From: Andy re: PR - monkeybread Fri. May 20

Harvey Milk: no monkeybread. Yesterday, took him a fern from Valu Giant to the store.

Charles Garry- Tim Clancy took him the bread

Christina Vasquez- was out. left bread with husband's law firm around the corner. She is going to Ireland for three weeks on June2nd. Goodbyye party is May 26th. Wants to go to Guyana Nov- Dec, but interested in charter plane possibilities.

Engle- saw her. Warm as usual. She said " outtlasting the attackers is the test."

Julie Fare- very warm. Met in radio station lobby with her friend Doris Ward. Doris know Jim from Indianopolis, and apparently was in services there. Doris mentioned miracles and the diet Jim advised for high blood pressure after they and the receptionist sampled the delicious bread. They were quite pleased with the bread. Julia spoke as if she had been here only once two years ago, and I told her we'd like to invite her to a future concert we might be having. She said " please call me." Very warm. " Spoke of Prokes as an " excellent person ", and added all people are " so warm at the Temple, really." Doris hadn't heard of Jim for years after leaving Indianpolis until one day her clearing lady spoke of a " Jim Jones" and Doris found out it was the same Jim Jones. Doris is Black and her name is often in the Sun Reporter, if it is the same Doris Ward. I told Julia that anytime she and Nathan are in the neighborhood to drop in, meaning Guyana but which she mistook for 1859 Geary, but she said she would drop in 1859 Geary sometime, so we had better invite her to the concert ~~fimmix~~ instead.

Yvonne Golden: secretary said YG was out in the community at a meeting,but I should leave the bread on her desk and the sec'y would call, telling her it was there. I said I could easily drop it off at Yvonne's house, saving Yvonne the trouble of coming out to the school to pick it up, but sec'y said no, better to leave on her desk, which I did.

Tom Fleming- Said Jim called him last night and/ and invited him to Jonestown, " I told him I couldn't come down until July because I have to be here (SF) to help with buying the presses." Then Fleming mentioned that it might be"early fall." before he could go to Guyana.

Goodlett : left with receptionist.

Connie Williams- is the one I will give the last monkeybread to. She's been sick, Nina thinks, with a heart stroke or attack, but Connie remains on her feet and not in bed as Connie told me her doctor said she should.
