anything to do with, partly because I'm not their type, if you know what I mean. I find myself staring at these people at times. I know 2 of them are in Georgetown now but when I did see them I tried by best to talk to them. But I'm trying to keep my sexual desires and feelings out of the way until we have time for it when this whole world is free from all capitalist oppressions. Right now I feel I cannot do anything sexually because of the revolution feelings I have. Which means that Socialism means alot to me right now. A whole lot I feel it is my life now not just a part of it but all my living is towards Socialism now and forever!

EE-1-I&J-196 →

Also I feel I cannot go back to the US. because I know I would be arrested for something once I get there, If not I would be stealing to go to jail or I would end-up trying to kill someone or would get killed in the process. So that is what it bears down to about my feelings about going back to capitalist America. How I feel about death? Oh it would be a relief, because I would know that however I was to die, I know that it would be for something good. For this Socialist - communistic revolution I would do anything if that means give up my life in any kind of way, well so be it. Who cares if you die but as you've told us that is the best thing that could ever happen, but we shall go on living as long as possible, as long as they let us go on, and as long as they leave us alone and let us build. Which also ties in with how I would deal with a traitor, wife, child, friend, foe, or what have you, if they turned against us they are better off dead. I would not have any bad feelings or hesitancy of killing anyone who sold out or turned traitor. They are no good and don't deserve to live in a new world. And if anyone were to kill you or you were to die some mysterious way or just naturally I would just go crazy on all people who have turned against us and anyone who has done anything to hurt this cause. I would kill them with my bare hands if I had to. Some maybe slowly depending on what they did but knowing me when I got mad I want to hurry up and get it over with. Although they deserve worse I feel I would try to kill them quick. EE-T-I&J-197

I can't think of any fears that I have maybe all people are supposed to have fears but maybe some don't. I feel I have no real fears. Maybe the only fear I have is of fear itself I don't know. I used to have fears of heights but I got over that in the states because of an Aviation class I had I loved to fly planes so I made myself get over it.
I feel that the only real threat to our people here or over there in the states is what the traitors can think up along with the C.I.A. and other racist, and fascists. If they were to work together to take over Guyana or the whole world if they were to try. For our people back there it is worse because they could be taken to concentration camps. One thing I forgot to say about my sexual feelings is that I try and prefer women with good sized breasts and nice figures but those type of women all are kind of superior to me because I feel low to them. In other words I feel I could not go with them because they are too good for me or there is something they don't like about me, or maybe they just prefer better looking, or higher positioned males I don't know. But that's what it seems with a lot of the women.
How I feel about carrying a gun. Well I used to feel that people would like me better or I would get more respect and friends if people saw me with a gun. But for a long time now I feel rejected because of it and I've always have hated carrying the damn thing in the first place. The only thing I really like having one in my hands is to see what I can do to a traitor with it. But other than that I resent carrying it around

our own people. But I also know that we may have some who will try to run and so both and because of this I know it is ~~necessary to do too~~. I despise traitors most especially if they were to show - their faces in front of us, or if one was to turn out in Jonestown now or some day soon. Which I go into my guilt feelings. I feel alot of guilt for the carelessness of the two accidents with the shotgun. I was scared for a long time the first time because I thought of what could have happened, one or all in the house the children, Carolyn, or Maria, or even you especially. I don't know how I could live with myself if someone of our people were shot, especially if you were in the house. I feel if I were to shoot the gun on accident and it were to kill you I feel I would blow my brains out with the next shell. Because I know if you were killed even and most especially on accident the people would have me killed that's how I feel it would happen. And that's just why I take extremely cautious measures with a gun now. I always slowly and carefully check it out to see if it is already loaded and to never point in the direction of people.

Last of all in this letter is this weeks news. Eh before I finish I have never made any comment to anyone or complained about "White knights" I know that they were all necessary and could not be helped because of the situation at the time. But I did say and I said it to you, that something needs to be done about inexperienced gun carriers and users. → EE-1-I&J-199

Now last of all and I hope I got it all down that is the information that you wanted us to write. I know this is a terribly long letter and I'm sorry I hope it doesn't keep to much time off of your busy schedule and I know my writing is kind of sloppy too.

The News of the week:

I remember you saying Eldridge Cleaver former BPP co-leader joined W.D. Muhammed in the Black Muslims. Which I think is one of the dumbest things he's done since learning Christ.

Also Zaire is a fascist regime. Uganda a once powerful country under Idi Amin now turns towards western imperialism. South Africa is a dreaded apartheid of the U.S. imperialists. In the Zimbawean schools C.I.A. funding drugs to be distributed through the school to kill off the youth of Zimbawe. 42 times black population also.

