1 --RESPONSE: regarding the 3 large parts to the distilliate thing...it was felt yes, send it...we will have use for it. That was items 1, 2 and 3 on this memo. DO NOT TAKE OFF THE INSULLATION...from the 20 gal hot liqui holder....we have use for this as is...

As far as other pressure cooker, etc...grates, etc... send it complete along with any instructions you might have in connection with it. It should go in the large crates -- and mark it to ATTENTION OF DON FITCH WHEN IT GETS TO JONESTOWN....DO SEND INSTRUCTIONS IF YOU HAVE THEM, AND MARK THE ITEMS "1 of 3, 2 of 3, and 3 of 3" and these are the instructions, etc.

THIS IS IN REFERENCE TO YOUR COMMENT ABOUT THE 18th-19th century chemica distillation some of which is described in books already obtained. SEND THE BOOKS IN SOMEONE'S CARE, BUNDLE IN PLASTIC AND WRITE AGRICULTURE DEPARTMENT ALL OVER IT....ATTENTION TISH LEROY....we are trying to collect these books in the Agricultural library section....

Also, try to get the connecting pipes, various sizes and lengths if at all possible to procure them....If buy, must clear with Maria.

2--RESPONSE....REFERENCE IN LAST SYNANON LOAD, THIS QUESTIONALABLE ITEM..... "55 gallon drum, "Hunt" concrete curing, "Spray it and forget it,"...only description clear, all resin base....PLEASE TRY TO CONTACT MANUFACTURERE ON THIS AND GET SOME INSTRUCTIONS IF YOU CAN... We possibly have ingredients in Jonestown for making concrete --we are perusing it andsearching forthe materials Jack Barron thinks from lay of some of rock structure, we have the ingredients to make it...so this item may prove important.

3--RESPONSE....Also from Synanon, about 2500# fertilizer in 2 oz packets for home use. If shipped in large fibre drums, 2/3 crate..SEE SAMPLE.... Gene is handling the Nursery and orchards, and we set out our own plants-- thousands at atime....this would be very beneficial to us. DO SEND SOME DOWN AHEAD OF THE LARGE SHIPMENT, PERHAPS IN SOMEONE'S PERSONAL BELONGSNGS CRATES.. Can use several hundred packets to start with --like immmediately. We never asko for it because of the great expense.....but since we "have it in hand..." we are delighted and hope it will come down at least in part...forthwith..."