The Soviet Union has demanded for the third time for the U.S. to band their Neutron Bomb. If the U.S. keeps on making them the U.S.S.R. will start making them and in much heavier machinary. And so they will be able to defend themselves.

Freedom fighters in Ethiopia. A once German ruled country now called Namibia.

Jobs in the U.S. getting worse. Unemployment rose 2% last month.

Prime Minister Bhutto due to die of execution by hanging in Pakistan, which is a capitalist country, and Bhutto was a capitalist leader too. He is charged with "conspiracy of murder and alleged murder."

FE-1-I&J-200 →

Venezuela signs a treaty with the "Left Antilles" A group of islands in the Caribbean.
Child abuse in all public schools in the U.S. Breasts, and penises being cut off.
Different racists political leaders in U.S. trying to bring back the hanging and lynching law. They say it is the truest Christian way of law and order.

Also Bangladesh, a country where 2,000,000 people were killed in catastrophes. Now has no tobacco or alcohol, and transportation consists mainly of bus service. Roads are asphalted. The Peoples Republic of Bangladesh is going very close to the Soviet Union. They are recruiting and training more doctors than any small country. They are also training many female paramedics to carry medicine on bicycles.

This is just a brief part of the News for this week. But I don't want to take up any more of your time. Thank you for your love and also thank you for letting us be some of the few that you have some trust in. And thank you for allowing us to write up the analysists.

Your Son,

I feel as if I have been given the opportunity to speak to you that death is easy because of his assassination and to speak to you is an example left to me because of the responsibility I must live with. I would have to think about people starving and suffering all over the world but I would live with it and I could live with it. I feel that anybody could live with it. I have no fear but I'm sure never be certain until it comes here to face with it and then I know I'll judge my reaction. I fear the hell that our children might not get the chance to grow up and prepared to kill rotten and anyone who betrays this cause. I don't as what's more about the death as this city life. I never really cared much about material things or clothes or keep cars mean really impress me. I would have to work for sacrifice. For as my sexual feelings I have a homosexual feeling about being celibate with someone we feel its control. As far as carrying a gun at first I like it it gives power a sense of this kind of big man image but I don't care it much about it because all that that is superficial fuck image. On the news we heard about week we about Charles Briggs and his crew up. We heard about the 3 nurses who killed 54 people by suffocation. We heard Henry Norton refuse to come to Hungary because he said he but they let us in. We heard about Cesar Chavez attempt Empire Farms life by starving an U.S. Labor rights Pennsylvania Indian massacre because the cow going to and Indian killed leading rebellion JFK assassination. We heard 67 year old man reproduce a robot in his own image. We heard about airlines etc etc.

Socialism to me is worth sacrifice to make life more mean
for people who have suffer like in Rhodesia all through
abroad and all people who are oppressed. Socialism is
the struggle of a new world society that one will exist
but is long long long road of sacrifice. Major threats
for our people are back home and our properties are
being threats to be taken by may 7 they have come back
for our on all kinds of arrest orders threats if you went
back you would mean be trusted. Even if you went
there would exist upon going through customs. Another thing
to do off of our money coming to Guyana.
If anything happen to dad it would mean open season
on me and all of the family I see only 2 things
revenge the death or try to help keep the organization
together because I feel that full of disappointment to
you all the years of sacrafice to let the group
just die. At this stage don't the group stable
enough for that because Red heavy side of demos
and children. but for sure would make sense all that
are gotten another thought if the group wasn't stable
enough we could get together and commit revolutionary
suicide that would best serve socialism.

Guilt to me one thing about guilt you must alwa
might suck it doesn't turn to hostility because of the f
it require. I have guilt that people all over world are
miserable condition like the man who fell a deep drunk and
they killed his baby and put it on the lap. I often think
about out of all the million of people in the world I am
with you. I'm not shit but I'm here. I have guilt b
I feel continue you Dad don't have the right to go th
the shit you do. I know that its because it requires m
out of me.

EE-1-I&J-203

P.S.

I feel guilt about being in prison sometimes because I have so many people down on me. Sometimes I wish I was dead so I wouldn't be responsible. I feel guilt that I didn't suffer more because if I suffer like some people it would ease the guilt. A lot of times when pain get hurt bad I wish it was me I have been that through your example.

Thank you Dad

People who went there were tortured and many were never heard of again. It's a crime against humanity that there was no protest there for such an internationally known ship
